Table of Contents

**UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549
FORM 10-Q**

(mark one)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the Quarterly Period Ended September 30, 2006

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from _____ to _____.

Commission File Number 001-31950

MoneyGram International, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

16-1690064
(I.R.S. Employer
Identification No.)

1550 Utica Avenue South, Minneapolis, Minnesota
(Address of principal executive offices)

55416
(Zip Code)

(952) 591-3000

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of November 6, 2006, 84,050,387 shares of Common Stock, \$0.01 par value, were outstanding.

Table of Contents

**MONEYGRAM INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of MoneyGram International, Inc. (MoneyGram or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature. Operating results for the three and nine month periods ended September 30, 2006 are not necessarily indicative of the results that may be expected for future periods. For further information, refer to the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2005.

2. Consolidation of Special Purpose Entities

Special purpose entities (SPEs) are trusts, partnerships or corporations established for a particular limited purpose. The Company participates in various trust arrangements (special purpose entities) related to official check processing agreements with financial institutions and structured investments within the investment portfolio. The Company has determined that these special purpose entities meet the definition of a variable interest entity under Financial Interpretation (FIN) 46R, *Consolidation of Variable Interest Entities*, and must be included in our consolidated financial statements.

Working in cooperation with certain financial institutions, the Company has established separate consolidated entities (special-purpose entities) and processes that provide these financial institutions with additional assurance of our ability to clear their official checks. These processes include maintenance of specified ratios of segregated investments to outstanding payment instruments, typically 1 to 1. In some cases, alternative credit support has been purchased that provides backstop funding as additional security for payment of instruments. However, the Company remains liable to satisfy the obligations, both contractually and by operation of the Uniform Commercial Code, as issuer and drawer of the official checks. Accordingly, the obligations have been recorded in the Consolidated Balance Sheets under

Payment service obligations. Under certain limited circumstances, clients have the right to either demand liquidation of the segregated assets or to replace us as the administrator of the special-purpose entity. Such limited circumstances consist of material (and in most cases continued) failure of MoneyGram to uphold its warranties and obligations pursuant to its underlying agreements with the financial institution clients. While an orderly liquidation of assets would be required, any of these actions by a client could nonetheless diminish the value of the total investment portfolio, decrease earnings, and result in loss of the client or other customers or prospects. The Company offers the special purpose entity to certain financial institution clients as a benefit unique in the payment services industry. Certain structured investments the Company owns represent beneficial interests in grantor trusts or other similar entities. These trusts typically contain an investment grade security, generally a U.S. Treasury strip, and an investment in the residual interest in a collateralized debt obligation, or in some cases, a limited partnership interest. For certain of these trusts, the Company owns a percentage of the beneficial interests which results in the Company absorbing a majority of the expected losses. Therefore, the Company consolidates these trusts by recording and accounting for the assets of the trust separately in the consolidated financial statements.

The Company follows the accounting guidance in Statement of Financial Accounting Standards (SFAS) No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities*, to determine whether or not SPEs are qualifying SPEs (a QSPE). A QSPE is an entity with significantly limited permissible activities which are entirely specified in the legal documents establishing the SPE and may only be significantly changed with the approval of the holders of at least a majority of the beneficial interests held by parties other than the sponsoring company. If the Company has a variable interest in a QSPE, or is a sponsor of an SPE that does not meet the criteria required to be a QSPE, the Company follows the accounting guidance in FIN 46R to determine if the Company is required to consolidate the SPE.

Table of Contents**3. Acquisitions**

On May 31, 2006, MoneyGram completed the acquisition of Money Express, the Company's former super agent in Italy. In connection with the acquisition, the Company formed MoneyGram Payment Systems Italy, a wholly-owned subsidiary, to operate the former Money Express network. The acquisition provides the Company with the opportunity for further network expansion and more control of marketing and promotional activities in the region.

MoneyGram acquired Money Express for \$15.0 million, subject to purchase price adjustments. The acquisition cost includes \$1.3 million of transaction costs and the forgiveness of \$0.7 million of liabilities. During the third quarter of 2006, the Company received a purchase price adjustment of \$6.0 million. The Company is in the process of finalizing the valuation of intangible assets and deferred taxes from this acquisition, among other items, which may result in adjustment to the purchase price allocation. Purchased intangible assets of \$7.3 million, consisting primarily of agent contracts and a non-compete agreement, will be amortized over useful lives ranging from 3 to 5 years. Preliminary goodwill of \$15.3 million was recorded and assigned to our Global Funds Transfer segment.

The operating results of Money Express subsequent to May 31, 2006 are included in the Company's Consolidated Statement of Income. The financial impact of the acquisition is not material to the Consolidated Balance Sheet or Consolidated Statement of Income.

4. Unrestricted Assets

The Company is regulated by various state agencies which generally require us to maintain liquid assets and investments with an investment rating of A or higher in an amount generally equal to the payment service obligation for those regulated payment instruments, namely teller checks, agent checks, money orders, and money transfers. Consequently, a significant amount of cash and cash equivalents, receivables and investments are restricted to satisfy the liability to pay the face amount of regulated payment service obligations upon presentment. The Company is not regulated by state agencies for payment service obligations resulting from outstanding cashier's checks; however, the Company restricts a portion of the funds related to these payment instruments due to contractual arrangements and/or Company policy. Assets restricted for regulatory or contractual reasons are not available to satisfy working capital or other financing requirements. The regulatory and contractual requirements do not require the Company to specify individual assets held to meet our payment service obligations; nor is the Company required to deposit specific assets into a trust, escrow or other special account. Rather, the Company must maintain a pool of liquid assets. No third party places limitations, legal or otherwise, on the Company regarding the use of its individual liquid assets. The Company is able to withdraw, deposit and/or sell its individual liquid assets at will, with no prior notice or penalty, provided the Company maintains a total pool of liquid assets sufficient to meet the regulatory and contractual requirements. The Company has unrestricted cash and cash equivalents, receivables and investments to the extent those assets exceed all payment service obligations. These amounts are generally available; however, management considers a portion of these amounts as providing additional assurance that regulatory requirements are maintained during the normal fluctuations in the value of investments. The following table shows the total amount of unrestricted assets at September 30, 2006, and December 31, 2005:

(Dollars in thousands)	September 30 2006	December 31 2005
Cash and cash equivalents (substantially restricted)	\$ 886,395	\$ 866,391
Receivables (substantially restricted)	1,602,153	1,325,622
Investments (substantially restricted)	5,761,583	6,233,333
	8,250,131	8,425,346
Amounts restricted to cover payment service obligations	(7,878,315)	(8,059,309)
Unrestricted assets	\$ 371,816	\$ 366,037

Table of Contents**5. Investments (Substantially Restricted)**

The amortized cost and fair value of investments were as follows at September 30, 2006:

(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Market Value

Total	\$6,171,577	\$106,959	\$(45,203)	\$6,233,333

All securities were classified as available-for-sale at September 30, 2006 and December 31, 2005. The amortized cost and fair value of securities at September 30, 2006 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations, sometimes without call or prepayment penalties. Maturities of mortgage-backed and other asset-backed securities depend on the repayment characteristics and experience of the underlying obligations.

(Dollars in thousands)	Amortized Cost	Market Value
In one year or less	\$ 23,683	\$ 23,810
After one year through five years	575,019	585,107
After five years through ten years	533,249	547,666
After ten years	343,814	351,759
Mortgage-backed and other asset-backed securities	4,214,016	4,225,706

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-Q

Preferred and common stock	30,175	27,535
Total	\$ 5,719,956	\$ 5,761,583

Table of Contents

At September 30, 2006 and December 31, 2005, net unrealized gains of \$41.6 million (\$25.8 million net of tax) and \$61.8 million (\$38.3 million net of tax), respectively, are included in the Consolidated Balance Sheets in Accumulated other comprehensive (loss) income. During the three and nine months ended September 30, 2006, \$0.5 million and \$1.1 million, respectively, was reclassified from Accumulated other comprehensive income to earnings in connection with the sale of the underlying securities, as compared to \$1.0 million and \$1.3 million for the three and nine months ended September 30, 2005, respectively. Gross realized gains and losses on sales of securities and other-than-temporary impairments were as follows:

(Dollars in thousands)	Three Months Ended September 30		Nine Months Ended September 30	
	2006	2005	2006	2005
Gross realized gains	\$ 1,552	\$ 60	\$ 4,399	\$ 7,544
Gross realized losses	(1,330)	(372)	(2,598)	(4,864)
Other-than-temporary impairments	(1,091)	(1,312)	(3,529)	(4,740)
Net securities gains and losses	\$ (869)	\$ (1,624)	\$ (1,728)	\$ (2,060)

At September 30, 2006, the investment portfolio had the following aged unrealized losses:

(Dollars in thousands)	Less than 12 months		12 months or More		Total	
	Market Value	Unrealized Losses	Market Value	Unrealized Losses	Market Value	Unrealized Losses
Obligations of states and political subdivisions	\$ 5,174	\$ (23)	\$ 42,690	\$ (319)	\$ 47,864	\$ (342)
Commercial mortgage-backed securities	116,502	(1,162)	115,284	(1,186)	231,786	(2,348)
Residential mortgage-backed securities	1,426,424	(22,860)	14,756	(484)	1,441,180	(23,344)
Other asset-backed securities	302,833	(3,682)	244,300	(4,576)	547,133	(8,258)
U.S. government agencies	49,569	(529)	271,783	(5,831)	321,352	(6,360)
Corporate debt securities	95,885	(208)	39,965	(621)	135,850	(829)
Preferred and common stock	5,613	(95)	11,844	(2,621)	17,457	(2,716)
	\$2,002,000	\$ (28,559)	\$740,622	\$ (15,638)	\$2,742,622	\$ (44,197)

At December 31, 2005, the investment portfolio had the following aged unrealized losses:

(Dollars in thousands)	Less than 12 months		12 months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Obligations of states and political subdivisions	\$ 62,783	\$ (529)	\$	\$	\$ 62,783	\$ (529)

Table of Contents

The Company has determined that the unrealized losses reflected above represent temporary impairments. Eighty and sixty-one securities had unrealized losses for more than twelve months as of September 30, 2006 and December 31, 2005, respectively. The Company believes that the unrealized losses generally are caused by liquidity discounts and risk premiums required by market participants in response to temporary market conditions, rather than a fundamental weakness in the credit quality of the issuer or underlying assets or changes in the expected cash flows from the investments. Temporary market conditions at September 30, 2006 are primarily due to changes in interest rates. The Company has both the intent and ability to hold these investments to maturity.

Of the \$44.2 million of unrealized losses at September 30, 2006, \$0.1 million relates to one preferred stock and one asset-backed security, which each have an unrealized loss greater than 20 percent of amortized cost. These securities were evaluated considering factors such as the financial condition and near and long-term prospects of the issuer and deemed to be temporarily impaired. The remaining \$44.1 million of unrealized losses at September 30, 2006 relates to securities with an unrealized loss position of less than 20 percent of amortized cost, the degree of which suggests that these securities do not pose a high risk of being or becoming other than temporarily impaired. Of these securities, \$35.6 million relates to unrealized losses on investment grade fixed income securities. Investment grade is defined as a security having a Moody's equivalent rating of Aaa, Aa, A or Baa or a Standard & Poor's equivalent rating of AAA, AA, A or BBB. The remaining \$8.5 million is comprised of \$7.4 million of U.S. government agency and corporate fixed income securities and \$1.1 million of asset-backed securities and residential mortgage-backed securities.

In July 2006, the Company sold securities with a fair value of \$259.7 million to one party (the acquiring party) for a gain of less than \$1.0 million. No restrictions or constraints as to the future use of the securities were placed upon the acquiring party by the Company, nor was the Company obligated under any scenario to repurchase securities from the acquiring party. In August 2006, the acquiring party sold securities totaling \$646.8 million to a QSPE, including substantially all of the securities originally purchased from the Company. The Company acquired the preferred shares of the QSPE and accounts for this investment at fair value as an available-for-sale investment in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. At September 30, 2006, the fair value of the preferred shares was \$7.8 million. In addition, a subsidiary of the Company will serve as the collateral advisor to the QSPE, receiving certain fees and rights standard to a collateral advisor role. Activities performed by the collateral advisor are significantly limited and are entirely defined by the legal documents establishing the QSPE. For performing these activities, the collateral advisor receives a quarterly fee equal to ten basis points on the fair value of the collateral. The collateral advisor also received and recognized a one-time fee of \$0.4 million in August 2006 for the placement of the preferred shares of the QSPE.

