PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS AND PRINCIPAL VALUE WILL FLUCTUATE AND FUND SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The returns shown in this report do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Performance of share classes will vary due to differences in sales charges and expenses. As a result of recent market activity, current performance may vary from the figures shown. Average annual total return with sales charges includes payment of the maximum sales charge of 4.75 percent for Class A shares, a contingent deferred sales charge of 4.00 percent for Class B shares (in years

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

one and two and declining to zero after year five), a contingent deferred sales charge of 1.00 percent for Class C shares in year one and combined Rule 12b-1 fees and service fees of up to 0.25 percent for Class A shares and up to 1.00 percent for Class B and C shares. The since inception and ten-year returns for Class B shares reflect the conversion of Class B shares into Class A shares eight years after purchase. The since inception returns for Class C shares reflect the conversion of Class C shares into Class A shares ten years after purchase. Class I shares are available for purchase exclusively by investors through (i) tax-exempt retirement plans with assets of at least \$1 million (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase plans, defined benefit plans and non-qualified deferred compensation plans), (ii) fee-based investment programs with assets of at least \$1 million and (iii) institutional clients with assets of at least \$1 million. Class I shares are offered without any sales charges on purchases or sales and do not include combined Rule 12b-1 fees and service fees. Figures shown above assume reinvestment of all dividends and capital gains. SEC yield is a calculation for determining the amount of portfolio income, excluding non-income items as prescribed by the SEC. Yields are subject to change.

J.P. Morgan Global High Yield Index is a broad-based index that reflects the general performance of the global high-yield corporate debt market including domestic and international issues. Based on the fund's asset composition, the fund's investment adviser believes the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index is a more appropriate broad-based benchmark for the fund than the J.P. Morgan Global High Yield Index. Accordingly, the J.P. Morgan Global High Yield Index will not be shown in future reports. The Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index is a broad-based index that reflects the general performance of the U.S. dollar denominated, fixed-rate, non-investment grade, taxable corporate bond market. Issuers are capped at 2% of the index. Lipper High Yield Bond Fund Index is an index of funds with similar investment objectives as this fund. Indexes do not include any expenses, fees or sales charges, which would lower performance. Indexes are unmanaged and should not be considered an investment.

Fund Report

FOR THE SIX-MONTH PERIOD ENDED FEBRUARY 28, 2007

MARKET CONDITIONS

The economic environment continued to be quite favorable for the high-yield asset class throughout the six-month reporting period. Inflation remained moderate and the economy expanded, but at a slower pace than earlier in the year, prompting the Federal Open Market Committee (the "Fed") to leave its target federal funds rate unchanged. These factors, coupled with generally loose credit conditions and rising equity prices, helped to boost investor confidence in the high-yield market. As a result, demand for high-yield bonds continued to be strong, pushing prices steadily higher. In fact, the high-yield market realized returns in excess of 1 percent in every month of the reporting period, outperforming 10-year Treasuries until the last days in February when the a sell-off in the Chinese equity market and comments by ex-Fed Chairman Greenspan caused a sudden and significant decline in the S&P 500 Index and a flight to quality.

The constructive market conditions and low level of prevailing interest rates led many investors to assume more risk in exchange for potentially higher returns. This quest for yield caused lower-rated securities to turn in the best performance, with CCC rated bonds outperforming higher-rated high-yield issues for most of the period. The ongoing appetite for lower-quality credits, as well

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

as low market volatility and default rates, caused high-yield credit spreads to tighten throughout much of the period. Although spreads widened slightly at the end of February, they still remained much tighter than historical averages, ending the period at 288 basis points over Treasuries. The supply of high-yield bonds remained robust, reaching a monthly record high in November, when more than \$32 billion in new issues came to market.

Although the performance of individual sectors varied, all industries exhibited positive returns throughout the entire period. Overall, insurance, cable, wireless communications and building materials were among the best performing sectors. Conversely, lodging, the food and beverage sector, and energy were some of the worst performers. However, the returns of each of these sectors still remained in positive territory for all of the reporting period.

PERFORMANCE ANALYSIS

The fund returned 6.34 percent for the six months ended February 28, 2007 (Class A shares, unadjusted for sales charges). In comparison, the fund's benchmarks, the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index, the J.P. Morgan Global High Yield Index and the Lipper High Yield Bond Fund Index, returned 8.31 percent, 8.34 percent and 7.90 percent for the period, respectively.

