PROXY STATEMENT

General

This proxy statement is furnished in connection with the solicitation by our Board of Directors of proxies of shareholders for shares to be voted at the Annual Meeting of Shareholders to be held on Tuesday, May 9, 2006, and any and all adjournments thereof.

Any shareholder executing a proxy has the right to revoke it at any time prior to its exercise by giving notice to our Secretary.

This proxy statement and the accompanying proxy are being mailed or given to our shareholders on or about April 4, 2006.

VOTING SECURITIES

All shareholders of record as of the close of business on March 21, 2006, are entitled to vote at the Annual Meeting or any adjournment thereof upon the matters listed in the Notice of Annual Meeting. Each shareholder is entitled to one vote for each share held of record on that date. As of the close of business on March 21, 2006, a total of 250,209,834 shares of our common stock were outstanding.

Shares represented by a proxy will be voted according to the instructions, if any, given in the proxy. Unless otherwise instructed, the person or persons named in the proxy will vote:

FOR the election of the nine nominees for directors listed herein (or their substitutes in the event any of the nominees is unavailable for election);

FOR the ratification of KPMG as the Company's independent accountants; and

FOR their discretion with respect to such other business as properly may come before the Annual Meeting.

To vote your proxy by mail, mark your vote on the enclosed proxy card; then follow the directions on the card. To vote your proxy using the Internet or by telephone, see the instructions on the enclosed proxy card. Your shares will be voted according to your directions. If you do not mark any selections, your shares will be voted as recommended by the Board of Directors.

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspectors of election appointed by us for the meeting. The number of shares represented at the meeting in person or by proxy will determine whether or not a quorum is present. The inspectors of election will treat abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum but as unvoted for purposes of determining the approval of any matter submitted to the shareholders for a vote. If a broker indicates on the proxy that it does not have discretionary authority as to certain shares to vote on a particular matter, those shares will not be considered as present and entitled to vote by the inspectors of election with respect to that matter.

We will bear the cost of soliciting proxies. Proxies may be solicited by directors, officers or regular employees in person or by telephone or telegram. We have retained Morrow & Company, Inc., New York, New York, to assist in the solicitation of proxies. Morrow & Company's charge will be \$5,000 plus out-of-pocket expenses.

Committees of the Board of Directors

Our Board of Directors met 6 times during 2005. We have an Audit Committee comprised solely of outside directors and presently consisting of Messrs. Curran (Chairman), Robinson, Thompson and Winterer. The Audit Committee is responsible for reviewing and reporting to the Board of Directors with respect to various auditing and accounting matters, including the selection of our independent public accountants, the scope of the audit procedures, the nature of all audit and non-audit services to be performed, the performance of our independent accountants and our accounting practices and policies. The Audit Committee met 11 times during 2005.

The Board also has a Compensation Committee, comprised solely of outside directors and presently consisting of Messrs. Thompson (Chairman), Andrus, Mellor and Robinson. The Compensation Committee is responsible for determining the annual compensation of the Company's executive officers and directors, overseeing the Company's stock incentive plans and other executive benefit plans and providing guidance in the area of certain employee benefits. The Compensation Committee met 4 times during 2005.

The Board has a Nominating and Corporate Governance Committee consisting of Messrs. Mellor (Chairman), Thompson, Andrus and Winterer. The Nominating and Corporate Governance Committee is responsible for proposing nominees for the Board of Directors, the establishment of corporate governance guidelines and related corporate governance matters. The Nominating Committee met 4 times during 2005.

Our Board also has an Executive Committee on which Messrs. Wheeler, Curran, Mellor, Robinson, Winterer, Lundquist, and Vitale currently serve. The Executive Committee is authorized to act in the place of the Board of Directors on limited matters that require action between Board meetings.