The Company evaluated the sale of the securities under the accounting guidance of SFAS 140 to determine if the transfer of securities to the acquiring party constituted a sale for accounting purposes, as well as to determine if the subsequent placement of the sold securities into the QSPE by the acquiring party would be deemed a transfer of securities by the Company to the QSPE. Based upon the terms of the sale to the acquiring party and legal documents relating to the QSPE, the Company determined that sale accounting was achieved upon transfer of the securities to the acquiring party and that the Company was not a transferor of securities to the QSPE. The Company then evaluated the accounting guidance of FIN 46R to determine whether the Company was required to consolidate the QSPE. As the Company does not have the unilateral ability to liquidate the QSPE or to change the entity so that it no longer meets the requirements of a QSPE through either its ownership of the preferred shares or its subsidiary's role as collateral advisor, the Company is not required to consolidate the QSPE.

6. Derivative Financial Instruments

The notional amount of the Company's swap agreements totaled \$2.6 billion and \$2.7 billion at September 30, 2006, and December 31, 2005, with an average variable receive rate of 5.2 percent and 4.1 percent, respectively, and an average fixed pay rate of 4.3 percent and 4.2 percent, respectively. The variable rate portion of the swaps is generally based on Treasury bill, Federal Funds or 6 month LIBOR. As the swap payments are settled, the net difference between the fixed amount the Company pays and the variable amount the Company receives is reflected in the Consolidated Statements of Income through Interest expense for the debt swaps and through Investment commissions expense for all other swaps. As of September 30, 2006, the Company estimates that \$9.3 million (net of tax) of the unrealized gain included in Accumulated other comprehensive income in the Consolidated Balance Sheets will be

recognized in the Consolidated Statements of Income within the next twelve months as the swap payments are settled.

Table of Contents**7. Sale of Receivables**

The balance of sold receivables as of September 30, 2006 and December 31, 2005 was \$367.9 million and \$299.9 million, respectively. The average receivables sold totaled \$390.0 million and \$385.9 million during the three and nine months ended September 30, 2006, respectively, and \$387.9 million and \$397.3 million in the three and nine months ended September 30, 2005, respectively. The expense of selling the agent receivables is included in the Consolidated Statements of Income in Investment commissions expense and totaled \$6.2 million and \$17.7 million for the three and nine months ended September 30, 2006, respectively, and \$4.5 million and \$12.1 million for the three and nine months ended September 30, 2005, respectively.

8. Income Taxes

The effective tax rate was 28.4 percent and 30.0 percent for the three and nine months ended September 30, 2006, respectively, compared to 25.9 percent and 25.4 percent for the three and nine months ended September 30, 2005, respectively. The increase in the effective rate is due to tax exempt investment income declining as a percentage of total pre-tax income. For the three and nine months ended September 30, 2006, \$1.7 million and \$2.6 million, respectively, of tax reserves were reversed due to closed tax audits or the expiration of statutes of limitations. The effective tax rate for the three and nine months ended September 30, 2005, benefited from the reversal of \$0.7 million and \$2.8 million, respectively, of tax reserves that were deemed to be no longer needed due to the expiration of statutes of limitations.

9. Stockholders Equity

As of September 30, 2006, the Company has 84,073,297 shares of common stock outstanding. During the three and nine months ended September 30, 2006, the Company repurchased 580,000 shares and 1,534,050 shares, respectively, of its common stock at an average cost of \$30.18 per share and \$30.14 per share, respectively. As of September 30, 2006, the Company has remaining authorization to purchase up to 2,420,000 shares of its common stock. Following is a summary of common stock issued and outstanding:

(Amounts in thousands)	September 30, 2006	December 31, 2005
Common shares issued	88,556	88,556
Treasury stock	(3,702)	(2,701)
Restricted stock	(325)	(693)
Shares held in employee equity trust, at cost	(456)	(918)
Common shares outstanding	84,073	84,244

Following is a summary of treasury stock share activity during the nine months ended September 30, 2006:

(Amounts in thousands)	Treasury Stock Shares
Balance at December 31, 2005	2,701
Stock repurchases	1,534
Submission of shares for withholding taxes upon exercise of stock options and release of restricted stock, net of issuances	(533)
Balance at September 30, 2006	3,702

The Company has an employee equity trust (the Trust) used to fund the issuance of shares under employee compensation and benefit plans. The fair value of the shares held by the Trust is recorded in the Unearned employee benefits and other component in the Consolidated Balance Sheets and is reduced as shares are released to fund employee benefits. During the nine months ended September 30, 2006, the Company released 461,639 shares upon the exercise of stock options and the vesting of restricted stock. As of September 30, 2006, 456,393 shares of MoneyGram common stock remained in the Trust.

Table of Contents

The components of accumulated other comprehensive income include:

(Dollars in thousands)	September 30 2006	December 31 2005
Unrealized gain on securities classified as available-for-sale	\$ 25,808	\$ 38,288
Unrealized gain on derivative financial instruments	13,300	13,651
Cumulative foreign currency translation adjustments	4,786	2,217
Minimum pension liability adjustment	(42,331)	(42,331)
Accumulated other comprehensive income	\$ 1,563	\$ 11,825

10. Pensions and Other Benefits

Net periodic pension cost for the defined benefit pension plan and the combined supplemental executive retirement plans (SERPs) includes the following components:

(Dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Service cost	\$ 480	\$ 473	\$ 1,441	\$ 1,419
Interest cost	2,896	2,830	8,689	8,490
Expected return on plan assets	(2,231)	(2,151)	(6,694)	(6,453)
Amortization of prior service cost	176	179	527	536
Recognized net actuarial loss	1,080	1,023	3,241	3,070
Net periodic pension cost	\$ 2,401	\$ 2,354	\$ 7,204	\$ 7,062

Benefits paid through the defined benefit pension plan and the combined SERPs were \$4.1 million and \$4.2 million for the three months ended September 30, 2006 and 2005, respectively, and \$12.1 million and \$12.5 million for the nine months ended September 30, 2006 and 2005, respectively. The Company made contributions to the defined benefit pension plan and the combined SERPs totaling \$14.0 million and \$5.1 million during the three months ended September 30, 2006 and 2005, respectively, and \$20.9 million and \$13.7 million for the nine months ended September 30, 2006 and 2005, respectively.

Net periodic postretirement benefit cost for the defined benefit postretirement plans includes the following components:

(Dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Service cost	\$ 159	\$ 155	\$ 478	\$ 464
Interest cost	179	161	536	483
Amortization of prior service cost	(74)	(74)	(221)	(221)
Recognized net actuarial loss	6	4	18	12
Net periodic pension cost	\$ 270	\$ 246	\$ 811	\$ 738

Benefits paid through, and contributions made to, the defined benefit postretirement plan were less than \$0.1 million for the three months ended September 30, 2006 and 2005, respectively, and \$0.1 million and \$0.2 million for the nine months ended September 30, 2006 and 2005, respectively.

Table of Contents

The Company incurred expenses for and made contributions to the 401(k) defined contribution plan totaling \$0.8 million and \$0.6 million during the three months ended September 30, 2006 and 2005, respectively, and \$2.1 million and \$1.7 million for the nine months ended September 30, 2006 and 2005, respectively. In addition, the Company made a discretionary profit sharing contribution to the 401(k) defined contribution plan totaling \$2.1 million and \$1.9 million during the nine months ended September 30, 2006 and 2005, respectively.

11. Debt

On September 30, 2006, the interest rate under the Company's bank credit facility was 5.9 percent, exclusive of the effect of commitment fees and other costs, and the facility fee was 0.125 percent. At September 30, 2006 and December 31, 2005, the interest rate debt swaps used to hedge the cash flows of our variable rate debt had an average variable receive rate of 4.6 percent and 3.9 percent, respectively, and an average fixed pay rate of 4.3 percent for both periods. See Note 6 for further information regarding the Company's portfolio of derivative financial instruments.

12. Stock-Based Compensation

Option awards are granted with an exercise price equal to the market price of the Company's common stock on the date of grant. Stock options granted in 2006 become exercisable over a three-year period in an equal number of shares each year and have a term of ten years. For purposes of determining the fair value of stock option awards, the Company uses the Black-Scholes single option pricing model and the assumptions set forth in the following table. Expected volatility is based on the historical volatility of the price of the Company's common stock since the spin-off on June 30, 2004. The Company uses historical information to estimate option exercise and employee termination within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Compensation cost is recognized using a straight-line method over the vesting or service period and is net of estimated forfeitures. The weighted-average grant date fair value of options granted during 2006 and 2005 was \$10.38 and \$5.95, respectively.

	2006	2005
Expected dividend yield	0.6%	0.2%
Expected volatility	26.5%	24.1%
Risk-free interest rate	4.7%	3.8%
Expected life	6.5 years	5 years

Following is a summary of stock option activity:

	Shares	Weighted Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (\$000)
Options outstanding at December 31, 2005	4,883,262	\$ 18.42		
Granted	405,040	27.37		
Exercised	(1,031,223)	31.38		
Forfeited	(62,878)	19.60		
Options outstanding at September 30, 2006	4,194,201	\$ 19.50	5.24	\$ 40,107
Options exercisable at September 30, 2006	3,222,080	\$ 18.49	4.60	\$ 34,061

Table of Contents

The Company has granted both restricted stock and performance-based restricted stock. The vesting of restricted stock is typically three years from the date of grant. The vesting of performance-based restricted stock is contingent upon the Company obtaining certain financial thresholds established on the grant date. Provided the incentive performance targets established in the year of grant are achieved, the performance-based restricted stock awards granted subsequent to 2002 will vest in a three-year period from the date of grant in an equal number of shares each year. Vesting could accelerate if performance targets are met at certain achievement levels. Future vesting in all cases is subject generally to continued employment with MoneyGram or MoneyGram's former parent company, Viad Corp. Holders of restricted stock and performance-based restricted stock have the right to receive dividends and vote the shares, but may not sell, assign, transfer, pledge or otherwise encumber the stock. Restricted stock awards are valued at the quoted market price of the Company's common stock on the date of grant and expensed using the straight-line method over the vesting or service period of the award, net of estimated forfeitures. Following is a summary of restricted stock activity:

	Shares	Weighted Average Grant Date Fair Value
Restricted stock outstanding at December 31, 2005	692,939	\$18.28
Granted	114,570	27.71
Vested and issued	(472,183)	17.60
Forfeited	(10,769)	19.34
Restricted stock outstanding at September 30, 2006	324,557	\$23.33

Following is a summary of pertinent information related to the Company's stock-based awards:

(Dollars in thousands)	Three Months Ended September 30		Nine Months Ended September 30	
	2006	2005	2006	2005
Fair value of options vesting during period	\$ 19	\$ 4	\$ 5,646	\$9,953
Fair value of restricted stock vesting during period	31		13,369	9,916
Expense recognized related to options	641	617	1,821	1,768
Expense recognized related to restricted stock	433	538	1,561	1,924
Intrinsic value of options exercised	3,318	1,121	14,323	2,179
Cash received from option exercises	2,964	3,322	20,192	5,956
Tax benefit realized for tax deductions from option exercises	1,171	370	4,936	715

As of September 30, 2006, the Company's unvested stock-based awards had the following unrecognized compensation expense and remaining vesting periods:

(Dollars in thousands)	Options	Restricted Stock
Unrecognized compensation expense	\$5,331	\$3,268
Remaining weighted average vesting period	2.18 years	1.86 years

As of September 30, 2006, the Company has remaining authorization to issue awards of up to 6,931,390 shares of common stock under its 2005 Omnibus Incentive Plan.

Table of Contents

For the three and nine months ended September 30, 2006, options to purchase 392,563 and 326,930 shares of common stock, respectively, were not included in the computation of diluted earnings per share because the effect would be antidilutive. For the three and nine months ended September 30, 2005, options to purchase 1,098,280 and 1,444,989 shares of common stock, respectively, were excluded in the diluted earnings per share calculation. Options are generally antidilutive if the exercise price of the option is greater than the average market price of the Company's common stock for the period presented.

13. Commitments and Contingencies

At September 30, 2006, we had available reverse repurchase agreements, letters of credit and overdraft facilities totaling \$2.3 billion, including a \$1.0 billion reverse repurchase agreement with one clearing bank. At September 30, 2006, \$11.1 million was outstanding under letters of credit.

As of September 30, 2006, the total amount of unfunded commitments related to investments in limited partnerships was \$5.2 million.

