Table of Contents**Section 16(a) Beneficial Ownership Reporting Compliance.**

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's officers (as defined under Section 16(a) of the Securities Exchange Act), directors and persons who own greater than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Based solely on a review of the forms it has received and on written representations from certain reporting persons that no such forms were required for them, the Company believes that during 2001, all of the Section 16(a) filing requirements applicable to its officers, directors and 10% beneficial owners were complied with by such persons other than an option grant which was reported on an amended Form 5 filing by Mr. Wagenen.

Ten Year Option Repricing

In February 2001, the Company lowered the exercise price of all options granted to employees and directors of the Company under the Plan during the calendar year of 2000 that had an exercise price above \$1.94. The options subject to this repricing allowed for the purchase of up to an aggregate of 2,676,000 shares of the Company's Common Stock and included options granted to those persons listed below. The Company's board of directors lowered the exercise price of these options because at the time of repricing, the options no longer provided the anticipated incentive to the option holders due to the difference between the exercise price of the options and the market price of the Company's Common Stock arising from the significant volatility of the Company's share price during 2000. The following table provides more information concerning the repricing of these options.

Name and Principal Position	Date of Repricing	Number of Securities Underlying Options Repriced	Market Price of Stock at Time of Repricing	Exercise Price at Time of Repricing	New Exercise Price	Length of Original Option Term Remaining at Date of Repricing

Legal Proceedings with Affiliates. In February 1999, Mark Levy, derivatively on behalf of the Company, filed a complaint against Southbrook International Investments, Ltd. (Southbrook), Elliott Associates, Elliott International, Alexander Finance, L.P. (Alexander) and against the Company as a nominal defendant. The complaint filed in the United States District Court for the Southern District of New York, alleges that Southbrook, Elliott Associates, Elliott International and Alexander, while having beneficial ownership of more than 10% of the Company's Common Stock, traded the Common Stock such that the Company is entitled to recover short swing profits under Section 16(b) of the Securities Exchange Act of 1934 in connection with purchases and sales of Company securities within six month periods. The complaint sought to recover from Southbrook, Elliott Associates, Elliott International and Alexander their respective profits (in unspecified amounts) from those transactions. No relief was sought against the Company as a nominal defendant.

Elliott Associates, Elliott International and Alexander are each currently holders of more than 10% of the Company's Common Stock. Two of the current six directors of the Company, Messrs. Brodsky and Gropper, are employed by a company that provides management services to, and is under common control with, Elliott Associates and Elliott International. Mr. Brodsky was appointed in accordance with an agreement dated November 5, 1999 by and between Elliott Associates, Elliott International, an unaffiliated investor, and the Company.

On February 22, 2001, the Company announced that a settlement of the Levy litigation had been reached with Elliott Associates and Elliott International. On March 30, 2001, the settlement was approved by the court which resulted in the Company receiving \$15 million, less \$4.5 million in court awarded legal fees and certain other expenses.

On March 16, 2001, the Company announced that a settlement of the Levy litigation had been reached with Alexander. On April 27, 2001, the settlement was approved by the court which resulted in the Company receiving \$5 million, less \$1.5 million in court awarded legal fees and certain other expenses.

Certain Business Relationships. On February 23, 2001, the Company secured a short-term bridge loan from Elliott Associates for up to \$3.5 million to fund the Company's working capital needs. The purpose of the short-term bridge loan was to fund the Company's working capital needs. The Company accessed the first \$2 million of the loan at closing and accessed the balance of \$1.5 million on April 2, 2001. Both loans, plus accrued interest thereon, were repaid in full on April 6, 2001.

On November 6, 2001, the Company entered into a loan agreement to borrow an aggregate original principal amount of \$9.425 million from Elliott Associates, L.P. and Alexander Finance, L.P., both majority stockholders of the Company. The Company used \$4.925 million of the proceeds to pay the settlement of litigation involving a shareholder and former director of the Company, Mr. Siegler, and the remainder of the proceeds were used for working capital, capital expenditures and other general corporate purposes. The loans were due on March 31, 2003 and bore interest at 14% per annum, compounded annually. The loans were secured by substantially all of the assets of the Company and guaranteed by both of the Company wholly-owned subsidiaries, Illinois Superconductor Canada Corporation and Spectral Solutions, Inc. On February 15, 2002, the Company repaid the notes and accrued interest (approximately \$9.8 million) from the proceeds of the Shareholder Rights Offering.

