### PART I

#### ITEM 1. BUSINESS

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

### GENERAL

Mack-Cali Realty Corporation, a Maryland corporation (together with its subsidiaries, the "Company"), is a fully-integrated, self-administered and self-managed real estate investment trust ("REIT") that owns and operates a real estate portfolio comprised predominantly of Class A office and office/flex properties located primarily in the Northeast. The Company performs substantially all commercial real estate leasing, management, acquisition, development and construction services on an in-house basis. Mack-Cali Realty Corporation was incorporated on May 24, 1994. The Company's executive offices are located at 11 Commerce Drive, Cranford, New Jersey 07016, and its telephone number is (908) 272-8000. The Company has an internet website at [www.mack-cali.com](http://www.mack-cali.com).

As of December 31, 2001, the Company owned or had interests in 267 properties, aggregating approximately 28.4 million square feet (collectively, the "Properties"), plus developable land. The Properties are comprised of: (a) 259 wholly-owned or Company-controlled properties consisting of 153 office buildings and 94 office/flex buildings totaling approximately 26.6 million square feet, six industrial/warehouse buildings totaling approximately 387,400 square feet, one multi-family residential complex consisting of 124 units, two stand-alone retail properties and three land leases (collectively, the "Consolidated Properties"); and (b) seven office buildings and one office/flex building aggregating 1.4 million square feet, owned by unconsolidated joint ventures in which the Company has investment interests. Unless otherwise indicated, all references to square feet represent net rentable area. As of December 31, 2001, the office, office/flex and industrial/warehouse properties included in the Consolidated Properties (excluding development properties in service for less than 12 months) were 94.6 percent leased to approximately 2,300 tenants. See Item 2: Properties. The Properties are located in 10 states, primarily in the Northeast, and the District of Columbia.

The Company's strategy has been to focus its operations, acquisition and development of office properties in markets and sub-markets where it believes it is, or can become, a significant and preferred owner and operator. The Company will continue this strategy by expanding, through acquisitions and/or development in Northeast markets and sub-markets where it has, or can achieve, similar status. The Company believes that its Properties have excellent locations and access and are well-maintained and professionally managed. As a result, the Company believes that its Properties attract high quality tenants and achieve among the highest rental, occupancy and tenant retention rates within their markets. The Company also believes that its extensive market knowledge provides it with a significant competitive advantage which is further enhanced by its strong reputation for, and emphasis on, delivering highly responsive, professional management services. See "Business Strategies".

As of December 31, 2001, executive officers and directors of the Company and their affiliates owned approximately 11.0 percent of the Company's outstanding shares of Common Stock (including Units redeemable or convertible into shares of Common Stock). As used herein, the term "Units" refers to limited partnership interests in Mack-Cali Realty, L.P., a Delaware limited partnership ("Operating Partnership"), through which the Company conducts its real estate activities. The Company's executive officers have been employed by the Company and/or its predecessor companies for an average of approximately 14 years.

### BUSINESS STRATEGIES

### OPERATIONS

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

**REPUTATION:** The Company has established a reputation as a highly-regarded landlord with an emphasis on delivering quality tenant services in buildings it owns and/or manages. The Company believes that its continued success depends in part on enhancing its reputation as an operator of choice, which will facilitate the retention of current tenants and the attraction of new tenants. The Company believes it provides a superior level of service to its tenants, which should in turn allow the Company to outperform the market with respect to occupancy rates, as well as improve tenant retention.

**COMMUNICATION WITH TENANTS:** The Company emphasizes frequent communication with tenants to ensure first-class service to the Properties. Property managers generally are located on site at the Properties to provide convenient access to management and to ensure that the Properties are well-maintained. Property management's primary responsibility is to ensure that buildings are operated at peak efficiency in order to meet both the Company's and tenants' needs and expectations. Property managers additionally budget and oversee capital improvements and building system upgrades to enhance the Properties' competitive advantages in their markets and to maintain the quality of the Company's properties.

Additionally, the Company's in-house leasing representatives develop and maintain long-term relationships with the Company's diverse tenant base and coordinate leasing, expansion, relocation and build-to-suit opportunities within the Company's portfolio. This approach allows the Company to offer office space in the appropriate size and location to current or prospective tenants in any of its sub-markets.

### GROWTH

The Company plans to continue to own and operate a portfolio of properties in high-barrier-to-entry markets, with a primary focus in the Northeast. The Company's primary objectives are to maximize funds from operations and to enhance the value of its portfolio through effective management, acquisition, development and property sales strategies, as follows:

**INTERNAL GROWTH:** The Company seeks to maximize the value of its existing portfolio through implementing operating strategies designed to produce increased effective rental and occupancy rates and decreased tenant installation costs. The Company continues to pursue internal growth through re-leasing space at higher effective rents with contractual rent increases and developing or redeveloping space for its diverse base of high credit tenants, including IBM Corporation, Nabisco Inc. and Allstate Insurance Company. In addition, the Company seeks economies of scale through volume discounts to take advantage of its size and dominance in particular sub-markets, and operating efficiencies through the use of in-house management, leasing, marketing, financing, accounting, legal, development and construction services.

**ACQUISITIONS:** The Company also believes that growth opportunities exist through acquiring operating properties or properties for redevelopment with attractive returns in its core Northeast sub-markets where, based on its expertise in leasing, managing and operating properties, it believes it is, or can become, a significant and preferred owner and operator. The Company intends to acquire, invest in or redevelop additional properties that: (i) provide attractive initial yields with potential for growth in cash flow from operations; (ii) are well-located, of high quality and competitive in their respective sub-markets; (iii) are located in its existing sub-markets or in sub-markets in which the Company can become a significant and preferred owner and operator; and (iv) have been under-managed or are otherwise capable of improved performance through intensive management, capital improvements and/or leasing that should result in increased occupancy and rental revenues.

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

DEVELOPMENT: The Company seeks to selectively develop additional properties where it believes such development will result in a favorable risk-adjusted return on investment in coordination with the above operating strategies. Such development primarily will occur: (i) when leases have been executed prior to construction; (ii) in stable core Northeast sub-markets where the demand for such space exceeds available supply; and (iii) where the Company is, or can become, a significant and preferred owner and operator.

4

The Company, directly or through joint ventures, is underway on the construction of six office and office/flex buildings. The most significant of this development activity is currently at the Company's Harborside Financial Center office complex in Jersey City, New Jersey. Three of the six properties currently under construction are located at the complex and consist of two office towers, aggregating approximately 1.6 million square feet, and a 350-room Hyatt Regency hotel. See "Liquidity and Capital Resources - Capitalization."

PROPERTY SALES: The Company plans to sell substantially all of its properties located in the Southwestern and Western regions, using such proceeds primarily to invest in property acquisitions and development projects in its core Northeast markets. Additionally, while management's principal intention is to own and operate its properties on a long-term basis, it is constantly assessing the attributes of each of its properties, with a particular focus on the supply and demand fundamentals of the sub-markets in which they are located. Based on these ongoing assessments, the Company may, from time to time, decide to sell any of its properties.

### FINANCIAL

The Company currently intends to maintain a ratio of debt-to-undepreciated assets (total debt of the Company as a percentage of total undepreciated assets) of approximately 50 percent or less. As of December 31, 2001, the Company's total debt constituted approximately 41.5 percent of total undepreciated assets of the Company. The Company has three investment grade credit ratings. Standard & Poor's Rating Services ("S&P") and Fitch, Inc. ("Fitch") have each assigned their BBB rating to existing and prospective senior unsecured debt of the Operating Partnership. S&P and Fitch have also assigned their BBB- rating to prospective preferred stock offerings of the Company. Moody's Investors Service ("Moody's") has assigned its Baa3 rating to existing and prospective senior unsecured debt of the Operating Partnership and its Ba1 rating to prospective preferred stock offerings of the Company. Although there is no limit in the Company's organizational documents on the amount of indebtedness that the Company may incur or the requirement for maintenance of investment grade credit ratings, the Company has entered into certain financial agreements which contain covenants that limit the Company's ability to incur indebtedness under certain circumstances. The Company intends to conduct its operations so as to best be able to maintain its investment grade rated status. The Company intends to utilize the most appropriate sources of capital for future acquisitions, development, capital improvements and other investments, which may include funds from operating activities, proceeds from property sales, short-term and long-term borrowings (including draws on the Company's revolving credit facility), and the issuance of additional debt or equity securities.

### EMPLOYEES

As of December 31, 2001, the Company had approximately 380 employees.

### COMPETITION

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

The leasing of real estate is highly competitive. The Properties compete for tenants with lessors and developers of similar properties located in their respective markets primarily on the basis of location, rent charged, services provided, and the design and condition of the Properties. The Company also experiences competition when attempting to acquire or dispose of real estate, including competition from domestic and foreign financial institutions, other REITs, life insurance companies, pension trusts, trust funds, partnerships and individual investors.

### REGULATIONS

Many laws and governmental regulations are applicable to the Properties and changes in these laws and regulations, or their interpretation by agencies and the courts, occur frequently.

5

Under various laws and regulations relating to the protection of the environment, an owner of real estate may be held liable for the costs of removal or remediation of certain hazardous or toxic substances located on or in the property. These laws often impose liability without regard to whether the owner was responsible for, or even knew of, the presence of such substances. The presence of such substances may adversely affect the owner's ability to rent or sell the property or to borrow using such property as collateral and may expose it to liability resulting from any release of, or exposure to, such substances. Persons who arrange for the disposal or treatment of hazardous or toxic substances at another location may also be liable for the costs of removal or remediation of such substances at the disposal or treatment facility, whether or not such facility is owned or operated by such person. Certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may also seek recovery from owners or operators of real properties for personal injury associated with asbestos-containing materials and other hazardous or toxic substances.

In connection with the ownership (direct or indirect), operation, management and development of real properties, the Company may be considered an owner or operator of such properties or as having arranged for the disposal or treatment of hazardous or toxic substances and, therefore, potentially liable for removal or remediation costs, as well as certain other related costs, including governmental penalties and injuries to persons and property.