14. New Accounting Pronouncements

In May 2005, the Financial Accounting Standards Board (FASB) issued SFAS No. 154, *Accounting Changes and Error Corrections*, which replaces Accounting Principles Board (APB) No. 20, *Accounting Changes*, and SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*. This statement requires that an entity apply the retrospective method in reporting a change in an accounting principle or the reporting entity. The standard only allows for a change in accounting principle if it is required by a newly issued accounting pronouncement or the entity can justify the use of an allowable alternative accounting principle on the basis that it is preferable. This statement also requires that corrections for errors discovered in prior period financial statements be reported as a prior period adjustment by restating the prior period financial statements. Additional disclosures are required when a change in accounting principle or reporting entity occurs, as well as when a correction for an error is reported. The statement is effective for the Company for fiscal 2006. The adoption of this SFAS did not have a material impact to the Company's consolidated financial statements.

In January 2006, the FASB issued FASB Staff Position (FSP) No. 45-3, *Application of FASB Interpretation No. (FIN) 45 to Minimum Revenue Guarantees Granted to a Business or Its Owners*. This FSP amends FIN 45 to include guarantees granted to a business that its revenue for a specified period of time will be at least a specified amount. FIN 45 requires that a company record an obligation at the inception of a guarantee equal to the fair value of the guarantee, as well as disclose certain information relating to the guarantee. The FSP is applicable for minimum revenue guarantees issued or modified by the Company on or after January 1, 2006, with no revision or restatement to the accounting treatment of such guarantees issued prior to the adoption date allowed. The disclosure requirements of FIN 45 are applicable to all outstanding minimum revenue guarantees. The Company has adopted this FSP effective January 1, 2006 with no material impact to the Company's consolidated financial statements.

In February 2006, the FASB issued FSP No. 123R-4, *Classification of Options and Similar Instruments Issued as Employee Compensation That Allow for Cash Settlement upon the Occurrence of a Contingent Event*. This FSP amends SFAS No. 123R, *Share Based Payment*, to require that stock options issued to employees as compensation be accounted for as equity instruments until a contingent event allowing for cash settlement is probable of occurring. The Company has adopted this FSP effective January 1, 2006 with no material impact to the Company's consolidated financial statements.

In July 2006, the FASB issued FIN No. 48, *Accounting for Uncertainty in Income Taxes*. FIN 48 is an interpretation of SFAS No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in an entity's tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition of tax positions. This FIN is effective January 1, 2007 for MoneyGram. The Company is currently evaluating the impact, if any, of this pronouncement on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This statement does not require any new fair value measurements, but it provides guidance on how to measure fair value under other accounting pronouncements. SFAS 157 also establishes a fair value hierarchy to classify the source of information used in fair

value measurements. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad categories. This standard is effective for the Company on January 1, 2008. The Company is currently evaluating the impact of this pronouncement on its consolidated financial statements.

Table of Contents

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132*. This standard requires the recognition of the funded status of a pension or postretirement plan in the balance sheet as an asset or liability. Unrecognized prior service costs and gains and losses are recorded to accumulated other comprehensive income. SFAS 158 does not change previous guidance for income statement recognition. The standard requires the plan assets and benefit obligations to be measured as of the annual balance sheet date of the Company. Prospective application of this standard is required. The recognition and disclosure provisions of SFAS 158 are effective for the Company's 2006 year-end, while the change in measurement date is effective for the Company's 2008 year-end. The Company does not believe the adoption of this standard will have a material impact to the Company's consolidated financial statements.

In September 2006, the SEC issued Staff Accounting Bulletin (SAB) 108, which expresses the SEC Staff's views regarding the process of quantifying financial statement misstatements. The SAB provides for a one-time cumulative effect transition adjustment to correct for misstatements that are now considered material as a result of implementing SAB 108. This SAB is effective for the Company's 2006 year-end. The Company is currently evaluating the impact, if any, of SAB 108 on its consolidated financial statements.

15. Minimum Commission Guarantees

In limited circumstances as an incentive to new or renewing agents, the Company may grant minimum commission guarantees to an agent for a specified period of time at a contractually specified amount. Under the guarantees, the Company will pay to the agent the difference between the contractually specified minimum commission and the actual commissions earned by the agent.

As of September 30, 2006, the minimum commission guarantees had a maximum payment of \$23.6 million over a weighted average remaining term of 3.5 years. The maximum payment is calculated as the contractually guaranteed minimum commission times the remaining term of the contract and, therefore, assumes that the agent generates no money transfer transactions during the remainder of its contract. However, under the terms of certain agent contracts, the Company may terminate the contract if the projected or actual volume of transactions falls beneath a contractually specified amount. In fiscal 2005, the Company paid \$2.5 million under these guarantees, or approximately 50 percent of the estimated maximum payment for the year.

16. Segment Information

Our business is conducted through two reportable segments, Global Funds Transfer and Payment Systems, which are determined based upon factors such as the type of customers, the nature of products and services provided and the distribution channels used to provide those services. The following table reconciles segment operating income to the income from continuing operations before income taxes as reported in the financial statements:

Table of Contents

(Dollars in thousands)	Three Months Ended September 30		Nine Months Ended September 30	
	2006	2005	2006	2005
Total revenue

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with MoneyGram International, Inc.'s (MoneyGram, the Company, we, us and our) consolidated financial statements and related notes. This discussion contains forward-looking statements that involve risks and uncertainties. MoneyGram's actual results could differ materially from those anticipated due to various factors discussed under Forward-Looking Statements and elsewhere in this Quarterly Report.

Highlights

Third quarter 2006 results reflect:

Global Funds Transfer segment revenue growth of 27 percent compared to the third quarter 2005, driven by 40 percent growth of money transfer transaction volume and 33 percent growth of money transfer revenue.

Fee and other revenue of \$200.9 million, up 28 percent from the third quarter of 2005, driven by the growth in money transfer transaction volume.

Net investment margin of 2.07 percent as compared to 1.82 percent in the third quarter of 2005, as shown in Table 4.

For the third quarter of 2006, revenue growth of 20 percent and net revenue growth of 18 percent over the third quarter of 2005 was primarily due to growth in money transfer transaction volume. Expenses increased 23 percent over the third quarter of 2005, which reflects higher transaction volumes, additional headcount to support growth, compensation merit increases, increased marketing expenditures and amortization of intangible assets acquired through our purchase of MoneyExpress.

For the nine months ended September 30, 2006, revenue increased by 19 percent and net revenue by 20 percent over 2005 due to growth in the money transfer business. Expenses for the nine months ended September 30, 2006 increased 17 percent over 2005, driven by higher transaction volumes, additional headcount to support the growth in the business, compensation merit increases, increased marketing expenditures, and intangible assets acquired through our purchase of MoneyExpress.

Table of Contents**Table 3 Net Fee Revenue Analysis**

	Three Months Ended		2006 vs 2005	Nine Months Ended		2006 vs 2005
	September 30, 2006 (Dollars in thousands)	September 30, 2005 (Dollars in thousands)		September 30, 2006 (Dollars in thousands)	September 30, 2005 (Dollars in thousands)	
Fee and other revenue	\$ 200,894	\$ 156,375	28%	\$ 556,862	\$ 444,173	25%
Fee commissions expense	83,144	58,940	41%	226,246	167,344	35%

Commissions as a % of

fee and other revenue	41.4%	37.7%	40.6%	37.7%
-----------------------	-------	-------	-------	-------

Fee and other revenue includes fees on money transfer transactions, money orders and, to a lesser extent, official check transactions, and is a growing portion of our total revenue, increasing to 68 percent of total revenue for the three months ended September 30, 2006 from 63 percent for the same period of 2005. Fee and other revenue for the three months and nine months ended September 30, 2006 increased by 28 percent and 25 percent, respectively, compared to the same periods in the prior year, primarily driven by growth of 40 percent and 43 percent, respectively, in money transfer transaction volume. The revenue growth rate for 2006 is lower than the money transfer volume growth rate due primarily to simplified pricing initiatives and the mix of transaction origination in the money transfer business. Our simplified pricing initiatives include reducing the number of pricing tiers or bands and allow us to manage our price-volume dynamic while streamlining the point of sale process for our agents and customers. Our pricing philosophy continues to be to maintain a price point below our higher priced competitor but above the niche players in the market. Our domestically originated transactions, which contribute lower revenue per transaction, are growing at a faster rate than internationally originated transactions.

Fee commissions consist primarily of fees paid to our third-party agents for the money transfer service. For the three and nine months ended September 30, 2006, fee commissions expense increased 41 percent and 35 percent, respectively, as compared to the same periods in 2005, primarily driven by higher money transfer transaction volume and tiered commissions. Tiered commissions are commission rates that are adjusted upward as an agent's transaction volume grows. We use tiered commission rates as an incentive for our agents to grow transaction volume by paying our agents for performance and allowing them to participate in adding market share for MoneyGram.

Net fee revenue increased \$20.3 million, or 21 percent, in the third quarter of 2006 as compared to 2005, and increased \$53.8 million, or 19 percent, for the nine month period in 2006 over 2005. The increase in net fee revenue is driven by the increase in money transfer transactions. Growth in net fee revenue was less than fee and other revenue growth primarily due to the growth in the money transfer service, which has a lower revenue margin than money orders and lower fee revenue from our payments systems products.

Table of Contents**Table 4 Net Investment Revenue Analysis**

Net investment revenue	\$ 32,886	\$ 30,745	7%	\$ 112,536	\$ 94,532	19%
Average balances:						
Cash equivalents and investments	\$ 6,297,739	\$ 6,707,017	(\$409,278)	\$ 6,357,165	\$ 6,750,129	(\$392,964)
Payment service obligations (2)	4,743,030	5,255,146	(512,116)	4,813,544	5,297,765	(484,221)
Average yields earned and rates paid (3):						
Investment yield	6.07%	5.42%	0.65%	6.26%	5.39%	0.87%
Investment commission rate	5.31%	4.60%	0.71%	5.15%	4.48%	0.67%
Net investment margin	2.07%	1.82%	0.25%	2.37%	1.87%	0.50%

(1) Investment commissions expense includes payments made to financial institution customers based on short-term interest rate indices applied to the outstanding balances of official checks sold by that financial institution, as well as costs associated with swaps and the sale of receivables program.

(2)

Commissions are paid to financial institution customers based upon average outstanding balances generated by the sale of official checks only. The average balance in the table reflects only the payment service obligations for which commissions are paid and does not include the average balance of the sold receivables (\$390.0 million and \$387.9 million for the three months ended September 30, 2006 and 2005, respectively, and \$385.9 million and \$397.3 million for the nine months ended September 30, 2006 and 2005, respectively) as these are not recorded in the Consolidated Balance Sheets.

- (3) Average yields/rates are calculated by dividing the applicable

Investment revenue increased five percent and nine percent in the three and nine months ended September 30, 2006, respectively, compared to the same periods in 2005 due to higher yields on the portfolio, partially offset by lower investable balances. Investment revenue for the nine months ended September 30, 2006 includes \$12.4 million of cash flow recoveries on previously impaired investments and income from limited partnership interests, while the three and nine months ended September 30, 2005 includes \$3.9 million and \$15.0 million, respectively, of cash flow recoveries from previously impaired investments and income from limited partnerships. No such items were recognized during the three months ended September 30, 2006. The limited partnership interests are accounted for under the equity method.

Investment commissions expense increased four percent in the three and nine months ended September 30, 2006 compared to the same periods in 2005 as rising short-term rates resulted in higher commissions paid to financial institution customers and higher costs associated with our sale of receivables program. The impact of rising rates was significantly offset by lower swap costs.

Net investment revenue increased seven percent and 19 percent, respectively, in the three and nine months ended September 30, 2006 compared to the prior year, with the net investment margin increasing to 2.07 percent and 2.37 percent, respectively, as compared to 1.82 percent and 1.87 percent, respectively, for the three and nine months ended September 30, 2005. This growth is attributable to the higher yields and lower swap costs.

