NOTES TO CONDENSED, CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

The Scotts Miracle-Gro Company (Scotts Miracle-Gro) and its subsidiaries (collectively, together with Scotts Miracle-Gro, the Company) are engaged in the manufacturing, marketing and sale of lawn and garden care products. The Company's primary customers include home centers, mass merchandisers, warehouse clubs, large hardware chains, independent hardware stores, nurseries, garden centers, food and drug stores, commercial nurseries and greenhouses and specialty crop growers. The Company's products are sold primarily in North America and the European Union. The Company also operates the Scotts LawnService® business, which provides residential lawn care, lawn aeration, tree and shrub care and limited pest control services in the United States.

After its acquisition in fiscal 2005, the Company operated Smith & Hawken⁽¹⁾, an outdoor living and garden lifestyle category brand. As discussed in NOTE 2. DISCONTINUED OPERATIONS, on July 8, 2009, Scotts Miracle-Gro announced its intention to close the Smith & Hawken business by the end of calendar 2009. During the Company's first quarter of fiscal 2010, all Smith & Hawken stores were closed and substantially all operational activities of Smith & Hawken were discontinued.

Due to the nature of the lawn and garden business, the majority of sales to customers occur in the Company's second and third fiscal quarters. On a combined basis, net sales for the second and third fiscal quarters generally represent 70% to 75% of annual net sales.

ORGANIZATION AND BASIS OF PRESENTATION

The Company's condensed, consolidated financial statements are unaudited; however, in the opinion of management, these financial statements are presented in accordance with accounting principles generally accepted in the United States of America (GAAP). The condensed, consolidated financial statements include the accounts of Scotts Miracle-Gro and its subsidiaries. All intercompany transactions and accounts have been eliminated in consolidation. The Company's consolidation criteria are based on majority ownership (as evidenced by a majority voting interest in the entity) and an objective evaluation and determination of effective management control. Interim results reflect all normal and recurring adjustments and are not necessarily indicative of results for a full year. The interim financial statements and notes are presented as specified by Regulation S-X of the Securities and Exchange Commission, and should be read in conjunction with the consolidated financial statements and accompanying notes in Scotts Miracle-Gro's Annual Report on Form 10-K for the fiscal year ended September 30, 2009.

The Company's Condensed, Consolidated Balance Sheet at September 30, 2009 has been derived from the Company's audited Consolidated Balance Sheet at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Although these estimates are based on management's best knowledge of current events and actions the Company may undertake in the future, actual results ultimately may differ from the estimates.

REVENUE RECOGNITION

Revenue is recognized when title and risk of loss transfer, which generally occurs when products or services are received by the customer. Provisions for estimated returns and allowances are recorded at the time revenue is recognized based on historical rates and are periodically adjusted for known changes in return levels. Shipping and handling costs are included in cost of sales.

Under the terms of the Amended and Restated Exclusive Agency and Marketing Agreement (the Marketing Agreement) between the Company and Monsanto Company (Monsanto), the Company, in its role as exclusive agent, performs certain functions, primarily manufacturing conversion, distribution and logistics, and selling and marketing support on behalf of Monsanto in the conduct of the consumer Roundup⁽²⁾ business. The actual costs incurred by the Company on behalf of the consumer Roundup®

Table of Contents

business are recovered from Monsanto through the terms of the Marketing Agreement. The reimbursement of costs for which the Company is considered the primary obligor is included in net sales.

PROMOTIONAL ALLOWANCES

The Company promotes its branded products through, among other things, cooperative advertising programs with retailers. Retailers may also be offered in-store promotional allowances and rebates based on sales volumes. Certain products are promoted with direct consumer rebate programs and special purchasing incentives. Promotion costs (including allowances and rebates) incurred during the year are expensed to interim periods in relation to revenues and are recorded as a reduction of net sales. Accruals for expected payouts under these programs are included in the Other current liabilities line in the Company's Condensed, Consolidated Balance Sheets.

ADVERTISING

Advertising costs incurred during the year by our Global Consumer segment are expensed to interim periods in relation to revenues. All advertising costs, except for external production costs, are expensed within the fiscal year in which such costs are incurred. External production costs for advertising programs are deferred until the period in which the advertising is first aired.

Scotts LawnService® promotes its service offerings primarily through direct mail campaigns. External costs associated with these campaigns that qualify as direct response advertising costs are deferred and recognized as advertising expense in proportion to revenues over a period not beyond the end of the subsequent calendar year. Costs that do not qualify as direct response advertising costs are expensed within the fiscal year in which such costs are incurred on a monthly basis in proportion to net sales. The costs deferred at April 3, 2010, March 28, 2009 and September 30, 2009 were \$3.4 million, \$8.3 million and \$2.1 million, respectively.

STOCK-BASED COMPENSATION AWARDS

The fair value of awards is expensed ratably over the vesting period, generally three years. The Company uses a binomial model to determine the fair value of its option grants.

GOODWILL AND INDEFINITE-LIVED INTANGIBLE ASSETS

Goodwill and intangible assets determined to have indefinite lives are not subject to amortization. Goodwill and indefinite-lived intangible assets are reviewed for impairment by applying a fair-value based test on an annual basis, as of the first day of the Company's fiscal fourth quarter, or more frequently if circumstances indicate a potential impairment. If it is determined that an impairment has occurred, an impairment loss would be recognized for the amount by which the carrying amount of the asset exceeds its estimated fair value and classified as Impairment, restructuring and other charges in the Consolidated Statements of Operations. No impairment, restructuring or other charges from continuing operations were recorded for the three or six months ended April 3, 2010 or March 28, 2009.

INCOME TAXES

The effective tax rate for continuing operations for the three and six months ended April 3, 2010 was 37.3% and 37.9%, respectively, compared to 35.5% for the three and six months ended March 28, 2009. The increase in the effective tax rate for the three and six months ended April 3, 2010 was partially due to the discrete item related to the Medicare Part D subsidy as discussed in NOTE 10. INCOME TAXES. The effective tax rate used for interim reporting purposes was based on management's best estimate of factors impacting the effective tax rate for the full fiscal year. Factors affecting the estimated effective tax rate include assumptions as to income by jurisdiction (domestic and foreign), the availability and utilization of tax credits and the existence of elements of income and expense that may not be taxable or deductible, as well as other items. The estimated effective tax rate is subject to revision in later interim periods and at fiscal year end as facts and circumstances change during the course of the fiscal year. There can be no assurance that the effective tax rate estimated for interim financial reporting purposes will approximate the effective tax rate determined at fiscal year end.

NET INCOME PER COMMON SHARE

The following table (in millions, except per share data) presents information necessary to calculate basic and diluted net income per common share. Basic net income per common share is computed based on the weighted-average number of common shares outstanding each period. Diluted net income per common share is computed based on the weighted-average number of common shares and dilutive potential common shares (stock options, restricted stock, restricted stock units, performance shares and stock appreciation rights) outstanding each period. Stock options with

exercise prices greater than the average market price of the underlying common shares are excluded from the computation of diluted net income per common share because the effect of their inclusion would be anti-dilutive. The number of stock options excluded was 0.7 million and 2.4 million for the three-month periods, and 0.7 million and 3.0

Table of Contents

million for the six-month periods ended April 3, 2010 and March 28, 2009, respectively.

Diluted net income per common share	\$ 1.76	\$ 1.18	\$ 0.90	\$ 0.31

RECENT ACCOUNTING PRONOUNCEMENTS**Business Combinations**

In December 2007, the Financial Accounting Standards Board (the FASB) issued new accounting guidance on business combinations and noncontrolling interests in consolidated financial statements. The objective is to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. The guidance applies to all transactions or other events in which an entity (the acquirer) obtains control of one or more businesses (the acquiree), including those sometimes referred to as true mergers or mergers of equals and combinations achieved without the transfer of consideration. In April 2009, the FASB issued additional guidance which addresses application issues arising from contingencies in a business combination. The Company adopted the new guidance beginning October 1, 2009. The Company had no acquisition activity for the six months ended April 3, 2010, and the adoption of the new guidance did not impact the Company's financial statements and related disclosures.

Noncontrolling Interests in Consolidated Financial Statements

In December 2007, the FASB issued new accounting and reporting guidance for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The new guidance also changes the way the consolidated financial statements are presented, establishes a single method of accounting for changes in a parent's ownership

interest in a subsidiary that do not result in deconsolidation, requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated and expands disclosures in the consolidated financial statements that clearly identify and distinguish between the parent's ownership interest and the interest of the noncontrolling owners of a subsidiary. The provisions are to be applied prospectively as of the beginning of the fiscal year in which the guidance is adopted, except for the presentation and disclosure requirements, which are to be applied retrospectively for all periods presented. The Company adopted the new guidance beginning October 1, 2009, and the adoption of the new guidance did not impact the Company's financial statements and related disclosures.

Determination of the Useful Life of Intangible Assets

In April 2008, the FASB issued new accounting guidance which amends the list of factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets. The new guidance applies to: (a) intangible assets that are acquired individually or with a group of other assets and (b) intangible assets acquired in both business combinations and asset acquisitions. Entities estimating the useful life of a recognized intangible asset must consider their historical experience in renewing or extending similar arrangements or, in the absence of historical experience, must consider assumptions that market participants would use about renewal or extension. The new guidance requires certain additional disclosures beginning October 1, 2009 and prospective application to useful life estimates for intangible assets acquired after September 30, 2009. The adoption of the new guidance did not have a material effect on the Company's financial statements and related disclosures.

Employers' Disclosures About Postretirement Benefit Plan Assets

In December 2008, the FASB issued new accounting guidance on employers' disclosures about assets of a defined benefit pension or other postretirement plan. It requires employers to disclose information about fair value measurements of plan assets. The objectives

Table of Contents

of the disclosures are to provide an understanding of: (a) how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies; (b) the major categories of plan assets; (c) the inputs and valuation techniques used to measure the fair value of plan assets; (d) the effect of fair value measurements using significant unobservable inputs on changes in plan assets for the period; and (e) significant concentrations of risk within plan assets. The Company will adopt this new guidance at September 30, 2010, the next fair value measurement date of its defined benefit pension and retiree medical plans.

Accounting for Transfers of Financial Assets

In June 2009, the FASB issued new accounting guidance to improve the information provided in financial statements concerning transfers of financial assets, including the effects of transfers on financial position, financial performance and cash flows, and any continuing involvement of the transferor with the transferred financial assets. The provisions are effective for the Company's financial statements for the fiscal year beginning October 1, 2010. The Company is in the process of evaluating the impact that the guidance may have on its financial statements and related disclosures.

Variable Interest Entities

In June 2009, the FASB issued new accounting guidance requiring an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. The new guidance also requires enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise's involvement in a variable interest entity. The provisions are effective for the Company's financial statements for the fiscal year beginning October 1, 2010. The Company is in the process of evaluating the impact that the guidance may have on its financial statements and related disclosures.

NOTE 2. DISCONTINUED OPERATIONS

On July 8, 2009, Scotts Miracle-Gro announced that its wholly-owned subsidiary, Smith & Hawken, Ltd., had adopted a plan to close the Smith & Hawken business. During the Company's first quarter of fiscal 2010, all Smith & Hawken stores were closed and substantially all operational activities of Smith & Hawken were discontinued. As a result, effective in its first quarter of fiscal 2010, the Company classified Smith & Hawken as discontinued operations. Accordingly, the Company has reclassified its results of operations for the three and six months ended March 28, 2009 to reflect Smith & Hawken as discontinued operations separate from the Company's results of continuing operations. In the first six months of fiscal 2010, the Company incurred charges related to the liquidation of the Smith & Hawken business primarily associated with the termination of retail site lease obligations, third-party agency fees and severance and benefit commitments. These charges were partially offset by a gain of approximately \$18 million from the sale of the Smith & Hawken intellectual property on December 30, 2009.

The following table summarizes results of Smith & Hawken classified as discontinued operations in the Company's Condensed, Consolidated Statements of Operations for the three and six months ended April 3, 2010 and March 28, 2009 (in millions).

