**Note 1 Interim Financial Information**

These unaudited condensed financial statements as of March 31, 2008, the results of operations for the three month period ended March 31, 2008, for the period February 26, 2007 (inception) through March 31, 2007 and for the period February 26, 2007 (inception) through March 31, 2008, and cash flows for the three month period ended March 31, 2008, for the period February 26, 2007 (inception) through March 31, 2007 and for the period February 26, 2007 (inception) through March 31, 2008, have been prepared in accordance with U.S. Generally Accepted Accounting Principles for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by U.S. Generally Accepted Accounting Principles for complete financial statements of Hicks Acquisition Company I, Inc. (the Company). In the opinion of management, all adjustments necessary for a fair presentation have been included and are of a normal recurring nature. Interim results are not necessarily indicative of the results that may be expected for the year.

These unaudited condensed financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on March 31, 2008.

**Note 2 Organization and Nature of Business Operations, Basis of Presentation**

The Company is organized as a blank check company and was formed on February 26, 2007 under the General Corporation Law of the State of Delaware for the purpose of acquiring, or acquiring control of, through a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination one or more businesses or assets. The Company's efforts in identifying prospective target businesses will not be limited to a particular industry. Instead, the Company intends to focus on various industries and target businesses that may provide significant opportunities for growth. However, the Company will not complete a business combination with an entity engaged in the energy industry as its principal business or whose principal business operations are conducted outside of the United States or Canada.

Through March 31, 2008, the Company's operations have been limited to organizational activities, activities relating to identifying and evaluating prospective acquisition candidates, and activities relating to general corporate matters. The Company has selected December 31 as its fiscal year end.

The registration statement for the Company's initial public offering (the Offering) was declared effective on September 27, 2007. The Company consummated the Offering on October 3, 2007 and received proceeds of approximately \$529.1 million, net of underwriter's commissions of approximately \$21.3 million and offering costs and other expenses of \$1.6 million. The Company sold to the public 55,200,000 units at a price of \$10.00 per unit, including 7,200,000 units issued pursuant to the exercise of the underwriter's over-allotment option. Simultaneously with the consummation of the Offering, the Company consummated the private sale of 7,000,000 warrants (the sponsor warrants) to HH-HACI, L.P., a Delaware limited partnership (the Sponsor), at a price of \$1.00 per sponsor warrant, generating gross proceeds, before expenses, of \$7 million (the Private Placement). Net proceeds received by the Company from the consummation of both the Offering and Private Placement of sponsor warrants totaled approximately \$536.1 million, net of underwriter's commissions and offering costs. The net proceeds were placed in a trust account at JPMorgan Chase Bank, N.A. with Continental Stock Transfer & Trust Company acting as trustee. Each unit consisted of one share of common stock and one warrant to purchase one share of common stock. The Company's management has broad discretion with respect to the specific application of the net proceeds of the Offering, although substantially all of the net proceeds of the Offering are intended to be generally applied toward consummating one or more business combinations with an operating company. The Company's initial business combination must occur with one or more target businesses that collectively have a fair market value of at least 80% of the initial amount held in the trust account (excluding the amount held in the trust account representing the underwriters' deferred commission). If the Company acquires less than 100% of one or more target businesses, the aggregate fair market value of the portion or portions the Company acquires must equal at least 80% of the amount

held in the trust account. In no event, however, will the Company acquire less than a controlling interest of a target business (that is, not less than 50% of the voting equity interests of the target business).

-5-

---

**Table of Contents**

**HICKS ACQUISITION COMPANY I, INC.**  
**(a Development Stage Company)**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS Continued**  
**(Unaudited)**

Proceeds held in the trust account will only be released to the Company upon the earlier of: (i) the consummation of an initial business combination; or (ii) the Company's liquidation. The proceeds in the trust account include the underwriter's deferred commission, which equals 3.15% of the gross proceeds of the Offering. Upon consummation of an initial business combination, approximately \$17.4 million, which constitutes the underwriters' deferred commissions, will be paid to the underwriters from the funds held in the trust account. \$250,000 of the proceeds of the Offering held outside of the trust account as well as interest income of up to \$6.6 million (net of taxes payable), earned on the trust account balance may be released to the Company to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses; provided, however, that after such release there remains in the trust account a sufficient amount of interest income previously earned on the trust account balance to pay any income taxes on such \$6.6 million of interest income.

