REASONS TO VOTE FOR SANDELL GROUP'S SLATE OF NOMINEES

Over the past two years, under the watch of the current Board of Directors, InfoSpace shares have declined 45%, destroying \$730 million of shareholder value, during a very healthy broad equity market and internet/technology investment environment. We believe that this dramatic underperformance can be traced to management missteps including misallocation of cash flow into businesses with poor fundamentals and failure to maximize existing assets. 2006 was the culmination of these mistakes with the company's announcement that it would be exiting the mobile content business and suspending investment in the direct-to-consumer business (Moviso), resulting in the associated restructuring charges and employee dismissals. Following this the company informed the investment community to expect the eventual evaporation of 75% of the revenues from the mobile business. This left the company with no growth or value creation strategy, since two of what the company referred to as its three "key initiatives," direct-to-consumer, content acquisition and mobile search, no longer exist. Important decisions need to be made at this juncture to determine how InfoSpace will maximize the value of its remaining assets. Further, despite a very large cash balance, the company repurchased no shares in 2004 or 2006, completing only \$70 million in 2005 out of a \$170 million authorization over the three year period. We do not take comfort in the recent positive performance of the shares, as a recovery from a two year loss of 57% to a loss of 45% can hardly be considered positive. The current board has presided over this destruction of value and has either approved or acquiesced in the decision making and capital allocation that we believe led to these results. Fortunately enough, the company still has substantial cash and has the opportunity to avoid future mistakes by returning it to shareholders. The Sandell Group believes there is significant value that is unrecognized by the market today and the board has the duty to maximize the value of these assets for shareholders.

Dow Jones Internet Index	9.9%	4.3%	20.5%
Nasdaq Composite	2.1%	10.3%	15.5%

In addition to the poor stock price performance, we are concerned about InfoSpace's poor financial performance. InfoSpace's operating income (excluding restructuring charges and stock-based compensation) has deteriorated steadily since the end of 2004, despite positive organic and acquisition related revenue growth. We believe this decline in profitability has driven the dramatic share price decline.

¹ Total Shareholder Returns reflect changes in share price plus dividends reinvested. All share prices used to calculate present Total Shareholder Returns are as of April 6th, 2007.

¹Yoy change is defined as growth versus the prior year's comparable quarter

We believe that this poor performance has been caused by 1) investment in a risky, and ultimately failed, mobile growth strategy, 2), failure to maximize profitability and drive growth at Online and 3) complacency over costs and poor internal controls. The investment into the mobile content business was a poor decision as the business had high costs, low margins and few barriers to entry. Once InfoSpace had invested the capital, proved the market opportunity and helped carriers achieve scale, the decision to go direct for the carriers was inevitable and should have been foreseen by management. During the time that management was focused on mobile, the internet search industry was in a period of rapid growth and aggressive capital investment. Competitors such as Google, Yahoo, MSN, AOL and Interactive Corp successfully grew their search-related businesses rapidly through innovation and investment. We readily acknowledge that InfoSpace's Online segment does not have the audience or market positions of these other companies, but we are confident that with greater focus, better results were achievable. On the cost side, we believe that management lost its focus on cost containment and allowed the downward trend of corporate expense to reverse and begin to increase after 2003. We are also concerned about some of the allegations regarding the company's internal controls in the recent \$100 million lawsuit filed by EMI against the company earlier this year. While we support the company's assertion that the case lacks merit, should EMI win a material judgment against InfoSpace, the disaster of the mobile content business would be indisputable.

