Smaller Capitalization
Fund, Inc.

ANNUAL REPORT
FEBRUARY 28, 2002

JAPAN SMALLER CAPITALIZATION FUND, INC.

April 18, 2002

To Our Shareholders:

We present the Annual Report of the Japan Smaller Capitalization Fund, Inc. (formerly Japan OTC Equity Fund, Inc.) (the "Fund") for the fiscal year ended February 28, 2002 (see reason for name change immediately following the President's letter). The Net Asset Value per share ("NAV") of the Fund decreased by 21.7% for the year, reflecting the overall weakness in the Japanese OTC stock market. The change in NAV represents the change in share price and the reinvestment of a \$0.08 per share long-term capital gain distribution paid on December 14, 2001. The closing market price of the Fund on February 28, 2002, on the New York Stock Exchange was \$5.53 representing a discount of 5.6% to the NAV of \$5.86. The net assets of the Fund amounted to \$92,815,469 on February 28, 2002.

The TOPIX, consisting of all companies listed on the Tokyo Stock Exchange (the "TSE") First Section, decreased by 31.6% and the Nikkei Average Index (a price weighted index of 225 leading stocks on the TSE) decreased by 31.1%, in United States dollar terms, for the year ended February 28, 2002. The Nikkei OTC Average Index (the "OTC Index"), a price-weighted index of the quotations of the OTC registered stocks, and the Index of the Japan Securities Dealers Association Quotation System (the "JASDAQ Index"), a capitalization-weighted index of all OTC stocks, decreased by 31.4% and 34.8%, respectively, in U.S. dollar terms, during the same period. The Japanese yen ("Yen") depreciated by 19.3% against the U.S. dollar during the year and played a negative role in the dollar-based performance of the various indices.

The Fund outperformed both the OTC Index and the JASDAQ Index by 9.7 percentage points and 13.1 percentage points, respectively, during the year. The negative results, mainly from the overweight position in the Electronics sector, were more than offset by the positive results from stock selection, especially in the Consumption and Infrastructure sectors, such as United Arrows Limited and Eneserve Corporation.

The NAV of the Fund declined by 11.7% for the quarter ended February 28, 2002. During the same period, the TOPIX and the Nikkei Average Index decreased by 15.0% and 12.9%, respectively, and the OTC Index and the JASDAQ Index also

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

decreased by 16.3% and 15.3%, respectively, in U.S. dollar terms. For the quarter ended February 28, 2002, the Fund

outperformed the OTC Index and the JASDAQ Index by 4.6 percentage points and 3.6 percentage points, respectively. Positive results from the overweight position in technology stocks in the Electronics and Machinery sectors, such as UMC Japan and THK Co., Ltd. more than offset the negative impact of the underweight position in the Information/Systems sector.

The Portfolio

The Fund increased its equity exposure from 98.9% at November 30, 2001 to 99.3% at February 28, 2002. The Fund was diversified into 95 issues, of which 69 issues were OTC stocks, 19 were other smaller capitalization stocks and 7 were TSE First Section stocks, comprising 70.1%, 19.2% and 10.0% respectively, of net assets on February 28, 2002.

Japanese Economy and Stock Market Outlook

The OTC Index declined by 18.1% in local currency terms during the year ended February 28, 2002.

In addition to signs of economic retrenchment, growing disillusionment with policy inertia from the ruling Liberal Democratic Party compounded the market's depressed sentiment until mid-March 2001. However, the Japanese OTC stock market regained upward momentum in the latter half of March, after the Bank of Japan ("BOJ") effectively returned to a zero interest rate policy with a form of quantitative easing with an implicit inflation target that will remain in place at least until the Consumer Price Index has stabilized. In late April and early May, the Japanese OTC stock market extended the recovery in anticipation of structural reforms based on the policies outlined by the new Prime Minister Junichiro Koizumi and his cabinet. The OTC Index recovered to 1400 in early May.

