John A. Hill and
George Putnam, III

Dear Fellow Shareholder:

The value of Putnam Premier Income Trust's strategy of diversification that we have noted in previous reports was demonstrated once again for the full fiscal year that ended on July 31, 2003. The fund's performance was driven by two significant trends during the period. Early in the year, falling interest rates and a preference for higher-quality bonds boosted prices among the fund's investment-grade holdings. The second trend, which began in mid-October 2002, was an improving credit cycle. This helped the fund's higher-yielding, lower-quality holdings outperform. Management's decision to increase the fund's exposure to this segment of the market early in the cycle contributed to strong results.

The fund's exposure to lower-rated, higher-yielding bonds was less than that of its peer group, dampening the fund's results versus its Lipper category average. You will find the details on the facing page. As far as we are concerned, however, the relative stability provided by this mix of quality and opportunity is a worthwhile tradeoff over the long term.

Meanwhile, it is heartening now to see signs that one of the most challenging periods in recent investment history may at last be ending. What we told you at the beginning of this fiscal year bears repeating here. We deeply appreciate your continued confidence in Putnam and we firmly believe that over the long haul your patience will be rewarded.

Respectfully yours,

/S/ JOHN A. HILL

/S/ GEORGE PUTNAM, III

Report from Fund Management

Fund highlights

- * Putnam Premier Income Trust had a total return of 17.61% at net asset value for the fiscal year ended July 31, 2003. The fund's return at market price was 13.41%.
- * Declining yields across all fixed-income sectors prompted management to recommend a reduction in the fund's dividend, which occurred in April 2003.
- * Differences in portfolio composition caused the fund to underperform the average return for the Lipper Flexible Income Funds (Closed-End) category, which was 18.88%.
- * The fund's strategy of investing in high-yield corporate and emerging-market debt helped it to significantly outperform its benchmark, the Lehman Government Bond Index, which returned 4.45% during the fund's fiscal year. Additional comparisons, many of which more closely track the fund's performance over this period, appear on page 2.
- * See the Performance Summary on page 8 for complete fund performance, comparative performance, and Lipper data.

Performance commentary

The fund's robust total return and solid comparative results versus its benchmark were due primarily to its emphasis on higher-yielding, lower-rated bonds -- such as U.S. high-yield corporate bonds as well as sovereign debt issued by emerging-market countries -- while limiting exposure to investment-grade bonds during the period. Higher-yielding, lower-rated fixed-income sectors turned in exceptionally strong results from mid-October 2002 through period end, significantly outperforming higher-rated debt as investors' appetite for higher-risk asset classes returned. We attribute the fund's modest underperformance versus its Lipper universe to lower weightings in these riskier asset categories than the average fund in the peer group. The fund's exposure to foreign government bonds also contributed positively to results. The fund's lower performance at market price is attributable to reduced investor demand following the April dividend reduction.

FUND PROFILE

Putnam Premier Income Trust is designed for investors seeking a high level of current income. The fund maintains flexibility across three sectors -- U.S. government and agencies, high-yield corporate, and international -- to seek maximum current income without undue risk to capital. The fund may be appropriate for investors seeking a higher level of income who can accept a moderately higher level of risk.

Market overview

The fund's fiscal year results should be considered in the context of an

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

extraordinarily favorable environment for bond performance across all sectors. The war in Iraq, SARS-related fears, and a negative economic climate drove bond yields to historic lows worldwide, significantly driving up bond prices, which move in the opposite direction to yields. Governments and central banks redoubled their efforts to revitalize the sluggish global economy with additional fiscal and monetary easing, which improved investor morale.

Supported by investor demand for yield and improving issuer fundamentals, corporate bonds led the investment-grade market during the period, after a dismal performance in the second half of 2002. The securitized sector, which includes various types of mortgage-backed securities (e.g. Ginnie Maes), as well as asset-backed securities (ABSs), also advanced, although performance was undercut by mortgage-backed securities (MBSs), which were hurt by mortgage prepayments. ABSs performed well in the second half of the period. Beginning in October 2002 and continuing through period end, falling default rates and increasing optimism about growth prospects for the second half of 2003 convinced high-yield investors that the credit cycle was turning in their favor. Following the lead of high-yield bonds, emerging-market debt rallied as investors' risk tolerance and appetite for yield increased.

In the final month of the period, bond market conditions changed abruptly. Improved prospects for an upturn in the economic cycle and a quickly increasing U.S. federal budget deficit made bonds less attractive to both domestic and non-U.S. investors. The bond market sell-off that resulted drove yields up and prices down rapidly across all bond sectors.

MARKET SECTOR PERFORMANCE 12 MONTHS ENDED 7/31/03

Bonds

Lehman Government Bond Index	4.45%
Citigroup Non-U.S. World Government Bond Index	14.19%
JP Morgan Global High Yield Index	22.23%
JP Morgan Emerging Markets Bond Index	32.89%

Equities

S&P 500 Index (broad stock market)	10.64%

Russell 2000 Index (small-company stocks)	23.11%

These indexes provide an overview of performance in different market sectors for the 12 months ended 7/31/03.

Strategy overview

Putnam Premier Income Trust's multisector strategy served it well during the fiscal year. It provided us with the flexibility to pursue the most attractive fixed-income opportunities in a period when substantial changes in investor sentiment drove significantly different returns

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

across fixed-income sectors.

Early in the period, the fund's allocation to investment-grade corporate bonds contributed to returns as investors preferred the relative security of these higher-quality bonds amid declining equity markets and geopolitical uncertainty. In mid October, however, constructive fiscal and monetary policies combined with easing geopolitical tension and compelling valuations to shift investor focus to lower-rated higher-yielding sectors. With yields in these sectors near historic highs and fundamentals finally poised to improve, we believed that this nascent rally had momentum behind it. Consequently, we began to rotate assets out of investment-grade securities and into high-yield corporate and emerging-market debt. This reallocation proved timely as the rally in these sectors extended through June.

The fund's investment in high-yield corporate and emerging-market debt was funded by the sale of mortgage-backed securities, which we believed would continue to come under pressure due to mortgage prepayments in a persistently low interest-rate environment. We also sold U.S. government and agency securities, reasoning that they were unlikely to benefit further from interest-rate declines. For most of the period, we favored foreign investment-grade securities over their U.S. counterparts.

[GRAPHIC OMITTED: horizontal bar chart FUND SECTOR WEIGHTINGS COMPARED]

FUND SECTOR WEIGHTINGS COMPARED

	as of 1/31/03	as of 7/31/03
U.S. investment grade	34.5%	27.1%
Corporate high yield	44.2%	50.1%
Foreign investment grade	13.9%	13.3%
Emerging markets	7.5%	9.6%

Footnote reads:

This chart shows how the fund's sector weightings have changed over the past six months. Weightings are shown as a percentage of market value. Holdings will vary over time.

How allocations affected performance

In the U.S. investment-grade sector, the fund benefited from its allocation to corporate bonds, which outperformed all other segments within this sector. Investors were drawn to investment-grade corporate bonds not only as a source of yield as interest rates fell, but also in response to companies' focus on debt and cost reduction, which increased the bonds' attractiveness. The fund's selective exposure to investment-grade securitized debt also contributed positively as this market segment outperformed U.S. Treasuries. (The fund's holdings in the securitized sector consist primarily of mortgage-backed securities (MBSs), commercial mortgage-backed securities (CMBSs), asset-backed securities (ABSs), and collateralized mortgage obligations (CMOs).) Our strategy of emphasizing high-coupon MBSs and CMBSs helped performance, while holdings of ABSs hurt performance, as this segment was negatively affected by the struggles of two major manufactured housing financiers (Conseco and Greentree) in late 2002.

