### UPS FOURTH QUARTER RESULTS PACED BY INTERNATIONAL SEGMENT

ATLANTA, Jan. 28, 2003 - Paced by record international performance, UPS (NYSE:UPS) today reported solid gains in both revenue and net income for the fourth quarter.

The quarter also saw several non-recurring items, the most notable of which involved the final settlement of a tax dispute with the Internal Revenue Service.

For the quarter ended Dec. 31, 2002, revenue totaled \$8.26 billion, up 3.3% from the \$8 billion reported during the prior-year period. Including non-recurring items, consolidated operating profit improved 13.2% to \$1.2 billion and net income increased 133% to \$1.5 billion. Diluted earnings per share totaled \$1.32 for the quarter.

Adjusted to exclude non-recurring items, consolidated operating profit improved 4.4% to \$1.08 billion compared to the \$1.03 billion reported in 2001, and net income increased 3.9% to \$670 million from \$645 million. Earnings per diluted share increased 3.5% to \$0.59 versus \$0.57 recorded during the period in 2001.

Operating profit for the international segment more than doubled as export revenue climbed 20% compared to the prior year. Revenue and operating profit for the non-package segment increased substantially after excluding non-recurring items. As expected, the weak American economy continued to impact U.S. domestic package operations, but the 1.3% volume decline during the quarter still reflected growing momentum compared with the prior two quarters.

"While we have not seen signs of an economic rebound in the United States, our international business is showing strong growth and our non-package initiatives are paying off," said Scott Davis, UPS's chief financial officer. "Within the U.S., the holiday peak season started slowly and then surged at the end, providing a test that our new UPS Worldport (SM) air hub passed with flying colors.

-more-

"On the international front, the fourth quarter was our second consecutive record quarter," Davis continued. "Our expanded network in Asia, coupled with increased service through more than 100 additional Asian flights during the West coast dock disruption, contributed substantially. In addition, the European export market continued to demonstrate significant double-digit growth."

In the international segment, revenue jumped 17% during the fourth quarter to \$1.3 billion compared to the \$1.1 billion reported during the period in 2001. Including non-recurring items, international operating profit totaled \$165 million. Excluding non-recurring items, operating profit jumped 133% to \$154 million compared to \$66 million the prior year. Export volume continued

## Edgar Filing: UNITED PARCEL SERVICE INC - Form 8-K

very strong, climbing 13% in Europe and 24% in Asia.

In the U.S. domestic segment, revenue totaled \$6.22 billion for the fourth quarter, essentially flat compared to \$6.23 billion a year ago. Including non-recurring items, operating profit was \$1 billion. Excluding non-recurring items, operating profit declined 9.1% to \$831 million from the \$914 million reported in 2001. Average daily package volume in the United States declined 1.3% for the quarter to 13.2 million.

In the non-package segment, revenue increased 12.4% to \$735 million. The business units within this segment that comprise Supply Chain Solutions, UPS Logistics Group and UPS Freight Services, saw their combined revenues increase 12.2% to \$544 million during the quarter. Including non-recurring items, the non-package segment did not show an operating profit. Excluding non-recurring items, non-package operating profit increased to \$95 million from \$54 million. The Logistics arm of Supply Chain Solutions showed substantial improvements in profitability in the quarter.

Also during the fourth quarter, apart from the IRS settlement, several other tax issues were favorably resolved. The overall impact was to reduce the annual tax rate to 37.8% and the quarter's tax rate to 36%. The tax rate for 2003 is projected to be 37.5%.

There were several non-recurring items during the fourth quarter, affecting both income and expense. First, UPS and the IRS recently finalized their tentative settlement of all outstanding tax issues related to excess value package insurance. As a result of the settlement, UPS recorded income, before taxes, of \$1.02 billion during the fourth quarter. The credits and refunds associated with this settlement are expected to occur over the next several years.

A second fourth-quarter item involved the manner in which employees earn vacation pay. UPS modified its vacation plan to specify that vacation time is earned during the year, as opposed to automatically being credited when the new year begins. The change estimated a \$197 million accrued liability as UPS closed its books on 2002.

Finally, the company recorded \$106 million in restructuring and related charges in the non-package segment. This stems from the consolidation of

4-4-4

numerous acquisitions and streamlining the Supply Chain Solutions unit to more efficiently provide service to customers. The charge covers a reduction in personnel and integration of facilities and information technology. The company anticipates an additional \$21 million in charges to complete this process, primarily in the first half of 2003. Once completed, it should result in annual savings of approximately \$75 million.

In addition to the preceding non-recurring items, which affected the fourth quarter, the company recorded a goodwill impairment charge of \$72 million on its Mail Technologies unit retroactive to 2002's first quarter and the adoption of FASB Statement No. 142.

For the full year ended Dec. 31, revenue totaled \$31.3 billion, up 3.1% compared to the \$30.3 billion reported during 2001. Including non-recurring items, operating profit was \$4.1 billion; net income was \$3.18 billion, and diluted earnings per share were \$2.81. Excluding non-recurring

## Edgar Filing: UNITED PARCEL SERVICE INC - Form 8-K

items, operating profit rose 1.1% to \$4 billion while net income was flat at \$2.42 billion and diluted earnings per share totaled \$2.14 for the full year, up 1% from the \$2.12 recorded in 2001.

As to future guidance, Davis said the company expects 2003 first quarter earnings in a range between \$0.48 to \$0.53 per diluted share compared to \$0.50 in 2002. While the company expects its volume growth momentum to improve as 2003 unfolds, volume in the first quarter likely will be flat compared to 2002.

Davis said the company should see an increase in earnings per share for the full year between 10% and 15%. Results should strengthen through the course of the year, starting in the second quarter. This should be driven both by an economic recovery and more favorable comparisons to the periods in 2002 when labor negotiations slowed the U.S. package business. Capital expenditures for 2003 should total about \$2 billion.

"In the United States, the timing of the economic recovery is definitely the biggest unknown," Davis said. "Outside the U.S., we expect to see continued strong export growth, particularly in Asia and Europe, and an increase in international profitability of 20% or more. And with the realignment of Supply Chain Solutions, we're anticipating steady margin expansion over the coming year."

UPS is the world's largest global transportation company, offering the most extensive range of e-commerce and supply chain solutions for the movement of goods, information and funds. Headquartered in Atlanta, Ga., UPS serves more than 200 countries and territories worldwide. UPS stock trades on the New York Stock Exchange (UPS) and the company can be found on the Web at [www.ups.com](http://www.ups.com).

## Edgar Filing: UNITED PARCEL SERVICE INC - Form 8-K

- (1) UPS adopted a change in our vacation policy whereby vacation time is now earned during the year of entitlement. This resulted in the elimination of a \$197 million liability, with a credit to expense in the following segments: U.S. domestic package: \$175 million; International package: \$11 million; and Non-package: \$11 million.
- (2) UPS recorded \$106 million in restructuring and related charges in connection with the reorganization of our Non-package operations.
- (3) UPS recorded a \$1,023 million credit to expense related to the difference between an original tax assessment expense charge recorded in 1999, and the estimated settlement amount that has now been approved.

Certain prior year amounts have been reclassified to conform to the current year presentation.
