MERCHANTS GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. Principles of Consolidation and Basis of Presentation

The consolidated balance sheet as of September 30, 2004 and the related consolidated statements of operations and comprehensive income for the three and nine month periods ended September 30, 2003 and 2004, and changes in stockholders' equity and cash flows for the nine month periods ended September 30, 2003 and 2004, respectively, are unaudited. In the opinion of management, the interim financial statements reflect all adjustments necessary for a fair presentation of financial position and results of operations. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The consolidated financial statements include the accounts of Merchants Group, Inc. (the Company), its wholly-owned subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH), and M.F.C. of New York, Inc., an inactive premium finance company which is a wholly-owned subsidiary of MNH. The accompanying consolidated financial statements should be read in conjunction with the following notes and the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) which differ in some respects from those followed in reports to insurance regulatory authorities. All significant intercompany balances and transactions have been eliminated.

#### 2. Related Party Transactions

The Company and MNH operate and manage their business in conjunction with

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

Merchants Mutual Insurance Company (Mutual), under a services agreement (the Services Agreement) effective January 1, 2003. At September 30, 2004, Mutual owned 12.1% of the Company's issued and outstanding common stock. The Company and MNH do not have any operating assets and MNH has only one employee. Under the Services Agreement, Mutual provides the Company and MNH with the facilities, management and personnel required to operate their day-to-day business. The Services Agreement covers substantially the same services previously provided under a management agreement amongst the Company, MNH and Mutual from 1986 to 2002. The Services Agreement provides for negotiated fees (subject to periodic adjustment) for administrative, underwriting, claims and investment management services.

As of January 1, 2003 MNH and Mutual entered into a reinsurance pooling agreement (the Reinsurance Pooling Agreement) that provides for the pooling, or sharing, of the insurance business traditionally written by Mutual and MNH. The Reinsurance Pooling Agreement applies to premiums earned and losses incurred on or after its effective date. The terms of these agreements are more fully described under the heading "Administration" in Part I, Item 1, Business, in the Company's Annual Report of Form 10-K for the year ended December 31, 2003.

9

### 3. Earnings Per Share

Basic and diluted earnings per share were computed by dividing net income by the weighted average number of shares of common stock outstanding during each period. For diluted earnings per share, the weighted average number of shares outstanding was increased by the assumed exercise of options for each period. The effect on the number of shares outstanding assumes the proceeds to the Company from exercise were used to purchase shares of the Company's common stock at its average market value per share during the period. The number of options assumed to be exercised and the incremental effect on average shares outstanding for purposes of calculating diluted earnings per share are shown below:

	Three Months Ended September 30,		Nine Months Ended September	
	2003	2004	2003	
Options assumed exercised	-	31,500	35,500	3
Incremental shares outstanding	-	4,542	439	

Options to purchase 35,500 shares of common stock at \$21.00 per share were outstanding during the three months ended September 30, 2003 but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the common shares.

### 4. Income Taxes

The provision for income taxes for the nine month period ended September 30, 2003 includes the effect of a May 2003 change in New York State law with respect to the taxation of property and casualty insurance companies. As a result of this change, the Company reduced its deferred tax liability with respect to New York State income taxes to \$0, and recorded a one-time benefit, net of federal income taxes, to its income tax provision of \$505,000 during the nine month

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

period ended September 30, 2003. This one time benefit reduced the Company's effective income tax rate for the nine month period ended September 30, 2003 by 12 percentage points.

10

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Results of Operations for the Nine Months Ended September 30, 2004 As Compared to the Nine Months Ended September 30, 2003

The following discussion should be considered in light of the statements under the heading "Safe Harbor Statement under the Securities Litigation Reform Act of 1995," at the end of this Item. All capitalized terms used in this Item that are not defined in this Item have the meanings given to them in Notes to Consolidated Financial Statements contained in Item 1 of this Form 10-Q, which is incorporated herein by reference.