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

In the corporate high-yield sector, we consolidated the fund's positions, while still maintaining a high level of diversification. We also sought to reduce exposure to callable bonds. Call risk, which is the risk that a bond issuer may redeem outstanding bonds before their scheduled maturity, became a significant factor as bond issuers chose to take advantage of declining yields to refinance their debt at lower rates. Within industry sectors, large holdings in wireless communications, diversified media, and broadcasting were top performers in the market rally. Cable holdings also contributed positively to performance.

[GRAPHIC OMITTED: horizontal bar chart TOP INDUSTRY WEIGHTINGS AS OF 7/31/03]

TOP INDUSTRY WEIGHTINGS AS OF 7/31/03

Consumer staples	8.7%
Basic materials	5.4%
Capital goods	5.2%
Communications services	5.0%
Energy	4.4%

Footnote reads:

Weightings are shown as a percentage of market value and are an aggregate of both investment-grade and high-yield corporate bond exposures. Holdings will vary over time.

For the fund's foreign investment-grade holdings, we emphasized higher-yielding European sovereign debt (e.g., Sweden) where yields had considerably more room to fall than in the United States. Bonds issued by Canada and New Zealand were also favored because we believed that these countries had prematurely boosted rates at the onset of the economic recovery. These strategies benefited the fund as rates declined more significantly in all of these countries amid the global bond market rally. In addition, the fund benefited from our currency strategy, which correctly anticipated U.S. dollar and Japanese yen weakness as well as the relative strength of the euro, U.K. pound sterling, and Canadian and Australian dollars.

While the fund did benefit from its emerging-market debt holdings, our strategy may have been too conservative within the sector, given the breadth and strength of the rally. Some of the situations that most concerned us -- the economic policies of the newly elected Brazilian president, for example -- played out better than we had anticipated. Nevertheless, the fund's exposure to Russia proved advantageous. Russian government bonds were strong performers as windfall oil exporting revenues accumulated in government coffers. Please note that all holdings discussed in this report are subject to review in accordance with the fund's investment strategy and may vary in the future.

OF SPECIAL INTEREST

In April 2003 the fund's monthly distribution was reduced from \$0.045 to \$0.039 per share. This reduction was prompted by declining yields across all fixed-income sectors over the course of the prolonged bond-market rally. In addition, many issuers called bonds and many mortgages were prepaid, requiring the fund to reinvest at lower rates.

The fund's management team

The fund is managed by the Putnam Core Fixed-Income Team. The members of the team are D. William Kohli (Portfolio Leader), David Waldman (Portfolio Member), Carl Bell, Rob Bloemker, Andrea Burke, Kevin Cronin, Steve Horner, James Prusko, Michael Salm, and John Van Tassel.

The outlook for your fund

The following commentary reflects anticipated developments that could affect your fund over the next six months, as well as your management team's plans for responding to them.

The abrupt and significant increase in interest rates over the last six weeks of the reporting period has shifted our valuation perspective on bonds. As of the end of the period, we believed markets had become prematurely confident that a lasting global economic recovery was already underway. Yields on 10-year Treasuries had climbed too high and we believe they should stabilize in coming months. We have consequently moved from an underweight in Treasuries toward a more neutral weighting in our multisector portfolio. Elsewhere in the U.S. investment-grade sector, we are currently neutral with regard to investment-grade corporate bonds. While fundamentals continue to improve, investors have already recognized this improvement, so valuations of investment-grade corporate bonds are no longer attractive. Mortgage-backed securities (MBSs) typically fare poorly in rising interest-rate environments, and the past six weeks have been no exception. We believe this sector now looks attractive on a relative valuation basis and we are poised to take advantage of opportunities in it.

As fiscal 2004 begins, high-yield corporates remain attractive in our view. Although their yield spread versus Treasuries, a traditional measure of valuation, has moved closer to historical averages, we believe that the positive cycle for this asset class has more room to run based on continuing improvement in fundamentals, declining default rates, and sustained demand among investors for higher yields.

While we still prefer higher-yielding European government debt to U.S. Treasury bonds, the recent outperformance in Europe prompted us to trim

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

these holdings and increase our U.S. Treasury exposure somewhat. New Zealand and Sweden, where we anticipate improving spreads, are two of our favorite markets. Our view on emerging markets is less positive. The increase in U.S. Treasury yields, diminishing inflows, and an upsurge in lower-quality issuance all suggest that the market is too rich at current levels. From a country selection standpoint, we continue to favor Russia and Peru.

The management team believes that the fund's diverse portfolio, flexible strategy, and focus on risk management will continue to serve it well.

The views expressed in this report are exclusively those of Putnam Management. They are not meant as investment advice. International investing involves certain risks, such as currency fluctuations, economic instability, and political developments. Additional risks may be associated with emerging-market securities, including illiquidity and volatility. Lower-rated bonds may offer higher yields in return for more risk. Mutual funds that invest in government securities are not guaranteed. Mortgage-backed securities are subject to prepayment risk.

Performance summary

This section provides information about your fund's performance during its fiscal year, which ended July 31, 2003. In accordance with regulatory requirements, we also include performance for the most current calendar quarter-end. Performance should always be considered in light of a fund's investment strategy. Past performance does not indicate future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate and you may have a gain or a loss when you sell your shares. A profile of your fund's strategy appears on the first page of this report. See page 9 for definitions of some terms used in this section.

Terms and definitions

Total return shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the value of all your fund's assets, minus any liabilities divided by the number of outstanding common shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on the New York Stock Exchange.

Comparative indexes

Citigroup (formerly Salomon Smith Barney) Non-U.S. World Government Bond Index is an unmanaged index of government bonds from representative developed countries excluding the United States.

Credit Suisse First Boston (CSFB) High Yield Index is an unmanaged index of high-yield debt securities.

JP Morgan Global High Yield Index is an unmanaged index used to mirror the investable universe of the U.S. dollar global high-yield corporate debt market of both developed and emerging markets.

JP Morgan Emerging Markets Bond Index is an unmanaged index used to mirror the investable universe of the external debt instruments in the emerging markets including external currency denominated Brady bonds, loans and Eurobonds, as well as U.S. dollar local market instruments.

Lehman Government Bond Index is an unmanaged index of U.S. Treasury and agency securities.

Morgan Stanley Capital International (MSCI) EAFE Index is an unmanaged index of international stocks from Europe, Australasia, and the Far East.

Russell 2000 Index is an unmanaged index of common stocks that generally measure performance of small to midsize companies within the Russell 3000 Index.

S&P 500 Index is an unmanaged index of common stock performance.

Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

Lipper Inc. is a third-party industry ranking entity that ranks funds (without sales charges) with similar current investment styles or

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

objectives as determined by Lipper. Lipper category averages reflect performance trends for funds within a category and are based on results at net asset value.

Putnam's policy on confidentiality

In order to conduct business with our shareholders, we must obtain certain personal information such as account holders' addresses, telephone numbers, Social Security numbers, and the names of their financial advisors. We use this information to assign an account number and to help us maintain accurate records of transactions and account balances.

It is our policy to protect the confidentiality of your information, whether or not you currently own shares of our funds, and in particular, not to sell information about you or your accounts to outside marketing firms. We have safeguards in place designed to prevent unauthorized access to our computer systems and procedures to protect personal information from unauthorized use.

Under certain circumstances, we share this information with outside vendors who provide services to us, such as mailing and proxy solicitation. In those cases, the service providers enter into confidentiality agreements with us, and we provide only the information necessary to process transactions and perform other services related to your account. We may also share this information with our Putnam affiliates to service your account or provide you with information about other Putnam products or services. It is also our policy to share account information with your financial advisor, if you've listed one on your Putnam account.

If you would like clarification about our confidentiality policies or have any questions or concerns, please don't hesitate to contact us at 1-800-225-1581, Monday through Friday, 8:30 a.m. to 7:00 p.m., or Saturdays from 9:00 a.m. to 5:00 p.m. Eastern Time.