There can be no assurance that (i) future laws, ordinances or regulations will not impose any material environmental liability, (ii) the current environmental condition of the Properties will not be affected by tenants, by the condition of land or operations in the vicinity of the Properties (such as the presence of underground storage tanks), or by third parties unrelated to the Company, or (iii) the Company's assessments reveal all environmental liabilities and that there are no material environmental liabilities of which the Company is aware. If compliance with the various laws and regulations, now existing or hereafter adopted, exceeds the Company's budgets for such items, the Company's ability to make expected distributions to stockholders could be adversely affected.

There are no other laws or regulations which have a material effect on the Company's operations, other than typical federal, state and local laws affecting the development and operation of real property, such as zoning laws.

### INDUSTRY SEGMENTS

The Company operates in only one industry segment - real estate. The Company does not have any foreign operations and its business is not seasonal.

(a) Net sales proceeds consisted of \$1,330 in cash and \$2,027 of a note receivable due in 2002.

In January 2002, the Company sold 25 Martine Avenue, a 124-unit multi-family residential property located in White Plains, Westchester County, New York, for net sales proceeds of approximately \$17.8 million, which resulted in a gain of approximately \$7.3 million.

### FINANCING ACTIVITY

#### ISSUANCES OF SENIOR UNSECURED NOTES

On January 29, 2001, the Operating Partnership issued \$300.0 million face amount of 7.75 percent senior unsecured notes due February 15, 2011 with interest payable semi-annually in arrears. The total proceeds from the issuance (net of selling commissions and discount) of approximately \$296.3 million were used to pay down outstanding borrowings under the 2000 Unsecured Facility (see Note 8 to the Financial Statements). The senior unsecured notes were issued at a discount of approximately \$1.7 million.

#### MORTGAGE FINANCING

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

On May 18, 2001, the Company obtained an additional \$70.0 million in proceeds from Northwestern Mutual Life Insurance Company and Principal Capital Management, LLC on a mortgage loan secured by Harborside Financial Center Plazas 2 and 3. The mortgage on Plazas 2 and 3, with a balance of \$162.0 million at December 31, 2001, bears interest at a weighted average fixed rate of 7.36 percent and matures in January 2006. Proceeds from the financing were used to pay down outstanding borrowings on the Company's revolving credit facility.

### STOCK REPURCHASES

On September 13, 2000, the Board of Directors authorized an increase to the Company's repurchase program under which the Company is permitted to purchase up to an additional \$150.0 million of the Company's outstanding common stock ("Repurchase Program"). From that date through February 14, 2002, the Company purchased for constructive retirement under the Repurchase Program 3.3 million shares of its outstanding common stock for an aggregate cost of approximately \$91.1 million, of which 1.3 million shares were repurchased in 2001 for a total cost of \$35.4 million. As a result, the Company has a remaining authorization to repurchase up to an additional \$58.9 million of its outstanding common stock, which it may repurchase from time to time in open market transactions at prevailing prices or through privately negotiated transactions.

### RISK FACTORS

Our results from operations and ability to make distributions on our equity and debt service on our indebtedness may be affected by the risk factors set forth below. All investors should consider the following risk factors before deciding to purchase securities of the Company. The Company refers to itself as "we" or "our" in the following risk factors.

#### WE ARE DEPENDENT UPON THE ECONOMICS OF THE NORTHEASTERN OFFICE MARKETS.

A majority of our revenues are derived from our properties located in the Northeast, particularly in New Jersey, New York, Pennsylvania and Connecticut. Adverse economic developments in this region could adversely impact the operations of our properties and, therefore, our profitability. Because our portfolio consists primarily of office and office/flex buildings (as compared to a more diversified real estate portfolio), a decline in the economy and/or a decline in the demand for office space may adversely affect our ability to make distributions or payments to our investors.

The current economic downturn has resulted in a receding real estate market, the relocation of companies and an uncertain economic future for many businesses. We are uncertain how long the current downturn will last. The terrorist attacks on September 11, 2001 in New York and Washington, D.C. (and the uncertainty as to whether there may be more) may exacerbate this downturn or cause it to linger and may also result in increases in certain of our expenses for items such as security. The current economic downturn and the events of September 11 may also be having a negative economic impact on most industries, including securities, insurance services, telecommunications and computer systems and other technology, businesses in which many of our tenants are involved. Such economic impact may cause our tenants to have difficulty or be unable to meet their obligations to us.

#### OUR PERFORMANCE IS SUBJECT TO RISKS ASSOCIATED WITH THE REAL ESTATE INDUSTRY.

GENERAL: Our ability to make distributions or payments to our investors depends on the ability of our properties to generate funds in excess of operating

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

expenses (including scheduled principal payments on debt and capital expenditure requirements). Events or conditions that are beyond our control may adversely affect our operations and the value of our properties. Such events or conditions could include:

- o changes in the general economic climate;
- o changes in local conditions such as oversupply of office space or a reduction in demand for office space;
- o decreased attractiveness of our properties to potential tenants;
- o competition from other office and office/flex buildings;
- o our inability to provide adequate maintenance;
- o increased operating costs, including insurance premiums and real estate taxes, due to inflation and other factors which may not necessarily be offset by increased rents;
- o changes in laws and regulations (including tax, environmental and housing laws and regulations) and agency or court interpretations of such laws and regulations and the related costs of compliance;
- o changes in interest rate levels and the availability of financing;
- o the inability of a significant number of tenants to pay rent;
- o our inability to rent office space on favorable terms; and
- o civil unrest, earthquakes and other natural disasters or acts of God that may result in uninsured losses.

**FINANCIALLY DISTRESSED TENANTS MAY BE UNABLE TO PAY RENT:** If a tenant defaults, we may experience delays and incur substantial costs in enforcing our rights as landlord and protecting our investments. If a tenant files for bankruptcy, a potential court judgment rejecting and terminating such tenant's lease could adversely affect our ability to make distributions or payments to our investors.

9

**OUR INSURANCE COVERAGE ON OUR PROPERTIES MAY BE INADEQUATE:** We currently carry comprehensive insurance on all of our properties, including insurance for liability, fire and flood. Our existing insurance policies expire in April 2002. As a consequence of the September 11, 2001 terrorist attacks, we may be unable to renew or duplicate our current insurance coverage in adequate amounts or at reasonable prices. In addition, insurance companies may no longer offer coverage against certain types of losses, such as losses due to terrorist acts and toxic mold, or, if offered, these types of insurance may be prohibitively expensive. If any or all of the foregoing should occur, we may not have insurance coverage against certain types of losses and/or there may be decreases in the limits of insurance available. Should an uninsured loss or a loss in excess of our insured limits occur, we could lose all or a portion of the capital we have invested in a property or properties, as well as the anticipated future revenue from the property or properties. Nevertheless, we might remain obligated for any mortgage debt or other financial obligations related to the property or properties. We cannot guarantee that material losses in excess of insurance proceeds will not occur in the future. If any of our properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our ability to make distributions or payments to our investors.

**ILLIQUIDITY OF REAL ESTATE LIMITS OUR ABILITY TO ACT QUICKLY:** Real estate investments are relatively illiquid. Such illiquidity may limit our ability to react quickly in response to changes in economic and other conditions. If we want to sell an investment, we might not be able to dispose of that investment in the time period we desire, and the sales price of that investment might not recoup or exceed the amount of our investment. The prohibition in the Internal Revenue Code of 1986, as amended, and related regulations on a real estate investment trust holding property for sale also may restrict our ability to sell

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

property. In addition, we acquired a significant number of our properties from individuals to whom we issued limited partnership units as part of the purchase price. In connection with the acquisition of these properties, in order to preserve such individual's tax deferral, we contractually agreed not to sell or otherwise transfer the properties for a specified period of time, subject to certain exceptions. As of December 31, 2001, 141 of our properties, with an aggregate net book value of approximately \$1.9 billion, were subject to these restrictions. The above limitations on our ability to sell our investments could adversely affect our ability to make distributions or payments to our investors.

**AMERICANS WITH DISABILITIES ACT COMPLIANCE COULD BE COSTLY:** Under the Americans with Disabilities Act of 1990, all public accommodations and commercial facilities must meet certain federal requirements related to access and use by disabled persons. Compliance with the ADA requirements could involve removal of structural barriers from certain disabled persons' entrances. Other federal, state and local laws may require modifications to or restrict further renovations of our properties with respect to such accesses. Although we believe that our properties are substantially in compliance with present requirements, noncompliance with the ADA or related laws or regulations could result in the United States government imposing fines or private litigants being awarded damages against us. Such costs may adversely affect our ability to make distributions or payments to our investors.

**ENVIRONMENTAL PROBLEMS ARE POSSIBLE AND MAY BE COSTLY:** Various federal, state and local laws and regulations subject property owners or operators to liability for the costs of removal or remediation of certain hazardous or toxic substances located on or in the property. These laws often impose liability without regard to whether the owner or operator was responsible for or even knew of the presence of such substances. The presence of or failure to properly remediate hazardous or toxic substances (such as toxic mold) may adversely affect our ability to rent, sell or borrow against contaminated property. Various laws and regulations also impose liability on persons who arrange for the disposal or treatment of hazardous or toxic substances at another location for the costs of removal or remediation of such substances at the disposal or treatment facility. These laws often impose liability whether or not the person arranging for such disposal ever owned or operated the disposal facility. Certain other environmental laws and regulations impose liability on owners or operators of property for injuries relating to the release of asbestos-containing materials into the air. As owners and operators of property and as potential arrangers for hazardous substance disposal, we may be liable under such laws and regulations for removal or remediation costs, governmental penalties, property damage, personal injuries and related expenses. Payment of such costs and expenses could adversely affect our ability to make distributions or payments to our investors.