The Sandell Group is the largest shareholder of InfoSpace, owning approximately 8.8% of the Company's outstanding shares. As the Company's largest shareholder, we believe that the addition of new qualified and independent shareholder-nominated directors is necessary to help make critical structural, financial and strategic decisions over the next year. Our Nominees would constitute a minority of the board and do not intend to interfere with the operations of the individual business units. Our intention is to seek to insure that the board investigates all opportunities for value creation and makes the proper decisions to maximize the value of the company's assets and, consequently, its share price. We believe that the Board will benefit from our Nominees' entrepreneurial approach, governance expertise, operational experience and commitment to remedy the Company's stagnating financial performance and to deliver results and increase value for all shareholders. As a recent example, the Sandell Group worked constructively with the board of directors and management of Southern Union Company to develop a plan to increase value for all shareholders through maximizing the value of the company's assets through the creation of a Master Limited Partnership (MLP). In the period from June 27, 2006 (the date on which the Sandell Group originally publicly disclosed its suggestions for value creation at Southern Union) to April 13, 2007, that company's stock price has increased 19.7%, including more than 6.5% since the company's announcement that it would

be creating an MLP by the end of the third quarter of 2007, one of the Sandell Group's key suggestions.

For the reasons outlined above, the Sandell Group is seeking to elect three highly qualified candidates to the InfoSpace board to act on behalf of all shareholders in a constructive way to create value. Our Nominees, if elected, will work with InfoSpace management and the other members of the Board in seeking to implement a strategic review of the current asset composition, more efficient capital allocation (including aggressive capital return to shareholders) and stronger management attention to cost cutting opportunities. Specifically, if elected, our Nominees intend to urge the Board to execute the following initiatives:

1. **Review composition of assets □ Immediate sale of the remaining mobile business, focus on Online segment, maximize use of NOLs**

InfoSpace has four highly valuable assets, Online, Mobile, Net Operating Loss Carryforwards (□NOLs□) and Cash. Key decisions need to be made in the next year by both management and the board of directors to determine how to maximize the value of these assets. We believe that the ideal strategy involves a sale of the mobile business and bolstering the operations of the highly profitable and cash generative online business. By increasing profitability in the online business, the company will simultaneously maximize the value of the NOLs. Maximizing the value of the remaining mobile business involves capital investment to drive growth and achieve scale, and we believe this is better done by a private equity group or other mobile infrastructure companies. Left inside InfoSpace where we, for one, have little appetite for funding losses and acquisitions after the content business value destruction, this currently valuable business would be at risk at being subscale and quickly surpassed by better capitalized competitors. Further, without constant investment and upgrading, it could also be replaced by proprietary solutions from carrier partners once the revenues reach critical mass. We believe that there are several parties who would be interested in acquiring the mobile business for values well in excess of that implied by the current share price. Our Nominees would push for the immediate retention of an investment bank to accomplish this strategic review.

2. **Return of Capital □ the company does not have a suitable use of the greater than \$400 million of cash and a substantial portion of this capital should be returned to shareholders**

We remain concerned that as long as the cash remains on the balance sheet, there is a tangible risk that it will be spent on risky acquisitions. Our Nominees would work expeditiously with the current board and financial advisors to determine an optimal plan for immediate return of a substantial portion of the \$400 million cash balance through stock repurchases and distributions. Any return of capital would be carefully weighed against tax considerations of both InfoSpace and the current shareholder base. The company's management frequently pays lip service to a capital return strategy, but the time for deliberation is past and decisive action should be taken immediately. We are confident that an optimal solution can be achieved and the full

capital distribution can be achieved before the end of 2007 at the latest. The company would also likely have cash proceeds from the sale of mobile which should also be returned to shareholders.

3. Cost Cutting □ the conglomerate style corporate structure results in unnecessary expense and duplicative administrative layers

