1. ACCOUNTING POLICIES

In the opinion of Titan International, Inc. (Titan or the Company), the accompanying unaudited consolidated condensed financial statements contain all adjustments, which are normal and recurring in nature and necessary for a fair statement of the Company's financial position as of March 31, 2014, and the results of operations and cash flows for the three months ended March 31, 2014 and 2013.

Accounting policies have continued without significant change and are described in the Description of Business and Significant Accounting Policies contained in the Company's 2013 Annual Report on Form 10-K. These interim financial statements have been prepared pursuant to the Securities and Exchange Commission's rules for Form 10-Q's and, therefore, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2013 Annual Report on Form 10-K.

Sales

Sales and revenues are presented net of sales taxes and other related taxes.

Fair value of financial instruments

The Company records all financial instruments, including cash and cash equivalents, accounts receivable, notes receivable, accounts payable, other accruals and notes payable at cost, which approximates fair value due to their short term or stated rates. Investments in marketable equity securities are recorded at fair value. The 6.875% senior secured notes due 2020 (senior secured notes due 2020) and 5.625% convertible senior subordinated notes due 2017 (convertible notes) are carried at cost of \$400.0 million and \$60.2 million at March 31, 2014, respectively. The fair value of the senior secured notes due 2020 at March 31, 2014, as obtained through an independent pricing source, was approximately \$424.0 million.

Cash dividends

The Company declared cash dividends of \$.005 per share of common stock for each of the three months ended March 31, 2014, and 2013. The first quarter 2014 cash dividend of \$.005 per share of common stock was paid April 15, 2014, to stockholders of record on March 31, 2014.

Use of estimates

The policies utilized by the Company in the preparation of the financial statements conform to accounting principles generally accepted in the United States of America and require management to make estimates, assumptions and judgments that affect the reported amount of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from these estimates and assumptions.

Reclassification

Certain amounts from prior years have been reclassified to conform to the current year's presentation.

Subsequent Events

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through the date of issuance of the financial statements.

2. ACQUISITIONS

Acquisition of Voltyre-Prom

On October 4, 2013, Titan in partnership with One Equity Partners (OEP) and the Russian Direct Investment Fund (RDIF) closed the acquisition of an 85% interest in Voltyre-Prom, a leading producer of agricultural and industrial tires in Volgograd, Russia, for approximately \$94.1 million, which includes the assumption of debt. Titan is acting as operating partner with responsibility for Voltyre-Prom's daily operations on behalf of the consortium of which Titan holds a 30% interest. This acquisition expands Titan's footprint into the Commonwealth of Independent States (CIS) region. The fair value of the consideration transferred and noncontrolling interests exceeded the fair value of the identified assets acquired less liabilities assumed. Therefore, goodwill of \$21.0 million was recorded on the transaction, which is not expected to be deductible for tax purposes. An initial noncontrolling interest of \$14.5 million, representing the 15% not owned by the partnership, was recorded at the acquisition date. In the first quarter of 2014, the partnership of Titan, OEP, and RDIF purchased an additional 14% to bring the total Voltyre-Prom ownership to 99%. The Company continues to evaluate the preliminary purchase price allocation, primarily the value of certain deferred taxes and goodwill, and may revise the purchase price allocation in future periods as these estimates are finalized.

The purchase price allocation of the Voltyre-Prom acquisition consisted of the following (amounts in thousands):

	Acquisition Date	Additional Purchases	Total
Cash	\$80	\$—	\$80
Accounts receivable	5,596	—	5,596

16. LITIGATION

The Company is a party to routine legal proceedings arising out of the normal course of business. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes at this time that none of these actions, individually or in the aggregate, will have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company. However, due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations or cash flows as a result of efforts to comply with or its liabilities pertaining to legal judgments.