	THREE MONTHS ENDED		SIX MONTHS ENDED

Assets of discontinued operations	\$ 0.2	\$ 42.8	\$ 16.7
Accounts payable	\$ 3.1	\$ 10.8	\$ 6.2
Other current liabilities	5.2	5.5	13.2
Other liabilities		6.0	2.2
Liabilities of discontinued operations	\$ 8.3	\$ 22.3	\$ 21.6

NOTE 3. PRODUCT REGISTRATION AND RECALL MATTERS

In April 2008, the Company became aware that a former associate apparently deliberately circumvented Company policies and U.S. Environmental Protection Agency (U.S. EPA) regulations under the Federal Insecticide, Fungicide, and Rodenticide Act of 1947, as amended (FIFRA), by failing to obtain valid registrations for products and/or causing invalid product registration forms to be submitted to regulators. Since that time, the Company has been cooperating with both the U.S. EPA and the U.S. Department of Justice (U.S. DOJ) in related civil and criminal investigations into the pesticide product registration issues.

In late April of 2008, in connection with the U.S. EPA 's investigation, the Company conducted a consumer-level recall of certain consumer lawn and garden products and a Scotts LawnService® product. Subsequently, the Company and the U.S. EPA agreed upon a Compliance Review Plan for conducting a comprehensive, independent review of the Company 's product registration records. Pursuant to the Compliance Review Plan, an independent third-party firm, Quality Associates Incorporated (QAI), reviewed substantially all of the Company 's U.S. pesticide product registrations and associated advertisements, some of which were historical in nature and no longer related to sales of the Company 's products. The U.S. EPA investigation and the QAI review process resulted in the temporary suspension of sales and shipments of certain products. In addition, as the QAI review process or the Company 's internal review identified potential FIFRA registration issues (some of which appear unrelated to the actions of the former associate), the Company endeavored to stop selling or distributing the affected products until the issues could be resolved. QAI 's review of the Company 's U.S. pesticide product registrations and associated advertisements is now substantially complete. The results of the QAI review process did not materially affect the Company 's fiscal 2009 or year-to-date fiscal 2010 sales and are not expected to materially affect the Company 's sales during the remainder of fiscal 2010.

In late 2008, Scotts Miracle-Gro and its indirect subsidiary, EG Systems, Inc., doing business as Scotts LawnService®, were named as defendants in a purported class action filed in the U.S. District Court for the Eastern District of Michigan relating to the application of certain pesticide products by Scotts LawnService®. In the suit, Mark Baumkel, on behalf of himself and the purported classes, sought an unspecified amount of damages, plus costs and attorneys fees, for alleged claims involving breach of contract, unjust enrichment, tort, and violation of the State of Michigan 's consumer protection act. On September 28, 2009, the court granted the motion filed by Scotts Miracle-Gro and EG Systems, Inc. and dismissed the suit with prejudice. Since that time, Scotts Miracle-Gro, EG Systems, Inc. and Mr. Baumkel have agreed to a confidential settlement that, among other things, precludes an appeal of the decision. The impact of the confidential settlement did not, and will not, materially affect the Company 's financial condition, results of operations or cash flows.

In fiscal 2008, the Company conducted a voluntary recall of certain of its wild bird food products due to a formulation issue. Certain wild bird food products had been treated with pest control additives to avoid insect infestation, especially at retail stores. While the pest control additives had been labeled for use on certain stored grains that can be processed for human and/or animal consumption, they were not labeled for use on wild bird food products. In October 2008, the U.S. Food & Drug Administration concluded that the recall had been completed and that there had been proper disposition of the recalled products. The results of the wild bird food recall did not materially affect the Company's fiscal 2009 financial condition, results of operations or cash flows.

As a result of these registration and recall matters, the Company has reversed sales associated with estimated returns of affected products, recorded charges for affected inventory and recorded other registration and recall-related costs. The impacts of these adjustments were pre-tax charges of \$1.7 million and \$8.0 million for the three-month periods, and \$4.3 million and \$15.6 million for the six-month periods ended April 3, 2010 and March 28, 2009, respectively. The Company expects to incur \$8.0 to \$12.0 million in fiscal 2010 on recall and registration matters, excluding possible fines, penalties, judgments and/or litigation costs. These fiscal 2010 charges primarily consist of costs associated with the reworking of certain finished goods inventories, the potential disposal of certain products and ongoing third-party professional services related to the U.S. EPA and U.S. DOJ investigations.

Table of Contents

The U.S. EPA and U.S. DOJ investigations continue and may result in future state, federal or private actions including fines and/or penalties with respect to known or potential additional product registration issues. Until the U.S. EPA and U.S. DOJ investigations are complete, the Company cannot reasonably determine the scope or magnitude of possible liabilities that could result from known or potential product registration issues, and no reserves for these potential liabilities have been established as of April 3, 2010. However, it is possible that such liabilities, including fines, penalties, judgments and/or litigation costs could be material and have an adverse effect on the Company's financial condition, results of operations or cash flows.

The following tables summarize the impact of the product registration and recall matters on the Company's results of operations during the three and six months ended April 3, 2010 and March 28, 2009, and on accrued liabilities and inventory reserves as of April 3, 2010 (in millions):

	THREE MONTHS ENDED		SIX MONTHS ENDED

	\$ 589.4	\$ 667.6	\$ 458.9

NOTE 5. MARKETING AGREEMENT

The Company is Monsanto's exclusive agent for the domestic and international marketing and distribution of consumer Roundup® herbicide products. Under the terms of the Marketing Agreement with Monsanto, the Company is entitled to receive an annual commission from Monsanto in consideration for the performance of the Company's duties as agent. The annual gross commission under the Marketing Agreement is calculated as a percentage of the actual earnings before interest and income taxes (EBIT) of the consumer Roundup® business and is based on the achievement of two earnings thresholds, as defined in the Marketing Agreement. The Marketing Agreement also requires the Company to make annual payments to Monsanto as a contribution against the overall expenses of the consumer Roundup® business. The annual contribution payment is defined in the Marketing Agreement as \$20 million.

In consideration for the rights granted to the Company under the Marketing Agreement for North America, the Company was required to pay a marketing fee of \$32 million to Monsanto. The Company has deferred this amount on the basis that the payment will provide a future benefit through commissions that will be earned under the Marketing Agreement. Based on management's current assessment of the likely term of the Marketing Agreement, the useful life over which the marketing fee is being amortized is 20 years.

Table of Contents

Under the terms of the Marketing Agreement, the Company performs certain functions, primarily manufacturing conversion, distribution and logistics, and selling and marketing support, on behalf of Monsanto in the conduct of the consumer Roundup® business. The actual costs incurred for these activities are charged to and reimbursed by Monsanto. The Company records costs incurred under the Marketing Agreement for which the Company is the primary obligor on a gross basis, recognizing such costs in Cost of sales and the reimbursement of these costs in Net sales, with no effect on gross profit or net income. The related net sales and cost of sales were \$18.4 million and \$15.2 million for the three-month periods, and \$35.1 million and \$30.8 million for the six-month periods ended April 3, 2010 and March 28, 2009, respectively.

The elements of the net commission earned under the Marketing Agreement and included in Net sales are as follows:

	THREE MONTHS ENDED		SIX MONTHS ENDED	
	MARCH		MARCH	
	APRIL 3,	28,	APRIL 3,	28,
	2010	2009	2010	2009
	(IN MILLIONS)		(IN MILLIONS)	
Gross commission	\$ 29.9	\$ 18.0	\$ 29.9	\$ 18.0
Contribution expenses	(5.0)	(5.0)	(10.0)	(10.0)
Amortization of marketing fee	(0.2)	(0.2)	(0.4)	(0.4)
Net commission income	24.7	12.8	19.5	7.6
Reimbursements associated with Marketing Agreement	18.4	15.2	35.1	30.8
Total net sales associated with Marketing Agreement	\$ 43.1	\$ 28.0	\$ 54.6	\$ 38.4

The Marketing Agreement has no definite term except as it relates to the European Union countries (the EU term). The EU term extends through September 30, 2011, with up to two additional automatic renewal periods of two years each, subject to non-renewal only upon the occurrence of certain performance defaults. Thereafter, the Marketing Agreement provides that the parties may agree to renew the EU term for an additional three years.

The Marketing Agreement provides Monsanto with the right to terminate the Marketing Agreement upon an event of default (as defined in the Marketing Agreement) by the Company, a change in control of Monsanto or the sale of the consumer Roundup® business. The Marketing Agreement provides the Company with the right to terminate the Marketing Agreement in certain circumstances, including an event of default by Monsanto or the sale of the consumer Roundup® business. Unless Monsanto terminates the Marketing Agreement due to an event of default by the Company, Monsanto is required to pay a termination fee to the Company that varies by program year. The termination fee is calculated as a percentage of the value of the consumer Roundup® business exceeding a certain threshold, but in no event will the termination fee be less than \$16 million. If Monsanto were to terminate the Marketing Agreement due to an event of default by the Company, however, the Company would not be entitled to any termination fee, and the Company would lose all, or a substantial portion, of the significant source of earnings and overhead expense absorption the Marketing Agreement provides. Monsanto may also be able to terminate the Marketing Agreement within a given region, including North America, without paying a termination fee if unit volume sales to consumers in that region decline: (1) over a cumulative three-fiscal-year period; or (2) by more than 5% for each of two consecutive years.

NOTE 6. DEBT

The components of long-term debt are as follows:

	APRIL 3,	MARCH	SEPTEMBER
	28,	28,	30,

	2010	2009	2009
		(IN MILLIONS)	
Credit Facilities:			
Revolving loans	\$ 720.7	\$ 757.9	\$ 330.4
Term loans	386.4	533.4	456.4
Senior Notes 7.25%	200.0		
Master Accounts Receivable Purchase Agreement	72.3	275.0	4.2
Notes due to sellers	11.1	12.1	11.0
Foreign bank borrowings and term loans	2.0	6.6	0.5
Other	7.8	7.2	7.6
	1,400.3	1,592.2	810.1
Less current portions	244.3	396.0	160.4
	\$ 1,156.0	\$ 1,196.2	\$ 649.7

In February 2007, Scotts Miracle-Gro and certain of its subsidiaries entered into the following senior secured credit facilities totaling up to \$2.15 billion in the aggregate: (a) a senior secured five-year term loan in the principal amount of \$560 million and (b) a senior secured five-year revolving loan facility in the aggregate principal amount of up to \$1.59 billion. Under the terms of these credit facilities, the Company may request an additional \$200 million in revolving credit and/or term credit commitments, subject to approval from the lenders. Borrowings may be made in various currencies including U.S. dollars, Euros, British pounds, Australian

Table of Contents

dollars and Canadian dollars. Amortization payments on the term loan portion of the credit facilities began on September 30, 2007 and are due quarterly through 2012. As of April 3, 2010, the cumulative total amortization payments on the term loan were \$173.6 million, reducing the balance of the Company's term loans and effectively reducing the amount outstanding under the credit facilities.

As of April 3, 2010, there was \$837.6 million of availability under the senior secured credit facilities, including letters of credit. Under the revolving loan facility, the Company has the ability to issue letter of credit commitments up to \$65 million. At April 3, 2010, the Company had letters of credit in the aggregate face amount of \$31.7 million outstanding.

On January 14, 2010, Scotts Miracle-Gro issued \$200 million aggregate principal amount of 7.25% Senior Notes due 2018 (the "Senior Notes"). The proceeds of the offering were used to reduce outstanding borrowings under the Company's senior secured revolving credit facility. The Senior Notes represent general unsecured senior obligations of Scotts Miracle-Gro, and were sold to the public at 99.254% of the principal amount thereof, to yield 7.375% to maturity. The Senior Notes have interest payment dates of January 15 and July 15, commencing on July 15, 2010, and may be redeemed prior to maturity at applicable redemption premiums. The Senior Notes contain usual and customary incurrence-based covenants, which include, but are not limited to, restrictions on the incurrence of additional indebtedness, the incurrence of liens and the issuance of certain preferred shares, and the making of certain distributions, investments and other restricted payments, as well as other usual and customary covenants, which include, but are not limited to, restrictions on sale and leaseback transactions, restrictions on purchases for or redemptions of Company stock and prepayments of subordinated debt, limitations on asset sales and restrictions on transactions with affiliates. The Senior Notes mature on January 15, 2018. Certain of Scotts Miracle-Gro's domestic subsidiaries serve as guarantors of the Senior Notes. Refer to NOTE 16. FINANCIAL INFORMATION FOR SUBSIDIARY GUARANTORS AND NON-GUARANTORS for more information regarding the guarantor entities.

