PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Organization and Summary of Significant Accounting Policies

A. Organization

GrafTech International Ltd. (the "Company") is one of the world's largest manufacturers and providers of high quality synthetic and natural graphite and carbon based products. References herein to "GTI," "we," "our," or "us" refer collectively to GrafTech International Ltd. and its subsidiaries. We have seven major product categories: graphite electrodes, refractory products, needle coke products, advanced electronics technologies, advanced graphite materials, advanced composite materials and advanced materials, which are reported in the following segments:

Industrial Materials includes graphite electrodes, refractory products, and needle coke products, and primarily serves the steel industry.

Engineered Solutions includes advanced electronics technologies, advanced graphite materials, advanced composite materials and advanced materials, and provides primary and specialty products to the advanced electronics, industrial, energy, transportation and defense industries.

B. Basis of Presentation

The interim Consolidated Financial Statements are unaudited; however, in the opinion of management, they have been prepared in accordance with Rule 10-01 of Regulation S-X and in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The December 31, 2014 financial position data included herein was derived from the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "Annual Report") but does not include all disclosures required by GAAP. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the accompanying notes, contained in the Annual Report.

The unaudited consolidated financial statements reflect all adjustments (all of which are of a normal, recurring nature) which management considers necessary for a fair statement of financial position, results of operations, comprehensive income and cash flows for the interim period presented. The results for the interim periods are not necessarily indicative of results which may be expected for any other interim period or for the full year.

C. New Accounting Standards

In May 2014, FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. This ASU supersedes the revenue recognition requirements in Accounting Standards Codification 605—Revenue Recognition and most industry-specific guidance throughout the Codification. This ASU requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is supposed to be effective for fiscal years beginning after December 15, 2016, and for interim periods within those fiscal years. On July 9, 2015, the FASB deferred the effective date to fiscal years beginning after December 15, 2017. We are in the process of assessing the impact of the adoption of ASU 2014-09 on the Company's financial position, results of operations and cash flows. On April 7, 2015, FASB issued ASU 2015-3, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2015. The Company had \$9.7 million and \$11.3 million of capitalized bank fees included within "Other Assets" on our consolidated balance sheets as of December 31, 2014 and June 30, 2015, respectively.

(2) Pending Preferred Share Issuance and Tender Offer

Preferred Stock

On May 4, 2015, the Company entered into an Investment Agreement (the "Investment Agreement") with BCP IV GrafTech Holdings LP, an affiliate of Brookfield Capital Partners Ltd. ("Brookfield"), pursuant to which the Company agreed to issue and sell and Brookfield agreed to purchase and pay for: (i) shares of a new Series A Convertible Preferred Stock, par value \$0.01 per share (the "Series A Preferred Stock") in an amount equal to 19.9% of the

PART I (CONT'D)
GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Company's outstanding common stock (the "Series A Preferred Shares") and (ii) shares of a new Series B Convertible Preferred Stock, par value \$0.01 per share (the "Series B Preferred Stock," and, together with the Series A Preferred Stock, the "Preferred Stock"), in an amount equal to 150,000 less the number of Series A Preferred Shares, for an aggregate purchase price of \$150,000,000 in cash (the "Purchase Price").

The closing of the purchase and sale of the Preferred Stock (the "Closing") is expected to occur upon the satisfaction of customary closing conditions set forth in the Investment Agreement and the satisfaction of any other applicable regulatory approval requirements.

Pursuant to the Investment Agreement, the Company is required to reimburse Brookfield for its reasonable, out-of-pocket fees and expenses (including the reasonable fees and expenses of legal counsel, accountants, investment bankers, brokers, or other representatives or consultants) up to \$500,000 incurred in connection with the transaction. The proceeds from the sale of the Preferred Stock will be used by the Company, along with its other cash and borrowing resources, to repay the Company's senior subordinated notes due to mature in November 2015.

Upon issuance, the Series A Preferred Stock will be immediately convertible, at Brookfield's option, into shares of common stock of the Company, at a conversion price of \$5.00 per common share, subject to customary anti-dilution adjustments. Each share of the Series B Preferred Stock will automatically convert into one share of Series A Preferred Stock upon approval by the Company's stockholders of such conversion in accordance with New York Stock Exchange requirements (the "Stockholder Approval"). The Company has agreed to seek the Stockholder Approval at the Company's 2015 annual stockholders meeting.

The Preferred Stock will be entitled to an annual dividend at the rate of 7.0% prior to any dividend or distribution with respect to any of the Company's capital stock junior to the Preferred Stock, which will be due and payable quarterly in arrears in cash. Dividends will be cumulative and will accrue until paid. If the Company fails to make timely dividend payments, the dividend rate would increase to 8% per annum until such time as all accrued but unpaid dividends have been paid in full. The Preferred Stock will have a liquidation preference equal to the greater of (x) \$1,000 per share, plus all accrued and unpaid dividends thereon, whether or not declared and (y) the amount that the holders of the Preferred Stock would have received had they converted the Preferred Stock into shares of common stock (or Series A Preferred Stock in the case of Series B Preferred Stock) immediately prior to the time of liquidation. The Preferred Stock will rank junior to the Company's existing and future indebtedness. The Series A Preferred Stock will have certain mandatory redemption rights at the holders' option following the seventh anniversary of the issue date and certain redemption rights at the option of the Company following the fourth anniversary of the issue date if the daily volume weighted average price of the Company's common stock equals or exceeds 175.0% of the conversion price for at least 40 trading days during a period of 60 consecutive trading days, in each instance at a redemption price per share equal to \$1,000 per share plus all accrued and unpaid dividends thereon, whether or not declared. The Series B Preferred Stock has a mandatory redemption right at the holders' option if the Stockholder Approval is not obtained by a specified date. The holders of the Preferred Stock also have the right, upon the occurrence of a change of control (other than one for which such holders have a repurchase right under the Investment Agreement), to require the Company to repurchase all or any portion of such holder's shares of Preferred Stock, at a make-whole premium.

The holders of the Preferred Stock will be entitled to vote as a class on matters adversely affecting the Preferred Stock and, subject to certain ownership thresholds, on the election of designated board nominees, and the holders of the Series A Preferred Stock will be entitled to vote together with the holders of common stock, as a single class, on an as converted basis, on other matters. So long as 25% of the originally issued shares of Series A Preferred Stock is outstanding, holders of a majority of the Preferred Stock are entitled to veto rights over issuances of senior or parity securities and changes to the certificate of incorporation of the Company that are adverse to the Preferred Stock. We recorded \$2.9 million of issuance costs related to the Preferred Stock transaction as of June 30, 2015 in Prepaid and other current assets on the balance sheet, of which \$2.7 million were paid in cash and included in the Cash Flow

from Financing section of the Statement of Cash flows.

If the convertible preferred stock is issued, it would trigger acceleration of vesting of certain equity awards, performance awards at 100%, accelerated payment of certain awards and deferred compensation. If at least the minimum number of shares is purchased in the tender offer, it would constitute a change in control (as defined in our Credit Agreement) of the Company. As a result, the administrative agent, or lenders having more than 50% of the term loans, revolving exposures and unused commitments under our Credit Agreement may terminate the commitments

7

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

under the Credit Agreement and declare the loans thereunder then outstanding to be due and payable in whole (or in part). In addition, if more than 35% of the then outstanding shares are purchased in the tender offer, it would constitute a change in control (as defined in the indenture for the Senior Notes) of the Company. If certain downgrades of the ratings of the Senior Notes as specified in the indenture occur subsequent to the change in control, the Company will be required to offer to repurchase any or all of the Senior Notes at a repurchase price equal to 101% of the aggregate principal amount of the Senior Notes, plus any accrued and unpaid interest. Finally, if, prior to maturity or redemption, a change in control (as defined in the Senior Subordinated Notes) of the Company occurs, the holders of a majority of the Senior Subordinated Notes may, by written notice to the Company, declare the principal amount then outstanding under all (but not less than all) of the Senior Subordinated Notes to be immediately due and payable. If either the Credit Agreement or the Senior Subordinated Notes were accelerated, that may result in events of default in other agreements, including the indenture for the Senior Notes, which would permit the counterparties to such agreements to terminate those agreements and accelerate amounts that may be due thereunder. In addition, such transactions could impact the cash flows, ability to utilize net operating losses, earnings per share and other financial metrics and could result in litigation. We intend to obtain waivers relating to the change in control provisions in our Credit Agreement, however, there is no assurance we will be able to obtain such waivers.

Merger Agreement

On May 17, 2015, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with BCP IV GrafTech Holdings LP, a Delaware limited partnership ("Parent"), and Athena Acquisition Subsidiary Inc., a Delaware corporation and a wholly owned subsidiary of Parent ("Acquisition Sub"), pursuant to which, among other things, Parent has agreed to make a cash tender offer (the "Offer") to purchase any and all of the outstanding shares of the Company's common stock, par value \$0.01 per share (the "Shares"), at a purchase price of \$5.05 per Share in cash (the "Offer Price"). Parent and Acquisition Sub are indirect wholly owned subsidiaries of Brookfield.

The Offer commenced on May 26, 2015. The Offer's initial term was extended in accordance with the Merger Agreement and expired at midnight, New York Time, on July 28, 2015. The Offer was again extended in accordance with the Merger Agreement for an additional ten business days to allow for regulatory approvals. The Offer is to expire at midnight, New York Time, on August 13, 2015. The Offer is subject to the condition that prior to the expiration of the Offer, there have been validly tendered and not withdrawn, a number of Shares that, together with the Shares then owned by Brookfield and its controlled affiliates (including Shares issuable upon conversion of the Preferred Stock) represents at least 30% of the then outstanding Shares (the "Minimum Condition").

Pursuant to the Merger Agreement, if Shares validly tendered and not withdrawn in the Offer, together with the Shares then owned by Brookfield and its controlled affiliates (including Shares issuable upon conversion of the Preferred Stock, represent at least 80% of the then outstanding Shares plus the Shares issuable upon conversion of the Preferred Stock (the "Merger Condition"), Parent will transfer the Preferred Stock held by Parent to Acquisition Sub, Acquisition Sub (instead of Parent) will accept the Shares for purchase in the Offer and Acquisition Sub will merge with and into the Company, the separate corporate existence of Acquisition Sub will cease and the Company will continue as the surviving corporation and a wholly owned subsidiary of Parent (the "Merger"). If the Merger Condition is satisfied, each Share that is not tendered and accepted pursuant to the Offer (other than cancelled shares, dissenting shares and shares held by the Company's subsidiaries or Parent's subsidiaries (other than Acquisition Sub)) will thereupon be cancelled and converted into the right to receive cash consideration in an amount equal to the Offer Price. The Merger Agreement contemplates that the Merger would be effected pursuant to Section 251(h) of the General Corporation Law of the State of Delaware (the "DGCL") pursuant to which no stockholder vote will be required to consummate the Merger. If the Company terminates the Merger Agreement to enter into an agreement for a superior proposal (as defined in the Merger Agreement), the Company would be required to pay a designee of the Parent a \$20 million termination fee.

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

(3) Rationalizations and Impairments

Throughout 2013, 2014 and 2015 the Company undertook rationalization plans in order to streamline our organization and lower our production costs. The total rationalization and related charges incurred during the three and six months ended June 30, 2014 and 2015 are as follows:

All Plans	For the Three Months Ended June 30, 2014				For the Three Months Ended June 30, 2015			
	Industrial Materials Segment	Engineered Solutions Segment	Corp, R&D and Other	Total	Industrial Materials Segment	Engineered Solutions Segment	Corp, R&D and Other	Total
(Dollars in thousands)								
Recorded in Cost of Sales

Fixed asset write-offs and other	4,403	131	—	4,534	413	1,072	—	1,485
Recorded in Research and Development								
Accelerated depreciation	—	—	—	—	—	—	319	319
Recorded in Selling and General Administrative								
Other	53	—	—	53	400	292	(276)	416
Recorded in Rationalizations								
Severance and related costs	304	—	—	304	104	1,641	(130)	1,615
Contract terminations	527	—	—	527	—	154	—	154
Total	\$8,971	\$11,601	\$—	\$20,572	\$917	\$3,303	\$(87)	\$4,133

In the three months ended June 30, 2015, in connection with our rationalization initiatives, two sites, located respectively in Salvador, Brazil and in Pennsylvania, United States, substantially completed their decommissioning efforts and met the criteria for assets held for sale. Because the carrying value of the sites did not exceed their estimated fair value, no additional impairment was recorded. As of June 30, 2015, the sites held for sale represent \$1.7 million of assets reported under "Property, plant and equipment" and \$0.5 million of liabilities, reported under "Other accrued liabilities".