18. FAIR VALUE MEASUREMENTS

Accounting standards for fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are defined as:

Level 1 – Quoted prices in active markets for identical instruments.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 – Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis consisted of the following (amounts in thousands):

	March 31, 2014				December 31, 2013			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis of financial condition and results of operations (MD&A) is designed to provide a reader of these financial statements with a narrative from the perspective of the management of Titan International, Inc. (Titan or the Company) on Titan's financial condition, results of operations, liquidity and other factors which may affect the Company's future results. The MD&A in this quarterly report should be read in conjunction with the MD&A in Titan's 2013 annual report on Form 10-K filed with the Securities and Exchange Commission on February 20, 2014.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements, including statements regarding, among other items:

- Anticipated trends in the Company's business
- Future expenditures for capital projects
- The Company's ability to continue to control costs and maintain quality
- Ability to meet conditions of loan agreements
- The Company's business strategies, including its intention to introduce new products
- Expectations concerning the performance and success of the Company's existing and new products
- The Company's intention to consider and pursue acquisition and divestiture opportunities

Readers of this Form 10-Q should understand that these forward-looking statements are based on the Company's expectations and are subject to a number of risks and uncertainties (including, but not limited to, the factors discussed in Item 1A, Risk Factors of the Company's most recent annual report on Form 10-K), certain of which are beyond the Company's control.

Actual results could differ materially from these forward-looking statements as a result of certain factors, including:

- The effect of a recession on the Company and its customers and suppliers
- Changes in the Company's end-user markets as a result of world economic or regulatory influences
- Changes in the marketplace, including new products and pricing changes by the Company's competitors
- Ability to maintain satisfactory labor relations
- Unfavorable outcomes of legal proceedings
- Availability and price of raw materials
- Levels of operating efficiencies
- Unfavorable product liability and warranty claims
- Actions of domestic and foreign governments
- Results of investments
- Fluctuations in currency translations
- Climate change and related laws and regulations
- Risks associated with environmental laws and regulations

Any changes in such factors could lead to significantly different results. The Company cannot provide any assurance that the assumptions referred to in the forward-looking statements or otherwise are accurate or will prove to transpire. Any assumptions that are inaccurate or do not prove to be correct could have a material adverse effect on the Company's ability to achieve the results as indicated in forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained in this document will in fact transpire.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Titan International, Inc. and its subsidiaries are leading manufacturers of wheels, tires, wheel and tire assemblies, and undercarriage systems and components for off-highway vehicles used in the agricultural, earthmoving/construction and consumer segments. Titan manufactures both wheels and tires for the majority of these market applications, allowing the Company to provide the value-added service of delivering complete wheel and tire assemblies. The Company offers a broad range of products that are manufactured in relatively short production runs to meet the specifications of original equipment manufacturers (OEMs) and/or the requirements of aftermarket customers.

Agricultural Segment: Titan's agricultural rims, wheels, tires and undercarriage systems and components are manufactured for use on various agricultural and forestry equipment, including tractors, combines, skidders, plows, planters and irrigation equipment, and are sold directly to OEMs and to the aftermarket through independent distributors, equipment dealers and Titan's own distribution centers.

Earthmoving/Construction Segment: The Company manufactures rims, wheels, tires and undercarriage systems and components for various types of off-the-road (OTR) earthmoving, mining, military and construction equipment, including skid steers, aerial lifts, cranes, graders and levelers, scrapers, self-propelled shovel loaders, articulated dump trucks, load transporters, haul trucks, backhoe loaders, crawler tractors, lattice cranes, shovels and hydraulic excavators.

Consumer Segment: Titan manufactures bias truck tires in Latin America, provides wheels and tires and assembles brakes, actuators and components for the domestic boat, recreational and utility trailer markets. Titan also offers select products for ATVs, turf, and golf cart applications.

The Company's major OEM customers include large manufacturers of off-highway equipment such as AGCO Corporation, CNH Global N.V., Deere & Company, Hitachi Construction Machinery, Kubota Corporation and Liebherr Group, in addition to many other off-highway equipment manufacturers. The Company distributes products to OEMs, independent and OEM-affiliated dealers, and through a network of distribution facilities.

The table provides highlights for the quarter ended March 31, 2014, compared to 2013 (amounts in thousands):

	2014	2013	% Decrease
Net sales	\$538,940	\$578,387	(7)%
Gross profit	54,550	96,751	(44)%
Income from operations	264	47,883	(99)%
Net income (loss)	(5,128)) 19,389	n/a

The Company recorded sales of \$538.9 million for the first quarter of 2014, which were approximately 7% lower than the first quarter 2013 sales of \$578.4 million. The lower sales levels were primarily the result of decreased demand for larger products used in the mining industry.

