Note for readers of this English translation

On November 12, 2010, Sony Corporation (the “Company” or “Sony Corporation”) filed its Japanese-language Quarterly Securities Report (Shihanki Houkokusho) for the three months ended September 30, 2010 with the Director-General of the Kanto Local Finance Bureau in Japan pursuant to the Financial Instruments and Exchange Act of Japan. This document is an English translation of the Quarterly Securities Report in its entirety, except for (i) information that had been filed previously with or submitted to the U.S. Securities and Exchange Commission (the “SEC”) in a Form 20-F, Form 6-K or any other form and (ii) a description of differences between generally accepted accounting principles in the U.S. (“U.S. GAAP”) and generally accepted accounting principles in Japan (“J-GAAP”), which are required to be described in the Quarterly Securities Report under the Financial Instruments and Exchange Act of Japan if the Company prepares its financial statements in conformity with accounting principles other than J-GAAP.

Cautionary Statement

Statements made in this translation with respect to the current plans, estimates, strategies and beliefs and other statements of the Company and its consolidated subsidiaries (collectively “Sony”) that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as “believe,” “expect,” “plans,” “strategy,” “prospects,” “forecast,” “estimate,” “anticipate,” “aim,” “intend,” “seek,” “may,” “might,” “could” or “should,” and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management’s assumptions and beliefs in light of the information currently available to it. Sony cautions you that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore you should not place undue reliance on them. You also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to (i) the global economic environment in which Sony operates and the economic conditions in Sony’s markets, particularly levels of consumer spending; (ii) exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales and incurs production costs, or in which Sony’s assets and liabilities are denominated; (iii) Sony’s ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including LCD televisions and game platforms, which are offered in highly competitive markets characterized by continual new product and service introductions, rapid development in technology and subjective and changing consumer preferences; (iv) Sony’s ability and timing to recoup large-scale investments required for technology development and production capacity; (v) Sony’s ability to implement successful business restructuring and transformation efforts under changing market conditions; (vi) Sony’s ability to implement successful hardware, software, and content integration strategies for all segments excluding the Financial Services segment, and to develop and implement successful sales and distribution strategies in light of the Internet and other technological developments; (vii) Sony’s continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to prioritize investments correctly (particularly in the Consumer, Professional & Devices segment); (viii) Sony’s ability to maintain product quality; (ix) the success of Sony’s acquisitions, joint ventures and other strategic investments; (x) Sony’s ability to forecast demands, manage timely procurement and control inventories; (xi) the outcome of pending legal and/or regulatory proceedings; (xii) shifts in customer demand for financial services such as life insurance and Sony’s ability to conduct successful asset liability management in the Financial Services segment; and (xiii) the impact of unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment. Risks and uncertainties also include the impact of any future events with material adverse impacts.

6. The Company prepares consolidated financial statements. Therefore parent-alone selected financial data is not presented.
 7. Figures of number of employees less than one hundred are rounded to the nearest unit.

(2) Business Overview

There was no significant change in the business of Sony during the three months ended September 30, 2010.

Sony realigned its reportable segments effective from the first quarter of the fiscal year ending March 31, 2011. For further information on the realignment, please refer to “V Financial Statements – Notes to Consolidated Financial Statements –8. Business segment information”.

As of September 30, 2010, the Company had 1,302 subsidiaries and 88 affiliated companies, of which 1,270 companies are consolidated subsidiaries (including variable interest entities) of the Company. The Company has applied the equity accounting method for 80 affiliated companies.

(3) Changes in Subsidiaries and Affiliated Companies

Significant changes in subsidiaries and affiliated companies during the three months ended September 30, 2010 are as follows:

Sony Slovakia, spol. s.r.o. was excluded from the scope of consolidation because it was no longer a subsidiary due to the sale of approximately 90 percent of Sony’s equity interest in this entity.

(4) Number of Employees

The following table shows the number of employees as of September 30, 2010.

| | |
|--------------|----------|
| Consolidated | 169,600* |
| Parent-alone | 16,997 |

* Figures less than one hundred are rounded to the nearest unit.