Total revenues for the nine months ended September 30, 2004 were \$49,466,000, a decrease of \$8,440,000 or 15% from \$57,906,000 for the nine months ended September 30, 2003.

Results of operations for the nine months ended September 30, 2004 and 2003 reflect the effects of the Services Agreement and the Reinsurance Pooling Agreement among the Company and its wholly-owned insurance subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH) and Merchants Mutual Insurance Company (Mutual), effective January 1, 2003. The Services Agreement calls for Mutual to provide underwriting, administrative, claims and investment services to the Company and MNH. The Reinsurance Pooling Agreement provides for the pooling, or sharing, of insurance business traditionally written by Mutual and MNH on or after the effective date. MNH's share of pooled (combined Mutual and MNH) premiums earned and losses and loss adjustment expenses (LAE) for 2004 in accordance with the Reinsurance Pooling Agreement is 35%. MNH's share of pooled premiums earned and losses and LAE was 40% in 2003. The Reinsurance Pooling Agreement pertains to premiums earned and incurred losses and LAE. Direct premiums written by MNH and Mutual are not pooled.

Total combined Mutual and MNH or "group-wide" direct premiums written (DWP) for the nine months ended September 30, 2004 were \$145,921,000, an increase of \$14,657,000 or 11% from \$131,264,000 in 2003. The Company's pro-forma share of combined direct premiums written in 2004, in accordance with the Reinsurance Pooling Agreement, was \$51,072,000 compared to \$52,506,000 in 2003. The table below shows a comparison of direct premiums written by major category in 2004 and 2003:

	Group-wide DWP			MNH Pro-forma Sha	
	----- Nine months ended September 30, -----			----- Nine months ende September 30, -----	
	2003	2004	Change	2003	2004
	-----			-----	
	(000's omitted)			(000's omi	
Voluntary Personal Lines	\$ 48,350	\$ 38,982	(19%)	\$19,340	\$13,
Voluntary Commercial Lines	78,527	89,905	14%	31,411	31,
Umbrella Program	-	14,241	-	-	4,

Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

Involuntary	4,387	2,793	(36%)	1,755	
	-----	-----		-----	-----
Total Direct Written Premiums	\$131,264	\$145,921	11%	\$52,506	\$51,000
	=====	=====		=====	=====

The 19% (or \$9,368,000) decrease in group-wide voluntary personal lines direct premiums written resulted from a 26% (or \$9,004,000) decrease in private passenger automobile (PPA) direct premiums written and a 2% (or \$258,000) decrease in homeowners direct premiums written. The decrease in PPA direct premiums

11

written is the result of the companies' decision, implemented in 2002, not to write new policies in certain jurisdictions and of the approval of the companies' plan to withdraw from the New Jersey PPA market by the New Jersey Department of Banking and Insurance, which was effective in June 2003. As a result, voluntary PPA policies in force at September 30, 2004 were 21,945, a decrease of 8,654, or 28%, from 30,599 at September 30, 2003.

Mutual introduced a monoline commercial umbrella program in the fourth quarter of 2003 (the Umbrella Program). The Umbrella Program is marketed exclusively through one independent agent and approximately 95% of the premiums related to Umbrella Program Policies are reinsured with an "A+" rated national reinsurer through a quota share reinsurance treaty. There were no similar direct premiums written in the nine months ended September 30, 2003, because the program was initiated during the fourth quarter of 2003.

Group-wide voluntary commercial lines direct premiums written increased \$11,378,000, or 14%, to \$89,905,000 for the nine months ended September 30, 2004, from \$78,527,000 for the nine months ended September 30, 2003. This increase resulted from period to period increases in every group-wide commercial line of business. The average premium per group-wide, non-Umbrella Program commercial lines policy increased 8% from the year earlier period. Total non-Umbrella Program commercial lines policies in force at September 30, 2004 were 32,647, an increase of 3% from 31,830 at September 30, 2003.

