2001 GENERAL STOCK OPTION PLAN

Available Information Regarding the Plan

A copy of the plan has been filed as an exhibit to our registration statement on Form S-8 (Registration No. 333-71054) filed with the SEC on October 5, 2001.

The following summaries of certain provisions of the plan are not complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the plan. See "Incorporation of Certain Documents by Reference." Copies of the plan and additional information regarding the plan and the plan's administrators may be obtained by contacting us at the address or telephone number listed on the cover page of this prospectus.

Purpose and Adoption of the Plan

The purpose of the plan is to attract and retain the best available talent and encourage the highest level of performance by directors and executive officers and other employees of Michaels and our subsidiaries and to provide them with incentives to put forth maximum efforts for the success of our business. Our board of directors adopted the plan effective as of August 20, 2001. The stockholders approved the adoption of the plan at the annual meeting of stockholders held on October 5, 2001.

Shares Available Under the Plan

A total of 3,000,000 shares of common stock are available for issuance under the plan. Shares of common stock issued under the plan may be authorized but unissued shares, shares held in treasury or a combination of both.

Description of Options Available Under the Plan

The plan authorizes the grant of options to purchase shares of common stock that are not intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, and which permit a participant to benefit from increases in the value of shares of common stock above a predetermined purchase price per share.

The exercise price of the options may not be less than the fair market value per share of the common stock on the grant date. Generally, options to purchase no more than 150,000 shares of common stock may be granted to any participant during any single calendar year; however, the plan does provide that options to purchase up to an additional 350,000 shares of common stock may be granted to a participant not previously employed by us or our subsidiaries upon such participant's initial employment. Payment for common stock purchased upon the exercise of an option may be made in cash or by check acceptable to us, by transfer to us of shares of common stock already owned by the participant for at least six months having a value on the business day immediately preceding the exercise date equal to the total exercise price, by deferred payment from the proceeds of sale through a bank or broker of some or all of the shares to which such exercise relates, by any other legal consideration acceptable to the administrators of the plan, or a combination of any of the foregoing. However, payment by the transfer of common stock to us will not be available at any time during which we are prohibited from purchasing or acquiring shares of common stock.

The plan does not require that a participant hold the shares received on the exercise of options for a specified period.

The administrators of the plan may, without the consent of the holder of an option, amend any option agreement in various respects, including to expand or limit the payment methods, to waive any condition or restriction applicable to the option or exercise of the option, or to

expand the events that would constitute a change of control.

Plan Administration

Unless administration of the plan has been expressly assumed by the board of directors pursuant to a resolution of the board of directors, the plan will be administered by a committee of the board of directors whose members are appointed and may be removed by the board of directors from time to time. All of the members of the committee, which may not be less than two, are intended to qualify as "outside directors" within the meaning of Section 162(m) of the Internal Revenue Code and as "Non-Employee Directors" within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934.

The committee has the authority to decide which executive officers and other employees of Michaels and our subsidiaries will receive option grants and the number of shares of common stock to be covered by each option. Grants of options to our directors (both employee and non-employee) will be automatic pursuant to a formula plan and commenced beginning at our 2001 annual meeting of stockholders. On the date of first election to our board of directors, if such election is not at an annual meeting of our stockholders, and immediately after each annual meeting of our stockholders, each director will be granted stock options to purchase 17,500 shares of common stock.

The committee has the full authority and discretion to administer the plan and to take any action that is necessary or advisable in connection with the administration of the plan. The interpretation and construction by the committee of any provision of the plan and any determination by the committee pursuant to any provision of the plan, or of any agreement, notification or document evidencing the grant of a stock option, will be final and conclusive.

Persons Eligible to Receive Options

Executive officers and other employees of Michaels and our subsidiaries and our directors are eligible to receive grants of options under the plan.

Transferability of Options

Options granted under the plan will be subject to any transfer restrictions, if any, that the committee may impose in granting the options.

