PART I

ITEM 1. DESCRIPTION OF BUSINESS

COMPANY PROFILE

Interstate General Company, LP (the "Company" or "IGC") was formed as a Delaware limited partnership in 1986. Directly and through predecessors, the Company has been engaged in business since 1957. IGC's headquarters are located in Middleburg, Virginia. IGC has traded publicly as a master limited partnership since February 1987 on the American Stock Exchange ("AMEX") and Pacific Stock Exchange ("PCX"). During 1998, the Company's management and the Board of Directors restructured IGC and transferred the primary real estate operations to American Community Properties Trust ("ACPT") and distributed, as a dividend, the common shares of ACPT to its unit holders (the "Distribution").

The Company is engaged in two primary lines of business. First, the Company develops and sells residential and commercial land. Second, through its affiliates, IGC is engaged in the development of waste-recycling projects that use environmentally superior technology.

IGC owns the following assets: Land zoned commercial in St. Charles, Maryland, and a 50% interest in a partnership that owns land under development in Brandywine, Maryland. In addition, all of the outstanding shares of stock of Interstate Waste Technologies, Inc. ("IWT") and Caribe Waste Technologies, Inc. ("CWT"), excluding shares issued as incentive compensation for key employees, are held in a trust (the "IWT/CWT Trust") for the benefit of IGC's Unit holders.

A description of IGC's business operations and segments follows:

LAND DEVELOPMENT

IGC has extensive experience in developing planned communities, shopping centers, and other commercial and residential properties. The Company and its predecessors have developed land for more than 13,000 housing units, several shopping centers, and other commercial and retail uses.

The Company owns approximately 151 acres in Towne Center South, St. Charles, Maryland, zoned for commercial, retail, and office use. Approximately 69 acres are subject to a court-entered consent decree designating the area for wetland conservation that cannot be developed. The remaining 82 acres are available for development and are being marketed. In addition, the Company owns various other parcels in St. Charles, Maryland, totaling approximately 14 acres of developable ground. The Company currently has a contract in place for the sale of a 1-acre commercial site for \$550,000. Management expects the sale to close by March 31, 2004.

In Prince George's County, Maryland, the Company is proceeding with the development of the 277-acre mixed-use project known as Brandywine. During 2002, IGC signed a contract with Washington Homes, Inc. ("Washington Homes") for the sale, through 2007, of 869 semi-developed residential lots. The contract was amended in 2003 based on a Comprehensive Design Plan ("CDP") submission, and the lot count decreased to 827 lots, subject to final approval by Prince George's County and recordation of a plat. The sale of 114 single-family lots closed in the first half of 2003.

The County approved the CDP in February 2004, subject to various comments, which will require lot modifications and additional site plan approvals. The Company is in negotiations with Washington Homes on an adjustment to the current contract price to reflect the approved CDP. The foregoing does not include the 59 developed lots previously contracted for sale to Washington Homes. The total purchase price, estimated to be paid through 2007 is \$19,112,000. In addition to this residential land, there are approximately 40 acres of commercial land in Brandywine available for development or sale. There is also a contract in place with Zimmer Development, LLC ("Zimmer") for the sale of 13.3 commercial acres for approximately \$3,250,000. On October 23, 2003, Zimmer went firm on the contract and the sale is expected to close in 2004.

Environmental Impact. Management believes that all current land development plans can be completed without a material adverse environmental impact and in compliance with government regulations.

Competition. IGC is subject to intense market competition in all its land sales and development activities. The Company believes it can compete successfully by offering well-located land for sale that is attractive to the market.

INVESTMENT IN WASTE TECHNOLOGY PROJECTS

In 1990, IGC formed IWT to develop innovative solutions for the disposal of municipal waste and to pursue waste-recycling contracts with municipalities and government entities, as well as industrial and commercial waste generators.

In 1996, a second affiliate, CWT, was formed in Puerto Rico. CWT was established to perform waste-recycling projects in the Caribbean.

IWT/CWT's business plan is to develop and own waste-recycling projects using an environmentally superior technology licensed from Thermoselect S.A., a Swiss company. IWT/CWT has the right to develop projects using the Thermoselect technology in North, Central, and South America and for selected other projects worldwide. Typically, IWT/CWT and its alliance members offer to finance, build, own, and operate a plant for 25 or 30 years. Current alliance members include the technology provider, Thermoselect, the designer, HDR, the contractor, H. B. Zachary, and the operator, a subsidiary of Veolia Environment, one of the world's most experienced waste plant operators. IWT has also signed an agreement with Thermoselect to be its non-exclusive sales and marketing representative for waste-recycling facilities in North America and the Caribbean using the Thermoselect technology.

A description of the various IWT/CWT development activities follows:

Puerto Rico

In December 1998, CWT entered into a Host Community and Sponsor Agreement with the Municipality of Caguas, Puerto Rico. The agreement described the basis on which CWT would enter into a contract to develop and own a Thermoselect facility to process waste from the metropolitan San Juan area. On February 28, 2002 the Municipality of Caguas signed an extension of the Host Community Agreement. On April 4, 2003, Caguas filed a petition with the Solid Waste Management Authority to approve the project. On January 15, 2004, after the close of the reporting period, the Municipality of San Juan signed a Letter of Intent with the Company to become a project sponsor and to negotiate project sponsor and waste processing agreements. On March 8, 2004, after the close of the reporting period, the Puerto Rico Electric Power Authority confirmed that it would negotiate a power purchase agreement with CWT as required by the Public Utility Regulatory Policies Act. Caguas government officials and CWT's management are in talks with other municipalities, the Solid Waste Management Authority, the Puerto Rico Electric Power Authority, and other relevant government officials to support the project.

Virgin Islands

The government of the U.S. Virgin Islands conducted a competitive procurement and selected CWT in late 2000 as the preferred bidder to negotiate contracts for a two-line Thermoselect plant. Agreement with the government was reached on a waste-recycling contract in the summer of 2001, subject to satisfactory agreement with the Territory's electric utility for the purchase of power and possibly water. The utility took the position that CWT must be certified as a "qualifying facility" under Virgin Islands law before further negotiations could take place. CWT filed for certification with the Public Service Commission on December 4, 2001. An evidentiary hearing took place on March 18, 2002, and a ruling was issued on July 1, 2002, granting CWT certification. On September 23, 2003, the utility informed CWT that it was terminating contract negotiations and would issue an RFP for its power purchase requirements. In response, CWT informed the utility that it is required by law to purchase electricity from a "qualifying facility," and that it intended to pursue its legal remedies unless the utility complies. The utility and CWT have had several discussions and exchanged correspondence since the fall of 2003. No progress has been made. CWT has asked the Governor to intercede on behalf of the project. Concurrently, CWT has instructed its counsel to pursue its legal remedies against the utility. As of December 31, 2003, CWT determined that this asset had been impaired and, due to the contemplated litigation, a write-off of approximately \$2,869,000 of deferred project costs was appropriate.

Costa Rica

Early in 2002, IWT signed a memorandum of understanding with COCIM, the organization that represents the municipalities of Metropolitan San Jose, Costa Rica. The memorandum is based on a proposal for a 480,000-ton solid waste-recycling facility. A letter committing to purchase the export electricity was received from the government-owned electric utility.

The Company spent the next two years preparing feasibility and other required studies and meeting with responsible central and municipal government officials. It became increasingly clear that, despite a well publicized commitment to the environment and official documents signed in support of the project, the government lacks the institutional capacity and political will at this time to undertake the proposed project. At a Board meeting on December 18, 2003, the Company decided to suspend all activity in Costa Rica until and unless the government makes a clear, unequivocal decision to proceed to contracts. As of December 31, 2003, the Company decided that this asset had been impaired and wrote off deferred project costs of approximately \$883,000.

Collier County, Florida

In July 2002 IWT was selected in a competitive procurement in Collier County, Florida to negotiate a contract for a solid waste gasification plant. Several meetings took place with the county and its advisors. On March 11, 2003 the Board of Supervisors for the County voted to pursue further cost negotiations with IWT for a project. Then, in the third quarter of 2003, Collier County canceled its waste project procurement, deciding that it will continue to use landfills to dispose of waste. The Company wrote off approximately \$62,000 of deferred project costs as of June 30, 2003.

Capitalized Cost

Deferred costs regarding waste technology, net of direct write-offs, were \$5,716,000 and \$8,351,000, respectively, at December 31, 2003 and 2002. During 2003, in accordance with the Company's policy for deferred waste project costs, the Company wrote off capitalized costs of approximately \$3,814,000 related to the following projects:

	Project Name	Amount (in thousands)
	Virgin Islands	\$ 2,869
	Costa Rica	883
	Collier County, Florida	62
	Total	\$ 3,814

As of December 31, 2003, only deferred costs related to the Puerto Rico project remain capitalized in accordance with the Company's capitalization policy on deferred waste-recycling project costs. Please refer to Note 1 to the financial statements.

Deferral of New Project Pursuit

At a Board meeting on December 18, 2003, the Company decided not to expend any material funds in pursuing new waste projects until contracts have been signed on one or more pending projects. CWT, after the reporting period, has had discussions with several prominent Puerto Rico investment banks to help it attract local stakeholders / investors. Preliminary discussions with investors have occurred, but no commitments have been received. Outside equity will be required to meet upcoming development expenses and other project requirements in Puerto Rico.

Environmental Impact.

Management believes that the proposed IWT and CWT facilities can be completed without a material adverse environmental impact and in compliance with government regulations. The many approvals and permits required under the U.S. Clean Air Act, U.S. Clean Water Act ("CWA"), and other laws and regulations will require substantial time and effort to obtain.

Competition.

There is intense competition for municipal waste-recycling contracts throughout the United States and abroad. Management believes IWT and CWT can provide superior facilities at a competitive price.

HOMEBUILDING (Discontinued)

Effective November 13, 2000, IGC's Board of Directors adopted a plan to wind down and cease American Family Homes, LLC's ("AFH") operations following completion of the 30 homes then under construction. At the time, the Company estimated that it would incur a loss of approximately \$700,000 as a result of closing down AFH. Of this estimated amount, \$659,322 has been incurred through December 31, 2003. The Company anticipates that the remaining estimated costs will be incurred for warranty and related items for which it is obligated.

Environmental Impact. Management believes that the Company's homebuilding operations were in compliance with governmental regulations.

-

GENERAL

Employees.

IGC had 13 full and part-time employees as of December 31, 2003. All employees are based in the United States.

Significant Customers. During the year ended December 31, 2003, Washington Homes accounted for approximately 99%, of IGC's total revenue.

ITEM 2. DESCRIPTION OF PROPERTIES

IGC owns real property in Charles County, Maryland and Prince George's County, Maryland.

As of December 31, 2003, the Company's land holdings consisted of the following:

<u>Location / Description</u>	<u>Acres / Lots</u>
Charles County, Maryland Commercial, office or light industrial acres - developable acres	96

Open spaces, lakes, and undevelopable acres	60
Remediation site - undevelopable acres	69
Prince George's County, Maryland	
Lots to be finished	11
Semi-developed lots *	713
Commercial acres - Developable	40
Commercial acres - Possible school site	10

* subject to negotiation with Washington Homes and final site plan approval

LEGAL PROCEEDINGS

ITEM 3.

Wetlands Litigation

As previously reported, wetlands litigation was commenced by the United States Government in 1996 against the Company, its affiliates, St. Charles Associates, LP ("SCA"), and James J. Wilson. In November 1999, the Company pled guilty to a single violation of the CWA, and the Company and its affiliate, SCA, entered into a consent decree whereby the civil complaint by the government against them for alleged violations of the CWA was dismissed. Pursuant to the Consent Decree, the Company and SCA paid a civil penalty of \$1,360,000, placed \$40,000 in escrow to pay for certain remediation costs in the Dorchester neighborhood of St. Charles (referred to as "Dorchester and Parcel Q"), and agreed to complete within 24 months a remediation plan covering certain land in Towne Center South and in Parcel L, another location in St. Charles.

In March 2001, the Company and SCA sought to set aside the Company's criminal conviction and to vacate the Consent Decree entered in 1999. On June 12, 2001, the District Court denied defendants' requests. The Court subsequently stayed the time limits for carrying out the Consent Decree. Under the stay, time limits were suspended for a period not to exceed 15 months from a final judicial determination of the matters on appeal. Pending the stay, the Company was prohibited from the development or sale of any parcel at Towne Center South other than one thirty-acre parcel. On July 2, 2002, the United States Court of Appeals for the Fourth Circuit affirmed the decision of the District Court that has now become final, allowing the Company to proceed with the sale or development of approximately 80 acres of commercial land in St. Charles' Towne Center South. The Company was obligated to complete the previously ordered restoration by January 2, 2004. The status of this obligation is addressed in the following paragraphs.