However, cautious sentiment later returned due to the delay in clarifying the new government's intended policy measures. Continuing deterioration in domestic fundamentals, initially highlighted by the BOJ Tankan survey in July, and a series of poor industrial production figures weighed heavily on the market. A constant stream of profit warnings from technology companies worldwide also forced the OTC Index down. Furthermore, global stock markets suffered precipitous declines in the wake of the terrorist attacks on the World Trade Center and the Pentagon in September, 2001. The OTC Index approached 1000 immediately after the attacks, recording a new low for the year.

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

Toward the end of calendar year 2001, the Japanese OTC stock market experienced a rebound, benefiting from an improvement in global sentiment amid further U.S. interest rate reductions, hopes of a recovery in the U.S. economy in 2002 based on encouraging retail sales figures, and rapid progress in the military campaign in Afghanistan. The Yen's depreciation also offered some support. The OTC Index recovered to nearly 1200 in early November, 2001.

However, the rebound quickly ended amid disappointing domestic news. Continued deterioration in economic fundamentals undermined the recovery while the delayed implementation of Prime Minister Koizumi's structural reforms weighed on the OTC Index. Moreover, Japanese equities became increasingly sensitive to credit risk after the downgrading of Japan's sovereign

domestic debt rating by Standard & Poor's in late November. In December, the default following the collapse of energy trading giant Enron Corp., and the bankruptcy of Aoki Construction, a mid-sized Japanese contractor, overshadowed the Japanese OTC stock market. The OTC Index continued to trade between 1100 and 1200 towards the end of February, 2002.

Outlook and Future Strategy

We have a cautiously optimistic view for the Japanese OTC stock market, despite the weak domestic macroeconomic figures, including consumer-related statistics. The recently announced anti-deflation policy package did not contain any concrete measures to encourage market participants. This was no surprise, since we had not expected the Koizumi cabinet to produce any decisive policy action. The slow progress of the Prime Minister's reform program, combined with the deflationary economic conditions, will likely prevent the market from achieving a sustainable recovery. However, we still expect the market to focus on some of the positive cyclical aspects of the economy in the short and medium term. Due to an improvement in inventory conditions and a U.S. economic recovery, we expect to see the cyclical turnaround among manufacturing industries, including export-oriented industries, to continue over the next quarters. Recent statistics, particularly from the U.S., suggest that the Japanese economy is bottoming out, which supports our view that a cyclical recovery is imminent. The Yen's depreciation trend will also aid the recovery in corporate earnings.

Difficult supply and demand conditions that have overshadowed the market for some time should be alleviated somewhat in the short-term. Activity relating to the unwinding of cross-shareholdings will tend to settle down through the latter part of March. In addition, tighter trading regulations governing short selling are expected to have a positive near-term market impact. Furthermore, the domestic public pension fund is expected to allocate money to the equity market in mid-March. Therefore, given these domestic factors and improved stability in the global stock markets, we expect the Japanese OTC stock market to trade with a firm bias in the near term.

One of the current focal points of our small capitalization stock selection looks at the ability of companies to withstand deflationary pressure. For example, we can still find a number of companies within the Consumption sector that have sufficient operational and cost competitiveness and have been gaining market share despite the severe competitive and deflationary conditions. Additionally, we are maintaining the portfolio's sensitivity to a cyclical turnaround with overweight positions in some Technology sector stocks. The deflationary trend in the domestic market will also justify the overweight position in this sector.

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

We appreciate your continuing support of your Fund.

Sincerely,

Kazuhiko Hama
President

REASON FOR NAME CHANGE

The Securities and Exchange Commission adopted Rule 35d-1 (the "Rule") under the Investment Company Act of 1940 to address the use of certain broad categories of investment company names. The Rule requires a registered investment company ("RIC") with a name suggesting that the RIC focus on a particular type of investment or invests in a particular country, invest at least 80% of its assets in the type of investments suggested by its name, "under normal circumstances."

