PROXY STATEMENT

Our 2001 annual meeting of stockholders will be held on Tuesday, April 17, 2001, at 9:30 a.m., Chicago time, at The Madison Room, 181 W. Madison Street, 7th Floor, Chicago, Illinois. You are welcome to attend.

Information about this Proxy Statement

We are sending this proxy statement and the enclosed proxy card because Whirlpool's Board of Directors is seeking your permission (or proxy) to vote your shares at the annual meeting on your behalf. This proxy statement presents information we are required to provide to you under the rules of the Securities and Exchange Commission. It is intended to help you in reaching a decision on voting your shares of stock. Only stockholders of record at the close of business on March 2, 2001 are entitled to vote at the meeting. There were 66,578,475 outstanding shares of common stock as of the close of business on March 2, 2001. We have no other voting securities. Stockholders are entitled to one vote per share on each matter. This proxy statement and the accompanying proxy form are first being mailed to stockholders on or about March 13, 2001.

Information about Voting

Stockholders can vote their shares on matters presented at the annual meeting in two ways.

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

1. By Proxy--If you sign and return the accompanying proxy form, your shares will be voted as you direct on the proxy form. If you do not give any direction on the proxy card, the shares will be voted FOR the nominees named for director. You may revoke your proxy at any time before it is exercised by providing a written revocation to Whirlpool's Corporate Secretary, Robert T. Kenagy, by providing a proxy with a later date, or by voting in person at the meeting.

2. In Person--You may come to the annual meeting and cast your vote there.

Whirlpool's Board of Directors has adopted a policy requiring all stockholder votes to be kept permanently confidential and not disclosed except (i) when disclosure is required by law, (ii) when a stockholder expressly consents to disclosure, or (iii) when there is a contested election and the proponent filing the opposition statement does not agree to abide by this policy.

Stockholders representing at least 50% of the common stock issued and outstanding must be present at the annual meeting, either in person or by proxy, for there to be a quorum at the annual meeting. Abstentions and broker non-votes are counted as present for establishing a quorum. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

The four directors to be elected at the annual meeting will be elected by a plurality of the votes cast by the stockholders present in person or by proxy and entitled to vote. This means that the four nominees with the most votes will be elected. Votes may be cast for or withheld from each nominee, but a withheld vote or a broker non-vote will have no effect on the outcome of the election. For a stockholder to nominate an individual for director at the meeting, the stockholder must give the

Company's Secretary written notice at least 90 days in advance of the annual meeting of the stockholder's intent to make the nomination.

The Board of Directors does not know of any other matter that will be presented at the annual meeting other than the items covered in this proxy statement.

STOCK OPTION GRANTS AND RELATED INFORMATION

Stock Option Grants in 2000

The table below provides information on grants of stock options during 2000 for the Chief Executive Officer and the four other most highly compensated executive officers of the Company.

OPTION GRANTS IN 2000 ASSUMED STOCK PRICE APPRECIATION

Name	Individual Grants in 2000				Potential Realizable Assumed Annual Rates Price Appreciation for Option Term(1)

All Stockholders	N/A	N/A	N/A	N/A		1,992,035,961	
All Optionee Gain as a % of all Stockholder Gain							3.34%

- (1) Potential pre-tax realizable value is based on the assumption that the stock price appreciates from the exercise price at the annual rates of appreciation shown in the table over the option term (10 years). This is a theoretical value. The actual realized value depends on the market value of the Company's stock at the exercise date. All calculations are based on shares outstanding as of December 31, 2000.
- (2) Based on 2,223,935 options granted to 573 employees in 2000. No gain to the optionees is possible without an increase in the common stock price.
- (3) Fair market value on the date of grant.
- (4) Options generally become exercisable in installments of 50% one year after the date of grant and the remaining 50% two years after the grant date, with all options becoming exercisable upon a Change in Control. A Change in Control is generally defined to include the acquisition by any person or group of 15% or more of Whirlpool's voting securities, a change in the composition of the Board such that the existing Board or persons who were approved by a majority of such Board members or their successors on the existing Board cease to constitute a majority of the Board, and approval by the stockholders of an acquisition or liquidation of Whirlpool. Options

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

granted on 9/19/2000 will expire in 2005, with options becoming exercisable in three installments: 30% one year after the date of grant, 30% two years after the grant date, and the remaining 40% three years after the grant date.

