Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended June 30, 2008 and 2007

1. Basis of Presentation

Cheviot Financial Corp. ("Cheviot Financial" or the "Corporation") is a financial holding company, the principal asset of which consists of its ownership of Cheviot Savings Bank (the "Savings Bank"). The Savings Bank conducts a general banking business in southwestern Ohio which consists of attracting deposits and applying those funds to the origination of primarily real estate loans. The Corporation is 61% owned by Cheviot Mutual Holding Company. Cheviot Savings' profitability is significantly dependent on net interest income, which is the difference between interest income from interest-earning assets and the interest expense paid on interest-bearing liabilities. Net interest income is affected by the relative amount of interest-earning assets and interest-bearing liabilities and the interest received or paid on these balances.

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. Accordingly, these consolidated financial statements should be read in conjunction with the consolidated

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

financial statements and notes thereto of Cheviot Financial included in the Annual Report on Form 10-K for the year ended December 31, 2007. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the three and six month periods ended June 30, 2008, are not necessarily indicative of the results which may be expected for the entire year.

2. Principles of Consolidation

The accompanying consolidated financial statements as of and for the three and six months ended June 30, 2008, include the accounts of the Corporation and its wholly-owned subsidiary, the Savings Bank. All significant intercompany items have been eliminated.

3. Liquidity and Capital Resources

Liquidity describes our ability to meet the financial obligations that arise in the ordinary course of business. Liquidity is primarily needed to meet the borrowing and deposit withdrawal requirements of our customers and to fund current and planned expenditures. Our primary sources of funds are deposits, scheduled amortization and prepayments of loan principal and mortgage-backed securities, maturities and calls of securities and funds provided by our operations. In addition, we may borrow from the Federal Home Loan Bank of Cincinnati. At June 30, 2008 and December 31, 2007, we had \$42.2 million and \$28.7 million, respectively, in outstanding borrowings from the Federal Home Loan Bank of Cincinnati and had the capacity to increase such borrowings at those dates by approximately \$99.4 million and \$109.4 million.

Loan repayments and maturing securities are a relatively predictable source of funds. However, deposit flows, calls of securities and prepayments of loans and mortgage-backed securities are strongly influenced by interest rates, general and local economic conditions and competition in the marketplace. These factors reduce the predictability of these sources of funds.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three and six months ended June 30, 2008 and 2007

3. Liquidity and Capital Resources (continued)

Our primary investing activities are the origination of one- to four-family real estate loans, commercial real estate, construction and consumer loans, and, to a lesser extent, the purchase of securities. For the six months ended June 30, 2008, loan originations totaled \$41.5 million, compared to \$24.8 million for the six months ended June 30, 2007.

Total deposits decreased \$4.8 million during the six months ended June 30, 2008 and increased \$6.9 million during the six months ended June 30, 2007, respectively. Deposit flows are affected by the level of interest rates, the interest rates and products offered by competitors and other factors.

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

The following table sets forth information regarding the Corporation's obligations and commitments to make future payments under contract as of June 30, 2008.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three and six months ended June 30, 2008 and 2007

3. Liquidity and Capital Resources (continued)

At June 30, 2008 and 2007, we exceeded all of the applicable regulatory capital requirements. Our core (Tier 1) capital was \$54.5 million and \$52.4 million, or 16.7% and 16.6% of total assets at both June 30, 2008 and 2007, respectively. In order to be classified as "well-capitalized" under federal banking regulations, we were required to have core capital of at least \$19.6 million, or 6.0% of assets as of June 30, 2008. To be classified as a well-capitalized bank, we must also have a ratio of total risk-based capital to risk-weighted assets of at least 10.0%. At June 30, 2008 and 2007, we had a total risk-based capital ratio of 32.1% and 32.5%, respectively.