Accordingly, on February 19, 2002, the Fund's Board of Directors approved a new name for the Fund-Japan Smaller Capitalization Fund, Inc. The New York Stock Exchange ticker symbol remains "JOF". The name change did not require shareholder approval.

NEW NON-FUNDAMENTAL INVESTMENT OBJECTIVE AND POLICY

The Fund's Board of Directors approved a new non-fundamental investment objective and policy, whereby the Fund will, under normal circumstances, invest at least 80% of its total assets in smaller capitalization Japanese equity securities traded in the Japanese OTC market, Second Section of the Tokyo, Osaka and Nagoya Stock Exchanges, JASDAQ, Mothers, NASDAQ Japan, and other Japanese equity securities included in the indices determined by Nomura Asset Management U.S.A. Inc. ("NAM-U.S.A.") to be appropriate indices for smaller capitalization companies in Japan ("Smaller Capitalization Companies"). The new non-fundamental investment objective and policy did not require shareholder approval. The Fund's fundamental investment policy of investing at least 65% of its total assets in equity securities traded in the Japanese OTC stock market was not changed.

NEW MANAGEMENT AND INVESTMENT ADVISORY AGREEMENTS

A new Management Agreement between the Fund and NAM-U.S.A., and a new Investment Advisory Agreement between NAM-U.S.A. and Nomura Asset Management Co., Ltd. ("NAM") were approved by shareholders at their 2001 Annual Meeting held November 13, 2001. The new contracts allow NAM-U.S.A. to delegate security selection and order placement to NAM.

Mr. Masao Kurita of NAM is primarily responsible for day-to-day management of the portfolio of the Fund. Mr. Kurita has held such responsibilities for the Fund since November, 2001. Mr. Kurita was a Portfolio Manager-Japanese Equities with NAM from 1997 to 1999 and Senior Portfolio Manager-Japanese Equities with NAM from 1999 to present.

INTERNET WEBSITE

NAM-U.S.A. has established an Internet website which highlights history, investment philosophy and process and products, which includes the Fund. The Internet web address is www.nomura-asset.com. We invite you to view the

JAPAN SMALLER CAPITALIZATION FUND, INC.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders
of Japan Smaller Capitalization Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the Japan Smaller Capitalization Fund, Inc. (formerly known as Japan OTC Equity Fund, Inc.) (the "Fund") at February 28, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at February 28, 2002 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

Japan Smaller Capitalization Fund, Inc. (formerly the Japan OTC Equity Fund, Inc.) (the "Fund") is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Fund was incorporated in Maryland on January 25, 1990 and investment operations commenced on March 21, 1990. The Fund issued to its shareholders of record as of the close of business on October 25, 1999 non-transferable Rights to subscribe for up to an aggregate of 3,804,940 shares of Common Stock of the Fund at a rate of one share of Common Stock for three Rights held ("Primary Subscription"). The Fund had the ability to increase the number of shares subscribed for in this offering by up to 25% of the Primary Subscription, or an additional 951,235 shares, to honor record date shareholder requests to purchase more shares. During November 1999, the Fund issued a total of 4,458,565 shares of Common Stock on exercise of such Rights at the subscription price of \$11.99 per share, compared to a net asset value per share of \$16.20 and a market value per share of \$12.6875. Additionally, a sales load of 3.75% was charged to each share issued. Right offering costs of approximately \$546,000 and the sales load were charged directly against the proceeds of the Rights Offering. The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of Securities-Investments traded in the over-the-counter market are valued at the last reported sales price as of the the close of business on the day the securities are being valued or, if none is available, at the mean of the bid and offer price at the close of business on such day or, if none is available, the last reported sales price. Portfolio securities which are traded on stock exchanges are valued at the last sales price on the principal market on which securities are traded or lacking any sales, at the last available bid price. Short-term debt securities which mature in 60 days or less are valued at amortized cost if their original maturity at the date of purchase was 60 days or less, or by amortizing their value on the 61st day prior to maturity if their term to maturity at the date of purchase exceeded 60 days. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund.