II State of Business

(1) Manufacturing, Orders Received and Sales

The products that Sony manufactures and sells are extremely diverse. Due to the cyclical nature of electronic devices, home game consoles, game software, and music and video software, Sony generally manufactures products based on forecasts. Because Sony carries out the manufacturing of its products such that it maintains a relatively stable and necessary level of product inventory, its level of production in the Consumer, Professional & Devices (“CPD”) and Networked Products & Services (“NPS”) segments is generally similar to the level of sales in these segments. Accordingly, the status of production and sales in the CPD and NPS segments is discussed in connection with the operating results of these segments in “(4) Management’s Discussion and Analysis of Financial Condition, Results of Operations and Status of Cash Flows” below.

(2) Risk Factors

Note for readers of this English translation:

Aside from the amount of the revised estimate of the restructuring charges for the fiscal year ending March 31, 2011 in the risk factor below, there was no significant change from the information presented in the Risk Factors section of the Annual Report on Form 20-F filed with the SEC on June 28, 2010. The change is indicated by underline below. Any forward-looking statement included in the descriptions below is based on the current judgment of management.

URL: The Annual Report on Form 20-F filed with the SEC on June 28, 2010
<http://sec.gov/Archives/edgar/data/313838/000095012310061435/k02298e20vf.htm>

Sony’s business restructuring and transformation efforts are costly and may not attain their objectives. Sony continued to implement restructuring initiatives in the fiscal year ended March 31, 2010 that focused on a review of the Sony Group’s investment plan, the realignment of its manufacturing sites, the reallocation of its workforce and headcount reductions. As a result of these restructuring initiatives, a total of 124.3 billion yen in restructuring charges, including 7.9 billion yen of non-cash charges related to depreciation associated with restructured assets, has been recorded in the fiscal year ended March 31, 2010. Sony expects to record approximately 75 billion yen of restructuring charges for the fiscal year ending March 31, 2011. Restructuring charges are recorded in cost of sales, selling, general and administrative expenses and loss (gain) on sale, disposal or impairment of assets and other, net and thus initially deteriorate Sony’s operating income (loss) and net income (loss) attributable to Sony’s stockholders. Sony expects to continue rationalizing its manufacturing operations, shifting and aggregating manufacturing to lower-cost countries and increasing the utilization of third-party original equipment and design manufacturers (OEMs and ODMs). In addition, as a part of its transformation efforts, since April 1, 2009, Sony has established three horizontal platforms for (1) manufacturing, logistics, procurement and customer services, (2) R&D and common software development and (3) global sales and marketing functions, and has been undertaking business process optimization to enhance profitability. Furthermore Sony started developing a common procurement platform as well as consolidating its suppliers during the fiscal year ended March 31, 2010. In January 2010, Sony announced that it would outsource a part of the human resources and accounting operation services of Sony and certain of its subsidiaries in Japan starting in April 2010. Sony has and will become more reliant upon outsourcing services provided by external business partners.

Due to internal or external factors, projected growth, efficiencies and cost savings from the above-noted restructuring and transformation initiatives may not be realized as scheduled and, even if those benefits are realized, Sony may not be able to achieve the level of profitability expected due to the worsening of market conditions beyond expectations. Such possible internal factors may include, for example, changes in restructuring and transformation

plans, an inability to implement the initiatives effectively with available resources, or delays in implementing the new business processes or strategies. Possible external factors may include, for example, increased burdens from regional labor regulations, labor union agreements and Japanese customary labor practices that may prevent Sony from executing its restructuring initiatives as planned. The inability to fully and successfully implement restructuring and transformation programs may adversely affect Sony's operating results and financial condition. Additionally, operating cash flows may be reduced as a result of the payment for restructuring charges.

(3) Material Contracts

There were no material contracts executed during the three months ended September 30, 2010.

Note for readers of this English translation:

The above means that there is no update from the description in the Annual Report on Form 20-F (“Patents and Licenses” in item 4) filed with the SEC on June 28, 2010.

(4) Management’s Discussion and Analysis of Financial Condition, Results of Operations and Status of Cash Flows

i) Results of Operations

Note for readers of this English translation:

Except for information specifically included in this English translation, this document omits certain information set out in the Japanese-language Quarterly Securities Report for the three-month period ended September 30, 2010, since it is the same as described in the press release previously submitted to the SEC. Please refer to “Consolidated Financial Results for the Second Quarter Ended September 30, 2010” submitted to the SEC on Form 6-K on October 29, 2010.

Foreign Exchange Fluctuations and Risk Hedging

Note for readers of this English translation:

Even though foreign exchange rates fluctuated, there was no significant change in risk hedging policy from the description in the Annual Report on Form 20-F filed with the SEC on June 28, 2010.

