## EXPLANATORY NOTE

We announced in a Form 8-K filed on July 19, 2005, that in May 2005, a financial reporting error relating to our pension plan that affects our previously filed financial statements was discovered. The pension plan commenced on January 1, 1969 and was frozen on December 31, 1997. In May of 2005, we began exploring alternatives with respect to possibly liquidating the pension plan.

At that time, we discovered that the amount of our prepaid benefit cost had

been overstated (and our pension expense had been cumulatively understated) since fiscal year 1996. Such misstatements related to (1) the failure to use settlement accounting for significant lump sum distributions, as required by FASB Statement No. 88, Employers' Accounting for Settlements and Curtailments of Defined Benefit Plans and for Termination Benefit, and (2) the understatement of the projected benefit obligation prior to 2003.

This Form 10-Q/A is being filed to amend and restate the financial statements and related information contained in our Form 10-Q for the period ended September 30, 2004.

The table below shows the cumulative effect of the defined benefit pension plan adjustment to retained earnings and accumulated other comprehensive income (loss) as of December 31, 2003 and 2002, and the impact on net income and earnings per share for the three and nine months ended September 30, 2004 and 2003.