The Company will seek stockholder approval before it will effect an initial business combination, even if the business combination would not ordinarily require stockholder approval under applicable law. In connection with the stockholder vote required to approve any initial business combination, the Sponsor and certain of the Company's directors have agreed to vote the founder's shares (as defined in Note 6 below) owned by them immediately before the Offering in accordance with the majority of the shares of common stock voted by the public stockholders. Public stockholders is defined as the holders of common stock sold as part of the units in the Offering or in the aftermarket. The Company will proceed with an initial business combination only if: (i) the business combination is approved by a majority of votes cast by the Company's public stockholders at a duly held stockholders meeting, (ii) an amendment to the Company's amended and restated certificate of incorporation to provide for the Company's perpetual existence is approved by holders of a majority of the Company's outstanding shares of common stock, (iii) public stockholders owning no more than 30% (minus one share) of the Company's outstanding shares of common stock sold in the Offering both vote against the business combination and exercise their conversion rights, and (iv) the Company has confirmed that it has sufficient cash resources to pay both (x) the consideration required to close its initial business combination, and (y) the cash due to public stockholders who vote against the business combination and who exercise their conversion rights. If the conditions to consummate the proposed business combination are not met but sufficient time remains before the Company's corporate life expires, the Company may attempt to effect another business combination. With respect to a business combination which is approved and consummated, any public stockholder who voted against the business combination may exercise their conversion rights as described below, and demand that the Company redeem their shares for cash from the trust fund. Accordingly, the Company has classified 30% (minus one share) of the public stockholders' shares as temporary equity in the accompanying balance sheet.

If the initial business combination is approved and completed, each public stockholder voting against such qualifying business combination will be entitled to convert its shares of common stock into a pro rata share of the aggregate amount then on deposit in the trust account (including deferred underwriting commissions and interest earned on the trust account, net of income taxes payable on such interest and net of interest income of up to \$6.6 million, on the trust account released to fund the Company's working capital requirements). Public stockholders who convert their stock into their share of the trust account will continue to have the right to exercise any warrants they may hold.

The Company will liquidate and promptly distribute only to the public stockholders the amount in the trust account, less any income taxes payable on interest income and any interest income of up to \$6.6 million, on the balance (net of taxes payable) of the trust account previously released to the Company to fund its working capital requirements, plus any remaining net assets if the Company does not consummate a business combination by September 28, 2009. If the Company fails to consummate such business combination by September 28, 2009, the Company's amended and restated certificate of incorporation provides that the Company's corporate existence will automatically cease on September 28, 2009, except for the purpose of winding up its affairs and liquidating. In the event of liquidation, the per share value of the residual assets remaining available for distribution (including trust account assets) may be more or less than the initial public offering price per share (assuming no value is attributed to the warrants contained in the

units sold in the Offering). In the event of the consummation of a successful

-6-

---

**Table of Contents**

**HICKS ACQUISITION COMPANY I, INC.**  
**(a Development Stage Company)**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**    **Continued**  
**(Unaudited)**

initial business combination, the earnings per share will be affected by the dilution attributable to the sponsors shares and warrants.

**Note 3 Summary of Significant Accounting Policies**

**Cash**

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Such cash and cash equivalents, at times, may exceed federally insured limits. The Company maintains its accounts with financial institutions with high credit ratings.