The Company's gross profit was \$54.6 million, or 10.1% of net sales, for the first quarter of 2014, compared to \$96.8 million, or 16.7%, of net sales, in 2013. Income from operations was \$0.3 million for the first quarter of 2014, compared to \$47.9 million in 2013. Net loss was \$5.1 million for the first quarter of 2014, compared to net income of \$19.4 million in 2013. Basic income per share was \$.04 in the first quarter of 2014, compared to \$.38 in 2013. Gross profit and income from operations decreased primarily as a result of a large decrease in demand for

earthmoving/construction products for the mining industry, which remains in a cyclical downturn. Generally, there are higher margins associated with the larger, more complex mining tires. As a consequence, this drove a significant decrease in gross profit due to selling price reductions, mix erosion and lost leverage on lower sales.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

CRITICAL ACCOUNTING ESTIMATES

Preparation of the financial statements and related disclosures in compliance with accounting principles generally accepted in the United States of America requires the application of appropriate technical accounting rules and guidance, as well as the use of estimates. The Company's application of these policies involves assumptions that require difficult subjective judgments regarding many factors, which, in and of themselves, could materially impact the financial statements and disclosures. A future change in the estimates, assumptions or judgments applied in determining the following matters, among others, could have a material impact on future financial statements and disclosures.

Asset and Business Acquisitions

The allocation of purchase price for asset and business acquisitions requires management estimates and judgment as to expectations for future cash flows of the acquired assets and business and the allocation of those cash flows to identifiable intangible assets in determining the estimated fair value for purchase price allocations. If the actual results differ from the estimates and judgments used in determining the purchase price allocations, impairment losses could occur. To aid in establishing the value of any intangible assets at the time of acquisition, the Company typically engages a professional appraisal firm.

Inventories

Inventories are valued at lower of cost or market. At March 31, 2014, approximately 13% of the Company's inventories were valued under the last-in, first-out (LIFO) method. The majority of steel material inventory and related work-in-process and finished goods are accounted for under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. Market value is estimated based on current selling prices. Estimated provisions are established for slow-moving and obsolete inventory.

Income Taxes

Deferred income tax provisions are determined using the liability method whereby deferred tax assets and liabilities are recognized based upon temporary differences between the financial statement and income tax basis of assets and liabilities. The Company assesses the realizability of its deferred tax asset positions and recognizes and measures uncertain tax positions in accordance with accounting standards for income taxes.

Retirement Benefit Obligations

Pension benefit obligations are based on various assumptions used by third-party actuaries in calculating these amounts. These assumptions include discount rates, expected return on plan assets, mortality rates and other factors. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and obligations. The Company has three frozen defined benefit pension plans in the United States and pension plans in several foreign countries. During the first three months of 2014, the Company contributed cash funds of \$1.0 million to its pension plans. Titan expects to contribute approximately \$4.8 million to these pension plans during the remainder of 2014. For more information concerning these costs and obligations, see the discussion of the "Pensions" and Note 27 to the Company's financial statements on Form 10-K for the fiscal year ended December 31, 2013.

Product Warranties

The Company provides limited warranties on workmanship of its products in all market segments. The majority of the Company's products have a limited warranty that ranges from zero to ten years, with certain products being prorated after the first year. The Company calculates a provision for warranty expense based on past warranty experience.

Actual warranty expense may differ from historical experience. The Company's warranty accrual was \$32.9 million at March 31, 2014, and \$33.1 million at December 31, 2013.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Highlights for the three months ended March 31, 2014, compared to 2013 (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Net sales	\$538,940	\$578,387	
Cost of sales	484,390	481,636	
Gross profit	54,550	96,751	
Gross profit percentage	10.1	% 16.7	%

Net Sales

Net sales for the quarter ended March 31, 2014, were \$538.9 million compared to \$578.4 million in 2013, a decrease of 7%. Sales increased approximately 5% from the inclusion of the recently acquired Voltyre-Prom facility which recorded \$29.6 million in sales. Volume increased 4% primarily as the result of increased consumer sales at overseas facilities. The increase in net sales was offset by a price/mix reduction which resulted largely from decreased demand for larger products used in the mining industry that decreased sales approximately 14%, and unfavorable currency translation which decreased sales by approximately 2%.