We believe that InfoSpace is burdened with a sub-optimal expense structure that masks the true profitability of the Online segment. The search and directories segment boasts industry leading 66% gross margins and achieved a 42% segment operating margin in 2005. After a reasonable level of corporate cost allocation, we believe that this business should be able to deliver 40% EBITDA margins or approximately \$75 million of annual EBITDA. However, little of this profitability seems to reach the bottom line due to up to \$40 million of corporate overhead expense, last disclosed in 2005. We fail to see the value add of having a conglomerate type management structure (multiple levels of senior management at both the division and corporate levels), on a \$400 million enterprise value company with only two operating divisions. In 2006, senior management received total compensation (including stock based compensation) of greater than \$14 million, which included over \$5 million for the CEO and \$4 million for the former President of Mobile. Total stock-based compensation of \$16.9 million was 46% of total operating income of INSP in 2006 (excluding reported restructuring charges). Also concerning is that \$14.4 million of the \$16.9 million in total stock compensation expense went to senior management, indicating that only \$2.5 million of stock based compensation was awarded to the all of the other 500+ employees at INSP. Once the mobile business is sold, our Nominees would work aggressively to simplify the corporate structure, eliminate duplicative management layers and provide a more balanced incentive-based compensation structure company-wide.

We are confident that our Nominees would, if elected, help bring more accountability, focus and discipline to the way InfoSpace is managed. Our Nominees are committed to confronting more effectively the critical issues and decisions facing the Company and, if elected, will seek to ensure that the company delivers on its opportunities to enhance long-term shareholder value for all shareholders.

We also believe that improved governance is necessary at InfoSpace given the recent history of poor share price and financial performance and questionable decision-making on capital allocation and capital return. In April 2007, Institutional Shareholder Services (ISS), one of the preeminent corporate governance advisory services, ranked InfoSpace in the lowest 38.2% of companies in the Russell 3000 and the lowest 52.7% of companies in the software and services industry. We believe this leaves a great deal of room for improvement in governance. Our Nominees would work to enhance the quality of the governance practices at the company.

Our Nominees, if elected, will only constitute a minority of the eight members of the Board expected to be in office following the 2007 Annual Meeting. Under the Company's Bylaws, a quorum for the transaction of business requires a majority of the directors in office and

Board action requires a majority of the directors present at a meeting at which a quorum is present. Accordingly, our Nominees, if elected, will not be able to take Board action at a meeting of the full Board without the support of at least two other directors.

We believe that our Nominees are well suited to help create significant shareholder value at InfoSpace. Our Nominees are committed to acting in the best interests of all shareholders. We believe that your voice in the future of InfoSpace can best be expressed through the election of our Nominees. Accordingly, we urge you to vote your GOLD proxy card FOR Nick Graziano, Jon Macey and Paul Schaut.

BACKGROUND TO THE SOLICITATION

On March 1, 2007, a representative of the Sandell Group met with management of InfoSpace to discuss (i) the company's business fundamentals and performance, (ii) the Sandell Group's suggestions to increase shareholder value, including a possible share repurchase and (iii) the Sandell Group's strong apprehension regarding the use of cash to finance any near-term acquisitions. InfoSpace agreed to have a follow-up conversation with the Sandell Group to further discuss these issues prior to the deadline for submitting notice of nomination of directors for the 2007 annual meeting.

On March 12, 2007, based on the lack of any definitive response from InfoSpace, the Sandell Group sent a letter to the board of directors, again expressing concern over the lack of definitive plans for the company's large cash balance and management's complacency with respect to cost controls.

On March 13, 2007, a representative of the Sandell Group had a telephone conference call with members of management to follow up on the points raised at the March 1 meeting and in the March 12 letter. This call did not result in any clarification of the company's position with respect to the Sandell Group's concerns.

On March 15, 2007, the Sandell Group delivered a letter to InfoSpace, informing InfoSpace of the Sandell Group's intention to appear in person or by proxy at the 2007 annual meeting of stockholders to nominate Nick Graziano, Jonathan Macey and Paul L. Schaut for election to the board of directors.

On March 26, 2007, the Sandell Group delivered a letter to InfoSpace demanding, pursuant to Delaware law, the opportunity to inspect certain stocklist materials of the company in order to assist the Sandell Group in the solicitation of proxies for the annual meeting.

