Form 10-Q  
November 09, 2010

=====

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT  
OF 1934

For the quarterly period ended September 30, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT  
OF 1934

For the transition period from      to

Commission File No. 0-20260

IntegraMed America, Inc.  
(Exact name of Registrant as specified in its charter)

Delaware      06-1150326

(State or other  
jurisdiction of      (IRS employer  
incorporation or      identification  
organization)      no.)

Two Manhattanville Road  
Purchase, NY      10577

(Address of principal executive  
offices)      (Zip code)

(914) 253-8000  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No "

Edgar Filing: INTEGRAMED AMERICA INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated filer <input type="checkbox"/>	Accelerated Filer <input checked="" type="checkbox"/>
Non-Accelerated filer <input type="checkbox"/>	Smaller Reporting Company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in rule 12b-2 of the Exchange Act). Yes  No

The aggregate number of shares of the Registrant's Common Stock, \$.01 par value, outstanding on October 27, 2010 was approximately 11,724,300.

INTEGRAMED AMERICA, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

## NOTE 1 — INTERIM RESULTS:

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to the Securities and Exchange Commission (SEC) rules related to Form 10-Q and, accordingly, do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, the accompanying unaudited interim consolidated financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the consolidated financial position at September 30, 2010, and the consolidated results of operations and cash flows for the interim periods presented. Operating results for the interim period are not necessarily indicative of results that may be expected for the year ending December 31, 2010. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in IntegraMed America's Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2009.

## NOTE 2 — EARNINGS PER SHARE:

The reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the three and nine month periods ended September 30, 2010 and 2009 is as follows (000's omitted, except for per share amounts):

	For the three-month period		For the nine-month period	
	Ended September 30, 2010	2009	Ended September 30, 2010	2009
<b>Numerator</b>				
Net Income	\$1,099	\$1,228	\$3,835	\$3,262
<b>Denominator</b>				
Weighted average shares outstanding (basic)	11,718	8,776	11,264	8,770
Effect of dilutive options and warrants	53	63	50	63
Weighted average shares and dilutive potential Common shares (diluted)	11,771	8,839	11,314	8,833
Basic earnings per share	\$0.09	\$0.14	\$0.34	\$0.37
Diluted earnings per share	\$0.09	\$0.14	\$0.34	\$0.37

For the three and nine month periods ended September 30, 2010, there were 18,321 and 131,458, respectively, outstanding options to purchase shares of Common Stock which were excluded from the computation of the diluted earnings per share amount as the exercise prices of these outstanding options were greater than the average market

price of the shares of Common Stock.

For both the three and nine month periods ended September 30, 2009, there were 127,845 outstanding options to purchase shares of Common Stock which were excluded from the computation of the diluted earnings per share amount as the exercise prices of these outstanding options were greater than the average market price of the shares of Common Stock.

As of September 30, 2010, there were 11,731,183 shares of common stock issued of which 11,724,335 were outstanding and 6,848 held as treasury shares. As of December 31, 2009, there were 8,831,558 shares of common stock issued of which 8,785,150 were outstanding and 46,408 held as treasury shares.

INTEGRAMED AMERICA, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

## NOTE 3 — SEGMENT INFORMATION:

We currently report two major operating segments and a corporate office that provides shared services. These two operating segments reflect our organizational structure, lines of responsibility and management's perspective of the organization. Each segment includes an element of overhead and administrative costs specifically associated with its operations, with the corporate shared services group responsible for support functions generic to both segments.

In the second quarter of 2010, management made a determination to combine the Fertility Centers Segment with the Consumer Services Segment into a new division, Attain Fertility Centers, under a new division president. Prior to that time, we had been reporting under three segments: Fertility Centers, Consumer Services, and Vein Clinics. This change was made to more closely align the business objective and operations of the two activities and will be operated and managed as a single segment on an ongoing basis.

Performance by segment, for the three and nine month periods ended September 30, 2010 and 2009 are presented below (000's omitted):

(unaudited)

## NOTE 5 – CASH AND CASH EQUIVALENTS:

Cash and cash equivalents consist of cash, short term marketable securities and accrued interest on these securities. To the extent that cash balances exceed short term operating needs, excess cash is either held in our Corporate bank accounts with Bank of America to earn interest or credits to offset account fees, or is invested in short term interest bearing instruments. It is our policy to restrict our investments to high-quality securities with fixed maturity dates and principal amounts. The composition of our cash and cash equivalents as of September 30, 2010 and December 31, 2009 is as follows (000's omitted):

	September 30, 2010 (unaudited)	December 31, 2009
Cash	\$ 34,059	\$ 15,770
Short term investments	18,114	13,081
Accrued interest income		14
Total cash and cash equivalents	\$ 52,173	\$ 28,865

## NOTE 6 – PATIENT AND OTHER RECEIVABLES, NET:

Patient and other receivables are principally comprised of gross patient and insurance receivables from our Vein Clinics segment which represent outstanding balances due for patient treatments less estimated allowances for insurance contractual agreements and uncollectible balances. Insurance contractual allowances are calculated based on recent allowance trends stratified by major payer category and uncollectible reserves are based on both historical trends and specific identification of specific accounts.

The composition of our patient and other receivables as of September 30, 2010 and December 31, 2009 is as follows (000's omitted):

	September 30, 2010 (unaudited)	December 31, 2009
Vein Clinic patient and insurance receivables	\$ 9,795	\$ 9,773
Reserve for uncollectible accounts	(2,439 )	(2,913 )
Subtotal Vein Clinic receivables, net	\$ 7,356	\$ 6,860
Other receivables	48	104
Total Patient and other receivables, net	\$ 7,404	\$ 6,964

NOTE 7 – OTHER CURRENT ASSETS:

Other Current Assets totaled \$9.6 million and \$7.7 million as of September 30, 2010 and December 31, 2009, respectively. The largest component of Other Current Assets are Prepaid Marketing balances totaling \$3.5 million as of September 30, 2010, and \$2.7 million as of December 31, 2009; these amounts include amounts related to marketing expenditures which have been paid prior to use and the unamortized portion of Direct Response Advertising Costs.