2013 Industrial Materials Rationalization

On October 31, 2013, we announced a global initiative to reduce our Industrial Materials segment's cost base and improve our competitive position. As part of this initiative, we ceased production at our two highest cost graphite electrode plants, located in Brazil and South Africa, as well as a machine shop in Russia. Our graphite electrode capacity was reduced by approximately 60,000 metric tons as a result of these actions. In parallel, we adopted measures for reductions in overhead and related corporate operations. These actions and measures reduced global headcount by approximately 600 people, or approximately 20 percent of our global workforce. These actions were substantially completed during the first half of 2014.

2013 Engineered Solutions Rationalization

In order to optimize our Engineered Solutions platform and improve our cost structure, we also initiated actions to centralize certain operations and reduce overhead in our Engineered Solutions segment. These actions reduced global headcount by approximately 40 people and were substantially completed during 2014.

Payments and settlements	(1,132)
Effect of change in currency exchange rates	(91)
Balance as of June 30, 2015	\$ 82	

2014 Engineered Solutions Rationalization

On July 29, 2014, we announced additional rationalization initiatives to increase profitability, reduce cost and improve global competitiveness in our Engineered Solutions segment. During the second quarter of 2014, worldwide pricing of our isomolded graphite products ("isomolded") within our Advanced Graphite Material ("AGM") product group, as well as our expectation of future pricing, significantly eroded, driven by significant over-capacity and recent competitor responses. In addition, solar product demand continued to erode, with polysilicon, silicon and silicon wafer production migrating to China. New competitors servicing this industry commenced production in China at pricing levels making the market now unprofitable. As a result of these conditions, the Company decided to cease isomolded production and pursue alternative supply chain relationships in our isomolded product line.

As a result of the above, we tested our long-lived assets used to produce advanced graphite materials for recovery, based on undiscounted cash flows from the use and eventual disposition of these assets. The carrying value of the assets exceeded these undiscounted cash flow and, accordingly, we estimated the fair-value of these long-lived assets based on a market participant view. This resulted in an impairment charge totaling 121.6 million during 2014, and included the impairment of certain acquired customer relationship and technology intangible assets.

Charges incurred related to the 2014 Engineered Solutions rationalization initiatives in 2015 are as follows:

2014 Corporate and Research & Development Rationalization

During the third quarter of 2014, we announced the conclusion of another phase of our on-going company-wide cost savings assessment. This resulted in changes to the Company's operating and management structure in order to streamline, simplify and decentralize the organization. These actions are designed to reduce costs by a combination of reduced contractor costs, attrition, early retirements and layoffs. Additionally, the Company downsized its corporate functions by approximately 25 percent, relocated to a smaller, more cost effective corporate headquarters and established a new Technology and Innovation Center. The 2014 Corporate and Research and Development rationalization plan will result in approximately \$20 million of charges consisting of severance, accelerated depreciation and other related costs, of which approximately \$14 million have been incurred through June 30, 2015. Approximately \$12 million of these costs will be cash outlays, the majority of which are expected to be disbursed in 2015.

(4) Stock-Based Compensation

For the three months ended June 30, 2014 and 2015, we recognized stock-based compensation expense of \$2.2 million and \$1.1 million, respectively. Substantially all of the expense, \$1.6 million and \$1.0 million, respectively, was recorded as selling and administrative expenses in the Consolidated Statements of Operations, with the remaining expenses recorded as cost of sales and research and development.

For the six months ended June 30, 2014 and 2015, we recognized stock-based compensation expense of \$2.8 million and \$2.7 million, respectively. Substantially all of the expense, \$2.1 million and \$2.5 million, respectively, was recorded as selling and administrative expenses in the Consolidated Statements of Operations, with the remaining expenses recorded as cost of sales and research and development.

As of June 30, 2015, the total compensation cost related to non-vested restricted stock, performance shares based on current forecasts, and stock options not yet recognized was \$8.4 million, which will be recognized over the remaining weighted average life of 1.68 years.

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Restricted Stock and Performance Shares

Restricted stock and performance share awards activity under the plans for the six months ended June 30, 2015 was:

	Number of Shares	Weighted- Average Grant Date Fair Value
Outstanding unvested as of January 1, 2015	1,814,130	\$6.31
Granted	19,969	8.31
Vested	(55,211)	10.23
Forfeited/canceled/expired	(188,407)	6.42
Outstanding unvested as of June 30, 2015	1,590,481	6.18

Stock Options

Stock option activity under the plans for the six months ended June 30, 2015 was:

	Number of Shares	Weighted- Average Exercise Price
Outstanding as of January 1, 2015	2,042,074	\$10.93
Forfeited/canceled/expired	(203,592)	10.77
Outstanding as of June 30, 2015	1,838,482	10.95

(5) Earnings per Share

The following table shows the information used in the calculation of our share counts for basic and diluted earnings per share:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2014	2015	June 30, 2014	2015
Weighted average common shares outstanding for basic calculation	135,963,054	137,252,356	135,713,004	137,112,630
Add: Effect of stock options and restricted stock	—	—	—	—
Weighted average common shares outstanding for diluted calculation	135,963,054	137,252,356	135,713,004	137,112,630

Basic earnings per common share are calculated by dividing net income (loss) by the weighted average number of common shares outstanding. Diluted earnings per share are calculated by dividing net income (loss) by the sum of the weighted average number of common shares outstanding plus the additional common shares that would have been outstanding if potentially dilutive securities had been issued.

The weighted average common shares outstanding for the diluted calculation excludes consideration of stock options covering 1,079,251 shares in both the three and six months ended June 30, 2014, as these shares are anti-dilutive. The weighted average common shares outstanding for the diluted calculation excludes consideration of stock options covering 1,359,199 shares in both the three and six months ended June 30, 2015, as these shares are anti-dilutive.

(6) Segment Reporting

We operate in two reportable segments: Industrial Materials and Engineered Solutions.

Industrial Materials. Our Industrial Materials segment manufactures and delivers high quality graphite electrodes, refractory products and needle coke products. Electrodes are key components of the conductive power systems used to produce steel and other non-ferrous metals. Refractory products are used in blast furnaces and submerged arc furnaces due to their high thermal conductivity and the ease with which they can be machined to large or complex shapes. Needle coke, a crystalline form of carbon derived from decant oil, is the key ingredient in, and is used primarily in, the production of graphite electrodes.

Engineered Solutions. The Engineered Solutions segment includes advanced electronics technologies, advanced graphite materials, advanced composite materials and advanced materials. Advanced electronics technologies products consist of electronic thermal management solutions, fuel cell components and sealing materials. Advanced graphite materials are highly engineered synthetic graphite products used in many areas due to their unique properties and the ability to tailor them to specific solutions. These products are used in transportation, alternative energy, metallurgical, chemical, oil and gas exploration and various other industries. Advanced composite materials are highly engineered carbon products that are woven into various shapes primarily to support the aerospace and defense industries. Advanced materials use carbon and graphite powders as components or additives in a variety of industries, including metallurgical processing, battery and fuel cell components, and polymer additives.

We continue to evaluate the performance of our segments based on segment operating income. Intersegment sales and transfers are not material and the accounting policies of the reportable segments are the same as those for our Consolidated Financial Statements as a whole. Prior to 2014, certain global expenses such as research and development, shared IT and accounting services as well as corporate headquarter's finance, HR, legal and executive management were allocated to the segments mostly based on each segment's contribution to consolidated sales. During 2014, as part of our initiative to decentralize the organization and reduce the costs of the global headquarter functions, the performance measure of our existing segments was changed to reflect our new management and operating structure. We currently exclude such expenses from the segment operating income measure and report them under "Corporate, R&D and Other Expenses" in order to reconcile to the consolidated operating income of the Company. The following tables summarize financial information concerning our reportable segments and all prior periods have been recast to reflect our new methodology:

Expected return on plan assets	(1,938)	(1,354)	(3,876)	(2,708)
Amortization of prior service cost	1	1	2	2
Net cost	\$705	\$679	\$1,410	\$1,679

The components of our consolidated net postretirement costs are set forth in the following table:

	For the Three Months Ended June 30, 2014		For the Six Months Ended June 30, 2014	
	2014	2015	2014	2015
	(Dollars in thousands)		(Dollars in thousands)	
Service cost	\$19	\$4	\$38	\$8
Interest cost	352	315	704	630
Curtailement loss	1,048	—	1,048	—
Amortization of prior service benefit	(47)	(43)	(94)	(86)
Net cost	\$1,372	\$276	\$1,696	\$552

On March 27, 2015, we settled \$59.0 million of projected benefit obligations in the United Kingdom through the purchase of a group annuity contract. The purchase was fully funded with pension assets. The obligation associated with this transaction will require no additional cash contributions by the company. The results of this settlement were not material to our operations.

(8) Goodwill and Other Intangible Assets

We are required to review goodwill and indefinite-lived intangible assets annually for impairment. Goodwill impairment is tested at the reporting unit level (graphite electrodes, needle coke) on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

Our annual impairment test of goodwill was performed as of December 31, 2014 for all reporting units. The estimated fair values of our reporting units were based on discounted cash flow ("DCF") models derived from internal earnings forecasts and assumptions. The assumptions and estimates used in these valuations incorporated the then current and expected economic environment. Based on these valuations, the fair value for the needle coke reporting unit was below the carrying value resulting in a step two analysis and consequently a goodwill impairment charge of \$75.7 million for the year ended December 31, 2014.

We received notice in March, 2015, that the market prices for needle coke were decreasing by an additional 18%, effective for the second quarter of 2015. This decline is further compressing our margins for needle coke products

versus our annual plan. We determined that this change, which is driven by over capacity in the market indicated that the needle coke industry is facing a deeper and longer trough than previously expected. As such we considered the additional price change as a triggering event and tested our needle coke goodwill for impairment as of March 31, 2015.

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

In the first step of the analysis, we compared the estimated fair value of the reporting unit to its carrying value, including goodwill. The fair value of the reporting unit was determined based on an income approach, using DCF models from a market participant's perspective. The DCF model included seventeen years of forecasted cash flows, plus an estimated terminal value. For the first several years in the models, the cash flows were based upon the current operating and capital plans as prepared by management and approved by executive management, adjusted to reflect the perspective of potential market participants. Beyond the first several years, the DCF model reflects known trends of cycles in the industry and incorporates them in the terminal value. Actual results may differ from those assumed in the Company's forecast. A discount rate of 10.5% was applied to the forecasted cash-flows and is based on a weighted average cost of capital ("WACC"). Company specific beta and mix of debt to equity are inputs into the determination of the discount rate, which is then qualitatively assessed from the standpoint of potential market participants.

As a result of the step one analysis described earlier, the fair value of the needle coke reporting unit was less than its carrying value. Consequently, we performed the second step of the impairment analysis in order to determine the implied fair value of the goodwill associated with the reporting unit. The implied fair value of goodwill represents the excess of the fair value of the reporting unit over the sum of the fair value amounts assigned to all of the assets and liabilities of the reporting unit as if it were to be acquired in a business combination and the current fair value of the reporting unit (as calculated in the first step) was the purchase consideration. The implied fair value of goodwill was then compared to the carrying value of the goodwill to determine the impairment charge. The needle coke goodwill was fully impaired, resulting in a charge of \$35.4 million. The full impairment of the needle coke reporting unit's goodwill was a result of our reassessment of the estimated future cash-flows, triggered by the pricing decline in the needle coke market effective April 1, 2015.

The changes in the carrying value of goodwill during the six months ended June 30, 2015 are as follows:

	Total (Dollars in Thousands)
Balance as of December 31, 2014	\$420,129
Impairment	(35,381)
Currency translation effect	(316)
Balance as of June 30, 2015	\$384,432

The following table summarizes acquired intangible assets with determinable useful lives by major category as of December 31, 2014 and June 30, 2015:

	As of December 31, 2014			As of June 30, 2015		
	Gross Carrying Amount (Dollars in Thousands)	Accumulated Amortization & Impairment	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization & Impairment	Net Carrying Amount
Trade name	\$7,900	\$(4,817)	\$3,083	\$7,900	\$(5,154)	\$2,746
Technological know-how	43,349	(24,940)	18,409	43,349	(27,926)	15,423
Customer-related intangible	110,798	(57,192)	53,606	110,798	(62,556)	48,242
Total finite-lived intangible assets	\$162,047	\$(86,949)	\$75,098	\$162,047	\$(95,636)	\$66,411

Amortization expense of acquired intangible assets was \$10.2 million and \$8.7 million in the six months ended June 30, 2014 and 2015, respectively. Estimated amortization expense will approximate \$8.4 million in the remainder of 2015, \$13.1 million in 2016, \$11.8 million in 2017, \$10.7 million in 2018 and \$9.2 million in 2019.

