**Item 1.01. Entry into a Material Definitive Agreement.**

On January 10, 2008, SunPower Corporation (“SunPower”) entered into a long-term polysilicon supply agreement (the “First Polysilicon Agreement”) with NorSun AS (“NorSun”). The First Polysilicon Agreement provides the general terms and conditions pursuant to which NorSun is to sell and SunPower is to purchase specified annual quantities of polysilicon at specified prices from 2010 through 2019. The First Polysilicon Agreement provides that NorSun’s obligation to sell polysilicon is conditioned upon receipt of polysilicon from NorSun’s joint venture with Swicorp Jousour Company and Chemical Development Company for the construction of a new polysilicon manufacturing facility in Saudi Arabia. NorSun will initially hold a fifty percent equity interest in the joint venture company.

On January 10, 2008, SunPower and the anticipated shareholders of the joint venture company also agreed upon the terms and conditions of an additional long-term polysilicon supply agreement (the “Second Polysilicon Agreement” and, together with the First Polysilicon Agreement, the “Supply Agreements”) between SunPower and the joint venture company, which is in the process of formation. The Second Polysilicon Agreement provides the general terms and conditions pursuant to which the joint venture company is to sell and SunPower is to purchase specified annual quantities of polysilicon at specified prices from 2010 through 2019. The Second Polysilicon Agreement provides that the joint venture company’s obligation to sell polysilicon is conditioned upon the new polysilicon manufacturing facility achieving commercial operation.

If applicable conditions under the Supply Agreements are satisfied, the aggregate quantity of polysilicon to be purchased by SunPower from 2010 through 2019 is expected to satisfy production requirements for up to approximately 2,500 megawatts of solar cell manufacturing based on SunPower’s expected polysilicon utilization during such period.

In connection with the Supply Agreements, on January 10, 2008, NorSun and SunPower entered into an Option Agreement (the “Option Agreement”). The Option Agreement provides the general terms and conditions pursuant to which SunPower will deliver cash advance payments to NorSun for the purchase of polysilicon under the First Polysilicon Agreement, which NorSun will use to fund its portion of the equity investment in the joint venture company. SunPower shall provide a letter of credit or deposit funds in an escrow account to secure NorSun’s right to such advance payments. Under the terms of the Option Agreement, SunPower may exercise a call option and apply the advance payments to purchase fifty percent, subject to certain adjustments, of NorSun’s equity interest in the joint venture. SunPower may exercise its option at any time until six months following the commercial operation of the Saudi Arabian polysilicon manufacturing facility. The Option Agreement also provides NorSun an option to put fifty percent, subject to certain adjustments, of its equity interest in the joint venture to SunPower. NorSun’s option is exercisable commencing July 1, 2009 through six months following commercial operation of the polysilicon manufacturing facility. NorSun will grant a security interest in its equity interest in the joint venture subject to the put-call option to secure its obligations under the Option Agreement. If either the call option or the put option is exercised, (i) the parties will credit any advance payments for polysilicon against the option’s exercise price, (ii) the First Polysilicon Agreement will terminate, and (iii) SunPower will assume NorSun’s rights and obligations under a long-term polysilicon supply agreement between NorSun and the joint venture company pursuant to which the joint venture company will sell and SunPower will purchase specified annual quantities of polysilicon at specified prices from 2010 through 2019, representing the same quantities and prices under, and on terms and conditions substantially similar to, the First Polysilicon Agreement.