The 36% decrease in group-wide involuntary direct premiums written resulted primarily from a decrease in assignments from the New York Automobile Insurance Plan (NYAIP). Direct premiums written related to policies assigned from the NYAIP decreased to \$1,674,000 for the nine months ended September 30, 2004, compared to \$2,352,000 for the nine months ended September 30, 2003. The NYAIP provides coverage for individuals who are unable to obtain auto insurance in the voluntary market. Assignments from the NYAIP vary depending upon a company's PPA market share and the size of the NYAIP. The Company is unable to predict the volume of future assignments from the NYAIP.

In order to minimize the adverse impact of assignments from the NYAIP, the Company purchased territorial credits from an unaffiliated insurance company pursuant to Section 6.A.7. of the NYAIP Manual. The credits against NYAIP assignments were generated by the other insurance company for writing PPA business in certain localities in New York with PPA market availability problems. The other insurance company, by nature of its concentration in PPA business in "credit" territories, generated more credits than it required to offset its NYAIP assignments. The credits purchased reduced the Company's share of the NYAIP. The credits purchased decreased direct premiums written related to NYAIP assignments during the nine months ended September 30, 2004 by

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

approximately \$1,900,000 compared to approximately \$1,800,000 for the nine months ended September 30, 2003.

Group-wide pooled net premiums written for 2004 were \$124,283,000, an increase of \$1,410,000, or 1% from \$122,873,000 for the nine months ended September 30, 2003. This 1% increase in group-wide net premiums written is consistent with the increase in group wide non-Umbrella Program direct premiums written. The Company's share of 2004 pooled net premiums written was \$39,360,000, a decrease of \$9,293,000, or 19%, from \$48,653,000 in 2003. The decrease in the Company's share of net premiums

12

written resulted primarily from the 5 percentage point decrease in the Company's participation in the Reinsurance Pooling Agreement for 2004 as compared to 2003.

The Company's share of pooled net premiums earned in accordance with the Reinsurance Pooling Agreement for the nine months ended September 30, 2004 was \$42,594,000, compared to \$48,697,000 for the nine months ended September 30, 2003. This \$6,103,000, or 13%, decrease in net premiums earned resulted primarily from the 5 percentage point decrease in the Company's participation in the Reinsurance Pooling Agreement.

Net investment income was \$5,954,000 for the nine months ended September 30, 2004, a decrease of 11% from \$6,715,000 for the nine months ended September 30, 2003. The average pre-tax yield on the investment portfolio decreased 26 basis points to 4.2% for the nine months ended September 30, 2004, reflecting the lower interest rate environment. Average invested assets for the nine months ended September 30, 2004 decreased 2% from the year earlier period.

Net losses and LAE were \$28,182,000 for the nine months ended September 30, 2004, a decrease of \$9,058,000, or 24%, from \$37,240,000 for the nine months ended September 30, 2003. The decrease in net losses and LAE was due to the 13% decrease in net premiums earned and a 10.3 percentage point decrease in the loss and LAE ratio to 66.2% for the nine months ended September 30, 2004 from 76.5% for the nine months ended September 30, 2003. Substantially all of the decrease in the loss and LAE ratio related to an improvement in the loss and LAE ratio for the 2004 accident year (losses occurring in the first nine months of 2004) compared to the 2003 accident year (losses occurring in the first nine months of 2003).

Involuntary automobile insurance business increased the Company's calendar year loss and LAE ratio by approximately .5 and 2.5 percentage points for the nine months ended September 30, 2004 and 2003, respectively.