Putnam is committed to managing our mutual funds in the best interests of our shareholders. Our proxy voting guidelines and policies are available on the Putnam Individual Investor Web site, www.putnaminvestments.com, by calling Putnam's Shareholder Services at 1-800-225-1581, or on the SEC's Web site, www.sec.gov.

A guide to the financial statements

These sections of the report, as well as the accompanying Notes, preceded by the Independent Auditors' Report, constitute the fund's financial statements.

The fund's portfolio lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the net assets

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

allocated to remarketed preferred shares.)

Statement of operations shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings -- from dividends and interest income -- and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings -- as well as any unrealized gains or losses over the period -- is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal year.

Statement of changes in net assets shows how the fund's net assets were affected by distributions to shareholders and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period. For open-end funds, a separate table is provided for each share class.

Independent auditors' report

The Board of Trustees and Shareholders
Putnam Premier Income Trust:

We have audited the accompanying statement of assets and liabilities of Putnam Premier Income Trust, including the fund's portfolio, as of July 31, 2003, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2003 by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Putnam Premier Income Trust as of July 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

ended, in conformity with accounting principles generally accepted in the United States of America.

Notes to financial statements
July 31, 2003

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

Note 1

Significant accounting policies

Putnam Premier Income Trust ("the fund"), is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The fund's investment objective is to seek high current income by allocating its investments among the U.S. government sector, the high yield sector and the international sector of the fixed-income securities market.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The fund invests in higher yielding, lower rated bonds that have a higher rate of default due to the nature of the investments. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A) Security valuation Investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange, or official closing price for certain markets. If no sales are reported -- as in the case of some securities traded over-the-counter -- a security is valued at its last reported bid price. Market quotations are not considered to be readily available for certain debt obligations; such investments are valued at market value on the basis of valuations furnished by an independent pricing service or dealers, approved by the Trustees. Such services or dealers determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships, generally recognized by institutional traders, between securities. For foreign investments, if trading or events occurring in other markets after the close of the principal exchange in which the securities are traded are expected to materially affect the value of the investments, then those investments are valued, taking into consideration these events, at their fair value following procedures approved by the Trustees. Securities quoted in foreign currencies are translated into U.S. dollars at the current exchange rate. Short-term investments having remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value. Other investments, including restricted securities, are valued at fair value following procedures approved by the Trustees. Such valuations and procedures are reviewed periodically by the Trustees.

B) Joint trading account The fund may transfer uninvested cash balances, including cash collateral received under security lending arrangements, into a joint trading account along with the cash of other registered investment companies and certain other accounts managed by Putnam Investment Management, LLC ("Putnam Management"), the fund's manager, an indirect wholly-owned subsidiary of Putnam, LLC. These balances may be invested in issuers of high-grade short-term investments having maturities of up to 397 days for collateral received under security lending arrangements and up to 90 days for other cash investments.

C) Repurchase agreements The fund, or any joint trading account, through its custodian, receives delivery of the underlying securities, the market value of which at the time of purchase is required to be in an amount at least equal to the resale price, including accrued interest. Collateral for certain tri-party repurchase agreements is held at the

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

counterparty's custodian in a segregated account for the benefit of the fund and the counterparty. Putnam Management is responsible for determining that the value of these underlying securities is at all times at least equal to the resale price, including accrued interest.

D) Security transactions and related investment income Security transactions are recorded on the trade date (date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend. Non-cash dividends, if any, are recorded at the fair market value of the securities received.

All premiums/discounts are amortized/accreted on a yield-to-maturity basis.

E) Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The market value of foreign securities, currency holdings, and other assets and liabilities are recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when earned or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on closed forward currency contracts, disposition of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of open forward currency contracts and assets and liabilities other than investments at the period end, resulting from changes in the exchange rate. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations, not present with domestic investments.

F) Forward currency contracts The fund may buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the U.S. dollar of the currencies in which its portfolio securities are denominated or quoted (or an increase in the value of a currency in which securities a fund intends to buy are denominated, when a fund holds cash reserves and short term investments). The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked to market daily and the change in market value is recorded as an unrealized gain or loss. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Forward currency contracts outstanding at

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

period end are listed after The fund's portfolio.

G) Futures and options contracts The fund may use futures and options contracts to hedge against changes in the values of securities the fund owns or expects to purchase. The fund may also write options on securities it owns or in which it may invest to increase its current returns.

The potential risk to the fund is that the change in value of futures and options contracts may not correspond to the change in value of the hedged instruments. In addition, losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, or if the counterparty to the contract is unable to perform. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Realized gains and losses on purchased options are included in realized gains and losses on investment securities.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The fund and the broker agree to exchange an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin." Exchange traded options are valued at the last sale price, or if no sales are reported, the last bid price for purchased options and the last ask price for written options. Options traded over-the-counter are valued using prices supplied by dealers. Futures and written option contracts outstanding at period end are listed after The fund's portfolio.

H) Total return swap contracts The fund may enter into total return swap contracts, which are arrangements to exchange a market linked return for an interest payment, both based on a notional principal amount. To the extent that the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the fund will receive a payment from or make a payment to the counterparty, respectively. Total return swap contracts are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments received or made at the end of the measurement period are recorded as realized gains or losses. The fund could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or in the price of the underlying security or index, the possibility that there is no liquid market for these agreements or that the counterparty may default on its obligation to perform. Total return swap contracts outstanding at period end are listed after The fund's portfolio.

I) Interest rate swap contracts The fund may enter into interest rate swap contracts, which are arrangements between two parties to exchange cash flows based on a notional principal amount, to manage the fund's exposure to interest rates. Interest rate swap contracts are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments made or received are recognized as part of interest income. A portion of the payments received or made upon early termination are recognized as realized gain or loss. The fund could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or if the counterparty defaults on its obligation to perform. Interest rate swap contracts outstanding at period end are listed after The fund's portfolio.

J) Credit default contracts The fund may enter into credit default

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

contracts where one party, the protection buyer, makes an upfront payment to a counter party, the protection seller, in exchange for the right to receive a contingent payment as a result of a credit event related to a specified security or index. The upfront payment received by the fund, as the protection seller, is recorded as a liability on the fund's books. The credit default contracts are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments received or made as a result of a credit event or termination of the contract are recognized, net of a proportional amount of the upfront payment, as realized gains or losses. In addition to bearing the risk that the credit event will occur, the fund could be exposed to market risk due to unfavorable changes in interest rates or in the price of the underlying security or index, the possibility that the fund may be unable to close out its position at the same time or at the same price as if it had purchased comparable publicly traded securities or that the counterparty may default on its obligation to perform. Credit default contracts outstanding at period end are listed after The fund's portfolio.

K) TBA purchase commitments The fund may enter into "TBA" (to be announced) commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalized. However, the amount of the commitments will not significantly differ from the principal amount. The fund holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the fund may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities themselves, and involve a risk of loss if the value of the security to be purchased declines prior to the settlement date, which risk is in addition to the risk of decline in the value of the fund's other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities, according to the procedures described under "Security valuation" above.

Although the fund will generally enter into TBA purchase commitments with the intention of acquiring securities for its portfolio or for delivery pursuant to options contracts it has entered into, the fund may dispose of a commitment prior to settlement if Putnam Management deems it appropriate to do so.

L) TBA sale commitments The fund may enter into TBA sale commitments to hedge its portfolio positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

Unsettled TBA sale commitments are valued at the current market value of the underlying securities, generally according to the procedures described under "Security valuation" above. The contract is "marked-to-market" daily and the change in market value is recorded by the fund as an unrealized gain or loss. If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the fund realizes a gain or loss. If the fund delivers securities under the commitment, the fund realizes a gain or a loss from the sale of the securities based upon the unit price established at the date the commitment was entered into. TBA sale commitments outstanding at period

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

end are listed after The fund's portfolio.