At April 3, 2010, the Company had outstanding interest rate swaps with major financial institutions that effectively converted a portion of variable-rate debt denominated in U.S. dollars to a fixed rate. The swap agreements had a total U.S. dollar notional amount of \$450 million at April 3, 2010. Interest payments made between the effective date and expiration date are hedged by the swap agreement, except as noted below. The effective dates, expiration dates and rates of these swap agreements are shown in the table below.

NOTIONAL AMOUNT (IN MILLIONS)	EFFECTIVE DATE (a)	EXPIRATION DATE	FIXED RATE
\$ 200	2/14/2007	2/14/2012	5.20%
50	2/14/2012	2/14/2016	3.78%
150(b)	11/16/2009	5/16/2016	3.26%
50(c)	2/16/2010	5/16/2016	3.05%

(a) The effective date refers to the date on which interest payments are first hedged by the applicable swap contract.

(b) Interest payments made during the six-month period

beginning
November 14 of
each year
between the
effective date
and expiration
date are hedged
by the swap
contract.

- (c) Interest
payments made
during the
three-month
period
beginning
February 14 of
each year
between the
effective date
and expiration
date are hedged
by the swap
contract.

Master Accounts Receivable Purchase Agreement

On April 9, 2008, the Company entered into a Master Accounts Receivable Purchase Agreement (the 2008 MARP Agreement). The 2008 MARP Agreement provided for the discounted sale, on a revolving basis, of accounts receivable generated by specified account debtors, with seasonally adjusted monthly aggregate limits ranging from \$10 million to \$300 million. The 2008 MARP Agreement also provided for specified account debtor sublimit amounts, which provided limits on the amount of receivables owed by individual account debtors that could be sold to the banks. The 2008 MARP Agreement provided an interest rate that approximated the 7-day LIBOR rate plus 85 basis points. The 2008 MARP Agreement expired by its terms on April 8, 2009.

On May 1, 2009, the Company entered into a Master Accounts Receivable Purchase Agreement (the 2009 MARP Agreement), with an initial stated termination date of May 1, 2010, or such later date as may be mutually agreed by the Company and its lender. The 2009 MARP Agreement provided for the discounted sale, on an uncommitted, revolving basis, of accounts receivable generated by a specified account debtor, with aggregate limits not to exceed \$80 million. The 2009 MARP Agreement provided an interest rate that approximated the 7-day LIBOR rate plus 225 basis points.

On May 13, 2010, the Company and its lender entered into a First Amendment to the 2009 MARP Agreement (the First Amendment). The First Amendment, which has an effective date of May 1, 2010, extended the stated termination date of the 2009 MARP Agreement through May 12, 2011, or such later date as may be mutually agreed by the Company and its lender. The 2009 MARP Agreement, as amended by the First Amendment, provides an interest rate that approximates the 7-day LIBOR rate plus 125 basis points. The First Amendment did not otherwise modify any substantive provisions of the 2009 MARP Agreement.

Table of Contents

The Company accounts for the sale of receivables under the 2009 MARP Agreement, as amended, as short-term debt and continues to carry the receivables on its Condensed, Consolidated Balance Sheet, primarily as a result of the Company's right to repurchase receivables sold. The caption "Accounts receivable pledged" on the accompanying Condensed, Consolidated Balance Sheets in the amounts of \$80.5 million, \$370.9 million and \$17.0 million as of April 3, 2010, March 28, 2009 and September 30, 2009, respectively, represents the pool of receivables that have been designated as "sold" under the 2009 and 2008 MARP Agreements, as applicable, and serve as collateral for short-term debt thereunder in the amounts of \$72.3 million, \$275.0 million and \$4.2 million, as of those dates, respectively.

Notes Due to Sellers

Notes due to sellers include contingent consideration related to our May 2006 acquisition of certain brands and assets of Turf-Seed, Inc., a leading producer of quality commercial turfgrasses. Payment to the seller is due in the second half of fiscal 2012 and is largely based on the performance of the Company's consumer and professional seed business for the twelve-month period ending May 16, 2012.

The Company was in compliance with the terms of all borrowing agreements at April 3, 2010.

A description of the Company's debt instruments and the methods and assumptions used to estimate their fair values is as follows:

Long-Term Debt

The interest rate currently available to the Company fluctuates with the applicable LIBOR rate, prime rate or Federal Funds Effective Rate, and thus the carrying value is a reasonable estimate of fair value.

Senior Notes - 7.25%

The fair value of the Senior Notes can be determined based on the trading of the Senior Notes in the open market. The difference between the carrying value and the fair value of the Senior Notes represents the premium or discount on that date. Based on the trading value on or around April 3, 2010, the carrying value is a reasonable estimate of the fair value of the Senior Notes.

Accounts Receivable Pledged

The interest rate on the short-term debt associated with accounts receivable pledged under the 2009 MARP Agreement fluctuates with the one-week LIBOR rate, and thus the carrying value is a reasonable estimate of fair value.

NOTE 7. COMPREHENSIVE INCOME

The components of other comprehensive income (expense) and total comprehensive income were as follows:

	THREE MONTHS ENDED		SIX MONTHS ENDED	
	MARCH		MARCH	
	APRIL 3,	28,	APRIL 3,	28,

		5.0	5.94	\$ 31.29	3.3	\$ 30.33	4.63

Table of Contents

The intrinsic value of the stock option and SAR awards outstanding and exercisable at April 3, 2010 was as follows (in millions):

Outstanding	\$	76.9
Exercisable		53.9

The grant date fair value of stock option awards is estimated using a binomial model and the assumptions in the following table. Expected market price volatility is based on implied volatilities from traded options on Scotts Miracle-Gro's common shares and historical volatility specific to the common shares. Historical data, including demographic factors impacting historical exercise behavior, is used to estimate stock option exercises and employee terminations within the valuation model. The risk-free interest rate for periods within the contractual life (normally ten years) of the stock option is based on the U.S. Treasury yield curve in effect at the time of grant. The expected life of stock options is based on historical experience and expectations for grants outstanding. The weighted average assumptions for awards granted during the six months ended April 3, 2010 are as follows:

Expected market price volatility	32.1%
Risk-free interest rates	2.8%
Expected dividend yield	1.2%
Expected life of stock options in years	6.00
Estimated weighted-average fair value per stock option	\$ 12.84

Restricted Stock (including Performance Shares)

Restricted stock award activity for the period was as follows:

	No. of Shares	Wtd. Avg. Grant Date Fair Value per Share
Awards outstanding at September 30, 2009	484,250	\$ 33.44
Granted	4,200	41.62
Vested	(117,450)	44.26
Forfeited	(22,100)	27.30
 Awards outstanding at April 3, 2010	 348,900	 \$ 30.28

Restricted Stock Units (including Deferred Stock Units)

Restricted stock unit award activity for the period was as follows:

	No. of Shares	Wtd. Avg. Grant Date Fair Value per Share
Awards outstanding at September 30, 2009	253,699	\$ 26.87
Granted	287,276	41.51
Vested	(4,980)	35.59
Forfeited		
 Awards outstanding at April 3, 2010	 535,995	 \$ 34.64

As of April 3, 2010, total unrecognized compensation cost related to non-vested share-based awards amounted to \$20.2 million. This cost is expected to be recognized over a weighted-average period of one year. Unearned

compensation cost is amortized by grant on the straight-line method over the vesting period, with the amortization expense classified as a component of Selling, general and administrative expense within the Condensed, Consolidated Statements of Operations. Vesting periods are generally three years, although compensation expense related to non-vested share-based awards is accelerated for those employees who are eligible for early vesting based on age and service requirements.

During the six months ended April 3, 2010, the total intrinsic value of stock options exercised was \$13.9 million. The total fair value of restricted stock and restricted stock units vested during the six months ended April 3, 2010 was \$5.2 million and \$0.2 million, respectively. Cash received from the exercise of stock options for the six months ended April 3, 2010 was \$12.9 million.

Table of Contents**NOTE 10. INCOME TAXES**

The balance of unrecognized tax benefits related to uncertain tax positions and the amount of related interest and penalties were as follows:

	APRIL 3, 2010	SEPTEMBER 30, 2009
	(IN MILLIONS)	
Unrecognized tax benefits	\$ 6.5	\$ 6.2
Portion that, if recognized, would impact the effective tax rate	6.5	6.4
Accrued penalties on unrecognized tax benefits	0.6	0.6
Accrued interest on unrecognized tax benefits	1.3	1.2

Scotts Miracle-Gro or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to examinations by these tax authorities for fiscal years prior to 2006. The Company is currently under examination by certain foreign and U.S. state and local tax authorities. In regards to the foreign audits, the tax period under investigation is limited to fiscal year 2008. In regards to the U.S. state and local audits, the tax periods under investigation are limited to fiscal years 2005 through 2008. In addition to the aforementioned audits, certain other tax deficiency issues and refund claims for previous years remain unresolved.

The Company currently anticipates that few of its open and active audits will be resolved within the next 12 months. The Company is unable to make a reasonably reliable estimate as to when or if cash settlements with taxing authorities may occur. Although audit outcomes and the timing of audit payments are subject to significant uncertainty, the Company does not anticipate that the resolution of these tax matters or any events related thereto will result in a material change to its consolidated financial position, results of operations or cash flows.

The Company has historically received a federal retiree drug subsidy as it offers retiree prescription drug coverage that is at a minimum as valuable as Medicare Part D coverage. On March 23, 2010, President Obama signed into law the Patient Protection and Affordable Care Act (PPACA), which repealed the existing rule that permitted a tax deduction for the portion of the drug coverage expense that was offset by the Medicare Part D subsidy received by the Company. This provision of PPACA was to be effective beginning with the Company's fiscal 2012 tax year. On March 30, 2010, the President signed into law a companion bill, the Health Care and Education Reconciliation Act of 2010 (HCERA). HCERA delayed the effective date of the reduction under PPACA until the Company's fiscal 2014 tax year. As a result of this new legislation, the Company recorded a \$1.9 million charge to tax expense during its second quarter of fiscal 2010 to reduce its deferred tax asset for the portion of the subsidy that will no longer be deductible when paid after fiscal 2013.

NOTE 11. CONTINGENCIES

Management regularly evaluates the Company's contingencies, including various lawsuits and claims which arise in the normal course of business, product and general liabilities, workers' compensation, property losses and other fiduciary liabilities for which the Company is self-insured or retains a high exposure limit. Self-insurance reserves are established based on actuarial loss estimates for specific individual claims plus actuarially estimated amounts for incurred but not reported claims and adverse development factors for existing claims. Legal costs incurred in connection with the resolution of claims, lawsuits and other contingencies generally are expensed as incurred. In the opinion of management, its assessment of contingencies is reasonable and related reserves, in the aggregate, are adequate; however, there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. The following are the more significant of the Company's identified contingencies:

FIFRA Compliance and the Corresponding Governmental Investigations

For a description of the Company's ongoing FIFRA compliance efforts and the corresponding governmental investigation, see NOTE 3. PRODUCT REGISTRATION AND RECALL MATTERS.

U.S. Horticultural Supply, Inc. (F/K/A E.C. Geiger, Inc.)

On November 5, 2004, U.S. Horticultural Supply, Inc. (Geiger) filed suit against the Company in the U.S. District Court for the Eastern District of Pennsylvania. The complaint alleged that the Company conspired with another distributor, Griffin Greenhouse Supplies, Inc., to restrain trade in the horticultural products market, in violation of Section 1 of the Sherman Antitrust Act. Geiger s damages expert quantified Geiger s alleged damages at approximately \$3.3 million, which could have been trebled under antitrust laws. Geiger also sought recovery of attorneys fees and costs. On January 13, 2009, the U.S. District Court granted the Company s

Table of Contents

motion for summary judgment and entered judgment for the Company. Geiger appealed the ruling to the U.S. Court of Appeals for the Third Circuit. The Third Circuit affirmed the District Court's grant of summary judgment on March 4, 2010.

