SEMIANNUAL REPORT ON PERFORMANCE AND OUTLOOK

11-30-03

[GRAPHIC OMITTED: WATCH]

[SCALE LOGO: OMITTED]

From the Trustees

[GRAPHIC OMITTED: PHOTO OF JOHN A. HILL AND GEORGE PUTNAM, III]

John A. Hill and George Putnam, III

Dear Fellow Shareholder:

Looking back on an eventful year, we consider it important to take note of the increasingly positive trends that have become apparent in the U.S. economy and financial markets. The stimulus provided by fiscal and monetary policies has drawn the economy out of the slump of early 2003 and rising profits prompted a broad rally for stocks. The bond market steadied while offering pockets of opportunity. We see indications that these trends can continue into 2004 and know that Putnam management teams will seek to position the funds to benefit from them.

For the semiannual period ended November 30, 2003, Putnam Managed High Yield Trust delivered solid returns at net asset value. However, its results were slightly below both its benchmark index and its Lipper category average. You will find the details on the facing page.

In the accompanying report, the managers provide a thorough discussion of the fund's results not only in the context of the high-yield market in which it invests, but also in terms of investor sentiment. Although high-yield bonds were among the best-performing fixed-income securities during the period, returning strength of stocks lured growing numbers of investors into equities, dampening the entire fixed-income market. The management team also offers its perspective on prospects for the fiscal year's second half.

Respectfully yours,

/S/ JOHN A. HILL /S/ GEORGE PUTNAM, III

John A. Hill George Putnam, III
Chairman of the Trustees President of the Funds

January 21, 2004

Report from Fund Management

#### Fund highlights

- \* During the semiannual period ended November 30, 2003, Putnam Managed High Yield Trust had total returns of 9.47% at net asset value (NAV) and -4.26% at market price.
- \* At NAV, the fund slightly underperformed the 9.70% return of its benchmark, the JP Morgan High Yield Developed Index, in part due to its underweight in the utilities and technology sectors.
- \* At NAV, the fund also underperformed the average return of 9.92% for the Lipper closed-end High Current Yield Funds category. Comparisons in this category can be problematic, however, because it consists only of six funds.
- \* Due to a decline in yields available in the market, the fund reduced its dividend to \$0.054 per share. This income reduction contributed to the fund's negative return at market price. Please see page 5 for details.
- \* See the Performance Summary beginning on page 7 for complete fund performance, comparative performance, and Lipper data.

#### Performance commentary

The past six months have been a period of very strong returns for high-yield bonds and, consequently, for your fund. This investment sector has benefited from a number of positive events: Default rates have continued to decline, credit quality has improved as companies have retired or refinanced debt, and investor demand for high-yield bonds has been extremely strong, accompanied by robust supply. Moreover, short-term interest rates have been at historically low levels, creating a greater incentive for investors to seek higher yields. In this environment, your fund's management team has sought opportunities in lower-rated, higher-yielding issues, while maintaining diversification in the portfolio across a large number of holdings and sectors.

#### FUND PROFILE

Putnam Managed High Yield Trust seeks high current income and, as a secondary objective, capital growth, by investing in corporate high-yield bonds. The fund is designed for investors seeking higher fixed-income returns and who are willing to accept the added risks of investing in below-investment-grade securities.

#### Market overview

This semiannual period began in the midst of an extremely positive period for high-yield bonds. After the passing of a highly uncertain period leading up to war in Iraq, investors turned their attention to the improving economy and rising stock market in the late spring of 2003. These events, along with significant demand for high-yield bonds and declining default rates, helped the high-yield market to outperform all other fixed-income sectors during the six-month period.

Due to the strengthening equity market, more companies have been able to access the capital markets, raising capital to retire or refinance debt and helping increase cash flows. Finally, the recovering economy has led to an increase in profits and higher cash flows. All of these factors have helped corporate default rates to continue their decline.

During the summer months, a sharp sell-off in Treasury bonds roiled the fixed-income markets, causing yields to rise -- and prices to fall -- abruptly. High-yield bonds, which are less sensitive to interest-rate changes, were less affected. In the fall, when the Treasury markets calmed down, the high-yield sector continued to benefit from the stronger economy and higher stock prices.