4. Earnings Per Share

Basic earnings per share is computed based upon the weighted-average common shares outstanding during the period, less shares in the ESOP that are unallocated and not committed to be released plus shares in the ESOP that have

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

been allocated. The weighted average common shares outstanding includes 5,455,313 shares held by our mutual holding company parent. Weighted-average common shares deemed outstanding gives effect to 214,247 and 285,661 unallocated shares held by the ESOP for the three and six months ended June 30, 2008 and 2007, respectively.

	For the six months ended June 30,

Weighted-average common shares outstanding (diluted)	8,757,417	9,163,566	8,
	=====	=====	==

5. Stock Option Plan

On April 26, 2005, the Corporation approved a Stock Incentive Plan that provides for grants of up to 486,018 stock options. During 2008, 2007, 2006 and 2005 approximately 8,060, 6,460, 6,100 and 384,000 option awards for shares were granted all of which are subject to five year vesting.

In 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 123(R), "Share-Based Payment," which revises SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees." SFAS No. 123(R) requires that cost related to the fair value of all equity-based awards to employees, including grants of employee stock options, be recognized in the financial statements.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three and six months ended June 30, 2008 and 2007

5. Stock Option Plan (continued)

The Corporation adopted the provisions of SFAS No. 123(R) effective January 1, 2006, using the modified prospective transition method, and therefore has not restated its financial statements for prior periods. Under this method, the Corporation has applied the provisions of SFAS No. 123(R) to new equity-based awards and to equity-based awards modified, repurchased, or cancelled after January 1, 2006. In addition, the Corporation recognizes compensation cost for the portion of equity-based awards for which the requisite service period has not been rendered ("unvested equity-based awards") that are outstanding as of

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

January 1, 2006. The compensation cost recorded for unvested equity-based awards is based on their grant-date fair value. For the six months ended June 30, 2008, the Corporation recorded \$122,000 in after-tax compensation cost for equity-based awards that vested during the six months ended June 30, 2008. The Corporation has \$512,000 unrecognized pre-tax compensation cost related to non-vested equity-based awards granted under its stock incentive plan as of June 30, 2008, which is expected to be recognized over a weighted-average vesting period of approximately 2.0 years.

A summary of the status of the Corporation's stock option plan as of June 30, 2008, and changes during the period then ended is presented below:

	Six months ended June 30, 2008	Weighted- average exercise price
	Shares	
Outstanding at beginning of period	396,220	\$11.21
Granted	8,060	9.03
Exercised	-	-
Forfeited	-	-
	-----	-----
Outstanding at end of period	404,280	\$11.16
	=====	=====
Options exercisable at period-end	233,936	\$11.17
	=====	=====
Options expected to be exercisable at year-end		
Fair value of options granted		\$ 1.93
		=====

The following information applies to options outstanding at June 30, 2008:

Number outstanding	404,280
Exercise price \$9.03 - \$13.63	
Weighted-average exercise price	\$11.16
Weighted-average remaining contractual life	7.0 years

The expected term of options is based on evaluations of historical and expected future employee exercise behavior. The risk free interest rate is based upon the U.S. Treasury rates at the date of grant with maturity dates approximately equal to the expected life at grant date. Volatility is based upon the historical volatility of the Corporation's stock.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three and six months ended June 30, 2008 and 2007

5. Stock Option Plan (continued)

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

The fair value of each option was estimated on the date of grant using the modified Black-Scholes options pricing model with the following weighted-average assumptions used for grants in 2008: dividend yield of 3.65%, expected volatility of 26.13%, risk-free interest rate of 3.78% and an expected life of 10 years for each grant.

The effects of expensing stock options is reported in "cash provided by financing activities" in the Consolidated Statements of Cash Flows.

6. Income Taxes

The Corporation adopted the provisions of FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes," on January 1, 2007. Previously, the Corporation had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies." As required by Interpretation 48, which clarifies Statement No. 109, "Accounting for Income Taxes," the Corporation recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Corporation applied Interpretation 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of Interpretation 48, the Corporation was not required to record any liability for unrecognized tax benefits as of January 1, 2007. There have been no material changes in unrecognized tax benefits since January 1, 2007. As stated in the Annual Report, the only known tax attribute which can influence the Corporation's effective tax rate is the utilization of charitable contribution carryforwards.