URL: The Annual Report on Form 20-F filed with the SEC on June 28, 2010

<http://sec.gov/Archives/edgar/data/313838/000095012310061435/k02298e20vf.htm>

Status of Cash Flows

The following analysis refers to the status of cash flows during the quarter ended September 30, 2010.

Operating Activities: During the quarter ended September 30, 2010, there was a net cash inflow of 119.7 billion yen from operating activities, a decrease of 55.8 billion yen, or 31.8%, compared to the same quarter of the previous fiscal year (“year-on-year”).

For all segments excluding the Financial Services segment, there was a net cash inflow of 38.3 billion yen during the current quarter, a decrease of 46.9 billion yen, or 55.1%, year-on-year. During the current quarter, the major cash inflow factors included an increase in notes and accounts payable, trade, cash contributions from net income, after taking into account depreciation and amortization, as well as a decrease in notes and accounts receivable, trade. This exceeded cash outflow factors, which included increases in inventories in anticipation of the holiday sales season. The decrease in notes and accounts receivable, trade was primarily associated with sales of accounts receivables in the current quarter under a program in the U.S. (Please refer to Note 2 “Transfer of financial assets” of the notes to the consolidated financial statements). Compared with the same quarter of the previous fiscal year, net cash generated decreased. This was mainly due to an increase in inventories, a smaller increase in notes and accounts payable, trade, as well as increased tax payments. These outflow factors exceeded inflow factors including a decrease in notes and accounts receivable, trade as well as increased cash contribution from net income (loss), after taking into account depreciation and amortization.

The Financial Services segment had a net cash inflow of 81.0 billion yen, a decrease of 9.2 billion yen, or 10.2%, year-on-year. During the current quarter, net cash was generated mainly due to an increase in revenue from insurance premiums reflecting a steady increase in policy amount in force at Sony Life Insurance Co., Ltd. (“Sony Life”). Compared with the same quarter of the previous fiscal year, net cash generated decreased year-on-year mainly due to an increase in marketable securities for trading purpose.

Investing Activities: During the current quarter, Sony used 239.5 billion yen of net cash in investing activities, an increase of 82.5 billion yen, or 52.5%, year-on-year.

For all segments excluding the Financial Services segment, 1.0 billion yen of net cash was used, a decrease of 84.2 billion yen, or 98.9%, year-on-year. During the current quarter, net cash was used mainly to purchase manufacturing equipment. This was partially offset by proceeds from the sale of a portion of Sony’s equity interest in the Nitra factory in Slovakia completed during the current quarter. Compared with the same quarter of the previous fiscal year, net cash used decreased primarily due to the above-mentioned proceeds during the current quarter, as well as a decrease in purchases of manufacturing equipment.

The Financial Services segment used 231.2 billion yen of net cash during the current quarter, an increase of 159.3 billion yen, or 221.7%, year-on-year. During the current quarter, cash payments for investments and advances, carried out primarily at Sony Life and Sony Bank Inc. (“Sony Bank”) where operations are expanding, exceeded proceeds from the maturities of marketable securities, sales of securities investments and collections of advances. Compared with the same quarter of the previous fiscal year, an increase in the investments and advances noted above exceeded an increase in proceeds from the maturities of marketable securities, sales of securities investments and collections of advances. As a result, net cash used within the Financial Services segment increased year-on-year.

In all segments excluding the Financial Services segment, net cash generated by operating and investing activities combined for the current quarter was 37.3 billion yen, compared to net cash used of 0.02 billion yen in the same quarter of the previous fiscal year.

Financing Activities: During the current quarter, there was 9.1 billion yen of net cash outflow in financing activities, compared to 33.6 billion yen of net cash inflow in the same quarter of the previous fiscal year. For all segments excluding the Financial Services segment, there was 106.1 billion yen of net cash outflow during the current quarter, compared to a net cash inflow of 22.3 billion yen in the same quarter of the previous fiscal year. This was primarily due to a 104.9 billion yen redemption of domestic straight bonds in the current quarter. In the Financial Services segment, financing activities generated 90.0 billion yen of net cash, an increase of 78.6 billion yen, or 684.1%, year-on-year, mainly due to an increase in deposits from customers at Sony Bank compared to the same quarter of the previous fiscal year.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in foreign exchange rates, the total outstanding balance of cash and cash equivalents as of September 30, 2010 was 837.2 billion yen. The outstanding balance of cash and cash equivalents of all segments excluding the Financial Services segment was 683.8 billion yen, a decrease of 97.2 billion yen, or 12.4%, compared with the balance as of June 30, 2010. This is an increase of 18.2 billion yen, or 2.7%, compared with the balance as of September 30, 2009. Sony believes it continues to maintain sufficient liquidity through access to a total, translated into yen, of approximately 757.5 billion yen of unused committed lines of credit with financial institutions in addition to the cash and cash equivalents balance at September 30, 2010. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was 153.4 billion yen, a decrease of 60.2 billion yen, or 28.2%, compared with the balance as of June 30, 2010. This is a decrease of 19.5 billion yen, or 11.3%, compared with the balance as of September 30, 2009.