Other debt	131	4,775
Total Short-Term Debt	\$188,104	\$199,215

The fair value of debt, which was determined using Level 2 inputs, was \$473.3 million, versus a book value of \$529.7 million as of December 31, 2014. As of June 30, 2015, the fair value of our debt was \$520.4 million versus a book value of 548.6 million. As of June 30, 2015, we were in compliance with all of our debt covenants.

Revolving Facility

On April 23, 2014, the Company and certain of its subsidiaries entered into an Amended and Restated Credit Agreement (the "Revolving Facility"). On February 27, 2015, GrafTech and certain of its subsidiaries entered into an Amended and Restated Credit Agreement that provides for, among other things, greater financial flexibility and a new \$40 million senior secured delayed draw term loan facility. The Revolving Facility has a borrowing capacity of \$400 million and matures in April 2019.

As of June 30, 2015, we had \$258 million of unused borrowing capacity under the revolving credit facility (after considering financial covenants restrictions and the outstanding letters of credit of approximately \$6.3 million).

The additional \$40 million delayed draw term loan facility is to be used connection with the repayment of the Senior Subordinated Notes.

The interest rate applicable to the Amended and Restated Credit Facility is LIBOR plus a margin ranging from 2.25% to 3.75% (depending on our total senior secured leverage ratio). The borrowers pay a per annum fee ranging from 0.35% to 0.50% (depending on our senior secured leverage ratio) on the undrawn portion of the commitments under the Revolving Facility. The new financial covenants require us to maintain a minimum cash interest coverage ratio of 2.50 to 1.00 and a maximum senior secured leverage ratio ranging from 3.75 to 1.00 to 3.00 to 1.00, subject to adjustment for certain events.

Senior Notes

On November 20, 2012, the Company issued \$300 million principal amount of 6.375% Senior Notes due 2020 (the "Senior Notes"). The Senior Notes are the Company's senior unsecured obligations and rank pari passu with all of the Company's existing and future senior unsecured indebtedness. The Senior Notes are guaranteed on a senior unsecured basis by each of the Company's existing and future subsidiaries that guarantee certain other indebtedness of the Company or another guarantor.

The Senior Notes bear interest at a rate of 6.375% per year, payable semi-annually in arrears on May 15 and November 15 of each year. The Senior Notes mature on November 15, 2020.

PART I (CONT'D)
GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company is entitled to redeem some or all of the Senior Notes at any time on or after November 15, 2016, at the redemption prices set forth in the indenture. In addition, prior to November 15, 2016, the Company may redeem some or all of the Senior Notes at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, plus a "make whole" premium determined as set forth in the indenture. The Company is also entitled to redeem up to 35% of the aggregate principal amount of the Senior Notes before November 15, 2015 with the net proceeds from certain equity offerings at a redemption price of 106.375% of the principal amount plus accrued and unpaid interest, if any.

If, prior to maturity, a change in control (as defined in the indenture) of the Company occurs and thereafter certain downgrades of the ratings of the Senior Notes as specified in the indenture occur, the Company will be required to offer to repurchase any or all of the Senior Notes at a repurchase price equal to 101% of the aggregate principal amount of the Senior Notes, plus any accrued and unpaid interest. The acquisition of beneficial ownership by Brookfield of more than 35% of the Company's outstanding Shares or more than 35% of the total voting power of the voting stock of the Company (including the Preferred Stock) would constitute a change in control as defined in the Indenture.

The indenture for the Senior Notes also contains covenants that, among other things, limit the ability of the Company and certain of its subsidiaries to: (i) create liens or use assets as security in other transactions; (ii) engage in certain sale/leaseback transactions; and (iii) merge, consolidate or sell, transfer, lease or dispose of substantially all of their assets.

The indenture for the Senior Notes also contains customary events of default, including (i) failure to pay principal or interest on the Senior Notes when due and payable, (ii) failure to comply with covenants or agreements in the indenture or the Senior Notes which failures are not cured or waived as provided in the indenture, (iii) failure to pay indebtedness of the Company, any Subsidiary Guarantor or Significant Subsidiary (each, as defined in the indenture) within any applicable grace period after maturity or acceleration and the total amount of such indebtedness unpaid or accelerated exceeds \$50.0 million, (iv) certain events of bankruptcy, insolvency, or reorganization, (v) failure to pay any judgment or decree for an amount in excess of \$50.0 million against the Company, any Subsidiary Guarantor or any Significant Subsidiary that is not discharged, waived or stayed as provided in the indenture, (vi) cessation of any Subsidiary Guarantee (as defined in the indenture) to be in full force and effect or denial or disaffirmance by any subsidiary guarantor of its obligations under its subsidiary guarantee, and (vii) a default under the Company's Senior Subordinated Notes. In the case of an event of default, the principal amount of the Senior Notes plus accrued and unpaid interest may be accelerated.

Senior Subordinated Notes

On November 30, 2010, in connection with the acquisitions of Seadrift Coke LP and C/G Electrodes, LLC, we issued Senior Subordinated Notes for an aggregate total face amount of \$200 million. These Senior Subordinated Notes are non-interest bearing and mature in 2015. Because the promissory notes are non-interest bearing, we were required to record them at their present value (determined using an interest rate of 7%). The difference between the face amount of the promissory notes and their present value is recorded as debt discount. The debt discount will be amortized to income using the interest method, over the life of the promissory notes. The loan balance, net of unamortized discount, was \$194.4 million as of June 30, 2015. This balance was reclassified in November 2014 to short-term debt on our balance sheet as the maturity date is within one year.

(10) Inventories

Inventories are comprised of the following:

	As of December 31, 2014	As of June 30, 2015
	(Dollars in thousands)	
Inventories:		
Raw materials and supplies	\$122,218	\$111,519
Work in process	176,141	168,396
Finished goods	84,544	95,718
Total	\$382,903	\$375,633

(11) Interest Expense

The following table presents an analysis of interest expense:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2014	2015	2014	2015
	(Dollars in thousands)		(Dollars in thousands)	
Interest incurred on debt	\$5,345	\$5,282	\$10,714	\$10,452
Amortization of discount on Senior Subordinated Notes	3,048	3,261	6,045	6,468
Amortization of debt issuance costs	762	652	1,395	1,196
Total interest expense	\$9,155	\$9,195	\$18,154	\$18,116

Interest Rates

The Revolving Facility had an effective interest rate of 2.17% and 2.37% as of December 31, 2014 and June 30, 2015, respectively. The Senior Subordinated Notes have an implied interest rate of 7.00%. The Senior Notes have a fixed interest rate of 6.375%.

(12) Contingencies

Legal Proceedings

We are involved in various investigations, lawsuits, claims, demands, environmental compliance programs and other legal proceedings arising out of or incidental to the conduct of our business. While it is not possible to determine the ultimate disposition of each of these matters, we do not believe that their ultimate disposition will have a material adverse effect on our financial position, results of operations or cash flows.

The Merger Agreement with the affiliates Brookfield contains provisions for the payment of termination fees of up to \$20 million in the event that the Merger Agreement is terminated under certain circumstances. Pursuant to the Investment Agreement, the Company is required to reimburse Brookfield for its reasonable, out-of-pocket fees and expenses (including the reasonable fees and expenses of legal counsel, accountants, investment bankers, brokers, or other representatives or consultants) up to \$500,000 incurred in connection with the transactions thereunder. See Note 2 "Pending Preferred Share Issuance and Tender Offer" for additional information regarding the Merger Agreement and the Preferred Stock Issuance.

Pending Litigation Against GrafTech and Brookfield

A number of putative class action complaints have been filed relating to the merger. The lawsuits, which contain substantially similar allegations, include allegations that the transactions do not appropriately value the Company, were the result of an inadequate process, include preclusive deal protection devices, involved conflicts of

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

interests and further allege that the public disclosures made by the Company in connection with such transactions were materially misleading. GrafTech, Brookfield and Brookfield's affiliates are alleged to have aided and abetted the alleged fiduciary breaches. The lawsuits seek a variety of equitable relief, including enjoining the GrafTech board of directors from proceeding with the proposed merger unless and until they have acted in accordance with their fiduciary duties to maximize shareholder value and rescission of the merger to the extent implemented, in addition to damages arising from the defendants' alleged breaches and attorneys' fees and costs. The defendants believe that the allegations are without merit and intend to vigorously defend the lawsuits.

The lawsuits include: a lawsuit captioned Travis J. Kelleher, etc. v. GrafTech International Ltd., et. al. (Case No. CV-15-846032) filed on May 22, 2015, in the Court of Common Pleas in the State of Ohio; a lawsuit captioned David Widlewski v. Randy Carson, Thomas A. Danjczek, Karen Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, BCP IV GrafTech Holdings LP, and Athena Acquisition Subsidiary Inc. (Civil Action No. 11086-VCL) filed on June 2, 2015, in the Court of Chancery of the State of Delaware; a lawsuit captioned Walter Watson. v. GrafTech International Ltd., Randy Carson, Thomas A. Danjczek, Karen Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, Brookfield Asset Management, Inc., Brookfield Capital Partners Ltd., Brookfield Capital Partners IV L.P., BCP IV GrafTech Holdings LP, and Athena Acquisition Subsidiary Inc. (Civil Action No. 11096-VCL) filed on June 4, 2015, in the Court of Chancery of the State of Delaware; a lawsuit captioned CyHyoung Park v. GrafTech International Ltd., Randy Carson, Thomas A. Danjczek, Karen Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, BCP IV GrafTech Holdings LP, and Athena Acquisition Subsidiary Inc. (Civil Action No. 11125-VCL) filed on June 9, 2015, in the Court of Chancery of the State of Delaware; a lawsuit captioned Charles Daeda v. GrafTech International Ltd., Randy Carson, Thomas A. Danjczek, Karen Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, Brookfield Asset Management Inc., BCP IV GrafTech Holdings LP, and Athena Acquisition Subsidiary Inc. (Civil Action No. 11145-VCL) filed on June 15, 2015, in the Court of Chancery of the State of Delaware; a lawsuit captioned Abraham Grinberger, v. GrafTech International Ltd., Randy Carson, Thomas A. Danjczek, Karen L. Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, Brookfield Asset Management Inc., Brookfield Capital Partners Ltd., BCP IV GrafTech Holdings LP, Athena Acquisition Subsidiary Inc. (Civil Action No. 11148-VCL) filed on June 15, 2015, in the Court of Chancery of the State of Delaware; a lawsuit captioned Bruce Wells v. GrafTech International Ltd., Randy Carson, Thomas A. Danjczek, Karen Finerman, Joel L. Hawthorne, David R. Jardini, Nathan Milikowsky, M. Catherine Morris, BCP IV GrafTech Holdings LP, Athena Acquisition Subsidiary Inc., and Brookfield Capital Partners Ltd. (Civil Action No. 11166-VCL) filed on June 17, 2015, in the Court of Chancery of the State of Delaware; and a lawsuit captioned Mark O'Neill and Adoracion Guerrero, et. al. v. Joel L. Hawthorne, et. al. (Case No. CV-15-847670) filed on June 29, 2015, in the Court of Common Pleas in the State of Ohio.

Product Warranties

We generally sell products with a limited warranty. We accrue for known warranty claims if a loss is probable and can be reasonably estimated. We also accrue for estimated warranty claims incurred based on a historical claims charge analysis. Claims accrued but not yet paid and the related activity within the accrual for the six months ended June 30, 2015, are presented below:

	(Dollars in thousands)	
Balance as of December 31, 2014	\$923	
Product warranty adjustments	1,035	
Payments and settlements	(382)
Balance as of June 30, 2015	\$1,576	

(13)Income Taxes

We compute and apply to ordinary income an estimated annual effective tax rate on a quarterly basis based on current and forecasted business levels and activities, including the mix of domestic and foreign results and enacted tax laws. The estimated annual effective tax rate is updated quarterly based on actual results and updated operating forecasts. Ordinary income refers to income (loss) before income tax expense excluding significant, unusual, or infrequently occurring items. The tax effect of an unusual or infrequently occurring item is recorded in the interim period in which it occurs as a discrete item of tax.