Except for Dennis E. Wheeler, Andrew Lundquist and Alex Vitale, each of the directors, including each of the members of the Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee, are independent directors within the meaning of applicable New York Stock Exchange listing standards and rules. For a director to be deemed independent under NYSE rules, the Board must affirmatively determine that the director has no material relationship with the Company (either directly or as a partner, shareholder, or officer of an organization that has a relationship with the Company). In addition, the director (and member of his immediate family) must meet the following technical independence rules: within the last three years:

The director has not been employed by the Company, and no immediate family member has been an executive officer of the Company;

The director (or an immediate family member, other than one who is a non-executive employee of the Company) has not received, during any 12-month period, more than \$100,000 in direct compensation from the Company (other than director and committee fees, and pension and other forms of deferred compensation for prior service);

The director (or an immediate family member) has not been employed as an executive officer of another organization where any of the company's present officers serve on that organization's compensation committee; and

The director has not been an executive officer or an employee of another organization (and does not have an immediate family member who has been an executive officer of another organization) that made payments to or received payments from the Company for property or services in an amount which, in any single fiscal year, exceeded the greater of \$1 million or 2% of such other organization's total revenue, based on the reported results for its last fiscal year.

In addition to those technical independence rules, the following must apply under NYSE rules in order for the director to be deemed independent: (a) neither the director nor an immediate family member is a current partner of the Company's outside auditor; (b) the director is not currently an employee of the Company's outside auditor; (c) the director does not have an immediate family member who is a current employee of the Company's outside auditor and who participates in the firm's audit, assurance, or tax compliance (but not tax planning) practice; and (d) during the last three years, neither the director nor an immediate family member has been a partner or employee of the Company's outside auditor and who personally worked on the Company's audit within that time.

Copies of the charters of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are available at our website www.coeur.com. A copy of the Audit Committee charter is attached as Appendix A to this proxy statement. Each director attended at least 75% of the meetings of the Board of Directors and committees on which he served during 2005.

Policy Regarding Director Nominating Process

The Nominating and Corporate Governance Committee has adopted a policy pursuant to which a shareholder who has owned at least 1% of the Company's outstanding shares of common stock for at least two years may recommend a director candidate that the Committee will consider when there is a vacancy on the board either as a result of a director resignation or an increase in the size of the board. Such recommendation must be in writing addressed to the Chairman of the Nominating and Corporate Governance Committee at the Company's principal executive offices and must be received by the Chairman at least 120 days prior to the anniversary date of the release of the prior year's proxy statement. Although the Committee has not formulated any specific minimum qualifications that the Committee believes must be met by a nominee that the Committee recommends to the board, the factors it will take into account will include strength of character, mature judgment, career specialization, relevant technical skills or financial acumen, diversity of viewpoint and industry knowledge, as set forth in the Committee's charter. The Committee does not believe that there will be any differences between the manner in which the Committee evaluates a nominee

recommended by a shareholder and the manner in which the Committee evaluates nominees recommended by other persons.

Policy Regarding Shareholder Communications with Directors

Shareholders desiring to communicate with a director, the non-management directors as a group or the full board may address such communication to the attention of the Kelli Kast, Esq., counsel to the Company, 505 Front Avenue, P.O. Box I, Coeur d Alene, Idaho 83814, and such communication will be forwarded to the intended recipient or recipients.

Policy Regarding Director Attendance at Annual Meetings

The Company has a policy that encourages directors to attend each annual meeting of shareholders, absent extraordinary circumstances. Each of the nine members of last year's board attended the annual meeting on May 10, 2005.

Meetings of Non-Management Directors

Corporate Governance Guidelines and Code of Business Conduct and Ethics for Directors and Employees

COMPENSATION AND RELATED MATTERS**History and Objectives of the Company's Executive Compensation Program**

The Company has retained an independent executive compensation consulting firm to assist the Compensation Committee and the Board of Directors in establishing and maintaining compensation levels that are competitive within the mining industry to attract and retain qualified executives.

Our executive compensation program is designed to provide incentives to executive officers to meet short and long-term objectives and to attract, retain and motivate key executives that significantly affect our performance. Officers of Coeur d'Alene Mines Corporation and its subsidiaries (currently totaling 18 persons) are eligible to participate in the program. Under the executive compensation program, base salary and annual incentives are targeted, in consideration of several factors including performance and levels of responsibility and experience, between the

50th and 75th percentile of that reported for other companies in the mining

6

industry. The total compensation opportunity (including long-term incentives) is targeted at the 75th percentile. We believe the executive compensation program is essential and structured to motivate the key executives to best serve the shareholders by conducting business in a manner that enhances shareholder value.

