CVRD to sell mining rights in Peru

Rio de Janeiro, May 22, 2006 Companhia Vale do Rio Doce (CVRD) informs that Cordillera de las Minas S. A (CDLM), a 50/50 joint venture with Antofagasta plc., has decided to sell its mining rights on copper exploration projects in southeastern Peru.

Although CDLM discovered two attractive projects, Cotabambas and Antilla, neither of these projects is considered to be large enough to satisfy CVRD and Antofagasta size criteria for project development.

In line with its global expansion strategy, CVRD also develops mineral exploration efforts in northern Peru, through its subsidiary Compania Minera Miski Mayo S. A., headquartered in Lima. Simultaneously, it is performing studies to develop the Bayóvar phosphates deposit in the department of Piura, Peru.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
