ISCO International, Inc. (the "Company"), as described in a press release dated November 12, 2008, is performing its annual goodwill impairment assessment under SFAS 142 "Goodwill and Other Intangible Assets." As a result of the acquisition of the Company's subsidiary, Clarity Communication Systems Inc. ("Clarity"), in January 2008, the Company is comprised of two reporting units, the hardware business, which includes historical Company operations, and the software business, which includes Clarity operations. Historically, goodwill has been tested for impairment as of September 30 of each year. Due to the additional effort required to evaluate two reporting units, the impairment testing to be conducted as of September 30, 2008 is still in progress. Additionally, the reduction in the Company's market capitalization as of the end of the third quarter, as well as the subsequent decision to pursue the sale of the software business, are indicators that a potential impairment of goodwill may exist as of September 30, 2008. The Company does not know the amount, if any, of the non-cash goodwill impairment charge.

The impairment assessment has caused the Company to perform extensive analysis and to consider and revise its disclosures in its Quarterly Report on Form 10-Q for the quarter ended September 30, 2008, which could not be completed without unreasonable effort or expense within sufficient time to permit the Company's independent auditors to complete their review prior to November 14, 2008. The Company is working expeditiously to complete the Form 10-Q and expects that the Form 10-Q will be filed no later than the fifth calendar day following the prescribed due date.