MARKET SECTOR PERFORMANCE 6 MONTHS ENDED 11/30/03	
Bonds	
JP Morgan High Yield Developed Index (high-yield corporate bonds)	9.70%
Lehman Aggregate Bond Index (broad bond market)	-1.04%
Lehman GNMA Index (Government National Mortgage Association Bonds)	0.81%
Lehman Municipal Bond Index (tax-exempt bonds)	0.18%
Equities	
S&P 500 Index (broad stock market)	10.80%
Russell 2000 Index (stocks of small and midsize companies)	24.65%
MSCI EAFE Index (international stocks)	20.26%
These indexes provide an overview of performance in different market sectors for the six months ended 11/30/03.	

#### Strategy overview

Our strategy for the fund during the past six months was to continue seeking, on a selective basis, opportunities in lower-quality bonds that offered both higher yields and the potential for an improvement in credit quality. Our primary rationale was that, in an environment of economic recovery and declining corporate default rates, we believed these securities offered the greatest total return potential within the high-yield universe. As the economy and stock market improved during the period, investor appetite for risk generally increased. As a result, many high-yield bonds -- especially those with lower ratings and higher yields -- have appreciated significantly. Our focus on these lower-rated issues, therefore, was beneficial for performance during the six-month period.

To implement this strategy, we have generally underweighted BB-rated bonds and have overweighted those with CCC ratings. We have sought bonds issued by companies with adequate liquidity and a strong ability to meet their obligations. Bonds with CCC ratings have been among the best-performing bonds in the high-yield market.

[GRAPHIC OMITTED: horizontal bar chart TOP SECTOR WEIGHTINGS COMPARED]

TOP SECTOR WEIGHTINGS COMPARED

	as of 5/31/03	as of 11/30/03
Utilities and power	6.7%	7.8%
Telecommunications	5.4%	6.7%
Chemicals	5.6%	5.4%
Gaming and lottery	5.6%	5.1%
Oil and gas	5.0%	4.1%

#### Footnote reads:

This chart shows how the fund's top sector weightings have changed over the last six months. Weightings are shown as a percentage of net assets. Sectors and holdings will vary over time.

How fund holdings affected performance

One of the strongest sectors in the high-yield market has been the wireless industry. This industry has been growing at a rapid rate for several years. Among the strongest performing telecommunications holdings for the fund have been preferred stock issued by Rural Cellular Corp., a leading wireless carrier for rural areas, and Nextel, a large wireless telecommunications company that has performed well for the fund over several years (We have pared this holding back as prices of the securities have moved up.) Nextel has a significant telecommunications network in the United States and was the first company to offer a successful nationwide walkie-talkie feature.

The cable television industry has also outperformed this year, and the fund benefited from owning several strong-performing issues. Companies in this industry have seen steady cash flows from their cable businesses, as well as growth in demand for high-speed Internet services. Consequently, there has been greater interest among investors for both their stock and high-yield bond offerings. In this industry, the fund's strongest-performing issuer was Charter Communications LLC, which operates cable systems in 40 states for nearly 12 million homes. The company also provides high-speed Internet access through a network of coaxial and fiber-optic cable. In broadcasting, another outperforming sector, the fund held Granite Broadcasting, which owns and operates a number of network-affiliated television stations.

  Conglomerates

#### Footnotes read:

These holdings represent 7.4% of the fund's net assets as of 11/30/03. The fund's holdings will change over time.

\* Holding acquired through corporate restructuring.

The fund was underweighted in lower-quality bonds in the energy and financial sectors. This strategy detracted from the fund's performance relative to its benchmark index because these securities outperformed the higher-quality bonds in these sectors that the fund owned. The fund's performance was also hurt by AK Steel Corp, an Ohio-based steel manufacturer that had disappointing financial results.

Please note that all holdings discussed in this report are subject to review in accordance with the fund's investment strategy and may vary in the future.

#### OF SPECIAL INTEREST

The high-yield market has experienced dramatic changes in yield as well as in the yield spread, or difference in yields compared to Treasuries. Since the beginning of the market recovery on October 10, 2002, yields in the high-yield market have dropped nearly 40% from 14.1% to 8.66%; at the same time, the yield spread over Treasuries has fallen by more than 40%. As a result, in October 2003, there was a reduction in the fund's dividend from \$0.060 per share to \$0.054 per share.

The fund's management team

The fund is managed by the Putnam Core Fixed-Income High-Yield Team. The members of this team are Stephen Peacher (Portfolio Leader), Norman Boucher (Portfolio Member), Paul Scanlon (Portfolio Member), Rosemary Thomsen (Portfolio Member), Jeffrey Kaufmann, Geoffrey Kelley, Neil Reiner, and Joseph Towell.