The Company continues to pursue the collection of funds owed to the Company by Geiger as confirmed by the Company's April 25, 2005 judgment against Geiger.

Other Regulatory Matters

In 1997, the Ohio Environmental Protection Agency initiated an enforcement action against the Company with respect to alleged surface water violations and inadequate wastewater treatment capabilities at its Marysville, Ohio facility, seeking corrective action under the federal Resource Conservation and Recovery Act of 1976, as amended (RCRA). The action related to discharges from on-site waste water treatment and several discontinued on-site disposal areas. Pursuant to a Consent Order entered by the Union County Common Pleas Court in 2002, the Company is actively engaged in restoring the site to eliminate exposure to waste materials from the discontinued on-site disposal areas.

On or about March 19, 2010, the U.S. EPA Region VII issued notice to the Company indicating that the U.S. EPA intends to file an administrative complaint with respect to alleged RCRA violations arising out of an October 28-29, 2008 inspection of the Company's Fort Madison, Iowa facility. The notice proposes a penalty of \$466,977 and offers the Company the opportunity to negotiate a resolution of the proposed penalty before any complaint is filed. The Company made a timely response to the U.S. EPA and agreed to enter into pre-filing negotiations. Settlement discussions are underway.

At April 3, 2010, \$2.5 million was accrued for other regulatory matters in the Other liabilities line in the Condensed, Consolidated Balance Sheet. The amounts accrued are believed to be adequate to cover such known environmental exposures based on current facts and estimates of likely outcomes. However, if facts and circumstances change significantly, they could result in a material adverse effect on the Company's financial condition, results of operations or cash flows.

Other

The Company has been named as a defendant in a number of cases alleging injuries that the lawsuits claim resulted from exposure to asbestos-containing products, apparently based on the Company's historic use of vermiculite in certain of its products. The complaints in these cases are not specific about the plaintiffs' contacts with the Company or its products. The Company in each case is one of numerous defendants and none of the claims seek damages from the Company alone. The Company believes that the claims against it are without merit and is vigorously defending against them. It is not currently possible to reasonably estimate a probable loss, if any, associated with these cases and, accordingly, no accrual or reserves have been recorded in the Company's condensed, consolidated financial statements. The Company is reviewing agreements and policies that may provide insurance coverage or indemnity as to these claims and is pursuing coverage under some of these agreements and policies, although there can be no assurance of the results of these efforts. There can be no assurance that these cases, whether as a result of adverse outcomes or as a result of significant defense costs, will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

On April 27, 2007, the Company received a proposed Order On Consent from the New York State Department of Environmental Conservation (the Proposed Order) alleging that, during calendar year 2003, the Company and James Hagedorn, individually and as Chairman of the Board and Chief Executive Officer of the Company, unlawfully donated to a Port Washington, New York youth sports organization forty bags of Scotts® LawnPro Annual Program Step 3 Insect Control Plus Fertilizer which, while federally registered, was allegedly not registered in the state of New York. The Proposed Order requests penalties totaling \$695,000. The Company has responded in writing to the New York State Department of Environmental Conservation with respect to the Proposed Order and is awaiting a response. The Company is involved in other lawsuits and claims which arise in the normal course of business. These claims individually and in the aggregate are not expected to result in a material adverse effect on the Company's financial condition, results of operations or cash flows.

NOTE 12. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Derivatives and Hedging

The Company is exposed to market risks, such as changes in interest rates, currency exchange rates and commodity prices. To manage the volatility related to these exposures, the Company enters into various financial transactions. The utilization of these financial

Table of Contents

transactions is governed by policies covering acceptable counterparty exposure, instrument types and other hedging practices. The Company does not hold or issue derivative financial instruments for speculative trading purposes. The Company formally designates and documents qualifying instruments as hedges of underlying exposures at inception. The Company formally assesses, both at inception and at least quarterly, whether the financial instruments used in hedging transactions are effective at offsetting changes in either the fair value or cash flows of the related underlying exposure. Fluctuations in the value of these instruments generally are offset by changes in the fair value or cash flows of the underlying exposures being hedged. This offset is driven by the high degree of effectiveness between the exposure being hedged and the hedging instrument. GAAP requires all derivative instruments to be recognized as either assets or liabilities at fair value in the Condensed, Consolidated Balance Sheets. The Company designates commodity hedges as cash flow hedges of forecasted purchases of commodities and interest rate swap agreements as cash flow hedges of interest payments on variable rate borrowings. Any ineffective portion of a change in the fair value of a qualifying instrument is immediately recognized in earnings. The amounts recorded in earnings related to ineffectiveness of derivative hedges for the three- and six-month periods ended April 3, 2010 and March 28, 2009 were not significant.

Foreign Currency Swap Contracts

The Company periodically uses foreign currency swap contracts to manage the exchange rate risk associated with intercompany loans with foreign subsidiaries that are denominated in local currencies. The fair value of foreign currency swap contracts is determined based on changes in spot rates. The unrealized loss on the foreign currency swap contracts approximates the unrealized gain on the intercompany loans recognized by the Company's lending subsidiaries. At April 3, 2010, there were no outstanding foreign currency swap contracts.

Interest Rate Swap Agreements

The Company enters into interest rate swap agreements as a means to hedge its variable interest rate exposure on debt instruments. The fair values are reflected in the Company's Condensed, Consolidated Balance Sheets. Net amounts to be received or paid under the swap agreements are reflected as adjustments to interest expense. Since the interest rate swap agreements have been designated as hedging instruments, unrealized gains or losses resulting from adjusting these swaps to fair value are recorded as elements of accumulated other comprehensive loss (AOCI) within the Condensed, Consolidated Balance Sheets. The fair value of the swap agreements is determined based on the present value of the estimated future net cash flows using implied rates in the applicable yield curve as of the valuation date. At April 3, 2010 and March 28, 2009, the Company had outstanding interest rate swap agreements with major financial institutions that effectively converted a portion of the Company's variable-rate debt to a fixed rate. The swap agreements had a total U.S. dollar equivalent notional amount of \$450 million and \$850 million at April 3, 2010 and March 28, 2009, respectively. Refer to NOTE 6. DEBT for the terms of the swap agreements outstanding at April 3, 2010. Included in the AOCI balance at April 3, 2010 was a pre-tax loss of \$11.9 million related to interest rate swap agreements that is expected to be reclassified to earnings during the next 12 months, consistent with the timing of the underlying hedged transactions.

Commodity Hedges

The Company had outstanding hedging arrangements at April 3, 2010 designed to fix the price of a portion of its urea needs. The contracts are designated as hedges of the Company's exposure to future cash flow fluctuations associated with the cost of urea. The objective of the hedges is to mitigate the earnings and cash flow volatility attributable to the risk of changing prices. Unrealized gains or losses in the fair value of these contracts are recorded to the AOCI component of shareholders' equity. Realized gains or losses remain as a component of AOCI until the related inventory is sold. Upon sale of the underlying inventory, the gain or loss is reclassified to cost of sales. Included in the AOCI balance at April 3, 2010 was a pre-tax gain of \$0.5 million related to urea derivatives that is expected to be reclassified to earnings during the next 12 months, consistent with the timing of the underlying hedged transactions. Periodically, the Company also uses fuel derivatives to partially mitigate the effect of fluctuating diesel and gasoline costs on operating results. Fuel derivatives used by the Company that do not qualify for hedge accounting treatment in accordance with GAAP are marked-to-market, with unrealized gains and losses on open contracts and realized gains or losses on settled contracts recorded as an element of cost of sales.

Beginning in fiscal 2009, the Company entered into fuel derivatives for its Scotts LawnService® business that qualify for hedge accounting treatment. Unrealized gains or losses in the fair value of these contracts are recorded to the AOCI component of shareholders' equity except for any ineffective portion of the change in fair value, which is immediately recorded in earnings. For the effective portion of the change in fair value, realized gains or losses remain as a component of AOCI until the related fuel is consumed by the Scotts LawnService® service vehicles. Upon consumption of the fuel, the gain or loss is reclassified to cost of sales. Included in

Table of Contents

the AOCI balance at April 3, 2010 was a pre-tax gain of \$0.1 million related to fuel derivatives that is expected to be reclassified to earnings during the next 12 months, consistent with the timing of the underlying hedged transactions. As of April 3, 2010, the Company had the following outstanding commodity contracts that were entered into to hedge forecasted purchases:

Commodity	Volume
Urea	77,000 tons
Diesel	2,058,000 gallons
Gasoline	252,000 gallons

Fair Values of Derivative Instruments

The fair values of the Company's derivative instruments were as follows (in millions):

		ASSETS / (LIABILITIES)		
		APRIL 3, 2010	MARCH 28, 2009	SEPTEMBER 30, 2009
DERIVATIVES DESIGNATED AS HEDGING INSTRUMENTS	BALANCE SHEET LOCATION	FAIR VALUE

NOTE 13. FAIR VALUE MEASUREMENTS

The Company adopted the new accounting guidance for all financial assets and liabilities accounted for at fair value on a recurring basis effective October 1, 2008. The Company adopted the new accounting guidance for all non-financial assets and liabilities accounted for at fair value on a non-recurring basis effective October 1, 2009. The guidance defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or the most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following describes the valuation methodologies used for financial assets and liabilities measured at fair value on a recurring basis, as well as the general classification within the valuation hierarchy.

Derivatives

Derivatives consist of foreign currency, interest rate and commodity derivative instruments. The Company uses foreign currency swap contracts to manage the exchange rate risk associated with intercompany loans with foreign subsidiaries that are denominated in U.S. dollars. These contracts are valued using observable forward rates in commonly quoted intervals for the full term of the contracts.

Interest rate derivatives consist of interest rate swap agreements. The Company enters into interest rate swap agreements as a means to hedge its variable interest rate exposure on debt instruments. The fair value of the swap agreements is determined based on the present value of the estimated future net cash flows using implied rates in the applicable yield curve as of the valuation date.

The Company has hedging arrangements designed to fix the price of a portion of its urea and fuel needs. The objective of the hedges is to mitigate the earnings and cash flow volatility attributable to the risk of changing prices. These contracts are measured using observable commodity exchange prices in active markets.

These derivative instruments are classified within Level 2 of the valuation hierarchy and are included within Other assets and Other liabilities in the Company's Condensed, Consolidated Balance Sheets, except for derivative

instruments expected to be settled within the next 12 months, which are included within Prepaid and other current assets and Other current liabilities.

For further information on the Company's derivative instruments, refer to NOTE 12. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES.

Other

Other financial assets consist of investment securities in non-qualified retirement plan assets. These securities are valued using observable market prices in active markets. These investment securities are classified within Level 1 of the valuation hierarchy and are included within Other assets in the Company's Condensed, Consolidated Balance Sheets.

Table of Contents

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis at April 3, 2010 (in millions):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total
Assets				
Derivatives				
Interest rate swap agreements	\$	\$ 2.3	\$	\$ 2.3
Commodity hedging instruments		0.9		0.9
Other	6.7			6.7
Total	\$ 6.7	\$ 3.2	\$	\$ 9.9
Liabilities				
Derivatives				
Interest rate swap agreements	\$	\$ (18.7)	\$	\$ (18.7)
Total	\$	\$ (18.7)	\$	\$ (18.7)

The assets and liabilities subject to the new guidance for fair value measurement accounting and disclosures related to non-financial assets and liabilities recognized or disclosed on a non-recurring basis primarily include goodwill and indefinite-lived intangible assets measured at fair value for impairment assessments, long-lived assets measured at fair value for impairment assessments and non-financial assets and liabilities measured at fair value in business combinations. The adoption of this new guidance did not affect our financial position, results of operations or cash flows for the periods presented.

NOTE 14. ACQUISITIONS

Effective October 1, 2008, the Company acquired Humax Horticulture Limited, a privately-owned growing media company in the United Kingdom, for a total cost of \$9.3 million. There was no acquisition activity in the first six months of fiscal 2010.