**Cash Held in Trust**

A total of \$536.1 million of the net proceeds from the Offering, including \$7.0 million from the Private Placement (see Note 5) and \$17.4 million of deferred underwriting commissions, has been placed in a trust account at JPMorgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company serving as trustee (the Trust Account ). The Trust Account is invested in, at the option of the Company, U.S. Treasury bills with a maturity of 90 days or less and money market funds meeting the conditions of paragraphs (c)(2), (c)(3) and (c)(4) of Rule 2a-7 of the Investment Company Act of 1940, as amended. As of March 31, 2008, the balance in the Trust Account was approximately \$541.2 million, which includes approximately \$8.1 million of investment income earned since the inception of the trust, and represents approximately \$9.80 per share (excluding 13,800,000 shares of common stock owned by the Company s founding stockholder and certain directors, as such shares do not have liquidation rights). The Company withdrew from the Trust Account \$3 million of interest income for the three months ended March 31, 2008 to pay income taxes on the investment income as well as for general and administrative expenses.

**Earnings per common share**

Earnings per share is computed by dividing net income applicable to common stockholders by the weighted average number of shares of common stock outstanding for the period. The weighted average of shares of common stock issued and outstanding of 52,440,001 used for the computation of basic earnings per share for the three months ended March 31, 2008, takes into effect the 11,500,000 shares outstanding for the entire period, 2,300,000 shares from the stock split outstanding from September 27, 2007 and the 55,200,000 shares (less 16,559,999 shares subject to possible redemption) sold in the initial public offering and outstanding since October 3, 2007. The weighted average of shares of common stock issued and outstanding of 11,500,000 used for the computation of basic earnings per share for the period February 26, 2007 (inception) through March 31, 2007, takes into effect the 11,500,000 shares outstanding for the entire period. The weighted average of shares of common stock issued and outstanding of 30,487,970 used for the computation of basic earnings per share for the period from February 26, 2007 (inception) through March 31, 2008, takes into effect the 11,500,000 shares outstanding for the entire period, 2,300,000 shares from the stock split outstanding from September 27, 2007 and the 55,200,000 shares (less 16,559,999 shares subject to possible redemption) sold in the initial public offering and outstanding since October 3, 2007.

The 76,000,000 warrants related to the Offering, Private Placement and the units (consisting of one share of common stock and one warrant to purchase one share of common stock) outstanding prior to the consummation of the initial public offering are contingently issuable shares and are excluded from the calculation of diluted earnings per share.

**Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Table of Contents**

**HICKS ACQUISITION COMPANY I, INC.**  
**(a Development Stage Company)**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS Continued**  
**(Unaudited)**

**Income taxes**

Deferred income taxes are provided for the differences between the bases of assets and liabilities for financial reporting and income tax purposes. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company recorded a deferred income tax asset for the tax effect of certain temporary differences, aggregating approximately \$154,751 at December 31, 2007 and March 31, 2008.

**Recent Accounting Pronouncements**

Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

**Note 4 Initial Public Offering**

On October 3, 2007, the Company sold to the public 55,200,000 units at a price of \$10.00, which included 7,200,000 shares issued pursuant to the underwriter's over-allotment option. Each unit consists of one share of the Company's common stock, \$0.0001 par value, and one warrant.

Each warrant entitles the holder to purchase from the Company one share of common stock at a price of \$7.50 on the later of completion of the initial business combination or twelve months from the date of the closing of the Offering, provided in each case that the Company has an effective registration statement in effect covering the shares of common stock issuable upon exercise of the warrants. The warrants expire September 28, 2011 unless earlier redeemed. Once the warrants become exercisable, they will be redeemable in whole but not in part at a price of \$0.01 per warrant upon a minimum of 30 days' notice, but such redemption may only occur if the last sale price of the common stock equals or exceeds \$13.75 per share for any 20 trading days within a 30 trading day period ending three business days prior to the time that the Company sends the notice of redemption to the warrant holders.

**Note 5 Note Payable to Affiliate and Related Party Transactions**

The Company issued an aggregate of \$225,000 in an unsecured promissory note to Thomas O. Hicks, the Company's founder and chairman of the board, on March 1, 2007. The note was non-interest bearing and was payable on the earlier of December 31, 2007 or the consummation of an initial public offering by the Company. With the proceeds of the Offering, this note was paid in full effective October 3, 2007.

