ADM 401(k) Plan for Hourly Employees

We have audited the accompanying statements of net assets available for benefits of the ADM 401(k) Plan for Hourly Employees as of December 31, 2001 and 2000, and the related statements of changes in net assets available for benefits for the year ended December 31, 2001 and the period August 1, 2000 (Inception) through December 31, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2001 and 2000, and the changes in its net assets available for benefits for the year ended December 31, 2001 and the period August 1, 2000 (Inception) through December 31, 2000, in conformity with accounting principles generally accepted in the United States.

1. Description of the Plan

General

The ADM 401(k) Plan for Hourly Employees (the Plan) is a defined contribution plan that became effective August 1, 2000 and is available to all eligible hourly employees of Archer Daniels Midland Company (ADM or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Company designed the Plan to operate in cooperation with the ADM Employee Stock Ownership Plan for Hourly Employees (ESOP). Prior to August 1, 2000, the 401(k) and loan features were offered under the ESOP. On August 1, 2000, these features and all of the ESOP's investments other than ADM common stock were transferred to the Plan.

The Company matches contributions made to the Plan by contributing to the ESOP, in the form of ADM common stock.

An eligible employee who was eligible to make before-tax contributions under the ESOP immediately prior to August 1, 2000 became an active participant of the Plan on August 1, 2000. After that date, employees become active participants on the first day of the calendar month after completing six months of continuous employment with a participating employer at a participating location.

Effective August 1, 2000, the Company and Hickory Point Bank & Trust, FSB (HPB), a wholly owned subsidiary of ADM, executed a trust agreement and established a master trust for the Plan and certain other ADM benefit plans (Master Trust).

#### Contributions

Under the terms of the Plan, employees electing to participate can contribute from 1 percent up to as much as 15 percent of their compensation to the Plan, subject to certain Internal Revenue Service limitations.

#### 1. Description of the Plan (continued)

All Company contributions are deposited in the ESOP in the form of ADM common stock, and all contributions immediately vest to the participant. The Company match varies by location. Employees should refer to the appendix to the Plan applicable to their participating location for more complete information regarding employee contributions and employer match limitations.

#### Investment Options

Participants may invest their contributions in one or more of the investment funds offered by the Plan, including ADM common stock.

Participants in the ESOP who attain age 55 may elect to convert all or any number of shares of ADM common stock credited to their account to cash and have the cash transferred to the Plan to be invested in the investment options available under the Plan.

Participants in the ESOP may elect at any time to convert all or any number of the shares of ADM common stock credited to their before-tax subaccount to cash and have the cash transferred to the Plan to be invested in the investment options available under the Plan.

#### Plan Mergers

During the year ended December 31, 2001, ADM acquired Consolidated Nutrition and merged the assets and liabilities of the savings plan covering the hourly employees of Consolidated Nutrition into the Plan, as is the policy of ADM.

## Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50 percent of the participant account balance. A maximum of one loan may be outstanding to a participant at any time. On August 1, 2000, the participant loan feature and balances were transferred to the Plan from the ESOP.

### 1. Description of the Plan (continued)

Loans are allowed only for purposes of educational or medical expenses and purchase of a primary residence. Educational or medical expense loans are available for up to five years, and home purchase loans are available for up to ten years.

The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 1 percent at time of issuance. Principal and interest are repaid ratably through payroll deductions, with payments taken from each paycheck.

### Withdrawal

The full value of an employee's account is payable following termination of employment. Withdrawals by active employees are permitted upon reaching age 59 1/2 or for specific hardship circumstances (only after receiving a loan available to the participant under the loan program).

### 2. Significant Accounting Policies

#### Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis.

#### Investments

Investments in the Master Trust are carried at fair value. Common stocks are valued at the quoted market price on the last business day of the plan year. Investments in mutual funds are stated at the reported net asset value on the last day of the plan year. Unallocated funds are invested in a short-term money market account as deemed appropriate by the trustee. The participant loans are valued at cost which approximates fair value.

### 2. Significant Accounting Policies (continued)

#### Plan Expenses

Brokerage commissions, transfer taxes, and other charges and expenses in connection with the purchase or sale of securities are charged against the trust fund and added to the cost of such securities or deducted from the sale proceeds, as the case may be. Any remaining costs of administering the Plan are currently paid by the Plan's sponsor, ADM. While it is anticipated ADM will continue to pay these costs, the Plan does permit the reasonable expenses of administering the Plan to be paid from the trust fund.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial

statements and accompanying notes. Actual results could differ from those estimates.

### 3. Master Trust Investment Information

The Plan's investments are in the Master Trust which was established on August 1, 2000 for the investment of assets of the Plan and certain other ADM benefit plans. Investments and the income therefrom are allocated to participating plans based on each plan's participation in investment options within the Master Trust. At December 31, 2001 and 2000, the Plan's interest in the net assets of the Master Trust was approximately 6.6 percent and 12.7 percent, respectively.

The following table presents the fair value of investments for the Master Trust:
