On March 11, 2005, Emerson Electric Co. (the Company) entered into a \$1 billion five-year revolving credit facility (the 2005 Facility). The 2005 Facility replaces a prior short-term facility of approximately \$917 million. On the same date, the Company amended its \$1.83 billion revolving credit facility dated March 12, 2004 (the 2004 Facility) and, together with the 2005 Facility, the Facilities) to conform to the 2005 Facility. The 2005 Facility expires on March 10, 2010. The 2004 Facility expires on March 12, 2009. There are no outstanding loans or letters of credit under either Facility. The Company has not previously incurred any borrowings under these or prior similar facilities, and has no current intention to do so now or in the foreseeable future. These Facilities, and similar past facilities, are kept in place by the Company to support general corporate purposes, including commercial paper borrowings.

The Facilities are unsecured and may be advanced as syndicate, swingline or competitive bid loans, or as letters of credit, subject to certain limitations. Various interest rate alternatives are available, at the Company s option, under each Facility. Loans and letters of credit may be denominated in U.S. dollars or certain other currencies at the option of the Company. The Company must pay facility fees on the aggregate amounts available under the Facilities, as specified in the credit agreements. The Facilities contain customary representations, warranties, and covenants, breaches of which may be grounds for termination. Other events of default include the Company s failure to pay material debt, certain insolvency, bankruptcy or ERISA events, material unpaid judgments, or a change in control of 50% or more of the Company s outstanding common stock.

The foregoing summary of the Facilities is not complete and is qualified in its entirety by reference to the actual credit agreements, which are attached as Exhibits 10.1, 10.2 and 10.3 hereto and are incorporated herein by reference.