Report of the Compensation Committee

The objectives of the Compensation Committee in determining the levels and components of executive compensation are (i) providing executives with both cash and equity incentives to further the interests of the Company and its stockholders, (ii) compensating them at appropriate levels with a recognition of compensation levels of executive officers at other high technology companies at a comparable stage of development, and (iii) attracting, rewarding and retaining outstanding executive officers to the Company. Generally, the compensation of all executive officers is composed of a base salary plus a discretionary bonus based upon achievement of specified goals. In addition, the Company grants stock options, from time to time in its discretion, to base potential compensation on stockholder return and to provide for compensation based upon the Common Stock performance over time. The Compensation Committee also recommends stock option grants to non-executive employees of the Company so as to encourage a team approach towards the success of the Company to the benefit of the stockholders.

The Compensation Committee recommended to the board of directors the terms of the employment agreements with each of Drs. Calhoun and Abdelmonem and Messrs. Willes, Boivin and Craig. In determining the base salaries of the executive officers, the Compensation Committee considered the performance of each executive, the nature of the executive's responsibilities, the salary levels of executives at high technology companies at a comparable stage of development, including other publicly held companies that are developing competitive products, and the Company's general compensation practices.

Discretionary bonuses for each of the Company's executive officers are based on achievement of specified goals of the Company and are a function of the criteria which the Compensation Committee believes appropriately take into account the specific areas of responsibility of the particular officer. After considering the status of the Company's finances, the board of directors did not award a bonus to Dr. Calhoun nor to any other officer for 2001. Furthermore, no raises in salary were approved for Executive Officers in 2001.

The Compensation Committee typically recommends the grant of stock options to executive officers and other employees with the purpose of aligning the executive officers and other employees with the interests of stockholders and encouraging a long-term focus in managing the Company. From time to time, the Compensation Committee evaluates this policy in light of the market and competitive factors. The exercise price of these stock options is generally the fair market value of the Common Stock on the dates of grant. Vesting periods are used to retain key employees and to emphasize the long-term aspect of contribution and performance. In recommending stock option grants to executives under the Plan, the Compensation Committee considers a number of factors, including the performance of the executive, achievement of goals, the responsibilities of the executive, review of compensation of executives in high technology companies at a comparable stage of development, and review of the number of stock options each executive currently possesses. Stock options were granted by the board of directors to Drs. Abdelmonem and Calhoun and Mr. Craig in February 2001 and to Mr. Willes in February and August 2001.

Compensation of Chief Executive Officer. Dr. George Calhoun was appointed as Chief Executive Officer in November 1999 and served as Chief Executive Officer during 2001. He also was appointed Chairman of the Board in November 2000 and continued in that roll in 2001. His compensation package of salary, stock options and bonus potential was determined by establishing a base competitive with those paid by other high-tech wireless systems technology companies. A base salary of \$250,000 was determined for Dr. Calhoun for 2001. A bonus potential up to 50% of his base salary is contingent upon achieving corporate and individual performance goals to be set by the board of directors. In addition, a grant of options to purchase common stock for 1,200,000 shares was approved in February 2001. These grants were designed to provide Dr. Calhoun with a continuing incentive to remain with the Company and contribute to corporate success.

Compliance with Section 162(m). The Compensation Committee generally intends for compensation paid to the executive officers to be tax deductible to the Company pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended (Section 162(m)). Section 162(m) provides that compensation paid to the executive officers in excess of \$1,000,000 cannot be deducted by the Company for Federal income tax purposes. However, this limitation does not apply to performance-based compensation, provided that certain

Table of Contents

conditions are satisfied. Although the Company's policy is generally to preserve the federal income tax deductibility of compensation paid, the Compensation Committee retains the authority to approve payments that may not be deductible if it believes that such payments are in the best overall interests of the Company and its stockholders.

Option Repricing. In February 2001, the board of directors, upon recommendation of the Compensation Committee reduced the exercise price of all options granted to employees and directors during the calendar year of 2000 that had an exercise price above \$1.94 (including options held by executive officers of the Company). The options were repriced to \$1.94, the closing price of the Company's Common Stock on the OTC Bulletin Board on the date of the repricing. This action was taken because the options no longer provided the anticipated incentive to the option holders due to the difference in price between the exercise price and the market price of the Company's Common Stock arising from the significant volatility of the Company's share price during 2000. The table set forth under "Ten Year Option" provides more information on the repricing of such options.