The ratio of amortized deferred policy acquisition costs and other underwriting expenses to net premiums earned increased to 39.6% for the nine months ended September 30, 2004 from 33.7% for the nine months ended September 30, 2003. Other underwriting expenses included \$1,325,000 (3.1 percentage points of the expense ratio) of retrospective commissions related to the Reinsurance Pooling Agreement which provides for retrospective commission income or expense based on actual experience compared to a targeted loss and LAE ratio. The commission is owed to Mutual based on a decrease during 2004 in the estimated cumulative loss and LAE ratio on the "pooled" business since the inception of the Reinsurance Pooling Agreement. During the first nine months of 2003 the Company recorded \$253,000 retrospective commission income related to the Reinsurance Pooling Agreement. This amount reduced the 2003 ratio of amortized deferred policy acquisition costs and other underwriting expenses to net premiums earned by .5 percentage points. During 2004 the Company also recorded as other underwriting expenses \$333,000 of amortization related to the purchase of NYAIP territorial credits (described above), compared to \$124,000 of such amortization in 2003.

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

Commissions (other than retrospective commissions under the Reinsurance Pooling Agreement), premium taxes and other state assessments that vary directly with the Company's premium volume represented 19.9% of net premiums earned in the nine month period ended September 30, 2004 compared to 20.9% of net premiums earned in the nine months ended September 30, 2003.

13

The provision for income taxes for the nine months ended September 30, 2003 included the effect of a May 2003 change in New York State law governing the taxation of property and casualty insurance companies. As a result of this change the Company recorded a \$505,000 one time benefit, net of federal income taxes, to its income tax provision during the nine months ended September 30, 2003. This one time benefit reduced the Company's effective income tax rate for the nine months ended September 30, 2003 by 12 percentage points.

Results of Operations for the Three Months Ended September 30, 2004 As Compared to the Three Months Ended September 30, 2003

Total combined Mutual and MNH direct premiums written for the three months ended September 30, 2004 were \$48,553,000, an increase of \$3,688,000 or 8% from \$44,865,000 for the three months ended September 30, 2003. The Company's share of combined direct premiums written for the three months ended September 30, 2004, in accordance with the Reinsurance Pooling Agreement was \$16,994,000. The Company recorded \$17,946,000 of direct premiums written for the three months ended September 30, 2003. The table below shows a comparison of direct premiums written by major category for the three months ended September 30, 2004 and 2003:

	Group-wide DWP			MNH Pro-Forma Share	
	-----			-----	
	Three months ended			Three months ended	
	September 30,			September 30,	
	2003	2004	Change	2003	2004
	----	----	-----	----	----
	(000's omitted)				
Voluntary Personal Lines	\$16,897	\$13,054	(23%)	\$ 6,759	\$ 4,500
Voluntary Commercial Lines	26,892	30,436	13%	10,757	10,600
Umbrella Program	-	4,102	-	-	1,400
Involuntary	1,076	961	(11%)	430	300
	-----	-----		-----	-----
Total Direct Written Premiums	\$44,865	\$48,553	8%	\$ 17,946	\$ 16,900
	=====	=====		=====	=====

The 23% (or \$3,843,000) decrease in group-wide voluntary personal lines direct premiums written resulted primarily from a 33% (or \$3,846,000) decrease in PPA direct premiums written. The decrease in PPA direct premiums written is primarily the result of the group's decision, implemented in 2002, not to write new PPA policies in certain jurisdictions and, the approval of the group's plan to withdraw from the New Jersey PPA market by the New Jersey Department of Banking and Insurance which was effective in June 2003 and provided for the non-renewal of policies beginning in June 2004.

Group-wide voluntary commercial lines direct premiums written increased \$3,544,000, or 13%, to \$30,436,000 for the three months ended September 30, 2004 from \$26,892,000 for the three months ended September 30, 2003. This increase resulted from period to period increases in every group-wide commercial line of

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

business. The average premium per group-wide voluntary commercial lines policy increased 8% compared to the year earlier period. Total voluntary commercial lines policies in force at September 30, 2004 increased 3% from September 30, 2003.

Umbrella Program direct premiums written relate to the monoline commercial umbrella program introduced by Mutual in the fourth quarter of 2003 which was discussed earlier in this Item. There were no similar direct premiums written in the three months ended September 30, 2003.