(b) Foreign Currency Transactions - Transactions denominated in Japanese yen are recorded in the Fund's records at the current prevailing rate at the time of the transaction. Asset and liability accounts that are denominated in

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

yen are adjusted to reflect the current exchange rate at the end of the period. Transaction gains or losses resulting from changes in the exchange rate during the reporting period or upon settlement of foreign currency transactions are included in operations for the current period.

The net assets of the Fund are presented at the exchange rate and market values at the end of the period. The Fund isolates that portion of the change in unrealized appreciation (depreciation) included in the statement of operations arising as a result of changes in Japanese yen rates at February 28, 2002 on investments and other assets and liabilities. Net realized foreign exchange gains or losses includes gains or losses arising from sales of portfolio securities, sales and maturities of short-term securities, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books, and the U.S. dollar equivalent of the amounts actually received or paid.

(c) Financial Instruments with Off Balance Sheet Risk-At February 28, 2002, the Fund had outstanding two forward foreign currency exchange contracts ("forward contract") in order to hedge against changes in the Japanese exchange rate. A forward

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS-Continued

foreign currency contract is a commitment to purchase or sell foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and closing of such contracts is included in realized gain or loss on foreign exchange. Fluctuations in the value of forward foreign currency contracts are recorded for financial reporting purposes as unrealized gain or loss by the Fund. The forward contract involves elements of market risk in excess of the amount reflected in the Statement of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward contract. Risks may arise as a result of the potential inability of the counterparty to meet the terms of the contract.

(d) Security Transactions, Investment Income and Distributions to Shareholders - Security transactions are accounted for on the trade date. Dividend income and distributions are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses on the sale of investments are calculated on the identified cost basis.

Distributions from net investment income and net realized gains are determined in accordance with Federal income tax regulations, which may differ from generally accepted accounting principles. To the extent these "book/tax" differences are permanent in nature (i.e., that they result from other than timing of recognition - "temporary"), such accounts are reclassified within the capital accounts based on their Federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net realized gains for financial reporting purposes, but not for tax purposes, are reported as distributions in excess of net realized gains.

(e) Income Taxes - A provision for United States income taxes has not been made since it is the intention of the Fund to qualify as a regulated investment company under the Internal Revenue Code and to distribute within the allowable time limit all taxable income to its shareholders.

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

Under Japanese tax laws, a withholding tax is imposed on dividends at a rate of 20% and on interest at a rate of 15% and such withholding taxes are reflected as a reduction of the related revenue. There is no withholding tax on realized gains.

(f) Capital Account Reclassification - For the year ended February 28, 2002, the Fund's accumulated net realized loss was decreased by \$205,936 and paid in capital was decreased by \$1,111,592, with an offsetting decrease in accumulated net investment loss of \$905,656. This adjustment was primarily the result of the reclassification of foreign currency gains and the net operating loss.

(g) Use of Estimates in Financial Statement Preparation - The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(h) Concentration of Risk - A significant portion of the Fund's net assets consists of Japanese securities which involve certain considerations and risks not typically associated with investments in the United States. In addition to the smaller size, and greater volatility, there is often substantially less publicly available information about Japanese issuers than there is about U.S. issuers. Future economic and political developments in Japan could adversely affect the value of securities in which the Fund is invested. Further, the Fund may be exposed to currency devaluation and other exchange rate fluctuations.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS--Continued

2. Management Agreement and Transactions With Affiliated Persons

Nomura Asset Management U.S.A. Inc. (the "Manager") acts as the Manager of the Fund pursuant to a management agreement. Under the agreement, the Manager provides all office space, facilities and personnel necessary to perform its duties. Pursuant to such management agreement, the Manager has retained its parent company, Nomura Asset Management Co., Ltd. (the "Investment Adviser"), to act as investment adviser for the Fund.