The Corporation is subject to income taxes in the U.S. federal jurisdiction, as well as various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Corporation is no longer subject to U.S. federal, state and local, or non U.S. income tax examinations by tax authorities for the years before 2004.

The Corporation will recognize, if applicable, interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses.

7. Effects of Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement emphasizes that fair value is a market-based measurement and should be determined based on assumptions that a market participant would use when pricing an asset or liability. This Statement clarifies that market participant assumptions should include assumptions about risk as well as the effect of a restriction on the sale or use of an asset. Additionally, this Statement establishes a fair value hierarchy that provides the highest priority to quoted prices in active markets and the lowest priority to unobservable data. This Statement is effective for fiscal years beginning after November 15, 2007, or January 1, 2008 as to the Corporation, and interim periods within those fiscal years. The adoption of this Statement did not have a material adverse effect on the Corporation's financial position or results of operations.

For the three and six months ended June 30, 2008 and 2007

7. Effects of Recent Accounting Pronouncements (continued)

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115." This Statement allows companies the choice to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This Statement is effective as of January 1, 2008 as to the Corporation, and interim periods within those fiscal years. The impact of this new pronouncement was not material to the Corporation's consolidated financial statements.

Securities and Exchange Commission (SEC) Staff Accounting Bulletin No. 109, Written Loan Commitments Recorded at Fair Value Through Earnings (SAB 109) -- In November 2007, SEC SAB 109 was issued. SAB 109 provides the staff's views on the accounting for written loan commitments recorded at fair value. To make the staff's views consistent with Statement No. 156, Accounting for Servicing of Financial Assets, and Statement No. 159, SAB 109 revises and rescinds portions of SAB No. 105, Application of Accounting Principles to Loan Commitments, and requires that the expected net future cash flows related to the associated servicing of a loan should be included in the measurement of all written loan commitments that are accounted for at fair value through earnings. The provisions of SAB 109 are applicable to written loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The Corporation adopted this Statement with no material impact to the Corporation's consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This report on Form 10-Q contains forward-looking statements, which can be identified by the use of such words as estimate, project, believe, intend, anticipate, plan, seek, expect and similar expressions. These forward-looking statements are subject to significant risks, assumptions and uncertainties that could affect the actual outcome of future events. Because of these uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements.

Critical Accounting Policies

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or on income to be critical accounting policies. We consider the accounting method used for the allowance for loan losses to be a critical accounting policy.

The allowance for loan losses is the estimated amount considered necessary to cover inherent, but unconfirmed credit losses in the loan portfolio at the balance sheet date. The allowance is established through the provision for losses on loans which is charged against income. In determining the allowance for loan losses, management makes significant estimates and has identified this policy as one of the most critical for Cheviot Financial.

Management performs a quarterly evaluation of the allowance for loan losses. Consideration is given to a variety of factors in establishing this estimate including, but not limited to, current economic conditions, delinquency statistics, geographic and industry concentrations, the adequacy of the underlining collateral, the financial strength of the borrower, results of internal loan reviews and other relevant factors. This evaluation is inherently subjective as it requires material estimates that may be susceptible to significant change.

The analysis has two components, specific and general allocations. Specific percentage allocations can be made for unconfirmed losses related to loans that are determined to be impaired. Impairment is measured by determining the present value of expected future cash flows or, for collateral-dependent loans, the fair value of the collateral adjusted for market conditions and selling expenses. If the fair value of the loan is less than the loan's carrying value, a charge-off is recorded for the difference. The general allocation is determined by segregating the remaining loans by type of loan, risk weighting (if applicable) and payment history. We also analyze historical loss experience, delinquency trends, general economic conditions and geographic and industry concentrations. This analysis establishes factors that are applied to the loan groups to determine the amount of the general reserve. Actual loan losses may be significantly more than the allowances we have established which could result in a material negative effect on our financial results.