INTEGRAMED AMERICA, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

Direct Response Advertising Costs of \$3.0 million and \$1.3 million as of September 30, 2010 and December 31, 2009, respectively, these costs consist of capitalized advertising costs which have met the criteria outlined in ASU 340, including: probable future benefit, the ability to uniquely track individual responses to specific advertisements, and no material selling or marketing expenses are expected to occur after the advertisement. These capitalized Direct Response Advertising costs are amortized and recognized as an expense over a seven or six month useful life (depending on the segment that the advertising relates to). These amounts (which relate primarily to specific broadcast and internet based advertisements) are capitalized and begin to amortize at the time of use, based on the broadcast date or month of usage and are amortized over the expected period that revenue will be generated as a result of these costs.

The remainder of our Other Current Assets (those items that do not relate to Prepaid Marketing) total \$6.1 million and \$5.0 million as of September 30, 2010 and December 31, 2009, respectively. These balances consist primarily of prepaid rent, insurance premiums and clinical supplies.

NOTE 8 – INTANGIBLE ASSETS:

Business Service Rights consist of fees and expenses paid in conjunction with full service practice management contracts associated with fertility centers within our Attain Fertility Centers Division. These contracts typically have ten to 25 year initial lives with the associated service fees on some contracts totaling approximately \$9.6 million as of September 30, 2010, that are refundable to us upon contract termination and therefore are not amortized. We amortize our non-refundable Business Service Rights, amounting to \$13.6 million at September 30, 2010, over the life of their applicable contract.

Goodwill consists of amounts paid related to the acquisition of Vein Clinics of America, Inc. in excess of the fair value of net assets and liabilities acquired. We do not amortize our goodwill.

Trademarks are comprised of valuations assigned to assets associated with the Vein Clinics of America, Inc. acquisition as well as costs associated with our other trademark and service mark rights. We do not amortize our trademarks as they have an indefinite useful life.

We test all our individual intangible assets for impairment on a regular basis. To date no impairment has been incurred and therefore no impairment charges have been recognized in our financial statements.

NOTE 9 – DUE TO FERTILITY MEDICAL PRACTICES:

Due to Fertility Medical Practices is comprised of the net amounts owed by us to medical practices contracted for the full array of practice management services. We do not consolidate the results of the Fertility Medical Practices into our accounts (as discussed in Note 2 of the consolidated financial statements included in our Annual Report on Form

10-K for the year ended December 31, 2009). This balance is comprised of amounts due to us by the medical practices for funds, which we advanced for use in financing their accounts receivable and selected other transactions, less balances owed to the medical practices by us for undistributed physician earnings and patient deposits we hold on behalf of the medical practices.

As of September 30, 2010 and December 31, 2009, Due to Fertility Medical Practices was comprised of the following balances (000's omitted):

	September 30, 2010 (unaudited)	December 31, 2009
Advances to Medical Practices	\$ (15,835)	\$ (14,653)
Undistributed Physician Earnings	4,110	2,270
Physician Practice Patient Deposits	24,167	18,807
Due to Fertility Medical Practices, net	\$ 12,442	\$ 6,424

INTEGRAMED AMERICA, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

## NOTE 10 – NOTES PAYABLE AND OTHER OBLIGATIONS:

Notes payable and other obligations as of September 30, 2010 and December 31, 2009 consisted of the following (000's omitted):

	September 30, 2010 (unaudited)	December 31, 2009
Term Loans	\$ 15,368	\$ 18,142
Revolving Line of Credit	-	7,500
Derivative Fair valuation adjustment	129	306
Obligations under capital leases	152	218
Total notes payable and other obligations	\$ 15,649	\$ 26,166
Less — current portion	(3,791 )	(11,317)
Long-term notes payable and other obligations	\$ 11,858	\$ 14,849

All of our term loans are financed through a syndicated arrangement with a number of banks, where Bank of America is the administrative agent bank, and are collateralized by substantially all of our assets. As of September 30, 2010 and December 31, 2009, we were in full compliance with all applicable debt covenants. The most significant of the covenants relate to the ratio of funded debt to adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”) and maintenance of minimum liquidity of \$10 million.

In May, 2010, we entered into a syndicated amended and restated financing arrangement with Bank of America, TD Bank and Webster Bank and secured a \$35 million three-year revolving credit facility (amounts available to be borrowed are based on eligible patient receivables) and a \$25 million three-year term loan (of which approximately \$16 million was outstanding at closing).

## NOTE 11 – STOCK-BASED EMPLOYEE COMPENSATION:

We currently have three stock option plans which have been previously approved by the stockholders. All three plans are described more fully in Note 19 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009. Under these plans, stock options and stock grants may be granted to employees, directors and such other persons as the Board of Directors determines will contribute to our success. Vesting periods are set by the Board of Directors and stock options are generally exercisable during a ten-year period following the

date of grant. The Board of Directors has the authority to accelerate the maturity of any stock option or grant at its discretion, and all stock options and grants have anti-dilution provisions. Under all of our plans, options expire three months from the date of the holder's termination of employment or twelve months in the event of disability or death. As of September 30, 2010, there were 215,469 shares available for granting under these Plans.

The following table sets forth information about the weighted-average fair value of the 81,117 options granted in 2010, and the fair value assumptions used. No options were granted in 2009.