- (5) Using the option exercise price (\$52.19), per share price of common stock would be \$85.01 assuming no stock splits or stock dividends.
- (6) Using the option exercise price (\$52.19), per share price of common stock would be \$135.37 assuming no stock splits or stock dividends.
- (7) Using the average option exercise price for the year (\$47.57), per share price of common stock would be \$77.49 assuming no stock splits or stock dividends.
- (8) Using the average option exercise price for the year (\$47.57), per share price of common stock would be \$123.38 assuming no stock splits or stock dividends.

			Target (#)	Maximum (#)

Mark E. Brown	7,176	2000-2002	7,176	7,176

- (1) During 2000, Whirlpool made one award that has a three-year performance period under its Executive Stock Appreciation and Performance Program to each participant. Performance share awards are for a number of "contingent shares" and are based on a participant's base salary and the market price of the common stock. All awards identified in this table were made pursuant to one or more of Whirlpool's Omnibus Stock and Incentive Plans.
- (2) Final awards for Messrs. Whitwam, Fettig, Thieneman, and Brown will not exceed the contingent shares shown in column 1 and will be made based on the Company achieving an improvement target in the economic value added ("EVA") financial measurement. The final award for Mr. Periquito will be determined by multiplying the number of contingent shares by 0% to 200% (100% is the target award amount and 200% is the maximum award amount) based on the Company meeting certain financial, customer, and employee related objectives for each cycle. Future payouts, if any, will be made in common stock, cash, or a combination of both, as determined by the Human Resources Committee of the Board of Directors. If all or any portion of the award is paid in cash, the amount will be determined by multiplying the final number of shares earned by the percentage of the award to be paid in cash and multiplying this product by the market price of the common stock at the end of the performance period. Payments may be deferred with the Committee's consent.

AGREEMENTS WITH EXECUTIVE OFFICERS

Whirlpool has agreements with its executive officers that provide severance benefits if, within two years following a Change in Control, the executive officer's employment is terminated either by Whirlpool (other than for cause, as defined) or by the officer for good reason (as defined), or, voluntarily during the 13th month following a Change in Control. Benefits include continuation of salary for at least 90 days after notification of termination of employment, severance pay equal to three times annual compensation, (generally defined as base salary plus target annual bonus), plus an amount to compensate the individual for excise taxes, if any, arising out of the severance pay. Under certain circumstances, the agreements provide for continuing participation for up to three years in insurance and other employee welfare benefit plans and, in the case of defined benefit retirement plans, provide for three years additional age and service credits for purposes of vesting and computing benefits. The term of each agreement is two years and thereafter the agreement may be terminated as of the end of any year upon 90 days prior notice but not for 24 months after a Change in Control. A Change in Control is generally defined to include the acquisition by any person or group of 15% or more of Whirlpool's voting securities, a change in the composition of the Board such that the existing Board or persons who were approved by a majority of such Board members or their successors on the existing Board cease to constitute a majority of the Board, and approval by the stockholders of an acquisition or liquidation of Whirlpool.

RETIREMENT BENEFITS

Whirlpool's non-contributory defined benefit retirement plan (the "Retirement Plan") covers substantially all of our U.S. based salaried employees. Upon reaching the normal retirement age of 65, each vested participant is eligible to receive an annual pension for life equal to 2% of annual base salary, averaged over the 60 consecutive calendar months during which pay was highest

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

out of the last 120 months completed before age 65, for each year of credited service (up to a maximum of 30 years). For participants with five or more years of service, reduced benefits are payable upon early retirement or termination of employment after age 55. For five years following a Change in Control, Whirlpool may not terminate the retirement plan or amend or merge it with another plan in a manner that would reduce benefits. If the Retirement Plan is terminated (including a termination by operation of law) during this five-year period, any assets held under the plan in excess of the amount needed to fund accrued benefits would be used to provide additional benefits to plan participants. We also have supplemental retirement plans that (i) provide to certain employees, including executive officers, additional benefits generally similar to those under the Retirement Plan but based upon an average of the five highest total amounts of bonuses paid from our bonus plans during the ten years prior to retirement and (ii) maintain benefits at the levels set forth in the table below which are otherwise limited under the Retirement Plan by the Employment Retirement Income Security Act of 1974.