Table of Contents**Table 5 Summary of Gains, Losses and Impairments**

	Three Months Ended September 30			Nine Months Ended September 30		
	2006	2005	Change	2006	2005	Change
	(Dollars in thousands)			(Dollars in thousands)		
Gross realized gains	\$ 1,552	\$ 60	\$ 1,492	\$ 4,399	\$ 7,544	\$ (3,145)
Gross realized losses	(1,330)	(372)	(958)	(2,598)	(4,864)	2,266
Other-than-temporary impairments	(1,091)	(1,312)	221	(3,529)	(4,740)	1,211
Net securities losses	\$ (869)	\$ (1,624)	\$ 755	\$ (1,728)	\$ (2,060)	\$ 332

Net securities losses decreased from \$1.6 million and \$2.1 million in the three and nine months ended September 30, 2005, respectively, to \$0.9 million and \$1.7 million in the three and nine months ended September 30, 2006, respectively. The Company recognized impairments of \$1.1 million and \$3.5 million related to investments backed by automobile, aircraft and manufactured housing collateral in the three and nine months ended September 30, 2006, respectively. For the three and nine months ended September 30, 2005, the Company recognized impairments of \$1.3 million and \$4.7 million, respectively, related to investments backed by aircraft collateral.

Expenses

Compensation and benefits Compensation and benefits includes salaries and benefits, management incentive programs, severance costs and other employee related costs. Compensation and benefits increased 27 percent and 31 percent in the three and nine months ended September 30, 2006 compared to the same periods in 2005 due to higher headcount supporting the growth of the money transfer business, annual merit increases and higher stock-based incentive compensation accruals. We expect compensation and benefits to continue to increase over the remainder of 2006 compared to 2005 due to additional headcount from growth and the Money Express acquisition.

Transaction and operations support Transaction and operations support expenses include marketing, professional fees and other outside services, telecommunications and forms expense. Transaction and operations support costs increased 20 percent for the three months ended September 30, 2006 compared to the same period in 2005 due to increased marketing expenditures and professional fees. Marketing expenditures increased due to higher volumes and marketing activity throughout the agent network.

Transaction and operations support costs increased six percent in the nine months ended September 30, 2006 compared to the same period in 2005 due to increased marketing expenditures and professional fees, partially offset by lower agent credit losses. We incurred higher professional services costs primarily due to on-going compliance initiatives, software development and other projects. As 2005 was our first year of reporting under Section 404 of the Sarbanes-Oxley Act, we expect that our Section 404 costs in 2006 will be lower as the initiatives undertaken in 2005 become integrated into our daily activities. However, we continue to see a trend among state and federal regulators of banks and other financial services businesses toward greater scrutiny of anti-money laundering compliance. As we continue to add staff resources and enhancements to our technology systems to address this trend, our transaction expenses will likely increase. In addition, we anticipate that our transaction expenses will continue to increase compared to 2005 due to marketing spend, integration of Money Express, investment in the agent network and development of our retail network in Western Europe. During the nine months ended September 30, 2005, the Company incurred \$2.2 million of costs related to the settlement of one legal matter and the accrual for an expected settlement in another legal matter.

Depreciation and amortization Depreciation and amortization includes depreciation on point of sale equipment, computer hardware and software (including capitalized software development costs), office furniture, equipment and leasehold improvements, as well as amortization of our intangible assets. Depreciation and amortization expense for

the three and nine months ended September 30, 2006, increased 29 percent and 22 percent, respectively, over the same periods in 2005 due to the amortization of acquired intangible assets and depreciation of capitalized software and hardware acquired in 2005 to enhance our product platforms and help drive growth. We expect depreciation and amortization expense to increase compared to 2005 due to the intangible assets resulting from the acquisition of Money Express and continued investment in product platforms.

Table of Contents

Occupancy, equipment and supplies Occupancy, equipment and supplies includes facilities rent and maintenance costs, software and equipment maintenance costs, freight and delivery costs, and supplies. Occupancy, equipment and supplies expense for the three and nine months ended September 30, 2006 increased 14 percent and seven percent, respectively, over the comparable 2005 periods as we had higher supplies expense, office rent, software expense and maintenance and equipment maintenance. Software expense and maintenance increases relate primarily to purchased licenses to support our growth and compliance initiatives. Office rent has increased due to normal annual increases and expanded locations. Equipment maintenance and supplies expenses have increased in connection with the growth in our agent locations.

Interest expense Interest expense for the three and nine months ended September 30, 2006 increased 18 percent and four percent, respectively, over the same 2005 periods due to rising interest rates, partially offset by receipts under our cash flow hedges. In the nine months ended September 30, 2005, we amended our bank credit facility and expensed \$0.9 million of unamortized financing costs relating to the original facility.

Income taxes The effective tax rate was 28.4 percent and 30.0 percent for the three and nine months ended September 30, 2006, respectively, compared to 25.9 percent and 25.4 percent for the three and nine months ended September 30, 2005, respectively. The increase in the effective rate is due to tax exempt investment income declining as a percentage of total pre-tax income. As tax exempt income becomes a smaller percentage of total income, our marginal tax rate will increase. For the three and nine months ended September 30, 2006, \$1.7 million and \$2.6 million, respectively, of tax reserves were reversed due to closed tax audits or the expiration of statutes of limitations. The effective tax rate for the three and nine months ended September 30, 2005, benefited from the reversal of \$0.7 million and \$2.8 million, respectively, of tax reserves that were deemed to be no longer needed due to the expiration of statutes of limitations.

Acquisition

On May 31, 2006, MoneyGram completed the acquisition of Money Express, the Company's former super agent in Italy. In connection with the acquisition, the Company formed MoneyGram Payment Systems Italy, a wholly-owned subsidiary, to operate the former Money Express network. The acquisition provides the Company with the opportunity for further network expansion and more control of marketing and promotional activities in the region. The operating results of Money Express subsequent to May 31, 2006 are included in the Company's consolidated statement of income.

MoneyGram acquired Money Express for \$15.0 million, subject to purchase price adjustments. The acquisition cost includes \$1.3 million of transaction costs and the forgiveness of \$0.7 million of liabilities. During the third quarter of 2006, the Company received a purchase price adjustment of \$6.0 million. The Company is in the process of finalizing the valuation of intangible assets and deferred taxes from this acquisition, among other items, which may result in adjustment to the purchase price allocation. Purchased intangible assets of \$7.3 million, consisting primarily of agent contracts and a non-compete agreement, will be amortized over useful lives ranging from 3 to 5 years. Preliminary goodwill of \$15.3 million was recorded and assigned to our Global Funds Transfer segment.

Segment Performance

We measure financial performance by our two business segments—Global Funds Transfer and Payment Systems. The business segments are determined based upon factors such as the type of customers, the nature of products and services provided and the distribution channels used to provide those services. Through our agent network, the Global Funds Transfer segment primarily provides our retail consumers with money transfer services and domestic money orders, as well as bill payment services. The Payment Systems segment primarily provides official check services and money orders for financial institutions, as well as controlled disbursements processing for our business customers. Segment pre-tax operating income and segment operating margin are used to evaluate performance and allocate resources.

We manage our investment portfolio on a consolidated level and the specific investment securities are not identifiable to a particular segment. However, average investable balances are allocated to our segments based upon the average balances generated by that segment's sale of payment instruments. The investment yield is primarily allocated based upon the total average investment yield. Gains and losses are allocated based upon the allocation of average investable balances. Our derivatives portfolio is also managed on a consolidated level and the derivative instruments are not

specifically identifiable to a particular segment. The total costs associated with our derivatives portfolio are allocated to each segment based upon the percentage of that segment's average investable balances to the total average investable balances. Table 6 reconciles segment operating income to income from continuing operations before income taxes as reported in the financial statements.

Table of Contents**Table 6 Segment Information**

	Three Months Ended September 30, 2006 2005			Change	Nine Months Ended September 30, 2006 2005			Change
	(Dollars in thousands)				(Dollars in thousands)			
Operating income:								
Global Funds Transfer	\$ 38,566	\$ 35,230	9%	\$ 119,275	\$ 91,340	31%		
Payment Systems	7,539	7,717	-2%	34,068	32,385	5%		
Total segment operating income	46,105	42,947	7%	153,343	123,725	24%		
Interest expense	2,003	1,697	18%	5,925	5,694	4%		
Other unallocated expenses	2,142	2,376	-10%	7,952	7,195	11%		
Income from continuing operations before income taxes	\$ 41,960	\$ 38,874	8%	\$ 139,466	\$ 110,836	26%		

Other unallocated expense represents pension and benefit obligation expense, as well as interim service fees paid to MoneyGram's former parent Viad Corp (Viad). As part of our 2004 spin-off from Viad, we entered into an Interim Services Agreement which provides for services to be provided by Viad on an interim basis. We were obligated under this Interim Services Agreement to pay approximately \$1.6 million annually, or \$0.4 million quarterly, beginning July 1, 2004. We terminated certain services under the Interim Services Agreement effective on September 28, 2005 and terminated substantially all remaining services effective in the second quarter of 2006. As a result of this termination, our payments to Viad were \$0.3 million for the nine months ended September 30, 2006.

Table 7 Global Funds Transfer Segment

	Three Months Ended September 30 , 2006 2005			Change	Nine Months Ended September 30 , 2006 2005			Change
	(Dollars in thousands)				(Dollars in thousands)			
Money transfer revenue	\$ 176,220	\$ 132,802	33%	\$ 483,125	\$ 368,644	31%		
Retail money orders	37,231	34,695	7%	115,333	105,741	9%

Commissions	(87,942)	(63,736)	38%	(240,439)	(181,201)	33%		
Net revenue	\$ 125,509	\$ 103,761	21%	\$ 358,019	\$ 293,184	22%		
Operating income	38,566	35,230	9%	119,275	91,340	31%		
Operating margin	18.1%	21.0%		19.9%	19.3%			

Global Funds Transfer revenue includes investment revenue, securities gains and losses and fees on money transfers, retail money orders and bill payment products. Global Funds Transfer revenue increased 27 percent and 26 percent in the three and nine months ended September 30, 2006, respectively, over the same periods in 2005, primarily driven by the growth in money transfer volume and higher yields on the money order investment portfolio. Money transfer volumes grew 40 percent and 43 percent in the three and nine months ended September 30, 2006, respectively, and money transfer revenue grew 33 percent and 31 percent in the three and nine months ended September 30, 2006, respectively. Money transfer revenue growth rates are lower than volume growth rates due to simplified pricing initiatives and the mix of transaction origination in the money transfer business. Our domestically originated transactions, which contribute lower revenue per transaction, grew 46 percent and 49 percent in the three and nine months ended September 30, 2006, respectively, while transactions originated outside of North America grew 30 percent and 29 percent, respectively. Our transaction volume to Mexico grew 29 percent and 32 percent, respectively, in the three and nine months ended September, 30, 2006 compared to the same periods in 2005. Our agent network grew 24 percent to over 104,000 agent locations from the third quarter of 2005 to the third quarter of 2006. As expected, retail money order volume declined six and four percent in the three and nine months ended September 30, 2006 compared to the same periods in 2005, consistent with the overall trend of paper-based payment instruments.

Table of Contents

Investment revenue in Global Funds Transfer increased 15 percent and 21 percent in the three and nine months ended September 30, 2006, respectively, compared to the same periods in 2005, primarily due to higher interest rates earned on the investment portfolio. Global Funds Transfer realized \$2.8 million of pre-tax cash flows from previously impaired investments and income from limited partnership interests in the nine months ended September 30, 2006 and \$0.8 million and \$2.3 million in the three and nine months ended September 30, 2005, respectively. No such items were recognized during the three months ended September 30, 2006.

Commissions expense consists of fees paid to our third-party agents for the money transfer service and costs associated with swaps and the sale of receivables program. Commissions expense for the three and nine months ended September 30, 2006 increased 38 percent and 33 percent, respectively, compared to 2005 periods, primarily driven by the transaction volume growth in money transfer and tiered commission rates. Tiered commissions are commission rates that are adjusted upward as an agent's transaction volume grows. We use tiered commission rates as an incentive for our agents to grow transaction volume by paying our agents for performance and allowing them to participate in adding market share for MoneyGram. Commissions expense as a percentage of revenue increased from 38 percent in the three and nine months ended September 30, 2005 to 41 percent and 40 percent in the three and nine months ended September 30, 2006, respectively, due to product mix as the money transfer business, the primary source of commissions, continues to comprise a larger percent of the revenue of Global Funds Transfer, as well as tiered commission rates.

Operating margin was 18.1 percent and 19.9 percent for the three and nine months ended September 30, 2006, respectively, while the operating margin was 21.0 percent and 19.3 percent for the three and nine months ended September 30, 2005, respectively. The decrease in operating margin is due to the development of our retail network in Western Europe and increased marketing spend offset by higher yields on the money order investment portfolio and lower agent credit losses. We expect our operating margin to decline in the last quarter of 2006 due to increased marketing spend, integration costs from the Money Express acquisition, investment in the agent network and the continued development of our retail network in Western Europe.

