NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of accounting policies for Stereo Vision Entertainment, Inc. is presented to assist in understanding the Company's financial statements. The accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Nature of Operations and Going Concern

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue in operation for at least one year and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several conditions and events cast doubt about the Company's ability to continue as a "going concern". The Company has incurred net losses of approximately \$15,886,891 for the period from May 5, 1999 (inception) to December 31, 2007, has a liquidity problem, and requires additional financing in order to finance its business activities on an ongoing basis. The Company is actively pursuing alternative financing and has had discussions with various third parties, although no firm commitments have been obtained. In the interim, shareholders of the Company have committed to meeting its minimal operating expenses. In the past, shareholders of the Company have met the Company's minimal operating expenses.

The Company's future capital requirements will depend on numerous factors including, but not limited to, continued progress developing its products and market penetration and profitable operations.

These financial statements do not reflect adjustments that would be necessary if the Company were unable to continue as a "going concern". While management believes that the actions already taken or planned, will mitigate the adverse conditions and events which raise doubt about the validity of the "going concern" assumption used in preparing these financial statements, there can be no assurance that these actions will be successful.

If the Company were unable to continue as a "going concern", then substantial adjustments would be necessary to the carrying values of assets, the reported amounts of its liabilities, the reported expenses, and the balance sheet classifications used.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Organization and Basis of Presentation

The Company was incorporated under the laws of the State of Nevada on May 5, 1999. As of December 31, 2007, the Company is in the development stage, and has not commenced planned principal operations.

Nature of Business

The Company intends to position itself to evolve into a vertically integrated, diversified media entertainment company. The Company anticipates generating revenues from several sources, including production of new and existing feature films in both 3-D and 2-D format for theatrical and direct to DVD release, as well as expanding into other areas of the entertainment industry including the licensing of its films to the video gaming industry.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Pervasiveness of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, including accounts payable and accrued liabilities at December 31, 2007 and June 30, 2007 approximates their fair values due to the short-term nature of these financial instruments.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment

Property and equipment are stated at cost. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives, principally on a straight-line basis from 3 to 5 years.

Upon sale or other disposition of property and equipment, the cost and related accumulated depreciation or amortization are removed from the accounts and any gain or loss is included in the determination of income or loss.

Expenditures for maintenance and repairs are charged to expense as incurred. Major overhauls and betterments are capitalized and depreciated over their useful lives.

The Company identifies and records impairment losses on long-lived assets such as property and equipment when events and circumstances indicate that such assets might be impaired. The Company considers factors such as significant changes in the regulatory or business climate and projected future cash flows from the respective asset. Impairment losses are measured as the amount by which the carrying amount of intangible asset exceeds its fair value.

Advertising Costs

Advertising costs are expensed as incurred. For the years ended December 31, 2007 and 2006, advertising expense was \$0 and \$0, respectively.

Concentration of Credit Risk

The Company has no significant off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains the majority of its cash balances with one financial institution, in the form of demand deposits.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loss per Share

Basic loss per share has been computed by dividing the loss for the year applicable to the common stockholders by the weighted average number of common shares outstanding during the year. The effect of outstanding common stock equivalents would be anti-dilutive for December 31, 2007 and 2006 and are thus not considered. At December 31, 2007 and 2006, there were no outstanding common stock equivalents.

Reclassification

Certain reclassifications have been made in the 2006 financial statements to conform with the 2007 presentation.

NOTE 2 - INCOME TAXES

As of June 30, 2007, the Company had a net operating loss carry forward for income tax reporting purposes of approximately \$15,221,000 that may be offset against future taxable income through 2027. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carry-forwards will expire unused. Accordingly, the potential tax benefits of the loss carry-forwards are offset by a valuation allowance of the same amount.

	2007	2006
Net Operating Losses	\$ 2,283,150	\$ 2,276,550
Valuation Allowance	(2,283,150)	(2,276,550)
	\$ -	\$ -

The provision for income taxes differs from the amount computed using the federal US statutory income tax rate as follows:

	2007	2006
Provision (Benefit) at US Statutory Rate	\$ 6,600	\$ 73,050
Increase (Decrease) in Valuation Allowance	(6,600)	(73,050)
	\$ -	\$ -

NOTE 2 - INCOME TAXES (continued)

The Company evaluates its valuation allowance requirements based on projected future operations. When circumstances change and causes a change in management's judgment about the recoverability of deferred tax assets, the impact of the change on the valuation is reflected in current income.

