### Unaudited pro forma condensed consolidated financial information

On 19 April 2011, RBS Holdings N.V. announced its intention to transfer a substantial part of the business activities of the Royal Bank of Scotland N.V. ('RBS N.V.') to The Royal Bank of Scotland plc ('RBS plc'), ('the Proposed Transfers'). The Proposed Transfers collectively constitute a probable material disposition of the business activities of RBS N.V. Historical financial information on a pro forma basis is provided to give the investors a better understanding of what the results of operations and the financial position of RBS N.V. might have looked like had the transfers to RBS plc already occurred in respect of the unaudited condensed consolidated financial information for the half year ended 30 June 2011 contained within the Interim Results of RBS Holdings N.V. as published on 31 August 2011. The Proposed Transfers are expected to be implemented on a phased basis over a period ending 31 December 2013.

### Basis of preparation

The unaudited pro forma condensed consolidated financial information comprises the unaudited pro forma condensed consolidated balance sheet as at 30 June 2011 and the unaudited pro forma condensed consolidated income statements for the half year ended 30 June 2011 and the year ended 31 December 2010 (together the 'pro forma financial information'). The financial information has been extracted from the unaudited financial information for the half year ended 30 June 2011 prepared in accordance with International Accounting Standard 34 contained within the Interim Results of RBS Holdings N.V. as published on 31 August 2011. As at the date of this announcement, management of RBS Holdings N.V. is not aware of any matters that could materially impact the results and financial position as presented in the pro forma financial information. The pro forma financial information has been prepared on the following basis:

- The pro forma financial information has been prepared on the basis of management's best estimate of the relevant third party assets and liabilities of RBS N.V. that will be transferred to RBS plc.
- In the preparation of the pro forma financial information, the same recognition and measurement principles were applied as in the preparation of the audited financial information for the full year ended 31 December 2010 in accordance with International Financial Reporting Standards ('IFRS') as issued by the IASB and adopted by the European Union.
- The pro forma condensed consolidated balance sheet of RBS Holdings N.V. as at 30 June 2011 is presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 30 June 2011.
- The pro forma condensed consolidated income statements of RBS Holdings N.V. for the half year ended 30 June 2011 and the year ended 31 December 2010 respectively are presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 1 January 2010.
- Assets and liabilities to be transferred are presented based on their carrying values determined under IFRS. The allocation of equity was assessed on a global basis to reflect the expected level of capital support required by the transferring and retained businesses.
- Pre-existing intra-group funding within RBS Holdings N.V. was treated as settled upon transfer with new funding allocated as needed to reflect the financing needs of the transferring and retained businesses. Certain modifications were applied where, in the opinion of management, material profit and loss items could be allocated more reliably on an individual basis.
- There are no material non-recurring charges or credits (and related tax effects) expected to result directly from the Proposed Transfers, other than the recycling of equity reserves arising from the transaction which are excluded.
- The Proposed Transfers are subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures,

any of which may significantly change the pro forma information from that presented.