* Sony has included the information for cash flow from operating and investing activities combined excluding the Financial Services segment's activities, as management frequently monitors this financial measure, and believes this non-GAAP measurement is important for use in evaluating Sony's ability to generate cash to maintain liquidity and fund debt principal and dividend payments from business activities other than its Financial Services segment. This information is derived from the reconciliations prepared in the Condensed Statements of Cash Flows provided below. This information and the separate condensed presentations below are not required or prepared in accordance with U.S. GAAP. The Financial Services segment's cash flow is excluded from the measure because Sony Financial Holdings, Inc., which constitutes a majority of the Financial Services segment, is a separate publicly traded entity in Japan with a significant minority interest and it, as well as its subsidiaries, secure liquidity on their own. This measure may not be comparable to those of other companies. This measure has limitations, because it does not represent residual cash flows available for discretionary expenditures due to the fact that the measure does not deduct the principal payments required for debt service. Therefore, Sony believes it is important to view this measure as supplemental to its entire statement of cash flows, together with Sony's disclosures regarding investments, available credit facilities and overall liquidity.

A reconciliation of the differences between the Consolidated Statement of Cash Flows reported and cash flows from operating and investing activities combined excluding the Financial Services segment's activities is as follows:

| | Yen in billions | |
|---|--------------------|--------------|
| | Three months ended | September 30 |
| | 2009 | 2010 |
| Net cash provided by operating activities reported in the consolidated statements of cash flows | ¥ 175.5 | ¥ 119.7 |
| Net cash used in investing activities reported in the consolidated statements of cash flows | (157.1) | (239.5) |
| | 18.4 | (119.8) |
| Less: Net cash provided by operating activities within the Financial Services segment | 90.2 | 81.0 |
| Less: Net cash used in investing activities within the Financial Services segment | (71.9) | (231.2) |
| Eliminations ** | (0.1) | 6.9 |
| Cash flow provided by (used in) operating and investing activities combined excluding the Financial Services segment's activities | ¥ (0.0) | ¥ 37.3 |

** Eliminations primarily consist of intersegment loans and dividend payments. Intersegment loans are between Sony Corporation and Sony Financial International Inc., an entity included within the Financial Services segment.

ii) Issues Facing Sony and Management's Response to those Issues

Note for readers of this English translation:

Excluding the below, there was no significant change from the information presented as the Issues Facing Sony and Management's Response to those Issues in the Trend Information section of the Annual Report on Form 20-F filed with the SEC on June 28, 2010, or such information presented in the Quarterly Securities Report for the three months ended June 30, 2010 on Form 6-K filed with the SEC on August 11, 2010. The change during the current quarter is indicated by underline below. Any forward-looking statement included in the descriptions below is based on the current judgment of management.

URL: The Annual Report on Form 20-F filed with the SEC on June 28, 2010
<http://sec.gov/Archives/edgar/data/313838/000095012310061435/k02298e20vf.htm>

Sony expects to record restructuring charges of approximately 75 billion yen in the fiscal year ending March 31, 2011 compared with the 124.3 billion yen, including 7.9 billion yen of non-cash charges related to depreciation associated with restructured assets, recorded in the fiscal year ended March 31, 2010.