NOTE 15. SEGMENT INFORMATION

The Company divides its business into the following segments: Global Consumer, Global Professional, Scotts LawnService® and Corporate & Other. Prior to being reported as discontinued operations, Smith & Hawken was included as part of our Corporate & Other reportable segment. This division of reportable segments is consistent with how the segments report to and are managed by senior management of the Company. Certain reclassifications were made to the Global Consumer and Global Professional prior period amounts to reflect changes in the structure of the Company's organization effective in fiscal 2010.

The Global Consumer segment consists of the North American Consumer and International Consumer business groups. The business groups comprising this segment manufacture, market and sell dry, granular slow-release lawn fertilizers, combination lawn fertilizer and control products, grass seed, spreaders, water-soluble, liquid and continuous release garden and indoor plant foods, plant care products, potting, garden and lawn soils, mulches and other growing media products, wild bird food, pesticide and rodenticide products. Products are marketed to mass merchandisers, home centers, large hardware chains, warehouse clubs, distributors, garden centers and grocers in the United States, Canada, Europe, Latin America, and Australia.

The Global Professional segment is focused on a full line of horticultural products including controlled-release and water-soluble fertilizers and plant protection products, wetting agents, grass seed products, spreaders and customer application services. Products are sold to commercial nurseries and greenhouses and specialty crop growers, primarily in North America and Europe.

The Scotts LawnService® segment provides lawn fertilization, disease and insect control and other related services such as core aeration, tree and shrub fertilization and limited pest control services primarily to residential consumers through Company-owned branches and franchises in the United States.

The Corporate & Other segment consists of corporate general and administrative expenses.

Table of Contents

Segment performance is evaluated based on several factors, including income from continuing operations before amortization, product registration and recall costs, and impairment, restructuring and other charges, which are not GAAP measures. Senior management of the Company uses this measure of operating profit to gauge segment performance because the Company believes this measure is the most indicative of performance trends and the overall earnings potential of each segment. The following table presents segment financial information.

	THREE MONTHS ENDED		SIX MONTHS ENDED	
	MARCH

Corporate & Other	235.0	204.8		205.4
Consolidated	\$ 3,051.6	\$ 2,967.9	\$	2,220.1

Total assets reported for the Company's operating segments include the intangible assets associated with the acquired businesses within those segments. Corporate & Other assets primarily include deferred financing and debt issuance costs, corporate intangible assets and deferred tax assets, and Smith & Hawken assets.

NOTE 16. FINANCIAL INFORMATION FOR SUBSIDIARY GUARANTORS AND NON-GUARANTORS

The Senior Notes issued by Scotts Miracle-Gro on January 14, 2010 are guaranteed by certain of its domestic subsidiaries and, therefore, the Company has disclosed condensed, consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. The following 100% directly or indirectly owned subsidiaries fully and unconditionally guarantee the Senior Notes on a joint and several basis: EG Systems, Inc., dba Scotts LawnService®; Gutwein & Co., Inc.; Hyponex Corporation; Miracle-Gro Lawn Products, Inc.; OMS Investments, Inc.; Rod McLellan Company; Sanford Scientific, Inc.; Scotts Temecula Operations, LLC; Scotts Manufacturing Company; Scotts Products Co.; Scotts Professional Products Co.; Scotts-Sierra Crop Protection Company; Scotts-Sierra Horticultural Products Company; Scotts-Sierra Investments, Inc.; SMG Growing Media, Inc.; Swiss Farms Products, Inc.; and The Scotts Company LLC (collectively, the Guarantors). Teak 2, Ltd., f/k/a Smith & Hawken, Ltd., was released from its guarantee under the Senior Notes on March 18, 2010. Accordingly, Teak 2, Ltd. has been classified as a Non-Guarantor for all periods presented in the condensed, consolidating financial information accompanying this Note 16.

The following information presents condensed, consolidating Statements of Operations for the three-month and six-month periods ended April 3, 2010 and March 28, 2009 and condensed, consolidating Statements of Cash Flows for the six-month periods ended

Table of Contents

April 3, 2010 and March 28, 2009, and condensed, consolidating Balance Sheets as of April 3, 2010, March 28, 2009 and September 30, 2009. The condensed, consolidating financial information presents, in separate columns, financial information for: Scotts Miracle-Gro on a Parent-only basis, carrying its investment in subsidiaries under the equity method; Guarantors on a combined basis, carrying investments in subsidiaries which do not guarantee the debt (collectively, the Non-Guarantors) under the equity method; Non-Guarantors on a combined basis; and eliminating entries. The eliminating entries primarily reflect intercompany transactions, such as interest expense, accounts receivable and payable, short and long-term debt, and the elimination of equity investments and income in subsidiaries. Because the Parent is obligated to pay the unpaid principal amount and interest on all amounts borrowed by the Guarantors or Non-Guarantors under the senior secured five-year revolving loan facility, the borrowings and related interest expense for the revolving loans outstanding of the Guarantors and Non-Guarantors are also presented in the accompanying Parent-only financial information, and are then eliminated.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The purpose of this discussion is to provide an understanding of the financial condition and results of operations of The Scotts Miracle-Gro Company (Scotts Miracle-Gro) and its subsidiaries (collectively, together with Scotts Miracle-Gro, the Company, we or us) by focusing on changes in certain key measures from year-to-year. Management's Discussion and Analysis is divided into the following sections:

- Executive summary
- Results of operations
- Segment results
- Liquidity and capital resources
- Regulatory matters
- Critical accounting policies and estimates

EXECUTIVE SUMMARY

We are dedicated to delivering strong, consistent financial results and outstanding shareholder returns by providing products of superior quality and value in order to enhance consumers' outdoor living environments. We are a leading manufacturer and marketer of consumer branded non-durable products for lawn and garden care and professional horticulture products in North America and Europe. We are Monsanto's exclusive agent for the marketing and distribution of consumer Roundup® non-selective herbicide products within the United States and other contractually specified countries. We have a presence in similar consumer branded and professional horticulture products in Australia, the Far East, Latin America and South America. In the United States, we operate Scotts LawnService®, the second largest residential lawn care service business. Our continuing operations are divided into the following reportable segments: Global Consumer, Global Professional, Scotts LawnService® and Corporate & Other. The Corporate & Other segment consists of corporate general and administrative expenses.

On July 8, 2009, we announced that we were commencing a process to close the Smith & Hawken business. During our first quarter of fiscal 2010, all Smith & Hawken stores were closed and substantially all operational activities of Smith & Hawken were discontinued. As a result, effective in our first quarter of fiscal 2010, we classified Smith & Hawken as discontinued operations.

As a leading consumer branded lawn and garden company, our marketing efforts are largely focused on providing innovative and differentiated products and on continually increasing brand and product awareness to inspire consumers and create retail demand. We have successfully applied this model for a number of years, consistently increasing our investment in research and development and investing approximately 5% of our annual net sales in advertising to support and promote our products and brands. We continually explore new and innovative ways to communicate with consumers. We believe that we receive a significant return on these expenditures and anticipate a similar commitment to research and development, advertising and marketing investments in the future, with the continuing objective of driving category growth and increasing market share.

Our sales are susceptible in any one year to weather conditions in the markets in which our products are sold. For instance, periods of wet weather can adversely impact sales of certain products, while increasing demand for other products. We believe that our diversified product line and our broad geographic diversification reduce this risk. We also believe that weather conditions in any one year, positive or negative, do not materially alter longer-term category growth trends.

Due to the nature of our lawn and garden business, significant portions of our products ship to our retail customers during our second and third fiscal quarters. Our annual sales are further concentrated in the second and third fiscal quarters by retailers who increasingly rely on our ability to deliver products in season when consumers buy our products, thereby reducing retailers' inventories.

	Percent of Net Sales from Continuing Operations by Quarter		
	2009	2008	2007
First Quarter	9.6%	9.5%	8.4%

Second Quarter	31.6%	33.1%	35.8%
Third Quarter	41.3%	39.5%	38.5%
Fourth Quarter	17.5%	17.9%	17.3%

Table of Contents

Management focuses on a variety of key indicators and operating metrics to monitor the financial condition and performance of the continuing operations of our business. These metrics include consumer purchases (retail point-of-sale data), market share, category growth, net sales (including unit volume, pricing, product mix and foreign exchange movements), organic sales growth (net sales growth excluding the impact of foreign exchange movements, product recalls and acquisitions), gross profit margins, income from operations, income from continuing operations, net income and earnings per share. To the extent applicable, these measures are evaluated with and without impairment, restructuring and other charges, which management believes are not indicative of the ongoing earnings capabilities of our businesses. We also focus on measures to optimize cash flow and return on invested capital, including the management of working capital and capital expenditures.

Product Registration and Recall Matters

In April 2008, we became aware that a former associate apparently deliberately circumvented our policies and the U.S. Environmental Protection Agency (U.S. EPA) regulations under the Federal Insecticide, Fungicide, and Rodenticide Act of 1947, as amended (FIFRA), by failing to obtain valid registrations for products and/or causing invalid product registration forms to be submitted to regulators. Since that time, we have been cooperating with both the U.S. EPA and the U.S. Department of Justice (U.S. DOJ) in related civil and criminal investigations into our pesticide product registration issues.

In late April of 2008, in connection with the U.S. EPA s investigation, we conducted a consumer-level recall of certain consumer lawn and garden products and a Scotts LawnService® product. Subsequently, the Company and the U.S. EPA agreed upon a Compliance Review Plan for conducting a comprehensive, independent review of our product registration records. Pursuant to the Compliance Review Plan, an independent third-party firm, Quality Associates Incorporated (QAI), reviewed substantially all of our U.S. pesticide product registrations and associated advertising, some of which were historical in nature and no longer related to sales of our products. The U.S. EPA investigation and the QAI review process resulted in the temporary suspension of sales and shipments of certain products. In addition, as the QAI review process or our internal review identified potential FIFRA registration issues (some of which appear unrelated to the actions of the former associate), we endeavored to stop selling or distributing the affected products until the issues could be resolved. QAI s review of our U.S. pesticide product registrations and associated advertisements is now substantially complete. The results of the QAI review process did not materially affect the Company s fiscal 2009 or year-to-date fiscal 2010 sales and are not expected to materially affect the Company s sales during the remainder of fiscal 2010.

In late 2008, Scotts Miracle-Gro and its indirect subsidiary, EG Systems, Inc., doing business as Scotts LawnService® were named as defendants in a purported class action filed in the U.S. District Court for the Eastern District of Michigan relating to the application of certain pesticide products by Scotts LawnService®. In the suit, Mark Baumkel, on behalf of himself and the purported classes, sought an unspecified amount of damages, plus costs and attorneys fees, for alleged claims involving breach of contract, unjust enrichment and violation of the state of Michigan s consumer protection act. On September 28, 2009, the court granted the motion filed by Scotts Miracle-Gro and EG Systems, Inc. and dismissed the suit with prejudice. Since that time, Scotts Miracle-Gro, EG Systems, Inc. and Mr. Baumkel have agreed to a confidential settlement that, among other things, precludes an appeal of the decision. The impact of the confidential settlement did not, and will not, materially affect our financial condition, results of operations or cash flows.

In fiscal 2008, we conducted a voluntary recall of certain of our wild bird food products due to a formulation issue. Certain wild bird food products had been treated with pest control additives to avoid insect infestation, especially at retail stores. While the pest control additives had been labeled for use on certain stored grains that can be processed for human and/or animal consumption, they were not labeled for use on wild bird food products. In October 2008, the U.S. Food & Drug Administration concluded that the recall had been completed and that there had been proper disposition of the recalled products. The results of the wild bird food recall did not materially affect our fiscal 2009 financial condition, results of operations or cash flows.

As a result of these registration and recall matters, we have reversed sales associated with estimated returns of affected products, recorded charges for affected inventory and recorded other registration and recall-related costs. The impacts of these adjustments were pre-tax charges of \$1.7 million and \$8.0 million for the three-month periods, and

\$4.3 million and \$15.6 million for the six-month periods ended April 3, 2010 and March 28, 2009, respectively. We expect to incur \$8.0 to \$12.0 million in fiscal 2010 on recall and registration matters, excluding possible fines, penalties, judgments and/or litigation costs. These fiscal 2010 charges primarily consist of costs associated with the reworking of certain finished goods inventories, the potential disposal of certain products and ongoing third-party professional services related to the U.S. EPA and U.S. DOJ investigations.