TOTAL RETURN FOR THE SIX-MONTH PERIOD ENDED FEBRUARY 28, 2007

CLASS A	CLASS B	CLASS C	CLASS I	LEHMAN BROTHERS U.S. CORPORATE HIGH YIELD 2% ISSUER CAP INDEX	J.P. MORGAN GLOBAL HIGH YIELD INDEX	LIPPER HIGH YIELD BOND FUND INDEX
6.34%	5.92%	6.11%	6.47%	8.31%	8.34%	7.90%

The performance for the four share classes varies because each has different expenses. The fund's total return figures assume the reinvestment of all distributions, but do not reflect the deduction of any applicable sales charges. Such costs would lower performance. Past performance is no guarantee of future results. See Performance Summary for standardized performance information and index definitions.

The fact that spreads in the high-yield market continued to be tight versus historical averages and that inflation, while contained, remained above the Fed's target range led us to maintain the portfolio's defensive positioning in terms of both its duration (or interest-rate sensitivity) and its credit quality. The fund's lower duration relative to the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index did not have much of a material effect on performance as interest rates were only slightly lower during the period. Our strategy of keeping the fund's overall credit quality higher than that of the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index, however, did detract from returns and was the primary contributor to the fund's relative underperformance. Security selection within the cable and telecom sectors also tempered returns at various times during the period.

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

On a more positive note, security selection within the automotive/vehicle parts, media, retail, and metals/mining sectors helped performance. The fund also benefited from a reduction in automotive/vehicle parts holdings as the performance of this sector waned at the end of the period. As of the end of the period, the fund's major overweights relative to the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index were in the energy, banking, diversified manufacturing, and food and tobacco sectors while the major sector underweights included technology, cable, telecom, auto/vehicle parts, and utilities.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the fund in the future.

FOR MORE INFORMATION ABOUT PORTFOLIO HOLDINGS

Each Van Kampen fund provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the fund's second and fourth fiscal quarters. The semiannual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Van Kampen also delivers the semiannual and annual reports to fund shareholders, and makes these reports available on its public Web site, www.vankampen.com. In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public Web site, each fund files a complete schedule of portfolio holdings with the SEC for the fund's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public Web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's Web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

You may obtain copies of a fund's fiscal quarter filings by contacting Van Kampen Client Relations at (800) 847-2424.

Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments of Class A Shares and contingent deferred sales charges on redemptions of Class B and C Shares; and redemption fees; and (2) ongoing costs, including management fees; distribution and service (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period 9/1/06 - 2/28/07.

ACTUAL EXPENSE

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) or contingent deferred sales charges or redemption fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

different funds. In addition, if these transactional costs were included, your cost would have been higher.

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Yield Fund (the "Fund") is organized as a Delaware statutory trust, and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's primary investment objective is to seek to maximize current income. Capital appreciation is secondary objective which is sought only when consistent with the Fund's primary investment objective. The fund commenced investment operations on October 2, 1978. The Fund offers Class A Shares, Class B Shares, Class C Shares and Class I Shares. Each class of shares differs by its initial sales load, contingent deferred sales charges, the allocation of class-specific expenses and voting rights on matters affecting a single class.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments and preferred stocks are stated

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their last sale price as of the close of such securities exchange. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Unlisted securities and listed securities for which the last sales price is not available are valued at the mean of the last reported bid and asked price. For those securities where quotations or prices are not readily available, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Forward foreign currency contracts are valued using quoted foreign exchange rates. Credit default swaps are valued using market quotations obtained from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At February 28, 2007, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make

23

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED) continued

payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INCOME AND EXPENSES Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Discounts on debt securities are accreted and premiums are amortized over the expected life of each applicable security. Other income is comprised primarily of consent fees. Consent fees are earned as compensation for agreeing to changes in terms of debt instruments. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares, except for distribution and service fees and incremental transfer agency costs which are unique to each class of shares.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of federal income tax laws which allow it to carry a realized capital loss forward for eight years following the

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

year of the loss and offset such losses against any future realized capital gains. At August 31, 2006, the Fund had an accumulated capital loss carryforward for tax purposes of \$559,992,005 which will expire according to the following schedule:

AMOUNT	EXPIRATION
\$ 15,213,979.....	August 31, 2007
33,682,013.....	August 31, 2008
51,935,293.....	August 31, 2009
138,518,165.....	August 31, 2010
165,406,856.....	August 31, 2011
117,018,188.....	August 31, 2012
32,804,299.....	August 31, 2013
5,413,212.....	August 31, 2014

Part of the capital loss carryforward referred to above was acquired due to a merger with another regulated investment company which occurred during a prior fiscal year.