The Company has agreed to pay up to \$10,000 a month in total for office space and general and administrative services to Hicks Holdings Operating LLC (Hicks Holdings), an affiliate of the Company's founder and chairman of the board, Mr. Hicks. Services will commence promptly after the effective date of an offering and will terminate upon the earlier of: (i) the consummation of an initial business combination; or (ii) the liquidation of the Company. At March 31, 2008, the Company accrued \$57,134 due to Hicks Holdings, which includes \$10,000 for rent and overhead as well as \$47,134 for reimbursable expenses primarily relating to travel-related and business insurance expenses. On October 3, 2007, the Sponsor, through the Private Placement, purchased 7,000,000 sponsor warrants at \$1.00 per warrant (for a total purchase price of \$7,000,000) from the Company pursuant to Regulation D. Mr. Hicks, the Company's founder and chairman of the board, is the sole member of HH-HACI GP, LLC, the general partner of the Sponsor. In addition, Mr. Hicks, Joseph B. Armes, the Company's president, chief executive officer, chief financial officer and one of its directors, Eric C Neuman, a senior vice president of the Company, Robert M. Swartz, a senior vice president of the Company, Christina Weaver Vest, a senior vice president of the Company, Thomas O. Hicks, Jr., the Company's secretary and a vice president, and Mack H. Hicks, a vice president of the Company, are each limited partners of the Sponsor. The Sponsor will be permitted to transfer the warrants held by it to the Company's officers and directors, and other persons or entities affiliated with the Sponsor, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as the Sponsor. Otherwise, these warrants will not be transferable or salable by the Sponsor (except as described below) until 180 days after the completion of an initial business combination. The sponsor warrants will be non-redeemable so

**Table of Contents**

**(a Development Stage Company)**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS Continued**  
**(Unaudited)**

long as they are held by the Sponsor or the Sponsor's permitted transferees. If the sponsor warrants are held by holders other than the Sponsor or its permitted transferees, the sponsor warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants including in the units being sold in this offering. Otherwise, the sponsor warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in the proposed offering, except that such sponsor warrants may be exercised on a cashless basis. The purchase price of the sponsor warrants has been determined to be the fair value of such warrants as of the purchase date.

Mr. Hicks, the Company's founder and chairman of the board is required, pursuant to a written co-investment securities purchase agreement, to purchase, directly or through a controlled affiliate, 2,000,000 co-investment units at a price of \$10.00 per unit for an aggregate purchase price of \$20 million in a private placement that will occur immediately prior to the consummation of the Company's initial business combination.

The co-investment units will be identical to the units sold in the proposed public offering, except that (i) the co-investment warrants will not be redeemable by the Company so long as they are held by Mr. Hicks, a controlled affiliate of Mr. Hicks who purchases the co-investment units or their permitted transferees, and (ii) with limited exceptions, the co-investment shares and co-investment warrants (including the common stock issuable upon exercise of the co-investment warrants) may not be transferred, assigned or sold until 180 days after the completion of our initial business combination. The proceeds of the sale of the co-investment units will not be deposited into the trust account and will not be available for distribution to the public stockholders in the event of a liquidation of the trust account, or upon conversion of shares held by public stockholders.

**Note 6 Founder's Units**

On March 1, 2007, the Sponsor purchased 11,500,000 founder's units (after giving effect to a stock split, discussed in Note 8, approved by the Company's board of directors in July 2007) for an aggregate amount of \$25,000, or \$0.0022 per unit. On August 30, 2007, the sponsor transferred an aggregate of 230,000 of these units to William H. Cunningham, William A. Montgomery, Brian Mulroney and William F. Quinn, each of whom is a member of the Company's board of directors. Each founder's unit consists of one share of common stock (a founder's share), and one warrant to purchase common stock (a founder's warrant). The Sponsor, together with Messrs. Cunningham, Montgomery, Mulroney and Quinn, are referred to as the initial stockholders.