• Realignment of manufacturing sites:

By rationalizing its manufacturing operations, shifting and aggregating manufacturing to lower-cost countries and utilizing the services of OEMs and ODMs, Sony has undertaken fixed cost and total asset reductions. Sony's total manufacturing sites were reduced from 57 sites in December 2008 to 46 sites as of March 31, 2010. Sony continues to review the efficiency of its manufacturing structure in relation to its operating environments. The realignment of manufacturing sites to be undertaken during the fiscal year ending March 31, 2011 includes the closure of Sony Precision Engineering Malaysia Sdn. Bhd., the transfer to KYOCERA Corporation of design and manufacturing operations of small- and mid-sized TFT LCD displays at the Yasu site of Sony Mobile Display Corporation, the termination of production at Sony Electronics Inc.'s Dothan, Alabama site, the transfer to the Hon Hai Group of approximately 90 percent of Sony's equity interest in the Nitra plant in Slovakia (which manufactures LCD televisions for the European region), the termination of production at Sony Hungária Kft., Godollo TEC, and the transfer to Ficosa International, S.A. and COMSA EMTE SL of Sony Espana S.A.'s Barcelona Technology Center (which manufactures LCD televisions for the European region).

Sony realigned its reportable segments from the first quarter of the fiscal year ending March 31, 2011, to reflect modifications to the organizational structure as of April 1, 2010, primarily repositioning the operations of the previously reported B2B & Disc Manufacturing segment. In connection with this realignment, the Consumer Products & Devices segment was renamed the Consumer, Professional & Devices ("CPD") segment. The CPD segment includes televisions, digital imaging, audio and video, semiconductors and components as well as professional solutions (the B2B business which was previously included in the B2B & Disc Manufacturing segment). The equity results of S-LCD Corporation, a joint venture with Samsung Electronics Co., Ltd., are also included within the CPD segment. The disc manufacturing business previously included in the B2B & Disc Manufacturing segment is now included in All Other.

The NPS, Pictures, Music and Financial Services segments remain unchanged. The equity earnings from Sony Ericsson Mobile Communications AB continue to be presented as a separate segment.

Despite the realignment of Sony's reportable segments mentioned above, there has been no change in either the issues management believes each business continues to face or how each business is addressing those issues.

iii) Research and Development

Note for readers of this English translation:

Excluding the below, there was no significant change from the information presented in the Research and Development section of the Annual Report on Form 20-F filed with the SEC on June 28, 2010.

URL: The Annual Report on Form 20-F filed with the SEC on June 28, 2010

<http://www.sec.gov/Archives/edgar/data/313838/000095012310061435/k02298e20vf.htm>

Research and development costs for the three months ended September 30, 2010 decreased 2.2 billion yen, or 2.0%, to 106.9 billion yen, compared with the same quarter of the previous fiscal year. The ratio of research and development costs to sales (which excludes financial services segment revenue) decreased from 7.5% to 7.1%. Expenses in the CPD segment increased 2.1 billion yen, or 2.9%, to 76.2 billion yen and expenses in the NPS segment decreased 3.9 billion yen, or 15.4%, to 21.2 billion yen. In the CPD segment, approximately 72% of expenses were for the development of new product prototypes while the remaining 28% was spent on the development of mid- to long-term new technologies in areas such as next-generation displays, semiconductors, new materials and software.

iv) Liquidity and Capital Resources

Note for readers of this English translation:

Aside from the description of a total amount, translated into yen, in committed lines of credit below, there was no significant change from the information presented in the Annual Report on Form 20-F filed with the SEC on June 28, 2010. The changes are indicated by underline below. Any forward-looking statement included in the descriptions below is based on the current judgment of management.

URL: The Annual Report on Form 20-F filed with the SEC on June 28, 2010

<http://sec.gov/Archives/edgar/data/313838/000095012310061435/k02298e20vf.htm>

Sony typically raises funds through straight bonds, CP programs and bank loans (including syndicated loans); however, in the unlikely event Sony cannot access liquidity from these sources, Sony could also draw on committed lines of credit from various financial institutions. Sony has a total, translated into yen, of 757.5 billion yen in committed lines of credit, none of which had been used as of September 30, 2010. Details of those committed lines of credit are: a 475 billion yen committed line of credit contracted with a syndicate of Japanese banks, effective until November 2012, a 1.5 billion U.S. dollar multi-currency committed line of credit also with a syndicate of Japanese banks, effective until December 2013, and a 1.87 billion U.S. dollar multi-currency committed line of credit contracted with a syndicate of global banks, effective until April 2012, in all of which Sony Corporation and Sony Global Treasury Services Plc are defined as the borrowers. These contracts are aimed at securing sufficient liquidity even in the event of financial and capital markets turmoil like that seen in the period following September 2008.