Discussion of Financial Condition Changes at December 31, 2007
and at June 30, 2008

Total assets increased \$7.6 million, or 2.4%, to \$326.7 million at June 30, 2008, from \$319.1 million at December 31, 2007. The increase in total assets reflects an increase in loans receivable and investment securities, which were partially offset by a decrease in cash and cash equivalents and mortgage-backed securities.

Cash, federal funds sold and interest-earning deposits decreased \$2.8 million, or 30.1%, to \$6.6 million at June 30, 2008, from \$9.5 million at December 31, 2007. The decrease in cash and cash equivalents at June 30, 2008, was due to a \$2.8 million decrease in federal funds sold and a \$1.7 million decrease in cash and due from banks, which was partially offset by a \$1.6 million increase in interest-earning deposits. Investment securities increased \$653,000 to \$35.8 million at June 30, 2008. At June 30, 2008, \$7.0 million of investment securities were classified as held to maturity, while \$28.8 million were classified as available for sale. As of June 30, 2008, none of the investment securities are considered impaired.

Discussion of Financial Condition Changes at December 31, 2007
and at June 30, 2008 (continued)

Mortgage-backed securities decreased \$1.9 million, or 18.4%, to \$8.4 million at June 30, 2008, from \$10.3 million at December 31, 2007. The decrease in mortgage-backed securities was due primarily to principal prepayments and repayments totaling \$1.9 million. At June 30, 2008, \$7.7 million of mortgage-backed securities were classified as held to maturity, while \$693,000 were classified as available for sale. As of June 30, 2008, none of the mortgage-backed securities are considered impaired.

Loans receivable, including loans held for sale, increased \$11.4 million, or 4.6%, to \$261.2 million at June 30, 2008, from \$249.8 million at December 31, 2007. The increase reflects loan originations totaling \$41.5 million, partially offset by loan principal repayments of \$27.7 million and sales of \$1.7 million. The change in the composition of the Corporation's assets reflects management's decision to take advantage of opportunities to obtain a higher rate of return from the origination of loans.

The allowance for loan losses totaled \$502,000 and \$596,000 at June 30, 2008 and December 31, 2007, respectively. In determining the adequacy of the allowance for loan losses at any point in time, management and the board of directors apply a systematic process focusing on the risk of loss in the portfolio. First, the loan portfolio is segregated by loan types to be evaluated collectively and loan types to be evaluated individually. Delinquent multi-family and commercial loans are evaluated individually for potential impairments in their carrying value. Second, the allowance for loan losses entails utilizing our five year historic loss experience by applying such loss percentage to the loan types to be collectively evaluated in the portfolio. The \$288,000 increase in the provision for losses on loans during the six months ended June 30, 2008 is a reflection of these factors, weaker economic conditions in the greater Cincinnati area, and the need to allocate approximately \$285,000 in specific reserves for seven residential properties totaling \$443,000 which were acquired through foreclosure during the six months ended June 30, 2008. The five year historic loss experience has improved from prior year, which has caused the allowance for loan loss as a percentage of loans to decrease. The analysis of the allowance for loan losses requires an element of judgment and is subject to the possibility that the allowance may need to be increased, with a corresponding reduction in earnings. To the best of management's knowledge, all known and inherent losses that are probable and that can be reasonably estimated have been recorded at June 30, 2008.

Non-performing and impaired loans totaled \$1.8 million and \$660,000 at June 30, 2008 and December 31, 2007, respectively. At June 30, 2008, non-performing and impaired loans were comprised solely of 4 loans secured by one- to four-family residential real estate and 2 loans secured by multi-family residential real estate. The allowance for loan losses represented 28.3% and 90.3% of non-performing and impaired loans at June 30, 2008 and December 31, 2007, respectively. Although management believes that the Corporation's allowance for loan losses conforms with generally accepted accounting principles based upon the available facts and circumstances, there can be no assurance that additions to the allowance will not be necessary in future periods, which would adversely affect our results of operations.