Following the entry of the Consent Decree in 1999, remediation pursuant to an agreed plan began in 2000 in conjunction with the development of the Company's Towne Center South property. Work was suspended when the Company filed its motion seeking to vacate the Consent Decree. In July 2003, the Company entered into a contract for the required work at Towne Center South. Work commenced in late July. The contract is guaranteed by Interstate

Business Corporation ("IBC"), the Company's general partner. The total contract amount is \$1,237,000, of which \$125,000 is for prior unpaid services rendered by the contractor. The \$125,000 was paid to the Contractor in August 2003. An additional \$700,000 was paid against the base contract on December 15, 2003. The contract provides for cash payments plus the transfer to the contractor of a three-acre parcel at Towne Center South, which is subject to an existing mortgage. Should the Company not be successful in transferring this property debt free, it will be required to make additional cash payments. As of this filing, the Company is working to prepare a lot transfer agreement to the contractor. The Company has entered into a contract with the same contractor for the restoration work on Parcel L. The base amount of the contract for Parcel L is \$123,000. It is estimated that the work will take approximately one month to complete and is to begin in early April. It is estimated that the combined cost of remediation work at Towne Center South and Parcel L will be approximately \$1.5 million. The final cost of remediation could be more or less, depending upon the cost of planting vegetation, engineering and legal fees.

The remaining estimated cost for the remediation of \$789,000 is included in the liabilities section of the balance sheet as an accrued liability under Liabilities Related to Land Development. The cost of the remediation has been capitalized in the cost basis of Towne Center South as it relates and is integral to the development of that parcel. The Company believes that the net realizable value from the sale of the 80 acres of commercial property in Towne Center South will exceed the asset value recorded on its balance sheet, which includes the \$1.5 million accrual. The Company intends to fund the remaining cost of remediation principally from land loan proceeds secured by its Brandywine Project. The remediation was not completed by January 2, 2004, making the Company liable for fines of \$1,000 per day for the first thirty days of non-compliance, \$2,000 per day for day 31 through 60, and \$3,000 per day thereafter, plus other possible penalties. The estimated fines through April 30, 2004 (the date which management expects to have the work complete) are \$270,000. There have been discussions with Government representatives about relief from the imposition of fines without reaching agreement to date.

Langley v. St. Charles Associates, et al.

In 2000, the owners of a parcel of land located in Charles County sued the Company and one of its officers in the Circuit Court for Charles County, Maryland. The complaint claimed damages allegedly flowing from trespass and restrictions of access to property resulting from the construction of a county road in Charles County. The construction in question was completed by St. Charles Community, LLC, by agreement with and permission from the County. The first and second counts of the complaint sought \$10,000,000 in compensatory damages and \$10,000,000 in punitive damages. The third and final count sought an easement and right of way to the county road. On April 13, 2001, the Circuit Court dismissed all individual corporate officers from the lawsuit and dismissed the second and third counts. The Circuit Court also ordered that the County Commissioners of Charles County be joined as defendants in the case. The plaintiffs responded by filing an amended complaint purporting to cure the defects prompting the dismissals and adding the County Commissioners as defendants. On October 12, 2001, the Circuit Court again dismissed the individual corporate officers and dismissed the second and third counts with prejudice. Finally, by order dated November 27, 2002, the Circuit Court granted summary judgment on the remaining trespass claim in favor of the Company.

The plaintiffs have filed an appeal to the Maryland Court of Special Appeals, which is still pending. However, the parties to the appeal have reached an agreement in principle that, once finalized, would lead to dismissal of the appeal. The parties intend to formalize their settlement agreement in the upcoming weeks.

Other

The Company is also involved from time to time in other miscellaneous legal matters that arise in the normal course of business. In Management's opinion, none of the actions is of such a degree whereby there would be a material adverse impact on the financial condition or results of operations of the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET PRICES AND DISTRIBUTIONS OF UNITS

IGC Units are traded on the American and the Pacific Stock Exchanges. The following table sets forth for the periods indicated, the high and low sale prices per IGC Unit as reported in the consolidated transaction reporting system and cash distributions paid to unit holders during these periods. IGC Units commenced public trading on February 19, 1987.

	Price Range of IGC Units	
	High	Low
2003 Quarter:		
Fourth	\$4 3/10	\$3 1/10
Third	5 11/25	4 1/20
Second	5 7/10	3 7/10
First	4 3/5	3 1/10
2002 Quarter:		
Fourth	\$3 65/67	\$3 1/10
Third	4 1/5	3 4/5
Second	5 1/4	3 19/20
First	5 39/83	4 7/20

There were no cash distributions for 2002 or 2003.

At close of business on March 17, 2004, there were 99 IGC unit holders of record. As of March 17, 2004, the closing price reported by AMEX was \$2.69 per unit.

IGC is required by its Third Amended and Restated Limited Partnership Agreement, to make cash distributions to limited partners of not less than 55% of taxable income, calculated for public IGC unit holders. For the year ended December 31, 2002, IGC had taxable (loss) of (\$4,236) or (\$2.02) per unit. As of the filing date, the Company has been unable to make arrangements with third party consultants to complete the tax return calculations for the year ended December 31, 2003.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

ITEM 6.

FORWARD-LOOKING STATEMENTS

Certain matters discussed and statements made within this Annual Report on Form 10-KSB are forward-looking statements within the meaning of the Private Litigation Reform Act of 1995 and as such may involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance or achievements of the Company to be different from future results, performance or achievements expressed or implied by such forward-looking statements. Although the Company believes the expectations reflected in such forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. These risks are detailed from time to time in the Company's filings with the Securities and Exchange Commission or other public statements.

For the year ended December 31, 2003 versus 2002

Land Development Operations

Land development sales revenue decreased 40% to \$2,652,000 during the year ended December 31, 2003, compared to sales of \$4,420,000 during the year ended December 31, 2002.

Both years include sales at the Company's Brandywine project where all residential acres are under contract with Washington Homes, Inc. (WHI).

There are two contracts in place for Brandywine. The first contract, dated September 10, 2001 ("Contract A"), is for the sale of 48 completed single-family lots, all which have been delivered, plus an option to purchase 11 additional lots, which WHI has exercised. The second contract, dated February 21, 2002 ("Contract B") is for the sale of the balance of the residential land, which will be sold on a semi-developed basis. The Company and WHI are jointly pursuing the final site plan for those lots.

The

2002 period reflects the sale of the Company's Westbury project to a related party, IBC, for \$2,620,000. The sale was reviewed and approved by IGC's Board of Directors and the price was based on an outside, independent appraisal. In addition, the 2002 period reflects sales of 36 single-family lots at the Company's Brandywine project. The lots were sold for \$50,000 per lot and produced gross revenues of \$1.8 million.

The 2003 period reflects the sale of 114 townhouse lots and 12 single-family lots at the Company's Brandywine project. Gross revenue from the sale of the 114 lots was \$2,052,000 and the sale produced a positive gross margin of 22%; while the gross revenue on the 12 single-family lots was \$600,000 with negative gross margins. The negative gross margins are a reflection of extended holding periods and larger than anticipated costs for delivering completed lots.

Interest and Other Income

Interest and other income declined 82% to \$28,000 during the year ended December 31, 2003, compared to \$156,000 during 2002. The 2003 period reflects approximately \$20,000 in interest income earned on receivable amounts due the Company and approximately \$8,000 in miscellaneous income. The 2002 period primarily reflects the collection of

approximately \$150,000, representing the Company's settlement from the sewer and water litigation.

Cost of Land Sales

Cost of land sales decreased \$2,327,000 to \$2,146,000 compared to \$4,473,000 for the same period in 2002. The costs in 2003, and a majority of those in 2002, represent expenses relating to the development of the Company's Brandywine project referred to in the above sales discussion. Included in the 2002 expenses are \$84,000 of costs for improvements and repairs required under the subdivision agreement bond with St. Mary's County for lots previously sold, as well as period costs, and cost of sales at the Company's Westbury project.

General and Administrative

General and administrative costs decreased 30% to \$1,637,000, compared to \$2,353,000 for the same period in 2002. The Company experienced operating expense increases over 2002, primarily related to increased health and corporate insurance costs. The Company was able to reduce its overall expenses in 2003 due to reductions in: legal fees, public company expenses (Registrar and Transfer agent fees, 10KSB printing, postage, press release fees), office relocation costs (relocation occurred during 2002), and computer and equipment leasing fees (paid off in late 2002). A further reduction occurred during 2003 due to allocation of salary between IGC's various activities. As a result, a greater portion of salaries was expensed in waste project marketing and development during 2003 than in 2002, as well as capitalized to real estate and waste project activities. While some of the overhead costs above are generally beyond the Company's control, Management continues to look for ways to reduce the Company's general and administrative expenses and has been successful in reducing normal operating expenditures, thereby offsetting a part of the increase attributable to the above mentioned insurance costs.

Waste Project Expense

Waste project expense decreased \$330,000 during 2003, compared to \$613,000 for 2002. The decrease is primarily due to the capitalization versus expense treatment of costs. The 2002 period reflects contracting and related efforts in Costa Rica as well as costs relating to the preparation and submission for the competitive procurement in Collier County, Florida. Costs incurred for both Costa Rica and Collier County, Florida were expensed prior to the third quarter 2002.

Liquidity and Capital Resources

Unrestricted cash and cash equivalents were \$120,000 and \$403,000, at December 31, 2003 and December 31, 2002, respectively.

IGC historically has met its liquidity requirements from cash flow generated from the sale of real estate, bank financing providing funds for development and working capital, and loans from affiliates. In the coming months, the Company's principal need for liquidity will be debt reduction, debt service of existing loans, normal business operating expenses, and project development costs for IWT and CWT. The following discussion summarizes the Company's liquidity challenges and the steps it is taking to meet its liquidity requirements.

IGC is seeking an equity investor in its Brandywine project to provide working capital and for other purposes. The Company has identified an interested party and negotiations are taking place. The project continues to move through

its development program of selling semi-developed lots to Washington Homes. The Company also has a contract with Zimmer Development Company, LLC ("Zimmer") for the sale of approximately 13 acres of commercial land.

IGC has debt of approximately \$7,765,000, secured by its Towne Center South property, as well as other commercial parcels in St. Charles, Maryland. It is the Company's plan to retire such debt through land sales. The Company executed a one-year loan extension with the lender, taking the maturity date from December 1, 2003 to December 1, 2004, requiring the Company to make a first cash payment of \$3.5 million on or before March 31, 2004, and an additional cash payment of \$1.5 million on or before June 30, 2004, both of which will reduce the principal amount due on the loan. The Company is currently working with a new lender to secure bridge-loan financing to pay the March 31, 2004 cash payment. The lender is considering the request as of this filing.

Management is undertaking the following steps to retire the above debt:

- 1) The Company currently has a contract for \$550,000 in place for the sale of a one-acre parcel at Towne Center. This sale is scheduled to close by March 31, 2004. Approximately \$350,000 of proceeds from this sale will be used to curtail the existing mortgage.
- 2) The Company has had discussions with a potential buyer for its Towne Center South Lot 5. This property, consisting of approximately 30 acres, is scheduled to be developed into Towne Center South Apartments, a 404-unit luxury rental development for teachers, county employees and other professionals. The Company has applied to the County for the necessary approvals, which are expected by mid-summer, 2004.
- 3) The Company has been notified by the County and the State that an 8-acre parcel will be acquired as a park-and-ride facility. The State's engineers and appraisers are working on the offer to purchase the site. Management expects to sell the parcel for approximately \$2,000,000, with closing anticipated in 2004.

The three sales above will eliminate or substantially reduce the debt associated with Towne Center South. The Company plans to completely retire the debt within the extension period through a combination of sales and other interim mortgage financing.

IGC also has a debt of \$200,000, maturing on November 1, 2004, on a 3/4-acre commercial parcel known as D-4, located in St. Charles, Maryland. The Company plans to develop the parcel as an apartment complex, or sell the lot before the loan is due.

Substantially all of the Company's land assets are encumbered by recourse debt.

In December 2003, the Company was successful in restructuring its loan with Mercantile Mortgage Corporation, the development lender for the Brandywine project. The loan modification includes funds for future development and improvements at the project. At settlement, approximately \$4.8 million in mezzanine financing on the Brandywine property was paid off and a \$2 million working line of credit established. This line provided \$1 million for operating expenses (net of settlement and other fees), which were drawn at settlement, and provides for \$1 million for the remediation work required under the Consent Decree (see below), of which \$800,000 has been drawn to date.

The Company is subject to a Consent Decree entered into in 1999 regarding wetlands remediation (see additional discussion in Part I, Item 3, Legal Proceedings) and had until approximately January 2, 2004 to complete the

remediation requirements imposed by the decree. In July 2003, the Company executed a contract that covered most items required in the Consent Decree. The total contract amount is \$1,237,000. The contract is guaranteed by Interstate Business Corporation ("IBC"), the Company's general partner. \$125,000 was paid to the Contractor in August 2003. An additional \$700,000 was paid against the base contract on December 15, 2003. The contract provides for cash payments plus the transfer to the contractor of a three-acre parcel at Towne Center South, which is subject to an existing mortgage. Should the Company not be successful in transferring this property debt free, it will be required to make additional cash payments. As of this filing, the Company is working to prepare a lot transfer agreement to the contractor. The Company has entered into a contract with the same contractor for the restoration work on Parcel L. The base amount of the contract for Parcel L is \$123,000. It is estimated that the work will take approximately one month to complete and is to begin in early April 2004. It is estimated that the combined cost of remediation work at Towne Center South and Parcel L will be approximately \$1.5 million. The final cost of remediation could be more or less, depending upon the cost of planting vegetation, engineering and legal fees.