Cost of Sales and Gross Profit

Cost of sales was \$484.4 million for the quarter ended March 31, 2014, compared to \$481.6 million in 2013. Gross profit for the first quarter of 2014 was \$54.6 million, or 10.1% of net sales, compared to \$96.8 million, or 16.7% of net sales for the first quarter of 2013. Gross profit decreased primarily as a result of a large decrease in demand for earthmoving/construction products for the mining industry, which remains in a cyclical downturn. Generally, there are higher margins associated with the larger, more complex mining tires. As a consequence, this drove a significant decrease in gross profit due to selling price reductions, mix erosion and lost leverage on lower sales.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were as follows (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Selling, general and administrative	\$46,835	\$42,443	
Percentage of net sales	8.7	% 7.3	%

Selling, general and administrative (SG&A) expenses for the first quarter of 2014 were \$46.8 million, or 8.7% of net sales, compared to \$42.4 million, or 7.3% of net sales, for 2013. The higher SG&A expenses were primarily the result of approximately \$5 million of SG&A expenses at recently acquired facilities. The increase in SG&A as a percentage of sales was primarily the result of higher SG&A percentages at recently acquired facilities.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Research and Development Expenses

Research and development expenses were as follows (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Research and development	\$3,710	\$2,702	
Percentage of net sales	0.7	% 0.5	%

Research and development (R&D) expenses for the first quarter of 2014 were \$3.7 million, or 0.7% of net sales, compared to \$2.7 million, or 0.5% of net sales, for 2013. Increased R&D for tire testing for the U.S. tire facilities of approximately \$1 million contributed to the increase.

Royalty Expense

Royalty expense was as follows (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Royalty expense	\$3,741	\$3,723	

The Company has a trademark license agreement with The Goodyear Tire & Rubber Company to manufacture and sell certain tires in North America and Latin America under the Goodyear name. The North American and Latin American farm tire royalties were prepaid through March 2018 as a part of the 2011 Goodyear Latin American farm tire acquisition. In May 2012, the Company and Goodyear entered into an agreement under which Titan will sell certain non-farm tire products directly to third party customers and pay a royalty to Goodyear. Royalty expenses were \$3.7 million for each of the quarters ended March 31, 2014 and 2013, respectively.

Income from Operations

Income from operations was as follows (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Income from operations	\$264	\$47,883	
Percentage of net sales	—	% 8.3	%

Income from operations for the first quarter of 2014, was \$0.3 million, or 0.0% of net sales, compared to \$47.9 million, or 8.3% of net sales, in 2013. This decrease was the net result of the items previously discussed.

Interest Expense

Interest expense was as follows (amounts in thousands):

	Three months ended March 31,		
	2014	2013	
Interest expense	\$9,259	\$10,441	

Interest expense was \$9.3 million and \$10.4 million for the quarters ended March 31, 2014, and 2013, respectively. Interest expense for the first quarter of 2014 decreased primarily as a result of decreased debt balances at Titan Europe.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Convertible Debt Conversion Charge

Convertible debt conversion charge was as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Convertible debt conversion charge	\$—	\$7,273

In the first quarter of 2013, the Company closed an Exchange Agreement with a note holder of the convertible notes. The two parties privately negotiated an agreement to exchange approximately \$52.7 million in aggregate principal amount of the convertible notes for approximately 4.9 million shares of the Company's common stock plus a cash payment totaling \$14.2 million. In connection with this exchange, the Company recognized a charge of \$7.3 million in accordance with accounting standards for debt conversion.

Other Income

Other income was as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Other income	\$516	\$1,419

Other income was \$0.5 million for the quarter ended March 31, 2014, as compared to other income of \$1.4 million in 2013. For the quarter ended March 31, 2014, the Company recorded discount amortization on prepaid royalty of \$0.8 million, Wheels India Limited equity gain of \$0.4 million, and interest income of \$0.4 million, offset by currency exchange loss of \$1.7 million. For the first quarter of 2013, the Company recorded income of \$0.9 million in discount amortization on prepaid royalty.

