Item 3.01 Notice of Delisting or Failure to Satisfy a Continued Listing Rule or Standard; Transfer of Listing.

On April 23, 2009, the NYSE Alternext US LLC (the “Exchange”) submitted a Form 25 to the Securities and Exchange Commission (the “SEC”) to strike ISCO International, Inc.’s (the “Company”) common stock from listing and registration on the Exchange. The delisting takes effect 10 days after the filing of the Form 25 with the SEC. As previously reported, the Company’s common stock has been quoted on the OTC Bulletin Board since February 19, 2009.

Item 8.01 Other Events.

The Company has determined, based on recent information regarding the timing of expected sales and its assessment of current economic conditions, that, in all likelihood, the Company will not achieve its anticipated near term revenue, net income or cash flow targets. The Company currently has approximately \$24 million in outstanding indebtedness, in the aggregate, payable to its lenders, Manchester Securities Corporation and Alexander Finance, L.P. (the “Lenders”) under the terms of several notes secured by all of the Company’s assets (the “Notes”). Approximately \$14 million comes due under the Notes in August 2009. While discussions continue, as of the date hereof, neither of the Lenders has indicated a willingness to provide any additional funding to the Company or to restructure the terms of the Notes. Based on the analysis of its current financial position, the Company has determined that, without additional financing, it will be required to cease operations during the second quarter of 2009.

If there is an occurrence of an “event of default” under the Notes, the Lenders would have the ability to declare all outstanding amounts under the Notes to be immediately due and payable by the Company. The Company does not have the funds necessary to repay the Notes. Therefore, the Lenders would also have the ability to exercise the remedies available under the Notes and applicable law, including taking possession of the Company’s assets. Events such as the failure by the Company to file its periodic reports on a timely basis as previously disclosed on its Form 12b-25 filed with the SEC on April 1, 2009 and its Current Report on Form 8-K filed on April 16, 2009 or ceasing of Company operations could result in the Lenders’ pursuing their remedies under the Notes.

The Company’s Board of Directors is currently considering the limited options available to the Company beyond the numerous strategic options that have already been explored. However, the proceeds of any sale of the Company’s assets would not be expected to exceed the amount of indebtedness outstanding under the Notes. At this time, the Company and the Board do not believe that there are any options that would provide any payment to the Company’s stockholders for their shares of stock if the Company continues to be unable to secure new financing or the Lenders exercise their rights under the Notes.

2008.