IGC and IBC plan either to refinance or sell assets to fund remediation cost in excess of the \$1 million Mercantile line.

The remediation was not completed by January 2, 2004, making the Company potentially liable for fines of \$1,000 per day for the first thirty days of non-compliance, \$2,000 per day for day 31 through 60, and \$3,000 per day thereafter, plus other possible penalties. The estimated fines through April 30, 2004 (the date which management expects to have the work complete) are \$270,000. There have been discussions with Government representatives about relief from the imposition of fines, but no agreement has been reached.

In addition to the debt and remediation obligations described above, estimated operating expenses for 2004 will be approximately \$3.6 million (inclusive of salary and lease commitments, but excluding remediation costs, real estate costs, and waste project development costs). This estimate assumes the Company does not institute a severe cut-back in its waste project efforts. Several of the Company's loan agreements contain provisions requiring the Company to remain solvent. IGC has a Working Capital Support Agreement with IBC. This agreement provides for IBC to meet (subject to available funds) IGC's working capital requirements. In exchange, IGC has agreed to repay IBC from funds available from waste projects, after deducting reasonable expenses for operating needs, and /or proceeds from real estate sales, provided there are sufficient funds available, and subject to the discretion of the IGC Board of Directors. There is no assurance that IBC will be able to provide sufficient funds, as needed, for IGC to continue its operations. At the present time, IGC is current in meeting payroll and a very limited number of other essential costs only. IGC is in arrears with most of its vendors, including service providers on whom the Company depends in order to continue its operations. Unless the Company is able to generate sufficient cash to bring its payables more current, service providers and other vendors may discontinue providing services and other products to the Company.

In December 2003, the Company decided not to expend material funds in pursuit of new waste projects until contracts have been signed on one or more pending projects. The Company has had discussions with prominent Puerto Rico and New York investment banks to help it attract local investors for its Puerto Rico project. Outside equity will be required to meet upcoming development expenses and other project requirements in Puerto Rico.

All waste-to-energy projects will be funded by project-specific financing.

Critical Accounting Policy - Deferred Waste Project Costs

The Company capitalizes the direct costs of procuring waste-recycling projects after achieving specific project-related milestones, and when management believes the costs are probable of being realized. All other project development costs are expensed as incurred.

For competitive procurements, costs of preparation and submission of the bid are expensed. When a competitive procurement is won, all subsequent costs through financial close and commencement of construction are capitalized, including contract negotiation as well as permitting and engineering costs.

Financial close refers to the date the Company receives all proceeds and commitments necessary to pay for the financing, development, design, construction, and start-up of the facility from the parties providing the financing.

For projects that are not subject to competitive procurements, the costs of obtaining each project are expensed until such time as certain project-related milestones are achieved. These milestones will vary from project to project depending upon the political jurisdictions involved. The test is whether the Company believes it has obtained sufficient assurances from the contracting jurisdictions that the project is more likely than not to proceed. At such point, all subsequent costs through financial close and commencement of construction are capitalized, including contract negotiation as well as permitting and engineering costs.

To date, there has not been a financial close on any of the Company's waste-recycling projects.

All capitalized costs are evaluated for impairment at each reporting period. If the Company no longer believes the prospects of developing a project are probable, capitalized costs relating to that project are written off.

At December 31, 2003, \$5,716,000 has been capitalized relating to the waste-recycling project in Puerto Rico. Its recovery is dependent upon future revenues from the operation of the waste-recycling plant.

Debt Summary

As of December 31, 2003, assets with a book value of approximately \$23.3 million were encumbered by \$18,526,467 of recourse debt. The significant terms of IGC's recourse debt financing are shown below (dollars in thousands):

						Balance	
		Maximum		Interest		Maturity	Outstanding

* P = Prime lending interest rate					
(1)					
= Includes a letter of credit facility up to \$4,500,000, of which the balance outstanding at 12/31/03 was approximately \$1,900,000.					

- (a) This loan provides an operating line of credit. The loan is secured by the Company's Towne Center South parcel as well as other miscellaneous commercial parcels located in St. Charles, Maryland. The loan is guaranteed by IBC. Interest on this line has a floor of 9.5%.

The Company executed a one-year loan extension with the lender, taking the maturity date from December 1, 2003 to December 1, 2004. The loan extension requires the Company to make a first cash payment of \$3.5 million on or before March 31, 2004, and an additional cash payment of \$1.5 million on or before June 30, 2004, both of which will reduce the principal amount due on the loan. In addition, the Company is required to pay monthly interest payments, pay all property taxes out-of-pocket, and pay any legal fees associated with principal curtailments.

- (b) This loan provides operating cash and preliminary development funds. Monthly interest payments are required at 8.5%. The loan is secured by a first deed of trust on a 3/4-acre parcel located in St. Charles, Maryland. The loan is guaranteed by IBC and Wilson Securities, an IBC affiliate that is a pledgor of IGC Class A units.

- (c)

The Company has three development loans for its land development activities in Brandywine, Maryland. As of December 31, 2003, there is \$3,497,370 outstanding for development costs and improvements made to infrastructure, single-family, and townhome sections. Principal curtailments are due under these lines as sales occur.

During 2003, the development loan was amended in both July and December. Under the July modification, \$2,000,000 was added to the infrastructure budget for development costs and improvements at the project. Under the December modification, a working capital advance line was established, and the infrastructure budget increased by an additional \$250,000. The working capital advance line provides for a maximum of \$7,600,000 in borrowings. The working capital advance line was established to do the following: Retire \$4.8 million due to TJJ Corporation ("TJJ"), provide \$2,000,000 in working capital funds for the Partnership to repay inter-company loans, and to establish an \$800,000 interest reserve on the loan. The interest reserve will provide for the payments of monthly interest through the term of the loan on projected sales. The lender also established specific criteria for sales under this loan, relating to the residential and commercial acres, to which the borrower must comply by September 1, 2004. As of December 31, 2003 there is \$5,809,534 outstanding on the working capital advance line.

This development loan includes a letter of credit facility with maximum borrowings of \$4.5 million. As of December 31, 2003, the lender has provided letters of credit totaling approximately \$1.9 million. All letters of credit issued are guaranteed by the borrower and James J. Wilson, personally. The loans are secured by a first deed of trust on the property. The borrower on these loans is Interstate General Company ("IGC"), with the Partnership as the guarantor. In addition, there are two other guarantors on the loan, Interstate Business Corporation ("IBC"), IGC's general partner, and IGC Chairman James J. Wilson and his wife, Barbara Wilson.

- (d) This mortgage note requires monthly principal and interest payments of \$1,818.

- (e) Historically, the Company has had various forms of Working Capital Support Agreements with IBC. The most recent agreement, dated September 1, 2002, is an Amended and Restated Working Capital Support Agreement, whereby loans are made to IGC in the form of promissory notes. Interest is charged at prime plus 1% and accrues until paid. Payments are first applied to unpaid interest and then to principal. This agreement matures December 31, 2005, unless paid sooner. IGC shall repay to IBC, 1) the balance of funds available from waste projects, after deducting reasonable reserves for operating needs, or 2) proceeds from real estate sales, provided there are sufficient funds available, and subject to the discretion of IGC's Board of Directors.

Contingent Debt

During the year, the Company was contingently liable on two debts relating to the Westbury project, which was sold to IBC in December 2002. As part of the purchase price, IBC assumed debt totaling \$795,000, however, the lender did not release IGC. Of that amount, \$63,000 was retired in February 2003, and \$732,000 was retired in September 2003.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

To the Partners

Interstate General Company, LP

Middleburg, Virginia

We have audited the accompanying Consolidated Balance Sheets of **Interstate General Company, LP** (a Delaware limited partnership) and subsidiaries (the "Company") as of December 31, 2003 and 2002, and the related Consolidated Statements of Loss, Changes in Partners' Capital and Cash Flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of **Interstate General Company, LP** and subsidiaries as of December 31, 2003 and 2002, and the consolidated results of their operations and their consolidated cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has been unable to generate sufficient income from operations in order to meet its operating costs, debt service, and project development needs. In addition, the Company has approximately \$8,000,000 in debt maturing in 2004, and projects a negative cash flow from operations for 2004. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. Furthermore, as discussed in Note 4, certain waste technology costs have been capitalized with recovery dependent upon future revenues from the construction and operation of a waste disposal plant. Realization of the carrying amount of these assets is dependent on the success of the Company's future operations and its ability to raise capital for the project. The financial

statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

INTERSTATE GENERAL COMPANY, LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2003 AND 2002

(1) BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

IGC was formed as a Delaware limited partnership in 1986. Directly and through predecessors, the Company has been engaged in business since 1957. IGC's headquarters are located in Middleburg, Virginia. IGC has traded publicly as a master limited partnership since February 1987 on the AMEX and PCX. IBC and IGMC are the General Partners of the Company. IBC holds a .6667% general partner interest and IGMC holds a .3333% general partner interest, and is the Managing General Partner of IGC. During 1998, the Company's management and the Board of Directors restructured IGC and transferred the primary real estate operations to ACPT and distributed, as a dividend, the common shares of ACPT to its unit holders (the "Distribution").

The Company is engaged in two primary lines of business. First, the Company develops and sells residential and commercial land. Second, through its affiliates, IGC is engaged in the development of waste-recycling projects that use an environmentally superior technology.

IGC owns the following assets: Land zoned commercial in St. Charles, Maryland as well as a significant interest in a partnership that owns land under development in Brandywine, Maryland. In addition, all of the outstanding shares of stock of Interstate Waste Technologies ("IWT") and Caribe Waste Technologies ("CWT"), excluding shares issued as incentive compensation to key employees, are held in a trust (the "IWT/CWT Trust") for the benefit of IGC's unit holders.

	(A)	<u>Consolidation and Presentation</u>
<p>The accompanying consolidated financial statements include the accounts of IGC and its majority-owned and controlled partnerships, affiliates, and subsidiaries, after eliminating all inter-company transactions. All of the entities included in the consolidated financial statements are hereinafter referred to collectively as the "Company" or "IGC". The consolidated group includes IGC, SCA, BIA, AFH, SCO, IWT, CWT, and various inactive entities.</p>		
	(B)	<u>Sales and Profit Recognition:</u>
<p>Sales revenues and profits from land sales activities are recognized at settlement and only when sufficient down payments have been obtained, possession and other attributes of ownership have been transferred to the buyer, and the Company has no significant continuing involvement, as stipulated under Financial Accounting Standards Board ("FASB") Statement No. 66, "Accounting for Sales of Real Estate."</p>		
	(C)	<u>Cash and Cash Equivalents:</u>

	<p>Cash and cash equivalents include cash on hand, unrestricted deposits with financial institutions, and short-term investments with original maturities of three months or less. During the year the Company maintained cash accounts that exceeded federally insured limits. Management does not believe that this results in any significant credit risk.</p>
	<p>The Company classifies the following as restricted cash: remediation, tax, and site escrow accounts on deposit with lenders, funds in escrow for final subdivision work, and amounts received from lenders on development draw requests for payment of certified invoices.</p>
	<p>(D) <u>Critical Accounting Policy - Deferred Waste Project Costs</u></p>
	<p>The Company capitalizes the direct costs of procuring waste-recycling projects after achieving specific project-related milestones, and when management believes the costs are probable of being realized. All other project development costs are expensed as incurred.</p>
	<p>For competitive procurements, costs of preparation and submission of the bid are expensed. When a competitive procurement is won, all subsequent costs through financial close and commencement of construction are capitalized, including contract negotiation as well as permitting and engineering costs.</p>
	<p>Financial close refers to the date the Company receives all proceeds and commitments necessary to pay for the financing, development, design, construction, and start-up of the facility from the parties providing the financing.</p>
	<p>For projects that are not subject to competitive procurements, the costs of obtaining each project are expensed until such time as certain project-related milestones are achieved. These milestones will vary from project to project depending upon the political jurisdictions involved. The test is whether the Company believes it has obtained sufficient assurances from the contracting jurisdictions that the project is more likely than not to proceed. At such a point, all subsequent costs through financial close and commencement of construction are capitalized, including contract negotiation as well as permitting and engineering costs.</p>

	To date, there has not been a financial close on any of the Company's waste-recycling projects.
	All capitalized costs are evaluated for impairment at each reporting period. If the Company no longer believes the prospects of developing a project are probable, capitalized costs relating to that project are written off.
	At December 31, 2003, \$5,716,000 has been capitalized relating to the waste-recycling project in Puerto Rico. Its recovery is dependent upon future revenues from the operation of the waste-recycling plant.
(E)	<u>Accounts Receivable and Concentrations of Credit Risk</u>
	Accounts receivable are stated at the amount the Company expects to collect. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. Management considers the following factors when determining the collectibility of specific customer accounts: customer credit worthiness, past transaction history with the customer, current economic industry trends, and changes in customer payment terms. If the financial condition of the Company's customers were to deteriorate, adversely affecting their ability to make payments, additional allowances would be required. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. At December 31, 2003 and 2002, no allowance was considered necessary.
(F)	<u>Cost Capitalization:</u>
	The costs of acquiring and developing land are capitalized when incurred and charged to cost of sales as various parcels are sold. The Company's interest costs related to land development are allocated to various parcels based on their relative sales value. The portion of interest allocated to BIA's land, lots under development, and community infrastructure during the development period is capitalized to the extent of qualifying assets, and total \$3,239,409 and \$2,199,052 at December 31, 2003 and 2002, respectively. The Company carries land and development costs at the lower of cost or net realizable value.