Additionally, the vesting schedule of all options granted to employees of the Company during the calendar year of 2000 which had a vesting schedule of 10% at the end of Year 1, 20% at the end of Year 2, 30% at the end of Year 3 and 40% at the end of Year 4 were amended, retroactively to the date of each respective option grant date, to provide for vesting on the following schedule: 25% on the first anniversary of the option grant date and the remainder to vest on a monthly basis thereafter until completely vested in four years. This change was made to provide employees with more near-term incentives to work for the success of the Company. The options granted to employees of the Company pursuant to the Plan were also amended to provide that the option holder may exercise any or all of the vested options for a period of up to two years from the option holder's date of termination from the Company except in the situations in which an employee is terminated for cause (as defined in the Plan). This change was made so as to not require employees who are terminated to exercise their options in only thirty days.

THE FOLLOWING REPORT OF THE AUDIT COMMITTEE WILL NOT BE DEEMED INCORPORATED BY REFERENCE BY ANY GENERAL STATEMENT INCORPORATING BY REFERENCE THIS PROXY STATEMENT INTO ANY FILING UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED, EXCEPT TO THE EXTENT THAT WE SPECIFICALLY INCORPORATE THIS INFORMATION BY REFERENCE. THE FOLLOWING REPORT SHALL NOT OTHERWISE BE DEEMED FILED UNDER SUCH ACTS.

Report of the Audit Committee

The Audit Committee of the board of directors is composed of three non-employee directors. The role of the Audit Committee is to assist the board of directors in its oversight of the Company's financial reporting process. The board of directors, in its business judgment, has determined that each member of the audit committee is independent as defined in Rule 420D(a)(15) of the National Association of Securities Dealers' listing standards. The Committee operates pursuant to a charter that was last amended and restated by the Board on January 29, 2002, a copy of which is attached to this Proxy Statement as Appendix A. As set forth in the charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles.

In the performance of its oversight function, the Committee has reviewed and discussed the audited financial statements with management and its independent auditors. The Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as currently in effect. Finally, the Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as currently in effect, and has considered whether the provision of non-audit services by the independent auditors to the Company is compatible with maintaining the auditor's independence and has discussed with the auditors the auditors' independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including in respect of auditor independence. Members of the Committee rely without independent verification on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal control and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the company's auditors are in fact independent.

Based upon the review, reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Committee referred to above and in the charter, the Committee recommended to the board of directors that the audited financial statements be included in the Company's

The graph and table assume that \$100 was invested on December 31, 1996 in each of the Company's common stock, the Nasdaq Market Index and the JP Morgan H&Q Technology Index, and that all dividends were reinvested. PROPOSAL 2

Amendment of the Company's Certificate of Incorporation

To Effect a Reverse Stock Split

The board of directors has unanimously adopted resolutions approving, and recommending to the Company's stockholders for their approval, (i) a reverse stock split at the exchange ratio of either ten (10) for one (1), or six (6) for one (1) at the Board's discretion; (ii) an amendment to the Company's Certificate of Incorporation to effect the reverse stock split; and (iii) authorization of any other action it deems necessary to effect the reverse stock split, without further approval or authorization of the Company's stockholders. The board of directors may effect either of the reverse stock splits approved by the stockholders or decide not to effect a reverse stock split based on its determination of which will best achieve its corporate objectives. The reverse stock split will be effected by reducing the number of outstanding shares of Common Stock by the chosen ratio, but will not increase the par value of the Common Stock, and will not change the number of authorized shares of Common Stock. The two proposed forms of amendment to the Certificate of Incorporation effecting each of the possible ratios of the reverse stock split are attached to this proxy as Appendix B and Appendix C.

If the reverse stock split proposal is approved by the Company's stockholders, the board of directors will have the discretion to implement one of the reverse stock splits at any time before the first anniversary of this Annual Meeting, or abandon the proposal and effect no reverse stock split at all. The reverse stock split will be effected, if at all, only upon a determination by the board of directors that the reverse stock split is in the best interests of the Company and its stockholders at that time. No further action on the part of the stockholders will be required to either effect or to abandon the reverse stock split. If no reverse stock split is effected by the first anniversary of this Annual Meeting, the board of directors' authority to effect the reverse stock split will terminate and subsequent stockholder approval would be required prior to implementing any reverse stock split.