As of November, 2005, Mercer Human Resource Consulting LLC (Mercer), an independent consulting firm, is the present advisor to the Board of Directors and its Compensation Committee regarding our executive compensation program. Prior to November, 2005, the Company had retained Hewitt and Associates as its independent consulting firm since 1989. The executive compensation program was originally approved by shareholders in 1989 and amended by shareholder vote in 1995. In 2003, the shareholders approved a new Long Term Incentive Plan (the LTIP) designed to make us remain competitive with mining industry peer companies and to further align the financial incentives of management with the shareholders' interests.

The discussion set forth below further discusses our executive compensation program, including the 2003 Long-Term Incentive Plan (the LTIP) that was approved by our shareholders on May 20, 2003, and pursuant to which we may annually grant nonqualified stock options, incentive stock options, stock appreciation rights (SARs), restricted stock, restricted stock units, performance shares, performance units, cash-based awards and stock-based awards to our executive officers. Stock options to purchase 566,149 shares of common stock and 359,640 shares of restricted stock were granted under the LTIP in 2005. The Company also has a 2005 Non-Employee Directors' Equity Incentive Plan that was approved by our shareholders on June 3, 2005 and provides for the granting of equity awards in lieu of cash compensation.

On February 21, 2006, the Board of Directors awarded options for a total of 332,169 shares of common stock, 220,894 performance shares, and 220,894 restricted shares to executive officers under the LTIP. Of such shares, options for 92,284 shares of common stock, 61,369 restricted shares and 61,369 performance shares were issued to Dennis E. Wheeler, our Chief Executive Officer; options for 31,597 shares of common stock, 21,012 restricted shares and 21,012 performance shares were issued to James A. Sabala, our Executive Vice President and Chief Financial Officer; options for 19,888 shares of common stock, 13,226 restricted shares and 13,226 performance shares were issued to Alan L. Wilder, our Senior Vice President, Project Development; options for 15,359 shares of common stock, 10,214 restricted shares and 10,214 performance shares were issued to Mitchell J. Krebs, our Vice President, Corporate Development; options for 19,436 shares of common stock, 12,925 restricted shares and 12,925 performance shares were issued to Donald J. Birak, our Senior Vice President, Exploration; and options for 153,605 shares of common stock, 102,148 restricted shares and 102,148 performance shares were issued to our 13 other executive officers. The stock options and restricted shares will vest to the extent of one third of the award amount on each anniversary following the grant date of such shares, while the performance shares will vest at the end of a three year period subject to certain performance criteria such as total shareholder return.

Compensation Committee

Our executive compensation program is administered by the Compensation Committee of the Board of Directors, which is composed entirely of independent directors. The Committee works with Mercer and our Chief Executive Officer to assure that the program meets the objectives set forth above, and is competitive with other plans in the mining industry. In addition, the Compensation Committee meets annually to set executive compensation for the year, to review recommendations of the independent consultant and to recommend compensation changes to the Board of Directors. The selection of officers receiving grants of stock options, restricted shares, performance shares or other awards under the program, and decisions concerning the timing, pricing and amount of such grants and awards and executives' salaries, are made by the Compensation Committee upon recommendation of the Chairman of the Board, President and Chief Executive Officer.

Elements of the Program

The executive compensation program consists of three basic elements: (i) base salary, (ii) annual incentive plan compensation, and (iii) long-term incentive plan compensation. The program is performance-

based. For the year 2005, 50% of each executive's annual incentive compensation was determined by our Company's overall financial performance relative to predetermined goals established by the Board of Directors, and the remaining 50% was determined by the executive's performance relative to their individual predetermined goals. Goals of the Chief Executive Officer are set and reviewed by the Compensation Committee and the Board of Directors. Goals of other executives are set by the Chief Executive Officer and reviewed by the Compensation Committee.