The U.S. EPA and U.S. DOJ investigations continue and may result in future state, federal or private actions including fines and/or penalties with respect to known or potential additional product registration issues. Until the U.S. EPA and U.S. DOJ investigations are complete, we cannot reasonably determine the scope or magnitude of possible liabilities that could result from known or potential product registration issues, and no reserves for these potential liabilities have been established as of April 3, 2010. However, it is possible that such liabilities, including fines, penalties, judgments and/or litigation costs could be material and have an adverse effect on our financial condition, results of operations or cash flows.

Table of Contents

We are committed to providing our customers and consumers with products of superior quality and value to enhance their lawns, gardens and overall outdoor living environments. We believe consumers have come to trust our brands based on the superior quality and value they deliver, and that trust is highly valued. We also are committed to conducting business with the highest degree of ethical standards and in adherence to the law. While we are disappointed in these events, we believe we have made significant progress in addressing the issues and restoring customer and consumer confidence in our products.

RESULTS OF OPERATIONS

Beginning in our first quarter of fiscal 2010, we classified Smith & Hawken as a discontinued operation. Accordingly, we have reclassified our results of operations for the three- and six-month periods ended March 28, 2009 to reflect Smith & Hawken as discontinued operations separate from our results of continuing operations. As a result, and unless specifically stated, all discussions regarding results for the three- and six-month periods ended April 3, 2010 and March 28, 2009, respectively, reflect results from our continuing operations.

The following table sets forth the components of income and expense as a percentage of net sales for the three- and six-month periods ended April 3, 2010 and March 28, 2009:

	THREE MONTHS ENDED		SIX MONTHS ENDED

Income from operations	18.4	15.6	9.7	6.6
Interest expense	1.4	1.7	1.8	2.7
Income from continuing operations before income taxes	17.0	13.9	7.9	3.9
Income tax expense from continuing operations	6.3	5.0	3.0	1.4
Income from continuing operations	10.7	8.9	4.9	2.5
Loss from discontinued operations, net of tax	(0.1)	(0.7)	(0.6)	(0.8)
Net income	10.6%	8.2%	4.3%	1.7%

Net sales for the three months ended April 3, 2010 were \$1.12 billion, an increase of 19.4% from net sales of \$940.7 million for the three months ended March 28, 2009. Net sales for the first six months of fiscal 2010 grew 16.2% versus the comparable period of fiscal 2009. We follow a 13-week quarterly accounting cycle, with our first three fiscal quarters ending on a Saturday, while our fiscal year end always occurs on September 30th. This fiscal calendar convention requires us to cycle forward our first three fiscal quarter ends every four to five years. Fiscal 2010

is the most recent year impacted by this fiscal quarter end cycle forward process. Our second quarter of fiscal 2010 ended on April 3rd, compared to March 28th for the second quarter of fiscal 2009. Because the second quarter of fiscal 2010 ended five days later in our peak spring selling season, this calendar shift had a significant impact, increasing net sales by 9.2% and 8.1%, respectively, for the three- and six-month periods ended April 3, 2010.

After the impact of the calendar shift organic net sales growth, which excludes the impact of changes in foreign exchange rates, product recalls and acquisitions, was 8.2% and 5.8% for the three and six months ended April 3, 2010, respectively, as noted in the following table:

	Three Months Ended April 3, 2010	Six Months Ended April 3, 2010
Net sales growth	19.4%	16.2%
Foreign exchange rates	(2.0)	(2.3)
Organic net sales growth before impact of calendar shift	17.4	13.9
Impact of calendar shift	(9.2)	(8.1)
Organic net sales growth after impact of calendar shift	8.2%	5.8%

In the Global Consumer segment, organic net sales after the impact of the calendar shift grew by 9.4% and 8.3% for the second quarter and first six months of fiscal 2010, respectively. Global Professional organic net sales after the impact of the calendar shift increased by 8.2% for the second quarter, and declined by 2.7% for the first six months of fiscal 2010 compared to the same period of fiscal 2009. Organic net sales after the impact of the calendar shift for the Scotts LawnService® segment declined by 19.0% and 16.8% for

Table of Contents

the three and six months ended April 3, 2010, respectively.

Consolidated net sales for the first six months of our fiscal year have typically comprised 41% to 45% of our total fiscal year consolidated net sales from continuing operations. However, there can be no assurance that a similar sales trend will apply to fiscal 2010. On a consolidated basis, we anticipate full-year fiscal 2010 net sales will increase by 7% to 8% compared to fiscal 2009.

As a percentage of net sales, gross profit was 38.8% for the second quarter of fiscal 2010 compared to 37.9% for the second quarter of fiscal 2009. For the first six months of fiscal 2010, our gross profit percentage was 35.2% compared to 35.3% in the comparable period of fiscal 2009. Excluding product registration and recall matters, the gross profit rate increased by 80 basis points for the second quarter of fiscal 2010, and declined by 40 basis points for the first six months of fiscal 2010. The fiscal 2010 second quarter gross profit rate increase was primarily driven by favorable product mix and more efficient distribution costs as a result of higher sales volume in our Global Consumer segment, partially offset by a decline in average selling prices in the Global Professional segment. Gross profit rates for the first six months of fiscal 2010 were impacted by similar factors, although the sell-through of inventory at older, higher commodity costs was a primary driver of the decline in gross profit rate versus the comparable period of fiscal 2009. Excluding the impact of product registration and recall matters, we anticipate the fiscal 2010 full-year gross profit rate to improve by as much as 50 basis points compared to fiscal 2009, primarily due to cost efficiencies generated by higher sales volume, supply chain productivity and the anniversary of fiscal 2009 price reductions in our Global Professional segment.

Selling, General and Administrative Expenses

	THREE MONTHS ENDED		SIX MONTHS ENDED	
	MARCH		MARCH	
	APRIL 3,	28,	APRIL 3,	28,
	2010	2009	2010	2009
	(IN MILLIONS)		(IN MILLIONS)	
	(UNAUDITED)		(UNAUDITED)	
Advertising	\$ 54.3	\$ 43.2	\$ 66.5	\$ 53.5
Other selling, general and administrative	171.6	157.9	294.5	283.0
Amortization of intangibles	2.5	2.9	5.0	6.2
	\$ 228.4	\$ 204.0	\$ 366.0	\$ 342.7

Selling, general and administrative (SG&A) expenses increased \$24.4 million, or 12.0%, to \$228.4 million for the second quarter and \$23.3 million, or 6.8%, to \$366 million for the first six months of fiscal 2010. Excluding the impact of foreign exchange rates, SG&A expenses for the second quarter and first six months of fiscal 2010 increased 10.3% and 4.8%, respectively. The increase in SG&A expenses is primarily attributable to increased spending in the Global Consumer segment, driven by increased advertising, selling and marketing. SG&A spending for the Global Professional and Scotts LawnService® segments declined, while Corporate & Other SG&A expenses increased slightly. We expect full-year SG&A expenses to increase by 3% to 4%, driven by trends consistent with our first six months.

We recorded \$1.1 million and \$2.8 million of SG&A-related product registration and recall costs during the second quarter and first six months of fiscal 2010, respectively, which primarily related to third-party compliance review, legal and consulting fees. For the quarter and six months ended March 28, 2009, we recorded \$5.5 million and \$11.7 million of SG&A-related product registration and recall costs, respectively.

Interest expense for the second quarter and first six months of fiscal 2010 was \$15.1 million and \$25.8 million, respectively, compared to \$15.9 million and \$32.2 million for the second quarter and first six months of fiscal 2009. The decrease in interest expense for the first six months of fiscal 2010 was attributable to decreases in both average borrowings and weighted average interest rates, while the decrease for the second quarter was primarily due to a decrease in average borrowings. Excluding the impact of foreign exchange rates, average borrowings decreased by

approximately \$126 million during the first six months of fiscal 2010 as compared to the prior year period. Weighted average interest rates decreased by approximately 67 basis points. We expect full-year interest expense to decline compared to fiscal 2009, as lower average borrowings and weighted average interest rates on our senior secured credit facility will be partially offset by higher interest expense attributable to the \$200 million aggregate principal amount of Senior Notes, with an effective interest rate of 7.375%, due 2018 (the Senior Notes) issued on January 14, 2010. We issued the Senior Notes as part of a broader strategy to diversify sources of liquidity and debt maturities in anticipation of the expiration of our current senior secured credit facility in February 2012. Refer to NOTE 6. DEBT of the Notes to Condensed, Consolidated Financial Statements for a further description of the Senior Notes.

The effective tax rate for continuing operations was 37.9% for the first half of fiscal 2010, compared to 35.5% for the same period of fiscal 2009. Fiscal 2010 income tax expense includes a \$1.9 million charge recorded during the second quarter related to health care legislation enacted in March 2010 that repealed the existing rule which permitted a tax deduction for the portion of retiree prescription drug expense that was offset by the Medicare Part D subsidy we receive. The effective tax rate used for interim reporting

Table of Contents

purposes was based on management's best estimate of factors impacting the effective tax rate for the full fiscal year. Factors affecting the estimated effective tax rate include assumptions as to income by jurisdiction (domestic and foreign), the availability and utilization of tax credits and the existence of elements of income and expense that may not be taxable or deductible, as well as other items. We estimate that the fiscal 2010 full-year effective tax rate will be in the range of 36.5% to 37.0%. The estimated effective tax rate is subject to revision in later interim periods and at fiscal year end as facts and circumstances change during the course of the fiscal year. There can be no assurance that the effective tax rate estimated for interim financial reporting purposes will approximate the effective tax rate determined at fiscal year end.

We reported net income from continuing operations of \$119.9 million, or \$1.78 per diluted share, for the second quarter of fiscal 2010 compared to \$84.1 million, or \$1.28 per diluted share, for the second quarter of fiscal 2009. Net income from continuing operations in the first six months of fiscal 2010 was \$70.1 million, or \$1.04 per diluted share, versus \$31.2 million, or \$0.47 per diluted share, for the same period of fiscal 2009. The increase for the second quarter and first six months of fiscal 2010 was driven primarily by increased net sales and gross profit in the Global Consumer segment, partially offset by an increase in SG&A spending. The impact of the calendar shift increased earnings by approximately \$0.23 and \$0.26 per diluted share for the second quarter and first six months of fiscal 2010, respectively. Diluted average common shares used in the diluted net income per common share calculation were 67.4 million for the second quarter of fiscal 2010 compared to 65.8 million for the same period a year ago. Diluted average common shares used in the diluted net income per common share calculation were 67.2 million for the six months ended April 3, 2010 versus 65.7 million for the six months ended March 28, 2009. Diluted average common shares included 1.2 million equivalent shares for both the second quarter and first six months of fiscal 2010 to reflect the effect of the assumed conversion of dilutive stock options, restricted stock and restricted stock unit awards. For both the second quarter and first six months of fiscal 2009, diluted average common shares included 0.9 million equivalent shares. The changes in diluted average common shares were primarily driven by the fluctuation in the Company's share price.

In our first quarter of fiscal 2010, we began presenting Smith & Hawken as discontinued operations and prior periods have been reclassified to conform to this presentation. We reported a loss from discontinued operations, net of tax, of \$1.4 million for the second quarter of fiscal 2010, compared to a loss, net of tax, of \$6.7 million for the second quarter of fiscal 2009. The loss from discontinued operations, net of tax, was \$9.3 million for the first six months of fiscal 2010 versus \$10.8 million for the same period of fiscal 2009. The losses recorded in fiscal 2010 relate primarily to first quarter charges associated with the termination of retail site lease obligations, third-party agency fees and severance and benefit commitments. These charges were partially offset by a gain of approximately \$18 million from the sale of the Smith & Hawken intellectual property on December 30, 2009.

SEGMENT RESULTS

Our continuing operations are divided into the following segments: Global Consumer, Global Professional, Scotts LawnService® and Corporate & Other. The Corporate & Other segment consists of corporate general and administrative expenses. This division of reportable segments is consistent with how the segments report to and are managed by senior management of the Company. Certain reclassifications were made to the Global Consumer and Global Professional prior period amounts to reflect changes in the structure of the Company's organization effective in fiscal 2010.