INTEGRAMED AMERICA, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

	For the three-month period Ended September 30, 2010		For the nine-month period Ended September 30, 2010	
	2010	2009	2010	2009
Fair value of options granted	\$ 4.96	N/A	\$ 5.11	N/A
Dividend yield	0%	N/A	0%	N/A
Expected volatility	48.4%	N/A	57.4%	N/A
Risk free interest rate	2.5%	N/A	3.9%	N/A
Expected term in years	5.0	N/A	5.0	N/A

We recognize compensation cost for stock option plans over the vesting period which approximates the service period, based on the fair value of the option as of the date of the grant.

Stock award activity for the first nine months of 2010 under these plans is summarized below:

	Number of shares of Common Stock underlying options	Weighted Average Exercise Price
Options outstanding at December 31, 2009	205,685	\$ 5.78
Granted – stock options	81,117	\$ 7.97
Granted – stock awards	168,347	\$ 7.96
Exercised – stock options	15,439	\$ 1.91
Exercised – stock awards	168,347	\$ 7.96
Canceled	—	
Options outstanding at September 30, 2010	271,363	\$ 6.97

Options exercisable

at:

December 31, 2009	119,771	\$	4.64
September 30, 2010	128,301	\$	5.68

The aggregate intrinsic value (difference between exercise price and current value of our common stock) of options outstanding and exercisable as of September 30, 2010 and December 31, 2009 was approximately \$361,000 and \$354,000, respectively.

We recorded a charge to earnings to recognize compensation expense related to outstanding stock options of \$69,000 and \$207,000 for the three and nine month periods ended September 30, 2010, and \$47,000 and \$142,000 for the three and nine month periods ended September 30, 2009. As of September 30, 2010, we had approximately \$589,000 of unrecognized compensation costs related to stock options which will be recognized over their remaining vesting period, which approximates the service period.

We also issue stock grants to officers and members of the Board of Directors. Stock granted to Board members vests immediately and stock granted to officers, which is restricted and generally vests over a period of three to five years. Our General and Administrative expense includes compensation costs recognized in connection with these restricted stock grants of \$270,000 and \$864,000 for the three and nine month periods ended September 30, 2010, and \$251,000 and \$896,000 for the three and nine month periods ended September 30, 2009. As of September 30, 2010, we had approximately \$1.7 million of unrecognized compensation costs related to stock grants which will be recognized over their vesting period, which approximates the service period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

## NOTE 12 – INTEREST RATE HEDGING TRANSACTION:

IntegraMed is exposed to the risk that its earnings and cash flows could be adversely impacted by market driven fluctuations in the level of interest rates. It is our policy to manage these risks by using a mix of fixed and floating rate debt and derivative instruments.

After the expiration of an existing interest rate swap agreement in the third quarter of 2010, IntegraMed entered into another interest rate swap agreement which was designed to help manage the interest rate risk associated with its financial structure.

As a result of both swap agreements, our net income for the three and nine months ended September 30, 2010 includes additional financing costs of approximately \$49,000 and \$256,000 respectively. We also expect to record additional financing costs not to exceed \$50,000 related to the swap agreement over its remaining life given current interest rate forecasts. In addition to the costs included in our reported net income, this hedge has also generated a non-recognized after-tax loss of approximately \$82,000 as of September 30, 2010 which is reported as part of our comprehensive income. As of September 30, 2010, we had no other hedge or derivative transactions.

The following table summarizes total comprehensive income for the applicable periods (000's omitted):

	For the three-month period Ended September 30,		For the nine-month period Ended September 30,	
	2010	2009	2010	2009
Net income as reported	\$ 1,099	\$ 1,228	\$ 3,835	\$ 3,262
Unrealized gain (loss) on hedging transaction, net	(23 )	71	106	153
Total comprehensive income	\$ 1,076	\$ 1,299	\$ 3,941	\$ 3,415

## NOTE 13 – LITIGATION AND COMPLIANCE WITH HEALTHCARE REGULATIONS:

From time to time, we are party to legal proceedings in the ordinary course of business and are required to maintain compliance with extensive healthcare regulations. As of September 30, 2010, none of these proceedings or potential issues associated with healthcare regulation compliance are expected to have a material adverse effect on our consolidated financial position, results of operations or cash flows.

## NOTE 14 – RECENT ISSUED ACCOUNTING GUIDANCE:

Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements (ASU No. 2010-06)

In January 2010, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, 2010-06, "Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements," which amends Subtopic 820-10. ASU 2010-06 enhances disclosure requirements related to fair value measurements. Certain provisions of ASU 2010-06 are effective for annual and interim periods beginning after December 15, 2009 and others for fiscal years beginning after December 15, 2010. The Company has adopted the relevant provisions of ASU 2010-06 and has incorporated new disclosures regarding fair value measurements. The adoption of this standard did not have a material impact on our consolidated financial statements.

Emerging Issues Task Force (EITF) 08-1 – Replacement for Issue 00-21 (ASC 605-25)

Issue 08-1 will change the accounting for revenue recognition for arrangements with multiple deliverables. Issue 08-1 will enable entities to separately account for individual deliverables for many more revenue arrangements. By removing the criterion that entities must use objective and reliable evidence of fair value in separately accounting for deliverables, the EITF expects the recognition of revenue to more closely align with the economics of certain revenue arrangements. Issue 08-1 applies to all deliverables in contractual arrangements in all industries in which a vendor will perform multiple revenue-generating activities, except when some or all deliverables in a multiple deliverable arrangement are within the scope of other, more specific sections of the Codification and other sections of ASC 605 on revenue recognition. Specifically, Issue 08-1 addresses the unit of accounting for arrangements involving multiple deliverables. It also addresses how arrangement consideration should be allocated to the separate units of accounting, when applicable. Issue 08-1 requires a vendor to evaluate all deliverables in an arrangement to determine whether they represent separate units of accounting. This evaluation must be performed at the inception of an arrangement and as each item in the arrangement is delivered. It is our opinion that the adoption of this guidance will not have a material impact on our consolidated financial statements. Issue 08-1 must be applied prospectively to revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto included in this report and with IntegraMed America, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2009. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results and timing of events could differ materially from those anticipated in the forward-looking statements as a result of many factors, including those discussed under the caption "Risk Factors" appearing under Item 1-A included in our Form 10-K for the year ended December 31, 2009.