Reasons for the Reverse Stock Split. The Company's Common Stock was delisted from the Nasdaq National Market in June 1999 due to its inability to meet the net tangible assets requirement for continued listing. Our Common Stock is currently listed on the over the counter bulletin board, which is generally considered to be a less efficient market than Nasdaq or other exchanges. The Company believes it is in the best interests of the Company and its stockholders to become listed on the American Stock Exchange (AMEX). Accordingly, the Company submitted an application for listing in August, 2001. The Company believes that listing on AMEX will enhance the Company's credibility and reputation and facilitate the Company's access to capital and increase visibility and ownership by a broader base of stockholders while also enhancing stockholder liquidity. In order to be eligible for listing on AMEX, the Company must have and maintain, among other criteria, a minimum bid price of \$3.00. Our Common Stock has not traded above \$3.00 since November 2000, has not traded above \$2.50 during 2001, and the average of the closing prices of the Common Stock over the twenty trading days prior to the date of this Proxy Statement was \$0.56 per share. AMEX has proposed changes to their initial listing standards which would provide for a market capitalization standard (which the Company believes it meets) in addition to existing standards and would not contain a minimum share price requirement. However there is no assurance whether or when this proposal would be adopted or implemented. The Company has had a number of discussions with AMEX and the Company believes that it meets all AMEX listing standards other than the minimum trading price and that once the Company establishes that it meets the minimum stock trading price criteria, its application should be approved, although the Company has not received assurances of approval from AMEX.

The sole purpose of a reverse stock split is to decrease on a pro rata basis among all stockholders the number of issued and outstanding shares and thereby increase the market price of our Common Stock to a level which exceeds the AMEX listing requirements. The board of directors intends to effect one of the alternative reverse stock splits only if it believes that a decrease in the number of shares outstanding is likely to improve the trading price for our Common Stock and improve the likelihood that the Company will be listed on AMEX. If the trading price of our Common Stock increases without a reverse stock split or if the proposed

Table of Contents

AMEX rule change is approved and the Company satisfies the new listing criteria, a reverse stock split may not be necessary.

Effects of the Reverse Stock Split. Pursuant to the reverse stock split, each holder of Common Stock, par value \$.001 per share, immediately prior to the effectiveness of the reverse stock split will become the holder of fewer shares of Common Stock, par value \$.001 per share (New Common Stock), after consummation of the reverse stock split. The Company has authorized capital consisting of 250,000,000 shares of Common Stock and 300,000 shares of preferred stock. If effected at the ratio of ten (10) for one (1) the reverse stock split will reduce the number of issued and outstanding shares of Common Stock from 147,944,927 as of the record date of the stockholders meeting to approximately 14,794,492 shares as of the Effective Date (as defined below) without a reduction in the number of authorized shares of capital stock. If effected at a ratio of six (6) for one (1) the reverse stock split will reduce the number of issued and outstanding shares of Common Stock from 147,944,927 as of the record date of the stockholders meeting to approximately 24,657,488 shares as of the Effective Date (as defined below). If additional shares of Common Stock are issued, the actual number of shares issued and outstanding before and after the reverse stock split will increase accordingly.

With the exception of the number of shares issued and outstanding, the rights and preferences of the shares of Common Stock prior and subsequent to the reverse stock split will remain the same. With the limited exception of stockholders who own fractional shares interests after a reverse stock split, the proportionate ownership interests of stockholders will not be affected by a reverse stock split. After the effectiveness of the reverse stock split, it is not anticipated that the financial condition of the Company, the percentage ownership of management, the number of the Company's stockholders, or any aspect of the Company's business would materially change as a result of the reverse stock split.

The Common Stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and as a result, the Company is subject to the periodic reporting and other requirements of the Exchange Act. The proposed reverse stock split will not affect the registration of the Common Stock under the Exchange Act.

If approved, the reverse stock split will result in some stockholders owning odd-lots of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in round-lots of even multiples of 100 shares.

Market Price of Common Stock The board of directors believes that if the aggregate market cap of our Common Stock remains the same, the effect reducing the number of issued and outstanding shares of Common Stock will be to increase its market price. However, there is no guarantee that the reverse stock split will accomplish the Company's desired objective as the trading markets are not scientific and are not always completely efficient. Although the reverse stock split will not, by itself, impact the Company's assets or prospects, the reverse stock split could result in a decrease in the aggregate market value of the Common Stock and thus the aggregate market value of your stock. There can be no assurance that the market price of our Common Stock will rise in direct proportion to the reduction in the number of outstanding shares resulting from the reverse stock split, that the market price of the post-split Common Stock can be maintained above \$3.00, that the proposed changes to the AMEX listing standards will be approved or that our Common Stock will be approved for listing on AMEX. The Company's small public float could also adversely effect the outcome of the reverse split as could the inefficiencies of the OTC Bulletin Board. Additionally, a variety of factors effecting the markets in general, the telecommunications industry in particular and the Company's operations could effect the market price at any given time.