10

**COMPETITION FOR ACQUISITIONS MAY RESULT IN INCREASED PRICES FOR PROPERTIES:** We plan to acquire additional properties in New Jersey, New York and Pennsylvania and in the Northeast generally. We may be competing for investment opportunities with entities that have greater financial resources. Several office building developers and real estate companies may compete with us in seeking properties for acquisition, land for development and prospective tenants. Such competition may adversely affect our ability to make distributions or payments to our investors by:

- o reducing the number of suitable investment opportunities offered to us;
- o increasing the bargaining power of property owners;
- o interfering with our ability to attract and retain tenants;
- o increasing vacancies which lowers market rental rates and limits our

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

- o ability to negotiate rental rates; and/or
- o adversely affecting our ability to minimize expenses of operation.

DEVELOPMENT OF REAL ESTATE COULD BE COSTLY: As part of our operating strategy, we may acquire land for development under certain conditions. Included among the risks of the real estate development business are the following, which may adversely affect our ability to make distributions or payments to our investors:

- o financing for development projects may not be available on favorable terms;
- o long-term financing may not be available upon completion of construction; and
- o failure to complete construction on schedule or within budget may increase debt service expense and construction costs.

PROPERTY OWNERSHIP THROUGH JOINT VENTURES COULD SUBJECT US TO THE CONTRARY BUSINESS OBJECTIVES OF OUR CO-VENTURERS: We, from time to time, invest in joint ventures or partnerships in which we do not hold a controlling interest. These investments involve risks that do not exist with properties in which we own a controlling interest, including the possibility that our co-venturers or partners may, at any time, have business, economic or other objectives that are inconsistent with our objectives. Because we lack a controlling interest, our co-venturers or partners may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives. While the Company seeks protective rights against such company action, there can be no assurance that the Company will be successful in procuring any such protective rights, or if procured, that the rights will be sufficient to fully protect the Company against contrary actions. Our organizational documents do not limit the amount of available funds that we may invest in joint ventures or partnerships. If the objectives of our co-venturers or partners are inconsistent with ours, it may adversely affect our ability to make distributions or payments to our investors.

DEBT FINANCING COULD ADVERSELY AFFECT OUR ECONOMIC PERFORMANCE.

SCHEDULED DEBT PAYMENTS AND REFINANCING COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION: We are subject to the risks normally associated with debt financing. These risks, including the following, may adversely affect our ability to make distributions or payments to our investors:

- o our cash flow may be insufficient to meet required payments of principal and interest;
- o payments of principal and interest on borrowings may leave us with insufficient cash resources to pay operating expenses;
- o we may not be able to refinance indebtedness on our properties at maturity; and
- o if refinanced, the terms of refinancing may not be as favorable as the original terms of the related indebtedness.

As of December 31, 2001, we had total outstanding indebtedness of \$1.7 billion comprised of \$1.1 billion of senior unsecured notes, outstanding borrowings of \$59.5 million under our unsecured \$800.0 million revolving credit facility and approximately \$543.8 million of mortgage indebtedness. We may have to refinance the principal due on our indebtedness at maturity, and we may not be able to refinance any indebtedness we incur in the future.

If we are unable to refinance our indebtedness on acceptable terms, or at all, events or conditions that may adversely affect our ability to make distributions

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

or payments to our investors include the following:

- o we may need to dispose of one or more of our properties upon disadvantageous terms;
- o prevailing interest rates or other factors at the time of refinancing could increase interest rates and, therefore, our interest expense;
- o if we mortgage property to secure payment of indebtedness and are unable to meet mortgage payments, the mortgagee could foreclose upon such property or appoint a receiver to receive an assignment of our rents and leases; and
- o foreclosures upon mortgaged property could create taxable income without accompanying cash proceeds and, therefore, hinder our ability to meet the real estate investment trust distribution requirements of the Internal Revenue Code.

**RISING INTEREST RATES MAY ADVERSELY AFFECT OUR CASH FLOW:** Outstanding borrowings of approximately \$59.5 million (as of December 31, 2001) under our revolving credit facility and approximately \$32.2 million (as of December 31, 2001) of our mortgage indebtedness bear interest at variable rates. We may incur additional indebtedness in the future that also bears interest at variable rates. Variable rate debt creates higher debt service requirements if market interest rates increase. Higher debt service requirements could adversely affect our ability to make distributions or payments to our investors and/or cause us to default under certain debt covenants.

**OUR DEGREE OF LEVERAGE COULD ADVERSELY AFFECT OUR CASH FLOW:** We fund acquisition opportunities and development partially through short-term borrowings (including our revolving credit facility), as well as from proceeds from property sales and undistributed cash. We expect to refinance projects purchased with short-term debt either with long-term indebtedness or equity financing depending upon the economic conditions at the time of refinancing. Our Board of Directors has a general policy of limiting the ratio of our indebtedness to total undepreciated assets (total debt as a percentage of total undepreciated assets) to 50 percent or less, although there is no limit in Mack-Cali Realty, L.P.'s or our organizational documents on the amount of indebtedness that we may incur. However, we have entered into certain financial agreements which contain financial and operating covenants that limit our ability under certain circumstances to incur additional secured and unsecured indebtedness. The Board of Directors could alter or eliminate its current policy on borrowing at any time in its discretion. If this policy were changed, we could become more highly leveraged, resulting in an increase in debt service that could adversely affect our cash flow and our ability to make distributions or payments to our investors and/or could cause an increased risk of default on our obligations.

**WE ARE DEPENDENT ON OUR KEY PERSONNEL WHOSE CONTINUED SERVICE IS NOT GUARANTEED.**

We are dependent upon our executive officers for strategic business direction and real estate experience. While we believe that we could find replacements for these key personnel, loss of their services could adversely affect our operations. We have entered into an employment agreement (including non-competition provisions) which provides for a continuous four-year employment term with each of Mitchell E. Hersh, Timothy M. Jones, Barry Lefkowitz and Roger W. Thomas. We also have entered into an employment agreement (including non-competition provisions) with Michael A. Grossman which provides for an initial three year employment term and a continuous one-year term from and after the two-year anniversary of the execution of the agreement. We do not have key man life insurance for our executive officers.

CONSEQUENCES OF FAILURE TO QUALIFY AS A REAL ESTATE INVESTMENT TRUST COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION.

FAILURE TO MAINTAIN OWNERSHIP LIMITS COULD CAUSE US TO LOSE OUR QUALIFICATION AS A REAL ESTATE INVESTMENT TRUST: In order for us to maintain our qualification as a real estate investment trust, not more than 50 percent in value of our outstanding stock may be actually and/or constructively owned by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities). We have limited the ownership of our outstanding shares of our common stock by any single stockholder to 9.8 percent of the outstanding shares of our common stock. Our Board of Directors could waive this restriction if they were satisfied, based upon the advice of tax counsel or otherwise, that such action would be in our best interests and would not affect our qualifications as a real estate investment trust. Common stock acquired or transferred in breach of the limitation may be redeemed by us for the lesser of the price paid and the average closing price for the 10 trading days immediately preceding redemption or sold at the direction of us. We may elect to redeem such shares of common stock for limited partnership units, which are nontransferable except in very limited circumstances. Any transfer of shares of common stock which, as a result of such transfer, causes us to be in violation of any ownership limit will be deemed void. Although we currently intend to continue to operate in a manner which will enable us to continue to qualify as a real estate investment trust, it is possible that future economic, market, legal, tax or other considerations may cause our Board of Directors to revoke the election for us to qualify as a real estate investment trust. Under our organizational documents, our Board of Directors can make such revocation without the consent of our stockholders.

In addition, the consent of the holders of at least 85 percent of Mack-Cali Realty, L.P.'s partnership units is required: (i) to merge (or permit the merger of) us with another unrelated person, pursuant to a transaction in which Mack-Cali Realty, L.P. is not the surviving entity; (ii) to dissolve, liquidate or wind up Mack-Cali Realty, L.P.; or (iii) to convey or otherwise transfer all or substantially all of Mack-Cali Realty, L.P.'s assets. As general partner, we own approximately 79.8 percent of Mack-Cali Realty, L.P.'s outstanding partnership units (assuming conversion of all preferred limited partnership units).

TAX LIABILITIES AS A CONSEQUENCE OF FAILURE TO QUALIFY AS A REAL ESTATE INVESTMENT TRUST: We have elected to be treated and have operated so as to qualify as a real estate investment trust for federal income tax purposes since our taxable year ended December 31, 1994. Although we believe we will continue to operate in such manner, we cannot guarantee that we will do so. Qualification as a real estate investment trust involves the satisfaction of various requirements (some on an annual and quarterly basis) established under highly technical and complex tax provisions of the Internal Revenue Code. Because few judicial or administrative interpretations of such provisions exist and qualification determinations are fact sensitive, we cannot assure you that we will qualify as a real estate investment trust for any taxable year.

If we fail to qualify as a real estate investment trust in any taxable year, we will be subject to the following:

- o we will not be allowed a deduction for dividends to shareholders;
- o we will be subject to federal income tax at regular corporate rates, including any alternative minimum tax, if applicable; and
- o unless we are entitled to relief under certain statutory provisions, we will not be permitted to qualify as a real estate investment trust for the four taxable years following the year during which we were disqualified.

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

A loss of our status as a real estate investment trust could have an adverse effect on us. Failure to qualify as a real estate investment trust also would eliminate the requirement that we pay dividends to our stockholders.

**OTHER TAX LIABILITIES:** Even if we qualify as a real estate investment trust, we are subject to certain federal, state and local taxes on our income and property and, in some circumstances, certain other state and local taxes. Our net income from third party management and tenant improvements, if any, also may be subject to federal income tax.

**RISK OF CHANGES IN THE TAX LAW APPLICABLE TO REAL ESTATE INVESTMENT TRUSTS:** Since the Internal Revenue Service, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any of such legislative action may prospectively or retroactively modify our and Mack-Cali Realty, L.P.'s tax treatment and, therefore, may adversely affect taxation of us, Mack-Cali Realty, L.P., and/or our investors.