### Overview

We manage highly specialized outpatient centers in emerging, technology-based, niche medical markets. The company currently operates in two healthcare sectors, fertility care and vein treatment. The company supports its operations with an established and extensive infrastructure of clinical and business resources. Each of our operating divisions is presented as a separate segment for financial reporting purposes.

The Attain Fertility Centers Division is comprised of 42 contracted fertility centers, located in major markets across the United States. Each contracted center is composed of a multi-physician practice with most offering multiple clinical locations in their service area. This Division provides an array of services to contracted fertility centers ranging from consumer marketing services to complete practice management services. The strategy of the Attain Fertility Centers Division is to support the long term growth of contracted centers by attracting and retaining new patients, expanding market share, and for our partner practices (those that we provide the full range of management service), we enable superior clinical and patient care, and increase the operational efficiency of the fertility center. The Attain Fertility Centers Division drives growth at our contracted fertility centers through a number of business development and marketing initiatives, these include our suite of Attain™ IVF programs. The Attain™ IVF programs consist of product offerings which allow a patient to pay one fee for multiple treatment cycles and under certain programs, patients are eligible for a refund if they do not take home a baby.

Our Vein Clinics Division began operations on August 8, 2007, with the purchase of Vein Clinics of America, Inc. ("VCA"), a company that had been in business since 1981. The Vein Clinics Division currently manages a network of 37 clinics located in 14 states, which specialize in the treatment of vein disease and other vein disorders.

The primary elements of our business strategy include:

- Drive growth at our contracted fertility centers by providing additional management; services.
- Expand the relationships to additional fertility centers through the sale of consumer product offerings;
- Developing de novo vein clinics;

- Increasing the total number of patients treated;
- Increasing the penetration of our Attain IVF programs; and
- Continuing to improve operating efficiencies.

Major Events Impacting Financial Condition and Results of Operations

2010

On November 3, 2010, we announced the planned opening of 5 new clinics in our Vein Clinics Division (these are in addition to our previously announced 10 new clinics in 2010 and the beginning of 2011). We estimate startup costs related to these five additional clinics are estimated to be between \$1.75-\$2.25 million and will impact 2011 reported results principally during Q2 and Q3.

On October 12, 2010, our Attain Fertility Centers Division announced the addition of New Hope Center for Reproductive Medicine in Virginia Beach, VA to its network who purchased consumer marketing services and will begin offering the Attain® IVF programs.

On September 30, 2010, we issued a press release covering our earnings expectations for the third and fourth quarter of 2010. Within this press release, we highlighted the start up costs related to the expansion efforts of our Vein Clinics Division and other earnings pressures that we are experiencing in the second half of 2010 (including physician departures in both divisions and a flood at one of our larger partner practices).

On September 1, 2010, our Attain Fertility Centers Division announced the addition of the Stanford Fertility and Reproductive Medicine Center (SFRMC) to its network who purchased consumer marketing services and will begin offering the Attain™ IVF programs.

On July 23, 2010, our Attain Fertility Centers Division announced the addition of Houston Fertility Institute to its network who purchased consumer marketing services and will begin offering the Attain IVF programs.

On July 7, 2010, we announced the combination of our Fertility Centers Division and Consumer Services Division into the Attain Fertility Centers Division, effective with the reporting of our second quarter 2010 results. At the same time, we announced the appointment of Mr. Andrew Mintz to lead the new Division.

On June 7, 2010, our Vein Clinics Division announced the planned opening of 10 new clinics across seven states. These new clinics will begin operations primarily in the second half of 2010 and the first quarter of 2011.

On May 21, 2010, we entered into a new credit facility with Bank of America, TD Bank and Webster Bank. The credit facilities are comprised of a \$35 million revolving line of credit, and a \$25 million term loan (of which

approximately \$16 million was outstanding at the time of closing).

On February 18, 2010, we completed a public offering of 2,800,000 shares of common stock at a price to the public of \$7.50 per share, which raised approximately \$19.1 million of net proceeds, after deducting underwriting discounts, commissions and offering expenses. The stated use of proceeds for this new capital was to assist with the addition of new partner fertility centers, accelerate the pace of new vein clinic openings in 2010, and for general working capital and other corporate purposes.

On February 4, 2010, we announced the addition of Tennessee Reproductive Medicine to the Consumer Services Division our network who purchased consumer marketing services and began offering the Attain IVF programs.

On January 12, 2010, we announced plans to open a new vein clinic in Chevy Chase, Maryland in early May 2010. This was the 35th clinic in our Vein Clinics Division and our seventh clinic in the greater Baltimore/Washington D.C. region.

On January 8, 2010, we announced plans to open a new vein clinic in Columbia, Maryland in mid-2010. This was the 34th clinic in our Vein Clinics Division and added interventional radiology treatments to the full range of vein treatments provided at our existing vein clinics, enabling patients to undergo a host of additional procedures. Interventional radiology involves minimally invasive procedures performed using image guidance. Adding interventional radiology allows this vein clinic to offer patients more high value and complex vascular procedures including uterine fibroid embolization, fallopian tube recanalization as well as procedures for varicoceles and pelvic congestion, among others.

2009

On December 1, 2009, we acquired the rights to supply a complete range of business, marketing, and facility services to three new Partner fertility centers in the western United States; the Idaho Center for Reproductive Medicine, the Nevada Center for Reproductive Medicine and the Utah Fertility Center, based in Boise, Idaho, Reno, Nevada and Provo, Utah, respectively. The Idaho and Nevada fertility centers are established centers and the Utah center began seeing patients in early 2010. Under the terms of these 25-year agreements, our service fees are comprised of a fixed percentage of revenues, reimbursed costs of services, and an additional fixed percentage of each center's earnings. We also committed up to \$1.0 million to fund any necessary capital needs of the practices.