14

Group-wide pooled net premiums written for the three months ended September 30, 2004 were \$41,812,000, substantially unchanged from \$41,772,000 for the three months ended September 30, 2003. The Company's share of pooled net premiums written in accordance with the Reinsurance Pooling Agreement for the three months ended September 30, 2004 was \$14,634,000 compared to \$16,709,000 for the three months ended September 30, 2003.

Total revenues for the three months ended September 30, 2004 were \$16,281,000, a decrease of \$2,432,000 or 13% from \$18,713,000 for the three months ended September 30, 2003.

The Company's share of pooled net premiums earned in accordance with the Reinsurance Pooling Agreement for the three months ended September 30, 2004 was \$14,161,000 a decrease of \$2,180,000 or 13% from \$16,341,000 for the three months ended September 30, 2003. The decrease in net premiums earned was a result of the reduction in the Company's share of group-wide net premiums earned under the Reinsurance Pooling Agreement from 40% in 2003 to 35% in 2004.

Net investment income was \$1,935,000 for the three months ended September 30, 2004, a decrease of 12% from \$2,201,000 for the three months ended September 30, 2003. The average pre-tax yield associated with the investment portfolio decreased 13 basis points to 4.1% for the three months ended September 30, 2004 reflecting the lower interest rate environment. Average invested assets for the three months ended September 2004 decreased 4% compared to the year earlier period.

There were no net realized investment gains in the three months ended September 30, 2004 compared to \$2,210,000 for the three months ended September 30, 2003. The 2003 amount related primarily to the sale of an otherwise illiquid security to its issuer through a share repurchase program.

Net losses and LAE were \$8,941,000 for the three months ended September 30, 2004, a decrease of \$3,031,000, or 25%, from \$11,972,000 for the three months ended September 30, 2003. This decrease in net losses and LAE was due to the 13% decrease in net premiums earned and a 10.2 percentage point decrease in the loss and LAE ratio to 63.1% for the three months ended September 30, 2004 from 73.3% for the three months ended September 30, 2003. The decrease in the loss and LAE ratio was due to improvement in claims experience for the 2004 accident year compared to the 2003 accident year.

The ratio of amortized deferred policy acquisition costs and other underwriting expenses to net premiums earned increased to 42.6% for the three months ended September 30, 2004 from 34.5% for the three months ended September 30, 2003. Other underwriting expenses included \$576,000 (4.1 percentage points of the expense ratio) of retrospective commissions related to the Reinsurance Pooling Agreement. No expense related to Reinsurance Pooling Agreement retrospective commissions was recorded during the three months ended September 30, 2003. During the three months ended September 30, 2004, the Company also recorded as other underwriting expenses \$106,000 of amortization expense related to the

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

purchase of AIP territorial credits as compared to \$76,000 of such expense recorded in the three months ended September 30, 2003. Commissions, premium taxes and other state assessments that vary directly with the Company's premium volume represented 21.4% of net premiums earned in the three months ended September 30, 2004 compared to 21.3% in the three months ended September 30, 2003.

15

### Liquidity and Capital Resources

In developing its investment strategy the Company determines a level of cash and short-term investments which, when combined with expected cash flow, is estimated to be adequate to meet expected cash obligations. Due to declining written premiums however, the Company's operating activities have resulted in a use of cash each year since 2001. The Company's decreasing participation percentage in the pooled business over the remaining years of the Reinsurance Pooling Agreement will likely result in continued negative cash flows from operations. The Company believes that careful management of the relationship between assets and liabilities will minimize the likelihood that investment portfolio sales will be necessary to fund insurance operations, and that the effect of any such sales, if any, on the Company's stockholders' equity will not be material.

The Company's objectives with respect to its investment portfolio include maximizing total return within investment guidelines while protecting policyholders' surplus and maintaining flexibility. The Company relies on premiums as a major source of cash, and therefore liquidity. Cash flows from the Company's investment portfolio, in the form of interest or principal payments as well as from the maturity of fixed income investments, are an additional source of liquidity.