On September 27, 2007, through a stock dividend (discussed in Note 8), the founder's units increased to 13,800,000, of which 13,524,000 was held by the sponsor and 276,000 was held by Messrs. Cunningham, Montgomery, Mulroney and Quinn.

The founder's shares are identical to the shares of common stock included in the Offering, except that:  
the founder's shares are subject to the transfer restrictions described below;

the initial stockholders have agreed to vote the founder's shares in the same manner as a majority of the public stockholders in connection with the vote required to approve a business combination;

the initial stockholders will not be able to exercise conversion rights granted to the public stockholders with respect to the founder's shares; and

the initial stockholders have waived their rights to participate in any liquidation distribution with respect to the founder's shares if the Company fails to consummate a business combination.

The founder's warrants are identical to those included in the units sold in the Offering, except that:  
the founder's warrants are subject to the transfer restrictions described below;

the founder's warrants may not be exercised unless and until the last sale price of the Company's common stock equals or exceeds \$13.75 per share for any 20 days within any 30 trading day period beginning 90 days

after the Company's initial business combination and there is an effective registration statement covering the shares of common stock issuable upon exercise of the warrants;

the founder's warrants will not be redeemable by the Company as long as they are held by our initial stockholders or their permitted transferees; and

the founder's warrants may be exercised by the holders on a cashless basis.

The initial stockholders have agreed, except in limited circumstances, not to sell or otherwise transfer any of the founder's shares or founder's warrants until 180 days after the completion of the Company's initial business combination. However, the initial stockholders will be permitted to transfer the founder's shares and founder's warrants to the Company's officers and directors, and other persons or entities affiliated with the initial stockholders, provided that the transferees receiving such securities will be subject to the same agreements with respect to such securities as the initial stockholders.

**Note 7 Stockholders Equity**

*Preferred Stock*

The Company is authorized to issue up to 1,000,000 shares of preferred stock, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the board of directors. No shares of preferred stock were issued and outstanding as of December 31, 2007 and March 31, 2008.

*Common Stock*

The authorized common stock of the Company includes up to 225,000,000 shares. The holders of the shares of common stock are entitled to one vote for each share of common stock. In addition, the holders of the common stock are entitled to receive dividends when, as and if declared by the board of directors. At December 31, 2007 and March 31, 2008, the Company had 69,000,000 shares of common stock issued and outstanding.

**Note 8 Stock Dividend and Split**

On September 27, 2007, the board of directors as of that date (Mr. Hicks and Mr. Armes) approved a stock dividend of 0.2 shares of common stock for every share of common stock issued and outstanding as of September 27, 2007. The stock dividend was granted in connection with an increase in the number of units being offered in the Offering. Total common shares increased from 11,500,000 shares to 13,800,000 shares as a result of the stock dividend. The par value of the stock remained \$0.0001 per share.

On July 24, 2007, the board of directors approved a 1.15-for-1 stock split resulting in an increase of common shares from 10,000,000 shares to 11,500,000 shares. The par value of the common stock remained \$0.0001 per share. The stock split approved July 24, 2007 is reflected in the per share data in the accompanying financial statements as if it occurred on February 26, 2007.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

References to the Company, us or we refer to Hicks Acquisition Company I, Inc. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

**Special Note Regarding Forward Looking Statements**

All statements other than statements of historical fact included in this Form 10-Q including, without limitation, statements under Management's Discussion and Analysis of Financial Condition and Results of Operations regarding our financial position, business strategy and the plans and objectives of management for future operations, are forward looking statements. When used in this Form 10-Q, words such as anticipate, believe, estimate, expect, intend and similar expressions, as they relate to us or our management, identify forward looking statements. Such forward looking statements are based on the beliefs of management, as well as assumptions made by, and information currently available to, our management. Actual results could differ materially from those contemplated by the forward looking statements as a result of certain factors detailed in our filings with the Securities and Exchange Commission. All subsequent written or oral forward looking statements attributable to us or persons acting on our behalf are qualified in their entirety by this paragraph.