As compensation for its services to the Fund, the Manager receives a monthly fee at the annual rate of 1.10% of the value of the Fund's average weekly net assets not in excess of \$50 million, 1.00% of the Fund's average weekly net assets in excess of \$50 million but not exceeding \$100 million, .90% of the Fund's average weekly net assets in excess of \$100 million but not exceeding \$175 million, and .80% of the Fund's average weekly net assets in excess of \$175 million. For services performed under the Investment Advisory Agreement, the Investment Adviser receives a monthly fee from the Manager at the annual rate of .50% of the Fund's average weekly net assets not in excess of \$50 million, .45% of the Fund's average weekly net assets in excess of \$50 million but not in excess of \$100 million, .40% of the Fund's average weekly net assets in excess of \$100 million but not exceeding \$175 million, and .35% of the Fund's average weekly net assets in excess of \$175 million. Under the Management Agreement, the Fund accrued fees to the Manager of \$1,137,918 for the year ended February 28, 2002. Under the Investment Advisory Agreement, the Manager informed the Fund that the Investment Adviser earned fees of \$513,623 for the year ended February 28, 2002. At February 28,

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

2002, the fee payable to the Manager, by the Fund, was \$67,786.

Certain officers and/or directors of the Fund are officers and/or directors of the Manager. The Nomura Securities Co., Ltd. (the Manager's affiliate) and its affiliates earned \$11,515 in commissions on the execution of portfolio security transactions for the year ended February 28, 2002. The Fund pays each Director not affiliated with the Manager an annual fee of \$5,000 plus \$500 per meeting attended, together with such Director's actual expenses related to attendance at meetings. Such fees and expenses for unaffiliated Directors aggregated \$37,150 for the year ended February 28, 2002.

3. Purchases and Sales of Investments

Purchases and sales of investments, exclusive of investments in foreign currencies and short-term securities, for the year ended February 28, 2002 were \$40,724,919 and \$41,267,574, respectively.

As of February 28, 2002, net unrealized depreciation on investments exclusive of investments in foreign currency and short-term securities for Federal income tax purposes was \$52,996,182 of which \$2,538,035 related to appreciated securities and \$55,534,217 related to depreciated securities. The aggregate cost of investments, exclusive of investments in foreign currencies and short-term securities of \$446,802, at February 28, 2002 for Federal income tax purposes was \$145,168,587. In accordance with U.S. Treasury regulations, the Fund elected to defer \$69,765 of net realized foreign currency losses and \$1,372,594 of net realized capital losses arising after October 31, 2001. Such losses are treated for tax purposes as arising on March 1, 2002. The Fund has a capital loss carryforward as of February 28, 2002 of approximately \$22,683,799 which expires February 28, 2010.

Distributions

The Board of Directors of the Fund voted to pay to shareholders of record, the following distribution per share derived from capital gains realized from sales of portfolio securities:

Pay Date	Record Date	Dividends	Long-Term Capital Gains
-----	-----	-----	-----
December 14, 2001	December 7, 2001	-	\$0.08

The Fund hereby designates 100% of the long-term capital gain dividend distributed during the fiscal year as 20% rate capital gain dividend.

The Fund has notified shareholders in January, 2002 of amounts for use in preparing 2001 income tax returns.

JAPAN SMALLER CAPITALIZATION FUND, INC.

Supplemental Shareholder Information (Unaudited)

The 2001 Annual Meeting of the Shareholders of the Fund was held at the Fund's offices, 180 Maiden Lane, New York, New York on November 13, 2001. The purpose of the meeting was to elect five Directors to serve for the ensuing year; to consider and act upon a proposal to approve a new Management Agreement between the Fund and Nomura Asset Management U.S.A. Inc. ("NAM-U.S.A."); to consider and act upon a proposal to approve a new

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

Investment Advisory Agreement between NAM-U.S.A. and Nomura Asset Management Co., Ltd. ("NAM"); and to transact such other business as may properly come before the Meeting or any adjournment thereof.

