AMETEK, Inc.
Notes to Consolidated Financial Statements
March 31, 2010
(Unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements are unaudited. AMETEK, Inc. (the Company) believes that all adjustments (which primarily consist of normal recurring accruals) necessary for a fair presentation of the consolidated financial position of the Company at March 31, 2010, the consolidated results of its operations and its cash flows for the three months ended March 31, 2010 and 2009 have been included. Quarterly results of operations are not necessarily indicative of results for the full year. The accompanying financial statements should be read in conjunction with the financial statements and related notes presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 as filed with the Securities and Exchange Commission (SEC).

2. Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, *Fair value Measurements and Disclosures* (ASU 2010-06). ASU 2010-06 provides amendments that clarify existing disclosures and require new disclosures related to fair value measurements providing greater disaggregated information on each class of assets and liabilities and more robust disclosures on transfers between levels 1 and 2 and activity in level 3 fair value measurements. The Company adopted the applicable provisions within ASU 2010-06 effective January 1, 2010. See Note 3. The Company is currently evaluating the impact of adopting the level 3 disclosures of ASU 2010-06 that are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years.

In February 2010, the FASB issued ASU No. 2010-09, *Subsequent Events* (ASU 2010-09). ASU 2010-09 removes the requirement for an SEC filer to disclose a date in both the issued and revised financial statements for which the Company evaluated events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASU 2010-09 is effective as of February 2010.

3. Fair Value Measurement

The Company utilizes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At March 31, 2010, \$14.1 million of the Company's cash and cash equivalents and marketable securities are valued as level 1 investments. In addition, the Company held \$4.4 million of marketable securities in an institutional diversified equity securities mutual fund, which are valued as level 2 investments. The Company also held \$9.1 million of investments in fixed-income securities valued as level 2 investments. The marketable securities are shown as a separate line on the consolidated balance sheet. The fixed-income securities are included in the investments and other assets line of the consolidated balance sheet. For the three months ended March 31, 2010, gains and losses on the investments noted above were not significant. No transfers between level 1 and level 2 investments occurred in the three months ended March 31, 2010.

Table of Contents

AMETEK, Inc.
Notes to Consolidated Financial Statements
March 31, 2010
(Unaudited)

Fair value of the institutional equity securities mutual fund was estimated using the net asset value of the Company's ownership interests in the fund's capital. The mutual fund seeks to provide long-term growth of capital by investing primarily in equity securities traded on U.S. exchanges and issued by large, established companies across many business sectors. Fair value of the fixed-income securities was estimated using observable market inputs and the securities are primarily corporate debt instruments and U.S. Government securities. There are no restrictions on the Company's ability to redeem these equity and fixed-income securities investments.

4. Hedging Activities

The Company has designated certain foreign-currency-denominated long-term debt as hedges of the net investment in certain foreign operations. These net investment hedges are the Company's British-pound-denominated long-term debt and Euro-denominated long-term debt, pertaining to certain European acquisitions whose functional currencies are either the British pound or the Euro. These acquisitions were financed by foreign-currency-denominated borrowings under the Company's revolving credit facility and subsequently refinanced with long-term private placement debt. These borrowings were designed to create net investment hedges in each of the foreign subsidiaries on their respective dates of acquisition. On the respective dates of acquisition, the Company designated the British pound- and Euro-denominated loans referred to above as hedging instruments to offset foreign exchange gains or losses on the net investment in the acquired business due to changes in the British pound and Euro exchange rates. These net investment hedges were evidenced by management's documentation supporting the contemporaneous hedge designation on the acquisition dates. Any gain or loss on the hedging instrument following hedge designation (the debt), is reported in accumulated other comprehensive income in the same manner as the translation adjustment on the investment based on changes in the spot rate, which is used to measure hedge effectiveness.

At March 31, 2010, the Company had \$136.6 million of British pound-denominated loans, which are designated as a hedge against the net investment in foreign subsidiaries acquired in 2004 and 2003. At March 31, 2010, the Company had \$67.5 million of Euro-denominated loans, which were designated as a hedge against the net investment in a foreign subsidiary acquired in 2005. As a result of these British pound- and Euro-denominated loans being designated and effective as net investment hedges, \$12.9 million of currency remeasurement gains have been included in the foreign currency translation component of other comprehensive income at March 31, 2010.