Adjustments to Shares Available Under the Plan

The committee or the board of directors will make or provide for adjustments in the maximum number of shares available under the plan, the number of shares of common stock covered by outstanding options, the purchase price per share of common stock covered by options, and/or the kind of shares covered (including shares of another issuer), as they may determine is equitably required to prevent dilution or enlargement of the rights of participants under certain circumstances. Such circumstances include any stock dividend, stock split, combination of shares, recapitalization or other change in our capital structure, merger, consolidation, spin-off, reorganization, partial or complete liquidation, issuance of rights or warrants to purchase securities or any other corporate transaction or event having an effect similar to any of the foregoing. Additionally, if such a transaction or event occurs, the committee or the board of directors may provide in substitution for outstanding options such consideration as they determine to be equitable under the circumstances and may require in connection with such substitution the surrender of the options so replaced.

Vesting and Termination of Options

Each stock option granted to our directors pursuant to the formula plan will vest on the date of grant and any unexercised options will expire on the calendar day immediately preceding the fifth anniversary of the grant date. However, in the event a director dies, any unexpired and unexercised options on the date of the director's death will expire on the calendar day immediately preceding the third anniversary of the director's death.

Generally, each option granted to executive officers and other employees of Michaels and our subsidiaries vests one-third on the first anniversary of the grant date, one-third on the second anniversary of the grant date and one-third on the third anniversary of the grant date, and expires on the calendar day immediately preceding the fifth anniversary of the grant date.

However, in the event of termination of employment by reason of a participant's retirement at or after the age of 60, long-term disability (as determined by the committee in good faith) or death, each outstanding option held by the participant will immediately vest, to the extent not vested, and become fully exercisable, and will expire (a) in the case of retirement or long-term disability, on the calendar day immediately preceding the fifth anniversary of such termination date, and (b) in the case of death, on the calendar day immediately preceding the third anniversary of death. If a participant's employment is terminated for any other reason, the unvested portion of each outstanding option granted to the participant will terminate immediately, and the vested portion of each outstanding option granted to the participant will expire on the 30th calendar day following the date of such termination.

Generally, upon a change of control, as defined in the plan, each outstanding option will vest and be fully exercisable and, subject to certain exceptions in the plan, will remain exercisable until the term of the option expires.

Nonqualified and Unfunded Status of the Plan

The plan is unfunded and does not give participants any rights that are superior to those of our general creditors. The plan is not subject to the provisions of ERISA and is not qualified under Section 401(a) of the Internal Revenue Code.

No Rights to Continued Employment

The plan does not confer upon any participant any right to continued employment or other service with us or any of our subsidiaries and does not interfere in any way with any right that we or any of our subsidiaries would otherwise have to terminate a participant's employment or other service at any time.

Termination and Amendment of the Plan

The plan may be terminated at any time by action of the board of directors. The termination of the plan will not adversely affect the terms of any outstanding options. The plan may be amended by the board of directors or any duly authorized committee of the board of directors. Such amendments may include changes required or permitted by the Internal Revenue Service, the SEC, the National Association of Securities Dealers, Inc., any stock exchange upon which the common stock is listed for trading, or any other governmental or quasi-governmental agency having jurisdiction over us. Any amendment to the plan which removes or lessens any restrictions on options will apply to all options then outstanding.

Nature and Frequency of Reports

Other than the agreement evidencing a grant of options, we do not intend to provide participants with updates as to the number of options granted, and status of such grants, under the plan.

FEDERAL INCOME TAX CONSEQUENCES

General

Certain U.S. federal income tax consequences of the grant, exercise or transfer of options, and the subsequent sale of shares acquired upon the exercise of options, are summarized below. This summary is based on the Internal Revenue Code, as amended to date, applicable proposed and final Treasury Regulations, judicial authority and current administrative rulings and practice, all of which are subject to change. This summary does

not attempt to describe all of the possible tax consequences that could result from the acquisition, holding, exercise or disposition of an option or the shares of common stock purchased upon the exercise of an option.