(1)

The taxable equivalent basis numbers are non-GAAP measures that are used by the Company's management to evaluate the effect of tax-exempt securities on the Payment Systems segment. The tax-exempt investments in the investment portfolio have lower pre-tax yields but produce higher income on an after-tax basis than comparable taxable investments. An adjustment is made to present revenue and operating income resulting from amounts invested in tax-exempt securities on a taxable equivalent basis. The adjustment is calculated using a 35 percent tax rate and is \$4.3 million and \$4.9 million for the third quarter of 2006 and 2005, respectively, and \$13.1 million

and
\$14.3 million
for the nine
months ended
September 30,
2006 and 2005,
respectively.

Table of Contents

Payment Systems revenue includes investment revenue, securities gains and losses, fees charged to our official check financial institution customers and fees earned on our rebate processing business. Revenue increased five percent and six percent for the three and nine months ended September 30, 2006, respectively, compared to prior periods, primarily due to higher investment income from higher short-term interest rates. Included in investment revenue for the nine months ended September 30, 2006 is \$9.6 million of pretax cash flows from previously impaired investments and income from limited partnership interests, compared to \$3.1 million and \$11.9 million for the three and nine months ended September 30, 2005, respectively. No such items were recognized for the three months ended September 30, 2006. Revenue for the nine months ended September 30, 2005 included \$2.2 million in fee revenue related to a payment received due to the early termination of a customer contract.

Commission expense includes payments made to financial institution customers based on official check average investable balances and short-term interest rate indices, as well as costs associated with swaps and the sale of receivables program. Commission expense increased five percent and four percent for the three and nine months ended September 30, 2006, respectively, as compared to 2005, primarily due to higher short-term interest rates that resulted in higher commissions paid to financial institution customers, partially offset by a decline in swap costs and lower investable balances.

Operating margin for the three and nine months ended September 30, 2006 was 9.1 percent and 13.4 percent, respectively (13.7 percent and 17.7 percent, respectively, on a taxable equivalent basis) as compared to 9.8 percent and 13.5 percent, respectively (15.1 percent and 18.4 percent, respectively, on a taxable equivalent basis) for the three and nine months ended September 30, 2005. The operating margin for the third quarter of 2005 benefited by 2.3 percentage points from pretax cash flows from previously impaired securities and income from limited partnership interests. For the nine months ended September 30, 2006 and 2005, the operating margin benefited by 10.0 percentage points and 4.3 percentage points, respectively, from pretax cash flows from previously impaired securities, income from limited partnership interests and a customer early termination fee in 2005.

Liquidity and Capital Resources

One of our primary financial goals is to maintain an adequate level of liquidity to manage the fluctuations in the balances of payment service assets and obligations resulting from varying levels of sales of official checks, money orders and other payment instruments, the timing of the collections of receivables and the timing of the presentment of such instruments for payment. In addition, we strive to maintain adequate levels of liquidity for capital expenditures and other normal operating cash needs.

At September 30, 2006, we had cash and cash equivalents of \$886.4 million, net receivables of \$1.6 billion and investments of \$5.8 billion, all substantially restricted for payment service obligations. We rely on the funds from ongoing sales of payment instruments and portfolio cash flows to settle payment service obligations as they are presented. Due to the continuous nature of the sales and settlement of our payment instruments, we are able to invest in securities with a longer term than the average life of our payment instruments.

We are regulated by various state agencies which generally require us to maintain liquid assets and investments with an investment rating of A or higher in an amount generally equal to the payment service obligation for regulated payment instruments (teller checks, agent checks, money orders and money transfers). We are not regulated by state agencies for our payment service obligations resulting from outstanding cashier's checks; however, we restrict the funds related to these payment instruments due to contractual arrangements and/or Company policy. Accordingly, assets restricted for regulatory or contractual reasons and by Company policy are not available to satisfy operating or other financing requirements. In addition, our Company policy limits our investment in below investment grade securities to 3.0 percent of our total investments and cash equivalents. As of September 30, 2006, we were in compliance with this policy.

As of September 30, 2006 and December 31, 2005, we had unrestricted cash and cash equivalents, receivables and investments to the extent those assets exceed all payment service obligations as summarized in Table 9. These amounts are generally available; however, management considers a portion of these amounts as providing additional assurance that regulatory requirements are maintained during the normal fluctuations in the value of investments.

Table of Contents**Table 9 Unrestricted Assets**

	September 30, 2006	December 31, 2005
	(Dollars in thousands)	
Cash and cash equivalents	\$ 886,395	\$ 866,391
Receivables, net	1,602,153	1,325,622
Investments	5,761,583	6,233,333
	8,250,131	8,425,346
Amounts restricted to cover payment service obligations	(7,878,315)	(8,059,309)
Unrestricted assets	\$ 371,816	\$ 366,037

The increase in unrestricted assets is primarily due to changes in our working capital resulting from the timing of normal operational activities, offset by fluctuations in the market value of our investments, capital expenditures, repurchases of our common stock, payment of dividends and the acquisition of Money Express.

Table of Contents**Table 10 Cash Flows Provided By or Used In Operating Activities**

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2006	2005	2006	2005
	(Dollars in thousands)		(Dollars in thousands)	
Net income	\$ 30,038	\$ 29,538	\$ 97,679	\$ 83,391
Total adjustments to reconcile net income	14,225	27,163	31,473	42,225
Net cash provided by operating activities before changes in payment service assets and obligations	44,263	56,701	129,152	125,616
Change in cash and cash equivalents (substantially restricted)	(154,183)	332,403	(10,473)	(72,011)
Change in receivables, net (substantially restricted)	(39,948)	(88,236)	(278,935)	(636,491)
Change in payment service obligations	(264,147)	(200,730)	(192,985)	579,923
Net change in payment service assets and obligations	(458,278)	43,437	(482,393)	(128,579)
Net cash (used in) provided by operating activities	\$(414,015)	\$ 100,138	\$(353,241)	\$ (2,963)

Operating activities used net cash of \$414.0 million during the third quarter of 2006 and provided net cash of \$100.1 million during the third quarter of 2005, for an increase in net cash used of \$514.2 million. Operating activities used net cash of \$353.2 million during the nine months ended September 30, 2006 and \$3.0 million during the same period in 2005, for an increase in net cash used of \$350.3 million. These increases are primarily due to an increase in cash used by the net change in payment service assets and obligations resulting from the timing of remittances and changes in transaction volumes.

The balances of our payment service assets and obligations are primarily affected by the timing of transactions and remittances by our agents and financial institution customers of the cash proceeds from those transactions, the length of time between sale and presentation of a payment service instrument and the volume of transactions. Our official check product comprises a substantial portion of our receivables and payment service obligations as this product has higher face amounts. Balances for receivables and payment service obligations will not move in tandem as the remittance of monies from our agents and financial institution customers to the Company will not match the timing of when a payment service instrument is presented for payment or a money transfer is collected. Financial institution customers remit to the Company one day after the sale of the instrument; all other remittances are made on contractual timeframes of typically one to three days. On average, our money order product is presented for payment eight to ten days after sale; our official check product is presented for payment three to five days after sale; and money transfers are typically collected within one day.

Net cash (used in) provided by investing activities	430,789	(88,886)	384,591	33,790

Table of Contents

Investing activities provided cash of \$430.8 million and \$384.6 million during the three and nine months ended September 30, 2006, respectively, and used cash of \$88.9 million during the three months ended September 30, 2005 and provided cash of \$33.8 million during the nine months ended September 30, 2005. Investing activities primarily consist of activity within our investment portfolio. The increase in cash provided by net investment activity in the three and nine months ended September 30, 2006 as compared to 2005 is due to primarily to the lower purchases of investments.

In addition, the Company sold securities with a fair value of \$259.7 million to one party (the acquiring party) during the third quarter of 2006. No restrictions or constraints as to the future use of the securities were placed upon the acquiring party by the Company, nor was the Company obligated under any scenario to repurchase securities from the acquiring party. In August 2006, the acquiring party sold securities totaling \$646.8 million to a QSPE, including substantially all of the securities originally purchased from the Company. The Company acquired the preferred shares of the QSPE and accounts for this investment at fair value as an available-for-sale investment in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. At September 30, 2006, the fair value of the preferred shares was \$7.8 million. In addition, a subsidiary of the Company will serve as the collateral advisor to the QSPE, receiving certain fees and rights standard to a collateral advisor role. Activities performed by the collateral advisor are significantly limited and are entirely defined by the legal documents establishing the QSPE. For performing these activities, the collateral advisor receives a quarterly fee equal to ten basis points on the fair value of the collateral. The collateral advisor also received and recognized a one-time fee of \$0.4 million in August 2006 for the placement of the preferred shares of the QSPE.

In the nine months ended September 30, 2006, the Company acquired Money Express, its former super agent in Italy. During the third quarter of 2006, the Company received a payment from the previous owner of MoneyExpress for a purchase adjustment related to net assets. In the nine months ended September 30, 2005, the Company acquired ACH Commerce. Capital expenditures in all periods presented relate to our continued investment in the money transfer platform. In addition, we acquired a 50% interest in a corporate aircraft during 2005 and the remaining 50% interest in 2006 from our former parent company.

Cash Flows from Financing Activities: Financing activities used cash of \$16.8 million and \$11.3 million for the three months ended September 30, 2006 and 2005, respectively. During the nine months ended September 30, 2006 and 2005, financing activities used cash of \$31.4 million and \$30.8 million, respectively. Sources of cash relate primarily to the exercise of stock options, which provided \$3.0 million and \$3.3 million during the third quarter of 2006 and 2005, respectively, and \$20.2 million and \$6.0 million during the nine months ended September 30, 2006 and 2005, respectively. The exercise of stock options also generated \$1.2 million and \$0.4 million of tax benefits in the third quarter of 2006 and 2005, respectively, and \$4.9 million and \$0.7 million in the nine months ended September 30, 2006 and 2005, respectively.

Cash used by financing activities relates primarily to our purchase of \$17.5 million and \$14.1 million of treasury stock during the third quarter of 2006 and 2005, respectively, and \$46.2 million and \$34.9 million during the nine months ended September 30, 2006 and 2005, respectively. In addition, we paid \$3.4 million and \$0.9 million in dividends during the third quarter of 2006 and 2005, respectively, and \$10.2 million and \$2.6 million during the nine months ended September 30, 2006 and 2005, respectively.

Other Funding Sources and Requirements

We have a bank credit facility providing \$350.0 million in the form of a \$100.0 million term loan and a \$250.0 million revolving credit facility. At September 30, 2006, we had outstanding borrowings under the credit facility consisting of a \$100.0 million term loan and \$50.0 million under the revolving credit facility. The maturity date of the term loan and the credit facility is June 2010. The credit facility may be increased to \$500.0 million under certain circumstances. The interest rate applicable to both the term loan and the credit facility is LIBOR plus 50 basis points, subject to adjustment in the event of a change in the credit ratings of our senior unsecured debt. The usage fees on the facility range from 0.080 percent to 0.250 percent, depending on the credit rating of our senior unsecured debt. At September 30, 2006, the interest rate under the bank credit facility was 5.9 percent, exclusive of the effect of commitment fees and other costs, and the facility fee was 0.125 percent. The remaining availability under the bank credit facility may be used for general corporate purposes and to support letters of credit. Loans under the bank credit

facility are guaranteed on an unsecured basis by our material domestic subsidiaries. Borrowings under the bank credit facilities are subject to various covenants, including interest coverage ratio, leverage ratio and consolidated total indebtedness ratio. The interest coverage ratio of earnings before interest and taxes to interest expense must not be less than 3.5 to 1.0. The leverage ratio of total debt to total capitalization must be less than 0.5 to 1.0. The consolidated total indebtedness ratio of total debt to earnings before interest, taxes, depreciation and amortization must be less than 3.0 to 1.0. At September 30, 2006, we were in compliance with all of the covenants under the bank credit facility.

Table of Contents

At September 30, 2006, we had available reverse repurchase agreements, letters of credit and overdraft facilities totaling \$2.3 billion, including a \$1.0 billion reverse repurchase agreement with one clearing bank. At September 30, 2006, \$11.1 million was outstanding under letters of credit.

As of September 30, 2006, the total amount of unfunded commitments related to investments in limited partnerships was \$5.2 million.