5. Earnings Per Share

The calculation of basic earnings per share is based on the weighted average number of common shares considered outstanding during the periods. The calculation of diluted earnings per share reflects the effect of all potentially dilutive securities (principally outstanding common stock options and restricted stock grants). The number of weighted average shares used in the calculation of basic earnings per share and diluted earnings per share were as follows:

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Weighted average shares:

6. Fourth Quarter of 2008 Restructuring Charges and Asset Write-Downs

During the fourth quarter of 2008, the Company recorded pre-tax charges totaling \$40.0 million, which had the effect of reducing net income by \$27.3 million (\$0.25 per diluted share). These charges include restructuring costs for employee reductions and facility closures (\$32.6 million), as well as asset write-downs (\$7.4 million). The charges included \$30.1 million for severance costs for more than 10% of the Company's workforce and \$1.5 million for lease termination costs associated with the closure of certain facilities. Of the \$40.0 million in charges, \$32.9 million of the restructuring charges and asset write-downs were recorded in cost of sales and \$7.1 million of the restructuring charges and asset write-downs were recorded in Selling, general and administrative expenses. The restructuring charges and asset write-downs were reported in 2008 segment operating income as follows: \$20.4 million in Electronic Instruments Group (EIG), \$19.4 million in Electromechanical Group (EMG) and \$0.2 million in Corporate administrative and other expenses. The restructuring costs for employee reductions and facility closures relate to plans established by the Company in 2008 as part of cost reduction initiatives that were broadly implemented across the Company's various businesses during fiscal 2009. The restructuring costs resulted from the consolidation of manufacturing facilities, the migration of production to low cost locales and a general reduction in workforce in response to lower levels of expected sales volumes in certain of the Company's businesses.

The following table provides a rollforward of the remaining accruals established in the fourth quarter of 2008 for restructuring charges and asset write-downs:

	Severance	Restructuring Facility Closures (In millions)	Total
Restructuring accruals at December 31, 2009	\$ 12.2	\$ 1.0	\$ 13.2

Total inventories	\$ 305,960	\$ 311,542

9. Comprehensive Income

Comprehensive income includes all changes in stockholders' equity during a period except those resulting from investments by and distributions to stockholders. The components of comprehensive income were as follows:

	Three Months Ended March 31, 2010	2009
	(In thousands)	
Net income	\$ 57,945	\$ 59,055
Foreign currency translation adjustment	(29,107)	(17,095)

Other	233	(90)
Total comprehensive income	\$ 24,678	\$ 40,156

* Represents the net gains and losses on the Company's investment in certain foreign operations in excess of the net gains and losses from the non-derivative foreign-currency-denominated long-term debt. These debt instruments were designated as hedging instruments to offset foreign exchange gains or losses on the net investment in certain foreign operations.

10. Share-Based Compensation

Total share-based compensation expense was as follows:

Three Months Ended

	March 31,	
	2010	2009
	(In thousands)	
Stock option expense	\$ 1,638	\$ 1,286

11. Income Taxes

At March 31, 2010, the Company had gross unrecognized tax benefits of \$29.0 million, of which \$26.1 million, if recognized, would impact the effective tax rate.

The following is a reconciliation of the liability for uncertain tax positions (in millions):

Balance at December 31, 2009	\$ 26.5
Additions for tax positions	3.1
Reductions for tax positions	(0.6)
Balance at March 31, 2010	\$ 29.0

The Company recognizes interest and penalties accrued related to uncertain tax positions in income tax expense. The amounts recognized in income tax expense for interest and penalties during the three months ended March 31, 2010 and 2009 were not significant.

12. Retirement and Pension Plans

The components of net periodic pension benefit expense were as follows:

	Three Months Ended March 31, 2010 2009 (In thousands)	
Defined benefit plans:		
Service cost	\$ 1,186	\$ 1,144
Interest cost	6,897	6,861
Expected return on plan assets	(10,219)	(8,673)
Amortization of net actuarial loss and other	1,993	3,308
Pension (income) expense	(143)	2,640
Other plans:		
Defined contribution plans	3,056	3,529
Foreign plans and other	1,057	1,005
Total other plans	4,113	4,534
Total net pension expense	\$ 3,970	\$ 7,174

For the three months ended March 31, 2010 and 2009, contributions to our defined benefit pension plans were not significant.