	(G)	<u>Impairment of Long-Lived Assets:</u>
		The Company reviews land and development costs and other long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An asset is considered impaired if its carrying amount exceeds the future net undiscounted cash flows that the asset is expected to generate. If such asset is considered to be impaired, the impairment to be recognized is the amount by which the carrying amount of the asset, if any, exceeds its fair market value determined using a discounted cash flow model.
	(H)	<u>Financing and Related Loan Fees:</u>
		Financing and loan fees are amortized over the term of the loans using the straight-line method. During the year ended December 31, 2003, the Company incurred additional loan fees in connection with Collateral Mortgage Capital and Mercantile Mortgage Corporation debt, totaling approximately \$188,000. Amortization of these fees is capitalized to land and development costs and expensed to cost of sales as land parcels are sold. In addition, the Company incurred loan fees in connection with a \$200,000 line with Washington Savings Bank. These costs totaled \$12,000 and are being amortized as an expense over the 18-month loan period. For the year ended December 31, 2002, the Company incurred additional loan fees in connection with Collateral Mortgage Capital, TJJ Corporation, and Mercantile Mortgage Corporation debt, totaling approximately \$349,000.
	(I)	<u>Income Taxes</u>
		IGC and its controlled partnerships are not subject to U.S. taxes as they are organized as partnerships. Accordingly these financial statements do not contain any provision for Federal or state income taxes relating to activities that are conducted through entities organized as partnerships.
		IWT and CWT are organized as Delaware and Puerto Rico corporations respectively, and as a result, are subject to corporate income taxes.

		All Federal and state income tax liabilities and/or tax benefits of IGC and its controlled partnerships are passed through to the individual partners in accordance with the Partnership Agreements and the Internal Revenue Code. While IWT and CWT are subject to Federal and state income taxes, respectively, neither has current income and each has a net operating loss carry-forward available as a deduction against future income.
	(J)	<u>Depreciation and Amortization</u>
		Property, plant and equipment are recorded at cost. Buildings are depreciated over 35 to 40 years using the straight-line method. Furniture, fixtures and equipment are depreciated over four to seven years using the straight-line method. Deferred expenses are amortized over the period of estimated benefit using the straight-line method.
	(K)	<u>Stock-Based Compensation</u>
		The Company adopted Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation" during 1996. The Company has elected to continue to measure compensation costs using Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and therefore the adoption of this Statement did not have any effect on the financial results of the Company (see Note 8). Compensation expense, related to Unit options issued to directors and employees, is recognized at the time the options are granted in an amount equal to the excess of the currently calculated trading value of the Units over the option exercise price.
		Compensation expense related to Unit Appreciation Rights ("Rights") is recognized quarterly on a cumulative basis since the issuance of the Rights is based on changes in unit prices compared to the "strike" price of the Rights.
	(L)	<u>Loss Per Unit</u>
		Basic loss per unit is computed as net loss multiplied by the limited partner ownership interest, 99%, divided by the weighted average units outstanding. Dilutive earnings per unit is calculated using the weighted average units plus dilutive effects of potential units of options and warrants outstanding during the period unless the effect would be

		anti-dilutive.
	(M)	<u>Use of Estimates</u>
		The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
		Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the period in which they are determined to be necessary.
	(N)	<u>Reclassifications</u>
		Certain amounts in the 2002 financial statements have been reclassified to conform to the 2003 presentation. During 2002, the Company changed its method for presenting BIA from the equity method to the consolidation basis to more accurately reflect the consolidated financial position and results of operations of the consolidated group. This change had no effect on previously reported net income or partners' capital.
	(O)	<u>New Accounting Pronouncements</u>
		In December 2002, the Financial Accounting Standards Board ("FASB") issued SFAS 148, "Accounting for Stock-Based Compensation - Transition and Disclosure." This Statement, which is effective for years ending after December 15, 2003 amends SFAS 123, "Accounting for Stock-Based Compensation," and provides alternative methods of transition for a voluntary change to the fair value-based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 regardless of the accounting method used to account for stock-based compensation. The adoption of this new standard had no effect on the Company's consolidated financial position and results of operations.
		In January 2003, the FASB issued Interpretation 46 ("FIN 46"), Consolidation of Variable Interest Entities, an Interpretation of ARB 51, which expands on and

	<p>strengthens existing accounting guidance concerning when a company should include in its financial statements the assets, liabilities and activities of another entity. A variable interest entity ("VIE") does not share economic risk and reward through typical equity ownership arrangements; instead, contractual or other relationships re-distribute economic risks and rewards among equity holders and other parties. Once an entity is determined to be a VIE, the party with the controlling financial interest, the primary beneficiary, is required to consolidate it. FIN 46 also requires disclosures about VIEs that the company is not required to consolidate but in which it has a significant variable interest. Adoption did not have any impact on the Company's consolidated financial position or results of operations.</p>
	<p>In April 2003, the FASB issued SFAS 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 149 is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. The adoption of this statement did not have any impact on the Company's consolidated financial position or results of operations.</p>
	<p>In May 2003, the FASB issued SFAS 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." This statement establishes standards for how an issuer classifies and measures in its balance sheet certain financial instruments with characteristics of both liabilities and equity. In accordance with the standard, a financial instrument that embodies an obligation for the issuer is required to be classified as a liability (or an asset in some circumstances). SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The adoption of this statement did not have any impact on the Company's consolidated financial position or results of operations.</p>

(2) MANAGEMENT'S PLANS REGARDING LIQUIDITY

Unrestricted cash and cash equivalents were \$120,000 and \$403,000, at December 31, 2003 and December 31, 2002, respectively.

IGC historically has met its liquidity requirements from cash flow generated from the sale of real estate, bank financing providing funds for development and working capital, and loans from affiliates. In the coming months, the Company's principal need for liquidity will be debt reduction, debt service of existing loans, normal business operating expenses, and project development costs for IWT and CWT. The following discussion summarizes the Company's liquidity challenges and the steps it is taking to meet its liquidity requirements.

IGC is seeking an equity investor in its Brandywine project to provide working capital and for other purposes. The Company has identified an interested party and negotiations are taking place. The project continues to move through its development program of selling semi-developed lots to Washington Homes. The Company also has a contract with Zimmer Development Company, LLC ("Zimmer") for the sale of approximately 13 acres of commercial land.

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

IGC has debt of approximately \$7,765,000, secured by its Towne Center South property, as well as other commercial parcels in St. Charles, Maryland. It is the Company's plan to retire such debt through land sales. The Company executed a one-year loan extension with the lender, taking the maturity date from December 1, 2003 to December 1, 2004, requiring the Company to make a first cash payment of \$3.5 million on or before March 31, 2004, and an additional cash payment of \$1.5 million on or before June 30, 2004, both of which will reduce the principal amount due on the loan. The Company is currently working with a new lender to secure bridge-loan financing to pay the March 31, 2004 cash payment. The lender is considering the request as of this filing.

Management is undertaking the following steps to retire the above debt:

- 1) The Company currently has a contract for \$550,000 in place for the sale of a one-acre parcel at Towne Center. This sale is scheduled to close by March 31, 2004. Approximately \$350,000 of proceeds from this sale will be used to curtail the existing mortgage.
- 2) The Company has had discussions with a potential buyer for its Towne Center South Lot 5. This property, consisting of approximately 30 acres, is scheduled to be developed into Towne Center South Apartments, a 404-unit luxury rental development for teachers, county employees and other professionals. The Company has applied to the County for the necessary approvals, which are expected by mid-summer, 2004.
- 3) The Company has been notified by the County and the State that an 8-acre parcel will be acquired as a park-and-ride facility. The State's engineers and appraisers are working on the offer to purchase the site. Management expects to sell the parcel for approximately \$2,000,000, with closing anticipated in 2004.

The three sales above will eliminate or substantially reduce the debt associated with Towne Center South. The Company plans to completely retire the debt within the extension period through a combination of sales and other interim mortgage financing.

IGC also has a debt of \$200,000, maturing on November 1, 2004, on a 3/4-acre commercial parcel known as D-4, located in St. Charles, Maryland. The Company plans to develop the parcel as an apartment complex, or sell the lot before the loan is due.

Substantially all of the Company's land assets are encumbered by recourse debt.

In December 2003, the Company was successful in restructuring its loan with Mercantile Mortgage Corporation, the development lender for the Brandywine project. The loan modification includes funds for future development and improvements at the project. At settlement, approximately \$4.8 million in mezzanine financing on the Brandywine property was paid off and a \$2 million working line of credit established. This line provided \$1 million for operating expenses (net of settlement and other fees), which were drawn at settlement, and provides for \$1 million for the remediation work required under the Consent Decree (see below), of which \$800,000 has been drawn to date.

The Company is subject to a Consent Decree entered into in 1999 regarding wetlands remediation (see additional discussion in Part I, Item 3, Legal Proceedings) and had until approximately January 2, 2004 to complete the remediation requirements imposed by the decree. In July 2003, the Company executed a contract that covered most items required in the Consent Decree. The total contract amount is \$1,237,000. The contract is guaranteed by Interstate Business Corporation ("IBC"), the Company's general partner. \$125,000 was paid to the Contractor in

August 2003. An additional \$700,000 was paid against the base contract on December 15, 2003. The contract provides for cash payments plus the transfer to the contractor of a three-acre parcel at Towne Center South, which is subject to an existing mortgage. Should the Company not be successful in transferring this property debt free, it will be required to make additional cash payments. As of this filing, the Company is working to prepare a lot transfer agreement to the contractor. The Company has entered into a contract with the same contractor for the restoration work on Parcel L. The base amount of the contract for Parcel L is \$123,000. It is estimated that the work will take approximately one month to complete and is to begin in early April 2004. It is estimated that the combined cost of remediation work at Towne Center South and Parcel L will be approximately \$1.5 million. The final cost of remediation could be more or less, depending upon the cost of planting vegetation, engineering and legal fees.

IGC and IBC plan either to refinance or sell assets to fund remediation cost in excess of the \$1 million Mercantile line.

The remediation was not completed by January 2, 2004, making the Company potentially liable for fines of \$1,000 per day for the first thirty days of non-compliance, \$2,000 per day for day 31 through 60, and \$3,000 per day thereafter, plus other possible penalties. The estimated fines through April 30, 2004 (the date which management expects to have the work complete) are \$270,000. There have been discussions with Government representatives about relief from the imposition of fines, but no agreement has been reached.

In addition to the debt and remediation obligations described above, estimated operating expenses for 2004 will be approximately \$3.6 million (inclusive of salary and lease commitments, but excluding remediation costs, real estate costs, and waste project development costs). This estimate assumes the Company does not institute a severe cut-back in its waste project efforts. Several of the Company's loan agreements contain provisions requiring the Company to remain solvent. IGC has a Working Capital Support Agreement with IBC. This agreement provides for IBC to meet (subject to available funds) IGC's working capital requirements. In exchange, IGC has agreed to repay IBC from funds available from waste projects, after deducting reasonable expenses for operating needs, and /or proceeds from real estate sales, provided there are sufficient funds available, and subject to the discretion of the IGC Board of Directors. There is no assurance that IBC will be able to provide sufficient funds, as needed, for IGC to continue its operations. At the present time, IGC is current in meeting payroll and a very limited number of other essential costs only. IGC is in arrears with most of its vendors, including service providers on whom the Company depends in order to continue its operations. Unless the Company is able to generate sufficient cash to bring its payables more current, service providers and other vendors may discontinue providing services and other products to the Company.

In December 2003, the Company decided not to expend material funds in pursuit of new waste projects until contracts have been signed on one or more pending projects. The Company has had discussions with prominent Puerto Rico and New York investment banks to help it attract local investors for its Puerto Rico project. Outside equity will be required to meet upcoming development expenses and other project requirements in Puerto Rico.

All waste-to-energy projects will be funded by project-specific financing.

(3) DISCONTINUED OPERATIONS

Effective November 13, 2000, IGC's Board of Directors adopted a plan to wind down and cease AFH's operations following completion of the 30 homes then under construction. Accordingly, the results of operations for AFH are reported as from discontinued operations. At December 31, 2000, the Company estimated that it would incur a loss of approximately \$700,000 as a result of closing down AFH. The estimate included projected costs to complete the remaining homes, as well as operating costs during that period, along with remaining lease costs the Company is

obligated to pay. As of December 31, 2003, \$659,332 has been incurred. The remaining accrual for this loss has been accounted for in the accompanying financial statements and is shown in the liabilities related to discontinued operations.