The Company designates newly acquired fixed maturity investments as available for sale and carries these investments at fair value. Unrealized gains and losses related to these investments are recorded as accumulated other comprehensive income within stockholders' equity. At September 30, 2004, the Company recorded as accumulated other comprehensive income in its Consolidated Balance Sheet \$390,000 of unrealized losses, net of taxes, associated with its investments classified as available for sale.

At September 30, 2004, the Company's portfolio of fixed maturity investments represented 91.1% of invested assets. Management believes that this level of fixed maturity investments is consistent with the Company's liquidity needs because it anticipates that cash receipts from net premiums written, investment income and maturing securities will enable the Company to satisfy its cash obligations. Furthermore, a portion of the Company's fixed maturity investments are invested in mortgage-backed and other asset-backed securities which, in addition to interest income, provide monthly paydowns of bond principal.

At September 30, 2004, \$107,327,000, or 54.3%, of the Company's fixed maturity portfolio was invested in mortgage-backed and other asset-backed securities. The Company invests in a variety of collateralized mortgage obligation ("CMO") products but has not invested in the derivative type of CMO products such as interest only, principal only or inverse floating rate securities. All of the Company's CMO investments have a secondary market and their effect on the Company's liquidity does not differ from that of other fixed maturity investments.

At September 30, 2004 \$413,000, or less than 1%, of the Company's investment portfolio was invested in non-investment grade securities compared to \$2,496,000, or 1%, at December 31, 2003.

## Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

The Company has arranged for a \$2,000,000 unsecured credit facility from a bank. Any borrowings under this facility are payable on demand and carry an interest rate which can be fixed or variable and is

16

negotiated at the time of each advance. This facility is available for general working capital purposes and for repurchases of the Company's common stock. At September 30, 2004 no amount was outstanding on this loan.

As a holding company, the Company is dependent on cash dividends from MNH to meet its obligations and to pay any cash dividends. MNH is subject to New Hampshire insurance laws which place certain restrictions on its ability to pay dividends without the prior approval of state regulatory authorities. These restrictions limit dividends to those that, when added to all other dividends paid within the preceding twelve months, would not exceed 10% of the insurer's statutory policyholders' surplus as of the preceding December 31st. The maximum amount of dividends that MNH could pay during any twelve month period ending in 2004 without the prior approval of the New Hampshire Insurance Commissioner is \$5,767,000. MNH paid \$1,200,000 of dividends to the Company in 2003. Since October 1, 2003 MNH has made dividend payments to the Company of \$600,000 and \$1,200,000 in November 2003, and August 2004, respectively. The Company paid cash dividends to its common stockholders of \$.10 per share in the first, second and third quarters of 2004 amounting to \$633,000. On October 28, 2004 the Company declared a quarterly cash dividend of \$.10 per share payable on December 3, 2004 to shareholders of record as of the close of business on November 19, 2004.

Under the Services Agreement, Mutual has provided services and facilities for MNH to conduct its insurance business. The balance in the payable to or receivable from affiliate account represents the amount owing to or owed by Mutual by or to the Company for the difference between premiums collected and payments made for losses, commissions (including retrospective commissions), employees, services and facilities by Mutual on behalf of MNH.

Regulatory guidelines suggest that the ratio of a property-casualty insurer's annual net premiums written to its statutory surplus should not exceed 3 to 1. MNH has consistently followed a business strategy that would allow it to meet this 3 to 1 regulatory guideline. For the first nine months of 2004, MNH's ratio of net premiums written to statutory surplus, annualized for a full year, was .9 to 1.