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

The following table summarizes the provision for income taxes for the six months ended June 30, 2014 and June 30, 2015:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2014	2015	2014	2015
	(Dollars in thousands)		(Dollars in thousands)	
Tax (benefit) expense	\$6,886	\$199	\$1,599	\$733
Pretax loss	\$(148,547)	\$(22,618)	\$(165,351)	\$(77,692)
Effective tax rates	(4.6)%	(0.9)%	(1.0)%	(0.9)%

For the three months ended June 30, 2015, the effective tax rate differs from the U.S. statutory rate of 35% primarily due to recent losses in the U.S. where we receive no tax benefit due to a full valuation allowance and worldwide earnings from various countries. The recognition of the valuation allowance does not result in or limit the Company's ability to utilize these tax assets in the future. For the three months ended June 30, 2014 the effective tax rate differs from the U.S. statutory rate of 35% primarily due to a valuation allowance setup against U.S. foreign tax credit deferred tax attributes, various state net operating loss deferred tax attributes, and the establishment of a valuation allowance against our net US deferred asset position.

As of June 30, 2015, we had unrecognized tax benefits of \$3.7 million, \$2.7 million of which, if recognized, would have a favorable impact on our effective tax rate.

We file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. All U.S. federal tax years prior to 2012 are generally closed by statute or have been audited and settled with the applicable domestic tax authorities. All other jurisdictions are still open to examination beginning after 2008.

We continue to assess the need for valuation allowances against deferred tax assets based on determinations of whether it is more likely than not that deferred tax benefits will be realized through the generation of future taxable income. Appropriate consideration is given to all available evidence, both positive and negative, in assessing the need for a valuation allowance. Examples of positive evidence would include a strong earnings history, an event or events that would increase our taxable income through a continued reduction of expenses, and tax planning strategies that would indicate an ability to realize deferred tax assets. In circumstances where the significant positive evidence does not outweigh the negative evidence in regards to whether or not a valuation allowance is required, we have maintained valuation allowances on those net deferred tax assets.

(14) Derivative Instruments

We use derivative instruments as part of our overall foreign currency and commodity risk management strategies to manage the risk of exchange rate movements that would reduce the value of our foreign cash flows and to minimize commodity price volatility. Foreign currency exchange rate movements create a degree of risk by affecting the value of sales made and costs incurred in currencies other than the U.S. dollar.

Certain of our derivative contracts contain provisions that require us to provide collateral. Since the counterparties to these financial instruments are large commercial banks and similar financial institutions, we do not believe that we are exposed to material counterparty credit risk. We do not anticipate nonperformance by any of the counter-parties to our instruments.

Foreign currency derivatives

We enter into foreign currency derivatives from time to time to attempt to manage exposure to changes in currency exchange rates. These foreign currency instruments, which include, but are not limited to, forward exchange contracts

and purchased currency options, attempt to hedge global currency exposures such as foreign currency denominated debt, sales, receivables, payables, and purchases. Forward exchange contracts are agreements to exchange different currencies at a specified future date and at a specified rate. There was no ineffectiveness on these contracts designated as hedging instruments during the six months ended June 30, 2014 and 2015, respectively.

PART I (CONT'D)
 GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

In 2014 and 2015, we entered into foreign currency derivatives denominated in the Mexican peso, South African rand, Brazilian real, euro and Japanese yen. These derivatives were entered into to protect the risk that the eventual cash flows resulting from commercial and business transactions may be adversely affected by changes in exchange rates between the U.S. dollar and the Mexican peso, South African rand, Brazilian real, euro and Japanese yen. As of June 30, 2015, we had outstanding Mexican peso, South African rand, euro, and Japanese yen currency contracts with an aggregate notional amount of \$72.5 million. The foreign currency derivatives outstanding as of June 30, 2015 have several maturity dates ranging from July 2015 to December 2015.

Commodity derivative contracts

We periodically enter into derivative contracts for certain refined oil products and natural gas. These contracts are entered into to protect against the risk that eventual cash flows related to these products may be adversely affected by future changes in prices. There was no ineffectiveness on these contracts during the six months ended June 30, 2015. As of June 30, 2015, we had no outstanding derivative swap contracts for refined oil products.

Net Investment Hedges

We use certain intercompany debt to hedge a portion of our net investment in our foreign operations against currency exposure (net investment hedge). Intercompany debt denominated in foreign currency and designated as a non-derivative net investment hedging instrument was \$15.8 million and \$15.1 million as of December 31, 2014 and June 30, 2015, respectively. Within the currency translation adjustment portion of other comprehensive income, we recorded gains of \$0.2 million and \$0.1 million in three months ended June 30, 2014 and June 30, 2015, respectively, resulting from these net investment hedges.

The fair value of all derivatives is recorded as assets or liabilities on a gross basis in our Consolidated Balance Sheets. The following tables present the fair values of our derivatives and their respective balance sheet locations as of December 31, 2014 and June 30, 2015:

	Asset Derivatives	Fair Value	Liability Derivatives	Fair Value
	Location		Location	
As of December 31, 2014	(Dollars in Thousands)

Our foreign currency and commodity derivatives are treated as hedges and are required to be measured at fair value on a recurring basis. With respect to the inputs used to determine the fair value, we use observable, quoted rates that are determined by active markets and, therefore, classify the contracts as "Level 2".

(15) Guarantor Information

On November 20, 2012, GrafTech International Ltd. (the "Parent") issued \$300 million aggregate principal amount of Senior Notes. The Senior Notes mature on November 15, 2020 and bear interest at a rate of 6.375% per year, payable semi-annually in arrears on May 15 and November 15 of each year. The Senior Notes have been guaranteed on a senior basis by the following wholly-owned direct and indirect subsidiaries of the Parent: GrafTech Finance Inc., GrafTech Holdings Inc., GrafTech USA LLC, Seadrift Coke LLP, Fiber Materials, Inc., Intermat, GrafTech Global Enterprises Inc., GrafTech International Holdings Inc., GrafTech DE LLC, GrafTech Seadrift Holding Corp, GrafTech International Trading Inc., GrafTech Technology LLC, GrafTech NY Inc., and Graphite Electrode Network LLC.

The guarantors of the Senior Notes, solely in their respective capacities as such, are collectively called the "Guarantors." Our other subsidiaries, which are not guarantors of the Senior Notes, are called the "Non-Guarantors."

All of the guarantees are unsecured. All of the guarantees are full, unconditional (subject to limited exceptions described below) and joint and several. Each of the Guarantors are 100% owned, directly or indirectly, by the Parent. All of the guarantees of the Senior Notes continue until the Senior Notes have been paid in full, and payment under such guarantees could be required immediately upon the occurrence of an event of default under the Senior Notes. If a Guarantor makes a payment under its guarantee of the Senior Notes, it would have the right under certain circumstances to seek contribution from the other Guarantors.

The Guarantors will be released from the guarantees upon the occurrence of certain events, including the following: the unconditional release or discharge of any guarantee or indebtedness that resulted in the creation of the guarantee of the Senior Notes by such Guarantor; the sale or other disposition, including by way of merger or consolidation or the sale of its capital stock, following which such Guarantor is no longer a subsidiary of the Parent; or the Parent's exercise of its legal defeasance option or its covenant defeasance option as described in the indenture applicable to the Senior Notes. If any Guarantor is released, no holder of the Senior Notes will have a claim as a creditor against such Guarantor. The indebtedness and other liabilities, including trade payables and preferred stock, if any, of each Guarantor are effectively senior to the claim of any holders of the Senior Notes.

Investments in subsidiaries are recorded on the equity basis.

The following tables set forth condensed consolidating balance sheets as of December 31, 2014 and June 30, 2015 and condensed consolidating statements of operations and comprehensive income for the three and six months ended

June 30, 2014 and 2015 and condensed consolidating statements of cash flows for the six months ended June 30, 2014 and 2015 of the Parent Guarantors and the Non-Guarantors.

(Unaudited)

(16) Subsequent Events

On July 28, 2015, GrafTech and certain of its subsidiaries entered into an amendment to the Amended and Restated Credit Agreement to change the terms regarding the occurrence of a default upon a change in control (which is defined thereunder to include the acquisition by any person of more than 25 percent of GrafTech's outstanding shares) to exclude the acquisition of shares by Brookfield (see Note 2 to the Financial Statements). In addition, effective upon such acquisition, the financial covenants will be eased, resulting in increased availability under the Revolving Facility. The size of the Revolving Facility will also be reduced from \$400 million to \$375 million.

The interest rate applicable to the Revolving Facility is LIBOR plus a margin ranging from 2.25% to 4.75% (depending on our total senior secured leverage ratio). The borrowers pay a per annum fee ranging from 0.35% to 0.70% (depending on our senior secured leverage ratio) on the undrawn portion of the commitments under the Revolving Facility. The new financial covenants, when they become effective, require us to maintain a minimum cash interest coverage ratio ranging from 1.50 to 2.50 and a maximum senior secured leverage ratio ranging from 5.75 to 3.00, subject to adjustment over time.

Introduction to Part I, Item 2, and Part II, Item 1 and Item 1A

Important Terms. We define various terms to simplify the presentation of information in this Report. These terms, which definitions are incorporated herein by reference, are defined in “Part I – Preliminary Notes – Important Terms” of the Annual Report.

Presentation of Financial, Market and Legal Data. We present our financial information on a consolidated basis.

Unless otherwise noted, when we refer to dollars, we mean U.S. dollars.

Unless otherwise specifically noted, market and market share data in this Report are our own estimates or derived from sources described in “Part I – Preliminary Notes – Presentation of Financial, Market and Legal Data” in the Annual Report, which description is incorporated herein by reference. Our estimates involve risks and uncertainties and are subject to change based on various s, including those discussed under “Forward Looking Statements and Risks” in this Report and “Forward Looking Statements” and “Risk Factors” in the Annual Report. We cannot guarantee the accuracy or completeness of this market and market share data and have not independently verified it. None of the sources has consented to the disclosure or use of data in this Report.

Reference is made to the Annual Report for background information on various risks and contingencies and other matters related to circumstances affecting us and our industry.

Neither any statement made in this Report nor any charge taken by us relating to any legal proceedings constitutes an admission as to any wrongdoing.

Forward Looking Statements

Forward Looking Statements and Risks. This Report contains forward looking statements. In addition, we or our representatives have made or may make forward looking statements on telephone or conference calls, by webcasts or emails, in person, in presentations or written materials, or otherwise. These include statements about such matters as the proposed issuance of convertible preferred stock, the conditions to consummation of such issuance, the terms of such stock issuance and stock, the use of proceeds and related matters; the tender offer and possible merger, the conditions to consummation thereof, the terms thereof and related matters; the effects of such issuance, tender offer and merger under equity award and benefit plans and agreements or our credit agreement, senior notes or senior subordinated notes; our future, targeted or expected (or the impact of current, future, expected or targeted): operational and financial performance; changes in production capacity in our operations and our competitors' or customers' operations and the utilization rates of that capacity; growth rates for, prices and sales of, and demand for, our products and our customers' products; costs of materials and production, including increases or decreases therein, our ability to pass on any such increases in our product prices or impose surcharges thereon, or customer or market demand to reduce our prices due to such decreases; changes in customer order patterns due to changes in economic conditions; productivity, business process and operational initiatives; our position in markets we serve; debt or equity financing and refinancing activities; divestitures, asset sales, investments and acquisitions and the performance of the businesses underlying such divestitures, acquisitions and investments; employment and contributions of key personnel; employee relations and collective bargaining agreements covering many of our operations; tax rates; capital expenditures and changes therein; nature and timing of restructuring and rationalization charges and payments; stock repurchase or issuance activities; the pending proxy contest, the impacts thereof and other possible changes in Board composition, possible changes in control and the impacts thereof; changes in capital structure or share ownership; supply chain management; customer and supplier contractual provisions and related opportunities and issues; competitive activities; strategic plans, initiatives and business projects; regional and global economic and industry market conditions, the timing and magnitude of changes in such conditions; interest rate management activities; currency rate management activities; deleveraging activities; rationalization, restructuring, realignment, strategic alliance, raw material and supply chain, technology development and collaboration, investment, acquisition, divestitures, asset sales, venture, operational, tax, financial and capital projects; legal proceedings, investigations, contingencies, and environmental compliance including any regulatory initiatives with respect to greenhouse gas emissions; consulting projects; potential offerings, sales and other actions regarding debt, equity or convertible securities of us or our subsidiaries;

and costs, working capital, revenues, business opportunities, debt levels, cash flows, cost savings and reductions, margins, earnings and growth. The words “will,” “may,” “plan,” “estimate,” “project,” “believe,” “anticipate,” “expect,”

“intend,” “should,” “would,” “could,” “target,” “goal,” “continue to,” “positioned to” and similar expressions, or the negatives identify some of these statements.