(4)	INVESTMENT IN WASTE TECHNOLOGY PROJECTS
-----	---

In 1990, IGC formed IWT to develop innovative solutions for the disposal of municipal waste and to pursue waste-recycling contracts with municipalities and government entities, as well as industrial and commercial waste generators.

In 1996, a second affiliate, CWT, was formed in Puerto Rico. CWT was established to perform waste-recycling projects in the Caribbean.

IWT/CWT's business plan is to develop and own waste-recycling projects using an environmentally superior technology licensed from Thermosteel S.A., a Swiss company. IWT/CWT has the right to develop projects using the Thermosteel technology in North, Central, and South America and for selected other projects worldwide. Typically, IWT/CWT and its alliance members offer to finance, build, own, and operate a plant for 25 or 30 years. Current alliance members include the technology provider, Thermosteel, the designer, HDR, the contractor, H. B. Zachary, and the operator, a subsidiary of Veolia Environment, one of the world's most experienced waste plant operators. IWT has also signed an agreement with Thermosteel to be its non-exclusive sales and marketing representative for waste-recycling facilities in North America and the Caribbean using the Thermosteel technology.

A description of the various IWT/CWT development activities follows:

Puerto Rico

In December 1998, CWT entered into a Host Community and Sponsor Agreement with the Municipality of Caguas, Puerto Rico. The agreement described the basis on which CWT would enter into a contract to develop and own a Thermosteel facility to process waste from the metropolitan San Juan area. On February 28, 2002 the Municipality of Caguas signed an extension of the Host Community Agreement. On April 4, 2003, Caguas filed a petition with the Solid Waste Management Authority to approve the project. On January 15, 2004, after the close of the reporting period, the Municipality of San Juan signed a Letter of Intent with the Company to become a project sponsor and to negotiate project sponsor and waste processing agreements. On March 8, 2004, after the close of the reporting period, the Puerto Rico Electric Power Authority confirmed that it would negotiate a power purchase agreement with CWT as required by the Public Utility Regulatory Policies Act. Caguas government officials and CWT's management are in talks with other municipalities, the Solid Waste Management Authority, the Puerto Rico Electric Power Authority, and other relevant government officials to support the project.

Virgin Islands

The government of the U.S. Virgin Islands conducted a competitive procurement and selected CWT in late 2000 as the preferred bidder to negotiate contracts for a two-line Thermosteel plant. Agreement with the government was reached on a waste-recycling contract in the summer of 2001, subject to satisfactory agreement with the Territory's electric utility for the purchase of power and possibly water. The utility took the position that CWT must be certified as a "qualifying facility" under Virgin Islands law before further negotiations could take place. CWT filed for certification with the Public Service Commission on December 4, 2001. An evidentiary hearing took place on March 18, 2002, and a ruling was issued on July 1, 2002, granting CWT certification. On September 23, 2003, the utility informed CWT that it was terminating contract negotiations and would issue an RFP for its power purchase requirements. In response, CWT informed the utility that it is required by law to purchase electricity from a "qualifying facility," and that it intended to pursue its legal remedies unless the utility complies. The utility and CWT have had several discussions and exchanged correspondence since the fall of 2003. No progress has been made. CWT

has asked the Governor to intercede on behalf of the project. Concurrently, CWT has instructed its counsel to pursue its legal remedies against the utility. As of December 31, 2003, CWT determined that this asset had been impaired and, due to the contemplated litigation, a write-off of approximately \$2,869,000 of deferred project costs was appropriate.

Costa Rica

Early in 2002, IWT signed a memorandum of understanding with COCIM, the organization that represents the municipalities of Metropolitan San Jose, Costa Rica. The memorandum is based on a proposal for a 480,000-ton solid waste-recycling facility. A letter committing to purchase the export electricity was received from the government-owned electric utility.

The Company spent the next two years preparing feasibility and other required studies and meeting with responsible central and municipal government officials. It became increasingly clear that, despite a well publicized commitment to the environment and official documents signed in support of the project, the government lacks the institutional capacity and political will at this time to undertake the proposed project. At a Board meeting on December 18, 2003, the Company decided to suspend all activity in Costa Rica until and unless the government makes a clear, unequivocal decision to proceed to contracts. As of December 31, 2003, the Company decided that this asset had been impaired and wrote off deferred project costs of approximately \$883,000.

Collier County, Florida

In July 2002 IWT was selected in a competitive procurement in Collier County, Florida to negotiate a contract for a solid waste gasification plant. Several meetings took place with the county and its advisors. On March 11, 2003 the Board of Supervisors for the County voted to pursue further cost negotiations with IWT for a project. Then, in the third quarter of 2003, Collier County canceled its waste project procurement, deciding that it will continue to use landfills to dispose of waste. The Company wrote off approximately \$62,000 of deferred project costs as of June 30, 2003.

Capitalized Cost

Deferred costs regarding waste technology, net of direct write-offs, were \$5,716,000 and \$8,351,000, respectively, at December 31, 2003 and 2002. During 2003, in accordance with the Company's policy for deferred waste project costs, the Company wrote off capitalized costs of approximately \$3,814,000 related to the following projects:

	Project Name	Amount (in thousands)
	Virgin Islands	\$ 2,869
	Costa Rica	883
	Collier County, Florida	62
	Total	\$ 3,814

As of December 31, 2003, only deferred costs related to the Puerto Rico project remain capitalized in accordance with the Company's capitalization policy on deferred waste-recycling project costs (see Note 1).

Deferral of New Project Pursuit

At a Board meeting on December 18, 2003, the Company decided not to expend any material funds in pursuing new waste projects until contracts have been signed on one or more pending projects. CWT, after the reporting period, has had discussions with several prominent Puerto Rico investment banks to help it attract local stakeholders / investors. Preliminary discussions with investors have occurred, but no commitments have been received. Outside equity will be required to meet upcoming development expenses and other project requirements in Puerto Rico.

Environmental Impact.

Management believes that the proposed IWT and CWT facilities can be completed without a material adverse environmental impact and in compliance with government regulations. The many approvals and permits required under the U.S. Clean Air Act, U.S. Clean Water Act ("CWA"), and other laws and regulations will require substantial time and effort to obtain.

Competition.

There is intense competition for municipal waste-recycling contracts throughout the United States and abroad. Management believes IWT and CWT can provide superior facilities at a competitive price.

DEBT

(5)

The Company's outstanding debt is collateralized primarily by land, land improvements, housing, and receivables. The following table summarizes the indebtedness of IGC at December 31, 2003 and 2002 (in thousands):

	Maturity Dates	Interest Rates* From/To	Outstanding December 31, (in thousands)		
			2003		2002
Related to waste technology ventures:					
Mortgage - Engineering Office	06/30/05	7.85%	\$ 165		\$ 173
Related to land development:					
Development loans- Brandywine Project	7/25/05	P+2%	\$ 3,497		\$ 3,958
Related to discontinued operations:					
Development loan	6/30/03	P+1%	\$ -		\$ 119

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

General:					
Line of credit	12/1/04	P+1% - Floor of 9.5%	\$ 7,765		\$ 7,030
Line of credit - Parcel D-4, St. Charles	11/1/04	8.5%	\$ 200		\$ -
Credit Agreement	09/30/05	15%	\$ -		\$ 4,197
Working capital loan - Brandywine Project	7/25/05	P+2%	\$ 5,810		\$ -
Related Entity (1)	12/31/05	P+1%	\$ 1,090		\$ -
Total debt			\$ 18,527		\$ 15,477
*P					
= Prime lending interest rate					
(1)					
= IBC note payable					

As of December 31, 2003, the \$165,000 of recourse debt related to waste technology ventures is collateralized by an office building with a book value of \$162,000 located in Malvern, Pennsylvania.

As of December 31, 2003, the \$3,497,000 of recourse debt related to land development assets at the Company's Brandywine property is collateralized by land development assets with a book value of \$14,648,000. In addition, the \$5,810,000 working capital loan is collateralized with these same land assets. The lender established specific criteria for sales under this loan relating to residential and commercial acres, to which the borrower must comply by September 1, 2004.

As of December 31, 2003, the \$7,765,000 line of credit is collateralized by land assets at the Company's Towne Center South property, as well as other commercial parcels in St. Charles, Maryland, with a book value of \$8,405,000.

As of December 31, 2003, the \$200,000 line of credit is collateralized by land assets in St. Charles, Maryland, with a book value of \$135,000.

At December 31, 2002, the Company was contingently liable on two debts relating to the Westbury project, which was sold to IBC in December 2002. As part of the purchase price, IBC assumed debt totaling \$795,000. Of that amount, \$63,000 was retired in February 2003, and \$732,000 was retired in September 2003, resulting in no outstanding balance at December 31, 2003.

The stated maturities of the Company's indebtedness at December 31, 2003 are as follows (in thousands):

		Amount
	2004	\$ 7,965
	2005	10,562
		\$ 18,527

The interest costs incurred during 2003 and 2002 were accounted for as follows (in thousands):

		2003	2002
	Expensed	\$ 873	\$ 911
	Capitalized	1,581	887
		\$ 2,454	\$ 1,798

(6) COMMITMENTS AND CONTINGENT LIABILITIES

Wetlands Litigation

As previously reported, wetlands litigation was commenced by the United States Government in 1996 against the Company, its affiliates, St. Charles Associates, LP ("SCA"), and James J. Wilson. In November 1999, the Company pled guilty to a single violation of the CWA, and the Company and its affiliate, SCA, entered into a consent decree whereby the civil complaint by the government against them for alleged violations of the CWA was dismissed. Pursuant to the Consent Decree, the Company and SCA paid a civil penalty of \$1,360,000, placed \$40,000 in escrow to pay for certain remediation costs in the Dorchester neighborhood of St. Charles (referred to as "Dorchester and Parcel Q"), and agreed to complete within 24 months a remediation plan covering certain land in Towne Center South and in Parcel L, another location in St. Charles.

In March 2001, the Company and SCA sought to set aside the Company's criminal conviction and to vacate the Consent Decree entered in 1999. On June 12, 2001, the District Court denied defendants' requests. The Court subsequently stayed the time limits for carrying out the Consent Decree. Under the stay, time limits were suspended for a period not to exceed 15 months from a final judicial determination of the matters on appeal. Pending the stay, the Company was prohibited from the development or sale of any parcel at Towne Center South other than one thirty-acre parcel. On July 2, 2002, the United States Court of Appeals for the Fourth Circuit affirmed the decision of the District Court that has now become final, allowing the Company to proceed with the sale or development of approximately 80 acres of commercial land in St. Charles' Towne Center South. The Company was obligated to complete the previously ordered restoration by January 2, 2004. The status of this obligation is addressed in the following paragraphs.

Following the entry of the Consent Decree in 1999, remediation pursuant to an agreed plan began in 2000 in conjunction with the development of the Company's Towne Center South property. Work was suspended when the Company filed its motion seeking to vacate the Consent Decree. In July 2003, the Company entered into a contract for the required work at Towne Center South. Work commenced in late July. The contract is guaranteed by Interstate Business Corporation ("IBC"), the Company's general partner. The total contract amount is \$1,237,000, of which \$125,000 is for prior unpaid services rendered by the contractor. The \$125,000 was paid to the Contractor in August 2003. An additional \$700,000 was paid against the base contract on December 15, 2003. The contract provides for cash payments plus the transfer to the contractor of a three-acre parcel at Towne Center South, which is subject to an existing mortgage. Should the Company not be successful in transferring this property debt free, it will be required to make additional cash payments. As of this filing, the Company is working to prepare a lot transfer agreement to the

contractor. The Company has entered into a contract with the same contractor for the restoration work on Parcel L. The base amount of the contract for Parcel L is \$123,000. It is estimated that the work will take approximately one month to complete and is to begin in early April. It is estimated that the combined cost of remediation work at Towne Center South and Parcel L will be approximately \$1.5 million. The final cost of remediation could be more or less, depending upon the cost of planting vegetation, engineering and legal fees.

The remaining estimated cost for the remediation of \$789,000 is included in the liabilities section of the balance sheet as an accrued liability under Liabilities Related to Land Development. The cost of the remediation has been capitalized in the cost basis of Towne Center South as it relates and is integral to the development of that parcel. The Company believes that the net realizable value from the sale of the 80 acres of commercial property in Towne Center South will exceed the asset value recorded on its balance sheet, which includes the \$1.5 million accrual. The Company intends to fund the remaining cost of remediation principally from land loan proceeds secured by its Brandywine Project. The remediation was not completed by January 2, 2004, making the Company liable for fines of \$1,000 per day for the first thirty days of non-compliance, \$2,000 per day for day 31 through 60, and \$3,000 per day thereafter, plus other possible penalties. The estimated fines through April 30, 2004 (the date which management expects to have the work complete) are \$270,000. There have been discussions with Government representatives about relief from the imposition of fines without reaching agreement to date.

Langley v. St. Charles Associates, et al.