Provision (Benefit) for Income Taxes

Provision (benefit) for income taxes was as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Provision (benefit) for income taxes	\$(3,351) \$12,199

The Company recorded a benefit for income taxes of \$3.4 million for the quarter ended March 31, 2014, as compared to income tax expense of \$12.2 million in 2013. The Company's effective income tax rate was 40% and 39% for the three months ended March 31, 2014 and 2013, respectively. The Company's 2014 income tax benefit and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of state income tax expense, unrecognized tax benefits, foreign earnings, and domestic production activities deduction.

The Company's 2013 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of state income tax expense, expense for unrecognized tax benefits, foreign earnings, domestic production activities deduction, and tax deductible expenses related to the convertible bond repurchase.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Net Income (Loss)

Net income (loss) was as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Net income (loss)	\$(5,128) \$19,389

Net loss for the first quarter of March 31, 2014, was \$(5.1) million, compared to net income of \$19.4 million in 2013. For the quarters ended March 31, 2014 and 2013, basic earnings per share were \$.04 and \$.38, respectively, and diluted earnings per share were \$.04 and \$.34, respectively. The Company's net income and earnings per share were lower due to the items previously discussed.

Agricultural Segment Results

Agricultural segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Net sales	\$317,166	\$310,553
Gross profit	47,265	54,070
Income from operations	30,541	41,615

Net sales in the agricultural market were \$317.2 million for the quarter ended March 31, 2014, as compared to \$310.6 million in 2013, an increase of 2%. Sales increased approximately 8% from the inclusion of recently acquired entities. The sales increase was offset by a decrease in sales volume of approximately 2%, a price/mix reduction that decreased sales approximately 2%, and unfavorable currency translation which decreased sales by approximately 2%.

Gross profit in the agricultural market was \$47.3 million for the quarter ended March 31, 2014, as compared to \$54.1 million in 2013. Income from operations in the agricultural market was \$30.5 million for the quarter ended March 31, 2014, as compared to \$41.6 million in 2013. The Company's gross profit, as a percentage of net sales, and income from operations decreased as a result of the initial lower margin at the newly acquired Voltyre-Prom facility.

Earthmoving/Construction Segment Results

Earthmoving/construction segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Net sales	\$152,940	\$209,616
Gross profit	3,798	37,495
Income (loss) from operations	(11,094) 20,679

The Company's earthmoving/construction market net sales were \$152.9 million for the quarter ended March 31, 2014, as compared to \$209.6 million in 2013, a decrease of 27%. Sales increased approximately 2% from the inclusion of recently acquired entities and 1% for currency translation. These increases in net sales were offset by a price/mix reduction which resulted largely from decreased demand for larger products used in the mining industry that decreased sales approximately 30%.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Gross profit in the earthmoving/construction market was \$3.8 million for the quarter ended March 31, 2014, as compared to \$37.5 million in 2013. The Company's earthmoving/construction market loss from operations was \$11.1 million for the quarter ended March 31, 2014, as compared to income from operations of \$20.7 million in 2013. Gross profit decreased primarily as a result of a large decrease in demand for earthmoving/construction products for the mining industry, which has entered a cyclical downturn. As a result of the size and complexity, these larger products generally provide higher margin, thus decreasing the gross profit percentage.

Consumer Segment Results

Consumer segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2014	2013
Net sales	\$68,834	\$58,218
Gross profit	4,082	6,147
Income (loss) from operations	(1,560)) 3,142

Consumer market net sales were \$68.8 million for quarter ended March 31, 2014, as compared to \$58.2 million in 2013. Sales in the consumer market increased primarily as the result of increased consumer sales at overseas facilities.

Gross profit from the consumer market was \$4.1 million for the quarter ended March 31, 2014, as compared to \$6.1 million in 2013. Consumer market loss from operations was \$1.6 million for the quarter ended March 31, 2014, as compared to income from operations of \$3.1 million in 2013.

Segment Summary (Amounts in thousands)

Corporate Expenses

Income from operations on a segment basis does not include corporate expenses totaling \$17.6 million for the quarter ended March 31, 2014, as compared to \$17.6 million for 2013.

Corporate expenses for the first quarter of 2014 were composed of selling and marketing expenses of approximately \$9 million and administrative expenses of approximately \$9 million.

Corporate expenses for the first quarter of 2013 were composed of selling and marketing expenses of approximately \$8 million and administrative expenses of approximately \$10 million.