- (a) Based on all leases in effect as of December 31, 2001.
- (b) Total base rent for 2001, determined in accordance with generally accepted accounting principles ("GAAP"). Substantially all of the leases provide for annual base rents plus recoveries and escalation charges based upon the tenant's proportionate share of and/or increases in real estate taxes and certain operating costs, as defined, and the pass through of charges for electrical usage.
- (c) Total base rent for 2001 minus total 2001 amortization of tenant improvements, leasing commissions and other concessions and costs, determined in accordance with GAAP.
- (d) Base rent for 2001 divided by net rentable square feet leased at December 31, 2001. For those properties acquired or placed in service during 2001, amounts are annualized, as per Note g.
- (e) Effective rent for 2001 divided by net rentable square feet leased at December 31, 2001. For those properties acquired or placed in service during 2001, amounts are annualized, as per Note g.
- (f) Excludes space leased by the Company.
- (g) As this property was acquired or placed in service by the Company during 2001, the amounts represented in 2001 base rent and 2001 effective rent reflect only that portion of the year during which the Company owned or placed the property in service. Accordingly, these amounts may not be indicative of the property's full year results. For comparison purposes, the amounts represented in 2001 average base rent per sq. ft. and 2001 average effective rent per sq. ft. for this property have been calculated by taking 2001 base rent and 2001 effective rent for such property and annualizing these partial-year results, dividing such annualized amounts by the net rentable square feet leased at December 31, 2001. These annualized per square foot amounts may not be indicative of the property's results had the Company owned or placed such property in service for the

- entirety of 2001.
- (h) The property was sold by the Company in 2001.
  - (i) Calculation based on square feet in service as of December 31, 2001.
  - (j) The Company constructed an expansion to this building increasing its size by 31,000 square feet.
  - (k) Property is excluded from weighted average percentage leased as it was an in-service development property as of December 31, 2001. Had these properties been included, weighted average percentage leased for total office, office/flex, and industrial/warehouse properties would be 94.1 percent.

- (1) The Company considers funds from operations (after adjustment for straight-lining of rents and non-recurring charges) one measure of REIT performance. Funds from operations ("FFO") is defined as net income (loss) before minority interest of unitholders (preferred and common) computed in accordance with generally accepted accounting principles ("GAAP"), excluding gains (or losses) from debt restructuring, other extraordinary items, and sales of depreciable rental property, plus real estate-related depreciation and amortization. FFO should not be considered as an alternative for net income as an indication of the Company's performance or to cash flows as a measure of liquidity. FFO presented herein is not necessarily comparable to FFO presented by other real estate companies due to the fact that not all real estate companies use the same definition. However, the Company's FFO is comparable to the FFO of real estate companies that use the current definition of the National Association of Real Estate Investment Trusts ("NAREIT"), after the adjustment for straight-lining of rents and non-recurring charges. Refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations," contained elsewhere in this Report, for the calculation of FFO for the periods presented.

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements of Mack-Cali Realty Corporation and the notes thereto. Certain defined terms used herein have the meaning ascribed to them in the Financial Statements.

The Company has a focused strategy geared to attractive opportunities in high-barrier-to-entry markets, primarily predicated on the Company's strong presence in the Northeast region. The Company plans to sell substantially all of its properties located in the Southwestern and Western regions, using such proceeds to invest in property acquisitions and development projects in its core Northeast markets, as well as to repay debt and fund stock repurchases.

Consistent with its strategy, in the fourth quarter 2000, the Company started construction of a 980,000 square-foot office property, to be known as Plaza 5, at its Harborside Financial Center office complex in Jersey City, Hudson County, New Jersey, which is approximately 55 percent leased as of February 14, 2002. The project is currently projected to cost approximately \$260 million, of which \$113.3 million has been incurred by the Company through December 31, 2001, and is anticipated to be completed in late 2002. Additionally, in the fourth quarter 2000, the Company, through a joint venture, started construction of a 575,000 square-foot office property, to be known as Plaza 10, on land owned by the joint venture located adjacent to the Company's Harborside complex. The Company holds a 50 percent interest in the joint venture. Among other things, the joint

venture agreement provides for a preferred return on the Company's invested capital in the venture, in addition to the Company's proportionate share of the venture's profit, as defined in the agreement. The project is currently projected to cost the Company approximately \$145 million, of which \$74.0 million has been incurred by the Company through December 31, 2001. The Project, which is 100 percent leased to Charles Schwab & Co. Inc. ("Schwab") for a 15-year term, is anticipated to be completed in late 2002. The lease agreement obligates the Company, among other things, to deliver space to the tenant by required timelines and offers the tenant expansion options into additional space in any adjacent Harborside projects. Such options may obligate the Company to construct an additional building at Harborside if vacant space is not available in any of its existing Harborside properties. Should the Company be unable to or choose not to provide such expansion space, the Company could be liable to Schwab for its actual damages, in no event to exceed \$15 million. The Company anticipates expending an additional approximately \$218.5 million for the completion of Plaza 5, Plaza 10 and other projects. The Company expects to finance its funding requirements primarily through drawing on its revolving credit facility.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's real estate properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property are less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. Except for certain assets classified as held for sale, as discussed below, management does not believe that the value of any of the Company's rental properties is impaired.

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified for sale is less than the net book value of the assets, a valuation allowance is established.

As of December 31, 2001, the Company identified 37 office properties, aggregating approximately 4.3 million square feet, a multi-family residential property and a land parcel as held for sale. These properties are located in Texas, Colorado, Arizona, Florida and New York. Such properties carried an aggregate book value of \$384.6 million, net of accumulated depreciation of \$28.4 million and a valuation allowance of \$40.5 million at December 31, 2001. In January 2002, the Company sold 25 Martine Avenue, a 124-unit multi-family residential property located in White Plains, Westchester County, New York, for net sales proceeds of approximately \$17.8 million, which resulted in a gain of approximately \$7.3 million. The Company is currently in various stages of contract negotiations for the sale or sales of certain of the remainder of these properties. Substantially all of the properties are unencumbered. The sale of one or more of these assets will enhance the company's short-term liquidity although there is no assurance when and if any sales will occur or, if they occur, how much proceeds the Company will realize.

As of December 31, 2000, the Company had identified 10 office properties, aggregating approximately 1.6 million square feet, and a land parcel as held for sale, all of which are located in San Antonio and Houston, Texas. Such properties carried an aggregate book value of \$107.5 million, net of accumulated depreciation, of \$7.0 million. In 2001, the Company sold four of these properties for total net sales proceeds of approximately \$62.1 million.

Base rents for the Same-Store Properties increased \$10.0 million, or 2.0 percent, for 2001 as compared to 2000, due primarily to rental rate increases in 2001. Escalations and recoveries from tenants for the Same-Store Properties decreased \$1.8 million, or 3.1 percent, for 2001 over 2000, due to the recovery of a decreased amount of total property expenses partially as a result of new base years established from 2001 leasing activity. Parking and other income for the Same-Store Properties decreased \$4.4 million, or 28.9 percent, due primarily to fewer lease termination fees in 2001.

Base rental revenue is recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements. Parking and other revenue includes income from parking spaces leased to tenants, income from tenants for additional services provided by the Company, income from tenants for early lease terminations and income from managing properties for third parties. under operating leases having terms generally of one year or less is recognized when earned. Escalations and recoveries are received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 15 to the Financial Statements.

Real estate taxes on the Same-Store Properties increased \$0.9 million, or 1.6 percent, for 2001 as compared to 2000, due primarily to property tax rate increases in certain municipalities in 2001, partially offset by lower assessments on certain properties in 2001. Utilities for the Same-Store Properties increased \$1.7 million, or 4.0 percent, for 2001 as compared to 2000, due primarily to increased rates. Operating services for the Same-Store Properties decreased \$1.3 million, or 1.8 percent, due primarily to decreased maintenance and snow removal costs in 2001.

Equity in earnings of unconsolidated joint ventures increased \$0.9 million, or 11.8 percent, for 2001 as compared to 2000. This is due primarily to properties developed by joint ventures being placed in service in 2001 and higher occupancies at certain properties, partially offset by the sale of joint venture office properties in 2001 (see Note 4 to the Financial Statements).

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as the Company exercises significant influence, but does not control these entities. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on the balance sheet of the Company and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated joint ventures over 40 years. See Note 4 to the Financial Statements.

Interest income decreased \$0.9 million, or 29.3 percent, for 2001 as compared to 2000. This decrease was due primarily to additional interest income in 2000 on investment of proceeds from the 2000 Dispositions in cash and cash equivalents for longer periods of time.

General and administrative increased by \$5.2 million, or 22.4 percent, for 2001 as compared to 2000. This increase is due primarily to increased bad debt expense of approximately \$2.5 million in 2001, related to a lease termination fee receivable due from a former tenant deemed uncollectible, increased professional fees, mostly on account of costs for transactions not consummated, and increased payroll and payroll-related costs in 2001.

Costs incurred in connection with leases are capitalized and amortized on a straight-line basis over the terms of the related leases and included in depreciation and amortization. Unamortized deferred leasing costs are charged to amortization expense upon early termination of the lease. Certain employees of the Company provide leasing services to the Properties and receive compensation based on space leased. The portion of such compensation, which is capitalized and amortized, approximated \$4.0 million and \$3.7 million for the years ended December 31, 2001 and 2000, respectively.

Depreciation and amortization decreased by \$0.6 million, or 0.7 percent, for 2001 over 2000. Of this decrease, \$2.1 million, or 2.2 percent, is attributable to the Same-Store Properties, and \$3.3 million, or 3.7 percent, is due to the Dispositions, partially offset by an increase of \$4.8 million, or 5.2 percent, due to the Acquired Properties.

Interest expense increased \$6.6 million, or 6.3 percent, for 2001 as compared to 2000. This increase is due primarily to higher average outstanding debt balances in 2001 versus 2000, primarily as a result of Common Stock repurchases in late 2000 and early 2001 and, to a lesser extent, the replacement in early 2001 of short-term credit facility borrowings with long-term, higher fixed rate debt.

Costs directly related to the development of rental properties are capitalized. Capitalized development costs include interest, property taxes, insurance and other project costs incurred during the period of development. Interest capitalized by the Company for the years ended December 31, 2001 and 2000 was \$16.7 million and \$11.5 million, respectively.