Compensation Program Summary

Mercer reviews our executive compensation and target level determinations. Mining Industry Compensation surveys are also utilized by the Company in determining competitive compensation. The compensation of our executive officers is linked to our Company's financial performance and the individual officer's performance. As more fully discussed below under Compensation Committee Report, annual incentive compensation awards under the Annual Incentive Plan (the AIP) are based upon target award levels expressed as a percentage of base salaries, established at the beginning of each year for participating executives, and vary depending upon the individual's level of responsibility and impact on our Company's overall performance. Fifty percent of the AIP target award value is based on our Company's production, cash costs, net income, reserves and cash flow return on investment performance as related to predetermined goals, and the remaining 50% by the individual executive's performance relative to individual predetermined goals, such as major project execution, safety and environmental compliance, and other measures.

Awards made under the LTIP are based on established percentages of base salary. The LTIP awards for stock options and restricted shares vest to the extent of 33¹/₃ % in each of the first three years after the award, while awards of performance shares vest at the end of three years based on certain performance criteria. Long-term incentives may include nonqualified stock options, incentive stock options, stock appreciation rights (SARs), restricted stock, restricted stock units, performance shares, performance units, cash-based awards and stock-based awards. Ordinarily, the exercise price of options granted under the LTIP is equal to the fair market value of the common stock on the date of grant of the options. The long-term compensation opportunities associated with restricted shares and the other forms of awards available under the LTIP are based on the market value of our common stock on the day of the grant.

Performance shares are performance related stock units. Performance shares vest at the end of a three-year period based on the Company's Total Shareholder Return (TSR) as compared to its peers. A minimum 25th percentile performance as compared to its peers is required to achieve the threshold payment. Depending on TSR performance, performance shares may be valued at up to two times the original target when superior performance, defined as meeting the 75th percentile as compared to its peers, is achieved. Actual payment of performance share awards may be made in cash or stock.

During the ten year period from 1996 through 2005, a total of 9,657,000 shares of common stock were authorized for issuance under the LTIP. As of March 21, 2006; 5,061,974 shares remained available to be granted in the future under the plan.

The total annual incentive awards paid to our Chief Executive Officer and the other four highest paid executive officers employed at the end of the year were \$929,702 in 2005 compared to \$688,206 in 2004 and \$971,355 in 2003, and their total annual compensation was \$1,455,407 in 2005 compared to \$1,406,623 in 2004 and \$1,497,094 in 2003. See Section entitled Compensation Committee Report for the factors considered in the annual and long term incentive awards for 2005.

The following Summary Compensation Table sets forth the annual base salary, annual bonus (including cash and stock) and long-term incentive compensation (including stock awards, options granted and long-term incentive cash payments) earned by our Chief Executive Officer and the other four highest paid executive officers employed at the end of the year for services rendered during each of the last three years.

Compensation Committee Report

The following description of our executive compensation practices and policies is presented on behalf of the Compensation Committee of our Board of Directors. The present members of the Committee are J. Kenneth Thompson (Chairman), Robert E. Mellor, Cecil D. Andrus and John H. Robinson, each of whom is an independent director under New York Stock Exchange listing standards. The fundamental philosophy of our executive compensation program is to offer competitive compensation opportunities based on the Company's performance and individual performance. Our Company and the Committee, at least annually, utilizes the services of Mercer, a leading, independent executive compensation consulting firm, in connection with the implementation of the executive compensation program. In addition, the Committee also receives information from other mining company compensation studies.

Compensation of our executive officers is reviewed annually by the Committee, which is comprised entirely of outside directors. It is directly linked to our operating and financial performance, comparisons with other companies in the mining industry and is designed to align management's interests with those of the shareholders. Total compensation opportunities available to management are competitive with those offered by other employers in the precious metals mining industry. Annual base salaries are targeted, in consideration of several factors including performance and levels of responsibility and experience, between the 50th and 75th percentile of that reported for other companies in the mining industry.