The board of directors believes that these risks are outweighed by the benefits to stockholders and the Company of listing of the Common Stock on the AMEX.

Table of Contents

Increase of Shares of Common Stock Available for Future Issuance. As a result of the reverse stock split, there will be a reduction in the number of shares of Common Stock issued and outstanding, and an associated increase in the number of authorized shares which would be unissued and available for future issuance after the reverse stock split (the "Increased Available Shares"). The Increased Available Shares could be used for any proper corporate purpose approved by the board of directors including, among others, future financing transactions. The issuance of additional shares of common stock and/or rights to purchase common stock at prices below market value would be dilutive to existing stockholders and could have an adverse effect on the market value of the Common Stock. Holders of the Common Stock have no preemptive or other subscription rights.

Effectiveness of the Reverse Stock Split. If the reverse stock split is approved at the Annual Meeting and effected by the board of directors, the board of directors will fix a record date for determination of shares subject to the reverse stock split. As of the date of this Proxy Statement, the board of directors had not fixed a record date for the reverse stock split. The reverse stock split, if approved by the Company's stockholders, will become effective (the "Effective Date") upon the filing with the Secretary of State of the State of Delaware an Amendment to the Certificate of Incorporation of the Company in the form attached to this proxy as Appendix B or Appendix C. The exact timing of the filing of such Amendment will be determined by the board of directors based upon its evaluation as to whether and when such action will be most advantageous to the Company and its stockholders, and the board of directors reserves the right, notwithstanding stockholder approval and without further action by the stockholders, to abandon this proposal and elect not to proceed with either reverse stock split if, at any time prior to filing such Amendment, the board of directors, in its sole discretion, determines that it is no longer in the best interests of the Company and its stockholders.

Effect on Options and Convertible Securities All outstanding options, warrants, rights and convertible securities will be appropriately adjusted, as required by their terms, for the reverse stock split automatically on the Effective Date. The reverse stock split will affect all stockholders equally and will not affect any stockholder's proportionate equity interest in the Company. None of the rights currently accruing to holders of the Common Stock, options or warrants to purchase Common Stock, or securities convertible into Common Stock will be affected by the reverse stock split. Following the reverse stock split, each share of New Common Stock will entitle the holder thereof to one vote per share and will otherwise be identical to the Old Common Stock. The reverse stock split also will have no effect on the number of authorized shares of Common Stock or the par value of the Common Stock.

Exchange of Certificates Commencing on the Effective Date, each Old Common Stock certificate will be deemed for all corporate purposes to evidence ownership of the reduced number of shares of New Common Stock resulting from the reverse stock split. As soon as practicable after the Effective Date, stockholders will be notified as to the effectiveness of the reverse stock split and instructed as to how and when to surrender their certificates representing shares of Old Common Stock in exchange for certificates representing shares of New Common Stock. The Company intends to use LaSalle Bank N.A. as its exchange agent in effecting the exchange of certificates following the effectiveness of the reverse stock split.

Fractional Shares. The Company will not issue fractional shares in connection with the reverse stock split. Instead, if any fractional share results from the reverse stock split, the Company shall pay to the stockholder in cash the fair value of such share at the time of the reverse stock split based on the closing price of the Company's common stock on the OTC Bulletin Board on the Effective Date of the reverse stock split.

Certain Federal Income Tax Consequences. The following discussion summarizing certain federal income tax consequences of the reverse stock split is based on the Internal Revenue Code of 1986, as amended, applicable Treasury Regulations promulgated thereunder, judicial authority, and current administrative rulings and practices in effect on the date of this Proxy Statement, all of which are subject to change (possibly with retroactive effect). This discussion is for general information only and does not discuss consequences which may apply to special classes of taxpayers (e.g., non-resident aliens, broker-dealers or insurance companies). In addition, this summary applies only to stockholders that hold their Old Common Stock as capital assets. This discussion does not address any tax consequences under the laws of any state,

Table of Contents

local or foreign jurisdiction. STOCKHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE PARTICULAR CONSEQUENCES TO THEM.