Because the tax consequences to a plan participant under the plan may vary depending on his or her individual circumstances, each plan participant should consult his or her personal tax advisor regarding the federal and any state, local or foreign tax consequences to him or her.

Recognition of Income; Tax Withholding

Options granted under the plan are intended to be nonqualified stock options. Nonqualified stock options generally will not result in any taxable income to the plan participant at the time of the grant, but the plan participant will realize ordinary income at the time of exercise of the options if the shares are not subject to any substantial risk of forfeiture (as defined in Section 83 of the Internal Revenue Code). Under such circumstances, the amount of ordinary income is measured by the excess of the fair market value of the optioned shares at the time of exercise over the exercise price. Such income is subject to payment and withholding of income, FICA and Medicare taxes and other applicable employment taxes.

Tax Basis in Shares Acquired; Gain or Loss on Disposition

A plan participant's tax basis in shares acquired upon the exercise of nonqualified stock options is generally equal to the exercise price plus any amount treated as ordinary income at the time of exercise. If shares acquired upon exercise of an option are later sold or exchanged, the difference between the sales price and the plan participant's tax basis in the shares will generally be taxable as a capital gain or loss (if the stock is a capital asset of the participant). The deductibility of capital losses is subject to certain limitations which are not addressed herein.

Payment of Exercise Price with Shares

If the exercise price of a nonqualified stock option is paid for, in whole or in part, by the delivery of shares of common stock previously owned by the plan participant, no gain or loss will be recognized on the exchange of the previously owned shares of common stock for a like number of shares of common stock. The plan participant's basis in the number of shares received equal to the number of previously owned shares of common stock surrendered would be the same as the plan participant's basis in the previously owned shares of common stock. However, the plan participant would be treated as receiving ordinary income equal to the fair market value (at the time of exercise) of the number of shares of common stock received in excess of the number of previously owned shares of common stock surrendered, and the plan participant's basis in such excess shares would be equal to their fair market value at the time of exercise.

Federal Tax Consequences for Transferors

A plan participant who transfers a transferable option by way of gift will not recognize income at the time of the transfer. Instead, at the time the transferee exercises the transferable option, the transferor of such transferable option will generally recognize ordinary compensation income in an amount equal to the excess of the fair market value of the shares purchased by the transferee over the exercise price of the related option, in the same manner as if the transferor had retained and exercised the option. If a transfer constitutes a completed gift for gift tax purposes, then such transfer will be subject to federal gift tax except, generally, to the extent protected by the individual's annual exclusion, by his or her lifetime unified credit or by the marital deduction. The amount of the gift is the value of the option at the time of the gift. If the transfer of the option constitutes a completed gift and the transferor retains no interest in or power over the option after the transfer, the option generally will not be included in his or her gross estate for federal estate tax purposes. Prior to making a transfer of a transferable option, a plan participant should consult with his or her personal tax advisor concerning the possible federal and state gift, estate, inheritance, and generation skipping tax consequences of such a transfer, as well as state and local income tax consequences which are not addressed herein.

Edgar Filing: MICHAELS STORES INC - Form S-3

To the extent that a participant recognizes ordinary income in the circumstances described above, Michaels or a subsidiary would be entitled to a corresponding federal income tax deduction, provided in general that (a) the amount is an ordinary and necessary business expense and such income meets the test of reasonableness, (b) the deduction is not disallowed pursuant to the annual compensation limit set forth in Section 162(m) of the Internal Revenue Code, and (c) certain statutory provisions relating to so-called "excess parachute payments" do not apply. Awards granted under the plan may be subject to acceleration in the event of a change in control of Michaels. Therefore, it is possible that these change in control features may affect whether amounts realized upon the receipt or exercise of options will be deductible by Michaels under the "excess parachute payments" provisions of the Internal Revenue Code.