M) Security lending The fund may lend securities, through its agents, to qualified borrowers in order to earn additional income. The loans are collateralized by cash and/or securities in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The risk of borrower default will be borne by the fund's agents; the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending is included in investment income on the Statement of operations. At July 31, 2003, the value of securities loaned amounted to \$49,338. The fund received cash collateral of \$65,225, which is pooled with collateral of other Putnam funds into 30 issuers of high-grade short-term investments.

N) Federal taxes It is the policy of the fund to distribute all of its taxable income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Internal Revenue Code of 1986, as amended. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At July 31, 2003, the fund had a capital loss carryover of \$234,718,499 available to the extent allowed by tax law to offset future net capital gains, if any. The amount of the carryover and the expiration dates are:

Loss Carryover	Expiration
\$39,893,260	July 31, 2007
44,857,570	July 31, 2008
24,930,247	July 31, 2009
44,917,486	July 31, 2010
80,119,936	July 31, 2011

Pursuant to federal income tax regulations applicable to regulated investment companies, the fund has elected to defer to its fiscal year ending July 31, 2004 \$2,541,873 of losses recognized during the period November 1, 2002 to July 31, 2003.

O) Distributions to shareholders Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences include temporary and permanent differences of losses on wash sale transactions, post-October loss deferrals, dividends payable, defaulted bond interest, realized and unrealized gains and losses on certain futures contracts, market discount and interest on payment-in-kind securities. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations. For the year ended July 31, 2003, the fund reclassified \$21,127,007 to decrease distributions in excess of net investment income and \$123,243 to increase paid-in-capital, with an increase to accumulated net realized losses of \$21,250,250.

The tax basis components of distributable earnings and the federal tax

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

cost as of period end were as follows:

Unrealized appreciation	\$52,218,623
Unrealized depreciation	(81,715,125)

Net unrealized depreciation	(29,496,502)
Undistributed ordinary income	21,457,186
Capital loss carryforward	(234,718,499)
Post-October loss	(2,541,873)
Cost for federal income tax purposes	\$1,002,873,499

Note 2

Management fee, administrative
services and other transactions

Putnam Management is paid for management and investment advisory services quarterly based on the average net assets of the fund. Such fee is based on the following annual rates: 0.75% of the first \$500 million of average weekly net assets, 0.65% of the next \$500 million, 0.60% of the next \$500 million and 0.55% thereafter.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by Putnam Fiduciary Trust Company (PFTC), a subsidiary of Putnam, LLC. Investor servicing agent functions are provided by Putnam Investor Services, a division of PFTC.

The fund has entered into an arrangement with PFTC whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the fund's expenses. For the year ended July 31, 2003, the fund's expenses were reduced by \$46,318 under these arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$1,208 has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan"), which allows the Trustees to defer the receipt of all or a portion of Trustees fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years. Benefits under the Pension Plan are equal to 50% of the Trustee's average total retainer and meeting fees for the three years preceding retirement. Pension expense for the fund is included in Compensation of Trustees in the Statement of operations. Accrued pension liability is included in Payable for compensation of Trustees in the Statement of assets and liabilities.

Note 3

Purchases and sales of securities

During the year ended July 31, 2003, cost of purchases and proceeds from

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

sales of investment securities other than U.S. government obligations and short-term investments aggregated \$397,201,340 and \$383,807,567, respectively. Purchases and sales of U.S. government obligations aggregated \$594,058,519 and \$610,912,132, respectively.

Federal tax information (Unaudited)

The fund has designated 4.18% of the distributions from net investment income as qualifying for the dividends received deduction for corporations.

For its tax year ended July 31, 2003, the fund hereby designates 1.92%, or the maximum amount allowable, of its net taxable income as qualified dividends taxed at individual net capital gain rates.

The Form 1099 you receive in January 2004 will show the tax status of all distributions paid to your account in calendar 2003.

Results of June 12, 2003 shareholder meeting (Unaudited)

An annual meeting of shareholders of the fund was held on June 12, 2003. At the meeting, each of the nominees for Trustees was elected, as follows:

	Votes for	Votes withheld
Jameson Adkins Baxter	129,842,715	2,493,906
Charles B. Curtis	129,864,407	2,472,214
John A. Hill	129,885,192	2,451,429
Ronald J. Jackson	129,943,400	2,393,221
Paul L. Joskow	129,910,820	2,425,801
Elizabeth T. Kennan	129,841,038	2,495,583
Lawrence J. Lasser	129,892,082	2,444,539
John H. Mullin, III	129,867,947	2,468,674
Robert E. Patterson	129,921,601	2,415,020
George Putnam, III	129,895,032	2,441,589
A.J.C. Smith	129,979,420	2,357,201
W. Thomas Stephens	129,968,839	2,367,782
W. Nicholas Thorndike	129,779,344	2,557,277

All tabulations are rounded to nearest whole number.

About the Trustees

Jameson A. Baxter (9/6/43), Trustee since 1994
President, Baxter Associates, Inc. (a consulting and private investments firm)

Director of ASHTA Chemicals, Inc., Banta Corporation (a printing and digital imaging firm), Ryerson Tull, Inc. (a steel service corporation), Advocate Health Care, and the National Center for Nonprofit Boards. Chairman Emeritus of the Board of Trustees, Mount Holyoke College. Until 2002, Mrs. Baxter was a director of Intermatic Corporation, a manufacturer of energy control products. Also held various positions in investment banking and corporate finance, including Vice President and principal of the Regency Group and Vice President and consultant to First Boston Corp.

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

Charles B. Curtis (4/27/40), Trustee since 2001
President and Chief Operating Officer, Nuclear Threat Initiative (a private foundation dealing with national security issues), also serves as Senior Advisor to the United Nations Foundation

Member of the Council on Foreign Relations and the Trustee Advisory Council of the Applied Physics Laboratory at Johns Hopkins University. Until 2003, Mr. Curtis was a member of the Electric Power Research Institute Advisory Council, and the University of Chicago Board of Governors for Argonne National Laboratory. Prior to 2002, Mr. Curtis was a member of the Board of Directors of the Gas Technology Institute and the Board of Directors of the Environment and Natural Resources Program Steering Committee, John F. Kennedy School of Government, Harvard University. Until 2001, Mr. Curtis was a Member of the Department of Defense's Policy Board and Director of EG&G Technical Services, Inc. (fossil energy research and development support). Prior to May 1997, Mr. Curtis was Deputy Secretary of Energy. He served as Chairman of the Federal Energy Regulatory Commission from 1977 to 1987 and has held positions on the staff of the U.S. House of Representatives, the U.S. Treasury Department, and the Securities and Exchange Commission. Mr. Curtis is also a lawyer with over 15 years of experience.

John A. Hill (1/31/42), Trustee since 1985 and Chairman since 2000
Vice-Chairman and Managing Director, First Reserve Corporation (a registered investment advisor investing in companies in the world-wide energy industry on behalf of institutional investors)

Director of Devon Energy Corporation (formerly known as Snyder Oil Corporation), TransMontaigne Oil Company, Continuum Health Partners of New York, Sarah Lawrence College, and various private companies owned by First Reserve Corporation. Trustee of TH Lee, Putnam Investment Trust (a closed-end investment company). Prior to acquiring First Reserve in 1983, Mr. Hill held executive positions with several advisory firms and various positions with the federal government, including Associate Director of the Office of Management and Budget and Deputy Director of the Federal Energy Administration.

Ronald J. Jackson (12/17/43), Trustee since 1996
Private investor

Former Chairman, President, and Chief Executive Officer of Fisher-Price, Inc. (a toy manufacturer). Previously served as President and Chief Executive Officer of Stride-Rite, Inc. and Kenner Parker Toys. Also held financial and marketing positions with General Mills, Parker Brothers, and Talbots. President of the Kathleen and Ronald J. Jackson Foundation (charitable trust). Member of the Board of Overseers of WGBH (public television and radio). Member of the Board of Overseers of the Peabody Essex Museum.