NOTE 3 - DEVELOPMENT STAGE COMPANY/ GOING CONCERN

The Company has not begun principal operations and as is common with a development stage company, the Company has had recurring losses during its development stage. Continuation of the Company as a going concern is dependent upon obtaining the additional working capital necessary to be successful in its planned activity, and the management of the Company has developed a strategy, which it believes will accomplish this objective through additional equity funding and long term financing, which will enable the Company to operate for the coming year.

NOTE 4 - RENT EXPENSE

The Company's principal executive offices are located at 15452 Cabrito Road, Suite 204, Van Nuys, CA 91406 and consist of approximately 2,500 square feet of furnished executive suite offices and reception and conference room arrangements. The lease expired in June 2005. Since the lease expired, the Company is on a month to month lease. The monthly rent for the property is \$2,500. For the six months ended December 31, 2007 and 2006, rent expense was \$15,000 and \$15,000, respectively.

On March 7, 2007, the Company signed a ten month residential lease on behalf of its Chairman and CEO, John Honour. The monthly rent is \$6,000 per month. The first five months rent was paid for by the issuance of 300,000 shares of restricted stock at a value of \$.10 per share which was issued in the third quarter. The issuance of these shares was offset against existing shareholder loans by Mr. Honour to the Company.

NOTE 5 - LOANS FROM SHAREHOLDERS AND OTHER RELATED PARTY TRANSACTIONS

As of December 31, 2007 and June 30, 2007, the company owed \$591,471 and \$206,549 to various shareholders and officers/directors. The loans are unsecured with interest at rates of between 4.00% to 10% and have no fixed terms of repayment.

NOTE 9 - STOCK OPTIONS

Pursuant to a year 2000 Stock Option and Compensation Plan, grants of shares can be made to employees, officers, directors, consultants and independent contractors of non-qualified stock options as well as for the grant of stock options to employees that qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986 or as non-qualified stock options. The Plan is administered by the Board of Directors ("Board"), which has, subject to specified limitations, the full authority to grant options and establish the terms and conditions for vesting and exercise thereof.

In order to exercise an option granted under the Plan, the optionee must pay the full exercise price of the shares being purchased. Payment may be made either: (i) in cash; or (ii) at the discretion of the Board, by delivering shares of common stock already owned by the optionee that have a fair market value equal to the applicable exercise price; or (iii) with the approval of the Board, with monies borrowed from the Company.

Subject to the foregoing, the Board has broad discretion to decide the terms and conditions applicable to options granted under the Plan. The appellate court disagreed and allowed the entry of judgment as filed, stating that the 25,000 shares had "no value" and allowing \$37,411 to be imposed against the Company. The price paid was 20,000 unregistered common shares of the Company which were worth \$6,000 at the time, and \$5,893 in cash.

NOTE 12 - FILM AND MUSIC COSTS

The Company has intangible assets which consist of movie licensing rights and production costs and are valued at cost. As of December 31, 2007 and June 30, 2007, the Company had \$274,000 and \$24,000 in film costs that are in the development stage or pre-production stage.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operations - The following discussion should be read in conjunction with the Company's audited financial statements.

SVEI intends to pursue opportunities in three product segments of the entertainment industry:

Feature length 3-D and 2-D films for theatrical release

Direct to DVD 2-D and 3-D films

Licensing of video game rights

StereoVision intends to be the only company in Hollywood focused on developing a library of films using 3-D technology. The company intends to develop four to five new scripts for theatrical release in 3D and 2D and direct to DVD movies (initially in 2D only) each year and will concentrate on the most popular genres including horror, action/adventure, sci-fi CGI effect movies, comedies and family films.

As a development stage company, SVEI has minimal historical operations, no revenues and negative cash flows. In order to satisfy cash requirements for SVEI's production and revenue goals, management must obtain working capital through either debt or equity financing.