Our expectations and targets are not predictors of actual performance and historically our performance has deviated, often significantly, from our expectations and targets. Actual future events and circumstances (including future results and trends) could differ materially, positively or negatively, from those set forth in these statements due to various factors. These factors include:

the possibility that additions to capacity for producing EAF steel, increases in overall EAF steel production capacity, and increases or other changes in steel production may not occur or may not occur at the rates that we anticipate or may not be as geographically disbursed as we anticipate;

the possibility that increases or decreases in graphite electrode manufacturing capacity (including growth by producers in developing countries), competitive pressures (including changes in, and the mix, distribution, and pricing of, competitive products), reduction in specific consumption rates, increases or decreases in customer inventory levels, or other changes in the graphite electrode markets may occur, which may impact demand for, prices or unit and dollar volume sales of graphite electrodes and growth or profitability of our graphite electrodes business;

the possible failure of changes in EAF steel production or graphite electrode production to result in stable or increased, or offset decreases in, graphite electrode demand, prices, or sales volume;

the possibility that a determination that we have failed to comply with one or more export controls or trade sanctions to which we are subject with respect to products or technology exported from the United States or other jurisdictions could result in civil or criminal penalties, denial of export privileges and loss of revenues from certain customers;

the possibility that, for all of our product lines, capital improvement and expansion in our customers' operations or increases in demand for their products may not occur or may not occur at the rates that we anticipate or the demand for their products may decline, which may affect their demand for the products we sell to them, which could affect our profitability and cash flows as well as the recoverability of our assets;

the possibility that assumptions related to future expectations of financial performance materially change and impact our goodwill and long-lived asset carrying values;

the failure to satisfy conditions contained in the Merger Agreement or the Investment Agreement, including due to material adverse changes effecting us or our prospects or failure to obtain regulatory approvals; litigation in relation to such transactions; adjustments to our first quarter 2015;

the possibility that our financial assumptions and expectations materially change as a result of government or state-owned government subsidies, incentives and trade barriers;

the possibility that current economic disruptions or other conditions may result in idling or permanent closing of blast furnace capacity or delay of blast furnace capacity additions or replacements which may affect demand and prices for our refractory products;

the possibility that continued global consolidation of the world's largest steel producers could impact our business or industry;

the possibility that average graphite electrode revenue per metric ton in the future may be different than current spot or market prices due to changes in product mix, changes in currency exchange rates, changes in competitive market conditions or other factors;

the possibility that price increases, adjustments or surcharges may not be realized or that price decreases may occur;

the possibility that current challenging economic conditions and economic demand reduction may continue to impact our revenues and costs;

Table of Contents

(Unaudited)

the possibility that U.S., European, Chinese, or other governmental monetary or fiscal policy may adversely affect global economic activity and demand for our products;

the possibility that potential future cuts in defense spending by the United States government as a part of efforts to reduce federal budget deficits could reduce demand for certain of our products and associated revenue;

the possibility that decreases in prices for energy and raw materials may lead to downward pressure on prices for our products and delays in customer orders for our products as customers anticipate possible future lower prices;

the possibility that customers may delay or cancel orders;

the possibility that we may not be able to reduce production costs or delay or cancel raw material purchase commitments;

the possibility that economic, political and other risks associated with operating globally, including national and international conflicts, terrorist acts, political and economic instability, civil unrest, community activism and natural or nuclear calamities might interfere with our supply chains, customers or activities in a particular location;

the possibility that reductions in customers' production, increases in competitors' capacity, competitive pressures, or other changes in other markets we serve may occur, which may impact demand for, prices of or unit and dollar volume sales of, our other products, or growth or profitability of our other product lines, or change our position in such markets;

the possibility that we will not be able to hire and retain key personnel, maintain appropriate relations with unions, associations and employees or to renew or extend our collective bargaining or similar agreements on reasonable terms as they expire or do so without a work stoppage or strike;

the possibility that an adverse determination in litigation pending in Brazil involving disputes related to the proper interpretation of certain collectively bargained wage increase provisions applicable to both us and other employers in the Bahia region might result in the filing of claims against our Brazilian subsidiary;

the possibility that a Brazilian graphite electrode antitrust investigation could result in material fines or penalties;

the possibility of delays in or failure to achieve successful development and commercialization of new or improved Engineered Solutions products or that such products or solutions could be subsequently displaced by other products or technologies;

the possibility that we will fail to develop new customers or applications for our Engineered Solutions products or such new product applications will not be adopted by the market place;

the possibility that our manufacturing capabilities may not be sufficient or that we may experience delays in expanding or fail to expand our manufacturing capacity to meet demand for existing, new or improved products;

the possibility that we may propose acquisitions or divestitures in the future, that we may not complete the acquisitions or divestitures, and that investments and acquisitions that we may make in the future may not be successfully integrated into our business or provide the performance or returns expected or that divestitures may not generate the proceeds anticipated;

the possibility of changes in Board composition and the resulting change in control transactions that may accelerate debt obligations or obligations under various compensation-related agreements and plans or other agreements;

the possibility of changes in capital structure or share ownership, including impacts of the capital infusion recently announced;

the possibility that challenging conditions or changes in the capital markets will limit our ability to undertake refinancing activities or obtain financing for growth and other initiatives, on acceptable terms or at all;

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

the possibility that conditions or changes in the global equity markets may have a material impact on our future pension funding obligations and liabilities on our balance sheet;

the possibility that the amount or timing of our anticipated capital expenditures may be limited by our financial resources or financing arrangements or that our ability to complete capital projects may not occur timely enough to adapt to changes in market conditions or changes in regulatory requirements;

the possibility that the actual outcome of uncertainties associated with assumptions and estimates using judgment when applying critical accounting policies and preparing financial statements may have a material impact on our results of operations or financial position;

the possibility that we may be unable to protect our intellectual property or may infringe the intellectual property rights of others, resulting in damages, limitations on our ability to produce or sell products or limitations on our ability to prevent others from using that intellectual property to produce or sell products;

the occurrence of unanticipated events or circumstances or changing interpretations and enforcement agendas relating to legal proceedings or compliance programs;

the occurrence of unanticipated events or circumstances or changing interpretations and enforcement agendas relating to health, safety or environmental compliance or remediation obligations or liabilities to third parties or relating to labor relations;

the possibility that new or expanded regulatory initiatives with respect to greenhouse gas emissions could increase the capital intensive nature of our business and add to our costs of production;

the possibility that our provision for income taxes and effective income tax rate or cash tax rate may fluctuate significantly due to (i) changes in applicable tax rates or laws, (ii) changes in the sources of our income, (iii) changes in tax planning, (iv) new or changing interpretations of applicable regulations, (v) changes in profitability, (vi) changes in our estimate of our future ability to use foreign tax credits or other tax attributes, and (vii) other factors;

the possibility of changes in interest or currency exchange rates or in inflation or deflation;

the possibility that our outlook could be significantly impacted by, among other things, developments in North Africa, the Middle East, North Korea, and other areas of concern, the occurrence of further terrorist acts and developments resulting from the war on terrorism;

the possibility that interruption in our major raw material, energy or utility supplies due to, among other things, natural or nuclear disasters, process interruptions, actions by producers and capacity limitations, may adversely affect our ability to manufacture and supply our products or result in higher costs;

the possibility that the magnitude of changes in the cost of major raw materials, energy or utility suppliers by reason of shortages, changes in market pricing, pricing terms in applicable supply contracts, or other events may adversely affect our ability to manufacture and supply our products or result in higher costs;

the possibility of interruptions in production at our facilities due to, among other things, critical equipment failure, which may adversely affect our ability to manufacture and supply our products or result in higher costs;

the possibility that we may not achieve the earnings or other financial or operational metrics that we provide as guidance from time to time;

the possibility that the anticipated benefits from rationalizations and other cost savings initiatives may be delayed or may not occur, may vary in cost or may result in unanticipated disruptions;

the possibility of security breaches affecting our information technology systems;

the possibility that our disclosure or internal controls may become inadequate because of changes in conditions or personnel or that those controls may not operate effectively and may not prevent or detect misstatements or errors;

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Global Economic Conditions and Outlook

Outlook. We are impacted in varying degrees, both positively and negatively, as global, regional or country conditions fluctuate.

In its July 9, 2015 report, the International Monetary Fund (IMF) reduced its estimate for 2015 global GDP growth to 3.3 percent. The report states that weaker than expected activity in the first quarter, particularly in North America, drove the change in estimate. Advanced economies' growth prospects are anticipated to improve throughout the year while a slowdown in growth continues to be expected in emerging economies.

Steel customer sentiment remains negative globally. Global steel utilization rates continue to be low given excess industry capacity, weak end-market demand and high export levels from China. In its July 22, 2015 report, the World Steel Association (WSA) reported that global steel production declined approximately two percent in the six months ended 2015, as compared to the same period in the prior year. WSA reported that the average world steel capacity utilization rate was 72.2 percent in June, 350 basis points lower than June 2014. In the United States, steel production declined approximately nine percent year-over-year in the six months ended June 30, 2015. Steel production in ten of the top 15 steel producing countries, which represent a large share of EAF production, declined approximately six percent year-to-date.

2015 Action Plan

The Company continues to execute its cost savings initiatives and align production rates with market demand.

The Company is on track to deliver approximately \$50 million in cash savings in 2015 following successful execution of the previously announced cost savings initiatives.

Graphite electrode production rates have been reduced to align production to lower customer demand and reduce inventory. Graphite electrode production rates averaged approximately 84 percent in the first half of 2015 and are expected to decline to approximately 60 percent in the second half of 2015.

The Company continues to realign the production platform and optimize the product portfolio for its advanced graphite materials business.

Capital expenditures have been reduced by approximately \$30 million year-over-year. Current capital expenditures are estimated to be in the range of \$50 million to \$55 million in 2015.

Global headcount has been reduced by approximately 800, more than 25 percent, since the beginning of 2014.

The research and development function has been redesigned to place a greater emphasis on driving innovation to support new product development that builds on the Company's 129-year heritage.

Guidance

Market conditions remain challenging in both the Industrial Materials segment and Engineered Solutions segment. Pricing in the Industrial Materials segment will be lower year-over-year, while volumes in this segment remain under pressure due to weak electric arc furnace steel production in response to continued end-market weakness and to temporary displacement by high Chinese steel export levels. In the Engineered Solution segment, weak advanced consumer electronics and oil and gas market demand for our products is negatively impacting volumes and pricing. While the previously announced cost initiatives are on track to deliver \$50 million in cash savings in 2015, these savings will not fully offset the decline in pricing and volume across both business segments. In light of these market conditions, the Company will reduce production rates further to align with current market demand.

Based on these conditions, the Company does not expect a significant improvement in results in the second half of 2015.

Results of Operations and Segment Review

Three Months Ended June 30, 2014 as Compared to Three Months Ended June 30, 2015.

The tables presented in our period-over-period comparisons summarize our Consolidated Statements of Operations and illustrate key financial indicators used to assess the consolidated financial results. Financial information is presented for the three months ended June 30, 2014 and June 30, 2015. Throughout our MD&A, changes that are less than 5% or less than \$1.0 million, may be deemed not meaningful and are generally excluded from the discussion.

(in thousands, except per share data and % change)	For the Three Months Ended		Increase (Decrease)	% Change	
	June 30, 2014	2015

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

Net sales. Net sales for our Industrial Materials segment decreased to \$125.0 million in the three months ended June 30, 2015 from \$206.7 million in the three months ended June 30, 2014. This decrease was driven by decreased volumes in our graphite electrode business caused by softening demand in the steel markets, particularly in EAF environments. Our graphite electrode product line was also negatively impacted by foreign currency rate declines primarily in the Euro region decreasing revenues by \$9.8 million. Additionally, we experienced a 7% decline in the weighted average selling prices in the three months ended June 30, 2015 compared to the same period of the prior year. Our refractory product line experienced a decline in revenue in the three months ended June 30, 2015 as compared to the three months ended June 30, 2014 driven by decreased volumes.

Net sales for our Engineered Solutions segment decreased to \$40.1 million in the three months ended June 30, 2015 compared to net sales of \$77.5 million in the three months ended June 30, 2014. The decrease in revenue was primarily driven by both decreased pricing and volumes for our thermal solutions serving the advanced consumer electronics markets. We also experienced decreased volumes in our advanced graphite materials product line in the three months ended June 30, 2015 resulting from lower demand in the oil and gas markets we serve. Additionally, an advanced graphite materials customer that we served during the three months ended June 30, 2014 filed for bankruptcy in the fourth quarter of 2014.

Cost of sales. For the three months ended June 30, 2015, we experienced decreases in cost of sales of \$117.0 million compared to the same period of 2014. Lower volumes across both Industrial Materials and Engineered Solutions segments resulted in a reduction of \$58.9 million of cost in the three months ended June 30, 2015 as compared to the same period of 2014. Rationalization related expenses within cost of sales decreased by \$18.1 million in the three months ended June 30, 2015 as compared to the same period of 2014 as most of the larger initiatives are substantially complete. Decreases in the value of currencies in relationship to the US Dollar, primarily in the Euro region, benefited cost of sales by \$12.7 million in the three months ended June 30, 2015 as compared to the same period of 2014. The remaining reduction in cost was driven by our improved cost structure resulting from our rationalization initiatives.