**Overview**

We are a blank check company formed for the purpose of acquiring, or acquiring control of, through a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination one or more businesses or assets. Our efforts in identifying prospective target businesses will not be limited to a particular industry, but we will not complete a business combination with any entity engaged in the energy industry as its principal business or whose principal business operations are conducted outside of the United States or Canada. We intend to effect our initial business combination using cash from the proceeds of our initial public offering, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a business combination:

may significantly dilute the equity interest of our investors;

may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;

could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;

may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights or a person seeking to obtain control of our company; and

may adversely affect prevailing market prices for our common stock and/or warrants.

Similarly, if we issue debt securities, it could result in:

default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;

acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;

our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand; and

our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding.

-11-

---

**Table of Contents****Results of Operations**

For the three months ended March 31, 2008 and for the period from February 26, 2007 (inception) to March 31, 2007, we had net income of \$1,119,858 and net loss of \$2,176, respectively. For the three months ended March 31, 2008, our income was all derived from interest and dividends on the cash held in the trust account established in connection with our initial public offering. For the period February 26, 2007 (inception) to March 31, 2007, all expenses related to the formation and operation of the Company. We incurred \$288,912 in operational costs during the three months ended March 31, 2008.

**Liquidity and Capital Resources**

On October 3, 2007, we consummated our initial public offering of 55,200,000 units (including 7,000,000 units pursuant to the underwriters' over-allotment option) at a price of \$10 per unit. We received net proceeds of approximately \$536.1 million from the offering and the private placement. Simultaneously with our initial public offering, we consummated a private placement of warrants to purchase shares of our common stock. As of March 31, 2008, approximately \$541,223,853 million was held in the trust account. We also had \$427,794 of unrestricted cash available outside the trust account for us for our activities in connection with identifying and conducting due diligence of a suitable initial business combination and for general corporate matters. The following table shows the total funds held in the trust account through March 31, 2008:

Net proceeds from our initial public offering, the underwriters' over-allotment and private placement of warrants that were placed in trust	\$ 518,760,000
Deferred underwriting commissions	17,388,000
Total interest earned through March 31, 2008	8,075,853
Less total interest disbursed for working capital and payment of taxes through March 31, 2008	(3,000,000)
 Total funds held in trust account through March 31, 2008	 \$ 541,223,853

For the quarter ended March 31, 2008, we paid an aggregate of approximately \$2.5 million in expenses for the following purpose:

payment of estimated taxes incurred as a result of interest income earned on funds currently held in the trust account;

legal and accounting fees related to our SEC reporting obligations and general corporate matters; and

miscellaneous expenses.

We believe that we will have sufficient funds to allow us to operate through the next twelve months, assuming that an initial business combination is not consummated before that date. Approximately \$6.6 million of working capital over this time period will be funded from the interest earned on the funds held in the trust account.

*Off-Balance Sheet Financing Arrangements*

We have no obligations, assets or liabilities which would be considered off-balance sheet arrangements. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements.

We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or entered into any non-financial assets.

*Contractual Obligations*

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities other than a monthly fee of \$10,000 for office space and general and administrative services payable to Hicks

**Table of Contents**

Holdings Operating LLC, an affiliate of our founder and chairman of the board. We began incurring this fee on October 3, 2007, and will continue to incur this fee monthly until the completion of our initial business combination.

**Critical Accounting Policies**

The preparation of financial statements and related disclosures in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following as our critical accounting policies:

*Cash and cash equivalents*

We consider all highly liquid investments with original maturities of three months or less to be cash equivalents. Such cash and cash equivalents, at times, may exceed federally insured limits. We maintain our accounts with financial institutions with high credit ratings.