In 2000, the owners of a parcel of land located in Charles County sued the Company and one of its officers in the Circuit Court for Charles County, Maryland. The complaint claimed damages allegedly flowing from trespass and restrictions of access to property resulting from the construction of a county road in Charles County. St. Charles Community, LLC completed the construction in question, by agreement with and permission from the County. The first and second counts of the complaint sought \$10,000,000 in compensatory damages and \$10,000,000 in punitive damages. The third and final count sought an easement and right of way to the county road. On April 13, 2001, the Circuit Court dismissed all individual corporate officers from the lawsuit and dismissed the second and third counts. The Circuit Court also ordered that the County Commissioners of Charles County be joined as defendants in the case. The plaintiffs responded by filing an amended complaint purporting to cure the defects prompting the dismissals and adding the County Commissioners as defendants. On October 12, 2001, the Circuit Court again dismissed the individual corporate officers and dismissed the second and third counts with prejudice. Finally, by order dated November 27, 2002, the Circuit Court granted summary judgment on the remaining trespass claim in favor of the Company.

The plaintiffs have filed an appeal to the Maryland Court of Special Appeals, which is still pending. However, the parties to the appeal have reached an agreement in principle that, once finalized, would lead to dismissal of the appeal. The parties intend to formalize their settlement agreement in the upcoming weeks.

Other

The Company is also involved from time to time in other miscellaneous legal matters that arise in the normal course of business. In Management's opinion, none of the actions is of such a degree whereby there would be a material adverse impact on the financial condition or results of operations of the Company.

Guarantees

The Company is guarantor of 24 letters of credit and surety bonds amounting to approximately \$4,057,000 for land development completion and homebuilding warranties. In addition, the Company is still contingently liable on \$1,104,000 of bonds related to certain land improvements in St. Charles, Maryland for properties that were transferred

to ACPT in 1998 as part of the Distribution (see footnote 1). As part of this transfer, ACPT assumed responsibility for the bonds and their related liability. The Company does not expect these bonds to be called or to incur any liability relating to their release.

Operating Leases

The Company leases office facilities under two long-term operating leases that expire in 2005 and 2010. The leases require minimum annual rental payments plus additional amounts based upon future increases in property taxes, building operating expenses and adjustments to the Consumer Price Index ("CPI").

The lease expiring in 2005 contains one three-year renewal option. The lease expiring in 2010 contains two five-year renewal options.

The following is a schedule of future minimum rental payments required under the leases described above as of December 31, 2003:

Year Ending December 31,		Operating Leases
	2004	\$ 90,600
	2005	17,200
	2006	14,100
	2007	14,100
	2008	14,100
	Thereafter	23,400
	Total minimum lease payments	\$ 173,500

RELATED PARTY TRANSACTIONS

(7)

Certain officers, directors, and a general partner of the Company, IBC, have ownership interests in various entities that conducted business with IGC during the last two years. The financial impact of the related party transactions on the accompanying consolidated financial statements are reflected below:

		Year Ended December 31,

(A) Land Sales

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

IGC sells land to affiliates and non-affiliates on similar terms. Sales prices to affiliates are based on third party appraisals, or comparable sales to third parties.

- (1) In December 2002, IGC sold its Westbury project to IBC for \$2,620,000. As part of the purchase price, IBC assumed debts totaling \$795,000, and IGC accepted a note receivable in the amount of \$703,004. As of the sale date, assets with a book value of \$2,617,000 collateralized this debt.

Regarding the debt assumption: A debt of \$732,000 was due to the Winston Corporation and \$63,000 was due to First National Bank of St. Mary's for the Westbury project. Of that debt, \$63,000 was retired in February 2003, and \$732,000 was retired in September 2003.

Regarding the note receivable: Accrued and unpaid interest on the principal balance was due and payable monthly with the principal payment. The principal of the note was payable in equal monthly installments of \$40,000 plus interest at prime plus one percent per annum. On September 29, 2003, the balance of approximately \$387,000 was paid to IGC.

(B) Other

Other transactions with related parties are as follows:

- (1) Beginning October 1, 2000 and as of December 31, 2003, IGC rents office space from Smallwood Village Associates, LP, an affiliate of IBC, at prevailing market rental rates. As an offset to this expense, IGC provided IBC with tax support services from August 2002 through August 2003. The payment for these services is used to reduce the Company's office rental expense due SVA.
- (2) During 2002 and ending approximately July 2003, ARMC, an affiliate of ACPT, provided IGC with miscellaneous land development, human resources, and other miscellaneous administrative support services. On occasion, ARMC provided photocopy, telephone, postage, and delivery services on a cost reimbursement basis.

On June 30, 2003, IBC agreed to advance, on IGC's behalf, approximately \$171,000 due ARMC for these items and amounts due for items in B(3) and B(8) due by IGC and its related entities.

In an effort to eliminate the need for office services in the future, IGC incurred costs during the third quarter 2003 relating to a change of address and phone number. The costs

associated with these changes are being offset against future amounts billed by ARMC. As of December 31, 2003, IGC holds a credit balance of approximately \$1,100.

- (3) During 1999 and ending August 31, 2000, IGP, a subsidiary of ACPT, provided IGC with tax support services. As of December 31, 2003, all amounts due were paid in full.

- (4) James J. Wilson provides consulting services on a monthly basis to Equus Gaming Company, LP ("Equus"). The salary and benefits related to these services is allocated to Equus on a quarterly basis, based on the percentage of time Mr. Wilson spends on Equus matters.

As part of the Company's Working Capital Support agreement with IBC, any amounts due at the end of each quarter are used to reduce advances under the agreement. For the years ended December 31, 2003 and 2002, Equus was charged \$164,000 and \$87,000, respectively. All amounts for both years were assumed by IBC and applied against the agreement.

- (5) In October 1998, James J. Wilson entered into a consulting agreement with ARMC, a subsidiary of ACPT, providing for an annual consulting fee of \$500,000 per year for a two-year period, then \$200,000 per year for an eight-year period. Mr. Wilson's consulting fee is paid directly to IGC, which in turn, pays Mr. Wilson, crediting the amount against IGC's salary obligation to Mr. Wilson. In May 2002, IBC began funding payments as an offset against amounts due from IBC to ACPT for other contractual matters between these entities. Please refer to ACPT's December 31, 2001 10K filing for further information. On April 1, 2003, ARMC resumed paying IGC directly.

- (6) Historically, the Company has had various forms of Working Capital Support Agreements with IBC. The most recent agreement, dated September 1, 2002, is an Amended and Restated Working Capital Support Agreement, whereby loans are made to IGC in the form of promissory notes. Interest is charged at prime plus 1% and accrues until paid. Payments are first applied to unpaid interest and then to principal. This agreement matures December 31, 2005, unless paid sooner. IGC shall repay to IBC, 1) the balance of funds available from waste projects, after deducting reasonable reserves for operating needs, or 2) proceeds from real estate sales, provided there are sufficient funds available, and subject to the discretion of the IGC Board of Directors.

- (7) During 2002, and continuing in 2003, IGC incurred shared expenses with IBC for office supplies and services. As of December 31, 2003, IGC has incurred approximately \$3,000 of expenses for 2003. For the same period in 2002, the amount of expenses totaled

approximately \$5,000.

- (8) Beginning October 1998, and ending July 2000, IGP, a subsidiary of ACPT, paid costs associated with car leasing and retirement plan expenses on behalf of IGC. As of December 31, 2003, the principal and interest amounts of approximately \$17,000 were paid in full.
- (9) The Company advances funds to IGMC, its managing general partner, to pay for miscellaneous expenses such as annual filing fees. During 2001, IGMC advanced amounts to IGC from a stock sale transaction in which IGMC sold shares of ACPT. All proceeds from the sale were applied to amounts due ARMC for items listed above in B(2). The Company continues to advance IGMC its basic operating costs as needed.
- (10) The Company paid guarantee fees in the second quarter of 2003 in exchange for a guarantee relating to the \$2.5 million letters of credit for public improvement bonds on Brandywine Investment Associates, LP ("BIA"). Under a Mercantile loan restructuring of August 2002, the Company paid a 2% guarantee fee of \$50,000 to James J. Wilson. In exchange for a guarantee for the financing on the TJJ loan, the Company paid a 1.5% guarantee fee of \$60,000 to IBC. The independent members of the Board of Directors approved the fees.

(8)	OPTIONS, APPRECIATION RIGHTS, AND WARRANTS
-----	--

IGC maintains Unit incentive plans for directors (the "Directors' Plan") and employees (the "Employees' Plan"). These plans were amended in 1994 and 1995 to allow for the issuance of Unit Appreciation Rights and other incentive awards.

The Directors' Plan is for directors of the managing general partner who are not officers or employees of the Company or of any General Partner or affiliate of the Company. The Directors' Plan was amended, restated, and adopted by the Company's Board of Directors during 2002.

The Employees' Plan is for employees of IGC (due to the Distribution, the employees may be current employees of ACPT), including employees who are Directors of any General Partner of IGC or of any affiliate of IGC. The Employees' Plan expired on September 22, 1997, and the remaining reserved IGC units will now be issued to individual employees as needed.

Under the terms of the plans, directors and employees may be granted options, incentive rights, or other Unit-based awards as determined by a committee of the Directors of the managing general partner, which excludes directors who are eligible to participate in that particular plan ("Committee".)

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

The following chart summarizes the activity under the Directors' Plan for the years ended December 31, 2003 and 2002.

<u>Units issued under the Directors' Plan:</u>	<u>May 13, 2003</u>	<u>December 19, 2002</u>
James R. Treptow, former IGMC Director	3,680	12,940
John H. Gibbons, IGMC Director	3,400	12,528
Total units issued	7,080	25,468

The above IGC Units were issued under the Directors' Plan, in lieu of cash, for payment of directors' fees and expenses totaling approximately \$35,400 and \$86,600 for 2003 and 2002, respectively.

As of December 31, 2003, there are 8,452 and 11,824 IGC Class A Units available for issuance under both the Directors' Plan and former Employees' Plan, respectively. These units are held by the Company's transfer agent.

Options

As of December 31, 2002, all recorded option contracts were fulfilled.

Appreciation Rights

Under the terms of the above Plans, directors and employees may be granted "Unit Appreciation Rights" which entitle the holder to receive, upon vesting, an amount payable in cash, Class A Units of the Company, other property, or some combination thereof, as determined by the Committee. The amount received upon exercise on or after January 20, 1995, is based on the excess of the fair market value of the Company's Units on the exercise date, plus, for rights granted prior to 1995, 50% of the fair market value of Equus Gaming Company, LP ("Equus") Units on the exercise date, over the base price of the Unit Appreciation Rights specified in the individual rights agreements or individual employment agreements. Fair market value is defined in each individual rights agreement but is generally the average of the closing prices of Units on the principal exchange on which they are traded for the 20 trading days beginning ten trading days before the exercise date and ending on the ninth day after the exercise date. No adjustment was made for Unit Appreciation Rights exercised prior to January 20, 1995, since prior to this date, the Company's market price still reflected the value of its interest in Equus, which was spun off at that time. The number of stock appreciation rights outstanding, that were exercisable, but not exercised prior to October 19, 1998, was reduced as a result of a 1 for 5 reverse unit split. The number of stock appreciation rights outstanding after the reverse split was 21,300. These rights were granted to the Company's prior employees, who are now employees of ACPT.

The following chart summarizes activity of appreciation rights during 2002 and 2003.

	Number of Rights	Weighted Average Exercise Price	Vesting Percentage	Expiration Date
Outstanding at January 1, 2002:				
Granted - May 15, 1994	11,300	\$ 3.71	100%	May 15, 2004

Total	21,300			

(1)

These appreciation rights were granted to the Company's former CFO. The rights were never exercised, and were forfeited during 2003, at the time of the employee's resignation.

As of December 31, 2003 and 2002, the Company had accrued a liability of \$3,084 and \$22,617, respectively, relating to these rights.

As a result of the significant decrease in the price of IGC units over the last two years, a credit was made to compensation expense in the amount of \$19,533 and \$41,041 for the years ended December 31, 2003 and 2002, respectively.

Warrants

In 1993, warrants to purchase 20,000 IGC units were issued to an investment-banking firm in connection with a "highly confident letter" relating to proposed Virginia racetrack financing. The warrants had an exercise price of \$5.30 per warrant and expire on September 30, 2003. The warrant agreement requires, in the event of a distribution of units, the number of warrants would be adjusted so the warrant holder would receive units in the distributed entity. Therefore, the warrant holder, upon exercise of the warrants, would also be entitled to shares of ACPT. At the time of

exercise, IGC would be required to purchase the ACPT shares on the open market at the existing trading price. As there is no way to estimate whether the warrants will be exercised or when, no adjustments have been made to the accompanying financial statements for the contingency related to the purchase of the ACPT shares.