At February 28, 2007, the cost and related gross unrealized appreciation and depreciation were as follows:

Cost of investments for tax purposes.....	\$647,768,242
	=====
Gross tax unrealized appreciation.....	\$ 21,437,353
Gross tax unrealized depreciation.....	(47,597,407)

Net tax unrealized depreciation on investments.....	\$ (26,160,054)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares daily and pays monthly dividends from net investment income. Net realized gains, if any, are distributed at least annually. Distributions from net realized gains for book purposes may include short-term capital gains which are included as ordinary income for tax purposes.

24

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED) continued

The tax character of distributions paid during the year ended August 31, 2006 was as follows:

Distributions paid from:	
Ordinary income.....	\$49,344,799
Long-term capital gain.....	-0-

	\$49,344,799
	=====

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

As of August 31, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income..... \$1,345,993

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sales transactions.

F. EXPENSE REDUCTIONS During the six months ended February 28, 2007, the Fund's custody fee was reduced by \$26,877 as a result of credits earned on cash balances.

G. FOREIGN CURRENCY TRANSLATION Assets and liabilities denominated in foreign currencies and commitments under forward foreign currency contracts are translated into U.S. dollars at the mean of the quoted bid and asked prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated at the rate of exchange prevailing when such securities were acquired or sold. Realized gain and loss on foreign currency transactions on the Statement of Operations includes the net realized amount from the sale of foreign currency and the amount realized between trade date and settlement date on securities transactions. Income and expenses are translated at rates prevailing when accrued.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$500 million.....	.420%
Next \$250 million.....	.345%
Next \$250 million.....	.295%
Next \$1 billion.....	.270%
Next \$1 billion.....	.245%
Over \$3 billion.....	.220%

For the six months ended February 28, 2007, the Fund recognized expenses of approximately \$4,100 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Fund is a partner of such firm and he and his law firm provide legal services as legal counsel to the Fund.

Under separate Accounting Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides accounting services and the CCO provides compliance

25

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED) continued

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

services to the Fund. The costs of these services are allocated to each fund. For the six months ended February 28, 2007, the Fund recognized expenses of approximately \$21,400 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, as well as the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Accounting and Administrative Expenses" on the Statement of Operations.

Van Kampen Investor Services Inc. (VKIS), an affiliate of the Adviser, serves as the shareholder servicing agent for the Fund. For the six months ended February 28, 2007, the Fund recognized expenses of approximately \$468,500 representing transfer agency fees paid to VKIS. Transfer agency fees are determined through negotiations with the Fund's Board of Trustees.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are also officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation. Amounts deferred are retained by the Fund, and to the extent permitted by the 1940 Act, as amended, may be invested in the common shares of those funds selected by the trustees. Investments in such funds of \$263,193 are included in "Other" assets on the Statement of Assets and Liabilities at February 28, 2007. Appreciation/depreciation and distributions received from these investments are recorded with an offsetting increase/decrease in the deferred compensation obligation and do not affect the net asset value of the Fund. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

For the six months ended February 28, 2007, Van Kampen, as Distributor for the Fund, received net commissions on sales of the Fund's Class A Shares of approximately \$50,000 and contingent deferred sales charge (CDSC) on redeemed shares of approximately \$101,400. Sales charges do not represent expenses to the Fund.

4. REDEMPTION FEE

The Fund assesses a 2% redemption fee on the proceeds of Fund shares that are redeemed (either by sale or exchange) within 30 days of purchase. The redemption fee is paid directly to the Fund. For the six months ended February 28, 2007, the Fund received redemption fees of approximately \$4,200 which are reported as part of "Cost of Shares Repurchased" on the Statement of Changes in Net Assets. The per share impact from redemption fees paid to the Fund was less than \$0.01.

5. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$120,282,396 and \$143,911,376, respectively.

6. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

27

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED) continued

The fund may use derivative instruments, to earn income, to facilitate portfolio management and to mitigate risks. All of the Fund's holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a forward commitment. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

forward commitment.