PROPOSAL 1: ELECTION OF DIRECTORS

According to the Company's 2007 proxy statement, three directors are to be elected to the Board at the 2007 Annual Meeting. The Sandell Group recommends that stockholders elect Nick Graziano, Jonathan R. Macey and Paul L. Schaut as directors of the Company at the 2007 Annual Meeting. Each of our Nominees has consented to being named as a Nominee and to serving as a director if elected. If elected, each Nominee will serve until the 2010 annual meeting of stockholders and until his successor shall have been duly elected and qualified or until his earlier death, resignation or removal. If elected, each of our Nominees will be considered an independent director of the Company under applicable NASDAQ Stock Market rules.

Our Nominees will not receive any compensation from the Sandell Group or its affiliates for their services as directors of the Company if elected, provided, however, that Professor Macey and Mr. Schaut each received a fee of \$25,000 from SAMC at such time as his nomination was made. If elected, our Nominees will be entitled to such compensation from the Company as is consistent with the Company's past practices for services of non-employee directors, which is described in the Company's proxy statement.

According to the Company's proxy statement, the Company's Board of Directors consists of nine seats divided into three classes of equal size, with two seats being vacant as of the date of this proxy statement. Only Class II directors are to be elected at the 2007 Annual Meeting. One of the two vacant seats is expected to be filled upon the adjournment of the 2007 Annual Meeting. As a result, our Nominees, if elected, will only constitute a minority of the eight members of the Board expected to be in office upon the adjournment of 2007 Annual Meeting. Under the Company's Bylaws, a quorum for the transaction of business requires a majority of the directors in office and Board action requires a majority of the directors present at a meeting at which a quorum is present. Accordingly, our Nominees, if elected, will not be able to take Board action at a meeting of the full Board without the support of at least two other directors.

PROPOSAL 2: REPEAL CERTAIN AMENDMENTS TO BYLAWS

Section 11 of the Company's Bylaws provides that, with certain limited exceptions, the Bylaws may be amended by the Board, subject to the ability of the stockholders to adopt, amend or repeal the Bylaws. We believe that in order to ensure that the will of the Company's stockholders with respect to this proxy solicitation is upheld, no effect should be given to any provision or amendment to the Bylaws unilaterally adopted by the Board after the date of the most recent publicly disclosed Bylaws, which is February 12, 2003. Stockholders are therefore being asked to adopt a resolution that would repeal any provision of the Bylaws or amendment to the Bylaws that the Board adopted or adopts after February 12, 2003 and before the due election and qualification of the directors elected at the 2007 Annual Meeting, including, without limitation, any amendments the Board has adopted without public disclosure or might adopt in an effort to impede the effectiveness of the Sandell Group's nomination of its Nominees, negatively impact the Sandell Group's ability to solicit and/or obtain proxies from stockholders, countermand the will of the stockholders expressed in those proxies or modify the Company's corporate governance regime. We are not currently aware of any specific bylaw provisions that would be repealed by the adoption of this Proposal.

Although adoption of this Proposal could have the effect of repealing previously undisclosed bylaw amendments without considering the beneficial nature, if any, of such amendments to the stockholders, it would not repeal any such amendments that were approved by the stockholders.

Proposal 2 provides for the adoption of the resolution in the following form:

RESOLVED, that the Bylaws of the Company are hereby amended to repeal any and all amendments thereto adopted by the Board of Directors of the Company and not by the stockholders of the Company after February 12, 2003 and prior to the due election and qualification of the directors elected at the Annual Meeting.

WE STRONGLY URGE YOU TO VOTE FOR PROPOSAL 2 BY SIGNING, DATING AND RETURNING YOUR GOLD PROXY CARD TODAY IN THE ENCLOSED POSTAGE-PAID ENVELOPE.

PROPOSAL 3: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

According to the Company's proxy statement, the Company is soliciting proxies to ratify the Audit Committee's selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm to audit the financial statements of InfoSpace for 2007. Please refer to the Company's proxy statement under "Proposal Two - Ratification Of Appointment of Independent Registered Public Accounting Firm" for a discussion of this proposal. The Sandell Group does not object to the ratification of the Company's Audit Committee's selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm.