At the Meeting, the following persons were elected by the shareholders to serve as Directors of the Fund: William G. Barker, Jr., Kazuhiko Hama, Chor Weng Tan, Arthur R. Taylor, and John F. Wallace. The shareholders approved a new Management Agreement between the Fund and NAM-U.S.A. and a new Investment Agreement between NAM-U.S.A. and NAM. No other business was transacted at the meeting.

The results of the voting at the Annual Meeting are as follows:

1. To elect the Fund's Board of Directors:

	Shares Voted For	% of outstanding Shares	Shares Voted Withhold Author
William G. Barker, Jr.	11,984,603	75.6	303,574

JAPAN SMALLER CAPITALIZATION FUND, INC.

REVIEW OF THE FUND'S MARKET PRICE COMPARED TO NET ASSET VALUE

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

Shares of closed-end investment companies, including funds focusing on a single country, have at various times traded at both premiums and discounts to their net asset value ("NAV"). Although the shares of the Fund have traded at such a premium, they also have traded at a discount from NAV.

Since the Fund was established, the Board of Directors on a quarterly basis has reviewed the trading price of the Fund's shares. The purpose of such review has been to determine whether a discount exists and, if so, whether it would be in shareholders' overall best interests for the Fund to conduct share repurchases, make an issuer tender offer for shares or consider another means of possibly reducing the discount. For example, the Board of Directors has also considered whether it would be in the best interests of the Fund to convert to an open-end fund or to an interval fund, which is a form of investment company that makes periodic share repurchases at prices based on NAV.

To date, the Board of Directors has not authorized open-market share repurchases or a tender offer for shares of the Fund. The Board of Directors also has not felt that it would be in the best interests of the Fund or its shareholders to convert to an open-end fund or an interval fund. As a "country fund", emphasizing a smaller capitalization segment of the market, the Fund's NAV is more volatile than might be the case for a fund with a broader investment focus. The Board of Directors believe that converting the Fund to either an open-end or interval fund would subject the Fund to redemptions or repurchases at times when liquidation of portfolio securities could disadvantage remaining shareholders, and they believe that the recent volatility of the financial markets in Japan supports their view. Additionally, since an open-end fund has a limited ability to invest in illiquid securities, such a conversion could hinder the Fund's ability to pursue its investment objectives. The Board of Directors intend to continue to review, on a quarterly basis, the trading market for the Fund's shares.

JAPAN SMALLER CAPITALIZATION FUND, INC.

DIVIDEND REINVESTMENT PLAN

The Dividend Reinvestment Plan (the "Plan") is available automatically for any holder of Common Stock with shares registered in his/her own name who wishes to purchase additional shares with income dividends or capital gains distributions received on shares owned, unless such shareholder elects to receive all dividends and capital gain distributions in cash, paid by check and mailed to the shareholder. If a shareholder holds shares in his/her own name, communications regarding the Plan should be addressed to the Plan Agent, Equiserve Inc., 150 Royall Street, Canton, Massachusetts 02021. Under the Plan, shareholders appoint the Plan Agent to reinvest dividends and distributions in shares of the Fund. Such shares will be acquired by the Plan Agent for shareholders either through open market purchases if the Fund is trading at a discount or through the issuance of authorized but unissued shares if the Fund is trading at net asset value or a premium. If the market price of a share on the payable date of a dividend or distribution is at or above the Fund's net asset value per share on such date, the number of shares to be issued by the Fund to each shareholder receiving shares in lieu of cash dividends or distributions will be determined by dividing the amount of the cash dividends or distributions to which such shareholder would be entitled by the greater of the net asset value per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the net asset value per share, the number of shares to be issued to such shareholders will be determined by dividing such amount, less brokerage commission, by the per share market price.