III Property, Plant and Equipment

(1) Major Property, Plant and Equipment

Sony Slovakia, spol. s.r.o. was no longer Sony's subsidiary due to the sale of a portion of Sony's equity interest in this entity during the three months ended September 30, 2010. As a result, Sony no longer owned the following property, plant and equipment.

| Name | Name of Segment | Principal products produced | Book Value (Yen in millions) | | | Total | Number of employees |

Notes to Consolidated Financial Statements (Unaudited)
Sony Corporation and Consolidated Subsidiaries

1. Summary of significant accounting policies

Sony Corporation and its subsidiaries in Japan maintain their records and prepare their financial statements in accordance with accounting principles generally accepted in Japan while its foreign subsidiaries maintain their records and prepare their financial statements in conformity with accounting principles generally accepted in the countries of their domiciles. Certain adjustments and reclassifications have been incorporated in the accompanying consolidated financial statements to conform with accounting principles generally accepted in the United States of America (“U.S. GAAP”), except for certain disclosures which have been omitted.

(1) Recently adopted accounting pronouncements:

Multiple element arrangements and software deliverables -

In October 2009, the Financial Accounting Standards Board (“FASB”) issued new accounting guidance for arrangements with multiple deliverables. Specifically, the new standard requires an entity to allocate consideration at the inception of an arrangement to all of its deliverables based on their relative selling prices. In the absence of the vendor-specific objective evidence or third-party evidence of the selling prices, consideration must be allocated to the deliverables based on management’s best estimate of the selling prices. In addition, the guidance eliminates the use of the residual method of allocation. Also in October 2009, the FASB issued accounting guidance which changes revenue recognition for tangible products containing software and hardware elements. Specifically, tangible products containing software and hardware that function together to deliver the tangible products’ essential functionality are scoped out of the existing software revenue recognition guidance and will be accounted for under the revenue recognition guidance for multiple element arrangements. Sony adopted the new guidance on April 1, 2010. The adoption of the new guidance did not have a material impact on Sony’s results of operations and financial position.

Transfers of financial assets -

In June 2009, the FASB issued new accounting guidance on accounting for transfers of financial assets. This guidance amends previous guidance by including: the elimination of the qualifying special-purpose entity (“QSPE”) concept; a new participating interest definition that must be met for transfers of portions of financial assets to be eligible for sale accounting; clarifications and changes to the derecognition criteria for a transfer to be accounted for as a sale; and a change to the amount of recognized gain or loss on a transfer of financial assets accounted for as a sale when beneficial interests are received by the transferor. Additionally, the guidance requires new disclosures regarding an entity’s involvement in a transfer of financial assets. Finally, existing QSPEs must be evaluated for consolidation in accordance with the applicable consolidation guidance upon the elimination of this concept. This guidance is effective for Sony as of April 1, 2010. The adoption of this guidance did not have a material impact on Sony’s results of operations and financial position.

Variable interest entities -

In June 2009, the FASB issued new accounting guidance for determining whether to consolidate a variable interest entity (“VIE”). This guidance changes the approach for determining the primary beneficiary of a VIE from a quantitative risk and reward model to a qualitative model based on control, and requires an ongoing reassessment of whether an entity is the primary beneficiary. This guidance is effective for Sony as of April 1, 2010. The adoption of this guidance did not have a material impact on Sony’s results of operations and financial position.

(2) Accounting methods used specifically for interim consolidated financial statements:

Income Taxes -

Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes income tax provision related to significant unusual or extraordinary transactions. Such income tax provision will be separately reported from the provision based on the ETR in the interim period in which they occur.

(3) Reclassifications:

Certain reclassifications of the financial statements for the six months or three months ended September 30, 2009 have been made to conform to the presentation for the interim period ended September 30, 2010.

2. Transfer of financial assets

During the fiscal year ended March 31, 2010, Sony established an accounts receivable sales program in the United States. Through this program, a special purpose entity, which has been consolidated by a U.S. subsidiary, could sell up to 450 million U.S. dollars of eligible trade accounts receivables in the aggregate at any one time to a commercial bank. These transactions were accounted for as a sale in accordance with the accounting guidance for transfers and servicing of financial assets and extinguishments of liabilities, because Sony had relinquished control of the receivables.