Corporate selling & marketing expenses were approximately \$1 million higher in the first quarter of 2014 primarily due to increased information technology expenses. Corporate administrative expenses were approximately \$1 million lower for the first quarter of 2014 primarily as the result of lower group insurance expenses that were recorded on corporate entities.

MARKET RISK SENSITIVE INSTRUMENTS

The Company's risks related to foreign currencies, commodity prices and interest rates are consistent with those for 2013. For more information, see the "Market Risk Sensitive Instruments" discussion in the Company's Form 10-K for the fiscal year ended December 31, 2013.

PENSIONS

The Company has three frozen defined benefit pension plans covering certain employees or former employees of three U.S. subsidiaries. The Company also has pension plans covering certain employees of several foreign subsidiaries. These plans are described in Note 27 of the Company's Notes to Consolidated Financial Statements in the 2013 Annual Report on Form 10-K.

The Company's recorded liability for pensions is based on a number of assumptions, including discount rates, rates of return on investments, mortality rates and other factors. Certain of these assumptions are determined by the Company with the assistance of outside actuaries. Assumptions are based on past experience and anticipated future trends. These assumptions are reviewed on a regular basis and revised when appropriate. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and the carrying value of the related obligations. Titan expects to contribute approximately \$4.8 million to these pension plans during the remainder of 2014.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

In the first quarter of 2014, operating activities provided cash of \$18.0 million, including an increase in accounts payable of \$34.0 million and other current liabilities of \$16.1 million, and a decrease in prepaid and other current assets of \$28.6 million, which included a \$36.0 million income tax refund received in the first quarter of 2014. Positive cash inflows were offset by an increase in accounts receivable of \$61.5 million. Included in net loss of \$5.1 million was \$23.3 million of noncash charges for depreciation and amortization.

In the first quarter of 2013, operating activities provided cash of \$21.3 million, which included net income of \$19.4 million and an increase in accounts payable and other liabilities of \$33.9 million. Net income included \$20.0 million of noncash charges for depreciation and amortization. Positive cash inflows were offset by increases in accounts receivable and inventory of \$35.0 million and \$16.3 million, respectively.

Operating cash flows decreased \$3.3 million when comparing the first quarter of 2014, to the first quarter of 2013. The net loss in the first quarter of 2014 was a \$24.5 million decrease from the income in first quarter 2013. When comparing the first three months of 2014 to the first three months of 2013, cash flows from prepaid and other current assets and other current liabilities increased \$29.5 million and \$20.4 million, respectively, which was partially offset by decreased cash flows from accounts receivable of \$26.5 million.

The Company's inventory and accounts receivable balances were higher at March 31, 2014, as compared to December 31, 2013. Days sales in inventory increased to 76 days at March 31, 2014, compared to 74 days at December 31, 2013. Days sales outstanding increased to 55 days at March 31, 2014, from 48 days at December 31, 2013.

Financing Cash Flows

Summary of cash flows from financing activities:

(Amounts in thousands)

	Three months ended March 31,		
	2014	2013	Change
Proceeds from borrowings	\$—	\$345,313	\$(345,313)
Term loan borrowing	6,945	10,818	(3,873)
Proceeds from exercise of stock options	20	739	(719)

Dividends paid	(268) (243) (25)
Cash provided by financing activities	\$2,414	\$319,385	\$(316,971)

In the first quarter of 2014, \$2.4 million of cash was provided by financing activities. This cash was primarily provided by term loan borrowings of \$6.9 million, offset by payment on debt of \$4.2 million.

In the first quarter of 2013, \$319.4 million of cash was provided by financing activities. This cash was primarily provided by proceeds from the issuance of \$345.3 million of additional 7.875% senior secured notes due 2017. This was partially offset by payment on debt of \$18.1 million, primarily at the Company's European facilities.

Financing cash flows decreased by \$317.0 million when comparing the first quarter of 2014 to 2013. This decrease was primarily the result of the additional issuance of 7.875% senior secured notes due 2017 in 2013.

Other Issues

The Company's business is subject to seasonal variations in sales that affect inventory levels and accounts receivable balances. Historically, Titan tends to have higher production levels in the first and second quarters.

Debt Restrictions

The Company's revolving credit facility (credit facility) contains various restrictions, including:

• Limits on dividends and repurchases of the Company's stock.