No gain or loss will be recognized by the Company as a result of the reverse stock split.

No gain or loss will be recognized by a stockholder upon the reverse stock split, except with respect to the receipt of cash in lieu of a fractional share. The aggregate adjusted tax basis of a stockholder's New Common Stock will be the same as the adjusted tax basis of the shares of Old Common Stock exchanged therefor, reduced by any tax basis allocable to a fractional share, and the holding period of the New Common Stock will include the holding period of the Old Common Stock exchanged therefor.

A stockholder who receives cash in lieu of a fractional share generally should recognize gain or loss equal to the difference, if any, between the amount of cash received and the stockholder's basis in the fractional share. Such gain or loss will constitute capital gain or loss and will constitute long-term capital gain or loss if the stockholder held the Old Common Stock for more than one year as of the date of the reverse stock split.

Appraisal Rights. No appraisal rights are available under Delaware Corporate Law or under the Company's Certificate of Incorporation or By-Laws to any stockholder who dissents from the proposal to approve the reverse stock split Amendment. There may exist other rights or actions under state law for stockholders who are aggrieved by reverse stock splits generally. Although the nature and extent of such rights or actions are uncertain and may vary depending upon the facts or circumstances, stockholder challenges to corporate action in general are related to the fiduciary responsibilities of corporate officers and directors and to the fairness of corporate transactions.

Required Vote. The affirmative vote of a majority of all outstanding Common Stock entitled to vote at the Meeting is required to approve the foregoing proposal. Abstentions and broker non-votes are not considered votes cast and thus have the effect of a vote against the proposal. In the absence of instructions to the contrary, duly executed proxies covering the Common Stock will be voted for the amendment.

Recommendation of the Board of Directors. **The board of directors recommends a vote FOR the proposed the amendment to the Certificate of Incorporation to effect a reverse stock split.**

PROPOSAL 3

AMENDMENT OF THE

**COMPANY S CERTIFICATE OF INCORPORATION
TO DELETE ARTICLE 11**

The board of directors has unanimously adopted a resolution approving, and recommending to the Company s stockholders for their approval, a proposal to delete Article 11 of the Company s Certificate of Incorporation. Article 11 of the Company s Certificate of Incorporation currently provides that any action required or permitted to be taken by the stockholders must be taken at a duly convened annual or special meeting of such stockholders, and may not be taken by consent in writing of such holders without a meeting. The deletion of Article 11 will permit the stockholders to take action by written consent without a meeting in accordance with Section 228 of the Delaware General Corporation Law (the DGCL).

Delaware and Federal Securities Law. Section 228 of the DGCL provides that unless otherwise provided in the Certificate of Incorporation, any action that is required to be taken or that may be taken at an annual or special meeting of stockholders may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, are signed by the holders of outstanding stock representing not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. If stockholders take corporate action without a meeting by less than unanimous written consent, prompt notice of such action must be given to stockholders who did not consent in writing and who, if the action has been taken at a meeting, would have been entitled to notice of such meeting.

Additionally, Rule 14c-2 promulgated under the Exchange Act of 1934, as amended, requires that the Company mail a written information statement containing descriptive information about such corporate action approved by the written consent of stockholders to every stockholder otherwise entitled to vote on a corporate action approved by the written consent of stockholders. The rule requires that the information statement be mailed at least twenty days prior to the earliest date on which such approved action may be affected.

This proposal, if approved by the stockholders, would become effective upon the filing with the Secretary of State of the State of Delaware an amendment to the Certificate of Amendment attached hereto as *Appendix B* and *Appendix C* which will delete Article 11 in its entirety.

Reasons for the Amendment. The purpose of the amendment is to enable stockholders to utilize Section 228 of the DGCL which allows a majority of a company s stockholders to take action by partial written consent. The board of directors believes that the additional flexibility provided by this option is valuable and could be used to reduce the time and expense associated with holding a special meeting of stockholders each time it wants to take action which require stockholder approval. Additionally, the board believes that the amendment is in the best interests of stockholders as the prohibition of action by stockholder consent no longer serves the purpose for which it was originally intended.