13. Financial Instruments

The estimated fair values of the Company's financial instruments are compared below to the recorded amounts at March 31, 2010 and December 31, 2009. Cash, cash equivalents and marketable securities are recorded at fair value at March 31, 2010 and December 31, 2009 in the accompanying consolidated balance sheet.

	Asset (Liability)			
	March 31, 2010		December 31, 2009	
	Recorded Amount	Fair Value	Recorded Amount	Fair Value
	(In thousands)			
Fixed-income investments	\$ 9,103	\$ 9,103	\$ 8,883	\$ 8,883
Short-term borrowings	(3,425)	(3,425)	(4,076)	(4,076)
Long-term debt (including current portion)	(1,023,244)	(1,068,405)	(1,037,605)	(1,084,877)

The fair value of fixed-income investments is based on quoted market prices. The fair value of short-term borrowings approximates the carrying value. The Company's long-term debt is all privately-held with no public market for this debt, therefore, the fair value of long-term debt was computed based on comparable current market data for similar debt instruments.

14. Product Warranties

The Company provides limited warranties in connection with the sale of its products. The warranty periods for products sold vary widely among the Company's operations, but for the most part do not exceed one year. The Company calculates its warranty expense provision based on past warranty experience and adjustments are made periodically to reflect actual warranty expenses.

Changes in accrued product warranty obligation were as follows:

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Balance at the beginning of the period	\$ 16,035	\$ 16,068
Accruals for warranties issued during the period	2,723	2,017
Settlements made during the period	(2,732)	(2,028)
Warranty accruals related to new businesses and other	(350)	(313)
Balance at the end of the period	\$ 15,676	\$ 15,744

Certain settlements of warranties made during the period were for specific nonrecurring warranty obligations. Product warranty obligations are reported as current liabilities in the consolidated balance sheet.

15. Reportable Segments

The Company has two reportable segments, the Electronic Instruments Group and the Electromechanical Group. The Company manages, evaluates and aggregates its operating segments for segment reporting purposes primarily on the basis of product type, production processes, distribution methods and management organizations.

At March 31, 2010, there were no significant changes in identifiable assets of reportable segments from the amounts disclosed at December 31, 2009, nor were there any significant changes in the basis of segmentation or in the measurement of segment operating results. Operating information relating to the Company's reportable segments for the three months ended March 31, 2010 and 2009 can be found in the table within Part I, Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations of this Report.

Results of operations for the first quarter of 2010 compared with the first quarter of 2009

For the first quarter of 2010, the Company posted solid sales, operating income, net income, diluted earnings per share and cash flow, which includes the contributions from the acquisition of Ameron Global in December 2009 as well as the small acquisition of Sterling Ultra Precision in January 2010. The Company began to experience increased order rates in the fourth quarter of 2009 with further improvement in 2010. As a result, the Company experienced higher orders, sales and profitability in the first quarter of 2010 when compared with the fourth quarter of 2009 and expects operating results throughout the remainder of 2010 to show further strength compared to 2009.

Net sales for the first quarter of 2010 were \$556.7 million, an increase of \$3.8 million or 0.7% when compared with net sales of \$552.9 million for the first quarter of 2009. The increase in net sales was primarily attributable to higher order rates. The Company's internal sales declined approximately 2% for the first quarter of 2010. Foreign currency translation and the Ameron Global acquisition more than offset the internal sales decline in the first quarter of 2010.

Total international sales for the first quarter of 2010 were \$285.9 million or 51.4% of consolidated net sales, an increase of \$21.0 million or 7.9% when compared with international sales of \$264.9 million or 47.9% of consolidated net sales for the first quarter of 2009. The increase in international sales resulted from increased international order rates driven by the Company's expansion into Asia and includes the effect of foreign currency translation. The Company maintains a strong international sales presence in Europe and Asia by both reportable segments.

New orders for the first quarter of 2010 were \$582.3 million, an increase of \$94.9 million or 19.5% when compared with \$487.4 million for the first quarter of 2009. The increase in orders was driven by the Company's short-cycle businesses. Throughout most of 2009, the Company experienced lower order rates primarily as a result of the global economic recession, which began in late 2008 and continued through most of 2009. However, order rates stabilized in the third quarter of 2009 and began to increase in the fourth quarter of 2009. As a result, the Company's backlog of unfilled orders at March 31, 2010 was \$674.0 million, an increase of \$25.6 million or 3.9% when compared with \$648.4 million at December 31, 2009.