Paul L. Joskow (6/30/47), Trustee since 1997
Elizabeth and James Killian Professor of Economics and Management and Director of the Center for Energy and Environmental Policy Research, Massachusetts Institute of Technology

Director, National Grid Transco (formerly National Grid Group, a UK-based holding company with interests in electric and gas transmission and distribution and telecommunications infrastructure), and the Whitehead Institute for Biomedical Research (a non-profit research institution). President of the Yale University Council. Prior to February 2002, March 2000, and September 1998, Dr. Joskow was a Director of State Farm Indemnity Company (an automobile insurance company),

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

Director of New England Electric System (a public utility holding company) and a consultant to National Economic Research Associates, respectively.

Elizabeth T. Kennan (2/25/38), Trustee since 1992
Chairman, Cambus-Kenneth Bloodstock (a limited liability company involved in thoroughbred horse breeding and farming), President Emeritus of Mount Holyoke College

Director, Northeast Utilities, and Talbots (a distributor of women's apparel). Trustee of Centre College. Prior to 2001, Dr. Kennan was a member of the Oversight Committee of Folger Shakespeare Library. Prior to September 2000, June 2000, and November 1999, Dr. Kennan was a Director of Chastain Real Estate, Bell Atlantic, and Kentucky Home Life Insurance, respectively. Prior to 1995, Dr. Kennan was a Trustee of Notre Dame University. For 12 years, she was on the faculty of Catholic University.

John H. Mullin, III (6/15/41), Trustee since 1997
Chairman and CEO of Ridgeway Farm (a limited liability company engaged in timber and farming)

Director Alex. Brown Realty, Inc., Sonoco Products, Inc. (a packaging company), The Liberty Corporation (a company engaged in the broadcasting industry), and Progress Energy, Inc. (a utility company, formerly known as Carolina Power & Light). Trustee Emeritus of Washington & Lee University. Prior to October 1997, January 1998, and May 2001, Mr. Mullin was a Director of Dillon, Read & Co. Inc., The Ryland Group, Inc., and Graphic Packaging International Corp., respectively.

Robert E. Patterson (3/15/45), Trustee since 1984
Senior Partner of Cabot Properties, L.P. and Chairman of Cabot Properties, Inc.

Chairman of the Joslin Diabetes Center, Trustee of SEA Education Association, and Director of Brandywine Trust Company (a trust company). Prior to February 1998, Mr. Patterson was Executive Vice President and Director of Acquisitions of Cabot Partners Limited Partnership. Prior to December 2001, Mr. Patterson was President and Trustee of Cabot Industrial Trust (publicly traded real estate investment trust). Prior to 1990, Mr. Patterson was Executive Vice President of Cabot, Cabot & Forbes Realty Advisors, the predecessor of Cabot Partners, and prior to that was Senior Vice President of the Beal Companies.

W. Thomas Stephens (9/2/42), Trustee since 1997
Corporate Director

Director of Xcel Energy Incorporated (public utility company), TransCanada Pipelines, Norske Canada, Inc. (paper manufacturer), and Qwest Communications (communications company). Until 2003, Mr. Stephens was a Director of Mail-Well, a printing and envelope company. Prior to July 2001 and October 1999, Mr. Stephens was Chairman of Mail-Well and MacMillan-Bloedel (forest products company). Prior to 1996, Mr. Stephens was Chairman and Chief Executive Officer of Johns Manville.

W. Nicholas Thorndike (3/28/33), Trustee since 1992
Director of various corporations and charitable organizations, including Courier Corporation (a book manufacturer and publisher) and Providence Journal Co. (a newspaper publisher)

Trustee of Northeastern University and Honorary Trustee of Massachusetts General Hospital. Prior to September 2000, April 2000, and December

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

2001, Mr. Thorndike was a Director of Bradley Real Estate, Inc., a Trustee of Eastern Utilities Associates, and a Trustee of Cabot Industrial Trust, respectively. Previously served as Chairman of the Board and managing partner of Wellington Management/Thorndike Doran Paine & Lewis, and Chairman and Director of Ivest Fund.

Lawrence J. Lasser* (11/1/42), Trustee since 1992
President and Chief Executive Officer of Putnam Investments and Putnam Management and Vice President since 1981

Director of Marsh & McLennan Companies, Inc. and the United Way of Massachusetts Bay. Member of the Board of Governors of the Investment Company Institute, Trustee of the Museum of Fine Arts, Boston, a Trustee and Member of the Finance and Executive Committees of Beth Israel Deaconess Medical Center, Boston, and a Member of the CareGroup Board of Managers Investment Committee, the Council on Foreign Relations, and the Commercial Club of Boston.

George Putnam, III* (8/10/51), Trustee since 1984 and President since 2000
President, New Generation Research, Inc. (a publisher of financial advisory and other research services relating to bankrupt and distressed companies) and New Generation Advisers, Inc. (a registered investment adviser)

Director of The Boston Family Office, L.L.C. (registered investment advisor), Trustee of St. Mark's School, and Trustee of Shore Country Day School. Until 2002, Mr. Putnam was a Trustee of the SEA Education Association. Previously, Mr. Putnam was an attorney with the firm of Dechert Price & Rhoads.

A.J.C. Smith* (4/13/34), Trustee since 1986
Director of Marsh & McLennan Companies, Inc.

Director of Trident Corp. (a limited partnership with over 30 institutional investors). Trustee of the Carnegie Hall Society, the Educational Broadcasting Corporation and the National Museums of Scotland. Chairman of the Central Park Conservancy. Member of the Board of Overseers of the Joan and Sanford I. Weill Graduate School of Medical Sciences of Cornell University. Fellow of the Faculty of Actuaries in Edinburgh, the Canadian Institute of Actuaries, and the Conference of Actuaries. Associate of the Society of Actuaries. Member of the American Actuaries, the International Actuarial Association and the International Association of Consulting Actuaries. Prior to May 2000 and November 1999, Mr. Smith was Chairman and CEO, respectively, of Marsh & McLennan Companies, Inc.

The address of each Trustee is One Post Office Square, Boston, MA 02109.

As of July 31, 2003, there were 104 Putnam Funds.

Each Trustee serves for an indefinite term, until his or her resignation, death, or removal.

* Trustees who are or may be deemed to be "interested persons" (as defined in the Investment Company Act of 1940) of the fund, Putnam Management, Putnam Retail Management or Marsh & McLennan Companies, Inc., the parent company of Putnam, LLC and its affiliated companies. Messrs. Putnam, III, Lasser and Smith are deemed "interested persons" by virtue of their positions as officers or shareholders of the fund or Putnam Management, Putnam Retail Management or Marsh & McLennan Companies, Inc. George Putnam, III is the President of your fund and each of the other Putnam funds. Lawrence J. Lasser is the President and Chief Executive

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

Officer of Putnam Investments and Putnam Management. Mr. Lasser and Mr. Smith serve as Directors of Marsh & McLennan Companies, Inc.

Fund information

About Putnam Investments

One of the largest mutual fund families in the United States, Putnam Investments has a heritage of investment leadership dating back to Judge Samuel Putnam, whose Prudent Man Rule has defined fiduciary tradition and practice since 1830. Founded over 65 years ago, Putnam Investments was built around the concept that a balance between risk and reward is the hallmark of a well-rounded financial program. We presently manage over 100 mutual funds in growth, value, blend, fixed income, and international.

Item 2. Code of Ethics:

All officers of the Fund, including its principal executive, financial and accounting officers, are employees of Putnam Investment Management, LLC, the Fund's investment manager. As such they are subject to a comprehensive Code of Ethics adopted and administered by Putnam Investments which is designed to protect the interests of the firm and its clients. The Fund has adopted a Code of Ethics which incorporates the Code of Ethics of Putnam Investments with respect to all of its officers and Trustees who are employees of Putnam Investment Management, LLC. For this reason, the Fund has not adopted a separate code of ethics governing its principal executive, financial and accounting officers.