10

The following table sets forth the estimated annual pension benefits payable under the Retirement Plan and supplemental plans (as described above) upon retirement at age 65 after selected periods of service.

* The amounts set forth in the table are on the basis of a straight life annuity and are not subject to reduction for Social Security benefits or other payments. The maximum number of years of service for which pension benefits accrue is 30. Messrs. Whitwam, Fetting, Thieneman, and Brown had approximately 33, 20, 24, and 27 years respectively, of eligible service at December 31, 2000, and their covered compensation under the plans for 2000 was equal to the base salary and bonus set forth in the Summary Compensation Table.

Mr. Periquito is entitled to a Brazilian pension benefit under the employment agreement with Whirlpool that will provide him with a retirement payment of 85% of his basic monthly salary at age 60 assuming he is a participant under the relevant Brazilian pension plan for 10 years. Under that plan, Mr. Periquito would receive a disability retirement payment of 70% of the value of the retirement benefit, and if he dies, his widow would receive a pension payment of 50% of the value of the retirement benefit. In addition, underage children would receive 30% of the value of the retirement benefit in the event

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

of Mr. Periquito's death. Mr. Periquito is required to participate in the cost of his pension benefit at the rate of 15% of the monthly cost of the plan, up to a limit of 8% of his basic salary.

11

COMPENSATION OF DIRECTORS

Directors who are not employees of Whirlpool are paid an annual fee of \$24,000 and \$1,000 for each Board and committee meeting attended (\$1,500 if chairperson). A nonemployee director may elect to defer any portion of director compensation until he or she ceases to be a director, at which time payment is made in a lump sum or in monthly or quarterly installments. Interest on deferred amounts accrues quarterly at a rate equal to the prime rate in effect from time to time. Each director may elect to relinquish all or a portion of the annual fee, in which case Whirlpool may at its sole discretion then make an award of up to \$1 million to a charitable organization upon the director's death. Under the program, the election to relinquish compensation is irrevocable, and Whirlpool may choose to make contributions in the director's name to as many as three charities. Each director may also elect to have a portion of the annual fee used to purchase term life insurance in excess of that described in the next paragraph.

Whirlpool provides each nonemployee director who elects to participate with term life insurance while a director in an amount equal to one-tenth of the annual director's fee times such director's months of service (not to exceed 120) and a related income tax reimbursement payment. We also provide each nonemployee director with travel accident insurance of \$1 million with the premiums paid by us, and directors are reimbursed for the related income tax. For evaluation purposes, appliances sold by us are made available to each nonemployee director for use at home, and the director receives an income tax reimbursement payment to compensate for any additional tax obligation. The cost to Whirlpool of this arrangement in 2000 (based on distributor price of products and delivery, installation, and service charges) did not exceed \$13,500 for any one nonemployee director or \$19,500 for all nonemployee directors as a group.

Whirlpool also has a Nonemployee Director Stock Ownership Plan. This plan provides, effective on the date of each annual stockholders meeting, for an automatic grant to each nonemployee director of 400 shares of common stock and an option to purchase 600 shares of common stock if our earnings from continuing operations for the immediately preceding year increased by at least 10% over such earnings for the prior year. The exercise price under each option is the average fair market value (as defined) of the common stock for the third through fifth trading days after the public release of our earnings for such prior year. These options may be exercised for 20 years after issuance (except that they must be exercised within five years after ceasing to be a director and within one year after the death of the director). The exercise price may be paid in cash or common stock. In addition, each nonemployee director is awarded annually 400 shares of phantom common stock, payable on a deferred basis. The shares of phantom common stock earn phantom dividends and the total accumulated phantom stock awards and phantom dividends are converted into Whirlpool's common stock on a one-for-one basis and paid out to the nonemployee director following completion of service on the Board.

HUMAN RESOURCES COMMITTEE REPORT ON COMPENSATION AWARDS

The Human Resources Committee of the Board of Directors has furnished the

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

following report on executive compensation for 2000.