Effect of Amendment. By permitting action to be taken by stockholders without an annual or special meeting, the Company hopes to save the expense and delay associated with holding a special meeting each time it wants to take action requiring stockholder approval. The effect of this proposal would be that any one or more stockholders who own more than fifty percent of the Company s Common Stock would be able to approve any actions requiring stockholder approval, without calling or holding a meeting of all of the stockholders to consider the action. Currently, more than seventy percent of the Company s Common Stock is held by Elliott Associates, L.P. and Elliott International, L.P. (collectively, Elliott) and Alexander Finance, LP. If Elliott and Alexander were to act together or if either Elliott or Alexander were to act with certain other stockholders, they could vote a majority of the outstanding shares of the Company s Common Stock. Additionally, two members of the board of directors are affiliated with Elliott.

In accordance with federal securities laws, minority stockholders would continue to receive notice of any action to be taken in advance of the consent, however, the proposal would limit the opportunity of minority stockholders to participate in the discussion of any proposed action, and minority stockholders may not be given the opportunity to vote on such matters.

Table of Contents

The Company has applied for listing on the AMEX stock market and if approved for listing, the Company would become subject to the AMEX rules. The AMEX rules currently permit action by stockholder consent only upon prior AMEX review and approval. The use of consents is granted by AMEX on an individual basis subject to the observance of certain AMEX requirements including, among others, the condition that consents conforming to the proxy-solicitation regulations of the SEC be solicited from all stockholders of record. Additional AMEX rules (i) limit the use of stockholder consents to issues on which no substantial controversy is anticipated; (ii) require that corporate action may not be taken on the matters presented for stockholders' consideration until a consent solicitation period of a minimum of 20 days has expired, even if the required number of consents is received earlier and (iii) prohibit action by stockholder consent in certain circumstances. AMEX has proposed changes to these rules which would permit broader use of stockholder consents, however such changes would require SEC approval and there can be no assurance that the proposed rules will be approved by the SEC.

The Company intends to continue to hold annual meetings of stockholders for the purpose of electing directors and bringing other corporate actions to the stockholders and does not have a present intent to propose that any particular action be taken by written consent of stockholders.

Required Vote. The affirmative vote of all outstanding Common Stock entitled to vote at the Annual Meeting is required to approve the foregoing proposal. Neither the DCGL nor the Company's Certificate of Incorporation requires that the Company obtain the approval of a majority of the unaffiliated stockholders. Abstentions and broker non-votes are not considered votes cast and thus have the effect of a vote against the proposal. In the absence of instructions to the contrary, proxies covering Common Stock will be voted for the Amendment.

Recommendation of the Board of Directors. The board of directors recommends a vote **FOR** the amendment to the Certificate of Incorporation to delete Article 11 and permit stockholder action by written consent.

Table of Contents**PROPOSAL 4****RATIFICATION OF APPOINTMENT OF AUDITORS**

The board of directors, upon the recommendation of the Audit Committee, has appointed Grant Thornton LLP (Grant Thornton), independent certified public accountants, as auditors of the Company's financial statements for 2002. Grant Thornton has acted as auditors for the Company since December 2000.

The board of directors has determined to afford stockholders the opportunity to express their opinions on the matter of auditors, and, accordingly, is submitting to the stockholders at the Annual Meeting a proposal to ratify the board of directors' appointment of Grant Thornton. If a majority of the shares voted at the Annual Meeting, in person or by proxy, are not voted in favor of the ratification of the appointment of Grant Thornton, the board of directors will interpret this as an instruction to seek other auditors.

Change in Accountants. On December 7, 2000, the Company informed its independent accountants, Ernst & Young LLP (E&Y), that the Company intended to retain a different firm of independent auditors for the audit of its financial statements for the fiscal year ended December 31, 2000. E&Y previously audited the financial statements of the Company for the years ended December 31, 1998 and 1999.

E&Y's report on the Company's financial statements for the periods ended December 31, 1998 and December 31, 1999 did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles, except that the reports had an explanatory paragraph which stated that, because of the Company's history of operating losses and because of its need to obtain additional financing, the financial statements of the Company had been prepared assuming that the Company would continue as a going concern. In addition, during its audits for the fiscal years ended December 31, 1998 and 1999, (i) there were no disagreements with E&Y on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to E&Y's satisfaction, would have caused E&Y to make reference to the subject matter of such disagreements in their reports, and (ii) there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K under the Exchange Act.

The Company's Audit Committee and board of directors authorized the dismissal of E&Y and retention of Grant Thornton to audit the Company's financial statements for the fiscal year ended December 31, 2000. The Company retained Grant Thornton as its independent accountants effective December 7, 2000.