Purchasing securities or foreign currency on a forward commitment basis involves a risk that the market value at the time of delivery may be lower than the agreed upon purchase price resulting in an unrealized loss. Selling securities or foreign currency on a forward commitment basis involves different risks and can result in losses more significant than those arising from the purchase of such securities. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

Summarized below are the specific types of derivative financial instruments used by the Fund.

A. FORWARD FOREIGN CURRENCY CONTRACTS A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Upon the settlement of the contract, a realized gain or loss is recognized and is included as a component of realized gain/loss on forward foreign currency contracts. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts. Risks may also arise from the unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

B. CREDIT DEFAULT SWAPS The Fund may enter into credit default swap contracts for hedging purposes or to gain exposure to a credit in which the Fund may otherwise invest. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap, is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed-upon amount, which approximates the notional amount of the swap to the buyer in the event of an adverse credit event of the issuer. The Fund accrues for the periodic fees on swap contracts on a daily basis with the net amount accrued recorded within unrealized appreciation/depreciation of swap contracts. Upon cash settlement of the periodic fees, the net amount is recorded as realized gain/loss on swap contracts on the Statements of Operations. Net unrealized gains are recorded as an asset or net unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of the swaps is reported as unrealized gains or losses on the Statement of Operations.

Credit default swaps may involve greater risks than if a Fund had invested in the issuer directly. Credit default swaps are subject to general market risk, counterparty risk and credit risk. If there is a default by the counterparty, the Fund will have contractual remedies pursuant to the agreements related to the transaction.

7. DISTRIBUTION AND SERVICE PLANS

Shares of the Fund are distributed by Van Kampen Funds Inc. (the "Distributor"), an affiliate of the Adviser. The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 act, as amended, and a service plan (collectively, the "Plans") for Class A Shares, Class B Shares and Class C Shares to compensate

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

the Distributor for the sale, distribution, shareholder servicing and maintenance of shareholder accounts for these shares. Under the Plans, the Fund will incur annual fees of up to .25% of Class A average daily net assets and up to 1.00% each of Class B and Class C average daily net assets. These fees are accrued daily and paid to the Distributor monthly.

The amount of distribution expenses incurred by the Distributor and not yet reimbursed ("unreimbursed receivable") was approximately \$1,731,700 and \$35,500 for Class B and Class C Shares, respectively. These amounts may be recovered for future payments under the distribution plan or CDSC. To the extent the unreimbursed receivable has been fully recovered, the distribution fee is reduced.

8. LEGAL MATTERS

The Adviser and certain affiliates of the Adviser are named as defendants in a derivative action which additionally names as defendants certain individual trustees of certain Van Kampen funds. The named investment companies, including the Fund, are listed as nominal defendants. The complaint alleges that defendants caused the Van Kampen funds to pay economic incentives to a proprietary sales force to promote the sale of Van Kampen funds. The complaint also alleges that the Van Kampen funds paid excessive commissions to Morgan Stanley and its affiliates in connection with the sales of the funds. The complaint seeks, among other things, the removal of the current trustees of the funds, rescission of the management contracts for the funds, disgorgement of profits by Morgan Stanley and its affiliates and monetary damages. This derivative action was coordinated with a direct action alleging related violations of defendants' statutory disclosure obligations and fiduciary duties with respect to the payments described above. In addition, this derivative action was stayed by agreement of the parties pending rulings on the motion to dismiss the direct action and the motion to dismiss another derivative action brought by the same plaintiff that brought this derivative action, alleging market timing and late trading in the Van Kampen funds. In April 2006, the court granted defendants' motion to dismiss the direct action. In June 2006, the court granted defendants' motion to dismiss the market timing action. Accordingly, the stay on this action was lifted. Plaintiff and defendants have agreed that this action should be dismissed in light of the rulings dismissing the two cases discussed above. The Court has approved a notice to shareholders regarding the dismissal.

9. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

10. ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation 48, Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum

29

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2007 (UNAUDITED) continued

recognition threshold a tax position must meet before being recognized in the

Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Recent SEC guidance allows implementing FIN 48 in the fund NAV calculations as late as the fund's last NAV calculation in the first required financial statement period. As a result, the Fund will incorporate FIN 48 in its semi annual report on February 29, 2008. The impact to the Fund's financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the Fund's financial statement disclosures.