Non-recurring charges of \$37.1 million were incurred in 2000 as a result of costs associated with the termination of the Prentiss merger agreement in September 2000 (see Note 3 to the Financial Statements) and costs associated with the resignations of certain officers of the Company in June 2000 (see Note 14 to the Financial Statements).

Income before realized gains (losses) and unrealized losses on disposition of rental property and minority interests increased to \$177.7 million in 2001 from \$146.1 million in 2000. The increase of approximately \$31.6 million is due to the factors discussed above.

Net income decreased by \$53.6 million, from \$185.3 million in 2000 to \$131.7 million in 2001. This decrease was a result of realized gains on disposition of rental property of \$85.3 million in 2000 and realized gains (losses) and unrealized losses on disposition of rental property, net, of \$11.9 million in 2001. This was partially offset by an increase in 2001 in income before realized gains (losses) and unrealized losses on dispositions of rental property and minority interests of \$31.6 million and a decrease in minority interests of \$12.0 million in 2001.

Base rents for the Same-Store Properties increased \$16.6 million, or 3.5 percent, for 2000 as compared to 1999, due primarily to rental rate increases in 2000. Escalations and recoveries from tenants for the Same-Store Properties decreased \$0.6 million, or 0.9 percent, for 2000 over 1999, due to the recovery of a decreased amount of total property expenses. Parking and other income for the Same-Store Properties decreased \$0.1 million, or 0.7 percent, due primarily to fewer lease termination fees in 2000.

Base rental revenue is recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements. Parking and other revenue includes income from parking spaces leased to tenants, income from tenants for additional services provided by the Company, income from tenants for early lease terminations and income from managing properties for third parties. Rental income on residential property under operating leases having terms generally of one year or less is recognized when earned. Escalations and recoveries are received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 15 to the Financial Statements.

Real estate taxes on the Same-Store Properties increased \$1.3 million, or 2.2 percent, for 2000 as compared to 1999, due primarily to property tax rate increases in certain municipalities in 2000. Utilities for the Same-Store Properties increased \$0.8 million, or 1.8 percent, for 2000 as compared to 1999, due primarily to increased rates. Operating services for the Same-Store Properties increased \$0.7 million, or 1.0 percent, due primarily to an increase in maintenance costs in 2000.

Equity in earnings of unconsolidated joint ventures increased \$5.5 million, or 210.6 percent, for 2000 as compared to 1999. This is due primarily to properties developed by joint ventures being placed in service in 2000 and higher occupancies (see Note 4 to the Financial Statements).

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as the Company exercises significant influence, but does not control these entities. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on the balance sheet of the Company and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated joint ventures over 40 years. See Note 4 to the Financial Statements.

54

Interest income increased \$2.2 million, or 228.6 percent, for 2000 as compared to 1999. This increase was due primarily to the effect of net proceeds from certain property sales being invested in cash and cash equivalents for the period of time prior to which such proceeds were reinvested, as well as income from mortgage receivable in 2000.

General and administrative decreased by \$2.2 million, or 8.6 percent, for 2000 as compared to 1999. This decrease is due primarily to decreased payroll and payroll-related costs in 2000.

Costs incurred in connection with leases are capitalized and amortized on a

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

straight-line basis over the terms of the related leases and included in depreciation and amortization. Unamortized deferred leasing costs are charged to amortization expense upon early termination of the lease. Certain employees of the Company provide leasing services to the Properties and receive compensation based on space leased. The portion of such compensation, which is capitalized and amortized, approximated \$3.7 million and \$3.7 million for the years ended December 31, 2000 and 1999, respectively.

Depreciation and amortization increased by \$4.9 million, or 5.6 percent, for 2000 over 1999. Of this increase, \$5.4 million, or 6.2 percent, is attributable to the Same-Store Properties, and \$3.8 million, or 4.4 percent, is due to the Acquired Properties, partially offset by a decrease of \$4.3 million, or 5.0 percent, due to the Dispositions.

Interest expense increased \$2.4 million, or 2.4 percent, for 2000 as compared to 1999. This increase is due primarily to the replacement in March 1999 of short-term credit facility borrowings with long-term fixed rate unsecured notes and increase in LIBOR in 2000 over 1999.

Costs directly related to the development of rental properties are capitalized. Capitalized development costs include interest, property taxes, insurance and other project costs incurred during the period of development. Interest capitalized by the Company for the years ended December 31, 2000 and 1999 was \$11.5 million and \$6.8 million, respectively.

Non-recurring charges of \$37.1 million were incurred in 2000 as a result of costs associated with the termination of the Prentiss merger agreement in September 2000 (see Note 3 to the Financial Statements) and costs associated with the resignations of certain officers of the Company in June 2000 (see Note 14 to the Financial Statements). Non-recurring charges of \$16.5 million were incurred in 1999 as a result of the resignation of an officer (see Note 14 to the Financial Statements).

Income before realized gains (losses) and unrealized losses on disposition of rental property and minority interests decreased to \$146.1 million in 2000 from \$150.7 million in 1999. The decrease of approximately \$4.6 million is due to the factors discussed above.

Net income increased by \$65.6 million, from \$119.7 million in 1999 to \$185.3 million in 2000. This increase was a result of a realized gain on disposition of rental property of \$85.4 million in 2000. This was partially offset by a decrease in income before realized gains (losses) and unrealized losses on disposition of rental property and minority interests of \$4.6 million in 2000 as compared to 1999, a realized gain on disposition of rental property of \$2.0 million in 1999, and an increase in minority interests of \$13.2 million in 2000.

### LIQUIDITY AND CAPITAL RESOURCES

Historically, rental revenue has been the principal source of funds to pay operating expenses, debt service and capital expenditures, excluding non-recurring capital expenditures. Management believes that the Company will have access to the capital resources necessary to expand and develop its business. To the extent that the Company's cash flow from operating activities is insufficient to finance its non-recurring capital expenditures such as property acquisition and construction project costs and other capital expenditures, the Company expects to finance such activities through borrowings under its revolving credit facility and other debt and equity financing.

The Company expects to meet its short-term liquidity requirements generally through its working capital, net cash provided by operating activities and from the 2000 Unsecured Facility. The Company frequently examines potential property acquisitions and construction projects and, at any given time, one or more of

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

such acquisitions or construction projects may be under consideration. Accordingly, the ability to fund property acquisitions and construction projects is a major part of the Company's financing requirements. The Company expects to meet its financing requirements through funds generated from operating activities, proceeds from property sales, long-term or short-term borrowings (including draws on the Company's revolving credit facility) and the issuance of additional debt or equity securities.

55

As of December 31, 2001, the Company's total indebtedness of \$1.7 billion (weighted average interest rate of 7.17 percent) was comprised of \$91.7 million of revolving credit facility borrowings and other variable rate mortgage debt (weighted average rate of 3.38 percent) and fixed rate debt of \$1.6 billion (weighted average rate of 7.38 percent).

The Company has three investment grade credit ratings. Standard & Poor's Rating Services ("S&P") and Fitch, Inc. ("Fitch") have each assigned their BBB rating to existing and prospective senior unsecured debt of the Operating Partnership. S&P and Fitch have also assigned their BBB- rating to prospective preferred stock offerings of the Company. Moody's Investors Service ("Moody's") has assigned its Baa3 rating to the existing and prospective senior unsecured debt of the Operating Partnership and its Ba1 rating to prospective preferred stock offerings of the Company.

As of December 31, 2001, the Company had outstanding borrowings of \$59.5 million under its 2000 Unsecured Facility, as defined in Note 9 to the Financial Statements (with aggregate borrowing capacity of \$800.0 million). The interest rate on outstanding borrowings under the 2000 Unsecured Facility is currently LIBOR plus 80 basis points. The Company may instead elect an interest rate representing the higher of the lender's prime rate or the Federal Funds rate plus 50 basis points. The 2000 Unsecured Facility also currently requires a 20 basis point facility fee on the current borrowing capacity payable quarterly in arrears.

In the event of a change in the Company's unsecured debt rating, the interest and facility fee rate will be adjusted in accordance with the following table:

BBB-/Baa3/BBB- per the above table.

Subject to certain conditions, the Company has the ability through June 22, 2002 to increase the borrowing capacity of the 2000 Unsecured Facility up to \$1.0 billion. The 2000 Unsecured Facility matures in June 2003, with an extension option of one year, which would require a payment of 25 basis points of the then borrowing capacity of the credit line upon exercise. The Company believes that the 2000 Unsecured Facility is sufficient to meet its revolving credit facility needs.

The terms of the 2000 Unsecured Facility include certain restrictions and covenants which limit, among other things, the payment of dividends (as discussed below), the incurrence of additional indebtedness, the incurrence of liens and the disposition of assets, and which require compliance with financial ratios relating to the maximum leverage ratio, the maximum amount of secured indebtedness, the minimum amount of tangible net worth, the minimum amount of debt service coverage, the minimum amount of fixed charge coverage, the maximum amount of unsecured indebtedness, the minimum amount of unencumbered property debt service coverage and certain investment limitations. The dividend restriction referred to above provides that, except to enable the Company to continue to qualify as a REIT under the Code, the Company will not during any four consecutive fiscal quarters make distributions with respect to common stock or other equity interests in an aggregate amount in excess of 90 percent of funds from operations (as defined) for such period, subject to certain other adjustments.

On January 29, 2001, the Operating Partnership issued \$300.0 million face amount of 7.75 percent senior unsecured notes due February 15, 2011 with interest payable semi-annually in arrears. The total proceeds from the issuance (net of selling commissions and discount) of approximately \$296.3 million were used to pay down outstanding borrowings under the 2000 Unsecured Facility. The senior unsecured notes were issued at a discount of approximately \$1.7 million.

56

The terms of the Operating Partnership's Senior Unsecured Notes, as defined in Note 8 to the Financial Statements (which totaled approximately \$1.1 billion as of December 31, 2001), include certain restrictions and covenants which require compliance with financial ratios relating to the maximum amount of debt leverage, the maximum amount of secured indebtedness, the minimum amount of debt service coverage and the maximum amount of unsecured debt as a percent of unsecured assets.