The outlook for your fund

The following commentary reflects anticipated developments that could affect your fund over the next six months, as well as your management team's plans for responding to them.

High-yield bond returns have been significantly above their historical average for the past year (including the past six months), and investors should be cautioned that such returns are unlikely to be repeated in 2004. Nevertheless, we believe the near term should still be positive for the high-yield sector, and that solid returns are achievable. Such returns, we believe, would be driven by continued declines in default rates, improvements in corporate earnings and cash flow that would benefit credit quality, and low short-term interest rates. Continued low interest rates, combined with a steep yield curve -- meaning that longer-term rates would be significantly higher -- could continue to drive demand for high-yield bonds, as has been the case so far in 2003.

There are potential headwinds in 2004 that could cause volatility in the bond market. Interest rates may begin to rise, and continued appreciation in stock prices is by no means a certainty. We plan to maintain diversity in the portfolio across a large number of holdings and sectors to mitigate the effects of potential market volatility.

The views expressed in this report are exclusively those of Putnam Management. They are not meant as investment advice. Lower-rated bonds may offer higher yields in return for more risk. The fund is closed to new investors.

#### Performance summary

This section provides information about your fund's performance during the first half of its fiscal year, which ended November 30, 2003. In accordance with regulatory requirements, we also include performance for the most current calendar quarter-end. Performance should always be considered in light of a fund's investment strategy. Past performance does not indicate future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate and you may have a gain or a loss when you sell your shares. A profile of your fund's strategy appears on the first page of this report. See page 9 for definitions of some terms used in this section.

#### Terms and definitions

Total return shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the value of all your fund's assets, minus any liabilities divided by the number of outstanding shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on public exchanges such as the New York Stock Exchange or the American stock exchange.

#### Comparative indexes

JP Morgan (formerly Chase) High Yield Developed Index is an unmanaged index used to mirror the investable universe of U.S. dollar global high-yield corporate debt securities for developed markets.

Lehman Aggregate Bond Index is an unmanaged index used as a general measure of U.S. fixed-income securities.

Lehman GNMA Index is an unmanaged index of GNMA securities.

Lehman Municipal Bond Index is an unmanaged index of long-term fixed-rate investment-grade tax-exempt bonds.

Morgan Stanley Capital International (MSCI) EAFE Index is an unmanaged index of international stocks from Europe, Australasia, and the Far East.

Russell 2000 Index is an unmanaged index of common stocks that generally measure performance of small to midsize companies within the Russell 3000 Index.

S&P 500 Index is an unmanaged index of common stock performance.

Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

Lipper Inc. is a third-party industry ranking entity that ranks funds (without sales charges) with similar current investment styles or objectives as determined by Lipper. Lipper category averages reflect performance trends for funds within a category and are based on results at net asset value.

A note about duplicate mailings

In response to investors' requests, the SEC has modified mailing regulations for proxy statements, semiannual and annual reports, and prospectuses. Putnam is now able to send a single copy of these materials to customers who share the same address. This change will automatically apply to all shareholders except those who notify us. If you would prefer to receive your own copy, please call Putnam at 1-800-225-1581.

Putnam is committed to managing our mutual funds in the best interests of our shareholders. Our proxy voting guidelines and policies are available on the Putnam Individual Investor Web site, www.putnaminvestments.com, by calling Putnam's shareholder services line at 1-800-225-1581, or on the SEC's Web site, www.sec.gov.

A guide to the financial statements

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

The fund's portfolio lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the net assets allocated to remarketed preferred shares.)

Statement of operations shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings — from dividends and interest income — and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings — as well as any unrealized gains or losses over the period — is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

Statement of changes in net assets shows how the fund's net assets were affected by distributions to shareholders and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund's investment

results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period. For open-end funds, a separate table is provided for each share class.

- (a) Percentages indicated are based on net assets of \$66,691,902.
- (DEF) Security is in default of principal and interest.
- (NON) Non-income-producing security.
- (STP) The interest rate and date shown parenthetically represent the new interest rate to be paid and the date the fund will begin accruing interest at this rate.
- (RES) Restricted, excluding 144A securities, as to public resale. The total market value of restricted securities held at November 30, 2003 was \$513,758 or 0.8% of net assets.
- (PIK) Income may be received in cash or additional securities at the discretion of the issuer.
  - (R) Real Estate Investment Trust.
  - (d) See Note 1 to the financial statements.

144A after the name of a security represents those exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

FLIRB represents Front Loaded Interest Reduction Bond.