During the three months ended September 30, 2010, Sony amended the accounts receivable sales program in the United States, with the transactions continuing to qualify as sales under the new accounting guidance on accounting for transfers of financial assets. The amended program requires that a portion of the sales proceeds be held back and deferred until collection of the related receivables. The portion of the sales proceeds held back and deferred is initially recorded at estimated fair value and included in other current assets. Sony includes collections on such receivables as cash flows within operating activities in the consolidated statements of cash flows since such receivables are the result of operating activities and the associated interest rate risk is insignificant due to its short-term nature. During the three months ended September 30, 2010, total trade accounts receivables sold under the program were 71,247 million yen (855 million U.S. dollars), of which 37,115 million yen (443 million U.S. dollars) was held back and deferred and remained in other current assets at September 30, 2010.

3. Marketable securities and securities investments

Marketable securities and securities investments, mainly included in the Financial Services segment, are comprised of debt and equity securities of which the aggregate cost, gross unrealized gains and losses and fair value pertaining to available-for-sale securities and held-to-maturity securities are as follows:

6. Reconciliation of the differences between basic and diluted EPS

Reconciliation of the differences between basic and diluted net income (loss) attributable to Sony Corporation's stockholders per share ("EPS") for the six and three months ended September 30, 2009 and 2010 is as follows:

| | Yen in millions | |
|---|-------------------------------|-----------|
| | Six months ended September 30 | |
| | 2009 | 2010 |
| Net income (loss) attributable to Sony Corporation's stockholders for basic and diluted EPS computation | (63,401) | 56,883 |

| Weighted-average shares for diluted EPS computation | 1,003,526 | 1,004,851 |
| | Yen | |
| Basic EPS | (63.18) | 56.68 |
| Diluted EPS | (63.18) | 56.61 |

Potential shares of common stock upon the exercise of stock acquisition rights, which were excluded from the computation of diluted EPS for the six months ended September 30, 2009 and 2010 were 16,419 thousand shares and 16,902 thousand shares, respectively. All potential shares were excluded as anti-dilutive for the six months ended September 30, 2009 due to Sony incurring a net loss for the period, and certain of the potential shares were excluded as anti-dilutive for the six months ended September 30, 2010 since the exercise price for those shares was in excess of the average market value of Sony's common stock during the period.

| | Yen in millions | |
|---|---------------------------------|-----------|
| | Three months ended September 30 | |

| Weighted-average shares for diluted EPS computation | 1,003,523 | 1,004,698 |
| | Yen | |
| Basic EPS | (26.22) | 31.04 |
| Diluted EPS | (26.22) | 31.00 |

Potential shares of common stock upon the exercise of stock acquisition rights, which were excluded from the computation of diluted EPS for the three months ended September 30, 2009 and 2010 were 16,419 thousand shares

and 17,063 thousand shares, respectively. All potential shares were excluded as anti-dilutive for the three months ended September 30, 2009 due to Sony incurring a net loss for the period, and certain of the potential shares were excluded as anti-dilutive for the three months ended September 30, 2010 since the exercise price for those shares was in excess of the average market value of Sony's common stock during the period.

7. Commitments and contingent liabilities

(1) Commitments:

A. Loan commitments

Subsidiaries in the Financial Services segment have entered into loan agreements with their customers in accordance with the conditions of the respective contracts. At September 30, 2010, the total unused portion of the line of credit extended under these contracts was 83,912 million yen. The aggregate amounts of future year-by-year payments for these loan commitments cannot be determined.

B. Purchase commitments and other

Purchase commitments and other outstanding at September 30, 2010 amounted to 299,721 million yen. The major components of these commitments are as follows:

In the ordinary course of business, Sony makes commitments for the purchase of property, plant and equipment. At September 30, 2010, such commitments outstanding were 41,908 million yen.

Certain subsidiaries in the Pictures segment have entered into agreements with creative talent for the development and production of motion pictures and television programming as well as agreements with third parties to acquire completed motion pictures, or certain rights therein, and to acquire the rights to broadcast certain live action sporting events. These agreements cover various periods mainly within 5 years. At September 30, 2010, these subsidiaries were committed to make payments under such contracts of 115,994 million yen.

Certain subsidiaries in the Music segment have entered into long-term contracts with recording artists and companies for the production and/or distribution of prerecorded music and videos. These contracts cover various periods mainly within 5 years. At September 30, 2010, these subsidiaries were committed to make payments of 39,737 million yen under such long-term contracts.