Table 12 Contractual Obligations

	Total	Payments due by period			More than 5 years
		Less than 1 year	1-3 years	3-5 years	
(Dollars in thousands)					
Debt, including interest payments	\$ 183,019	\$ 8,805	\$ 17,610	\$ 156,604	\$
Operating leases	60,039	7,854	16,062	14,714	21,409
Derivative financial instruments	23,644	14,997	8,050	597	
Other obligations	5,200	5,200			
Capital lease obligations	163	163			
Total contractual cash obligations	\$272,065	\$37,019	\$41,722	\$171,915	\$21,409

Debt consists of principal amounts outstanding under the variable rate term loan and revolving credit facility at September 30, 2006, as well as related interest payments. As discussed above, interest payments on our outstanding debt are based on a floating interest rate indexed to LIBOR. For disclosure purposes, the interest rate for future periods has been assumed to be 5.9 percent, which is the rate in effect on September 30, 2006. Operating and capital leases consist of various leases relating to buildings and equipment. Derivative financial instruments represent the net payable under our interest rate swap agreements. Other obligations are unfunded capital commitments related to limited partnership interests included in our investment portfolio.

MoneyGram has a frozen funded, noncontributory pension plan that it assumed from Viad in connection with the spin-off. Funding policies provide that payments to defined benefit pension trusts shall be equal to the minimum funding required by applicable regulations. During the three and nine months ended September 30, 2006, MoneyGram contributed \$13.1 million and \$18.3 million, respectively, to the funded pension plan. We expect to contribute an additional \$2.3 million in the remainder of 2006. MoneyGram also has certain unfunded pension and postretirement plans that require benefit payments over extended periods of time. During the three and nine months ended September 30, 2006, we paid benefits totaling \$0.9 million and \$2.7 million, respectively, related to these unfunded plans. Benefit payments under these unfunded plans are expected to be \$1.1 million in the remainder of 2006. Expected contributions and benefit payments under these plans are not included in the table above. In August 2006, Congress approved the Pension Protection Act of 2006, which requires new funding rules for defined benefit plans. We are currently reviewing the impact of this new law.

Although no assurance can be given, we expect operating cash flows and short-term borrowings to be sufficient to finance our ongoing business, maintain adequate capital levels, and meet debt and clearing agreement covenants and investment grade rating requirements. Should financing requirements exceed such sources of funds, we believe we have adequate external financing sources available, including unused commitments under our credit facilities, to cover any shortfall.

The Company has an effective universal shelf registration on file with the Securities and Exchange Commission. The universal shelf registration provides for the issuance of up to \$500.0 million of our securities, including common stock, preferred stock and debt securities. The securities may be sold from time to time in one or more series. The terms of the securities and any offering of the securities will be determined at the time of the sale. The shelf registration is intended to provide the Company with additional funding sources for general corporate purposes, including working capital, capital expenditures, debt payment, the financing of possible acquisitions or stock repurchases.

Table of Contents

Stockholders Equity

For the three and nine months ended September 30, 2006, MoneyGram purchased 580,000 and 1,534,050 shares of our common stock, respectively, at an average price of \$30.18 and \$30.14 per share, respectively. As of September 30, 2006, the Company has remaining authorization to purchase up to 2,420,000 shares of its common stock.

In August 2006, the Company's Board of Directors approved a small stockholder selling/repurchasing program. This program enables MoneyGram stockholders with less than 100 shares of common stock as of August 21, 2006, to voluntarily purchase additional stock to reach 100 shares or sell all of their shares back to the Company.

The Company's Board of Directors declared cash dividends of \$0.04 per share of common stock in each of the three quarters of 2006. Any future determination to pay dividends on MoneyGram common stock will be at the discretion of our Board of Directors and will depend on our financial condition, results of operations, cash requirements, prospects and such other factors as our Board of Directors may deem relevant. Subject to Board approval, the Company intends to continue paying a quarterly dividend, which will be funded through cash generated from operating activities.

Off-Balance Sheet Arrangements

We have an agreement to sell, on a periodic basis, undivided percentage ownership interests in certain receivables, primarily from our money order agents, in an amount not to exceed \$400.0 million. These receivables are sold to commercial paper conduits (trusts) sponsored by a financial institution and represent a small percentage of the total assets in these conduits. Our rights and obligations are limited to the receivables transferred, and are accounted for as sales transactions under Statement of Financial Accounting Standard (SFAS) No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. The assets and liabilities associated with these conduits, including our sold receivables, are not recorded or included in our financial statements. The agreement expires in December 2006. While we are currently in discussions and expect to extend this agreement, we do not believe the termination of this agreement would have a material impact to our consolidated financial statements. The business purpose of this arrangement is to accelerate cash flow for investment purposes. The receivables are sold at a discount based upon short-term interest rates. On average, we sold receivables totaling \$390.0 million and \$385.9 million during the three and nine months ended September 30, 2006, respectively, for a total discount of \$5.4 million and \$15.2 million, respectively.

The Finance and Investment Committee of the Board of Directors generally approves any transactions and strategies, including any potential off-balance sheet arrangements, which materially affect investment results and cash flows.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements. Critical accounting policies are those policies that management believes are most important to the portrayal of a company's financial position and results of operations, and that require management to make estimates that are difficult, subjective or complex. There were no changes to our critical accounting policies during the third quarter of 2006. For further information regarding our critical accounting policies, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Table of Contents**Recent Accounting Developments**

In May 2005, the Financial Accounting Standards Board (FASB) issued SFAS No. 154, *Accounting Changes and Error Corrections*, which replaces Accounting Principles Board (APB) No. 20, *Accounting Changes*, and SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*. This statement requires that an entity apply the retrospective method in reporting a change in an accounting principle or the reporting entity. The standard only allows for a change in accounting principle if it is required by a newly issued accounting pronouncement or the entity can justify the use of an allowable alternative accounting principle on the basis that it is preferable. This statement also requires that corrections for errors discovered in prior period financial statements be reported as a prior period adjustment by restating the prior period financial statements. Additional disclosures are required when a change in accounting principle or reporting entity occurs, as well as when a correction for an error is reported. The statement is effective for the Company for fiscal 2006. The adoption of this SFAS did not have a material impact to the Company's consolidated financial statements.

In January 2006, the FASB issued FASB Staff Position (FSP) No. 45-3, *Application of FASB Interpretation No. (FIN) 45 to Minimum Revenue Guarantees Granted to a Business or Its Owners*. This FSP amends FIN 45 to include guarantees granted to a business that its revenue for a specified period of time will be at least a specified amount. FIN 45 requires that a company record an obligation at the inception of a guarantee equal to the fair value of the guarantee, as well as disclose certain information relating to the guarantee. The FSP is applicable for minimum revenue guarantees issued or modified by the Company on or after January 1, 2006, with no revision or restatement to the accounting treatment of such guarantees issued prior to the adoption date allowed. The disclosure requirements of FIN 45 are applicable to all outstanding minimum revenue guarantees. The Company has adopted this FSP effective January 1, 2006 with no material impact to the Company's consolidated financial statements.

In February 2006, the FASB issued FSP No. 123R-4, *Classification of Options and Similar Instruments Issued as Employee Compensation That Allow for Cash Settlement upon the Occurrence of a Contingent Event*. This FSP amends SFAS No. 123R, *Share Based Payment*, to require that stock options issued to employees as compensation be accounted for as equity instruments until a contingent event allowing for cash settlement is probable of occurring. The Company has adopted this FSP effective January 1, 2006 with no material impact to the Company's consolidated financial statements.

In July 2006, the FASB issued FIN No. 48, *Accounting for Uncertainty in Income Taxes*. FIN 48 is an interpretation of SFAS No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in an entity's tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition of tax positions. This FIN is effective January 1, 2007 for MoneyGram. The Company is currently evaluating the impact, if any, of this pronouncement on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This statement does not require any new fair value measurements, but it provides guidance on how to measure fair value under other accounting pronouncements. SFAS 157 also establishes a fair value hierarchy to classify the source of information used in fair value measurements. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad categories. This standard is effective for the Company on January 1, 2008. The Company is currently evaluating the impact of this pronouncement on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132*. This standard requires the recognition of the funded status of a pension or postretirement plan in the balance sheet as an asset or liability. Unrecognized prior service costs and gains and losses are recorded to accumulated other comprehensive income. SFAS 158 does not change previous guidance for income statement recognition. The standard requires the plan assets and benefit obligations to be measured as of the annual balance sheet date of the Company. Prospective application of this standard is required. The recognition and disclosure provisions of SFAS 158 are effective for the Company's 2006 year-end, while the change in measurement date is effective for the Company's 2008 year-end. The Company does not believe the adoption of this standard will have a material impact to the Company's consolidated financial

statements.

Table of Contents

In September 2006, the SEC issued Staff Accounting Bulletin (SAB) 108, which expresses the SEC Staff's views regarding the process of quantifying financial statement misstatements. The SAB provides for a one-time cumulative effect transition adjustment to correct for misstatements that are now considered material as a result of implementing SAB 108. This SAB is effective for the Company's 2006 year-end. The Company is currently evaluating the impact, if any, of SAB 108 on its consolidated financial statements.

Forward Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements with respect to the financial condition, results of operations, plans, objectives, future performance and business of MoneyGram International, Inc. and its subsidiaries. Statements preceded by, followed by or that include words such as may, will, expect, anticipate, continue, estimate, project, believes or similar expressions are intended to identify some of the forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are included, along with this statement, for purposes of complying with the safe harbor provisions of that Act. These forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the risks and uncertainties described in Part II, Item 7A under the caption Risk Factors of this Quarterly Report on Form 10-Q as well as the various factors described below. Since it is not possible to foresee all such factors, you should not consider these factors to be a complete list of all risks or uncertainties.

Agent Retention. We may be unable to renew retail agent and financial institution customer contracts, or we may experience a loss of business from significant agents or customers.

Development of New and Enhanced Products. We may be unable to successfully and timely implement new or enhanced technology, delivery methods and product offerings, including pre-paid stored value cards and new bill payment services.

Intellectual Property. The loss of intellectual property protection, the inability to secure or enforce intellectual property protection or to successfully defend against an intellectual property infringement action could harm our business and prospects.

Litigation or Investigations. Our business and results of operations may be materially adversely affected by lawsuits or investigations which could result in material settlements, fines or penalties.

Competition. We may be unable to compete against our large competitors, niche competitors or new competitors that may enter the markets in which we operate.

U.S. Regulation. Failure by us or our agents to comply with the laws and regulatory requirements of federal and state regulatory authorities, or changes in laws, regulations or other industry practices and standards could have an adverse effect on our results of operations.

Banking Relationships. Inability by us or our agents to maintain existing or establish new banking relationships could adversely affect our business, results of operations and our financial condition.

International Events and Regulation. Our business and results of operations may be adversely affected by political, economic or other instability in countries in which we have material agent relationships. Imposition of additional regulatory requirements in the foreign countries in which we operate could adversely affect our business.

New Retail Locations and Acquisitions. Opening new Company owned retail locations and/or acquiring businesses may cause a diversion of capital and management's attention from our core business.

Internal Controls. Our inability to maintain compliance with the internal control provisions of Section 404 of the Sarbanes-Oxley Act of 2002 could have a material adverse effect on our business and stock price.

Agent Credit and Fraud Risks. We may face credit and fraud exposure if we are unable to collect funds from our agents who receive the proceeds from the sale of our payment instruments.

Investment Portfolio Credit Risk. If an issuer of securities in our investment portfolio defaulted on its payment obligations, the value of our securities would decline, adversely affecting the value of our investment portfolio.

Table of Contents

Interest Rate Fluctuations. Fluctuations in interest rates may materially adversely affect revenue derived from investment of funds received from the sale of our payment instruments and commissions paid to financial institution customers.

Market Value of Securities. Material changes in the market value of securities we hold may materially adversely affect our results of operation and financial condition.

International Migration Patterns. Changes in immigration laws or other circumstances that discourage international migration could adversely affect our money transfer remittance volume or growth rate.

Liquidity. Material changes in our need for and the availability of liquid assets may affect our ability to meet our payment service obligations and may materially adversely affect our results of operation and financial condition.

Network and Data Security. If we face system interruptions and system failures due to defects in our software, development delays and installation difficulties, or for any other reason, our business could be harmed.

Business Interruption. In the event of a breakdown, catastrophic event, security breach, improper operation or any other event impacting our systems or processes or our vendors' systems or processes, or improper action by our employees, agents, customer financial institutions or third party vendors, we could suffer financial loss, loss of customers, regulatory sanctions and damage to our reputation.

Anti-Takeover Provisions. Provisions in our charter documents and specific provisions of Delaware law may have the effect of delaying, deterring or preventing a merger or change in control of our Company.