Item 3. Audit Committee Financial Expert:

The Funds' Audit and Pricing Committee is comprised solely of Trustees who are "independent" (as such term has been defined by the Securities and Exchange Commission ("SEC") in regulations implementing Section 407 of the Sarbanes-Oxley Act (the "Regulations")). The Trustees believe that each of the members of the Audit and Pricing Committee also possess a combination of knowledge and experience with respect to financial accounting matters, as well as other attributes, that qualify them for service on the Committee. In addition, the Trustees have determined that all members of the Funds' Audit and Pricing Committee meet the financial literacy requirements of the New York Stock Exchange's rules and that Mr. Patterson and Mr. Stephens qualify as "audit committee financial experts" (as such term has been defined by the Regulations) based on their review of their pertinent experience and education. Certain other Trustees, although not on the Audit and Pricing Committee, would also qualify as "audit committee financial experts." The SEC has stated that the designation or identification of a person as an audit committee financial expert pursuant to this Item 3 of Form N-CSR does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liability imposed on such person as a member of the Audit and Pricing Committee and the Board of Trustees in the absence of such designation or identification.

Item 4. Principal Accountant Fees and Services:

Not applicable

Items 5-6. [Reserved]

Item 7. Disclosure of Proxy Voting Policies and Procedures For Closed End

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

Management Investment Companies:

Proxy Voting Guidelines of the Putnam Funds -----

The proxy voting guidelines below summarize the Funds' positions on various issues of concern to investors, and give a general indication of how Fund portfolio securities will be voted on proposals dealing with a particular issue. The Funds' proxy voting service is instructed to vote all proxies relating to Fund portfolio securities in accordance with these guidelines, except as otherwise instructed by the Proxy Coordinator.

The proxy voting guidelines are just that - guidelines. The guidelines are not exhaustive and do not include all potential voting issues. Because proxy issues and the circumstances of individual companies are so varied, there may be instances when the Funds may not vote in strict adherence to these guidelines. For example, the proxy voting service is expected to bring to the Proxy Coordinator's attention proxy questions that are company-specific and of a non-routine nature and, although covered by the guidelines, may be more appropriately handled on a case-by-case basis.

Similarly, Putnam Management's investment professionals, as part of their ongoing review and analysis of all Fund portfolio holdings, are responsible for monitoring significant corporate developments, including proxy proposals submitted to shareholders, and notifying the Proxy Coordinator of circumstances where the interests of Fund shareholders may warrant a vote contrary to these guidelines. In such instances, the investment professionals will submit a written recommendation to the Proxy Coordinator and the person or persons designated by Putnam Management's Legal and Compliance Department to assist in processing referral items pursuant to the Funds' "Proxy Voting Procedures." The Proxy Coordinator, in consultation with the Senior Vice President, Executive Vice President and/or the Chair of the Board Policy and Nominating Committee, as appropriate, will determine how the Funds' proxies will be voted. When indicated, the Chair of the Board Policy and Nominating Committee may consult with other members of the Committee or the full board of Trustees.

The following guidelines are grouped according to the types of proposals generally presented to shareholders. Part I deals with proposals which have been approved and recommended by a company's board of directors. Part II deals with proposals submitted by shareholders for inclusion in proxy statements. Part III addresses unique considerations pertaining to foreign issuers.

I. Board-Approved Proposals -----

The vast majority of matters presented to shareholders for a vote involve proposals made by a company itself (sometimes referred to as "management proposals"), which have been approved and recommended by its board of directors. In view of the enhanced corporate governance practices currently being implemented in public companies and the Funds' intent to hold corporate boards accountable for their actions in promoting shareholder interests, the Funds' proxies generally will be voted in support of decisions reached by independent boards of directors. Accordingly, the Funds' proxies will be voted for board-approved proposals, except as follows:

A. Matters Relating to the Board of Directors -----

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

The board of directors has the important role of overseeing management and its performance on behalf of shareholders. The Funds' proxies will be voted for the election of the company's nominees for directors and for board-approved proposals on other matters relating to the board of directors (provided that such nominees and other matters have been approved by an independent nominating committee), except as follows:

- * The Funds will withhold votes for the entire board of directors if
- * The board does not have a majority of independent directors; or
- * The board does not have nominating, audit and compensation committees composed solely of independent directors.

Commentary: While these requirements will likely become mandatory for most public companies in the near future as a result of pending NYSE and NASDAQ rule proposals, the Funds' Trustees believe that there is no excuse for public company boards that fail to implement these vital governance reforms at their next annual meeting. For these purposes, an "independent director" is a director who meets all requirements to serve as an independent director of a company under the pending NYSE rule proposals (i.e., no material business relationships with the company, no present or recent employment relationship with the company (including employment of immediate family members) and, in the case of audit committee members, no compensation for non-board services). As indicated below, the Funds will generally vote on a case-by-case basis on board-approved proposals where the board fails to meet these basic independence standards.

- * The Funds will withhold votes for any nominee for director who is considered an independent director by the company and who has received compensation from the company other than for service as a director (e.g., investment banking, consulting, legal or financial advisory fees).

Commentary: The Funds' Trustees believe that receipt of compensation for services other than service as a director raises significant independence issues. The Funds will withhold votes for any nominee for director who is considered an independent director by the company and who receives such compensation.

- * The Funds will withhold votes for the entire board of directors if the board has more than 19 members or fewer than five members, absent special circumstances.

Commentary: The Funds' Trustees believe that the size of the board of directors can have a direct impact on the ability of the board to govern effectively. Boards that have too many members can be unwieldy and ultimately inhibit their ability to oversee management performance. Boards that have too few members can stifle innovation and lead to excessive influence by management.

- * The Funds will vote on a case-by-case basis in contested elections of directors.
- * The Funds will withhold votes for any nominee for director who attends less than 75% of board and committee meetings without valid reasons for the absences (i.e., illness, personal emergency, etc.).

Commentary: Being a director of a company requires a significant time commitment to adequately prepare for and attend the company's board and committee meetings. Directors must be able to commit the time and

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

attention necessary to perform their fiduciary duties in proper fashion, particularly in times of crisis.

The Funds' Trustees are concerned about over-committed directors. In some cases, directors may serve on too many boards to make a meaningful contribution. This may be particularly true for senior executives of public companies (or other directors with substantially full-time employment) who serve on more than a few outside boards. The Funds may withhold votes from such directors on a case-by-case basis where it appears that they may be unable to discharge their duties properly because of excessive commitments.

* The Funds will withhold votes for any nominee for director of a public company (Company A) who is employed as a senior executive of another public company (Company B) if a director of Company B serves as a senior executive of Company A (commonly referred to as an "interlocking directorate").

Commentary: The Funds' Trustees believe that interlocking directorships are inconsistent with the degree of independence required for outside directors of public companies.

Board independence depends not only on its members' individual relationships, but also the board's overall attitude toward management. Independent boards are committed to good corporate governance practices and, by providing objective independent judgment, enhancing shareholder value. The Funds may withhold votes on a case-by-case basis from some or all directors that, through their lack of independence, have failed to observe good corporate governance practices or, through specific corporate action, have demonstrated a disregard for the interest of shareholders.

* The Funds will vote against proposals to classify a board, absent special circumstances indicating that shareholder interests would be better served by this structure.

Commentary: Under a typical classified board structure, the directors are divided into three classes, with each class serving a three-year term. The classified board structure results in directors serving staggered terms, with usually only a third of the directors up for re-election at any given annual meeting. The Funds' Trustees generally believe that it is appropriate for directors to stand for election each year, but recognize that, in special circumstances, shareholder interests may be better served under a classified board structure.