The rates shown on Floating Rate Notes (FRN) are the current interest rates at November 30, 2003.

Notes to financial statements November 30, 2003 (Unaudited)

Note 1 Significant accounting policies

Putnam Managed High Yield Trust (the "fund") is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The fund's investment objective is to seek high current income. The fund intends to achieve its objective by investing in high yielding income securities. Higher yielding, lower rated securities have a higher rate of default due to the nature of the investments.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

- A) Security valuation Market quotations are not considered to be readily available for certain debt obligations; such investments are valued at fair value on the basis of valuations furnished by an independent pricing service or dealers, approved by the Trustees. Such services or dealers determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships, generally recognized by institutional traders, between securities. Investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange, or official closing price for certain markets. If no sales are reported -- as in the case of some securities traded over-the-counter -- a security is valued at its last reported bid price. For foreign investments, if trading or events occurring in other markets after the close of the principal exchange in which the foreign investments are traded are expected to materially affect the value of the investments, then those investments are valued, taking into consideration these events, at their fair value following procedures approved by the Trustees. Securities quoted in foreign currencies are translated into U.S. dollars at the current exchange rate. Short-term investments having remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value. Other investments, including restricted securities, are valued at fair value following procedures approved by the Trustees. Such valuations and procedures are reviewed periodically by the Trustees.
- B) Joint trading account The fund may transfer uninvested cash balances, including cash collateral received under security lending arrange ments, into a joint trading account along with the cash of other registered investment companies and certain other accounts managed by Putnam Investment Management, LLC ("Putnam Management"), the fund's manager, an indirect wholly-owned subsidiary of Putnam, LLC. These balances may be invested in issuers of high-grade short-term investments having maturities of up to 397 days for collateral received under security lending arrangements and up to 90 days for other cash investments.
- C) Security transactions and related investment income Security transactions are recorded on the trade date (date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the fund is informed of the

ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. All premiums/ discounts are amortized/accreted on a yield-to-maturity basis.

- D) Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The market value of foreign securities, currency holdings, and other assets and liabilities are recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when earned or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on closed forward currency contracts, disposition of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of open forward currency contracts and assets and liabilities other than investments at the period end, resulting from changes in the exchange rate. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations, not present with domestic investments.
- E) Forward currency contracts The fund may buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the U.S. dollar of the currencies in which its portfolio securities are denominated or quoted (or an increase in the value of a currency in which securities a fund intends to buy are denominated, when a fund holds cash reserves and short-term investments). The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked-to-market daily and the change in market value is recorded as an unrealized gain or loss. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Forward currency contracts outstanding at period end are listed after The fund's portfolio.
- F) Security lending The fund may lend securities, through its agents, to qualified borrowers in order to earn additional income. The loans are collateralized by cash and/or securities in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The risk of borrower default will be borne by the fund's agents; the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending is included in investment income on the Statement of operations. At November 30, 2003, the value

of securities loaned amounted to \$118,554. The fund received cash collateral of \$119,804, which is pooled with collateral of other Putnam funds into 32 issuers of high-grade short-term investments.

G) Federal taxes It is the policy of the fund to distribute all of its taxable income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Internal Revenue Code of 1986, as amended. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At May 31, 2003, the fund had a capital loss carryover of \$30,180,445 available to the extent allowed by tax law to offset future net capital gain, if any. The amount of the carryover and the expiration dates are:

Loss Carryover	Expiration
\$2,584,483	May 31, 2007
4,168,119	May 31, 2008
3,778,275	May 31, 2009
8,385,000	May 31, 2010
11,264,568	May 31, 2011

Pursuant to federal income tax regulations applicable to regulated investment companies, the fund has elected to defer to its fiscal year ending May 31, 2004 \$1,867,482 of losses recognized during the period November 1, 2002 to May 31, 2003.

The aggregate identified cost on a tax basis is \$71,338,824, resulting in gross unrealized appreciation and depreciation of \$4,293,129 and \$9,775,988, respectively, or net unrealized depreciation of \$5,482,859.

H) Distributions to shareholders Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

#### Note 2 Management fee, administrative services and other transactions

Putnam Management is paid for management and investment advisory services quarterly based on the average net assets of the fund. Such fee is based on 0.75% of the average weekly net assets.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by Putnam Fiduciary Trust Company (PFTC), a subsidiary of Putnam, LLC. Investor servicing agent functions are provided by Putnam Investor Services, a

division of PFTC.