On October 28, 2009, the management of the Company concluded and subsequently reported to the Audit Committee of the Company's Board of Directors that the Company's audited financial statements for the years ended December 31, 2006, 2007 and 2008 should not be relied upon. Such financials were subsequently restated due to an understatement in revenue recognized in connection with its Attain IVF program within its Consumer Services Division. See Note 2 to the December 31, 2009 consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2009 for additional information.

On April 20, 2009, we announced the opening of a new vein clinic in Cleveland, Ohio. This represented our entry into the Cleveland market and the expansion of our presence in the State of Ohio.

On April 1, 2009, we elected to exercise the option contained in our business service agreement with Arizona Reproductive Medicine Specialists, based in Phoenix, Arizona, and expand our service offerings from a limited range of services to those offered to our other fertility Partners.

On January 20, 2009, we announced the opening of a new vein clinic in Cincinnati, Ohio. This represented our first entry into the State of Ohio and the Cincinnati market.

## Results of Operations

The following table shows the percentage of net revenue represented by various expenses and other income items reflected in our statements of operations for the three and nine month periods ended September 30, 2010 and 2009:

	For the three-month period Ended September 30, 2010		For the nine-month period Ended September 30, 2010

Three and Nine Months Ended September 30, 2010 Compared to the Three and Nine Months Ended September 30, 2009

#### Revenues

For the three months ended September 30, 2010, total revenues were \$60.6 million, an increase of approximately \$7.0 million, or 13.0%, from the same period in 2009. Revenue at our Attain Fertility Centers Division was up approximately \$4.9 million, or 12.0%, based on a 58.1% increase in our AttainIVF Programs as well as the addition of

three new contract fertility clinics as of December 1, 2009. Vein Clinics revenue growth of \$2.0 million was 16.1% above the same period in 2009, primarily driven by organic revenue growth at existing clinics and two new clinics which were added during the second quarter of 2010.

For the nine months ended September 30, 2010, total revenues were \$179.3 million, an increase of approximately \$17.3 million, or 10.7%, from the same period in 2009. Revenue for the first nine months of 2010 at our Attain Fertility Centers Division was up approximately \$10.7 million, or 8.6%, based on a 39.3% increase in our Attain™ IVF Programs, the addition of the previously mentioned three new contract fertility clinics as of December 1, 2009 and the expansion of our service offerings to a Phoenix, AZ, based contracted clinic beginning April 1, 2009. Vein Clinics revenue growth of \$6.5 million was 17.5% above the same period in 2009, primarily driven by same store growth at existing clinics plus the opening of two new clinics since September 30, 2009.

A segment-by-segment discussion is presented below.

## Attain Fertility Centers Segment

Our Attain Fertility Centers Division is the combination of our previously established Fertility Centers Division and Consumer Services Division; as such the Segment currently has two main revenue streams, those revenues generated from providing complete practice management services at the associated fertility centers and those that are generated as a result of utilization of the Attain IVF programs.

During the third quarter of 2010, the Attain Fertility Centers Division had revenues of \$45.9 million, \$38.2 million of which were derived from fertility clinics purchasing the full array of practice management services, while the remaining \$7.7 million was generated through our Attain IVF programs and other associated revenue streams.

For the first nine months of 2010, the Attain Fertility Centers Division had total revenues of \$135.5 million, as compared to \$124.8 million during the first nine months of 2009. The 2010 revenue was comprised of \$114.8 million produced by our fertility practices purchasing the full array of practice management services, \$19.8 million produced by the Attain™ IVF products and \$0.9 million from other associated activities. Key quarter-to-quarter operational metrics for our Attain Fertility Centers Division are presented below:

	Q3 2010	Q3 2009	Change	% Change		YTD 2010	YTD 2009	Change	% Change
Revenues (000's)	\$45,899	\$40,977	\$4,922	12.0 %		\$135,523	\$124,780	\$10,743	8.6 %
Operating Income (000's)	\$4,636	\$4,047	\$589	14.6 %		\$13,470	\$12,419	\$1,051	8.5 %

In providing clinical care to patients, each of our partner fertility centers generates patient revenue which we do not report in our financial statements. Although we do not consolidate the fertility medical practices financials with our own, these financials do directly affect our revenues.

The components of our revenue from our fertility centers purchasing the full array of practice management services are typically:

- A base service fee calculated as a percentage of patient revenue as reported by the center (this percentage varies from 6% down to 3% depending on the agreement and the level of patient revenues);
- Cost of services equal to reimbursement for the expenses which we advanced to the center during the month (representing substantially all of the expenses incurred by the practice, except physician compensation); and
- Our additional fees which represent our share of the net income of the center (which varies from 10% to 20% or a fixed amount depending on the underlying center, subject to limits in some circumstances).

However, our revenues from our Fertility Centers of Illinois, S.C. ("FCI") fertility center are not based on this three-part structure. Rather, effective as of November 1, 2009, our revenues from FCI are generally equal to the operating expenses associated with managing FCI's medical practice plus 9.5% of such expenses. Our revenues from FCI prior to November 1, 2009, were, pursuant to our current Partner agreement with FCI, set at a fixed annual amount paid monthly.

In addition to these revenues generated from our fertility medical practices, we often receive miscellaneous other revenues related to providing services to medical practices. From the total of our revenues, we subtract the annual amortization of our Business Service Rights, which are the rights to provide Business Services to each of the centers.