On May 18, 2001, the Company obtained \$70.0 million in additional mortgage financing secured by Harborside Financial Center Plazas 2 and 3 from the existing lenders. The 7.42 percent interest only financing matures concurrent with the existing financing on January 1, 2006. The total financing secured by Harborside Financial Center Plazas 2 and 3 of \$162.0 million at December 31, 2001, has a weighted average interest rate of 7.36 percent. Proceeds from the financing were used to pay down the outstanding borrowings on the 2000 Unsecured Facility.

As of December 31, 2001, the Company had 235 unencumbered properties, totaling 20.8 million square feet, representing 77.2 percent of the Company's total portfolio on a square footage basis.

The debt of the Company's joint ventures aggregating \$455.7 million are non-recourse to the Company except for (i) customary exceptions pertaining to such matters as misuse of funds, environmental conditions and material misrepresentations and (ii) approximately \$11.1 million of debt on the

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

Harborside Financial Center South Pier joint venture with Hyatt Corporation ("Hyatt"). Additionally, the Company has posted an \$8.0 million letter of credit in support of another loan to that joint venture, \$4.0 million of which is indemnified by Hyatt. In addition, the Company and Hyatt have guaranteed completion of the hotel project to the joint venture's construction lender. If the joint venture fails to complete the hotel project as required under the construction loan documents and the construction loan proceeds remaining to be advanced together with the capital contributed by the partners to such date are insufficient to complete the hotel project, the Company and/or Hyatt may be required to provide additional funds sufficient to complete the hotel project.

The following table outlines the timing of payment requirements related to the Company's debt and ground lease agreements (IN THOUSANDS):

|                                   | TOTAL       | PAYMENTS DUE BY     |                |            |

As of December 31, 2001, the Company's total debt had a weighted average term to maturity of approximately 4.8 years. The Company does not intend to reserve funds to retire the Company's Senior Unsecured Notes or its mortgages and loans payable upon maturity. Instead, the Company will seek to refinance such debt at maturity or retire such debt through the issuance of additional equity or debt securities. The Company is reviewing various refinancing options, including the issuance of additional unsecured debt, preferred stock, and/or obtaining additional mortgage debt, some or all of which may be completed during 2002. The Company anticipates that its available cash and cash equivalents and cash flows from operating activities, together with cash available from borrowings and other sources, will be adequate to meet the Company's capital and liquidity needs both in the short and long-term. However, if these sources of funds are insufficient or unavailable, the Company's ability to make the expected distributions discussed below may be adversely affected.

57

The Company has an effective shelf registration statement with the SEC for an aggregate amount of \$2.0 billion in equity securities of the Company. The Company and Operating Partnership also have an effective shelf registration statement with the SEC for an aggregate of \$2.0 billion in debt securities, preferred stock and preferred stock represented by depositary shares, under which the Operating Partnership has issued an aggregate of \$1.1 billion of senior unsecured notes.

On September 13, 2000, the Board of Directors authorized an increase to the Company's repurchase program under which the Company is permitted to purchase up to an additional \$150.0 million of the Company's outstanding common stock ("Repurchase Program"). From that date through February 14, 2002, the Company purchased for constructive retirement under the Repurchase Program 3.3 million

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

shares of its outstanding common stock for an aggregate cost of approximately \$91.1 million of which 1.3 million shares were repurchased in 2001 for a total cost of approximately \$35.4 million. As a result, the Company has a remaining authorization to repurchase up to an additional \$58.9 million of its outstanding common stock, which it may repurchase from time to time in open market transactions at prevailing prices or through privately negotiated transactions.

The Company may not dispose of or distribute certain of its properties, currently comprising 141 properties with an aggregate net book value of approximately \$1.9 billion, which were originally contributed by members of either the Mack Group (which includes William L. Mack, Chairman of the Company's Board of Directors; Earle I. Mack, director; and Mitchell E. Hersh, chief executive officer and director), the Robert Martin Group (which includes Robert F. Weinberg, director; Martin W. Berger, a former director; Timothy M. Jones, president; and Michael A. Grossman, executive vice president) or the Cali Group (which includes John J. Cali, director and John R. Cali, director) without the express written consent of a representative of the Mack Group, the Robert Martin Group or the Cali Group, as applicable, except in a manner which does not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimburses the appropriate Mack Group, Robert Martin Group or Cali Group members for the tax consequences of the recognition of such built-in-gains (collectively, the "Property Lock-Ups"). The aforementioned restrictions do not apply in the event that the Company sells all of its properties or in connection with a sale transaction which the Company's Board of Directors determines is reasonably necessary to satisfy a material monetary default on any unsecured debt, judgment or liability of the Company or to cure any material monetary default on any mortgage secured by a property. The Property Lock-Ups expire periodically through 2008. Upon the expiration of the Property Lock-Ups, the Company is required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the appropriate Mack Group, Robert Martin Group or Cali Group members.

To maintain its qualification as a REIT, the Company must make annual distributions to its stockholders of at least 90 percent of its REIT taxable income, determined without regard to the dividends paid deduction and by excluding net capital gains. Moreover, the Company intends to continue to make regular quarterly distributions to its stockholders which, based upon current policy, in the aggregate would equal approximately \$141.2 million on an annualized basis. However, any such distribution, whether for federal income tax purposes or otherwise, would only be paid out of available cash after meeting both operating requirements and scheduled debt service on the Company's debt.

58

### FUNDS FROM OPERATIONS

The Company considers funds from operations ("FFO"), after adjustment for straight-lining of rents and non-recurring charges, one measure of REIT performance. FFO is defined as net income (loss) before minority interest of unitholders, computed in accordance with generally accepted accounting principles ("GAAP"), excluding gains (or losses) from debt restructuring, other extraordinary items, and sales of depreciable rental property, plus real estate-related depreciation and amortization. FFO should not be considered as an alternative to net income as an indication of the Company's performance or to cash flows as a measure of liquidity. FFO presented herein is not necessarily comparable to FFO presented by other real estate companies due to the fact that not all real estate companies use the same definition. However, the Company's FFO is comparable to the FFO of real estate companies that use the current definition of the National Association of Real Estate Investment Trusts

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

("NAREIT"), after the adjustment for straight-lining of rents and non-recurring charges.

FFO for the years ended December 31, 2001, 2000 and 1999, as calculated in accordance with NAREIT's definition as published in October 1999, after adjustment for straight-lining of rents and non-recurring charges, are summarized in the following table (IN THOUSANDS):

INFLATION

The Company's leases with the majority of its tenants provide for recoveries and escalation charges based upon the tenant's proportionate share of, and/or increases in, real estate taxes and certain operating costs, which reduce the Company's exposure to increases in operating costs resulting from inflation.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. In pursuing its business plan, the primary market risk to which the Company is exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between the Company's yield on invested assets and cost of funds and, in turn, its ability to make distributions or payments to its investors.

Approximately \$1.6 billion of the Company's long-term debt bears interest at fixed rates and therefore the fair value of these instruments is affected by changes in market interest rates. The following table presents principal cash flows (in thousands) based upon maturity dates of the debt obligations and the related weighted-average interest rates by expected maturity dates for the fixed rate debt. The interest rate on the variable rate debt as of December 31, 2001 ranged from LIBOR plus 65 basis points to LIBOR plus 80 basis points.

While the Company has not experienced any significant credit losses, in the event of a significant rising interest rate environment and/or economic downturn, defaults could increase and result in losses to the Company which could adversely affect its operating results and liquidity.

## 1. ORGANIZATION AND BASIS OF PRESENTATION

### ORGANIZATION

Mack-Cali Realty Corporation, a Maryland corporation, and subsidiaries (the "Company") is a fully-integrated, self-administered, self-managed real estate investment trust ("REIT") providing leasing, management, acquisition, development, construction and tenant-related services for its properties. As of December 31, 2001, the Company owned or had interests in 267 properties plus developable land (collectively, the "Properties"). The Properties aggregate approximately 28.4 million square feet, and are comprised of 160 office buildings and 95 office/flex buildings, totaling approximately 28.0 million square feet (which includes seven office buildings and one office/flex building aggregating 1.4 million square feet, owned by unconsolidated joint ventures in which the Company has investment interests), six industrial/warehouse buildings totaling approximately 387,400 square feet, one multi-family residential complex consisting of 124 units, two stand-alone retail properties and three land leases. The Properties are located in 10 states, primarily in the Northeast, plus the District of Columbia.

### BASIS OF PRESENTATION

The accompanying consolidated financial statements include all accounts of the Company, its majority-owned and/or controlled subsidiaries, which consist principally of Mack-Cali Realty, L.P. ("Operating Partnership"). See Investments in Unconsolidated Joint Ventures in Note 2 for the Company's treatment of unconsolidated joint venture interests. All significant intercompany accounts and transactions have been eliminated.

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### RENTAL

#### PROPERTY

Rental properties are stated at cost less accumulated depreciation and amortization. Costs directly related to the acquisition and development of rental properties are capitalized. Capitalized development costs include interest, property taxes, insurance and other project costs incurred during the period of development. Included in total rental property is construction-in-progress of \$210,463 and \$188,077 as of December 31, 2001 and 2000, respectively. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

| Leasehold interests | Remaining lease term |
|---------------------|----------------------|
| -----               | -----                |

Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

|                                   |   |
|-----------------------------------|---|
| Buildings and improvements        | 5 to 40 years   |
| Tenant improvements               | The shorter of the term of the related lease or useful life |
| Furniture, fixtures and equipment | 5 to 10 years   |

71

On a periodic basis, management assesses whether there are any indicators that the value of the real estate properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property are less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. Management does not believe that the value of any of the Company's rental properties is impaired.

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified for sale is less than the net book value of the assets, a valuation allowance is established. See Note 7.

INVESTMENTS IN  
UNCONSOLIDATED  
JOINT VENTURES

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as the Company exercises significant influence, but does not control these entities. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on the balance sheet of the Company and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated joint ventures over 40 years. See Note 4.