PLAN OF DISTRIBUTION

Upon the exercise of options we will issue shares directly to or for the benefit of plan participants (or their permitted transferees) exercising such options. The shares acquired upon the exercise of options may be sold or otherwise disposed of from time to time in one or more transactions through any one or more of the following:

to purchasers directly;

in ordinary brokerage transactions and transactions in which the broker solicits purchasers;

through underwriters or dealers who may receive compensation in the form of underwriting discounts, concessions or commissions from the persons eligible to offer and sell shares pursuant to the registration statements and this prospectus or from the purchasers of the shares for whom they may act as agent;

the pledge of the shares as security for any loan or obligation, including pledges to brokers or dealers who may, from time to time, themselves effect distributions of the shares or interests therein;

purchases by a broker or dealer as principal and resale by such broker or dealer for its own account pursuant to this prospectus;

a block trade in which the broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction; and

an exchange distribution in accordance with the rules of such exchange, including, without limitation, the New York Stock Exchange, or in transactions in the over the counter market.

Such sales may be made at then-current prices, at prices related to the then-current market prices or at negotiated prices. In effecting sales, brokers or dealers may arrange for other brokers or dealers to participate. The persons eligible to offer and sell shares pursuant to the registration statements and this prospectus or their successors in interest, and any underwriters, brokers, dealers or agents that participate in the distribution of the shares, may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, and any profit on the sale of the shares by them and any discounts, commissions or concessions received by any such underwriters, brokers, dealers or agents may be deemed to be underwriting commissions or discounts under the Securities Act. In addition, any of the shares covered by this prospectus which qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

We will pay all of the expenses in connection with the offering contemplated by this prospectus other than underwriting discounts or commissions, brokers' fees and the fees and expenses of any legal counsel to the persons eligible to offer and sell shares pursuant to the registration statements and this prospectus.

Item 15. *Indemnification of Directors and Officers.*

Edgar Filing: MICHAELS STORES INC - Form S-3

Our certificate of incorporation limits the liability of our directors to the maximum extent permitted by Delaware law. Delaware law provides that a director of a corporation will not be personally liable for monetary damages for breach of that individual's fiduciary duties as a director except for liability for (a) a breach of the director's duty of loyalty to the corporation or its stockholders, (b) any act or omission not in good faith or that involves intentional misconduct or a knowing violation of the law, (c) unlawful payments of dividends or unlawful stock repurchases or redemptions, or (d) any transaction from which the director derived an improper personal benefit.

This limitation of liability does not apply to liabilities arising under federal securities laws and does not affect the availability of equitable remedies such as injunctive relief or rescission.

Section 145 of the Delaware General Corporation Law provides that a corporation may indemnify directors and officers, as well as other employees and individuals, against attorneys' fees and other expenses, judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with any threatened, pending or completed actions, suits or proceedings in which such person was or is a party or is threatened to be made a party by reason of such person being or having been a director, officer, employee or agent of the corporation or serving at the request of a corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. The Delaware General Corporation Law provides that Section 145 is not exclusive of other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors, or otherwise.

Our certificate of incorporation requires that we indemnify our directors and officers, and any other person who is or was serving at our request as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, to the fullest extent permitted by Delaware law. Our certificate of incorporation also requires that we advance expenses incurred by such a person in connection with the defense of any action or proceeding arising out of that persons' status or service to us. Our bylaws require that we indemnify our directors and officers to the fullest extent permitted by the Delaware law and may, if and to the extent authorized by our board of directors, so indemnify our officers and any other person whom we have the power to indemnify against any liability, expense or other matter whatsoever. In addition, we have entered into indemnity agreements with certain of our officers and directors.

II-1

As authorized by our certificate of incorporation, we have procured insurance that purports (a) to insure us against certain costs of indemnification that may be incurred by us pursuant to the provisions referred to above or otherwise and (b) to insure our directors and officers against certain liabilities incurred by them in the discharge of their functions as directors and officers except for liabilities arising from their own malfeasance.

Item 17. *Undertakings.*

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of a prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in this registration statement;

provided, however, that paragraphs (1)(i) and (1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

Edgar Filing: MICHAELS STORES INC - Form S-3

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