### Relationship with Mutual

The Company's and MNH's business and day-to-day operations are closely aligned with those of Mutual. This is the result of a combination of factors. Mutual has had a historical ownership interest in the Company and MNH. Prior to November 1986 MNH was a wholly-owned subsidiary of Mutual. Following the Company's initial public offering in November 1986 and until a secondary stock offering in July 1993 the Company was a majority-owned subsidiary of Mutual. Mutual currently owns 12.1% of the Company's common stock. Under the Services Agreement, Mutual provides the Company and MNH with all facilities and personnel to operate their business. With the exception of the individual who serves as President of the Company and as the Chief Operating Officer of MNH, the only other officers of the Company or MNH are employees of Mutual whose services are provided to, and paid for by, the Company and MNH through the Services Agreement. Also, the operation of MNH's insurance business, which offers substantially the same lines of insurance as Mutual through the same independent insurance agents, creates a very close relationship among the Companies.

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

With the exception of historical information, the matters and statements discussed, made or incorporated by reference in this Quarterly Report on Form 10-Q constitute forward-looking statements and are discussed, made or incorporated by reference, as the case may be, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, statements relating to the Company's plans, strategies, objectives, expectations and intentions. Words such as "believes," "forecasts," "intends," "possible," "expects," "anticipates," "estimates," or "plans" and similar expressions are intended to identify forward looking statements. Such forward-looking statements involve certain assumptions, risks and uncertainties that include, but are not limited to, those associated with factors affecting the property-casualty insurance industry generally, including price competition, the Company's dependence on state insurance departments for approval of rate increases; size and frequency of claims, escalating damage awards, natural disasters, fluctuations in interest rates and general business conditions; the Company's dependence on investment income; the geographic concentration of the Company's business in the northeastern United States and in particular in New York, New Hampshire, New Jersey, Rhode Island, Pennsylvania and Massachusetts; the adequacy of the Company's loss reserves; the Company's dependence on the general reinsurance market; government regulation of the insurance industry; exposure to environmental claims; dependence of the Company on its relationship with Mutual; and the other risks and uncertainties discussed or indicated in all documents filed by the Company with the Securities and Exchange Commission. The Company expressly disclaims any obligation to update any forward-looking statements as a result of developments occurring after the filing of this report.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

#### Market Risk

Market risk represents the potential for loss due to changes in the fair value of financial instruments. The market risk related to the Company's financial instruments primarily relates to its investment portfolio. The value of the Company's investment portfolio of \$197,531,000 at September 30, 2004 is subject to changes in interest rates and to a lesser extent on credit quality. Further, certain mortgage-backed and asset-backed securities are exposed to accelerated prepayment risk generally caused by interest rate movements. If interest rates were to decline, mortgage holders would be more likely to refinance existing mortgages at lower rates. Acceleration of future repayments could adversely affect future investment income, if reinvestment of the accelerated receipts was made in lower yielding securities.

The following table provides information related to the Company's fixed maturity investments at September 30, 2004. The table presents cash flows of principal amounts and related weighted average interest rates by expected maturity dates. The cash flows are based upon the maturity date or, in the case of mortgage-backed and asset-backed securities, expected payment patterns. Actual cash flows could differ from those shown in the table.

#### Fixed Maturities

Expected Cash Flows of Principal Amounts (\$ in 000's):

Edgar Filing: MERCHANTS GROUP INC - Form 10-Q

	2004	2005	2006	2007	2008	Th af
	----	----	----	----	----	---

Total	\$ 5,856	\$ 49,150	\$ 34,475	\$ 21,919	\$ 31,172	\$ 3
	=====	=====	=====	=====	=====	=====

The discussion and the estimated amounts referred to above include forward-looking statements of market risk which involve certain assumptions as to market interest rates and the credit quality of the fixed maturity investments. Actual future market conditions may differ materially from such assumptions. Accordingly, the forward-looking statements should not be considered projections of future events by the Company.

Item 4. Controls and Procedures

The Company's chief executive officer and chief financial officer, after evaluating the effectiveness of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, concluded that the Company's disclosure controls and procedures were effective to ensure that material information relating to the Company was being made known to them by others within the Company in a timely manner, including the period when this quarterly report was being prepared.

There was no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Securities Exchange Act of 1934 that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