Deposits decreased \$4.8 million, or 2.2%, to \$214.7 million at June 30, 2008, from \$219.5 million at December 31, 2007. Advances from the Federal Home Loan

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

Bank of Cincinnati increased by \$13.5 million, or 47.1%, to \$42.2 million at June 30, 2008, from \$28.7 million at December 31, 2007.

Shareholders' equity decreased \$351,000, or 0.5%, to \$67.6 million at June 30, 2008, from \$67.9 million at December 31, 2007. The decrease primarily resulted from the repurchase of our common stock totaling \$571,000 and dividends paid of \$618,000, which were partially offset by net earnings of \$543,000. At June 30, 2008, Cheviot Financial had the ability to purchase an additional 388,009 shares under its announced stock repurchase plan.

Liquidity and Capital Resources

We monitor our liquidity position on a daily basis using reports that recap all deposit activity and loan commitments. A significant portion of our deposit base is made up of time deposits. At June 30, 2008, \$114.6 million of time deposits are due to mature within twelve months. The daily deposit activity report allows us to price our time deposits competitively. Because of this and our deposit retention experience, we anticipate that a significant portion of maturing time deposits will be retained.

Borrowings from the Federal Home Loan Bank of Cincinnati increased \$13.5 million during the six months ended June 30, 2008. This increase was used primarily to fund our primary investing activity which is the origination of one- to four-family real estate loans, commercial real estate, construction and consumer loans. We have the ability to increase such borrowings by approximately \$99.4 million. The additional borrowings can be used to offset any decrease in customer deposits or to fund loan commitments.

Comparison of Operating Results for the Six-Month Periods Ended June 30, 2008
and 2007

General

Net earnings for the six months ended June 30, 2008 totaled \$543,000, a \$65,000 increase from the \$478,000 net earnings reported for the same period in 2007. The increase in net earnings reflects an increase in net interest income of \$286,000, a decrease of \$90,000 in general, administrative and other expenses and a decrease of \$20,000 in federal income taxes, which were partially offset by an increase of \$288,000 in the provision for losses on loans and a decrease in other income of \$43,000 for the 2008 period.

Net Interest Income

Total interest income increased \$196,000, or 2.2%, to \$9.0 million for the six-months ended June 30, 2008, from the comparable period in 2007. Interest income on loans increased \$191,000, or 2.6%, to \$7.6 million during the 2008 period from \$7.4 million for the 2007 period. This increase was due primarily to a \$10.4 million, or 4.3%, increase in the average balance of loans outstanding,

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

which was partially offset by a 10 basis point decrease in the average yield on loans to 5.96% for the 2008 period from 6.06% for the six months ended June 30, 2007.

Interest income on mortgage-backed securities decreased \$103,000, or 28.2%, to \$262,000 for the six months ended June 30, 2008, from \$365,000 for the same period in 2007, due primarily to a \$4.5 million decrease in the average balance of securities outstanding (resulting primarily from investment security calls), which was partially offset by a 40 basis point increase in the average yield period to period. Interest income on investment securities increased \$165,000, or 18.6%, to \$1.1 million for the six months ended June 30, 2008, compared to \$887,000 for the same period in 2007, due primarily to an 11 basis point increase in the average yield to 5.58% in the 2008 period, and an increase of \$5.2 million, or 16.1% in the average balance of investment securities outstanding. Interest income on other interest-earning deposits decreased \$57,000, or 44.9% to \$70,000 for the six months ended June 30, 2008, as compared to the same period in 2007.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Comparison of Operating Results for the Six-Month Periods Ended June 30, 2008
and 2007(continued)