Segment operating income for the first quarter of 2010 was \$112.4 million, a decrease of \$2.9 million or 2.5% when compared with segment operating income of \$115.3 million for the first quarter of 2009. Segment operating income, as a percentage of sales, decreased to 20.2% for the first quarter of 2010 from 20.9% for the first quarter of 2009. The decrease in segment operating income and segment operating margins resulted primarily from strength in the Company's short-cycle businesses, which historically have lower operating margins than the Company's long-cycle businesses.

Selling, general and administrative (SG&A) expenses for the first quarter of 2010 were \$67.5 million, an increase of \$3.0 million or 4.7% when compared with \$64.5 million for the first quarter of 2009. As a percentage of sales, SG&A expenses were 12.1% for the first quarter of 2010, compared with 11.7% for the first quarter of 2009. The increase in SG&A expenses was primarily the result of a higher level of sales activities and compensation related expenses, partially offset by the Company's Operational Excellence initiatives. Selling expenses, as a percentage of sales, increased to 10.4% for the first quarter of 2010, compared with 10.0% for the first quarter of 2009.

Corporate administrative expenses for the first quarter of 2010 were \$9.9 million, an increase of \$0.9 million or 10.0% when compared with \$9.0 million for the first quarter of 2009. As a percentage of sales, corporate administrative expenses were 1.8% for the first quarter of 2010, compared with 1.6% for the first quarter of 2009. The increase in corporate administrative expenses was primarily driven by higher compensation related expenses, as well as other costs necessary to grow the business.

Consolidated operating income was \$102.4 million or 18.4% of sales for the first quarter of 2010, a decrease of \$3.8 million or 3.6% when compared with \$106.2 million or 19.2% of sales for the first quarter of 2009.

Interest expense was \$16.8 million for the first quarter of 2010, a decrease of \$0.8 million or 4.5% when compared with \$17.6 million for the first quarter of 2009. The decrease was primarily due to the impact of the repayment of 40 million British-pound-denominated debt under the revolver in the second quarter of 2009.

The effective tax rate for the first quarter of 2010 was 32.0% compared with 33.4% for the first quarter of 2009. The lower effective tax rate for the first quarter of 2010 primarily reflects the benefits obtained from international and state income tax planning initiatives.

Net income for the first quarter of 2010 was \$57.9 million, a decrease of \$1.2 million or 2.0% when compared with \$59.1 million for the first quarter of 2009. Diluted earnings per share for the first quarter of 2010 was \$0.54, a decrease of \$0.01 or 1.8% when compared with \$0.55 per diluted share for the first quarter of 2009.

Segment Results

Electronic Instruments (EIG) sales totaled \$298.7 million for the first quarter of 2010, a decrease of \$3.8 million or 1.3% when compared with \$302.5 million for the first quarter of 2009. The sales decrease was due to an internal sales decline of approximately 3%, excluding a favorable 2% effect of foreign currency translation, driven primarily by EIG's aerospace aftermarket and process businesses.

EIG's operating income was \$69.1 million for both the first quarter of 2010 and 2009. EIG's operating margins were 23.1% of sales for the first quarter of 2010 compared with 22.8% of sales for the first quarter of 2009. The increase in operating margins was driven by operational excellence initiatives throughout the Group.

Electromechanical (EMG) sales totaled \$258.0 million for the first quarter of 2010, an increase of \$7.6 million or 3.0% from \$250.4 million for the first quarter of 2009. The sales increase was due to a favorable 2% effect of foreign currency translation, partially offset by an internal sales decline of approximately 1%. The acquisition of Ameron Global primarily accounted for the remainder of the sales increase.

EMG's operating income was \$43.4 million for the first quarter of 2010, a decrease of \$2.8 million or 6.1% when compared with \$46.2 million for the first quarter of 2009. EMG's operating margins were 16.8% of sales for the first quarter of 2010 compared with 18.4% of sales for the first quarter of 2009. EMG's decrease in operating income and operating margins was driven by a higher mix of sales from EMG's cost driven motors businesses, which have a lower operating margin than the group's differentiated businesses.