B. Executive Compensation

The Funds generally favor compensation programs that relate executive compensation to a company's long-term performance. The Funds will vote on a case-by-case basis on board-approved proposals relating to executive compensation, except as follows:

* Except where the Funds are otherwise withholding votes for the entire board of directors, the Funds will vote for stock option plans which will result in an average annual dilution of 1.67% or less (including all equity-based plans).

* The Funds will vote against stock option plans that permit replacing or repricing of underwater options (and against any proposal to authorize such replacement or repricing of underwater options).

* The Funds will vote against stock option plans that permit issuance of

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

options with an exercise price below the stock's current market price.

* Except where the Funds are otherwise withholding votes for the entire board of directors, the Funds will vote for employee stock purchase plans that have the following features: (1) the shares purchased under the plan are acquired for no less than 85% of their market value, (2) the offering period under the plan is 27 months or less, and (3) dilution is 10% or less.

Commentary: Companies should have compensation programs that are reasonable and that align shareholder and management interests over the longer term. Further, disclosure of compensation programs should provide absolute transparency to shareholders regarding the sources and amounts of, and the factors influencing, executive compensation. Appropriately designed equity-based compensation plans can be an effective way to align the interests of long-term shareholders with the interests of management. The Funds may vote against executive compensation proposals on a case-by-case basis where compensation is excessive by reasonable corporate standards, or where a company fails to provide transparent disclosure of executive compensation. In voting on proposals relating to executive compensation, the Funds will consider whether the proposal has been approved by an independent compensation committee of the board.

C. Capitalization

Many proxy proposals involve changes in a company's capitalization, including the authorization of additional stock, the repurchase of outstanding stock or the approval of a stock split. The management of a company's capital structure involves a number of important issues, including cash flow, financing needs and market conditions that are unique to the circumstances of each company. As a result, the Funds will vote on a case-by-case basis on board-approved proposals involving changes to a company's capitalization, except that where the Funds are not otherwise withholding votes from the entire board of directors:

* The Funds will vote for proposals relating to the authorization of additional common stock (except where such proposals relate to a specific transaction).

* The Funds will vote for proposals to effect stock splits (excluding reverse stock splits.)

* The Funds will vote for proposals authorizing share repurchase programs.

Commentary: A company may decide to authorize additional shares of common stock for reasons relating to executive compensation or for routine business purposes. For the most part, these decisions are best left to the board of directors and senior management. The Funds will vote on a case-by-case basis, however, on other proposals to change a company's capitalization, including the authorization of common stock with special voting rights, the authorization or issuance of common stock in connection with a specific transaction (e.g., an acquisition, merger or reorganization) or the authorization or issuance of preferred stock. Actions such as these involve a number of considerations that may impact a shareholder's investment and warrant a case-by-case determination.

D. Acquisitions, Mergers, Reincorporations, Reorganizations and Other Transactions

Shareholders may be confronted with a number of different types of

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

transactions, including acquisitions, mergers, reorganizations involving business combinations, liquidations and sale of all or substantially all of a company's assets, which may require their consent. Voting on such proposals involves considerations unique to each transaction. As a result, the Funds will vote on a case-by-case basis on board-approved proposals to effect these types of transactions, except as follows:

* The Funds will vote for mergers and reorganizations involving business combinations designed solely to reincorporate a company in Delaware.

Commentary: A company may reincorporate into another state through a merger or reorganization by setting up a "shell" company in a different state and then merging the company into the new company. While reincorporation into states with extensive and established corporate laws - notably Delaware - provides companies and shareholders with a more well-defined legal framework, generally speaking, shareholders must carefully consider the reasons for a reincorporation into another jurisdiction, including especially offshore jurisdictions.

E. Anti-Takeover Measures

Some proxy proposals involve efforts by management to make it more difficult for an outside party to take control of the company without the approval of the company's board of directors. These include adoption of a shareholder rights plan, requiring supermajority voting on particular issues, adoption of fair price provisions, issuance of blank check preferred stock and creating a separate class of stock with disparate voting rights. Such proposals may adversely affect shareholder rights, lead to management entrenchment, or create conflicts of interest. As a result, the Funds will vote against board-approved proposals to adopt such anti-takeover measures, except as follows:

* The Funds will vote on a case-by-case basis on proposals to ratify or approve shareholder rights plans (commonly referred to as "poison pills"); and

* The Funds will vote on a case-by-case basis on proposals to adopt fair price provisions.

Commentary: The Funds' Trustees recognize that poison pills and fair price provisions may enhance shareholder value under certain circumstances. As a result, the Funds will consider proposals to approve such matters on a case-by-case basis.

F. Other Business Matters

Many proxies involve approval of routine business matters, such as changing the company's name, ratifying the appointment of auditors and procedural matters relating to the shareholder meeting. For the most part, these routine matters do not materially affect shareholder interests and are best left to the board of directors and senior management of the company. The Funds will vote for board-approved proposals approving such matters, except as follows:

* The Funds will vote on a case-by-case basis on proposals to amend a company's charter or bylaws (except for charter amendments necessary or to effect stock splits to change a company's name or to authorize additional shares of common stock).

* The Funds will vote against authorization to transact other unidentified, substantive business at the meeting.

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

* The Funds will vote on a case-by-case basis on other business matters where the Funds are otherwise withholding votes for the entire board of directors.

Commentary: Charter and bylaw amendments and the transaction of other unidentified, substantive business at a shareholder meeting may directly affect shareholder rights and have a significant impact on shareholder value. As a result, the Funds do not view such items as routine business matters. Putnam Management's investment professionals and the Funds' proxy voting service may also bring to the Proxy Coordinator's attention company-specific items which they believe to be non-routine and warranting special consideration. Under these circumstances, the Funds will vote on a case-by-case basis.

II. Shareholder Proposals

SEC regulations permit shareholders to submit proposals for inclusion in a company's proxy statement. These proposals generally seek to change some aspect of a company's corporate governance structure or to change some aspect of its business operations. The Funds will vote in accordance with the recommendation of the company's board of directors on all shareholder proposals, except as follows:

* The Funds will vote for shareholder proposals to declassify a board, absent special circumstances which would indicate that shareholder interests are better served by a classified board structure.

* The Funds will vote for shareholder proposals to require shareholder approval of shareholder rights plans.

* The Funds will vote for shareholder proposals that are consistent with the Fund's proxy voting guidelines for board-approved proposals.

* The Funds will vote on a case-by-case basis on other shareholder proposals where the Funds are otherwise withholding votes for the entire board of directors.

Commentary: In light of the substantial reforms in corporate governance that are currently underway, the Funds' Trustees believe that effective corporate reforms should be promoted by holding boards of directors - and in particular, their independent directors - accountable for their actions, rather than imposing additional legal restrictions on board governance through piecemeal proposals. Generally speaking, shareholder proposals relating to business operations are often motivated primarily by political or social concerns, rather than the interests of shareholders as investors in an economic enterprise. As stated above, the Funds' Trustees believe that boards of directors and management are responsible for ensuring that their businesses are operating in accordance with high legal and ethical standards and should be held accountable for resulting corporate behavior. Accordingly, the Funds will generally support the recommendations of boards that meet the basic independence and governance standards established in these guidelines. Where boards fail to meet these standards, the Funds will generally evaluate shareholder proposals on a case-by-case basis.