Selling and administrative expenses. We experienced decreases in selling and administrative expenses of \$6.9 million for the three months ended June 30, 2015 compared to the same period of 2014. This reduction is driven by head count reductions and business reorganization activities that we have undertaken throughout the organization but primarily the corporate rationalization activities that began in the third quarter of 2014.

Research and development expenses. We experienced decreases in research and development expenses of \$1 million for the three months ended June 30, 2015 compared to the same period of 2014 due to head count reductions that were implemented beginning in the fourth quarter of 2014 as well as overall cost control measures.

Rationalizations. During the three months ended June 30, 2015, we recorded a \$1.8 million charge for rationalizations, primarily related to severance and contract termination costs related to our closure of our facility in Notre Dame, France. See Note 3 to the financial statements for further discussion of rationalization activities.

Impairments. During the second quarter of 2014 we recorded a \$121.6 million long-lived asset impairment charge related to rationalization initiatives in our Engineered Solutions segment resulting from deteriorated pricing and competitor responses for certain products.

Other expense (income). During the three months ended June 30, 2014 other expense increased by \$1 million due primarily to foreign exchange losses recognized on inter-company loans.

Segment operating income (loss). The following table represents our operating income (loss) by segment for the three months ended June 30, 2014 and June 30, 2015:

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

	For the Three Months Ended June 30,	
	2014	2015
	(Dollars in thousands)	
Industrial Materials	\$ 1,060	\$ 3,094
Engineered Solutions	(124,664) (3,455
Total segment operating loss	\$ (123,604) \$ (361
Corporate, R&D and Other Expenses	(15,884) (12,636
Total operating loss	\$ (139,488) \$ (12,997

Provision for income taxes. The following table summarizes the expense/(benefit) for income taxes for the three months ended June 30, 2014 and June 30, 2015:

	For the Three Months Ended June 30,	
	2014	2015
	(Dollars in thousands)	
Tax expense	\$ 6,886	\$ 199
Pretax loss	\$ (148,547) \$ (22,618
Effective tax rates	(4.6)% (0.9

For the three months ended June 30, 2015, the effective tax rate differs from the U.S. statutory rate of 35% primarily due to recent losses in the U.S. where we receive no tax benefit due to a full valuation allowance and worldwide earnings from various countries.

For the three months ended June 30, 2014, the effective tax rate differs from the U.S. statutory rate of 35% primarily due to the recording of a valuation allowance against U.S. net deferred tax assets. During the second quarter of 2014, GrafTech impaired certain long-lived assets and announced the exit of certain product lines within our Advanced Graphite Material ("AGM") product group, which is described in more detail in Note 3 to the financial statements. The impairment charges and other impairment related charges were incurred primarily in the U.S. jurisdiction. As a result, we determined that it is no longer "more likely than not" that we will generate sufficient future U.S. taxable income to realize our U.S. net deferred tax assets. As a result of the significant negative evidence of recent losses, the Company recognized a \$57.0 million non-cash charge in the second quarter of 2014 to increase the valuation allowance against these deferred income tax assets. The recognition of the valuation allowance does not result in or limit the Company's ability to utilize these tax assets in the future.

Net sales, by reportable segment for the six months ended June 30, 2014 and June 30, 2015 were:

(in thousands, except per % change)	For the Six Months Ended		(Decrease)	% Change	
	June 30, 2014	2015			
Industrial Materials	\$425,431	\$290,049	\$(135,382)	(32))%
Engineered Solutions	139,544	82,284	(57,260)	(41))%
Total net sales	\$564,975	\$372,333	\$(192,642)	(34))%

An analysis of the components of change in net sales for Industrial Materials and Engineered Solutions is set forth in the following table:

	Volume	Price/Mix	Currency	Net Change
Industrial Materials	(21)%	(6)%	(5)%	(32)%
Engineered Solutions	(32)%	(6)%	(3)%	(41)%

Net sales. Net sales for our Industrial Materials segment decreased by \$135.4 million in the six months ended June 30, 2015 compared to the six months ended June 30, 2014. This decrease was driven by decreased volumes in our graphite electrode business caused by softening demand in the steel markets, particularly in EAF environments. Our graphite electrode product line was also negatively impacted by \$22.6 million due to foreign currency rate declines primarily in the Euro region. Additionally, sales decreased due to a decrease in the weighted average sales prices of 6 percent when comparing to the six months ended June 30, 2015 to the same period of 2014. Our refractory product

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

line experienced a decline in revenue in the six months ended June 30, 2015 as compared to the six months ended June 30, 2014 driven by decreased volumes.

Net sales for our Engineered Solutions segment decreased \$57.3 million in the six months ended June 30, 2015 compared to the six months ended June 30, 2014. The decrease in revenue was primarily driven by both decreased pricing and volumes for our thermal solutions serving the advanced consumer electronics markets. Sales of our AGM products decreased \$14.0 million compared to the same period of 2014. This decrease in revenue was primarily driven by the non-recurrence of 2014 sales of high temperature furnace systems servicing a single customer that filed for bankruptcy in October 2014. We also experienced lower demand in our products serving the oil and gas drilling markets.

Cost of sales. For the six months ended June 30, 2015, we experienced decreases in cost of sales of \$185.7 million compared to the six months ended June 30, 2014. Lower volumes across both Industrial Materials and Engineered Solutions segments resulted in a reduction of \$83.3 million of cost in the six months ended June 30, 2015 as compared to the same period of 2014. Rationalization related expenses within cost of sales decreased by \$33.5 million in the six months ended June 30, 2015 as compared to the same period of 2014 as most of the larger initiatives are substantially complete. Decreases in the value of currencies in relation to the US Dollar, primarily in the euro region, benefited cost of sales by \$24.6 million in the six months ended June 30, 2015 as compared to the same period of 2014. The remaining reduction in cost was driven by our improved cost structure resulting from our rationalization initiatives. Selling and general administrative. Selling and general administrative expenses decreased \$10.5 million in the six months ended June 30, 2015 compared to the six months ended June 30, 2014. This decrease was driven by head count reductions and business reorganization activities that we have undertaken throughout the organization but primarily the corporate rationalization activities that began in the third quarter of 2014.

Rationalizations. During the six months ended June 30, 2015, we recorded a \$4.3 million charge for rationalizations, primarily related to severance and contract termination costs related to our closure of our Notre Dame, France facility. See Note 3 to the financial statements for further discussion of rationalization activities.

Impairments. During the second quarter of 2014 we recorded a \$121.6 million long-lived asset impairment charge related to rationalization initiatives in our Engineered Solutions segment resulting from deteriorated pricing and competitor responses for certain products. During the first quarter of 2015, we recorded a \$35.4 million goodwill impairment charge in our needle coke reporting unit resulting from price declines that were to take effect in the second quarter of 2015 as a result of over capacity in the industry.

Segment operating income (loss). The results discussed above are reflected in our operating income (loss) by segment for the six months ended June 30, 2014 and June 30, 2015 which is as follows:

	For the Six Months Ended June 30,	
	2014	2015
	(Dollars in thousands)	
Industrial Materials	\$2,660	\$(22,804)
Engineered Solutions	(119,259)	(7,848)
Total segment operating loss	(116,599)	(30,652)
Corporate, R&D and Other Expenses	(29,958)	(28,178)
Total operating loss	\$(146,557)	\$(58,830)

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

Provision for income taxes. The following table summarizes the expense/(benefit) for income taxes for the six months ended June 30, 2014 and June 30, 2015:

	For the Six Months Ended	
	June 30, 2014	2015
	(Dollars in thousands)	
Tax expense	\$ 1,599	\$ 733
Pretax loss	\$(165,351)	\$(77,692)
Effective tax rates	(1.0)%	(0.9)%

For the six months ended June March 30, 2015, the effective tax rate differs from the U.S. statutory rate of 35% primarily due to recent losses in the U.S. where we receive no tax benefit due to a full valuation allowance and worldwide earnings from various countries. The recognition of the valuation allowance does not result in or limit the Company's ability to utilize these tax assets in the future.

For the six months ended June 30, 2014, the effective tax rate differs from the U.S. statutory rate of 35% primarily due to the recording of a valuation allowance against our U.S. deferred tax attributes. During the second quarter of 2014, GrafTech impaired certain long-lived assets and announced the exit of certain product lines within our Advanced Graphite Material ("AGM") product group. The impairment charges and other impairment related charges were incurred primarily in the U.S. jurisdiction. As a result, we determined that it is no longer "more likely than not" that we will generate sufficient future U.S. taxable income to realize our U.S. net deferred tax assets. As a result of the significant negative evidence of recent losses, the Company recognized a \$57.0 million non-cash charge in the second quarter of 2014 to increase the valuation allowance against these deferred income tax assets. The recognition of the valuation allowance does not result in or limit the Company's ability to utilize these tax assets in the future.

Effects of Changes in Currency Exchange Rates

When the currencies of non-U.S. countries in which we have a manufacturing facility decline (or increase) in value relative to the U.S. dollar, this has the effect of reducing (or increasing) the U.S. dollar equivalent cost of sales and other expenses with respect to those facilities. In certain countries where we have manufacturing facilities, and in certain instances where we price our products for sale in export markets, we sell in currencies other than the dollar. Accordingly, when these currencies increase (or decline) in value relative to the dollar, this has the effect of increasing (or reducing) net sales. The result of these effects is to increase (or decrease) operating profit and net income. Many of the non-U.S. countries in which we have a manufacturing facility have been subject to significant economic and political changes, which have significantly impacted currency exchange rates. We cannot predict changes in currency exchange rates in the future or whether those changes will have net positive or negative impacts on our net sales, cost of sales or net income. The fourth quarter decline of the Euro began to negatively affect our sales in 2014 and into 2015. We expect this trend to continue as long as the Euro is near or below current rates. These declines in price will be mostly offset by decreased costs incurred in the Euro region, however the cost decreases will not be realized as timely as the sales decreases. These currency fluctuations also impact the results of our Other Comprehensive Income.

For net sales of Industrial Materials, the impact of changes in the average exchange rates of other currencies against the U.S. dollar for the six months ended June 30, 2015 was an decrease of \$22.6 million compared to the same period of 2014. The impact of the exchange rate changes on cost of sales of Industrial Materials for the six months ended June 30, 2015 was a decrease of \$20.7 million compared to the same period of 2014. Changes in currency exchange rates decreased net sales of our Engineered Solutions segment by \$4.7 million and decreased cost of sales by \$3.9 million in the six months ended June 30, 2015 as compared to the same period for 2014.

As part of our cash management, we also have intercompany loans between our subsidiaries. These loans are deemed to be temporary and, as a result, remeasurement gains and losses on these loans are recorded as currency gains / losses in other income (expense), net, on the Consolidated Statements of Operations.

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

The remeasurement of intercompany loans and the effect of transaction gains and losses on intercompany activities resulted in a gain of \$0.6 million in the six months ended June 30, 2014 compared to a gain of \$1.1 million in the six months ended June 30, 2015.

We have in the past and may in the future use various financial instruments to manage certain exposures to specific financial market risks caused by currency exchange rate changes, as described under "Part I, Item 3—Quantitative and Qualitative Disclosures about Market Risk".

Liquidity and Capital Resources

We believe that we have adequate liquidity to meet our needs. As of June 30, 2015, we had cash and cash equivalents of \$14.5 million, long-term debt of \$349.3 million, short-term debt of \$199.2 million and stockholder's equity of \$909 million. We also have unused borrowing capacity under the Revolving Facility of \$258 million (after considering financial covenant restrictions and outstanding letters of credit of approximately \$6.3 million), and an additional \$40 million through a delayed draw term loan facility to be used in connection with the repayment of the Senior Subordinated Notes.

We use cash flow from operations and funds available under the Revolving Facility (subject to continued compliance with the financial covenants and representations under the Revolving Facility) as well as cash on hand as our primary sources of liquidity. The Revolving Facility is secured, and provides for maximum borrowings of up to \$400 million including a letter of credit sub-facility of up to \$50 million and is subject to certain conditions (including a maximum senior secured leverage ratio test). The Revolving Facility matures in April 2019. As of June 30, 2015, we had outstanding borrowings drawn from the Revolving Facility of \$48 million and outstanding letters of credit of \$6.3 million.