During the quarter ended September 30, 2010, revenues from our partner practices increased by \$2.2 million, or 6.1%, from the same period in 2009. This increase in revenue was substantially driven by revenues from the three new partner agreements signed in the fourth quarter of 2009. Revenue from same center clinics, those open 18 months or more, grew by \$920,000, impacted in part by the previously disclosed termination of a large payer contract in the first quarter of 2009. The table below illustrates the components of Attain Fertility Centers Division revenues and the relationship of clinical patient billings to fertility centers purchasing the full array of practice management services revenue for the first three and nine months of 2010 compared to 2009 (in thousands):

	For the three-month period Ended September 30,		For the nine-month period Ended September 30,	
	2010 (unaudited)	2009 (unaudited)	2010 (unaudited)	2009 (unaudited)

Both New Patients Visits, which are a leading indicator of future fertility treatments, and IVF Cycle volume were approximately even with the prior year for both the three and nine month periods ended September 30, 2010. This is due to the lingering effects of the current economic cycle and the loss of the large payer contract in 2009 which was previously described. Revenue from our Attain IVF programs was \$7.4 million, an increase of \$2.7 million, or 58.1%, in the third quarter of 2010 versus the same period in the prior year. Attain IVFTM program revenues were \$19.9 million for the first nine months of 2010, an increase of \$5.6 million or 39.3% compared to the first nine months of 2009. Patients who enroll in our Attain IVF Refund Program pay us an upfront fee (deposit) in return for up to six treatment cycles (consisting of up to three fresh IVF cycles and three frozen embryo transfers). Any non-refundable portion of these fees are recognized as revenue based on the relative fair value of each treatment cycle completed relative to the total fair value of the contracted treatment package selected by the patient.

The refundable portion of the program contract amount is recognized as revenue when the patient becomes pregnant. At the time of pregnancy, we establish reserves for future medical costs and potential refunds should the patient miscarry and require additional contracted treatment cycles or refund. We recognize non-refundable revenue related to a patient achieving pregnancy (as opposed to a completed cycle in regards to non-refundable fees), or when

a patient withdraws from the program. The two main factors that impact the Attain IVF Refund program financial performance are:

- The number of patients enrolled and receiving treatment; and
  - Clinical pregnancy rates

Patients enrolled in our Attain IVF Multi-Cycle program pay us a single fee, which is slightly less than the average cost of two fresh IVF cycles, in return for up to four treatment cycles (consisting of two fresh IVF cycles and two frozen embryo transfers). With respect to our Attain IVF Multi-Cycle program, we recognize a pro rata share of the contract amount as revenue as each treatment cycle is completed. The balance of the program contract amount is recognized as revenue when the patient becomes pregnant. Under such revenue recognition methodology, we never recognize more revenue than the potential refundable amount under the program. At the time of pregnancy, we establish a reserve for future medical costs should the patient miscarry and require additional treatment cycles. The main factor that impacts Attain IVF Multi-Cycle program financial performance is the number of patients enrolled and receiving treatment.

The \$2.7 million quarterly increase in revenue was the result of an increase in the number of clinical outcomes and pregnancies in the third quarter of 2010 relative to 2009, which offset a moderate drop in pregnancy success rates and the increased up take of the Attain IVF Multi-Cycle Program. Pregnancy success rates during the third quarter of 2010 were within expected and historical ranges whereas they were unusually high in the first quarter of 2009.

Applications for entrance into our Attain IVF programs also increased by 29.2% in the three months ended September 30, 2010 versus the prior year, and our conversion ratio for transitioning these applicants into enrolled patients increased to 62.8% in 2010 from 52.2% in 2009. For the nine months ending September 30, 2010, applications increased by 38.1% over the same period in the prior year with the conversion rate rising to 55.5% from 48.1% in the year earlier.

Other revenues in the Attain Fertility Centers Division, principally fees from contracted Fertility Medical Practices who only participate in our consumer marketing programs, totaled \$0.3 million and \$0.8 million for the three and nine month periods ended September 30, 2010, approximately the same as the comparable periods in the prior year. Our affiliate network serves as a vehicle for expanding the distribution of our Attain IVF offerings and can be an entry path for Fertility Medical Practices who choose to purchase additional practice management services.

#### Vein Clinics Segment

Revenues for the three months ended September 30, 2010 were approximately \$14.6 million, up 16.1%, or \$2.0 million from the comparable period in 2009. Revenues in this segment are generated from direct billings to patients or their insurer for vein disease treatment services and this patient revenue is consolidated directly into our financials. Revenues for the first nine months of 2010 were \$43.8 million, an increase of \$6.5 million over the same period in 2009.

As of September 30, 2010 our Vein Clinics division was comprised of 36 treatment clinics, up from 34 clinics at the same time in the prior year. We continue our efforts to expand in new markets across the country and expect to open additional new clinics in 2010. Our physician recruitment efforts have been extremely strong over the past several months and we have identified physicians for each of these new locations.

Key quarter-to-quarter operational metrics for our Vein Clinics Division are presented below:

	Q3 2010	Q3 2009	Change	% Change	YTD 2010	YTD 2009	Change	% Change
Revenues (000's)	\$14,658	\$12,621	\$2,037	16.1 %	\$43,826	\$37,288	\$6,538	17.5 %
	\$112	\$995	\$(883 )	(88.7 %)	\$2,935	\$3,031	\$(96 )	(3.2 %)

Operating Income  
(000's)

Inquiries	5,231	5,317	(86 )	(1.6 %)	17,849	16,968	881	5.2 %

First Leg Starts	2,097	1,963	134	6.8 %	6,379	5,618	761	13.5 %

## Contribution

Contribution for the quarter ended September 30, 2010 was \$4.7 million, a decrease of \$0.3 million, or 5.8%, from the third quarter of 2009. Our 2010 first nine months contribution was \$16.4 million, which is an increase of \$1.0 million from the first nine months of 2009. A segment-by-segment discussion is presented below.

### Attain Fertility Centers Segment

Attain Fertility Centers contribution of \$4.6 million in the third quarter of 2010 was up \$0.6 million, from the third quarter of 2009.