On June 11, 2001, the investment-banking firm mentioned above exercised its warrants to purchase 19,733 of the 20,000 IGC units. The Company then issued 14,193 Class A Units of IGC as part of a cashless exercise. The expense related to these warrants was recognized based upon the market value when issued, and the corresponding liability accrued. Upon exercise in 2001, the liability was reduced for the number of warrants exercised and limited partners' capital increased by the related liability reduction of \$72,624. ACPT shares were not issued as part of this transaction as the exercise price exceeded the current market value of the ACPT stock. As of December 31, 2002, warrants to purchase 267 IGC units remain outstanding and all original warrants in regard to ACPT shares remain outstanding.

On September 30, 2003, two warrant holders elected to exercise their right to purchase a total of 5,083 shares of ACPT at an exercise price of \$5.76 per share. The ACPT share price was \$6.40 on that date. At the time of exercise, IGC negotiated with the warrant holders to pay them a total of \$3,250, representing the difference between the warrant exercise price and the value of the ACPT shares. As a result, a charge to warrant expense was made for this transaction. As of September 30, 2003, all warrants to purchase IGC and ACPT units had expired.

(9) RETIREMENT AND PROFIT SHARING PLANS

IGC established a retirement plan (the "Retirement Plan") effective January 1, 1988 for non-union employees of IGC. In 1992, union employees were added to the plan. Employees are eligible to participate in the Retirement Plan when they meet eligibility requirements based on hours of service and the attainment of 21 years of age. IGC's contributions to the Retirement Plan for eligible employees was equal to 4% of basic salaries and wages for 2002 that were not in excess of the U.S. Social Security taxable wage base, plus 8% of salaries that exceeded the U.S. Social Security taxable wage base. Beginning January 1, 2004, IGC's contributions to the Retirement Plan changed from the above 4 and 8 percent to 5.7 and 11.4 percent, which increased the basic contribution to the IRS allowable limits. Employees' salaries in excess of \$200,000 for 2003 and 2002 were excluded from the calculation of contributions. Additional contributions to the Retirement Plan can be made pursuant to the Profit Sharing Plan based on net income of the Company.

Effective September 15, 2003, the Company changed its retirement plan service provider (Trustee, Record Keeper, and Investment Manager) to Fidelity Investments. The eligibility requirements changed from hours of service to months of service, and the contribution percentages remained unchanged.

Contributions to the Retirement Plan were \$84,000 and \$67,000 for the years ended December 31, 2003 and 2002, respectively. No additional contributions were made as a profit sharing contribution for 2003 or 2002.

(10) INCOME TAXES

The consolidated financial statements of the Company include the accounts of IGC and its majority-owned and controlled partnerships, affiliates, and subsidiaries, after eliminating all inter-company transactions. IGC and its majority-controlled partnerships ("the partnerships") are treated as partnerships under applicable provisions of the tax code as described below. IWT and CWT are organized as C corporations. Their tax treatment is discussed below.

Entities Subject to Partnership Taxation Provisions

IGC is a partnership and accordingly is not subject to U.S. taxes. These financial statements do not contain any provision for Federal or state income taxes for 2003 or 2002 relating to IGC or its consolidated partnerships. All

Federal and state income tax liability and/or tax benefits are passed through to the individual partners in accordance with the Partnership Agreement and the Internal Revenue Code.

IGC had been grand-fathered through 1997 as a non-tax paying public partnership. Such grandfathering was based on guidelines outlined in the Omnibus Budget Reconciliation Act of 1987 allowing publicly traded partnerships existing as of December 17, 1987 not to be taxed as corporations as long as a substantial new line of business is not added. Beginning in 1998, however, IGC could be taxed as a corporation unless at least 90% of IGC's gross income is derived from qualifying "passive type" sources such as interest, dividends, and real property income. For the year ended December 31, 2003, a determination has not been made as to whether IGC will continue to qualify as a non-tax paying public partnership. IGC was in compliance with these requirements as of December 31, 2002. If IGC is not in compliance with the 90% test in any given taxable year, it will be taxed as a corporation at statutory corporate rates and those taxes could be substantial.

Entities Subject to Corporate Taxation Provisions

At December 31, 2003 IWT has net operating loss carry-forwards of approximately \$8,550,000, which are available to offset future taxable income through 2023.

CWT is a Puerto Rico corporation subject to Puerto Rican income taxes. At December 31, 2003 CWT has net operating loss carry-forwards of approximately \$3,028,000, which are available to offset future taxable income through 2008.

A reconciliation of income taxes computed at statutory federal / foreign rates and the effective income tax benefit is as follows:

	2003	2002
Federal - 34%	\$ (562,000)	\$ (158,000)
Puerto Rico - 20%	(578,000)	(6,000)
State taxes, net of federal benefit	(69,000)	(18,000)
Change in valuation allowance	1,209,000	182,000
Provision for income taxes	\$ -	\$ -

Deferred income taxes arise primarily from net operating tax losses. The Company's deferred tax assets at December 31, 2003 and 2002 consist of:

	2003	2002
Deferred tax asset, net operating loss carry-forward	\$ 3,855,000	\$ 2,646,000
Valuation allowance	(3,855,000)	(2,646,000)
Net deferred tax asset	\$ -	\$ -

The Company provides a valuation allowance account for deferred tax assets that will most likely only be realized as the result of operations of waste-recycling projects that will be conducted via IWT and CWT. Until such time as contracts are signed and the Company proceeds to financial close for a project, the Company will provide a valuation allowance for the tax benefit relating to such operations.

(11) FAIR VALUE OF FINANCIAL INSTRUMENTS

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

SFAS No. 107 requires the disclosure of the fair value of financial instruments. Whenever possible the estimated fair value has been determined using quoted market information. The estimated fair value information presented is not necessarily indicative of amounts the Company could realize currently in the market since the Company may be unable to sell such instruments due to contractual restrictions or the lack of an established market. The estimated market values have not been updated since December 31, 2003, therefore, current estimates of fair value may differ significantly from amounts presented. Below is a summary of significant methodologies used in estimating fair values at December 31, 2003.

Cash and cash equivalents

: includes cash and securities with maturities of less than 90 days, which are valued at their carrying value.

Notes Receivable

: includes interest and non-interest-bearing notes receivable. Fair value is based on the percentage value of the notes discounted at the Company's general cost of borrowing, prime plus one percent.

Development Loans and Lines of Credit

: consists of instruments in which certain of the Company's real estate assets are used as collateral. The fair value of these instruments is based on the current market rate for similar borrowings.

Loan Payable

: In 2002, consists of mezzanine financing secured by the Company's Brandywine property. The fair value of this note is based on the estimated cost of similar borrowings.

Loan Payable - Related Party

: In 2003, this consists of a note payable that had been used to fund operating capital requirements. The note is subject to interest at prime plus one percent. The fair value of this note is based on current market rates for similar borrowings.

Mortgages

: Consists of a mortgage against one of the Company's offices. The fair value of this note is based on the current market rate for similar borrowings.

The following table summarizes the fair value of the Company's financial instruments (in thousands) as of December 31, 2003 and December 31, 2002:

	Fair Value of Financial Instruments				
	(In Thousands)				
	As of December 31,				
	2003			2002	
	Carrying Value	Fair Value		Carrying Value	Fair Value
Cash and Cash Equivalents	\$ 49	\$ 49		\$ 395	\$ 395

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

Notes Receivable	\$ -	\$ -		\$ 849	\$ 589
Development loan and lines of credit	\$ 15,952	\$ 15,179		\$ 11,107	\$ 10,423
Loan Payable - TJJ	\$ -	\$ -		\$ 4,197	\$ 3,219
Loan Payable - Related Party	\$ 1,090	\$ 1,090		\$ -	\$ -
Mortgages	\$ 165	\$ 142		\$ 173	\$ 140

(12) SEGMENT INFORMATION

IGC's three reportable segments are waste technology development activities conducted by IWT and CWT, commercial and residential land development and other miscellaneous activities, and homebuilding operations conducted by AFH, which have been discontinued. Refer to Note 3 for further information on AFH.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The following presents the segment information for the years ended December 31, 2003 and 2002 (in thousands):

		Homebuilding (Discontinued)	IWT/CWT Waste Recycling Projects	Land and Other	Inter-Segment	Total
2003						
					Eliminations	
Total revenues		2	-	2,680	-	2,680
Interest income	(1)	1	-	20	-	20
Interest expense	(1)	1	14	588	-	602
Depreciation and amortization	(1)	-	20	48	-	68
Loss Before Minority Interest	(1)	(21)	(4,542)	(1,385)		(5,927)
Net loss	(1)	(21)	(4,542)	(1,391)	-	(5,933)
Total assets		(1,669)	(2,467)	58,181	(25,558)	28,487
Changes to long lived assets		-	1,178	561	-	1,739
2002						
Total revenues	(1)	1	-	4,576	-	4,576
Interest income	(1)	8	2	5	-	7

Interest expense	(1)	3	13	753	-	766
Depreciation and amortization	(1)	-	20	84	-	104
Loss Before Minority Interest	(1)	(39)	(831)	(2,917)		(3,748)
Net loss	(1)	(39)	(831)	(2,918)	-	(3,749)
Total assets		(1,536)	1,590	56,076	(24,850)	31,280
Changes to long lived assets		-	923	(3,565)	-	(2,642)
(1) Amounts reported for the discontinued segment are not included in the totals for these items.						

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

None.

ITEM 8A. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the filing date of this quarterly report, and, based on their evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

PART III

ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS

The Board of Directors of IGC's managing general partner, IGMC, is as follows:

Name	Age	Office
------	-----	--------

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

James J. Wilson	70	Chairman, Director and Chief Executive Officer
Mark Augenblick	57	Director, Chief Operating Officer
Ernst Ringle	71	Director
John H. Gibbons	75	Director

The following are the executive officers of IGC as of December 31, 2003:

Name	Age	Office
James J. Wilson	70	Chairman, Chief Executive Officer
Mark Augenblick	57	President, Chief Operating Officer
Francis C. Campbell	63	President, IWT and CWT (affiliates of IGC)

Term of Office.

Directors of IGMC serve a one-year term of office subject to their successor being selected and qualified, or until their resignation or removal. The Board of Directors shall be elected annually, subject to the following requirements: 1) As practicable, one-third are to be persons who are neither affiliates of IGC nor existing officers or employees of IGC, any General Partner or any of their affiliates, 2) IBC has the right to designate one-third of the directors of IGMC as long as IBC continues as a General Partner of IGC, and 3) the remaining directors are to be persons who are officers of IGC. Messrs. Ernst Ringle and John L. Gibbons currently serve as the unaffiliated directors. Mr. James J. Wilson serves as the IBC director designate, and Mr. Mark Augenblick serves as an officer of IGC.

James J. Wilson

has been Chairman of the Board of IGMC since its inception in 1986. He also served as its President from 1986-1996. He is the founder of IGC and has been Chief Executive Officer of IGC and its predecessors since its inception in 1957, and was President from 1957-1994. He was named IGC Chairman in 1994. He is the founder of IBC and its predecessors, and served as IBC's Chairman of the Board and Chief Executive Officer since 1957 and as its President from 1957-1994. Mr. Wilson holds a degree in civil engineering from Manhattan College in New York City.

Mark Augenblick

became a Director of IGMC and Vice Chairman of the Company in March 1998. Prior to joining the Company, Mr. Augenblick was a partner in the Washington, D.C. law firm of Shaw, Pittman, Potts and Trowbridge, where he practiced for twenty-seven years. Mr. Augenblick received his B.A. from Brown University and his J.D. from Columbia University Law School.

Ernst Ringle was appointed a Director of IGMC in December 1999. He is a retired President and Chief Executive Officer of Noell, Inc., an engineering and plant construction company. Prior to joining Noell's parent company, Preussag Noell, he was Vice President of Stone and Webster International Corporation. He previously held senior engineering and construction management positions with Motor Columbus AG of Switzerland and Chas. T. Main of the U.S., among others. Mr. Ringle received a degree in civil engineering from the University of Kaiserslautern in Germany. He is fluent in English, German, Spanish, and proficient in French and Portuguese.

John H. Gibbons

was appointed a Director of IGMC in June 2000. He is currently a Senior Fellow with the National Academy of Engineering and a Special Advisor to the U.S. Under Secretary of State for Global Affairs. Prior to that he served as the Science Adviser to the President and Vice President on matters of science and technology. He has represented the U.S. Government in major multilateral and bilateral meetings in such countries as Russia, Japan, China, and among the G-7 nations. Mr. Gibbons' other positions, to name a few, include that of Director, Office of Technology, U.S. Congress; Director, Energy, Environment and Recourses Center; Professor of Physics, University of Tennessee; and Director, Environmental Program, Oak Ridge National Laboratory. He has received numerous Honors and Awards in science, technology, and engineering. He holds a Ph.D. in Physics from Duke University, and has received six honorary Doctorates from different Universities.

Former Director, **James R. Treptow** was appointed a Director of IGMC in December 1999. He is President and Chief Executive Officer of Magellan Resources. Prior to that he was responsible as the company owner or co-owner for the financing and development of 45 commercial real estate projects located in Texas, California, Georgia, Louisiana and Virginia, totaling approximately 9 million square feet with an aggregate market value of approximately \$1.2 billion. Mr. Treptow holds a degree in Industrial Management and Finance from the University of Texas at Austin. Mr. Treptow resigned effective December 31, 2003. The Company is currently looking to fill this vacancy.