Segment performance is evaluated based on several factors, including income from continuing operations before amortization, product registration and recall costs, and impairment, restructuring and other charges, which are not measures of generally accepted accounting principles. Management uses this measure of operating profit to gauge segment performance because we believe this measure is the most indicative of performance trends and the overall earnings potential of each segment.

The following table sets forth net sales by segment:

Global Consumer

Global Consumer segment net sales were \$1.01 billion for the second quarter and \$1.23 billion for the first six months of fiscal 2010, an increase of 20.7% and 19.4% from the second quarter and first six months of fiscal 2009, respectively. The calendar shift increased Global Consumer net sales by 9.5% and 9.0%, respectively, for the three- and six-month periods ended April 3, 2010. Organic net sales after the impact of the calendar shift grew by 9.4% and 8.3% for the second quarter and first six months, respectively, driven by unit growth. We believe this growth was partially attributable to increased marketing efforts as well as continued support of the category by our retail partners. Price decreases on certain commodity and private label products, along with aggressive customer-focused promotional spending reduced net sales by 1.6% and 1.0% for the second quarter and first six months of fiscal 2010, respectively. Foreign exchange movements increased net sales by 1.7% and 1.9% for the second quarter and first six months of fiscal 2010, respectively.

Organic net sales in the U.S. after the impact of the calendar shift increased 10.4% and 10.2% for the second quarter and first six months of fiscal 2010, respectively, driven by unit growth. Price decreases on certain commodity and private label products, along with aggressive customer-focused promotional spending reduced net sales by 2.0% and 1.5% for the second quarter and first six months of fiscal 2010, respectively. Consumer purchases of our products at our largest U.S. retailers (retail point-of-sale, or POS) increased by 4.5% and 7.2% for the quarter and first six months, respectively, driven by higher sales in nearly all major categories, led by growing media, grass seed, controls and lawn fertilizers. Organic net sales for International after the impact of the calendar shift increased by 4.5% and 0.4% for the second quarter and first six months of fiscal 2010, respectively. Pricing actions increased net sales by 0.5% and 1.1% for the second quarter and first six months of fiscal 2010, respectively. Net sales in the United Kingdom and Canada have increased in fiscal 2010 driven largely by new product launches and early purchases by retailers in advance of the peak selling season. Net sales in France and Central Europe were flat to slightly down.

Global Consumer segment operating income increased by \$55.0 million and \$53.5 million in the second quarter and first six months of fiscal 2010, respectively. The calendar shift increased Global Consumer operating income by \$23.4 million and \$25.1 million, respectively, for the three- and six-month periods ended April 3, 2010. Excluding the impact of the calendar shift and foreign exchange movements, Global Consumer segment operating income increased by \$28.8 million and \$26.2 million in the second quarter and first six months of fiscal 2010, respectively. The increase in operating income was driven by the increase in net sales accompanied by improvement in gross margin rates of 90 basis points and 60 basis points for the second quarter and first six months of fiscal 2010, respectively. The increase in

gross margin rates was the result of more efficient freight costs, driven by strong sales volumes, and favorable product mix. The improvement in net sales and gross margin rates was partially offset by increases in SG&A spending, primarily related to strategic investments in advertising, selling and marketing.

Global Professional

Global Professional segment net sales were \$78.0 million for the second quarter and \$133.4 million for the first six months of fiscal 2010, an increase of 15.4% and 5.0% from the second quarter and first six months of fiscal 2009, respectively. The calendar shift increased Global Professional net sales by 1.8% and 2.4%, respectively, for the three- and six-month periods ended April 3, 2010. Organic net sales after the impact of the calendar shift grew by 8.2% for the second quarter, and declined by 2.7% for the first six months. Organic net sales for the second quarter increased due to growth in unit volume for nearly all parts of the business. Organic net sales for the first six months of fiscal 2010 reflect reduced sales in the first quarter of fiscal 2010 as customers delayed orders until closer to the peak selling season. Lower average selling prices decreased net sales by 9.2% and 9.3% for the second quarter and first six months of fiscal 2010, respectively. Foreign exchange movements increased net sales by 5.3% and 5.2% for the second quarter and first six months of fiscal 2010, respectively.

Table of Contents

Global Professional segment operating income declined by \$0.1 million and \$13.2 million in the second quarter and first six months of fiscal 2010, respectively. The calendar shift increased Global Professional operating income by \$0.2 million and \$0.8 million, respectively, for the three- and six-month periods ended April 3, 2010. Excluding the impact of the calendar shift and foreign exchange movements, Global Consumer segment operating income decreased by \$0.7 million and \$14.2 million in the second quarter and first six months of fiscal 2010, respectively. The decreases in operating income were driven primarily by lower gross profit due to the sell-through of inventory at older, more expensive commodity costs, as well as lower average selling prices.

Scotts LawnService®

Compared to the same periods in the prior fiscal year, Scotts LawnService® revenues decreased by \$2.2 million and \$8.0 million in the second quarter and first six months of fiscal 2010, respectively. Excluding the impact of the calendar shift, Scotts LawnService® revenues declined by \$7.2 million and \$13.0 million in the second quarter and first six months of fiscal 2010, respectively. The decline in revenues was driven primarily by decreased customer count, unfavorable weather conditions in certain markets, and a decline in customer purchases of a la carte services.

Scotts LawnService® segment operating loss decreased by \$1.7 million and \$2.6 million in the second quarter and first six months of fiscal 2010, respectively. Excluding the impact of the calendar shift, Scotts LawnService® segment operating loss decreased by \$1.3 million and \$1.8 million in the second quarter and first six months of fiscal 2010, respectively. The decreases were primarily driven by lower input costs, improved labor productivity and lower SG&A spending that offset the decline in revenues.

Corporate & Other

The net operating loss for the Corporate & Other segment increased by \$3.4 million in the second quarter of fiscal 2010 as compared to the second quarter of fiscal 2009, partially due to increased equity-based compensation expense driven by the acceleration of expense for key employees whose equity awards vest in fiscal 2010 upon meeting age and service requirements. The net operating loss for Corporate & Other decreased by \$3.0 million in the first six months of fiscal 2010 compared to the same period in fiscal 2009, primarily related to gains recorded for the sale of property, plant and equipment in the first quarter of fiscal 2010, as well as decreases in variable compensation and third-party legal fees.

LIQUIDITY AND CAPITAL RESOURCES**Operating Activities**

Cash used in operating activities amounted to \$611.4 million and \$618.9 million for the six months ended April 3, 2010 and March 28, 2009, respectively. The use of cash in the first six months of our fiscal year is due to the seasonal nature of our operations. We build inventories in preparation for the spring selling season and accounts receivable increase significantly due to heavy March shipments. The decrease in the use of cash for operating activities during the first half of fiscal 2010 compared to the first half of fiscal 2009 is primarily due to higher net income, partially offset by the first quarter fiscal 2010 payment of variable compensation earned in the prior fiscal year, which was significantly higher than variable compensation paid in the first quarter of fiscal 2009.

Investing Activities

Cash used in investing activities was \$14.3 million and \$28.6 million for the six months ended April 3, 2010 and March 28, 2009, respectively. During the first quarter of fiscal 2010, we received \$23.6 million related to the sale of long-lived assets, including the sale of the intellectual property of Smith & Hawken to an unrelated third party, in addition to the sale of certain property, plant and equipment. Capital spending increased from \$20.1 million in the first half of fiscal 2009 to \$37.9 million in the first half of fiscal 2010. A large portion of the growth relates to additional production capacity being added for a key input to our consumer grass seed business. We had acquisition activity in the first half of fiscal 2009 totaling \$9.3 million. There was no acquisition activity in the first half of fiscal 2010.

Financing Activities

Financing activities provided cash of \$597.1 million and \$611.9 million for the six months ended April 3, 2010 and March 28, 2009, respectively. The cash provided by financing activities reflects borrowing activity primarily to support seasonal investment in working capital. In addition, financing activities included the issuance of the Senior Notes on January 14, 2010, the proceeds of which were used to reduce outstanding borrowings under our senior secured revolving credit facility. The decrease in net cash provided by financing activities in the first half of fiscal

2010 is primarily due to a decrease in net borrowings partially offset by an increase in cash received from the exercise of stock options.

Table of Contents**Borrowing Agreements**

Our primary sources of liquidity are cash generated by operations and borrowings under our credit agreements. In February 2007, Scotts Miracle-Gro and certain of its subsidiaries entered into the following senior secured credit facilities totaling up to \$2.15 billion in the aggregate: (a) a senior secured five-year term loan facility in the principal amount of \$560 million and (b) a senior secured five-year revolving loan facility in the aggregate principal amount of up to \$1.59 billion. Under our current structure, we may request an additional \$200 million in revolving credit and/or term credit commitments, subject to approval from our lenders. Borrowings may be made in various currencies including U.S. dollars, Euros, British pounds, Australian dollars and Canadian dollars. Amortization payments on the term loan portion of the credit facilities began on September 30, 2007 and are due quarterly through 2012. As of April 3, 2010, the cumulative total amortization payments on the term loan were \$173.6 million, reducing the balance of our term loan and effectively reducing the amount outstanding under the credit facilities.

As of April 3, 2010, there was \$837.6 million of availability under the senior secured credit facilities, including letters of credit. Under the revolving loan facility, we have the ability to issue letter of credit commitments up to \$65 million. At April 3, 2010, we had letters of credit in the aggregate face amount of \$31.7 million outstanding.

On January 14, 2010, Scotts Miracle-Gro issued \$200 million aggregate principal amount of 7.25% Senior Notes, the proceeds of which were used to reduce outstanding borrowings under our senior secured revolving credit facility. The Senior Notes represent general unsecured senior obligations of Scotts Miracle-Gro, and were sold to the public at 99.254% of the principal amount thereof, to yield 7.375% to maturity. The Senior Notes have interest payment dates of January 15 and July 15, commencing July 15, 2010, and may be redeemed prior to maturity at applicable redemption premiums. The Senior Notes contain usual and customary incurrence-based covenants, which include, but are not limited to, restrictions on the incurrence of additional indebtedness, the incurrence of liens and the issuance of certain preferred shares, and the making of certain distributions, investments and other restricted payments, as well as other usual and customary covenants, which include, but are not limited to, restrictions on sale and leaseback transactions, restrictions on purchases for or redemptions of Company stock and prepayments of subordinated debt, limitations on asset sales and restrictions on transactions with affiliates. The Senior Notes mature on January 15, 2018. Certain of Scotts Miracle-Gro's domestic subsidiaries serve as guarantors of the Senior Notes. Refer to NOTE 16. FINANCIAL INFORMATION FOR SUBSIDIARY GUARANTORS AND NON-GUARANTORS of the Notes to Condensed, Consolidated Financial Statements for more information regarding the guarantor entities.

At April 3, 2010, we had outstanding interest rate swap agreements with major financial institutions that effectively converted a portion of our variable-rate debt denominated in U.S. dollars to a fixed rate. Interest payments made between the effective date and expiration date are hedged by the swap agreements, except as noted below. The effective dates, expiration dates and rates of these swap agreements are shown in the table below.

NOTIONAL AMOUNT (IN MILLIONS)	EFFECTIVE DATE (a)	EXPIRATION DATE	FIXED RATE
\$ 200	2/14/2007	2/14/2012	5.20%
50	2/14/2012	2/14/2016	3.78%
150(b)	11/16/2009	5/16/2016	3.26%
50(c)	2/16/2010	5/16/2016	3.05%

- (a) The effective date refers to the date on which interest payments are first hedged by the applicable swap contract.

(b) Interest payments made during the six-month period beginning November 14 of each year between the effective date and expiration date are hedged by the swap contract.

(c) Interest payments made during the three-month period beginning February 14 of each year between the effective date and expiration date are hedged by the swap contract.