Contribution derived from our partner fertility practices was \$3.8 million for the three months ended September 30, 2010, about even with that of the prior year. Contribution for the nine months ended September 30, 2010 was \$11.4 million, an increase of \$0.6 million, or 5.6% from the same period in the prior year. Period-to-period contribution growth for our legacy centers, those open prior to January 1, 2009, rose 0.6% for the three months ended September 30, 2010, relative to the prior year, but rose 0.9% during the first three quarters of 2010 versus the same period in 2009.

Contribution derived from the Attain IVF programs for the three months ended September 30, 2010, was \$2.1 million, up 71.7% from \$1.2 million in the same period in the prior year. This increase was due to the roll-out of new product offerings designed to extend the reach of our multi-cycle programs to a wider patient base. Contribution for the first nine months of 2010 was \$5.8 million for the Attain IVF programs, an increase of \$1.4 million from the same period in 2009.

Attain Fertility Centers general and administrative expenses directly related to the operating performance of this segment, which are primarily composed of management, marketing, business development and costs to maintain electronic medical records, were \$1.6 million and \$4.7 million for the three and nine months ended September 30, 2010, versus \$1.2 million and \$3.8 million for the same periods in the prior year.

### Vein Clinics Segment

For the third quarter of 2010, contribution from our Vein Clinics Division was \$112,000, or 88.7% below the same period in the prior year. This reduction in contribution is primarily due to start up costs associated with new clinics and expanding the division overhead in advance of the new clinics beginning operation. Vein Clinics contribution for the first nine months of 2010 was \$2.9 million, a decrease of \$96,000, or 3.1%, from the first nine months of 2009.

IntegraMed has embarked on a strategy of accelerated growth in its Vein Clinics segment. IntegraMed now expects modest delays in bringing some of the clinics to market, with nine of its previously announced ten new vein clinics scheduled to open during Q4 '10 and one in Q1 '11. Four of the planned clinics will include advanced Interventional Radiology capabilities, which involve additional equipment, personnel and higher startup costs. The Company has hired and is currently incurring the costs of approximately 50 professionals who are undergoing training in VCA's operational and treatment methodologies prior to the clinic openings. Start up costs associated with the Vein Clinic openings total approximately \$3.6 million and will be spread equally across Q3 and Q4 2010 and Q1 2011.

### General and Administrative Expenses

General and administrative ("G&A") expenses are comprised of salaries and benefits, administrative, regulatory compliance, and operational support costs defined as our Shared Services group, which are not specifically related to individual clinical operations or other product offerings. These costs totaled \$3.0 million in the third quarter of 2010, an increase of \$0.2 million, or approximately 7.1% from the third quarter of 2009 due mainly to targeted cost controls. For the first nine months of 2010, G&A expenses totaled \$9.4 million, up slightly from \$9.3 million in the prior year.

Edgar Filing: INTEGRAMED AMERICA INC - Form 10-Q

For the three and nine months ended September 30, 2010, G&A expenses were 62.4% and 57.3% of operating contribution, respectively, compared to 54.8% and 57.3% in the prior year, respectively. It is our goal to reduce our G&A costs relative to our operating contribution in future periods.

## Interest

Net interest expense in the third quarter of 2010 totaled \$0.2 million, compared to \$0.3 million, during the same period in the prior year.

## Income Tax Provision

Our provision for income tax was approximately \$0.5 million for the three months ended September 30, 2010, or 32.5% of pre-tax income. This is compared to approximately \$0.8 million, or 39.2% of pre-tax income during the same period last year. For the nine months ended September 30, 2010, our provision for income tax was approximately \$2.6 million, or 40.3% of pre-tax income compared to a provision of \$2.2 million, or 40.0% of pre-tax income during the nine months ended September 30, 2009.

The effective tax rate for the three month period ended September 30, 2010 reflects a lower aggregate state tax rate and settlement from a recently completed audit of our 2008 federal tax return. The effective tax rate for all periods presented includes additional tax accruals for uncertain state tax positions. We believe that for the remaining part of 2010, our tax rate will be between 40% and 42%.

We file income tax returns in the U.S. federal jurisdiction and various states. As the result of the recent completion of an IRS examination, periods prior to December 31, 2008 are now considered closed. For state tax purposes, our 2005 through 2009 tax years remain open for examination by the tax authorities under a four year statute of limitations.

## Off-Balance Sheet Arrangements

Current accounting guidance addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. In June 2009, the Financial Accounting Standards Board ("FASB") amended its guidance on accounting for variable interest entities ("VIE"). The new accounting guidance is effective for reporting periods after January 1, 2010. Both sets of guidance require continuous assessments of whether an enterprise is the primary beneficiary of a VIE and requires consolidation if the enterprise has the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and is the primary beneficiary or obligor of the VIE. As of September 30, 2010, through the acquisition of Vein Clinics of America, Inc, we have interests in the individual vein clinics, where we are the primary beneficiary and obligor of their financial results (our contract provides for us to receive any excess or deficit profits from the vein clinics). As such we have consolidated these vein clinic operations in our financial statements. Since we do not have any financial interest in the individual fertility centers and we are not the primary beneficiary or obligor of their financial results (our contracts provide for the physician owners of the clinics to receive any excess or deficit profits), we do not consolidate the results of the fertility centers in our accounts. Also, since we do not have a controlling interest in the captive insurance provider and we are not the primary beneficiary, we do not consolidate the results of the captive insurance company in our accounts.

## Liquidity and Capital Resources

As of September 30, 2010, we had approximately \$52.2 million in cash and cash equivalents on hand as compared to \$28.9 million at December 31, 2009. We had a working capital of approximately \$19.1 million, at September 30, 2010, versus a deficit of approximately \$2.7 million as of December 31, 2009.