• Restrictions on the ability of the Company to make additional borrowings, or to consolidate, merge or otherwise fundamentally change the ownership of the Company.

• Limitations on investments, dispositions of assets and guarantees of indebtedness.

• Other customary affirmative and negative covenants.

These restrictions could limit the Company's ability to respond to market conditions, to provide for unanticipated capital investments, to raise additional debt or equity capital, to pay dividends or to take advantage of business opportunities, including future acquisitions.

Liquidity Outlook

At March 31, 2014, the Company had \$200.1 million of cash and cash equivalents and no outstanding borrowings on the Company's \$150 million credit facility. The cash and cash equivalents balance of \$200.1 million includes \$108.5 million held in foreign countries. The Company's current plans do not demonstrate a need to repatriate the foreign amounts to fund U.S. operations. However, if foreign funds were needed for U.S. operations, the Company would be

required to accrue and pay taxes to repatriate the funds.

Capital expenditures for the remainder of 2014 are forecasted to be approximately \$50 million. Cash payments for interest are currently forecasted to be approximately \$30 million for the remainder of 2014 based on March 31, 2014 debt balances. The forecasted interest payments are comprised primarily of semi-annual payments of \$13.3 million (paid on April 1) and \$13.8 million (due October 1) for the 6.875% senior secured notes.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

In the future, Titan may seek to grow by making acquisitions which will depend on the ability to identify suitable acquisition candidates, to negotiate acceptable terms for their acquisition and to finance those acquisitions.

Subject to the terms of indebtedness, the Company may finance future acquisitions with cash on hand, cash from operations, additional indebtedness and/or by issuing additional equity securities.

Cash on hand, anticipated internal cash flows from operations and utilization of remaining available borrowings are expected to provide sufficient liquidity for working capital needs, capital expenditures and potential acquisitions.

MARKET CONDITIONS AND OUTLOOK

In the first quarter of 2014, Titan experienced lower sales when compared to the sales levels in the first quarter of 2013. The lower sales were primarily the result of decreased demand in the Company's earthmoving/construction segment for large product used in mining. This weakness is expected to continue for the remainder of 2014.

Energy, raw material and petroleum-based product costs have been volatile and may negatively impact the Company's margins. Many of Titan's overhead expenses are fixed; therefore, lower seasonal trends may cause negative fluctuations in quarterly profit margins and affect the financial condition of the Company.

AGRICULTURAL MARKET OUTLOOK

Agricultural market sales were higher in the first quarter of 2014 when compared to the first quarter of 2013 as the result of sales at the newly acquired Voltyre Prom facility. The increase in the global population may help grow future demand. The gradual increase in the use of biofuels may help sustain future production. Many variables, including weather, grain prices, export markets and future government policies and payments can greatly influence the overall health of the agricultural economy.

EARTHMOVING/CONSTRUCTION MARKET OUTLOOK

Earthmoving/construction market sales were significantly lower in the first quarter of 2014 when compared to the first quarter of 2013 due to weak demand for larger products used in the mining industry. This reduced demand is expected to continue for the remainder of 2014 as the mining industry continues in a cyclical downturn. Although metals, oil and gas prices may fluctuate in the short-term, in the long-term, these prices are expected to remain at levels that are attractive for continued investment, which should help support future earthmoving and mining sales. The earthmoving/construction segment is affected by many variables, including commodity prices, road construction, infrastructure, government appropriations, housing starts and the on-going banking and credit issues.

CONSUMER MARKET OUTLOOK

Consumer market sales were higher in the first quarter of 2014, when compared to the first quarter of 2013. Sales in the consumer market increased primarily as the result of increased consumer sales at overseas facilities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See the Company's 2013 Annual Report filed on Form 10-K (Item 7A). There has been no material change in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's principal executive officer and principal financial officer have concluded the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act)) are effective as of the end of the period covered by this Form 10-Q based on an evaluation of the effectiveness of disclosure controls and procedures.

Changes in Internal Controls

There were no material changes in internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the first quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of the effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a party to routine legal proceedings arising out of the normal course of business. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes at this time that none of these actions, individually or in the aggregate, will have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company. However, due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations or cash flows as a result of efforts to comply with or its liabilities pertaining to legal judgments.

Item 1A. Risk Factors