Interest expense decreased \$90,000, or 2.0% to \$4.5 million for the six months ended June 30, 2008, from \$4.6 million for the same period in 2007. Interest expense on deposits decreased by \$155,000, or 4.0%, to \$3.7 million for the six months ended June 30, 2008, from \$3.9 million for the same period in 2007 due primarily to a 28 basis point decrease in the average costs of deposits to 3.48% during the 2008 period, which was partially offset by a \$7.6 million, or 3.6%, increase in the average balances outstanding. Interest expense on borrowings increased by \$65,000, or 9.5%, due primarily to a \$4.7 million, or 16.4%, increase in the average balance outstanding, which was partially offset by a 27 basis point decrease in the average cost of borrowings. The decrease in the average cost of deposits and borrowings reflects lower shorter term interest rates in 2008 as compared to 2007, as actions by the Federal Reserve to reduce shorter term interest rates resulted in a steepening of the yield curve and a reduction of short term and medium term interest rates.

As a result of the foregoing changes in interest income and interest expense, net interest income increased by \$286,000, or 6.9%, to \$4.5 million for the six months ended June 30, 2008. The average interest rate spread increased to 2.23% for the six months ended June 30, 2008 from 2.06% for the six months ended June 30, 2007. The net interest margin increased to 2.91% for the six months ended June 30, 2008 from 2.83% for the six months ended June 30, 2007.

Provision for Losses on Loans

Management recorded a \$288,000 provision for losses on loans for the six months ended June 30, 2008. There was no provision for the losses on loans for the six months ended June 30, 2007. The decision to make a provision for loan losses during the six months ended June 30, 2008 reflects the amount necessary to maintain an adequate allowance based on the five year historical loss experience and other external factors. There can be no assurance that the loan loss allowance will be sufficient to cover losses on non-performing loans in the future, however management believes they have identified all known and inherent

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-Q

losses that are probable and that can be reasonably estimated within the loan portfolio, and that the allowance is adequate to absorb such losses.

Other Income

Other income decreased \$43,000, or 16.7%, to \$215,000 for the six months ended June 30, 2008, compared to the same period in 2007, due primarily to an increase in the loss on the sale of real estate acquired through foreclosure of \$43,000 and a decrease of \$14,000 in the gain on sale of loans, which were partially offset by an increase of \$12,000 in other operating income.

General, Administrative and Other Expense

General, administrative and other expense decreased \$90,000, or 2.4%, to \$3.6 million for the six months ended June 30, 2008, from \$3.7 million for the comparable period in 2007. This decrease is a result of a decrease of \$104,000 in employee compensation and benefits, a decrease of \$33,000 in legal and professional expense and a decrease of \$17,000 in other operating expense, which was partially offset by an increase of \$42,000 in property, payroll and other taxes. The decrease in employee compensation and benefits is a result of the decrease in compensation expense recorded for the fair value of ESOP shares allocated as a result of the decrease in the average stock price and a decrease in the expense related to health insurance costs. The decrease in legal and professional services was due primarily to expenses incurred that related to litigation costs as the Corporation was defending its interest in collateral during the six months ended June 30, 2007. The Corporation reached a settlement regarding this litigation for \$50,000 during the prior period, accounting for the majority of the decrease in other operating expense. The increase in property, payroll and other taxes was due primarily to an increase in the Ohio franchise tax.

Federal Income Taxes

The provision for federal income taxes decreased \$20,000, or 9.0%, to \$201,000 for the six months ended June 30, 2008, from \$221,000 for the same period in 2007. The effective tax rate was 27.0% and 31.6% for the six month periods ended June 30, 2008 and 2007. The difference between the Corporation's effective tax rate in the 2008 and 2007 periods and the 34% statutory corporate rate is due primarily to the tax-exempt earnings on bank-owned life insurance, tax exempt interest on municipal obligations and tax benefits for the contribution to the Cheviot Savings Bank Foundation.