Cash provided by operating activities totaled \$91.9 million for the first quarter of 2010, a decrease of \$18.5 million or 16.8% when compared with \$110.4 million for the first quarter of 2009. The decrease in operating cash flow was primarily the result of higher overall operating working capital levels necessary to grow the Company's businesses. Free cash flow (cash flow from operating activities less capital expenditures) was \$86.1 million for the first quarter of 2010, compared to \$104.3 million for the first quarter of 2009. EBITDA (earnings before interest, income taxes, depreciation and amortization) was \$118.5 million for the first quarter of 2010, compared with \$122.5 million for the first quarter of 2009. Free cash flow and EBITDA are presented because the Company is aware that they are measures used by third parties in evaluating the Company.

Cash used for investing activities totaled \$9.0 million for the first quarter of 2010, compared with \$44.3 million for the first quarter of 2009. For the first quarter of 2010, the Company paid \$3.1 million for one small business acquisition, net of cash received, compared with \$40.2 million paid for one business acquisition, net of cash received, for the first quarter of 2009. Additions to property, plant and equipment totaled \$5.8 million for the first quarter of 2010, compared with \$6.1 million for the first quarter of 2009.

Cash used for financing activities totaled \$70.4 million for the first quarter of 2010, compared with \$14.1 million for the first quarter of 2009. The change in financing cash flow was primarily the result of \$67.3 million used for repurchases of 1.8 million shares of the Company's common stock in the first quarter of 2010. No shares were repurchased for the first three months of 2009. On January 28, 2010, the Board of Directors authorized an increase of \$75 million in the authorization for the repurchase of its common stock. This increase was added to the \$68.5 million that remained available at December 31, 2009 from existing authorizations approved in 2008, for a total of \$143.5 million available for repurchases of the Company's common stock. At March 31, 2010, \$76.1 million was available under the current Board authorization for future share repurchases. In April 2010, the Company repurchased an additional 0.2 million shares of its common stock for \$9.2 million. At April 30, 2010, \$66.9 million was available under the current Board authorization for future share repurchases. For the first quarter of 2010, net total borrowings decreased by \$0.8 million, compared with a net total borrowings decrease of \$9.3 million for the first quarter of 2009.

At March 31, 2010, total debt outstanding was \$1,026.7 million, compared with \$1,041.7 million at December 31, 2009, with no significant maturities until 2012. The debt-to-capital ratio was 40.2% at March 31, 2010, compared with 39.9% at December 31, 2009. The net debt-to-capital ratio (total debt less cash and cash equivalents divided by the sum of net debt and stockholders' equity) was 33.6% at March 31, 2010, compared with 33.7% at December 31, 2009. The net debt-to-capital ratio is presented because the Company is aware that this measure is used by third parties in evaluating the Company.

As a result of all of the Company's cash flow activities for the first quarter of 2010, cash and cash equivalents at March 31, 2010 totaled \$255.6 million, compared with \$246.4 million at December 31, 2009. Additionally, the Company is in compliance with all of its debt covenants, which includes its financial covenants, for all of its debt agreements. The Company believes it has sufficient cash-generating capabilities from domestic and unrestricted foreign sources, available credit facilities and access to long-term capital funds to enable it to meet its operating needs and contractual obligations in the foreseeable future.

Item 5. Other Information

The Board of Directors recently undertook a comprehensive review of the Company's By-Laws, which have remained largely unchanged since their adoption in 1997. The Board of Directors decided that it was advisable to amend certain provisions of the By-Laws in response to developments in statutory and case law. On April 29, 2010, the Board of Directors approved certain amendments to the Company's By-Laws effective as of April 29, 2010.

The revised By-Laws amended the provisions relating to stockholder's advance notice regarding business to be brought before an annual meeting and director nominations. The amended By-Laws require stockholders to deliver advance written notice not later than 90 days and not earlier than 120 days prior to the first anniversary of the preceding year's annual meeting of stockholders, subject to certain exceptions, and set forth certain disclosure requirements of stockholder proponents. The amended By-Laws also address procedural modifications for the adjournment of meetings and the fixing of a new record date for adjourned meetings; for the calling of special meetings; for setting record dates for determining stockholders entitled to vote at and notice of meetings; and for amendments to the By-Laws.