PROXY INFORMATION

The enclosed GOLD proxy card may be executed only by holders of record of Shares on the Record Date. If you were a stockholder of record on the Record Date, you will retain your voting rights at the 2007 Annual Meeting even if you sell your Shares after the Record Date. Accordingly, it is important that you vote the Shares held by you on the Record Date, or grant a proxy to vote your Shares on the GOLD proxy card, even if you sell your Shares after the Record Date. The Shares represented by each GOLD proxy card that is properly executed and returned to the Sandell Group will be voted at the 2007 Annual Meeting in accordance with the instructions marked thereon. If you have signed the GOLD proxy card and no marking is made, you will be deemed to have given a direction to vote all of the Shares represented by the GOLD proxy card (i) FOR the election of all of our Nominees (or, if applicable, one or both of the Alternate Nominees) and (ii) FOR the approval of Proposal 2 set forth in this proxy statement.

If you hold your Shares in the name of one or more brokerage firms, banks or nominees, only they can vote your Shares and only upon receipt of your specific instructions. Accordingly, you should contact the person responsible for your account and give instructions for a GOLD proxy card representing your Shares to be signed and returned. The Sandell Group urges you to confirm in writing your instructions to the person responsible for your account and to provide a copy of those instructions to The Sandell Group, c/o MacKenzie Partners, Inc., 105 Madison Avenue, New York, NY 10016, so that we will be aware of all instructions given and can attempt to ensure that those instructions are followed.

REVOCAION OF PROXIES

Any stockholder of record may revoke or change his or her proxy instructions at any time prior to the vote at the 2007 Annual Meeting by:

- submitting a properly executed, subsequently dated GOLD proxy card that will revoke all prior proxy cards, including any White proxy cards which solicit a proxy in favor of the Company's nominees;

- attending the 2007 Annual Meeting and withdrawing his or her proxy by voting in person (although attendance at the 2007 Annual Meeting will not in and of itself constitute revocation of a proxy); or
- delivering written notice of revocation either to the Sandell Group c/o MacKenzie Partners, Inc., 105 Madison Avenue, New York, NY 10016, or the Corporate Secretary of InfoSpace at 601 108th Avenue NE, Suite 1200, Bellevue, Washington 98004, or any other address provided by the Company.

Although a revocation is effective if delivered to the Company, the Sandell Group requests that either the original or a copy of any revocation be mailed to the Sandell Group c/o

MacKenzie Partners, Inc., 105 Madison Avenue, New York, NY 10016, so that the Sandell Group will be aware of all revocations and can more accurately determine if and when the requisite proxies for the election of our Nominees as directors and the other proposals set forth herein have been received. The Sandell Group may contact stockholders who have revoked their proxies.

IF YOU PREVIOUSLY SIGNED AND RETURNED A WHITE PROXY CARD TO THE COMPANY, THE SANDELL GROUP URGES YOU TO REVOKE IT BY (1) SIGNING, DATING AND RETURNING THE GOLD PROXY CARD IN THE ENCLOSED POSTAGE-PAID ENVELOPE, (2) INSTRUCTING US BY TELEPHONE OR VIA THE INTERNET AS TO HOW YOU WOULD LIKE YOUR SHARES VOTED, (3) ATTENDING THE 2007 ANNUAL MEETING AND VOTING IN PERSON OR (4) DELIVERING A WRITTEN NOTICE OF REVOCATION TO THE SANDELL GROUP OR TO THE SECRETARY OF THE COMPANY.

Assuming a quorum is present or otherwise represented at the 2007 Annual Meeting, each of the proposals set forth in this proxy statement will be approved by the majority of the votes cast by the stockholders entitled to vote. Abstentions and broker non-votes will have no effect on these proposals since such actions do not represent votes cast on these proposals. Delaware law expressly provides for the authorization of proxies by electronic means. Accordingly, you may submit your proxy by telephone or the Internet. To submit a proxy with voting instructions by telephone please call the telephone number listed on the GOLD proxy card. Proxies may also be submitted over the Internet.