Under the Revolving Facility we have additional flexibility for investments, capital expenditures, acquisitions and restricted payments and we can issue letters of credit under the Revolving Credit Facility in an amount not to exceed \$50 million. We are permitted to pay dividends and repurchase our common stock in an aggregate amount (cumulative from April 23, 2014) up to \$75 million (or \$500 million, if certain leverage ratio requirements are satisfied), plus, each year, an aggregate amount equal to 50% of the consolidated net income in the prior year. On February 27, 2015, GrafTech and certain of its subsidiaries entered into an Amended and Restated Credit Agreement that provides for, among other things, greater financial flexibility and a new \$40 million senior secured delayed draw term loan facility.

Our Credit Agreement provides that if GrafTech has not repaid or refinanced the Senior Subordinated Notes by August 30, 2015, then GrafTech must maintain Liquidity (as defined) of at least \$300 million until the Senior Subordinated Notes are repaid or refinanced. For this purpose, Liquidity is defined as the aggregate commitments under the Credit Agreement of \$400 million, less drawn borrowings on the Credit Agreement, plus unrestricted cash. As of June 30, 2015, the Liquidity (as defined) was approximately \$356 million.

On July 28, 2015, GrafTech and certain of its subsidiaries entered into an amendment to the Amended and Restated Credit Agreement to change the terms regarding the occurrence of a default upon a change in control (which is defined thereunder to include the acquisition by any person of more than 25 percent of GrafTech's outstanding shares) to exclude the acquisition of shares by Brookfield (see Note 2 to the Financial Statements). In addition, effective upon such acquisition, the financial covenants will be eased, resulting in increased availability under the Revolving Facility. The size of the Revolving Facility will also be reduced from \$400 million to \$375 million.

The interest rate applicable to the Revolving Facility is LIBOR plus a margin ranging from 2.25% to 4.75% (depending on our total senior secured leverage ratio). The borrowers pay a per annum fee ranging from 0.35% to 0.70% (depending on our senior secured leverage ratio) on the undrawn portion of the commitments under the Revolving Facility. The new financial covenants, when they become effective, require us to maintain a minimum cash

interest coverage ratio ranging from 1.50 to 2.50 and a maximum senior secured leverage ratio ranging from 5.75 to 3.00, subject to adjustment over time.

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

Senior Notes

On November 20, 2012, the Company issued \$300 million principal amount of 6.375% Senior Notes due 2020 (the "Senior Notes"). The Senior Notes are the Company's senior unsecured obligations and rank pari passu with all of the Company's existing and future senior unsecured indebtedness. The Senior Notes are guaranteed on a senior unsecured basis by each of the Company's existing and future subsidiaries that guarantee certain other indebtedness of the Company or another guarantor. The Senior Notes bear interest at a rate of 6.375% per year, payable semi-annually in arrears on May 15 and November 15 of each year. The Senior Notes mature on November 15, 2020.

If, prior to maturity, a change in control (as defined in the indenture) of the Company occurs and thereafter certain downgrades of the ratings of the Senior Notes as specified in the indenture occur, the Company will be required to offer to repurchase any or all of the Senior Notes at a repurchase price equal to 101% of the aggregate principal amount of the Senior Notes, plus any accrued and unpaid interest. The acquisition of beneficial ownership by Brookfield or its affiliates of more than 35% of the Company's outstanding shares of common stock or more than 35% of the total voting power of the voting stock of the Company as a result of the tender offer Brookfield conducted pursuant to an Agreement and Plan of Merger that the Company entered into with Brookfield and certain affiliates and pursuant to the Investment Agreement would constitute a change in control as defined in the Indenture. If either the Credit Agreement or the Senior Subordinated Notes were accelerated, that may result in events of default in other agreements, including the indenture for the Senior Notes, which would permit the counterparties to such agreements to terminate those agreements and accelerate amounts that may be due thereunder.

Senior Subordinated Notes

On November 30, 2010, in connection with the acquisition of Seadrift Coke LP and C/G Electrodes LLC, we issued Senior Subordinated Notes for an aggregate total face amount of \$200 million. These Senior Subordinated Notes are non-interest bearing and mature in 2015. Because the promissory notes are non-interest bearing, we were required to record them at their present value (determined using an interest rate of 7%). The difference between the face amount of the promissory notes and their present value is recorded as debt discount. The debt discount will be amortized to income using the interest method, over the life of the promissory notes. The loan balance, net of unamortized discount, was \$194.4 million as of June 30, 2015. This balance was reclassified in November 2014 to short-term debt on our balance sheet as the maturity date is within one year.

If, prior to maturity or redemption, a change in control (as defined in the Senior Subordinated Notes) of the Company occurs, the holders of a majority of the Senior Subordinated Notes may, by written notice to the Company, declare the principal amount then outstanding under all (but not less than all) of the Senior Subordinated Notes to be immediately due and payable.

Notice of Intent to Prepay

On July 9, 2015, the Company provided notice to all holders of the Senior Subordinated Notes due November 30, 2015 (collectively, the "Notes" and each, a "Note") of the Company, that, as permitted under the Notes, the Company intends to prepay in full (the "Prepayment") the entire \$200,000,000 aggregate principal amount of the Notes after the Company's receipt of the proceeds of the issuance of convertible preferred stock of the Company pursuant to the Investment Agreement dated May 4, 2015 between the Company and BCP IV GrafTech Holdings LP (the "Preferred Stock Issuance"). See Note 2 to the financial statements for further discussion of the Preferred Stock Issuance.

The Company also notified the Noteholders that it was redeeming and paying in full (the "Redemption") any Notes that have not been fully prepaid by the Redemption Date (as defined below). The "Redemption Date" means the date that is the later of August 8, 2015 and ten (10) business days after the Prepayment Date (as defined below). On the

Redemption Date, as provided for in the Notes, the redeemed Notes shall be canceled by the Company and the aggregate principal amount of redeemed Notes shall be payable as described in the notice.

In accordance with procedures adopted for the Prepayment and Redemption, promptly, and in any event within one business day after receipt of the proceeds from the Preferred Stock Issuance, the Company will deposit an amount in cash equal to the entire principal amount of the Notes (the "Prepayment Amount") in escrow with Delaware Trust Company, which will act as Paying Agent in connection with the Prepayment and the Redemption (the "Paying Agent"). The date of such deposit is called the "Prepayment Date".

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

The Paying Agent will make the prepayment of the full principal on each Note as to which the Noteholder has submitted the appropriate documentation. If the Prepayment Date occurs after July 22, 2015, then as to Notes for which properly completed and signed Prepayment Documents are received on or before 5:00 p.m. Eastern Time on Wednesday, July 22, 2015, the Paying Agent will make payment within one business day after the Prepayment Date. As to Notes for which Prepayment Documents are received after 5:00 p.m. Eastern Time on Wednesday, July 22, 2015, the Paying Agent will make payment within the later of (a) one business day after the Prepayment Date and (b) two (2) business days after properly completed and signed Prepayment Documents are received. Once a Note has been prepaid in full, such Note shall be canceled by the Company.

The Company also notified holders that it will be redeeming in full, on the date that is the later of August 8, 2015 and ten (10) business days after the Prepayment Date, any Notes that have not been fully prepaid by the Redemption Date. On the Redemption Date, as provided for in the Notes, the redeemed Notes shall be canceled by the Company and the aggregate principal amount of redeemed Notes shall be payable as described in the notice. As to redeemed Notes for which properly completed and signed Prepayment Documents are received on or before two (2) business days prior to the Redemption Date, the Paying Agent will make payment on the Redemption Date. As to redeemed Notes for which Prepayment Documents are not received at least two (2) business days prior to the Redemption Date, the Paying Agent will make payment within the later of (a) one business day after the Redemption Date and (b) two (2) business days after properly completed and signed Prepayment Documents are received. As to redeemed Notes for which no Prepayment Documents are received on or prior to thirty (30) days after the Prepayment Date, the Paying Agent will make payment by check mailed to the Holder's address of record (subject to possible withholding tax as described in the notice).

Standby Financing Commitment

The Merger agreement provides that the Parent and the Company will cooperate and use commercially reasonable efforts to obtain waivers, if necessary, to avoid the trigger of a change of control or other event of default under the provisions of our debt agreements. Should these efforts fail, the Merger Agreement provides that the Parent will assist the Company in raising the required financing or in the absence of reasonable financing alternatives, the Parent will provide bridge financing to the Company.

Preferred Shares Issuance

On May 4, 2015, the Company entered into an Investment Agreement with Brookfield, pursuant to which the Company agreed to issue and sell and Brookfield agreed to purchase and pay for shares of Preferred Stock. See Note 2 to the financial statements for details of the transaction. If the convertible preferred stock is issued, it would trigger acceleration of vesting of certain equity awards, performance awards at 100%, and accelerated payment of certain awards and deferred compensation. If at least the minimum number of shares is purchased in the tender offer, it would constitute a change in control (as defined in our Credit Agreement) of the Company. This acceleration would result in a non-cash charge in the range of \$11-13 million depending on the timing of the transaction's closing. The majority of this charge would impact Selling, General and Administrative expense.

As of June 30, 2015, approximately 91% of our debt consisted of fixed rate or zero interest rate obligations compared to 92% as of December 31, 2014.

Cash Flow and Plans to Manage Liquidity. Our cash flow typically fluctuates significantly between quarters due to various factors. These factors include customer order patterns, fluctuations in working capital requirements, timing of capital expenditures, acquisitions, stock repurchases and other factors.

Certain of our obligations could have a material impact on our liquidity. Cash flow from operations and from financing activities services payment of our obligations, thereby reducing funds available to us for other purposes. As of June 30, 2015, we had \$258 million of unused borrowing capacity under the Revolving Facility (after considering

financial covenant restrictions and outstanding letters of credit of approximately \$6.3 million). Potential uses of this capacity include capital expenditures, acquisitions, debt repayments, stock repurchases and other general purposes, including cash outflows related to rationalization activities. Continued volatility in the global economy may require additional borrowings under the Revolving Facility. An improving economy, while resulting in improved results of operations, could increase our cash requirements to purchase inventories, make capital expenditures and fund payables and other obligations until increased accounts receivable are converted into cash. A downturn could significantly and

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

negatively impact our results of operations and cash flows, which, coupled with increased borrowings, could negatively impact our credit ratings, our ability to comply with debt covenants, our ability to secure additional financing and the cost of such financing, if available.

Based on expected operating results and expected cash flows, we expect to be in compliance with our existing financial covenants through December 31, 2015. The non-cash portion of rationalization charges do not affect the Company's liquidity or compliance with debt covenants.

In order to seek to minimize our credit risks, we reduce our sales of, or refuse to sell (except for cash on delivery or under letters of credit) our products to some customers and potential customers. In the current economic environment, our customers may experience liquidity shortages or difficulties in obtaining credit, including letters of credit. Our unrecovered trade receivables worldwide have not been material during the last 3 years individually or in the aggregate. We cannot assure you that we will not be materially adversely affected by accounts receivable losses in the future.

We manage our capital expenditures taking into account quality, plant reliability, safety, environmental and regulatory requirements, prudent or essential maintenance requirements, global economic conditions, available capital resources, liquidity, long-term business strategy and return on invested capital for the relevant expenditures, cost of capital and return on invested capital of the relevant segment and GrafTech as a whole, and other factors. We focus on growth capital expenditures which exceed our weighted average cost of capital. We prioritize projects with superior returns, which are often associated with high growth markets.

We had positive cash flow from operating activities during 2011, 2012, 2013, 2014 and through June 30, 2015.

Although the global economic environment experienced significant swings in these periods, our working capital management and cost-control initiatives allowed us to remain operating cash flow positive in both times of declining and improving operating results. Additionally, we continually look at means to enhance our liquidity and believe that many options are available to us to enhance both our near and long term liquidity. We plan to further reduce our inventory levels which will provide additional cash flow and we may enter into accounts receivable factoring arrangements (\$50 million of which are permitted under the Revolving Facility).

A repurchase program for up to ten million shares has been authorized by our Board of Directors. No shares have yet been purchased through this repurchase program. In addition, upon the vesting or payment of stock awards, an employee may elect receipt of the full share amount and either pay the resulting taxes or have shares sold in the open market to cover the tax obligation. We sometimes elect to purchase these shares rather than have them sold in the open market.

Related Party Transactions. Mr. Nathan Milikowsky, a current director of GrafTech and previously a director of GrafTech from December 2010 through May 2013, and certain members of his immediate family and certain entities in which he and members of his immediate family have interests, were substantial equity owners of Seadrift and C/G prior to the acquisitions of those entities by the Company. In connection with those acquisitions, Mr. Milikowsky, his immediate family members and those entities received a portion of the aggregate consideration paid to the equity holders of Seadrift and C/G pursuant to the Seadrift Merger Agreement and the C/G Merger Agreement, which was comprised of shares of the Company's common stock, cash and Senior Subordinated Notes.