Annual incentive compensation awards under the AIP are based on target award levels, expressed as a percentage of base salaries, established at the beginning of each annual performance period for participating executives and vary (from 65% for the Chairman, President and CEO to lower amounts for other executives) depending upon the individual's level of responsibility and impact on overall Company performance. Specific individual and group objectives, reflecting the executive's responsibilities, are developed for each participating executive at the beginning of the year. Objectives for participants other than the Chairman, President and CEO are established for each participant by the CEO, and reviewed by the Compensation Committee. Individual objectives for the Chairman, President and

CEO are established by the Committee and, for 2005, included objectives relating to our operations, management, growth, and safety and environmental compliance. Accordingly, the Compensation Committee reviews the executive s performance relative to the predetermined goals and reports to the Board of Directors. In addition, financial objectives are established for the Company based on certain performance data relating to production, cash costs, net income, reserves and cash flow return on investment performance. Actual awards paid after the end of each annual performance period vary from the target awards based on the actual versus targeted performance objectives. In 2005, 50% of the target award value was based on financial performance of the Company and 50% was based on the individual performance of the participant. Awards vary from zero percent to 200 percent of the target awards. The total annual

incentive awards paid to our Chief Executive Officer and the other four highest paid executive officers employed at the end of 2005 were \$929,701 compared to \$688,206 in 2004, and \$971,355 in 2003.

Awards made under our LTIP are based on established percentages of base salary with stock options and restricted shares vesting cumulatively at a rate of 33¹/₃ % per year. Performance shares vest at the end of a three year period based on certain performance criteria such as TSR. The options expire ten years after the date of grant. Option exercise prices are equal to the fair market value of the common stock on the date of grant. As of March 21, 2006, nonqualified stock options and incentive stock options to purchase a total of 2,056,201 shares of common stock at an average exercise price of \$3.47 per share were outstanding. As of March 21, 2006, restricted shares equaling a total of 1,424,115 shares of common stock had been awarded to our executive officers and were outstanding. Pursuant to the 2003 Long-Term Incentive Plan, in addition to stock options and restricted shares, we may annually grant stock appreciation rights (SARs), performance shares, performance units, cash-based awards and stock-based awards to our executive officers.

Payments made in February 2006 under the AIP were based on 2005 performance. As stated above, 50% of an AIP award is based on the prior year s performance data relating to production and cash costs, net income, reserves and cash flow return on investment performance and 50% is based on the individual executive s performance relative to individual predetermined goals, such as major project execution, safety and environmental compliance, and other measures. With respect to the individual performance portion of the February 2006 AIP award to our Chairman and CEO, the award was based on 2005 performance and reflected the following Company performance in 2005:

leading silver production of 13.7 million ounces in 2005 compared to 14.1 million ounces in 2004;

gold production of 134,227 ounces in 2005 compared to 129,332 ounces in 2004;

achievement of net income in the third and record fourth quarter of 2005, resulting in a net income of \$10.6 million for the year, compared to a net loss of approximately \$16.9 million in 2004.

cash cost per silver ounce of \$4.27 in 2005, compared to \$3.66 in 2004;

total year-end ore reserves measured 221.4 million ounces of silver, a 13% increase over 2004 s level, and 1.3 million ounces of gold;

acquisition of silver reserves and production at the Endeavor Mine in May, 2005 and Broken Hill Mine in September, 2005 in Australia, and in connection therewith the public sale by the Company in September 2005 of approximately 10 million shares of common stock resulting in net proceeds of approximately \$36 million; and

completion in June 2005 of the acquisition of all required permits for construction of the proposed Kensington Gold Mine in Alaska.

It should be noted that the above discussion of Company performance accomplishments arises in the context of executive compensation relating to the year ending December 31, 2005, and, therefore, does not discuss Company performance accomplishments during the current year which ends on December 31, 2006.

Employment Agreements

We have an employment agreement with Dennis E. Wheeler, Chairman of the Board, President and Chief Executive Officer, which provides for a term of employment until December 31, 2008 unless terminated or modified by us by written notice, subject to the terms and conditions of the agreement. Mr. Wheeler's employment agreement, which calls for a base salary of \$540,750 plus annual incentive compensation, includes the same change in control provisions as those included in the executive change in control agreements described below, and in the event of his death, his employment agreement provides for the lump sum payment to his estate of an amount equal to his annual base salary at the time of his death.

We entered into an employment agreement on January 13, 2003, with James A. Sabala, pursuant to which he was employed as Executive Vice President and Chief Financial Officer for a two-year term commencing January 27, 2003, through January 27, 2005, in connection with the signing of which Mr. Sabala received \$100,000. The agreement is renewed from day to day so that the Company and Employee are at all times bound to the agreement for a period of two years. His agreement calls for a base salary of \$270,000 plus annual incentive compensation. Mr. Sabala's employment agreement includes the same change of control provisions as those included in the executive change in control agreements described below.