Grant Thornton has examined the financial statements of the Company for the year December 31, 2001. The Company expects representatives of Grant Thornton to be present at the Annual Meeting and to be available to respond to appropriate questions from stockholders. The representatives of Grant Thornton will have the opportunity to make a statement at the meeting if they desire to do so.

Solicitation. The cost of this proxy solicitation will be borne by the Company. The regular employees of the Company may solicit proxies in person or by telephone or facsimile. The Company may request banks, brokers, fiduciaries, custodians, nominees and certain other record holders to send proxies, proxy statements and other materials to their principals at the Company's expense. Such banks, brokers, fiduciaries, custodians, nominees and other record holders will be reimbursed by the Company for their reasonable out-of-pocket expenses of solicitation.

Stockholder Proposals for 2003 Annual Meeting. The Company intends to mail next year's proxy statement to our stockholders on or about May 8, 2003. Applicable law requires any stockholder proposal intended to be presented at our 2003 Annual Meeting of Stockholders to be received by us at our executive offices in Mt. Prospect, Illinois on or before January 8, 2003 in order to be considered for inclusion in our proxy statement and form of proxy for that annual meeting.

On May 21, 1998, the Securities and Exchange Commission adopted an amendment to Rule 14a-4, issued under the Securities Exchange Act of 1934. The amendment to Rule 14a-4(c)(1) governs a company's use of discretionary proxy voting authority for a stockholder proposal which the stockholder has not sought to include in our proxy statement. The amendment provides that if a proponent of a proposal fails to notify a company at least 45 days prior to the month and day of mailing of the prior year's proxy statement (or any date specified in an advance notice provision), then the management proxies will be allowed to use their discretionary voting authority when the proposal is raised at the meeting, without any discussion of the matter in the proxy statement.

With respect to the Company's 2003 Annual Meeting of Stockholders, if the Company is not provided notice of a stockholder proposal, which the stockholder has not previously sought to include in the Company's proxy statement, by March 24, 2003 the management proxies will be allowed to use their discretionary authority.

Other Business. The board of directors is not aware of any other matters to be presented at the Annual Meeting other than those mentioned in the Company's Notice of Annual Meeting of Stockholders enclosed herewith. If any other matters are properly brought before the Annual Meeting, however, it is intended that the persons named in the proxy will vote as the board of directors directs.

ISCO INTERNATIONAL, INC., a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware (the Corporation), **DOES HEREBY CERTIFY:**

FIRST: That, at a meeting held on April 30, 2002 in accordance with Section 141(b) of the General Corporation Law of the State of Delaware, the Board of Directors of the Corporation adopted a resolution setting forth the proposed Amendment to Certificate of Incorporation set forth below (the Amendment), declaring its advisability, and submitting it to the stockholders entitled to vote in respect thereof. The resolution setting forth the proposed amendment is as follows:

RESOLVED, that the first sentence of Article 4, Section 4.1 of the Certificate of Incorporation, as amended, of the Corporation is hereby amended, subject to stockholder approval, to add the following paragraphs:

On the Split Effective Date (as defined below), the Corporation shall effect a ten (10) for one (1) reverse stock split pursuant to which every ten (10) shares of the Corporation's Common Stock issued and outstanding or held in treasury will be automatically converted into one (1) new share of Common Stock (the Reverse Stock Split). The Reverse Stock Split shall be effective as of the close of business on such date that the Amendment is filed with the Secretary of State of the State of Delaware, as determined by the Corporation's Board of Directors, but in no event later than June 10, 2003 (the Split Effective Date). The Corporation shall not issue fractional shares to the stockholders entitled to a fractional interest in a share of Common Stock issued pursuant to the Reverse Stock Split but instead, if any fractional share results from the Reverse Stock Split, the Corporation shall pay to the stockholder in cash the fair value of such share at the time of the Reverse Stock Split.

On the Split Effective Date, each certificate representing existing shares of Common Stock will automatically be deemed for all purposes to evidence ownership of the appropriate reduced number of new shares of Common Stock without any action by the stockholder thereof. As soon as practicable after the Split Effective Date, the Corporation or its agent shall notify the stockholders and request the surrender of their certificates for their existing shares with instructions as to how to receive new certificates and/or payment for their fractional new share interest.

The shares of Common Stock issued pursuant to the Reverse Stock Split shall be identical to the shares of Common Stock they are exchanged for.

RESOLVED, that Article 11 of the Certificate of Incorporation, as amended, of the Corporation is hereby deleted in its entirety, subject to stockholder approval.