Whirlpool is dedicated to global leadership and to delivering superior stockholder value. Whirlpool's executive compensation philosophy is designed to support these objectives by attracting and retaining the best possible management talent and by motivating these employees to achieve business and financial goals that create value for stockholders in a manner consistent with Whirlpool's focus on four enduring values: respect, integrity, diversity, and teamwork. Our "pay for performance" philosophy is centered around the following points:

- . Compensation should be incentive driven with both short and long-term focus;
- . More pay should be at risk than with the average company;
- . Components of compensation should be tied to increasing stockholder value; and
- . Compensation should be tied to a balanced evaluation of corporate and individual performance measured against financial, customer, and employee related objectives--a "balanced scorecard" approach.

The Committee is responsible for the design, administration, and effectiveness of the compensation plans for management employees, including senior executives.

SALARY

Salary levels and salary increase guidelines are based on competitive market reviews conducted with the assistance of outside consultants. Comparison companies are blue chip companies that are similar to Whirlpool in a variety of respects, such as companies that compete with Whirlpool; tend to have national and international business operations; or are similar in sales volumes, market capitalizations, employment levels, lines of business, and business organization and structure. This group of companies ("peer group") is used to define the market for each component of pay as well as total compensation. The peer group companies chosen for the competitive market review are not entirely the same as those that comprise Standard & Poor's Household Furniture and Appliance Group shown in the Performance Graph because the Committee believes that Whirlpool's most direct competitors for executive talent are not necessarily limited to the companies included in the published industry index. Base salary for Mr. Whitwam and other executive officers is targeted at the median of the base salaries for officers in the peer group companies, after adjusting for size of the companies. Base salary increases for the year ranged between 0% and 14.3% for the named executive officers. Mr. Whitwam received a 4.7% salary increase on March 1, 2000. The increases reflected both moves in market salaries as well as the executives' individual performance (as discussed below) against specific objectives. With respect to Mr. Whitwam's individual performance objectives during 2000, the Committee assessed his performance in the areas of leadership, managerial and organizational effectiveness, value creation, Whirlpool's overall financial performance, and executive talent development. The Committee determined that Mr. Whitwam had met his objectives on balance in these areas.

ANNUAL INCENTIVE COMPENSATION

The Performance Excellence Plan ("PEP") provides all regular exempt and some non-exempt employees with an annual incentive designed to focus their attention on stockholder value creation, drive performance in support of this goal and other business goals, and reflect individual performance (except for designated executive officers) as measured against financial, customer, and

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

employee related objectives. For 2000, target awards ranging from 5% to 110% of base salary were established by the Committee.

13

For 2000, performance measures were established for the following financial indicators: economic value added (EVA), net earnings, and cash flow. To align with the Company's brand-focused value creation strategy (BFVC), the Committee established performance measures addressing customer results in the areas of brand value, brand drivers, and brand equity (all indicators or drivers of the "strength" of our brands in the marketplace). The Committee also established measurements for employee results in the areas of education and training linked to the BFVC strategy implementation and transition to the Customer Focused Performance Model, as well as valuing diversity, and the development of Whirlpool's talent pool. These performance measures were selected based on the Committee's belief that improving such measures correlates to increasing value to stockholders. Achievement of individual business and behavioral performance goals is also a factor in determining PEP payouts for all employees other than designated executive officers. In addition, up to 10% of PEP eligible employees (excluding officers) are eligible for an outstanding contributor bonus equal to 25%, 50%, or 75% of their target PEP bonus.

Unlike other employees, individual performance cannot be recognized under PEP for designated executive officers except for purposes of reducing an award because of Section 162(m) of the Internal Revenue Code (discussed further at the end of this report). Because the Committee strongly believes that individual performance assessment has been and will continue to play a critical role in driving the Company's successful performance, the Committee adopted in 1994 the Executive Officer Bonus Plan ("EOBP") which provides the Committee with discretion to grant bonus payouts to designated executive officers in recognition of strong individual performance. In 2000, only Messrs. Whitwam, Fettig, Thieneman, and Brown were designated as executive officers for purposes of PEP and eligible to participate in the EOBP.