The fund has entered into an arrangement with PFTC whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the fund's expenses. For the six months ended November 30, 2003, the fund's expenses were reduced by \$564 under these arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$530 has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan") which allows the Trustees to defer the receipt of all or a portion of Trustees fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years. Benefits under the Pension Plan are equal to 50% of the Trustee's average total retainer and meeting fees for the three years preceding retirement. Pension expense for the fund is included in Trustee compensation and expenses in the Statement of operations. Accrued pension liability is included in Payable for Trustee compensation and expenses in the Statement of assets and liabilities.

## Note 3 Purchases and sales of securities

During the six months ended November 30, 2003, cost of purchases and proceeds from sales of investment securities other than short-term investments aggregated \$20,450,909 and \$24,062,175, respectively. There were no purchases and sales of U.S. government obligations.

# Note 4 Regulatory matters and litigation

On November 13, 2003, Putnam Management agreed to entry of an order by the Securities and Exchange Commission (SEC) in partial resolution of administrative and cease-and-desist proceedings initiated by the SEC on October 28, 2003 in connection with alleged excessive short-term trading by at least six Putnam Management investment professionals. The SEC's findings reflect that four of those employees engaged in such trading in funds over which they had investment decision-making responsibility and had access to non-public information regarding, among other things, current portfolio holdings, and valuations. The six individuals are no longer employed by Putnam Management. Under the order, Putnam Management will make restitution for losses attributable to excessive short-term trading by Putnam employees, institute new employee trading restrictions and enhanced employee trading compliance, retain an independent compliance consultant, and take other remedial actions. Putnam Management neither admitted nor denied the order's findings, which included findings that Putnam Management willfully violated provisions of the federal securities laws. A civil monetary penalty and other monetary relief, if any, will be determined at a later date. If a hearing is necessary to determine the amounts of such penalty or other relief, Putnam Management will be precluded from arguing that it did not violate the federal securities laws in the manner described in the SEC order, the findings set forth in the SEC order will be accepted as true by the hearing officer and additional evidence may be presented. Putnam

Management, and not the investors in any Putnam fund, will bear all costs, including restitution, civil penalties and associated legal fees. Administrative proceedings instituted by the Commonwealth of Massachusetts on October 28, 2003 against Putnam Management in connection with alleged market timing activities by Putnam employees and by participants in some Putnam-administered 401(k) plans are pending. Putnam Management has committed to make complete restitution for any losses suffered by Putnam shareholders as a result of any improper market-timing activities by Putnam employees or within Putnam-administered 401(k) plans.

The SEC's and Commonwealth's allegations and related matters also serve as the general basis for numerous lawsuits, including purported class action lawsuits filed against Putnam Management and certain related parties, including certain Putnam funds. Putnam Management has agreed to bear any costs incurred by Putnam funds in connection with these lawsuits. Based on currently available information, Putnam Management believes that the likelihood that the pending private lawsuits and purported class action lawsuits will have a material adverse financial impact on the fund is remote, and the pending actions are not likely to materially affect its ability to provide investment management services to its clients, including the Putnam funds.

Review of these matters by counsel for Putnam Management and by separate independent counsel for the Putnam funds and their independent Trustees is continuing. In addition, Marsh & McLennan Companies, Inc., Putnam Management's parent company, has engaged counsel to conduct a separate review of Putnam Management's policies and controls related to short-term trading.

Results of October 7, 2003 shareholder meeting

An annual meeting of shareholders of the fund was held on October 7, 2003. At the meeting, each of the nominees for Trustees was elected, as follows:

		Votes
	Votes for	withheld
Jameson A. Baxter	6,597,140	221,608
Charles B. Curtis	6,592,590	226,158
John A. Hill	6,599,088	219,660

W. Thomas Stephens	6,600,730	218,018
W. Nicholas Thorndike	6,598,990	219,758

All tabulations are rounded to nearest whole number.

<sup>\*</sup>Mr. Lasser resigned from the Board of Trustees of the Putnam funds on November 3, 2003.

Fund information

About Putnam Investments

One of the largest mutual fund families in the United States, Putnam Investments has a heritage of investment leadership dating back to Judge Samuel Putnam, whose Prudent Man Rule has defined fiduciary tradition and practice since 1830. Founded over 65 years ago, Putnam Investments was built around the concept that a balance between risk and reward is the hallmark of a well-rounded financial program. We presently manage over 100 mutual funds in growth, value, blend, fixed income, and international.