We have not engaged in or been a party to any other material transactions with affiliates or related parties except for transactions with our current or former subsidiaries, compensatory transactions with directors and officers including employee benefits, stock option and restricted stock grants, compensation deferral, stock purchases, and customary indemnification and expense advancement arrangements.

Cash Flows.

The following table summarizes our cash flow activities:

	For the Six Months Ended	
	June 30,	
	2014	2015
	(Dollars in millions)	
Cash flow provided by (used in):		
Operating activities	\$55.9	\$24.2
Investing activities	\$(41.3) \$(32.8
Financing activities	\$(5.9) \$6.8

Operating Activities

Cash flow from operating activities represents cash receipts and cash disbursements related to all of our activities other than investing and financing activities. Operating cash flow is derived by adjusting net income (loss) for:

- Non-cash items such as depreciation and amortization; post retirement obligations, severance and pension plan changes; and stock-based compensation charges;

- Gains and losses attributed to investing and financing activities such as gains and losses on the sale of assets and unrealized currency transaction gains and losses;

- Changes in operating assets and liabilities which reflect timing differences between the receipt and payment of cash associated with transactions and when they are recognized in results of operations.

The net impact of the changes in working capital (operating assets and liabilities), which are discussed in more detail below, include the impact of changes in: receivables, inventories, prepaid expenses, accounts payable, accrued liabilities, accrued taxes, interest payable, and payments of other current liabilities.

We continue to attempt to maximize our operating cash flows by focusing on working capital items that are most directly affected by changes in sales volume, such as accounts receivable, inventories and accounts payable.

During the six months ended June 30, 2014, changes in working capital resulted in a net source of funds of \$30.4 million which was impacted by:

- cash inflows of \$22.2 million from the decrease in accounts receivable due to the timing and collection of customer sales and collections;

- cash inflows from inventories of \$42.3 million due primarily to reduced volumes on hand;

- net cash outflows from decreases in accounts payable and accruals of \$0.3 million, due primarily to changes in tax accruals and payables;

- decrease in rationalization accruals of \$15.1 million, due primarily to severance payments;

Other uses of cash in the six months ended June 30, 2014 included contributions to pension and other benefit plans of \$5.6 million.

During the six months ended June 30, 2015, changes in working capital resulted in a net source of funds of \$30.4 million which was impacted by:

- net cash inflows in accounts receivable of \$34.9 million from the decrease in accounts receivable due to the timing and collection of customer sales and collections;

- the change in inventories of \$3.3 million due primarily to reduced volumes on hand;

- net cash outflows from decreases in accounts payable and accruals of \$11.8 million, due primarily to changes in tax accruals and payables; and

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

a decrease in rationalization accruals of \$2.2 million, due primarily to severance payments.

Other uses of cash in the six months ended June 30, 2015 included contributions to pension and other benefit plans of \$10.6 million.

Investing Activities

Net cash used in investing activities was \$41.3 million during the six months ended June 30, 2014 and included capital expenditures of \$46.5 million and proceeds from the sales of assets of \$2.5 million (including rationalization related scrap proceeds of \$1.0 million). During the six months ended June 30, 2014, we received \$2.8 million of recoveries related to an insurance claim made for casualty losses related to productive equipment damaged in a fire.

Net cash used in investing activities was \$32.8 million during the six months ended June 30, 2015 and included capital expenditures of \$25.6 million and \$7.8 million related to cash settlements of derivative instruments.

Financing Activities

Net cash flow used in financing activities was \$5.9 million during the six months ended June 30, 2014, we used \$9.5 million to pay off our supply chain financing agreement. Net borrowings under our Revolver and short term debt agreements resulted in a source of cash of \$3.0 million.

Net cash inflow from financing activities was \$6.8 million during the six months ended June 30, 2015. Net borrowings under our Revolving Facility and short term debt agreements resulted in a source of cash of \$12.5 million, and were offset by \$2.7 million of cash paid for refinancing fees and \$2.7 million of cash paid for issuance costs related to the \$150 million convertible preferred shares.

Restrictions on Dividends and Stock Repurchases

It has generally been the policy of our Board of Directors to retain earnings to finance strategic and other plans and programs, conduct business operations, fund acquisitions, meet obligations and repay debt. We did not pay any cash dividends in 2013 or 2014. We periodically review our dividend policy. As described earlier, the terms of the Preferred Stock provide that the Preferred Stock will be entitled to an annual dividend at the rate of 7.0% prior to any dividend or distribution with respect to any of the Company's capital stock junior to the Preferred Stock, which will be due and payable quarterly in arrears in cash. Any other declaration and payment of cash dividends or repurchases of common stock will be subject to the discretion of our Board of Directors and will be dependent upon our financial condition, results of operations, cash requirements and future prospects, the limitations contained in the Revolving Facility and other factors deemed relevant by our Board of Directors. At the present time, there are no plans for paying cash dividends in the near future other than as provided with respect to the terms of the Preferred Stock.

Under the Revolving Facility, in general, GrafTech is permitted to pay dividends and repurchase common stock in an aggregate amount (cumulative from April 23, 2014) up to \$75 million (or \$500 million, if certain leverage ratio requirements are satisfied) plus, each year, an aggregate amount equal to 50% of the consolidated net income in the prior year.

Recent Accounting Pronouncements

We discuss recently adopted accounting standards in Note 1, "Organization and Summary of Significant Accounting Policies" of the Notes to Consolidated Financial Statements.

Description of Our Financing Structure

We discuss our financing structure in more detail in Note 9, "Debt and Liquidity" of the Notes to Consolidated Financial Statements.

Table of Contents

PART I (CONT'D)

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risks primarily from changes in interest rates, currency exchange rates, energy commodity prices and commercial energy rates. We, from time to time, routinely enter into various transactions that have been authorized according to documented policies and procedures to manage these well-defined risks. These transactions relate primarily to financial instruments described below. Since the counterparties to these financial instruments are large commercial banks and similar financial institutions, we do not believe that we are exposed to material counterparty credit risk. We do not use financial instruments for trading purposes.

Our exposure to changes in interest rates results primarily from floating rate long-term debt tied to LIBOR or Euro LIBOR. Our exposure to changes in currency exchange rates results primarily from:

- sales made by our subsidiaries in currencies other than local currencies;
- raw material purchases made by our foreign subsidiaries in currencies other than local currencies;
- and

investments in and intercompany loans to our foreign subsidiaries and our share of the earnings of those subsidiaries, to the extent denominated in currencies other than the dollar.

Our exposure to changes in energy commodity prices and commercial energy rates results primarily from the purchase or sale of refined oil products and the purchase of natural gas and electricity for use in our manufacturing operations.

Currency Rate Management. We enter into foreign currency derivatives from time to time to attempt to manage exposure to changes in currency exchange rates. These foreign currency derivatives, which include, but are not limited to, forward exchange contracts and purchased currency options, attempt to hedge global currency exposures. Forward exchange contracts are agreements to exchange different currencies at a specified future date and at a specified rate. Purchased foreign currency options are instruments which give the holder the right, but not the obligation, to exchange different currencies at a specified rate at a specified date or over a range of specified dates. Forward exchange contracts and purchased currency options are carried at market value.

The outstanding foreign currency derivatives as of December 31, 2014 represented a net unrealized gain of \$0.9 million and a net unrealized loss of \$0.1 million as of June 30, 2015.

Energy Commodity Management. We periodically enter into commodity derivative contracts and short duration fixed rate purchase contracts to effectively fix some or all of our natural gas and refined oil product exposure. The outstanding contracts as of December 31, 2014 represented net unrealized loss of \$7.1 million and no net unrealized gains or losses as of June 30, 2015.

Interest Rate Risk Management. We periodically implement interest rate management initiatives to seek to minimize our interest expense and the risk in our portfolio of fixed and variable interest rate obligations.

We periodically enter into agreements with financial institutions that are intended to limit, or cap, our exposure to incurrence of additional interest expense due to increases in variable interest rates. These instruments effectively cap our interest rate exposure. We currently do not have any such instruments outstanding.

Sensitivity Analysis. We use sensitivity analysis to quantify potential impacts that market rate changes may have on the fair values of our foreign currency derivatives and our commodity derivatives. The sensitivity analysis represents the hypothetical changes in value of the hedge position and does not reflect the related gain or loss on the forecasted underlying transaction. As of June 30, 2015, a 10% appreciation or depreciation in the value of the U.S. dollar against foreign currencies from the prevailing market rates would result in a corresponding decrease of \$1.1 million or a corresponding increase of \$0.9 million, respectively, in the fair value of the foreign currency hedge portfolio. Because of the high correlation between the hedging instrument and the underlying exposure, fluctuations in the value of the instruments are generally offset by reciprocal changes in the value of the underlying exposure.

We had no interest rate derivative instruments outstanding as of June 30, 2015. A hypothetical increase in interest rates of 100 basis points (1%) would have increased our interest expense by \$0.7 million for the six months ended June 30, 2015.

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

(Unaudited)

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Management is responsible for establishing and maintaining adequate disclosure controls and procedures at the reasonable assurance level. Disclosure controls and procedures are designed to ensure that information required to be disclosed by a reporting company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by it in the reports that it files under the Exchange Act is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2015. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these controls and procedures are effective at the reasonable assurance level as of June 30, 2015.

Changes in Internal Controls over Financial Reporting. There have been no changes in our internal controls over financial reporting that occurred during the three months ended June 30, 2015 that materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

Item 1. Legal Proceedings

Director Advancement - We have received a request from a director to reimburse approximately \$500,000 incurred by the Director in connection with the investigation conducted by the Special Committee of the GrafTech Board formed in September 2012 and a subsequent subpoena received by him from the SEC. The request is based on GrafTech's bylaws, an indemnification agreement between GrafTech and the director and Delaware law and, thereunder, advancement of expenses reasonably incurred in a civil, criminal, administrative or investigative action, suit, or proceeding by reason of the fact that the person is or was a director is generally required, subject to, among other things, an undertaking by the director to repay if it turns out he or she did not meet the applicable standards. The Director has provided such an undertaking and, through June 30, 2015, we have advanced approximately \$0.6 million of such expenses to him.

Additional information required by this Item is set forth in Note 12, "Contingencies" of the Notes to Consolidated Financial Statements and is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes to the Risk Factors disclosed in Part I-Item IA of the Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 24, 2012, our Board of Directors authorized a share repurchase program for up to ten million shares of our common stock. Purchases under this program may take place from time to time in the open market, or through privately negotiated transactions, as market, industry and economic conditions warrant. We had not made any purchases under this program as of June 30, 2015.

Upon the vesting or payment of stock awards, an employee may elect receipt of the full share amount and either pay the resulting taxes or sell shares in the open market to cover the tax obligation. We sometimes elect to purchase these shares rather than allow them to be sold in the open market. These repurchases are in addition to the programs authorized by our Board of Directors described above.

Period	Total Number of Shares Purchased*	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Publicly Announced Plans or Programs
April 1 through April 31, 2015	2,855	\$4.19	—	10,000,000
May 1 through May 31, 2015	—	—	—	10,000,000
June 1 through June 30, 2015	—	—	—	10,000,000

* Purchases of vested restricted stock shares from employees as payment for the withholding taxes due upon the vesting or payment of stock awards.

GRAFTECH INTERNATIONAL LTD. AND SUBSIDIARIES

with the lenders party thereto and JPMorgan Chase Bank, N.A., as Administrative Agent, Collateral Agent, Issuing Bank and Swingline Lender (the “Credit Agreement”), to change the terms regarding the occurrence of a default upon a change in control (which is defined thereunder to include the acquisition by any person of more than 25 percent of GrafTech’s outstanding shares) to exclude the acquisition of shares by Brookfield (see Note 2 to the Financial Statements). In addition, effective upon such acquisition, the financial covenants will be eased, resulting in increased availability under the Revolving Facility. The size of the Revolving Facility will also be reduced from \$400 million to \$375 million. In addition, the Credit Agreement was amended to adjust interest rates and fees applicable to the Revolving Facility.

The Company paid the lenders a customary fee for the Amendment. Some of the lenders and their affiliates have performed and may in the future perform various commercial banking, investment banking and other financial advisory services for the Company for which they have received and will receive customary compensation.

The foregoing description of the Amendment does not purport to be complete and is qualified in its entirety by reference to the Second Amendment dated July 28, 2015 to the Second Amendment and Restatement Agreement filed as Exhibit 10.1 to this Quarterly Report on Form 10-Q.