Code of Business Ethics

The Company has adopted a code of business ethics that applies to all of the Company's officers and employees. The Company's officers and employees affirm their understanding and compliance with the code at their date of hire. Annually, all Company officers reaffirm their compliance with the code by signed certification. See Exhibit 10(j)) to this filing for a copy of this document.

ITEM 10. EXECUTIVE COMPENSATION

Summary Compensation Table.

The following information is furnished with respect to the Chief Executive Officer and each of the other five most highly compensated Executive Officers of the Company (collectively, the "Executive Officers").

										Long-Term Compensation	
--	--	--	--	--	--	--	--	--	--	------------------------	--

Edgar Filing: INTERSTATE GENERAL CO L P - Form 10KSB

Name & Principal Position	Year	Annual Compensation				Awards	
		Salary (\$)	Bonus (\$)	Other Annual Compensation (\$) (2)	Securities Underlying Options/SAR's #	All Other Compensation (\$) (1)	
James J. Wilson (3)	2003	400,200	-	-	-	17,841	
Chairman & CEO	2002	475,200	-	-	-	12,604	
Mark Augenblick	2003	346,558	-	-	-	37,841	
Vice-Chairman & President	2002	424,613	-	-	-	32,604	
Paul Dillon	2003	101,494	-	-	-	6,627	
Vice President & CFO	2002	124,158	-	-	-	6,521	
Francis Campbell	2003	156,200	-	-	-	12,825	
President, IWT/CWT	2002	193,575	-	-	-	12,074	
Larry Liddle	2003	93,719	-	-	-	5,702	
Vice President	2002	119,200	-	-	-	6,124	

- (1) Reflects IGC's contributions to the Retirement Plan discussed below and Director's fees from IGMC.
- (2) Represents the difference between the price paid for shares of the Company's stock obtained by exercising stock options and the fair market value of the stock at the date of purchase.
- (3) In October 1998, Mr. Wilson entered into a 10-year consulting agreement with ARMC (a subsidiary of ACPT) providing for an annual consulting fee of \$500,000 per year for the first two years, then \$200,000 per year for the remaining eight-year period. Mr. Wilson's consulting fee is paid directly to IGC, which in turn, pays Mr. Wilson, crediting the \$200,000 against his compensation from IGC.
- (4) Effective December 1, 2002, each of the above listed officers executed a salary deferral agreement. Under terms of the agreement, the officers consented to defer 20% of their base compensation until such time as the company's financial position improves in order to allow repayment. As of December 31, 2003 and December 31, 2002, the Company

has accrued a liability for the portion of deferred salary of approximately \$255,700 and \$27,600, respectively.

Employment Agreements.

Mr. Wilson's employment agreement commenced January 1, 2002, and renews annually unless terminated by either party. This agreement provides for a base salary of \$500,000, certain fringe benefits, and death or disability benefits.

Mr. Augenblick entered into a four-year employment agreement with the Company effective November 23, 1998. Beginning March 23, 2002, the agreement was formally extended and will continue thereafter from year-to-year on a calendar basis, unless sooner terminated by notice given not later than 30 days before the end of each calendar year, by either party. The agreement provides for a compensation package totaling \$450,000, which is comprised of salary and directors' fees, plus shares in IWT and CWT, a financing bonus and completion bonus based on the number and size of waste facilities developed, certain fringe benefits, death or disability benefits, and severance pay for the unexpired term of the contract.

Mr. Dillon's employment agreement was for a one-year period, and was renewed January 1, 2003, and could renew annually thereafter, unless terminated by either party. The agreement provided for a base salary of \$130,000, certain fringe benefits, death or disability benefits, stock appreciation rights, and severance pay for the unexpired term of the contract. In July 2003, Mr. Dillon terminated his employment agreement and resigned effective August 28, 2003. Mr. Dillon forfeited certain stock appreciation rights, for which he was fully vested, in exchange for payment of his combined 2002 and 2003 deferred salary of approximately \$18,300.

Mr. Campbell's employment agreement with the Company begins each July 1st, and expires on the last day of each June and thereafter for successive one-year terms; provided however, that either party may terminate the agreement upon 60 days prior written notice. The agreement became effective July 1, 2000. The agreement provides for a base salary of \$195,000, plus shares in IWT and CWT, a financing bonus and completion bonus based on the number and size of waste facilities developed, certain fringe benefits, death or disability benefits, and severance pay for the unexpired term of the contract.

Mr. Liddle's employment agreement with the Company began each July 1st and expired on the last day of June and thereafter for successive one-year terms; provided however, that either party may terminate the agreement upon 60 days prior written notice. The agreement became effective July 1, 2000. The agreement provided for a base salary of \$120,000, a financing bonus and completion bonus based on the number and size of waste facilities developed, plus shares in IWT and CWT, certain fringe benefits, death or disability benefits, and severance pay for the unexpired term of the contract.

Mr. Liddle passed away on October 14, 2003. Mr. Liddle's employment agreement entitled his estate to the following death benefits: 1) continuance of base annual salary for a period of six months and related benefits, 2) certain life insurance benefits, 3) certain project financing / completion bonus, and 4) certain equity / founder shares of IWT and CWT. Mr. Liddle's estate is due to receive approximately \$32,000 in base salary payments and approximately \$33,000 of deferred salary, for which amounts have been accrued and are included in the financial statements for the year ended December 31, 2003. Mr. Liddle's base salary payments since the date of his death have been reduced by the current 20% salary deferral that is in effect for the Company's officers.

Directors. Directors of the Managing General Partner who do not receive salaries from the Company or affiliates, except Mr. Augenblick, receive directors' fees established by the Board of Directors of the Managing General Partner. These directors are compensated at a rate of \$5,000 per quarter, \$1,400 per meeting and out of pocket travel reimbursements for meeting attendance. In addition, Board of Director members who serve on the IGC Audit

Committee are compensated at a rate of \$1,400 per meeting. During 2003, the directors' fees and meeting fees totaled \$115,000, of which \$76,600 remained to be paid as of December 31, 2003. During 2003, two Directors elected to receive IGC Units in lieu of cash for a portion of their fees. On May 12, 2003, 7,080 Units with a market value of \$35,400, as of that date, were issued in accordance with this election.

IBC indemnifies the directors of the Managing General Partner against any liability (including legal fees and expenses) arising out of their serving in such capacities, except for liabilities arising out of the gross negligence or willful misconduct of such directors.

Unit Options and Unit Appreciation Rights

. IGC's employees, including its directors and officers, are eligible to participate in the Unit Incentive Plan (the "Employees Plan"). Under the Employees Plan, a committee composed of the independent directors of IGMC (the "Committee") awards Unit options ("Options") or Unit Appreciation Rights ("Rights") to employees and officers on the basis of their performance. The Rights entitle the holder to receive, upon vesting, an amount payable in cash, Class A units of the Company, other property, or some combination thereof, as determined by the Committee. The amount received upon exercise is determined based on the excess of the fair market value of the Company's Units on the exercise date, (plus 50% of the fair market value of Equus Units on the exercise date for Rights granted prior to 1995), over the base price of the Right specified in the individual rights agreements. Please refer to page 44 for further information.

Long-Term Incentive Plan

. IGC has established an incentive compensation plan (the "Profit Sharing Plan") pursuant to which IGC awards annual cash bonuses to officers and employees in reasonable amounts reflecting their contributions to the Company. The persons to receive bonuses and the amounts of such bonuses are approved by the unaffiliated directors of IGMC. Under the Profit Sharing Plan, a portion of each bonus, keyed by the compensation committee to a percentage of the employees' salary, is contributed on behalf of the employee to the retirement plan discussed below. No contributions were made to the Profit Sharing Plan during 2003 or 2002.

Retirement Plan

. IGC established a retirement plan (the "Retirement Plan") effective January 1, 1988 for non-union employees of IGC. In 1992, union employees were added to the plan. Employees are eligible to participate in the Retirement Plan when they meet eligibility requirements based on hours of service and the attainment of 21 years of age. IGC's contributions to the Retirement Plan for eligible employees was equal to 4% of basic salaries and wages for 2002 that were not in excess of the U.S. Social Security taxable wage base, plus 8% of salaries that exceeded the U.S. Social Security taxable wage base. Beginning January 1, 2004, IGC's contributions to the Retirement Plan changed from the above 4 and 8 percent to 5.7 and 11.4 percent, which increased the basic contribution to the IRS allowable limits. Employees' salaries in excess of \$200,000 for 2003 and 2002 were excluded from the calculation of contributions. Additional contributions to the Retirement Plan can be made pursuant to the Profit Sharing Plan based on net income of the Company.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

ITEM 11.

The following table sets forth certain information regarding the Units that were beneficially owned on December 31, 2003 (i) by each person who is known by the general partners to beneficially own more than 5% of the outstanding

units of the Company, (ii) by named executive officers of a general partner, and (iii) by all executive officers of the Company and directors of the general partners as a group. Except where noted, the address for the beneficial owner is 236 Smallwood Village Center, Waldorf, Maryland, 20602. There were 2,103,721 Class A Units outstanding as of December 31, 2003.

Name of Beneficial Owner:	Beneficial Ownership ⁽¹⁾		
	Number of IGC Units		Percent
James J. Wilson ⁽²⁾	6,136		0.3
Mark Augenblick	0		0
Francis C. Campbell	0		0
All executive officers of IGC and directors of IGMC as a group	6,136		0.3
<u>Other Owners of record holding 5 percent or more of the voting interests:</u>			
Interstate Business Corporation	606,103		28.8
Wilson Securities Corporation	315,295		15
	921,398		43.8

Notes: (1) The beneficial ownership of Units is determined on the basis of Units directly and indirectly owned by executive officers of IGC and directors of IGMC.

(2) Includes 20 IGC Units held by his wife, Barbara A. Wilson.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The information responding to this item appears in Note 7 to the Company's Consolidated Financial Statements included in Item 7 of this report.

ITEM 13. FINANCIAL STATEMENTS, FINANCIAL STATEMENT SCHEDULES, EXHIBITS, AND REPORTS ON FORM 8-K

1. Financial Statements

- a. The following financial statements of Interstate General Company, LP are contained herein:

Report of Independent Public Accountants

Consolidated Statements of Loss for the years ended December 31, 2003 and 2002

Consolidated Balance Sheets as of December 31, 2003 and 2002

Consolidated Statements of Changes in Partners' Capital for the years ended December 31, 2003, 2002, and 2001

Consolidated Statements of Cash Flows for the years ended December 31, 2003 and 2002

Notes to Consolidated Financial Statements for the years ended December 31, 2003 and 2002

- b. The following financial statements of Brandywine Investment Associates, LP are included as Exhibit 99.15 herewith:

Statement of Income (Loss) for the years ended December 31, 2003 and 2002

Balance Sheet for the years ended December 31, 2003 and 2002

Statement of Changes in Partners' Capital for the years ended December 31, 2003, 2002 and 2001

Statement of Cash Flows for the years ended December 31, 2003 and 2002

Notes to Financial Statements for the year ended December 31, 2003

2. Financial Statement Schedules

There are no financial statements' schedules contained herein.

	9	Form 8-K; Item 12; earnings release for the year ended December 31, 2003	Filed herewith

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

For the Company's fiscal year ended December 31, 2003 and 2002, we were billed approximately \$76,000 and \$77,000, respectively, for professional services rendered for the audit and review of our financial statements. These fees were rendered by our principal accountants in connection with the Securities and Exchange Commission required filing of periodic and other reports. These fees include services rendered by the principal accountant in connection with the Company's Audit Committee.

Tax Fees

For the Company's fiscal year ended December 31, 2003 and 2002, we were billed approximately \$56,000 and \$96,000, respectively, for professional services rendered in connection with tax return preparation, review, support schedules and filing as required by statutory and regulatory agencies. These fees include matters involving tax compliance, advice, and planning for those years. The Company has a separate tax accountant and a third party who

prepares its Schedule K-1s for its unit holders.

All Other Fees

For the Company's fiscal year ended December 31, 2003 and 2002, we were billed approximately \$8,000 and \$2,000, respectively, for other services provided by our principal accountant. The services include specific research on waste project entity structuring, consultation on land contributions into a partnership, consultation on structuring debt in relation to partnership agreement, specific accounting research on financial statement treatment of costs, specific accounting research on capitalization of land cost, review of the Company's whistle-blower procedures, and a review of investor budgeting formats.

Audit Committee

The Company's audit committee is responsible for engaging the principal accountant. The audit committee reviews, approves, and signs the annual engagement letter for the professional services to be rendered by the principal accountant in connection the Securities and Exchange Commission required filings. The audit committee holds quarterly conference call meetings with the principal accountants to review the financial statements and discuss other matters as required or needed.

The Company's management is responsible for engaging the tax accountant and related service providers.

The Company's management may engage the principal and tax accountants for other services needed throughout the year and seeks the audit committee approval when necessary.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, there-unto duly authorized.