III. Voting Shares of Foreign Issuers

Many of the Funds invest on a global basis and, as a result, they may be required to vote shares held in foreign issuers - i.e., issuers that are incorporated under the laws of a foreign jurisdiction and that are not listed a U.S. securities exchange or the NASDAQ stock market. Because foreign issuers are incorporated under the laws of countries and

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

jurisdictions outside the U.S., protection for shareholders may vary significantly from jurisdiction to jurisdiction. Laws governing foreign issuers may, in some cases, provide substantially less protection for shareholders. As a result, the foregoing guidelines, which are premised on the existence of a sound corporate governance and disclosure framework, may not be appropriate under some circumstances for foreign issuers. The Funds will vote proxies of foreign issuers in accordance with the foregoing guidelines where applicable, except as follows:

- * The Funds will vote for shareholder proposals calling for a majority of the directors to be independent of management.
- * The Funds will vote for shareholder proposals seeking to increase the independence of board nominating, audit and compensation committees.
- * The Funds will vote for shareholder proposals that implement corporate governance standards similar to those established under U.S. federal law and the listing requirements of U.S. stock exchanges, and that do not otherwise violate the laws of the jurisdiction under which the company is incorporated.
- * The Funds will vote on case-by-case basis on proposals relating to (1) the issuance of common stock in excess of 20% of a company's outstanding common stock where shareholders do not have preemptive rights, or (2) the issuance of common stock in excess of 100% of a company's outstanding common stock where shareholders have preemptive rights.

Commentary: In many non-U.S. markets, shareholders who vote proxies for shares of a foreign issuer are not able to trade in that company's stock within a given period of time on or around the shareholder meeting date. This practice is known as "share blocking." In countries where share blocking is practiced, the Funds will vote proxies only with direction from Putnam Management's investment professionals.

As adopted March 14, 2003

Proxy Voting Procedures of the Putnam Funds

The Role of the Funds' Trustees

The Trustees of the Putnam Funds exercise control of the voting of proxies through their Board Policy and Nominating Committee, which is composed entirely of independent Trustees. The Board Policy and Nominating Committee oversees the proxy voting process and participates, as needed, in the resolution of issues which need to be handled on a case-by-case basis. The Committee annually reviews and recommends for approval by the Trustees guidelines governing the Funds' proxy votes, including how the Funds vote on specific proposals and which matters are to be considered on a case-by-case basis. The Trustees are assisted in this process by their independent administrative staff ("Fund Administration"), independent legal counsel, and an independent proxy voting service. The Trustees also receive assistance from Putnam Investment Management, LLC ("Putnam Management"), the Funds' investment adviser, on matters involving investment judgments. In all cases, the ultimate decision on voting proxies rests with the Trustees, acting as fiduciaries on behalf of the shareholders of the Funds.

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

The Role of the Proxy Voting Service

The Funds have engaged an independent proxy voting service to assist in the voting of proxies. The proxy voting service is responsible for coordinating with the Funds' custodians to ensure that all proxy materials received by the custodians relating to the Funds' portfolio securities are processed in a timely fashion. To the extent applicable, the proxy voting service votes all proxies in accordance with the proxy voting guidelines established by the Trustees. The proxy voting service will refer proxy questions to the Proxy Coordinator (described below) for instructions under circumstances where: (1) the application of the proxy voting guidelines is unclear, (2) a particular proxy question is not covered by the guidelines, or (3) the guidelines call for specific instructions on a case-by-case basis. The proxy voting service is also requested to call to the Proxy Coordinator's attention specific proxy questions which, while governed by a guideline, appear to involve unusual or controversial issues. The Funds also utilize research services relating to proxy questions provided by the proxy voting service and by other firms.

The Role of the Proxy Coordinator

Each year, a member of Fund Administration is appointed Proxy Coordinator to assist in the coordination and voting of the Funds' proxies. The Proxy Coordinator will deal directly with the proxy voting service and, in the case of proxy questions referred by the proxy voting service, will solicit voting recommendations and instructions from Fund Administration, the Chair of the Board Policy and Nominating Committee, and Putnam Management's investment professionals, as appropriate. The Proxy Coordinator is responsible for ensuring that these questions and referrals are responded to in a timely fashion and for transmitting appropriate voting instructions to the proxy voting service.

Voting Procedures for Referral Items

As discussed above, the proxy voting service will refer proxy questions to the Proxy Coordinator under certain circumstances. When the application of the proxy voting guidelines is unclear or a particular proxy question is not covered by the guidelines (and does not involve investment considerations), the Proxy Coordinator will assist in interpreting the guidelines and, as appropriate, consult with the Senior Vice President of Fund Administration, the Executive Vice President of Fund Administration and the Chair of the Board Policy and Nominating Committee on how the Funds' shares will be voted.

For proxy questions that require a case-by-case analysis pursuant to the guidelines or that are not covered by the guidelines but involve investment considerations, the Proxy Coordinator will refer such questions, through a written request, to Putnam Management's investment professionals for a voting recommendation. Such referrals will be made in cooperation with the person or persons designated by Putnam Management's Legal and Compliance Department to assist in processing such referral items. In connection with each such referral item, the Legal and Compliance Department will conduct a conflicts of interest review, as described below under "Conflicts of Interest," and provide a conflicts of interest report (the "Conflicts Report") to the Proxy Coordinator describing the results of such review. After receiving a referral item from the Proxy Coordinator, Putnam Management's investment professionals will provide a written recommendation to the Proxy Coordinator and the person or persons designated by the Legal and Compliance Department to assist in processing referral items. Such recommendation will set forth (1) how the proxies should be voted, (2)

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

the basis and rationale for such recommendation, and (3) any contacts the investment professionals have had with respect to the referral item with non-investment personnel of Putnam Management or with outside parties (except for routine communications from proxy solicitors). The Proxy Coordinator will then review the investment professionals' recommendation and the Conflicts Report with the Senior Vice President and/or Executive Vice President in determining how to vote the Funds' proxies. The Proxy Coordinator will maintain a record of all proxy questions that have been referred to Putnam Management's investment professionals, the voting recommendation and the Conflicts Report.

In some situations, the Proxy Coordinator, the Senior Vice President and/or the Executive Vice President may determine that a particular proxy question raises policy issues requiring consultation with the Chair of the Board Policy and Nominating Committee who, in turn, may decide to bring the particular proxy question to the Committee or the full board of Trustees for consideration.

Conflicts of Interest

Occasions may arise where a person or organization involved in the proxy voting process may have a conflict of interest. A conflict of interest may exist, for example, if Putnam Management has a business relationship with (or is actively soliciting business from) either the company soliciting the proxy or a third party that has a material interest in the outcome of a proxy vote or that is actively lobbying for a particular outcome of a proxy vote. Any individual with knowledge of a personal conflict of interest (e.g., familial relationship with company management) relating to a particular referral item shall disclose that conflict to the Proxy Coordinator and the Legal and Compliance Department and otherwise remove himself or herself from the proxy voting process. The Legal and Compliance Department will review each item referred to Putnam Management's investment professionals to determine if a conflict of interest exists and will provide the Proxy Coordinator with a Conflicts Report for each referral item that (1) describes any conflict of interest; (2) discusses the procedures used to address such conflict of interest; and (3) discloses any contacts from parties outside Putnam Management (other than routine communications from proxy solicitors) with respect to the referral item not otherwise reported in an investment professional's recommendation. The Conflicts Report will also include written confirmation that any recommendation from an investment professional provided under circumstances where a conflict of interest exists was made solely on the investment merits and without regard to any other consideration.

As adopted March 14, 2003

Item 8. [Reserved]

Item 9. Controls and Procedures:

(a) The registrant's principal executive officer and principal financial officers have concluded, based on their evaluation of the effectiveness of the design and operation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report on Form N-CSR, that the design and operation of such procedures are effective to provide reasonable assurance that information required to be disclosed by the investment company in the reports that it files or

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-CSR

submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Commission's rules and forms.

(b) Changes in internal control over financial reporting:
Not applicable

Item 10. Exhibits:

(a) The Code of Ethics of The Putnam Funds, which incorporates the Code of Ethics of Putnam Investments, is filed herewith.

(b) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Investment Company Act of 1940, as amended, and the officer certifications as required by Section 906 of the Sarbanes-Oxley Act of 2002 are filed herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 an the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