CASH AND CASH  
EQUIVALENTS

All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

DEFERRED  
FINANCING COSTS

Costs incurred in obtaining financing are capitalized and amortized on a straight-line basis, which approximates the effective interest method, over the term of the related indebtedness. Amortization of such costs is included in interest expense and was \$4,638, \$3,943 \$3,320 for the years ended December 31, 2001, 2000 and 1999, respectively.

DEFERRED  
LEASING COSTS

Costs incurred in connection with leases are capitalized and amortized on a straight-line basis over the terms of the

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

related leases and included in depreciation and amortization. Unamortized deferred leasing costs are charged to amortization expense upon early termination of the lease. Certain employees of the Company provide leasing services to the Properties and receive compensation based on space leased. The portion of such compensation, which is capitalized and amortized, approximated \$4,013, \$3,704 and \$3,704 for the years ended December 31, 2001, 2000 and 1999, respectively.

### REVENUE RECOGNITION

Base rental revenue is recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements. Parking and other revenue includes income from parking spaces leased to tenants, income from tenants for additional services provided by the Company, income from tenants for early lease terminations and income from managing properties for third parties. Rental income on residential property under operating leases having terms generally of one year or less is recognized when earned.

Reimbursements are received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 15.

72

### INCOME AND OTHER TAXES

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). As a REIT, the Company generally will not be subject to corporate federal income tax on net income that it currently distributes to its shareholders, provided that the Company, for its taxable years beginning prior to January 1, 2001, satisfies certain organizational and operational requirements including the requirement to distribute at least 95 percent of its REIT taxable income to its shareholders. For its taxable years beginning after December 31, 2000, as a result of amendments to the Code, the Company is required to distribute at least 90 percent of its REIT taxable income to its shareholders. Effective January 1, 2001, the Company may elect to treat one or more of its existing or newly created corporate subsidiaries as a taxable REIT subsidiary ("TRS"). In general, a TRS of the Company may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the providing to any person, under a franchise, license or otherwise, rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Company has elected to treat certain of its existing and newly created corporate subsidiaries as a TRS. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate tax rates. The Company is subject to certain state and local taxes.

Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, where such exercise or conversion would result in a lower EPS amount.

Compensation cost for stock options, if any, is recognized ratably over the vesting period. ## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

On April 30, 1998, the Company acquired a 49.9 percent interest in an existing joint venture, known as G&G Martco, which owns Convention Plaza, a 305,618 square-foot office building, located in San Francisco, San Francisco County, California. A portion of its initial investment was financed through the issuance of common units, as well as funds drawn from the Company's credit facilities. Subsequently, on June 4, 1999, the Company acquired an additional 0.1 percent interest in G&G Martco through the issuance of common units. The Company performs management and leasing services for the property owned by the joint venture and recognized \$235, \$231 and \$225 in fees for such services in the years ended December 31, 2001, 2000 and 1999, respectively.

### AMERICAN FINANCIAL EXCHANGE L.L.C.

On May 20, 1998, the Company entered into a joint venture agreement with Columbia Development Company, L.L.C. to form American Financial Exchange L.L.C. The venture was initially formed to acquire land for future development, located on the Hudson River waterfront in Jersey City, Hudson County, New Jersey, adjacent to the Company's Harborside Financial Center office complex. The Company holds a 50 percent interest in the joint venture. Among other things, the partnership agreement provides for a preferred return on the Company's invested capital in the venture, in addition to the Company's proportionate share of the venture's profit, as defined in the agreement. The joint venture acquired land on which it constructed a parking facility, a portion of which is currently licensed to a parking operator. the venture. Plaza 10 is 100 percent pre-leased to Charles Schwab & Co. Inc. ("Schwab") for a 15-year term. The lease agreement obligates the Company, among other things, to deliver space to the tenant by required timelines and offers expansion options, at the tenant's election, to additional space in any adjacent Harborside projects. Such options may obligate the Company to construct an additional building at Harborside if vacant space is not available in any of its existing Harborside properties. Should the Company be unable to or choose not to provide such expansion space, the Company could be liable to Schwab for its actual damages, in no event to exceed \$15,000. The project under construction, which is anticipated to be completed in late 2002, is currently projected to cost the Company approximately \$145,000, of which \$74,034 has been incurred by the Company through December 31, 2001.

9. REVOLVING CREDIT FACILITIES

2000 UNSECURED FACILITY

On June 22, 2000, the Company obtained an unsecured revolving credit facility ("2000 Unsecured Facility") with a current borrowing capacity of \$800,000 from a group of 24 lenders. The interest rate on outstanding borrowings under the credit line is currently the London Inter-Bank Offered Rate ("LIBOR") (1.87 percent at December 31, 2001) plus 80 basis points. The Company may instead elect an interest rate representing the higher of the lender's prime rate or the Federal Funds rate plus 50 basis points. The 2000 Unsecured Facility also requires a 20 basis point facility fee on the current borrowing capacity payable quarterly in arrears. Subject to certain conditions, the Company has the ability through June 22, 2002 to increase the borrowing capacity of the credit line up to \$1,000,000. The 2000 Unsecured Facility matures in June 2003, with an extension option of one year, which would require a payment of 25 basis points of the then borrowing capacity of the credit line upon exercise.

In the event of a change in the Company's unsecured debt rating, the interest rate and facility fee will be adjusted in accordance with the following table:

| OPERATING PARTNERSHIP'S<br>UNSECURED DEBT RATINGS:<br>S&P/MOODY'S/FITCH (a) | INTEREST RATE -<br>APPLICABLE BASIS POINTS<br>ABOVE LIBOR | FACILITY FEE<br>BASIS POINTS |

| A-/A3/A- or higher  | 65.0  | 15.0                         |

(a) If the Operating Partnership has debt ratings from two rating agencies one of which is S&P or Moody's, the rates per the above table shall be based on the lower of such ratings. If the Operating Partnership has debt ratings from three rating agencies, one of which is Standard & Poor's Rating Services ("S&P") or Moody's Investors Service ("Moody's"), the rates per the above table shall be based on the lower of the two highest ratings. If the Operating Partnership has debt ratings from only one

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

agency, it will be considered to have no rating or less than BBB-/Baa3/BBB- per the above table.

The terms of the 2000 Unsecured Facility include certain restrictions and covenants which limit, among other things the payment of dividends (as discussed below), the incurrence of additional indebtedness, the incurrence of liens and the disposition of assets, and which require compliance with financial ratios relating to the maximum leverage ratio, the maximum amount of secured indebtedness, the minimum amount of tangible net worth, the minimum amount of debt service coverage, the minimum amount of fixed charge coverage, the maximum amount of unsecured indebtedness, the minimum amount of unencumbered property debt service coverage and certain investment limitations. The dividend restriction referred to above provides that, except to enable the Company to continue to qualify as a REIT under the Code, the Company will not during any four consecutive fiscal quarters make distributions with respect to common stock or other equity interests in an aggregate amount in excess of 90 percent of funds from operations (as defined) for such period, subject to certain other adjustments.

The lending group for the 2000 Unsecured Facility consists of: Chase Manhattan Bank, as administrative agent; Fleet National Bank, as syndication agent; Bank of America, N.A., as documentation agent; Bank One, NA, Commerzbank Aktiengesellschaft and First Union National Bank, as senior managing agents; PNC Bank, N.A., as managing agent; Bayerische Hypo-und Vereinsbank AG, Dresdner Bank AG, Societe Generale and Wells Fargo Bank, N.A., as co-agents; and Bayerische Landesbank Girozentrale; Citizens Bank of Massachusetts; European American Bank; Chevy Chase Bank; Citicorp Real Estate, Inc.; DG Bank Deutsche Genossenschaftsbank, AG; Erste Bank; KBC Bank N.V.; SunTrust Bank; Bank Leumi USA and Israel Discount Bank of New York.

In conjunction with obtaining the 2000 Unsecured Facility, the Company drew funds on the new facility to repay in full and terminate the Unsecured Facility, as defined below.

11. MINORITY INTERESTS

Minority interests in the accompanying consolidated financial statements relate to (i) preferred units in the Operating Partnership ("Preferred Units"), common units in the Operating Partnership and warrants to purchase common units ("Unit Warrants"), held by parties other than the Company, and (ii) interests in consolidated partially-owned properties for the portion of such properties not owned by the Company.

OPERATING PARTNERSHIP

PREFERRED UNITS

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

At January 1, 2000, the Company had 6,180 Series A Preferred Units and 223,124 Series B Preferred Units outstanding.

The Preferred Units have a stated value of \$1,000 per unit and are preferred as to assets over any class of common units or other class of preferred units of the Company, based on circumstances per the applicable unit certificates. The quarterly distribution on each Preferred Unit is an amount equal to the greater of (i) \$16.875 (representing 6.75 percent of the Preferred Unit stated value of an annualized basis) or (ii) the quarterly distribution attributable to a Preferred Unit determined as if such unit had been converted into common units, subject to adjustment for customary anti-dilution rights. Each of the Preferred Units may be converted at any time into common units at a conversion price of \$34.65 per unit. Common units received pursuant to such conversion may be redeemed for an equal number of shares of common stock.

During the year ended December 31, 2000, 6,180 Series A Preferred Units and 2,784 Series B Preferred Units were converted into 258,702 common units.

As of December 31, 2001, there were 220,340 Series B Preferred Units outstanding (convertible into 6,359,019 common units). There were no Series A Preferred Units outstanding as of December 31, 2001.

### COMMON UNITS

At January 1, 2000, the Company had 8,153,710 common units outstanding.

Certain individuals and entities own common units in the Operating Partnership. A common unit and a share of common stock of the Company have substantially the same economic characteristics in as much as they effectively share equally in the net income or loss of the Operating Partnership. Common units are redeemable by the common unitholders at their option, subject to certain restrictions, on the basis of one common unit for either one share of common stock or cash equal to the fair market value of a share at the time of the redemption. The Company has the option to deliver shares of common stock in exchange for all or any portion of the cash requested. When a unitholder redeems a common unit, minority interest in the Operating Partnership is reduced and the Company's investment in the Operating Partnership is increased.