The PEP plan is designed to provide total direct compensation that is above the mean of the peer group when the target level of stretch performance is achieved. The plans utilized for designated executive officers are designed to achieve the same compensation objective.

For Messrs. Whitwam, Fettig, Thieneman, and Brown, a corporate performance target based on return on equity was established. Because the Company exceeded this financial performance target, these executive officers earned a PEP award for 2000 as set forth in the Summary Compensation Table based on the Committee's evaluation of the Company's performance measured against the financial, customer and employee objectives and the individual performance of the officer under the Committee's balanced scorecard approach. No awards were made under EOBP for 2000.

LONG-TERM INCENTIVES

Our long-term incentive programs are comprised of the Stock Option Program, the Executive Stock Appreciation and Performance Program, the Restricted Stock Value Program, and the Career Stock Program, all of which are authorized under one or more of Whirlpool's Omnibus Stock and Incentive Plans. Grants under both the Stock Option and Executive Stock Appreciation and Performance Programs are typically made each year. The long-term incentive programs are intended to provide rewards to executives only if significant additional value is created for stockholders over time. Further, these stock-based plans are designed to encourage a significant ownership interest in Whirlpool to help assure that the interests of the executives are closely aligned to those of other stockholders and to provide incentives for the executives to remain with

Whirlpool.

Stock Option Program Option grants in 2000 were made under one or more of Whirlpool's Omnibus Stock and Incentive Plans and were based on our analysis of competitive award sizes, along with adjustments reflecting individual performance as evaluated by the Committee with respect to the Chief Executive Officer, and by the Chief Executive Officer as approved by the Committee with respect to the other four named executive officers. In making final awards, the Committee considered the optionee's scope of responsibility and opportunity to affect Whirlpool's future success, strategic and operational goals, individual contributions, and the number of options previously awarded and currently held. Grants were issued with an exercise price equal to the fair market value of the stock at the time of grant.

14

Mr. Whitwam's 2000 option grant, as noted in the Summary Compensation Table, was made separately and at the sole discretion of the Committee primarily based on its competitiveness with the marketplace, but also taking into account the Committee's assessment of his individual performance.

Executive Stock Appreciation and Performance Program ("ESAP") ESAP provides senior management with incentives to significantly improve the long-term performance of Whirlpool and increase stockholder value over time. The compensation opportunities under the program are tied directly to the financial performance of Whirlpool over a preset period, normally three years, beginning each January 1. In combination with other elements of compensation, award sizes are designed to provide competitive total compensation that exceeds the market when stretch target performance is met. A payout was earned by Mr. Whitwam under the 1998-2000 ESAP cycle based on the Committee's evaluation of the Company's performance measured against the EVA improvement financial target established at the beginning of the performance period. The final payout of this grant, along with those of other named executive officers, is included in the column labeled "LTIP Payouts" in the Summary Compensation Table and is based on the Committee's evaluation of Company performance against the financial, customer, and employee objectives established for the Company and the individual effort of each officer. The payout was made in 2001.

In 2000, a grant was made under this program from one or more of Whirlpool's Omnibus Stock and Incentive Plans. The grant is for a three-year cycle ending December 31, 2002, and payout is contingent upon achieving a specific EVA target over the performance period. The contingent shares granted to the named executive officers in 2000 under the 2000-2002 ESAP cycle (as disclosed in the Long-Term Incentive Plan Awards table) were calculated based on the competitive objective for ESAP target award sizes.

Restricted Stock Value Program (the "RSVP Program") Under the RSVP Program, selected senior management employees are granted restricted stock to link their performance with the long term financial success of the Company and the creation of shareholder value. Recipients of restricted stock are selected by the Committee based on their organizational level and ability to affect Company performance. The Committee can set restrictions based upon the lapse of time and/or achievement of performance goals, and grants can be made under one or more of Whirlpool's Omnibus Stock and Incentive Plans. There were no grants of restricted stock under the RSVP Program to the named executive officers in 2000, and there were no shares of restricted stock granted to all executive officers as a group in 2000.