We entered into an employment agreement on July 15, 2004, with Alan L. Wilder, pursuant to which he was employed as Senior Vice President, Project Development for a two-year term commencing July 15, 2004, through July 14, 2006. The agreement is renewed from day to day so that the Company and Employee are at all times bound to the agreement for a period of two years. His agreement calls for a base salary of \$226,600 plus annual incentive compensation. Mr. Wilder's employment agreement includes the same change of control provisions as those included in the executive change in control agreements described below.

We entered into an employment agreement effective July 1, 2005 with Mitchell J. Krebs, pursuant to which he was employed as Vice President Corporate Development for a two-year term commencing July 1, 2005 and ending June 30, 2007. His agreement calls for a base salary of \$225,000 plus annual incentive compensation. Mr. Krebs' employment agreement includes the same change in control provision as those included in the executive change in control agreements described below.

We entered into an employment agreement on July 1, 2005 with Donald J. Birak, pursuant to which he was employed as Senior Vice President, Exploration for a two-year term commencing July 1, 2005, through June 30, 2007. His agreement calls for a base salary of \$221,450 plus annual incentive compensation. Mr. Birak's employment agreement includes the same change of control provisions as those included in the executive change in control agreements described below.

During 2005, and continuing from year-to-year thereafter unless terminated by us by written notice, the executive change in control agreements with a total of 15 executive officers provide that certain benefits will be payable to the executives in the event of a change in control of us and the termination of the executive's employment within two years after such change in control for any reason other than for cause, disability, death, normal retirement or early retirement. The term "change in control" for purposes of the executive change in control agreements has the same meaning as that discussed above under "Change in Control Provisions."

The benefits payable to an executive in the event of a change in control and such termination of employment are: the continued payment of the executive's full base salary at the rate in effect immediately prior to his or her termination of employment, as well as the short-term and long-term bonuses at 100% of the target levels provided at the time of such termination under the AIP and LTIP for the two years following such termination of employment;

the continued payment by us during that period of all medical, dental and long-term disability benefits under programs in which the executive was entitled to participate immediately prior to termination of employment;

acceleration of the exercisability and vesting of all outstanding stock options, restricted stock, performance plan awards and performance shares granted by us to the executive under the executive compensation program; and

the granting to the executive of continued credit through the two-year period following termination of employment for purposes of determining the executive's retirement benefits under our Defined Contribution and 401(k) Retirement Plan.

With the exception of Mr. Wheeler, each executive change in control agreement provides that if the change in control payment provided thereunder would constitute a parachute payment, as defined in Section 280G of the Internal Revenue Code, the payment will be reduced to the largest amount that would result in no portion being subject to the excise tax imposed by, or the disallowance of a deduction under, certain provisions of the Code. Accordingly, the present value of such payment will generally be required to be less than three times these executives' average annual taxable compensation during the five-year period preceding the change in control. The change in control agreement concerning Mr. Wheeler provides that for any change in control payment provided thereunder that constitutes an excess parachute payment, the Company will pay Mr. Wheeler an additional amount in cash such that the net amount retained by Mr. Wheeler after the deduction of all applicable taxes will be equal to the initial change in control payment.

The nature of the policies and procedures depend upon the nature of the services involved, as follows:

Audit Services. The annual audit services engagement terms and fees are subject to the specific approval of the Audit Committee. Audit services include the annual financial statement audit, required quarterly reviews, subsidiary audits and other procedures required to be performed by the auditor to form an opinion on the Company's financial statements, such other procedures including information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the auditor quarterly review. Audit services also include the attestation engagement for the auditor's report on management's report on internal control over financial reporting. The Audit Committee Chairman may grant approval for other audit services that only the auditor responsibly can provide to the extent the fee for the services does not exceed \$50,000. Other such audit services may include statutory audits or financial audits for subsidiaries and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or used in connection with securities offerings.