During the year ended December 31, 2000, the Company issued 258,702 common units in connection with the conversion of 8,964 Preferred Units, and an aggregate of 448,688 common units were redeemed for an equivalent number of shares of common stock in the Company.

As of December 31, 2000, there were 7,963,725 common units outstanding.

During the year ended December 31, 2001, 8,950 common units were redeemed for an equivalent number of shares of common stock in the Company.

As of December 31, 2001, there were 7,954,775 common units outstanding.

### CONTINGENT COMMON AND PREFERRED UNITS

In connection with the Mack transaction in December 1997, 2,006,432 contingent common units, 11,895 Series A contingent Preferred Units and 7,799 Series B contingent Preferred Units were issued as contingent non-participating units ("Contingent Units"). Redemption of such Contingent Units occurred upon the achievement of certain performance goals relating to certain of the Mack properties ("Mack Properties"), specifically the achievement of certain leasing activity. When Contingent Units were redeemed for common and Preferred Units, an adjustment to the purchase price of certain of the Mack Properties was recorded, based on the value of the units issued.

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

On account of certain of the performance goals at the Mack Properties having been achieved during the year ended December 31, 1999, the Company redeemed 275,046 contingent common units and issued an equivalent number of common units, as indicated above. There were no Contingent Units outstanding as of December 31, 1999.

### UNIT WARRANTS

The Company has 2,000,000 Unit Warrants outstanding which enable the holders to purchase an equal number of common units at \$37.80 per unit. The Unit Warrants are all currently exercisable and expire on December 11, 2002.

### MINORITY INTEREST OWNERSHIP

As of December 31, 2001 and 2000, the minority interest common unitholders owned 12.3 percent (20.2 percent, including the effect of the conversion of Preferred Units into common units) and 12.3 percent (20.1 percent including the effect of the conversion of Preferred Units into common units) of the Operating Partnership, respectively (excluding any effect for the exercise of Unit Warrants).

### PARTIALLY-OWNED PROPERTIES

On December 28, 1999, the Company sold an interest in six office properties located in Parsippany, Morris County, New Jersey for \$83,600. Amongst other things, the operating agreements provided for a preferred return to the joint venture members. On June 29, 2000 the Company acquired a 100 percent interest in these properties and the Company paid an additional \$836 to the minority interest member in excess of its investment.

On August 24, 2000, MC-SJP Morris V Realty, LLC and MC-SJP Morris VI Realty, LLC acquired land in which SJP Properties has a minority interest amounting to \$1,925.

The Company controlled these operations and has consolidated the financial position and results of operations of partially-owned properties in the financial statements of the Company. The equity interests of the other members are reflected as minority interests: partially-owned properties in the consolidated financial statements of the Company.

### 12. EMPLOYEE BENEFIT PLAN

All employees of the Company who meet certain minimum age and period of service requirements are eligible to participate in a 401(k) defined contribution plan (the "401(k) Plan"). The 401(k) Plan allows eligible employees to defer up to 15 percent of their annual compensation, subject to certain limitations imposed by federal law. The amounts contributed by employees are immediately vested and non-forfeitable. The Company, at management's discretion, may match employee contributions and/or make discretionary contributions. Management has approved, for the year ended December 31, 2001, a Company matching contribution to be paid under the 401(k) Plan equal to 50 percent of the first 3.5 percent of annual salary, as defined in the 401(k) Plan, contributed to the plan in 2001. The aforementioned restrictions do not apply

The Property Lock-Ups expire periodically through 2008. Upon the expiration of the Property Lock-Ups, the Company is required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the appropriate Mack Group, Robert Martin Group or Cali Group members.

16. STOCKHOLDERS' EQUITY

To maintain its qualification as a REIT, not more than 50 percent in value of the outstanding shares of the Company may be owned, directly or indirectly, by five or fewer individuals at any time during the last half of any taxable year of the Company, other than its initial taxable year (defined to include certain entities), applying certain constructive ownership rules. To help ensure that the Company will not fail this test, the Company's Articles of Incorporation provide for, among other things, certain restrictions on the transfer of the common stock to prevent further concentration of stock ownership. Moreover, to evidence compliance with these requirements, the Company must maintain records that disclose the actual ownership of its outstanding common stock and will demand written statements each year from the holders of record of designated percentages of its common stock requesting the disclosure of the beneficial owners of such common stock.

COMMON STOCK REPURCHASES

On August 6, 1998, the Board of Directors of the Company authorized a share repurchase program ("Repurchase Program") under which the Company was permitted to purchase up to \$100,000 of the Company's outstanding common stock. Purchases could be made from time to time in open market transactions at prevailing prices or through privately negotiated transactions. Under the Repurchase Program, the Company purchased for constructive retirement 1,869,200 shares of its outstanding common stock for an aggregate cost of approximately \$52,562 from August 1998 through December 1999.

On September 13, 2000, the Board of Directors authorized an increase to the Repurchase Program under which the Company is permitted to purchase up to an additional \$150,000 of the Company's outstanding common stock above the \$52,562 that had previously been purchased. The Company purchased for constructive retirement 3,295,800 shares of its outstanding common stock for an aggregate cost of approximately \$90,925 from September 13, 2000 through December 31, 2001.

DIVIDEND REINVESTMENT AND STOCK PURCHASE PLAN

The Company filed a registration statement with the SEC for the Company's dividend reinvestment and stock purchase plan ("Plan") which was declared effective in February 1999. The Plan commenced on March 1, 1999.

During the year ended December 31, 1999, 1,082 shares were issued and proceeds of approximately \$32 were received from stock purchases and/or dividend reinvestments under the Plan. The Company did not issue any shares under the Plan during the year ended December 31, 2001.

SHAREHOLDER RIGHTS PLAN

On June 10, 1999, the Board of Directors of the Company authorized a dividend distribution of one preferred share purchase right ("Right") for each outstanding share of common stock which were distributed to all holders of record of the common stock on July 6, 1999. Each Right entitles the registered holder to purchase from the Company one one-thousandth of a share of Series A junior participating preferred stock, par value \$0.01 per share ("Preferred

## Edgar Filing: MACK CALI REALTY CORP - Form 10-K405

Shares"), at a price of \$100.00 per one one-thousandth of a Preferred Share ("Purchase Price"), subject to adjustment as provided in the rights agreement. The Rights expire on July 6, 2009, unless the expiration date is extended or the Right is redeemed or exchanged earlier by the Company.

The Rights are attached to each share of common stock. The Rights are generally exercisable only if a person or group becomes the beneficial owner of 15 percent or more of the outstanding common stock or announces a tender offer for 15 percent or more of the outstanding common stock ("Acquiring Person"). In the event that a person or group becomes an Acquiring Person, each holder of a Right will have the right to receive, upon exercise, common stock having a market value equal to two times the Purchase Price of the Right.

On June 27, 2000, the Company amended its shareholder rights plan to prevent the triggering of such plan as a result of the Merger Agreement.

### STOCK OPTION PLANS

In September 2000, the Company established the 2000 Employee Stock Option Plan ("2000 Employee Plan") and the 2000 Director Stock Option Plan ("2000 Director Plan") under which a total of 2,700,000 shares (subject to adjustment) of the Company's common stock have been reserved for issuance (2,500,000 shares under the 2000 Employee Plan and 200,000 shares under the 2000 Director Plan). In 1994, and as subsequently amended, the Company established the Mack-Cali Employee Stock Option Plan ("Employee Plan") and the Mack-Cali Director Stock Option Plan ("Director Plan") under which a total of 5,380,188 shares (subject to adjustment) of the Company's common stock have been reserved for issuance (4,980,188 shares under the Employee Plan and 400,000 shares under the Director Plan). All stock options granted under both the 2000 Director Plan and Director Plan become exercisable in one year. All options were granted at the fair market value at the dates of grant and have terms of ten years. As of December 31, 2001 and 2000, respectively, the Company had accounts payable of approximately \$4 and \$108 to this company.

### 19. IMPACT OF RECENTLY-ISSUED ACCOUNTING STANDARDS

Statement of Financial Accounting Standards ("SFAS") No. 133, Accounting for Derivative Instruments and Hedging Activities ("FASB No. 133"), is effective commencing January 1, 2001. FASB No. 133 requires that all derivative instruments be recorded on the balance sheet at their fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is appropriately designated as part of a hedge transaction. Due to its limited use of derivative instruments, (none outstanding at December 31, 2000 and none transacted during 2001), the adoption of FASB No. 133 did not have a significant effect on the Company's financial position and results of operations for the year ended December 31, 2001, nor is it expected to materially impact future results of operations.

In July 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 141, Business Combinations which addresses financial accounting and reporting for business combinations. Effective July 1, 2001, all business combinations must be accounted for using the purchase method of accounting, which requires an allocation of the purchase price paid to the assets acquired and liabilities assumed. Additionally, this statement requires that an intangible asset be recognized as an asset apart from goodwill if it arises from contractual or legal rights. The impact of adopting this statement is not expected to be material to the Company's financial statements.

In July 2001, the FASB issued SFAS No. 142, Goodwill and Other Intangible Assets. This statement addresses financial accounting and reporting for intangible assets acquired, goodwill and other intangible assets after their acquisition. This statement requires that goodwill be allocated on a reporting unit level. A reporting unit is an operating segment, as defined in SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, or one level below an operating segment. Additionally, goodwill and intangible assets that have indefinite useful lives will not be amortized but rather will be tested at least annually for impairment at the reporting unit level. In addition, this statement requires disclosures about the carrying amount of and changes in goodwill from period to period. Goodwill and intangible assets

acquired after June 30, 2001 will be subject immediately to the provisions of this statement. The provisions are effective for fiscal years beginning after December 15, 2001. The impact of adopting this statement is not expected to be material to the Company's financial statements.

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which supercedes SFAS No. 121. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lower of book value or fair value less cost to sell. SFAS No. 144 retains the requirements of SFAS No. 121 regarding impairment loss recognition and measurement. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001. The impact of adopting this statement is not expected to be material to the Company's financial statements.