Attain IVF deferred revenue and other patient deposits, which are reflected as a current liability, represent funds received from patients in advance of treatment cycles and are an indication of future revenues. These deposits totaled approximately \$14.5 million and \$13.4 million as of September 30, 2010 and December 31, 2009, respectively. The

increase in deposits is a direct result of patient enrollment, and through-put, in our treatment programs. These deposits are a significant source of cash flow and represent interest-free financing for us. These funds are not restricted and the cash balances are included in our cash and cash equivalents.

In May, 2010, we entered into a syndicated amended and restated financing arrangement with Bank of America, TD Bank and Webster Bank and secured a \$35 million three-year revolving credit facility (amounts available to be borrowed are based on eligible patient receivables and as of September 30, 2010, approximately \$14.3 million of the \$35 million line of credit was available) and a \$25 million three-year term loan (of which approximately \$16 million was outstanding at closing). Both the term loan and the revolving credit facility mature in May 2013. Interest on the term loan and revolving loans are payable based on a tiered pricing structure related to a defined leverage ratio. Commitment fees on unused portions of the revolving credit facility are also payable based on a tiered pricing structure tied to the same defined leverage ratio.

Our Bank of America credit facility is collateralized by substantially all of our assets. As of September 30, 2010, we were in full compliance with all applicable debt covenants. We also continuously review our credit agreements and may renew, revise or enter into new agreements from time to time as deemed necessary.

During the third quarter of 2010 we also entered into an interest rate swap agreement to help manage interest rate risk. This swap will mature in the third quarter of 2013, at which time we will re-evaluate our options for managing interest rate risk.

On February 18, 2010, we completed a public offering of 2,800,000 shares of common stock at a price to the public of \$7.50 per share, which raised approximately \$19.1 million of net proceeds, after deducting underwriting discounts, commissions and offering expenses. The stated use of proceeds for this new capital was to assist with the addition of new partner fertility centers, accelerate the pace of new vein clinic openings in 2010, and for general working capital and other corporate purposes.

As of September 30, 2010, we did not have any significant contractual commitments for the acquisition of fixed assets or construction of leasehold improvements. However, we do anticipate upcoming capital expenditures during the normal course of business which we will be able to finance from our operating cash flows. These expenditures are primarily related to medical equipment, information system infrastructure and leasehold improvements.

We believe that working capital, specifically cash and cash equivalents, remains at adequate levels to fund our operations and our commitments for fixed asset acquisitions. We also believe that the cash flows from our operations plus our available credit facility will be sufficient to provide for our future liquidity needs over the next twelve months.

#### Significant Contractual Obligations and Other Commercial Commitments

The following summarizes our contractual obligations and other commercial commitments at September 30, 2010, and the effect such obligations are expected to have on our liquidity and cash flows in future periods.

	Total	Payments due by period (000's omitted)			After 5 Years
		Less than 1 Year	1-3 Years	4-5 Years	
Notes payable	\$ 15,497	\$ 3,697	\$ 11,800	\$ —	\$ —

Edgar Filing: INTEGRAMED AMERICA INC - Form 10-Q

Capital lease obligations	152	94	58	—	—
Interest on debt	1,471	729	742	—	—
Operating leases	70,661	2,050	31,994	7,960	28,657
Total contractual cash obligations	\$ 87,781	\$ 6,570	\$ 44,594	\$ 7,960	\$ 28,657

27

---

	Amount of Commitment Expiration per Period (000's omitted)				
	Total	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Unused lines of credit	\$35,000	\$—	\$35,000	\$—	\$—

We also have commitments to provide working capital financing to select fertility centers in our Attain Fertility Centers Division. A significant portion of these commitments relate to our transactions with the medical practices themselves. Our responsibilities to these medical practices are to provide financing for their accounts receivable and to hold patient deposits as well as undistributed physician earnings on their behalf. Disbursements to the medical practices generally occur monthly. The medical practice's repayment hierarchy consists of the following:

- We provide a cash credit to the practice for billings to patients and insurance companies;
- We reduce the cash credit for clinic expenses that we have incurred on behalf of the practice;
- We reduce the cash credit for the base portion of our Service Fee which relates to the practice revenues;
- We reduce the cash credit for the variable portion of our Service Fee which relates to the practice earnings;
- We disburse to the medical practice the remaining cash amount which represents the physician's undistributed earnings.

We are also responsible for the collection of the practice accounts receivables, which we finance with full recourse. We continuously fund these needs from our cash flow from operations, the collection of prior months' receivables and deposits from patients in advance of treatment. If delays in repayment are incurred, which have not as yet been encountered, we could draw on our existing working capital line of credit. We also make payments on behalf of the practice for which we are reimbursed in the short-term, as well as fund a number of ancillary services . Other than these payments, as a general course, we do not make other advances to the medical practice. We have no other funding commitments to the Fertility Medical Practices.

#### New Significant Accounting Policies

None.

#### New Accounting Guidance

Please see Note 14 of the consolidated financial statements for the quarter ended September 30, 2010 included in this report for a discussion on recently issued accounting guidance.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, our interest income and expense items are sensitive to changes in the general level of interest rates. We are currently subject to interest rate risk associated with our credit facilities as well as our short term investments and certain advances to our Partner Fertility Centers, some of which are tied to either short term interest rates, LIBOR or the prime rate. As of September 30, 2010, we do not believe that a one percent change in market level interest rates would have a material impact our pre-tax income.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 under the Securities Exchange Act of 1934) as of September 30, 2010 (the "Evaluation Date"). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective.

(b) Changes in internal controls

There were no changes made in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are party to legal proceedings in the ordinary course of business. As of September 30, 2010, none of these proceedings is expected to have a material adverse effect on our financial position, results of operations or cash flow.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. (Removed and Reserved)

Item 5. Other Information

None.

Item 5. Exhibits

See Index to Exhibits on Page 32.