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

Purchases will be made by the Plan Agent from time to time on the New York Stock Exchange (the "Exchange") or elsewhere to satisfy dividend and distribution investment requirements under the Plan. Purchases will be suspended on any day when the closing price (or the mean between the closing bid and ask prices if there were no sales) of the shares on the Exchange on the preceding trading day was higher than the net asset value per share. If on the dividend payable date, purchases by the Fund are insufficient to satisfy dividend or distribution investments and on the last trading day immediately preceding the dividend payable date the closing price or the mean between the closing bid and ask prices of the shares is lower than or the same as the net asset value per share, the Plan Agent will continue to purchase shares until all investments by shareholders have been completed or the closing price or the mean between the bid and ask prices of the shares becomes higher than the net asset value, in which case the Fund will issue the necessary additional shares from authorized but unissued shares. If on the last trading day immediately preceding the dividend payable date, the closing price or the mean between the bid and ask prices of the shares is higher than the net asset value per share and if the number of shares previously purchased on the Exchange or elsewhere is insufficient to satisfy dividend investments, the Fund will issue the necessary additional shares from authorized but unissued shares. There will be no brokerage charges with respect to shares issued directly by the Fund to satisfy the dividend investment requirements. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Fund's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account will be the average cost, including brokerage commissions, of any shares purchased in the open market plus the cost of any shares issued by the Fund. For the fiscal year ended February 28, 2002, the Fund did not issue any new shares for dividend reinvestment purposes. The Fund purchased 2,344 shares (\$12,752) on the open market for dividend reinvestment purposes.

Shareholders who elect to hold their shares in the name of a broker or other nominee should contact such broker or other nominee to determine whether they may participate in the Plan. To the extent such participation is permitted, the Plan Agent will adminis-

ter the Plan on the basis of the number of shares certified from time to time by the broker as representing the total amount registered in the shareholder's name and held for the account of beneficial owners who are participating in such Plan. Shareholders that participate in the Plan holding shares in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan. Shareholders who are participating in the Plan may withdraw from the Plan at any time. There will be no penalty for withdrawal from the Plan, and shareholders who have previously withdrawn from the Plan may rejoin it at any time. Changes in participation in the Plan should be made by contacting the Plan Agent if the shares are held in the shareholder's own name and must be in writing and should include the shareholder's name and address as they appear on the account registration. If the shares are held in the name of a broker or other nominee, such person should be contacted regarding changes in participation in the Plan. Upon withdrawal from the Plan, the Plan Agent will deliver to the shareholder a certificate or certificates for the appropriate number of full shares and a cash payment for any fractional shares. In lieu of receiving a certificate, the shareholder may request the Plan Agent to sell part or all of the shareholder's shares at the market price and remit the proceeds to the shareholder, net of any brokerage commissions. A \$2.50 fee will be charged by the Plan Agent upon any cash withdrawal or termination. An election to withdraw from the Plan will, until such election is changed, be deemed to be an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for a dividend or distribution if it is received by the Plan Agent not less than 10 days prior to such record

Edgar Filing: JAPAN OTC EQUITY FUND INC - Form N-30D

date.

The Plan Agent will maintain all shareholders' accounts in the Plan, and furnish written confirmation of all transactions in such account, including information needed by shareholders for tax records. Shares in the account of each Plan participant may be held by the Plan Agent in non-certificated form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

The automatic reinvestment of dividends will not relieve participants of any income taxes that may be payable (or required to be withheld) on such dividends. Shareholders receiving dividends or distributions in the form of additional shares pursuant to the Plan should be treated for Federal income tax purposes as receiving a distribution in an amount equal to the amount of money that the shareholders receiving cash dividends or distributions will receive and should have a cost basis in the shares received equal to such amount.

The Fund reserves the right to amend or terminate the Plan as applied to any dividend paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such dividend. There is no service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. All correspondence concerning the Plan, including requests for additional information about the Plan, should be directed to the Plan Agent.

SHAREHOLDERS ACCOUNT INFORMATION

Shareholders whose accounts are held in their own name may contact the Fund's transfer agent, Equiserve, Inc. at (800) 426-5523 for information concerning their accounts.