Comparison of Operating Results for the Three-Month Periods Ended June 30, 2008 and 2007

General

Net earnings for the three months ended June 30, 2008 totaled \$446,000, a \$174,000 increase from the \$272,000 earnings reported in the June 2007 period. The increase in net earnings reflects an increase in net interest income of \$229,000 and an increase in other income of \$24,000, which were partially offset by an increase of \$25,000 in the provision for losses on loans, an increase in general, administrative and other expenses of \$29,000 and an increase of \$25,000 in federal income taxes for the 2008 quarter.

Net Interest Income

Total interest income increased \$2,000, or 0.1%, to \$4.4 million for the three-months ended June 30, 2008, from the comparable quarter in 2007. Interest income on loans increased \$69,000, or 1.9%, to \$3.8 million during the 2008 quarter from \$3.7 million for the 2007 quarter. This increase was due primarily to a \$12.7 million, or 5.2%, increase in the average balance of loans outstanding, which was partially offset by a 19 basis point decrease in the average yield on loans to 5.85% for the 2008 quarter from 6.04% for the three months ended June 30, 2007.

Interest income on mortgage-backed securities decreased \$55,000, or 30.9%, to \$123,000 for the three months ended June 30, 2008, from \$178,000 for the comparable 2007 quarter, due primarily to a \$4.3 million decrease in the average balance of securities outstanding, which was partially offset by a 20 basis point increase in the average yield period to period. Interest income on investment securities increased \$8,000, or 1.6%, to \$498,000 for the three months ended June 30, 2008, compared to \$490,000 for the same quarter in 2007, due primarily to a 6 basis point increase in the average yield to 5.78% in the 2008 quarter, and an increase of \$212,000, or 0.6% in the average balance of investment securities outstanding. Interest income on other interest-earning deposits decreased \$20,000, or 34.5% to \$38,000 for the three months ended June 30, 2008.

Interest expense decreased \$227,000, or 9.7% to \$2.1 million for the three months ended June 30, 2008, from \$2.3 million for the same quarter in 2007. Interest expense on deposits decreased by \$260,000, or 13.0%, to \$1.7 million from \$2.0 million due primarily to a 58 basis point decrease in the average costs of deposits to 3.25% during the 2008 quarter due to the lower rate repricings of certificates of deposit, as deposit rates were lower in 2008 as compared to 2007. This was partially offset by a \$5.2 million, or 2.5%, increase in the average balance outstanding. Interest expense on borrowings increased by \$33,000, or 9.8%, due primarily to a \$5.5 million, or 18.9%, increase in the average balance outstanding, which was partially offset by a 36 basis point decrease in the average cost of borrowings.

As a result of the foregoing changes in interest income and interest expense, net interest income increased by \$229,000, or 11.0%, to \$2.3 million for the

three months ended June 30, 2008, as compared to the same quarter in 2007. The average interest rate spread increased to 2.38% for the three months ended June 30, 2008 from 2.05% for the three months ended June 30, 2007. The net interest margin increased to 3.02% for the three months ended June 30, 2008 from 2.81% for the three months ended June 30, 2007.

Provision for Losses on Loans

Management recorded a \$25,000 provision for losses on loans for the three months ended June 30, 2008. There was no provision for the losses on loans for the three months ended June 30, 2007. General, Administrative and Other Expense

General, administrative and other expense increased \$29,000, or 1.6%, and was \$1.8 million for each of the three months ended June 30, 2008 and 2007. This increase is a result of an increase of \$19,000 in property, payroll and other taxes and an increase of \$42,000 in other operating expense, which was partially offset by a decrease of \$39,000 in legal and professional expense. The increase in property, payroll and other taxes is due primarily to an increase in the Ohio franchise tax. The increase in other operating expense is due primarily to an increase in the overall operations of the Bank and an increase in the cost of maintaining properties acquired through foreclosure.  3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures or caused such disclosure controls to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