*Cash Held in Trust*

A total of \$536.1 million of the net proceeds from our initial public offering, including \$7.0 million from the private placement and \$17.4 million of deferred underwriting commissions, has been placed in a trust account at JPMorgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company serving as trustee. The trust account is invested in, at the option of the Company, U.S. Treasury bills with a maturity of 90 days or less and money market funds meeting the conditions of paragraphs (c)(2), (c)(3) and (c)(4) of Rule 2a-7 of the Investment Company Act of 1940, as amended. As of March 31, 2008, the balance in the trust account was approximately \$541.2 million, which includes approximately \$8.1 million of investment income earned since the inception of the trust (less \$3.0 million of interest income disbursed to us), and represents approximately \$9.80 per share (excluding 13,800,000 shares of common stock owned by our founding stockholder and certain directors, as such shares do not have liquidation rights). We withdrew from the trust account \$3 million of interest income for the three months ended March 31, 2008 to pay income taxes on the investment income as well as for general and administrative expenses.

*Earnings per common share*

Earnings per share is computed by dividing net income applicable to common stockholders by the weighted average number of shares of common stock outstanding for the period. The weighted average shares of common stock issued and outstanding of 52,440,001 used for the computation of basic earnings per share for the three months ended March 31, 2008, takes into effect the 11,500,000 shares outstanding for the entire period, 2,300,000 shares from the stock split outstanding from September 27, 2007 and the 55,200,000 shares (less 16,559,999 shares subject to possible redemption) sold in the initial public offering and outstanding since October 3, 2007. The weighted average of shares of common stock issued and outstanding of 11,500,000 used for the computation of basic earnings per share for the period February 26, 2007 (inception) through March 31, 2007, takes into effect the 11,500,000 shares outstanding for the entire period. The weighted average of shares of common stock issued and outstanding of 30,487,970 used for the computation of basic earnings per share for the period from February 26, 2007 (inception) through March 31, 2008, takes into effect the 11,500,000 shares outstanding for the entire period, 2,300,000 shares from the stock split outstanding from September 27, 2007 and the 55,200,000 shares (less 16,559,999 shares subject to possible redemption) sold in the initial public offering and outstanding since October 3, 2007.

The 76,000,000 warrants related to our initial public offering, private placement and the units (consisting of one share of common stock and one warrant to purchase one share of common stock) outstanding prior to the consummation of our initial public offering are contingently issuable shares and are excluded from the calculation of diluted earnings per share

*Use of estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Table of Contents**

*Income taxes*

Deferred income taxes are provided for the differences between the bases of assets and liabilities for financial reporting and income tax purposes. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

We recorded a deferred income tax asset for the tax effect of certain temporary differences, aggregating approximately \$154,751 at December 31, 2007 and March 31, 2008.

*Recent Accounting Pronouncements*

Our management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Market risk is the sensitivity of income to changes in interest rates, foreign exchanges, commodity prices, equity prices, and other market-driven rates or prices. We are not presently engaged in and, if we do not consummate a suitable business combination prior to the prescribed liquidation date of the trust fund, we may not engage in, any substantive commercial business. Accordingly, we are not and, until such time as we consummate a business combination, we will not be, exposed to risks associated with foreign exchange rates, commodity prices, equity prices or other market-driven rates or prices. The net proceeds of our initial public offering held in the trust fund may be invested by the trustee only in U.S. governmental treasury bills with a maturity of 90 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act. Given our limited risk in our exposure to government securities and money market funds, we do not view the interest rate risk to be significant. We have not engaged in any hedging activities since our inception. We do not currently expect to engage in any hedging activities.

**ITEM 4T. CONTROLS AND PROCEDURES**

*(a) Evaluation of Disclosure Controls and Procedures*

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 (the Exchange Act ) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer/Chief Financial Officer, to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer/Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2008. Based upon his evaluation, he concluded that our disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were effective.

Our internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer/Chief Financial Officer and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of our financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with the authorization of our board of directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

*(b) Changes in Internal Controls*

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents**

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

None.

**ITEM 1A. RISK FACTORS**

Factors that could cause our actual results to differ materially from those in this report are any of the risks described in our Annual Report on Form 10-K, dated March 31, 2008, filed with the SEC. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of May 15, 2008, there have been no material changes to the risk factors disclosed in our Annual Report dated March 31, 2008, filed with the SEC, except we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.