On April 9, 2008, we entered into a Master Accounts Receivable Purchase Agreement (the 2008 MARP Agreement). The 2008 MARP Agreement provided for the discounted sale, on a revolving basis, of accounts receivable generated by specified account debtors, with seasonally adjusted monthly aggregate limits ranging from \$10 million to \$300 million. The 2008 MARP Agreement also provided for specified account debtor sublimit amounts, which provided limits on the amount of receivables owed by individual account debtors that could be sold to the banks. The 2008 MARP Agreement provided an interest rate that approximated the 7-day LIBOR rate plus 85 basis points. The 2008 MARP Agreement expired by its terms on April 8, 2009.

On May 1, 2009, we entered into a Master Accounts Receivable Purchase Agreement (the 2009 MARP Agreement), with an initial stated termination date of May 1, 2010, or such later date as may be mutually agreed by us and our lender. The 2009 MARP Agreement provided for the discounted sale, on an uncommitted, revolving basis, of accounts receivable generated by a specified account debtor, with aggregate limits not to exceed \$80 million. The 2009 MARP Agreement provided an interest rate that approximated the 7-day LIBOR rate plus 225 basis points. Borrowings under the 2009 MARP Agreement at April 3, 2010 were \$72.3 million.

On May 13, 2010, we entered into a First Amendment (the First Amendment) to the 2009 MARP Agreement with our lender. The First Amendment, which has an effective date of May 1, 2010, extended the stated termination date of the 2009 MARP Agreement through May 12, 2011, or such later date as may be mutually agreed by us and our lender. The 2009 MARP Agreement, as amended by the First Amendment, provides an interest rate that approximates the 7-day LIBOR rate plus 125 basis points. The First Amendment did not otherwise modify any substantive provisions of the 2009 MARP Agreement.

Table of Contents

Contingent consideration related to our May 2006 acquisition of certain brands and assets of Turf-Seed, Inc., a leading producer of quality commercial turfgrasses, is due to the seller in the second half of fiscal 2012. Payment is largely based on the performance of the Company's consumer and professional seed business for the twelve-month period ending May 16, 2012.

As of April 3, 2010, we were in compliance with all debt covenants. Our senior secured credit facilities contain, among other obligations, an affirmative covenant regarding our leverage ratio, calculated as indebtedness relative to our earnings before interest, taxes, depreciation and amortization. Under the terms of the senior secured credit facilities, the maximum leverage ratio was 3.75 as of April 3, 2010 and is scheduled to decrease to 3.50 on September 30, 2010. Our senior secured credit facilities also include an affirmative covenant regarding our interest coverage. Under the terms of the senior secured credit facilities, the minimum interest coverage ratio was 3.50 for the twelve months ended April 3, 2010. We continue to monitor our compliance with the leverage ratio, interest coverage ratio and other covenants contained in the senior secured credit facilities and, based upon our current operating assumptions, we expect to remain in compliance with the permissible leverage ratio and interest coverage ratio throughout fiscal 2010. However, an unanticipated charge to earnings, an increase in debt or other factors could materially adversely affect our ability to remain in compliance with the financial or other covenants of our senior secured credit facilities, potentially causing us to have to seek an amendment or waiver from our lending group which could result in repricing of our senior secured credit facilities. While we believe we have good relationships with our banking group, we can provide no assurance that such a request would be likely to result in a modified or replacement credit facility on reasonable terms, if at all.

Judicial and Administrative Proceedings

Apart from the proceedings surrounding the FIFRA compliance matters, which are discussed separately, we are party to various pending judicial and administrative proceedings arising in the ordinary course of business, including, among others, proceedings based on accidents or product liability claims and alleged violations of environmental laws. We have reviewed these pending judicial and administrative proceedings, including the probable outcomes, reasonably anticipated costs and expenses, and the availability and limits of our insurance coverage, and have established what we believe to be appropriate reserves. We do not believe that any liabilities that may result from these pending judicial and administrative proceedings are reasonably likely to have a material adverse effect on our financial condition, results of operations or cash flows; however, there can be no assurance that future quarterly or annual operating results will not be materially affected by final resolution of these matters.

Liquidity

In our opinion, cash flows from operations and capital resources will be sufficient to meet debt service and working capital needs during fiscal 2010, and thereafter for the foreseeable future. However, we cannot ensure that our business will generate sufficient cash flow from operations or that future borrowings will be available under our credit facilities in amounts sufficient to pay indebtedness or fund other liquidity needs. Actual results of operations will depend on numerous factors, many of which are beyond our control.

REGULATORY MATTERS

We are subject to local, state, federal and foreign environmental protection laws and regulations with respect to our business operations and believe we are operating in substantial compliance with, or taking actions aimed at ensuring compliance with, such laws and regulations. Apart from the proceedings surrounding the FIFRA compliance matters, which are discussed separately, we are involved in several legal actions with various governmental agencies related to environmental matters, including those described in NOTE 11. CONTINGENCIES of the Notes to Condensed, Consolidated Financial Statements. While it is difficult to quantify the potential financial impact of actions involving these environmental matters, particularly remediation costs at waste disposal sites and future capital expenditures for environmental control equipment, in the opinion of management, the ultimate liability arising from such environmental matters, taking into account established reserves, should not have a material adverse effect on our financial position, results of operations or cash flows. However, there can be no assurance that the resolution of these matters will not materially affect our future quarterly or annual results of operations, financial condition or cash flows. Additional information on environmental matters affecting us is provided in Scotts Miracle Gro's Annual Report on Form 10-K for the fiscal year ended September 30, 2009, under ITEM 1. BUSINESS Regulatory Considerations,

ITEM 1. BUSINESS FIFRA Compliance, the Corresponding Governmental Investigations and Similar Matters,
ITEM 1. BUSINESS Other Regulatory Matters and ITEM 3. LEGAL PROCEEDINGS.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preceding discussion and analysis of our consolidated results of operations and financial condition should be read in conjunction with our condensed, consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. Scotts Miracle-

Table of Contents

Gro's Annual Report on Form 10-K for the fiscal year ended September 30, 2009 includes additional information about us, our operations, our financial condition, our critical accounting policies and accounting estimates, and should be read in conjunction with this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks have not changed significantly from those disclosed in Scotts Miracle-Gro's Annual Report on Form 10-K for the fiscal year ended September 30, 2009.

ITEM 4. CONTROLS AND PROCEDURES

With the participation of the principal executive officer and principal financial officer of The Scotts Miracle-Gro Company (the Registrant), the Registrant's management has evaluated the effectiveness of the Registrant's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the

Exchange Act)) as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Registrant's principal executive officer and principal financial officer have concluded that:

(A) information required to be disclosed by the Registrant in this Quarterly Report on Form 10-Q and the other reports that the Registrant files or submits under the Exchange Act has been accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure;

(B) information required to be disclosed by the Registrant in this Quarterly Report on Form 10-Q and the other reports that the Registrant files or submits under the Exchange Act has been recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and

(C) the Registrant's disclosure controls and procedures were effective as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q.

In addition, there were no changes in the Registrant's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the Registrant's fiscal quarter ended April 3, 2010 that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Other than as discussed in NOTE 3. PRODUCT REGISTRATION AND RECALL MATTERS and NOTE 11. CONTINGENCIES of the Notes to Condensed, Consolidated Financial Statements, pending material legal proceedings have not changed significantly since those disclosed in Scotts Miracle-Gro's Annual Report on Form 10-K for the fiscal year ended September 30, 2009.

ITEM 1A. RISK FACTORS

Cautionary Statement on Forward-Looking Statements

We have made and will make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, in this Quarterly Report on Form 10-Q and in other contexts relating to matters including future growth and profitability targets and strategies designed to increase total shareholder value. Forward-looking statements also include, but are not limited to, information regarding our future economic and financial condition and results of operations, the plans and objectives of our management and our assumptions regarding our performance and these plans and objectives.

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements to encourage companies to provide prospective information, so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those discussed in the forward-looking statements. We desire to take advantage of the safe harbor provisions of that Act.

Some forward-looking statements that we make in this Quarterly Report on Form 10-Q and in other contexts represent challenging goals for the Company, and the achievement of these goals is subject to a variety of risks and assumptions and numerous factors

Table of Contents

beyond our control. Important factors that could cause actual results to differ materially from the forward-looking statements we make are included in ITEM 1A. RISK FACTORS in Scotts Miracle-Gro's Quarterly Report on Form 10-Q for the quarterly period ended January 2, 2010. All forward-looking statements attributable to us or persons working on our behalf are expressly qualified in their entirety by those cautionary statements.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**(c) Issuer Purchases of Equity Securities**

The following table shows the purchases of common shares of Scotts Miracle-Gro (Common Shares) made by or on behalf of Scotts Miracle-Gro or any affiliated purchaser (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended) of Scotts Miracle-Gro for each fiscal month in the three months ended April 3, 2010:

Period	Total Number of Common Shares Purchased (1)	Average Price Paid per Common Share	Total Number of Common Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Common Shares That May Yet Be Purchased Under the Plans or Programs
January 3 through January 30, 2010	125	\$ 39.25	0	Not applicable
January 31 through February 27, 2010	748	\$ 38.80	0	Not applicable
February 28 through April 3, 2010	4	\$ 45.98	0	Not applicable
Total	877	\$ 39.56	0	Not applicable

(1) Amounts in this column represent Common Shares purchased by the trustee of the rabbi trust established by the Company as permitted pursuant to the terms of The Scotts Company LLC Executive Retirement Plan (the ERP). The ERP is an unfunded,

non-qualified
deferred
compensation
plan which,
among other
things, provides
eligible
employees the
opportunity to
defer
compensation
above specified
statutory limits
applicable to
The Scotts
Company LLC
Retirement
Savings Plan
and with respect
to any
Executive
Management
Incentive Pay,
Performance
Award (each as
defined in the
ERP) or other
bonus awarded
to such eligible
employees.
Pursuant to the
terms of the
ERP, each
eligible
employee has
the right to elect
an investment
fund, including
a fund
consisting of
Common Shares
(the Scotts
Miracle-Gro
Common Stock
Fund), against
which amounts
allocated to
such employee s
accounts under
the ERP will be
benchmarked

(all ERP accounts are bookkeeping accounts only and do not represent a claim against specific assets of the Company). Amounts allocated to employee accounts under the ERP represent deferred compensation obligations of the Company. The Company established the rabbi trust in order to assist the Company in discharging such deferred compensation obligations. When an eligible employee elects to benchmark some or all of the amounts allocated to such employee's accounts against the Scotts Miracle-Gro Common Stock Fund, the trustee of the rabbi trust purchases the number of Common Shares equivalent to the amount so benchmarked. All Common Shares

purchased by the trustee are purchased on the open market and are held in the rabbi trust until such time as they are distributed pursuant to the terms of the ERP. All assets of the rabbi trust, including any Common Shares purchased by the trustee, remain, at all times, assets of the Company, subject to the claims of its creditors. The terms of the ERP do not provide for a specified limit on the number of Common Shares that may be purchased by the trustee of the rabbi trust.

None of the Common Shares purchased during the three months ended April 3, 2010 were purchased pursuant to a publicly announced plan or program.

ITEM 5. OTHER INFORMATION

On May 13, 2010, the Company and its lender entered into a First Amendment to the Master Accounts Receivable Purchase Agreement between the Company and its lender (as so amended, the Amended 2009 MARP). The Amended 2009 MARP has an effective date of May 1, 2010 and a stated termination date of May 12, 2011, or such later date as may be mutually agreed by the Company and its lender. The Amended 2009 MARP provides for the discounted sale,

on an uncommitted, revolving basis, of accounts receivable generated by a specified account debtor, with aggregate limits not to exceed \$80 million. The Amended 2009 MARP provides an interest rate that approximates the 7-day LIBOR rate plus 125 basis points.

The foregoing description of the Amended 2009 MARP is qualified in its entirety by reference to the full text of (i) the Master Accounts Receivable Purchase Agreement, dated as of May 1, 2009, between the Company and its lender, a copy of which is included as Exhibit 10.1 to the Company's Current Report on Form 8-K filed May 6, 2009 and is incorporated herein by reference and (ii) the First Amendment to the Master Accounts Receivable Purchase Agreement, a copy of which is included as Exhibit 10.6 to this Quarterly Report on Form 10-Q and is incorporated herein by reference.