Audit-Related Services. Audit related services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements or that are traditionally performed by the auditor. The Audit Committee Chairman may grant general pre-approval for audit-related services to the extent the fee for the service is not expected to exceed \$50,000. Audit-related services include, among others, due diligence services relating to potential business acquisitions/dispositions; accounting consultations relating to accounting, financial reporting or disclosure matters not classified as audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rule making authorities; financial audits of employee benefit plans; agreed-upon or expanded audit procedures relating to accounting and or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements.

Tax Services. The Audit Committee Chairman has the authority to pre-approve tax services, to the extent the fee for the service is not expected to exceed \$50,000, that have historically been provided by the auditor, that the Committee has reviewed and believes would not impair independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Committee will not approve the retention of the auditor in connection with a transaction the sole business purpose of which

may be tax avoidance and the tax treatment of which may not be supported by the Internal Revenue Code and related regulations.

All Other Services. The Committee may grant approval of those permissible non-audit services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence. Such other services must be specifically pre-approved by the Audit Committee.

With respect to the approval by the Audit Committee Chairman of audit, audit-related and tax services that do not exceed \$50,000, the Chairman is required to report the matter to the full Audit Committee at its next meeting and the auditor will report on the scope and fee of such service in its annual report to the Committee. The Chief Financial Officer of the Company is responsible for tracking all independent auditor fees against the budget for such services and reports at least annually to the Audit Committee.

AUDIT COMMITTEE REPORT

The Audit Committee of our Board of Directors, which currently consists of James J. Curran (Chairman), John Robinson, Kenneth Thompson and Tim Winterer, is governed by its charter, a copy of which is attached as Appendix A to this proxy statement. All the members of the Audit Committee are independent as defined in the rules of the Securities and Exchange Commission and the listing standards of the New York Stock Exchange. The Board of Directors has determined that James J. Curran, Chairman of the Audit Committee, is an audit committee financial expert within the meaning of rules adopted by the Securities and Exchange Commission.

The Audit Committee reviewed and discussed our audited financial statements for the year ended December 31, 2005, with management and our independent auditing firm, KPMG LLP. In that connection, the Audit Committee discussed with KPMG LLP the matters required to be discussed by Statement of Accounting Standards No. 61. SAS 61 requires an auditor to communicate certain matters relating to the conduct of an audit to the Audit Committee including:

- methods used to account for significant unusual transactions;

- the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;

- the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditor's conclusions regarding the reasonableness of those estimates;

- any disagreements with management regarding the application of accounting principles, the basis for management's accounting estimates, the disclosures in the financial statements and the wording of the auditor's report;

- the auditor's judgments about the quality, and not just the acceptability, of our accounting principles as applied in its financial reporting; and

- the consistency of application of the accounting principles and underlying estimates and the clarity, consistency and completeness of the accounting information contained in the financial statements, including items that have a significant impact on the representational faithfulness, verifiability and neutrality of the accounting information.

KPMG LLP reported to the Audit Committee that:

- there were no disagreements with management;

- it was not aware of any consultations about significant matters that management discussed with other auditors;

- no major issues were discussed with management prior to its retention;

- it received full cooperation and complete access to our books and records;

there was no fraud or likely illegal acts;

there were no material weaknesses in the Company's internal control over financial reporting; and

there were no known probable material misstatements in our interim reports except for the correction of an error in the Company's calculation relating to the ore on leach pad inventory reports in the Quarterly Report on Form 10-Q for the first quarter of 2005, with respect to which the Company filed an amendment to such report restating such financial statements.

In addition, the Audit Committee received from KPMG LLP the written disclosures and the letter required by Independence Standards Board Statement No. 1 and discussed KPMG LLP's independence with KPMG LLP. Pursuant to ISB 1, KPMG LLP:

disclosed to the Audit Committee all relationships between KPMG LLP and its related entities that in KPMG LLP's professional judgment may reasonably be thought to bear on independence, and

confirmed in the letter that, in its professional judgment, it is independent of the Company.

Based on the above-referenced review and discussions, the Audit Committee recommended to the Board of Directors that the financial statements be included in our Annual Report on Form 10-K for the year ending December 31, 2005, for filing with the Securities and Exchange Commission. Reference is made to the Audit Committee's charter for additional information as to the responsibilities and activities of the Audit Committee.