Other Factors. Additional risk factors may be described in our other filings with the Securities and Exchange Commission from time to time.

Actual results may differ materially from historical and anticipated results. These forward-looking statements speak only as of the date on which such statements are made, and we undertake no obligation to update such statements to reflect events or circumstances arising after such date.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company believes that there have been no material changes in our market risk since December 31, 2005. For further information on market risk, refer to Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations - Enterprise Risk Management in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report (the Evaluation Date), the Company carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

No change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the fiscal quarter ended September 30, 2006, has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are party to a variety of legal proceedings that arise in the normal course of our business. In these actions, plaintiffs may request punitive or other damages that may not be covered by insurance. We accrue for these items as losses become probable and can be reasonably estimated. While the results of these legal proceedings cannot be predicted with certainty, management believes that the final outcome of these proceedings will not have a material adverse effect on our consolidated results of operations or financial position.

ITEM 1A. RISK FACTORS

The risk factors set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 have been revised and updated and are set forth in their entirety below.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Our business faces many risks. Any of the risks discussed below, or elsewhere in this Quarterly Report on Form 10-Q or our other SEC filings, could have a material impact on our business, financial condition or results of operations.

RISK FACTORS

If we lose key retail agents or are unable to maintain our Global Funds Transfer agent network, our business and results of operations could be adversely affected.

We may not be able to retain all of our current retail agents. The competition for retail agents is intense, and larger agents are increasingly demanding financial concessions and more information technology customization. The development and equipment necessary to meet agent demands could require substantial capital expenditures. If we were unable to meet these demands, we could lose agents and our volume of money transfers would be substantially reduced. If agents decide to leave our network, or if we are unable to sign new agents, our revenue would decline.

Table of Contents

Existing agents may generate fewer transactions or less revenue for various reasons, including increased competition. An agent may encounter business difficulties unrelated to its provision of our services, which could cause the agent to reduce its number of locations or hours of operation, or cease doing business altogether.

A substantial portion of our transaction volume is generated by a limited number of key agents. During 2005 and 2004, our ten largest agents accounted for 31 percent and 27 percent, respectively, of our total revenue and 46 percent and 41 percent, respectively, of the revenue of our Global Funds Transfer segment. Our largest agent, Wal-Mart Stores, Inc., accounted for 13 percent and 9 percent of our total revenue and 19 percent and 14 percent of the revenue of our Global Funds Transfer segment in 2005 and 2004, respectively. If any of these key agents were not to renew their contracts with us, or if such agents were to reduce the number of their locations, or cease doing business, we might not be able to replace the volume of business conducted through these agents, and our business and results of operations would be adversely affected.

In addition, many of our high volume agents are in the check cashing industry. There are risks associated with the check cashing industry that could cause this portion of our agent base to decline. Any regulatory action that adversely affects check cashers could also cause this portion of our agent base to decline.

If we lose large financial institution customers in our Payment Systems segment, our business and results of operation could be adversely affected.

During 2005 and 2004, our ten largest financial institution customers accounted for 13 percent and 14 percent, respectively, of our total revenue and 39 percent and 39 percent, respectively, of the revenue of our Payment Systems segment. Our largest financial institution customer generated 4 percent of our total revenue in 2005 and 2004 and 11 percent and 10 percent of the revenue in our Payment Systems segment in 2005 and 2004, respectively. The loss of any of our top financial institution customers could adversely affect our business and results of operations.

If we fail to successfully develop and timely introduce new and enhanced products and services, our business, prospects, financial condition and results of operations could be adversely affected.

Our future growth will depend, in part, on our ability to continue to develop and successfully introduce new and enhanced methods of providing money transfer, money order, official check, bill payment and related services that keep pace with competitive introductions, technological changes and the demands and preferences of our agents, financial institution customers and consumers. Many of our competitors offer stored-value cards and other electronic payment mechanisms, including various internet-based payment services, which we have only recently introduced, that could be substituted for traditional forms of payment, such as the money orders, bill payment and money transfer services that we offer. If these alternative payment mechanisms become widely substituted for our products and services, and we do not develop and ramp up similar alternative payment mechanisms successfully and on a timely basis, our business and prospects could be adversely affected.

If we are unable to protect the intellectual property rights related to our existing and any new or enhanced products and services, our business, prospects, financial condition and results of operations could be adversely affected.

We rely on a combination of patent, trademark and copyright laws, trade secret protection and confidentiality and license agreements to protect the intellectual property rights related to our products and services. We also investigate the intellectual property rights of third parties to prevent our infringement of those rights. We may be subject to claims of third parties that we infringe or have misappropriated their proprietary rights. We may be required to spend resources to defend any such claims and/or to protect and police our own rights. Some intellectual property rights may not be protected by intellectual property laws, particularly in foreign jurisdictions. The loss of intellectual property protection, the inability to secure or enforce intellectual property protection or to successfully defend against an intellectual property infringement action could harm our business and prospects.

Litigation or investigations involving our agents or MoneyGram which could result in material settlements, fines or penalties may adversely affect our business, financial condition and results of operations.

Our business has in the past been, and may in the future continue to be, the subject of class actions, regulatory actions, investigations or other litigation. The outcome of class action lawsuits, regulatory actions or investigations is difficult to assess or quantify. Plaintiffs in these types of lawsuits may seek recovery of very large or indeterminate amounts, and the magnitude of lawsuits and actions may remain unknown for substantial periods of time. The cost to defend future lawsuits or investigations may be significant.

Table of Contents

There may also be adverse publicity associated with lawsuits and investigations that could decrease customer acceptance of our agents and our services. As a result, litigation or investigations involving our agents or MoneyGram may adversely affect our business, financial condition and results of operations.

We face intense competition, and if we are unable to continue to compete effectively, our business, financial condition and results of operations would be adversely affected.

The industries in which we compete are highly competitive, and we face a variety of competitors across our businesses. In addition, new competitors or alliances among established companies may emerge. Our primary competition comes from Western Union, which has substantially greater transaction volume than we do. Western Union has a larger agent base, a more established brand name and substantially greater financial and marketing resources than we do. We cannot anticipate what, if any, effect Western Union will have on our business or the money transfer industry.

The Global Funds Transfer segment of our business competes in a concentrated industry, with a small number of large competitors and a large number small, niche competitors. Our large competitors are other providers of money orders and money transfer services, including Western Union and the U.S. Postal Service with respect to money orders. We also compete with banks and niche person-to-person money transfer service providers that serve select send and receive corridors.

The Payment Systems segment of our business competes in a concentrated industry with a small number of large competitors. Our competitors in this segment are Integrated Payment Systems, a subsidiary of First Data Corporation, and Federal Home Loan Banks. We also compete with financial institutions that have developed internal processing capabilities or services similar to ours and do not outsource these services.

Recent levels of growth in consumer money transfer transactions and other payment products may not continue. In addition, consolidation among payment services companies has occurred and could continue. If we are unable to compete effectively in the changing marketplace, our business, financial condition and results of operations would be adversely affected.

Our agents and MoneyGram are subject to a number of risks relating to U.S. federal and state regulatory requirements which could result in material settlements, fines or penalties or changes in their or our business operations that may adversely affect our business, financial condition and results of operations.

Our business is subject to a wide range of laws and regulations. These include financial services regulations, consumer disclosure and consumer protection laws, currency control regulations, money transfer and payment instrument licensing regulations, escheat laws and laws covering consumer privacy, data protection and information security. In addition to the foregoing, the money transfer business is subject to a variety of state and federal regulations in the U.S. aimed at the prevention of money laundering and terrorism. We are subject to U.S. federal anti-money laundering laws and the requirements of the Office of Foreign Assets Control (OFAC), which prohibit us from transmitting money to specified countries or on behalf of prohibited individuals. The USA PATRIOT Act also mandates several anti-money laundering requirements.

Any intentional or negligent violation of the laws and regulations set forth above by our employees or our agents could lead to significant fines and/or penalties, and could limit our ability to conduct business in some jurisdictions. In addition to those direct costs, a failure by us or our agents to comply with applicable laws and regulations also could seriously damage our reputation and brands, and result in diminished revenue and profit and increased operating costs. Changes in laws, regulations or other industry practices and standards may occur which could increase our compliance and other costs of doing business, could require significant systems redevelopment, reduce the market for or value of our products or services or render our products or services less profitable or obsolete, and could have an adverse effect on our results of operations. Changes in the laws affecting the kinds of entities that are permitted to act as money transfer agents (such as changes in requirements for capitalization or ownership) could adversely affect our ability to distribute our services and the cost of providing such services, both by us and our agents. If onerous regulatory requirements were imposed on our agents, they could lead to a loss of agents, which, in turn, could lead to a loss of retail business.

Table of Contents

Failure by us or our agents to comply with the laws and regulatory requirements of federal and state regulatory authorities could result in, among other things, revocation of required licenses or registrations, loss of approved status, termination of contracts with banks or retail representatives, administrative enforcement actions and fines, class action lawsuits, cease and desist orders and civil and criminal liability. The occurrence of one or more of these events could materially adversely affect our business, financial condition and results of operations.

The Company conducts money transfer transactions through agents in some regions that are politically volatile and/or, in a limited number of cases, are subject to certain OFAC restrictions.

The Company conducts money transfer transactions through agents in some regions that are politically volatile and/or, in a limited number of cases, are subject to certain OFAC restrictions. While the Company has instituted policies and procedures to protect against violations of law, it is possible that the Company's money transfer service or other products could be used by wrong-doers in a contravention of U.S. law or regulations. In addition to monetary fines or penalties that the Company could incur, the Company is also subject to reputational harm that could adversely impact the value of the shareholder's investment.

An inability for our agents or for us to maintain adequate banking relationships may adversely affect our financial condition.

We and our agents are considered Money Service Businesses, or MSBs, in the United States under the Bank Secrecy Act. An increasing number of financial institutions view MSBs, as a class, as higher risk customers for purposes of their anti-money laundering compliance programs. As a result, several financial institutions have terminated their banking relationships with some of our agents and one with us. If a significant number of agents are unable to maintain existing or establish new banking relationships, they may not be able to continue to offer our services. Any inability on our part to maintain existing or establish new banking relationships could adversely affect our business, results of operations and our financial condition.

Imposition of additional regulatory requirements in any of the foreign countries in which we operate could adversely affect our business.

International regulation of the money transfer business varies from country to country. Although most countries (other than Germany, France, Malaysia, the Netherlands, Switzerland, Ukraine and the United Kingdom) do not regulate this business to the same degree as the United States, this could change in the future. Various foreign governments could impose penalties or charges, or additional regulatory requirements on us or our agents, such as licensing requirements, government watch lists that prohibit the transfer of money on behalf of prohibited individuals, and anti-money laundering regulations. Any of these requirements, including anti-money laundering requirements and related scrutiny, could make it more difficult to originate money transfers overseas, increase our costs or decrease our revenues. Any inadvertent violation of a law or regulation by us or one of our agents could subject us to damages, including fines or penalties.

The opening of new retail locations and acquisition or start-up of businesses create risks and may affect our operating results.

We have recently opened several Company owned retail locations for the sale of our products and services. Operating such retail locations presents new risks for us. After substantial capital investment in such retail locations it is uncertain how such locations will be accepted in the market and how quickly transaction volume will increase. We also may be subject to additional laws and regulations which are triggered by our ownership of the retail locations and our employment of the individuals staffing such retail locations.

Additionally, we may from time to time acquire or start-up businesses both inside and outside of the U.S. The acquisition and integration of businesses involve a number of risks. We may not be able to successfully integrate any businesses that we acquire, including their facilities, personnel, financial systems, distribution, operations and general operating procedures. If we fail to successfully integrate acquisitions, we could experience increased costs and other operating inefficiencies, which could have an adverse effect on our results of operations.

The diversion of capital and management's attention from our core business that results from opening retail locations and/or acquiring or starting-up new businesses could adversely affect our business, financial condition and results of operations.

Failure to maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act could have a material adverse affect on our business and stock price.

41

Table of Contents

Due to our July 1, 2004 spin-off and new status as a public company, 2006 is the first year in which we are required to certify and report on our compliance with the requirements of Section 404 of the Sarbanes-Oxley Act, which requires annual management assessments of the effectiveness of our internal control over financial reporting and a report by our independent registered public accounting firm addressing these assessments. If we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404. In order to achieve effective internal controls we may need to enhance our accounting systems or processes which could increase our cost of doing business. Any failure to achieve and maintain an effective internal control environment could have a material adverse effect on our business.

We face credit and fraud risks from our retail agents.