(2) Contingent liabilities:

Sony had contingent liabilities including guarantees given in the ordinary course of business, which amounted to 77,174 million yen at September 30, 2010. The major components of the contingent liabilities are as follows:

Sony has issued a guarantee to a creditor of the third party investor pursuant to which Sony has agreed to repay the outstanding obligation of the third party investor up to a maximum of 303 million U.S. dollars should the third party investor default on its obligation. The obligation of the third party investor is collateralized by its 50% interest in Sony's music publishing subsidiary. At September 30, 2010, the fair value of the collateral exceeded 303 million U.S. dollars.

At September 30, 2010, Sony had agreed to guarantee a portion of Sony Ericsson's debt and its facilities up to a maximum of 250 million euros. At September 30, 2010, Sony had guaranteed 17,447 million yen (150 million euros) for a portion of Sony Ericsson's debt under this arrangement. These guarantees expire by March 2012.

Sony is subject to laws and regulations in various countries that make producers of electrical goods financially responsible for collection, recycling, treatment and disposal of past and future covered products. For example, the Waste Electrical and Electronic Equipment ("WEEE") directive, issued in February 2003, requires electronics producers

to finance the cost for collection, treatment, recovery and safe disposal of waste products. In most member states of the European Union (“EU”), the directive has been transposed into national legislation subject to which Sony recognizes the liability for obligations associated with WEEE. At September 30, 2010, the accrued amounts in respect to the above mentioned WEEE were not significant.

Sony Corporation and certain of its subsidiaries are defendants or otherwise involved in pending legal and regulatory proceedings. However, based upon the information currently available to Sony and its legal counsel, the management of Sony believes that the outcome from such legal and regulatory proceedings would not have a material effect on Sony’s consolidated financial statements.

8. Business segment information

The reportable segments presented below are the segments of Sony for which separate financial information is available and for which operating profit or loss amounts are evaluated regularly by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. The CODM does not evaluate segments using discrete asset information. Sony’s CODM is its Chairman, Chief Executive Officer and President.

Sony realigned its reportable segments from the first quarter of the fiscal year ending March 31, 2011, to reflect modifications to the organizational structure as of April 1, 2010, primarily repositioning the operations of the previously reported B2B & Disc Manufacturing segment. In connection with this realignment, the Consumer Products & Devices segment was renamed the Consumer, Professional & Devices (“CPD”) segment.

The CPD segment includes televisions, digital imaging, audio and video, semiconductors and components as well as professional solutions (the B2B business which was previously incorporated in the B2B & Disc Manufacturing segment). The equity results of S-LCD Corporation are also included within the CPD segment. The disc manufacturing business previously included in the B2B & Disc Manufacturing segment is now included in All Other. The Networked Products & Services (“NPS”), Pictures, Music and Financial Services segments remain unchanged. The equity earnings from Sony Ericsson Mobile Communications AB continue to be presented as a separate segment. In connection with the realignment, all prior period amounts in the segment disclosures have been restated to conform to the current presentation.

Operating income (loss) is Sales and operating revenue less Costs and expenses, and includes Equity in net income (loss) of affiliated companies.

Corporate and elimination includes certain restructuring costs and other corporate expenses, which are attributable principally to headquarters and are not allocated to segments.

As a result of a modification of internal management reporting during the previous fiscal year, certain amounts previously included within corporate and elimination have been reclassified into the segment operating income (loss)

for all periods presented. The revision had no impact on the consolidated results.

(2) Subsequent events

There were no applicable subsequent events.

(3) Litigation

In October 2009, Sony Corporation's U.S. subsidiary, Sony Optiarc America Inc., received a subpoena from the U.S. Department of Justice (the "DOJ") Antitrust Division seeking information about its optical disk drive business. Sony Corporation understands that the DOJ and agencies outside the United States are investigating competition in optical disk drives. Sony Corporation intends to cooperate fully with the DOJ and other agencies in this inquiry. Subsequently, a number of purported class action lawsuits were filed in certain jurisdictions, including the United States, in which the plaintiffs allege that Sony Corporation, Sony Optiarc Inc., Sony Optiarc America Inc., other named defendants and other unnamed parties violated antitrust laws and seek recovery of damages and other remedies.

In addition, Sony Corporation and certain of its subsidiaries are defendants or otherwise involved in other pending legal and regulatory proceedings. However, based upon the information currently available to Sony and its legal counsel, the management of Sony believes that the outcome from such legal and regulatory proceedings would not have a material effect on Sony's consolidated financial statements.