Career Stock Program (the "Career Stock Program") The Career Stock Program was established to provide one-time grants of phantom stock to select key

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

executives as a means of retaining those executives and encouraging long-term employment. Recipients and award sizes are based on subjective determinations relating to a broad range of factors. The shares do not represent an equity interest in Whirlpool, and no voting rights attach to the shares until and unless they are distributed to the participant. Grants are made under one or more of Whirlpool's Omnibus Stock and Incentive Plans. The value of a share of Career Stock on any given date is equal to the fair market value of a share of common stock on that date. Recipients of Career Stock will receive one share of common stock for each share of phantom stock on a one-for-one basis upon retirement after attaining the age of 60 or upon termination of employment, based on individual vesting schedules and subject to certain non-competition provisions in the contract. Phantom Career Stock dividends are invested in additional phantom shares to be awarded in the same manner as the original awards. Mr. Whitwam does not participate in this program. There were no shares of Career Stock grants to the named executive officers in 2000, and no shares of Career Stock were granted to all executive officers as a group in 2000.

OWNERSHIP GUIDELINES

In 1995, management adopted, with the Committee's approval, stock ownership guidelines to support the objective of increasing the amount of stock owned by the most senior group of executives

15

(approximately 100 individuals). The guidelines for stock ownership are based on an individual's level in the organization and range from seven times base salary for the Chief Executive Officer to one times base salary for lower level executives.

TAX CODE LIMITATION ON EXECUTIVE COMPENSATION DEDUCTIONS

The Internal Revenue Code imposes a \$1 million deduction limit on compensation paid to executives named in the compensation section of the proxy statements of public companies, subject to certain transition rules and exceptions for non-discretionary performance based plans approved by stockholders.

The Committee intends to preserve the tax deductibility of executive compensation to the extent practicable while focusing on consistency with its compensation policies, the needs of Whirlpool, and stockholder interests.

The Committee retains the discretion to reward strong individual performance of designated executive officers under the EOBP. The Committee believes this ability to exercise discretion is in the best interest of Whirlpool and its stockholders and outweighs the need to qualify the EOBP so that amounts paid from this plan are exempt from the deductibility limits of Section 162(m). Accordingly, pay for individual performance under EOBP will generally not qualify under Section 162(m) and may not be fully deductible.

SUMMARY

We, the Human Resources Committee of Whirlpool, believe a strong link exists between executive pay and performance at Whirlpool.

AUDIT COMMITTEE REPORT

The Audit Committee provides independent oversight of the Company's accounting functions and monitors the objectivity of the financial statements prepared under the direction of Whirlpool's management. In addition, the Committee reviews major accounting policy changes by Whirlpool, reviews and approves the scope of the annual internal and independent audit processes, monitors nonaudit services provided by the independent auditors, and monitors Company activities designed to assure compliance with the Company's ethical standards. The Committee is composed of five directors who are "independent" as that term is defined under the New York Stock Exchange listing requirements. The Committee operates under a written charter (included in this proxy statement as Exhibit A) adopted by the Company's Board of Directors.

The Committee has reviewed the audited consolidated financial statements of the Company for 2000 with management, who has represented to the Committee that these financial statements were prepared in accordance with generally accepted accounting principles. The Committee discussed with management the quality and the acceptability of the accounting principles employed, the reasonableness of judgments made, and the clarity of the disclosures included in the statements.

The Committee also reviewed the consolidated financial statements of the Company for 2000 with Ernst & Young, the Company's independent auditors for 2000, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles. Further, the Committee reviewed with Ernst & Young their judgments as to the quality, not just the acceptability, of the Company's accounting principles. In addition, the Committee met with Ernst & Young, with and without management present, to discuss the results of their examinations,

18

their valuations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee discussed with Ernst & Young the matters required to be discussed by the Statement on Auditing Standards No. 61, Communication with Audit Committees.

The Committee has received the written disclosures and the letter from Ernst & Young required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) and has discussed with Ernst & Young its independence. The Committee considered the compatibility of nonaudit services provided by Ernst & Young to the Company with Ernst & Young's independence.

Edgar Filing: WHIRLPOOL CORP /DE/ - Form DEF 14A

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, the inclusion of the consolidated financial statements in the Annual Report on Form 10-K for the year ended 2000 for filing with the Securities and Exchange Commission. The Committee has recommended, and the Board has approved, the selection of Ernst & Young as the Company's independent auditors for 2001.
