Emerson GAAP Underlying Orders 3 Month Summary

Process Management	+10 to +15	+15	>20+

Total Emerson	+10	+10	+10 to +15

March 2008 Order Comments:

Order growth remained strong in the 10 to 15 percent range during the second quarter. Order rates were significantly impacted by currency translation primarily due to the strengthening euro to dollar relationship. Currency exchange rates contributed approximately 6 percentage points to the overall increase.

Order growth in the Process Management segment showed strength as global energy markets and project activity remained favorable, and penetration gains continued. The order growth rate for this segment excluding currency was approximately 10 percent, with currency translation contributing an additional 10 percentage points.

Order trends in the Industrial Automation segment were solid, led by strength in the power generating alternator and materials joining and precision cleaning businesses. Currency translation favorably impacted the order growth rate approximately 7 percentage points.

Network Power maintained double-digit growth and was led by strength across the power systems and inbound power businesses.

Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

Climate Technologies order growth remained positive. Strength from Asia and the controls businesses was offset by weakness in the U.S. residential market.

Order trends in the Appliance and Tools segment continued to be impacted negatively by the weakness in the U.S. consumer and residential markets.