The entertainment industry is an intensely competitive one, where price, service, location, and quality are critical factors. The Company has many established competitors, ranging from similar local single unit operations to large multi-national operations. The entertainment industry may be affected by changes in customer tastes, economic, and demographic trends. Factors such as inflation, increased supplies costs and the availability of suitable employees may adversely affect the entertainment industry in general and the Company in particular. In view of the Company's limited financial resources and management availability, the Company will continue to be at a significant competitive disadvantage vis-a-vis the Company's competitors.

Results of Operations - There were no revenues from sales for the three months ended December 31, 2007 and 2006. SVEI has sustained a net loss of approximately \$287,341 for the three months ended December 31, 2007. From May 5, 1999 the Company was a development stage company and had not begun principal operations. Accordingly, comparisons with prior periods are not meaningful.

LIQUIDITY AND CAPITAL RESOURCES

The Company has developed a detailed plan of operations to exploit the opportunities it sees in the entertainment industry and to take advantage of the skills and experience of its management team. On a preliminary basis, the Company estimates that it will require approximately \$1,500,000 over a period of 12 months to fund initial development of existing projects as well as operate the company. In order to fund the actual production of a feature film, the Company estimates it will require approximately an additional \$5-\$15 million which it will obtain from a variety of sources including partner distributors, tax rebates for on site production in certain jurisdictions as well as debt and equity sources. The Company may attempt to arrange joint ventures with studios to facilitate the development of new movies.

The aforementioned estimates of capital required are still preliminary in nature and are subject to substantial and continuing revisions. Although the Company has not yet commenced any formal capital raising efforts, the Company expects that any capital that it raises will be in the form of one or more debt or equity financings. However, there can

be no assurances that the Company will be successful in raising any required capital on a timely basis and/or under acceptable terms and conditions. To the extent that the Company does not raise sufficient capital to implement its plan of operations on a timely basis, it will have to curtail, revise and/or delay its business plans. The Company has financed its operations to date from the sale of stock and loans from related parties. During the three months ended December 31, 2007, the Company did not raise any funds from outside sources. There can be no assurances that loans will be forthcoming from officers, directors, and shareholders in the future.

Government Regulations - The Company is subject to all pertinent Federal, State, and Local laws governing its business. The Company is subject to licensing and regulation by a number of authorities in its State or municipality. These may include health, safety, and fire regulations. The Company's operations are also subject to Federal and State minimum wage laws governing such matters as working conditions and overtime.

Item 3. Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for the Company.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon the evaluation, the Company's President concluded that, as of the end of the period, the Company's disclosure controls and procedures were effective in timely alerting him to material information relating to the Company required to be included in the reports that the Company files and submits pursuant to the Exchange Act. These same officers concluded that the Company's controls and procedures were effective in ensuring that the information required by it in the reports it files under the Act is managed and communicated to its principal officers in a manner which allows timely decision making regarding required disclosure.

(b) Changes in Internal Controls

Based on this evaluation as of December 31, 2007, there were no changes in the Company's internal controls over financial reporting for the quarter ended December 31, 2007, or in any o ther areas that could significantly affect the Company's internal controls subsequent to the date of his most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

In September of 2001 the company entered into a promissory note with Duncan MacPhearson to be payable within the year. A dispute arose and the note was not timely paid, which led to a court action styled R. Duncan MacPhearson vs. Stereo Vision Entertainment, et. al., Case No. LC 0611749, in Los Angeles, California. Subsequently, the parties, on January 26, 2004, entered into a Settlement Agreement, including default provisions if scheduled payments did not occur as agreed. 25,000 shares of restricted stock, valued at \$25,000, were delivered and \$42,500 of payments was made, but the final \$10,000 was not paid. According to the stipulated judgment agreement, this resulted in the plaintiff's entry of a judgment, according to notice received by the company, of \$37,411, which was then appealed by the Company as incorrect. The appellate court disagreed and allowed the entry of judgment as filed, stating that the 25,000 shares had "no value" and allowing \$37,411 to be imposed against the Company. Therefore, the company has paid \$42,500 in cash, \$25,000 in restricted stock, and owed \$37,411, which had been accrued as a liability in the financial statements, for a total lawsuit resolution of \$104,911. At December 31, 2007, the total amount due was \$32,411.