The vast majority of our Global Funds Transfer business is conducted through independent agents that provide our products and services to consumers at their business locations. Our agents receive the proceeds from the sale of our payment instruments and we must then collect these funds from the agents. As a result, we have credit exposure to our agents, which averages approximately \$1.1 billion in the aggregate, representing a combination of money orders, money transfers and bill payment proceeds. During 2005, this credit exposure was spread across almost 27,500 agents, of which 14 owed us in excess of \$15.0 million each at any one time.

We are not insured against credit losses, except in circumstances of agent theft or fraud. If an agent becomes insolvent, files for bankruptcy, commits fraud or otherwise fails to remit money order or money transfer proceeds to us, we must nonetheless pay the money order or complete the money transfer on behalf of the consumer. Moreover, we have made, and may in the future make, secured or unsecured loans to retail agents under limited circumstances or allow agents to retain our funds for a period of time before remitting them to us. The failure of agents owing us large amounts to remit funds to us or to repay such amounts could materially adversely affect our business, results of operations and our financial condition.

We are subject to credit risk related to our investment portfolio and our use of derivatives.

Our credit risk includes the potential risk that the Company may not collect on interest and/or principal associated with its investments, as well as counterparty risk associated with its derivative financial instruments. Approximately 83 percent of our investment portfolio at December 31, 2005 consisted of securities that are not issued or guaranteed by the U.S. government. If the issuer of any of these securities were to default in its payment obligations to us or to otherwise experience credit problems, the value of the investments would decline and adversely impact our investment portfolio and our earnings. At December 31, 2005, we were party to derivative instruments, known as swaps, having a notional amount of \$2.7 billion. These swap agreements are contracts in which we and a counterparty agree to exchange periodic payments based on a fixed or variable rate of interest on a given notional amount, without the exchange of the underlying notional amounts. The notional amount of a swap agreement is used to measure amounts to be paid or received and does not represent the amount of exposure to credit loss. At any point in time, depending upon many factors including the interest rate environment and the fixed and variable rates of the swap agreements, we may owe our counterparty or our counterparty may owe us. If any of our counterparties to these swap agreements were to default in its payment obligation to us or otherwise experience credit problems, we could be adversely affected.

Our financial condition and results of operations could be adversely affected by fluctuations in interest rates.

We derive a substantial portion of our revenue from the investment of funds we receive from the sale of payment instruments, such as official checks and money orders, until these instruments are settled. We generally invest these funds in long-term fixed-income securities. We pay the financial institutions to which we provide official check outsourcing services a commission based on the average balance of funds produced by their sale of official checks. This commission is generally calculated on the basis of a variable rate based on short-term financial indices, such as the federal funds rate. In addition, we have agreements to sell, on a periodic basis, undivided percentage interests in some of our receivables from agents at a price that is discounted based on short-term interest rates. To mitigate the effects of interest rate fluctuations on our commission expense and the net proceeds from our sales of agent receivables, we enter into variable-to-fixed rate swap agreements. These swap agreements require us to pay our counterparty a fixed interest rate on an agreed notional amount, while our counterparty pays us a variable interest rate

on that same notional amount.

Fluctuations in interest rates affect the value and amount of revenue produced by our investment portfolio, the amount of commissions that we pay, the net proceeds from our sale of receivables and the amount that we pay or receive under our swap agreements. As a result, our net investment revenue, which is the difference, or spread, between the amount we earn on our investment portfolio and the commissions we pay and the discount on the sale of receivables, net of the effect of the swap agreements, is subject to interest rate risk as the components of net investment revenue are not perfectly matched through time and across all possible interest rate scenarios.

Table of Contents

Certain investments in our portfolio, primarily fixed-rate mortgage-backed investments, are subject to prepayment with no penalty to the borrower. As interest rates decrease, borrowers are more likely to prepay fixed-rate debt, resulting in cash flows that are received earlier than expected. Replacing the higher-rate investments that prepay with lower rate investments could reduce our net investment revenue. Conversely, an increase in interest rates may result in slower than expected prepayments and, therefore, cash flows that are received later than expected. In this case, there is risk that the cost of our commission payments may reprice faster than our investments and at a higher cost, which could reduce our net investment revenue.

Material changes in the market value of securities we hold, or in the securities as to which we act as an advisor, may materially affect our results of operation and financial condition.

We also bear market risk that arises from fluctuations in interest rates that may result in changes in the values of our investments and swap agreements. Rate movements can affect the repricing of assets and liabilities differently, as well as their market value. Stockholders' equity can be adversely affected by changing interest rates, as after-tax changes in the fair value of securities classified as available-for-sale and after-tax changes in the fair value of our swaps are reflected as increases and decreases to a component of stockholders' equity. The fair value of our swaps generally increases when the market value of fixed rate, long-term debt investments decline and vice versa. However, the changes in the fair value of swaps and investments may not fully offset, which could adversely affect stockholders' equity.

The market values of securities we hold may decline due to a variety of factors, including decline in credit rating of the issuer or credit issues related to underlying collateral of the security, general market conditions and increases in interest rates for comparable obligations. If we determine that an unrealized loss on a security is other-than-temporary, the loss becomes a realized loss through an impairment charge in the income statement.

Our wholly owned subsidiary has entered into an agreement to act as collateral advisor for a pool of investment securities owned by a third party. Deterioration in the value or performance of this investment pool, while not directly related to the company's own performance, could adversely affect the business and prospects of the collateral advisor.

A material slow down or complete disruption in international migration patterns could adversely affect our business, financial condition and results of operations.

The money transfer business relies in part on migration patterns, as individuals move from their native country into countries with greater economic opportunities and/or a more stable political environment. A significant portion of money transfer transactions are initiated by immigrants or refugees sending money back to their native countries. Changes in immigration laws, economic development patterns that discourage international migration and political or other events (such as war, terrorism or health emergencies) that would make it more difficult for individuals to migrate or work abroad could adversely affect our money transfer remittance volume or growth rate and could each have an adverse effect on our business, financial condition and results of operations.

Our business may require cash in amounts greater than the amount of available credit facilities and liquid assets that we have on hand at a particular time, and if we were forced to ultimately liquidate assets or secure other financing as a result of unexpected liquidity needs, our earnings could be reduced.

We are subject to risks relating to daily liquidity needs, as well as extraordinary events, such as the unexpected loss of a customer. On a daily basis, we receive remittances from our agents and financial institution customers and we must clear and pay the financial instruments that were previously sold and currently are presented for payment. We monitor and maintain a liquidity portfolio along with credit lines and repurchase agreements in order to cover payment service obligations as they are presented. If we were forced to liquidate portfolio assets or secure other financing as a result of unexpected liquidity needs, our earnings could be reduced. In addition, if we were to lose any of our significant customers, in addition to losing the related revenues, we may have to liquidate investments or seek to borrow for a period of time to fund our obligation to clear the outstanding instruments issued on behalf of that customer at the termination of its contract. We may not be able to plan effectively for every customer contract termination, which could result in sale of investments at a loss of or lower profits than we would otherwise realize due to prevailing market conditions.

Our business is highly dependent on the efficient and uninterrupted operation of our computer network systems and data centers, and any disruption or material breach of security of our systems could harm our business.

Table of Contents

Our ability to provide reliable service largely depends on the efficient and uninterrupted operation of our computer network systems and data centers. Any significant interruptions or security or privacy breaches in our facilities, computer networks and databases could harm our business and reputation, cause inquiries and fines or penalties from regulatory or governmental authorities, and cause a loss of customers. Certain of our agent contracts contain service level standards pertaining to the operation of our system, and give the agent a right of termination for system downtime exceeding agreed upon service levels.

Our systems and operations could be exposed to damage or interruption from fire, natural disaster, power loss, telecommunications failure, unauthorized entry or physical break-ins, computer viruses and hackers. The measures we have enacted, such as the implementation of disaster recovery plans and redundant computer systems, may not be successful and we may experience problems other than system failures. We may also experience software defects, development delays and installation difficulties, which would harm our business and reputation and expose us to potential liability and increased operating expenses.

Third-party contractors also may experience security breaches involving the storage and transmission of proprietary information. If users gain improper access to our systems or databases, they may be able to steal, publish, delete or modify confidential third-party information that is stored or transmitted on the networks. Our data applications may not be sufficient to address technological advances, changing market conditions or other developments. If we face system interruptions and system failures due to defects in our software, development delays, installation difficulties or for any other reason, our business interruption insurance may not be adequate to compensate us for all losses or damages that we may incur.

Our business involves the movement of large sums of money, and, as a result, our business is particularly dependent on our ability to process and settle transactions accurately and efficiently.

Our business involves the movement of large sums of money. Our revenues consist primarily of transaction fees that we charge for the movement of this money and investment revenues. These transaction fees represent only a small fraction of the total amount of money that we move. Because we are responsible for large sums of money that are substantially greater than our revenues, the success of our business particularly depends upon the efficient and error-free handling of the money that is remitted to us and that is used to clear payment instruments or complete money transfers. We rely on the ability of our employees and our internal systems and processes to process these transactions in an efficient, uninterrupted and error-free manner. In addition, we rely on third-party vendors in our business, including clearing banks which clear our money orders and official checks and certain of our telecommunications providers. In the event of a breakdown, catastrophic event, security breach, improper operation or any other event impacting our systems or processes or our vendors' systems or processes, or improper action by our employees, agents, customer financial institutions or third party vendors, we could suffer financial loss, loss of customers, regulatory sanctions and damage to our reputation.

There are a number of risks associated with our international sales and operations that could harm our business.

We provided money transfer services between and among approximately 170 countries and territories at December 31, 2005, and our strategy is to expand our international business. Our ability to grow in international markets and our future results could be harmed by a number of factors, including:

- changes in political and economic conditions and potential instability in certain regions;
- changes in regulatory requirements or in foreign policy and the adoption of foreign laws detrimental to our business;
- burdens of complying with a wide variety of laws and regulations;
- possible fraud or theft losses, and lack of compliance by international representatives in remote locations and foreign legal systems where collection and enforcement may be difficult or costly;
- reduced protection for our intellectual property rights;
- unfavorable tax rules or trade barriers;
- inability to secure, train or monitor international agents; and
- failure to successfully manage our exposure to foreign currency exchange rates.

Table of Contents

Our charter documents, our rights plan and Delaware law contain provisions that could delay or prevent an acquisition of our Company, which could inhibit your ability to receive a premium on your investment from a possible sale of our Company.

Our charter documents contain provisions that may discourage third parties from seeking to acquire our Company. In addition, we have adopted a rights plan which enables our Board of Directors to issue preferred share purchase rights that would be triggered by certain prescribed events. These provisions and specific provisions of Delaware law relating to business combinations with interested stockholders may have the effect of delaying, deterring or preventing a merger or change in control of our Company. Some of these provisions may discourage a future acquisition of our Company even if stockholders would receive an attractive value for their shares or if a significant number of our stockholders believed such a proposed transaction to be in their best interests. As a result, stockholders who desire to participate in such a transaction may not have the opportunity to do so.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On November 18, 2004, our Board of Directors authorized a stock repurchase program for up to 2,000,000 shares of MoneyGram common stock, as announced in a press release issued on November 18, 2004. On August 18, 2005, the Board of Directors increased the share buyback authorization by 5,000,000 shares to a total of 7,000,000 shares, as announced in a press release issued on August 18, 2005. The authorization is effective until such time as the Company has repurchased 7,000,000 shares.

In August 2006, the Company's Board of Directors approved a small stockholder selling/repurchasing program. This program enables MoneyGram stockholders with less than 100 shares of common stock as of August 21, 2006, to voluntarily purchase additional stock to reach 100 shares or sell all of their shares back to the Company.

The following table sets forth information in connection with purchases made by us, or on our behalf, of shares of our common stock during the quarterly period ended September 30, 2006. The total number of shares purchased includes shares surrendered to the Company in payment of individual income taxes in connection with the exercise of stock options or the vesting of restricted stock. The shares of common stock surrendered to the Company are not considered repurchased shares under the terms of the repurchase program.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program	Maximum Number of Shares that May Yet Be Purchased Under the Plan or Program
July 1 July 31, 2006	260,000	\$ 30.16	260,000	2,740,000
August 1 August 31, 2006	272,714	30.25	270,000	2,470,000
September 1 September 30, 2006	50,300	29.80	50,000	2,420,000
Total	583,014		580,000	

ITEM 6. EXHIBITS

Exhibits are filed with this Form 10-Q as listed in the accompanying Exhibit Index.
