Item 1. Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Rule 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements and should be read in conjunction with the Company's audited financial statements at and for the fiscal year ended June 30, 2001. In the opinion of management, all adjustments (consisting only of normal recurring accruals and adjustments associated with the AssureTec acquisition) considered necessary for a fair presentation have been included. Operating results for the nine months ended March 31, 2002 are not necessarily indicative of the results that may be expected for the year ended June 30, 2002.

Investment in related parted securities

Under the terms of the Asset Purchase Agreement an option to acquire sixty percent (60%) of the Company's subsidiary, Biorelease Technologies, Inc. ("BTI"), was exercised effective December 31, 2000. Of the 4,582,122 shares of the subsidiaries common stock owned by the Company, 1,032,749 were given to certain directors and officers of the Company for services to the Subsidiary through June 30, 2000 and 2,749,373 shares were sold to an entity that is controlled by family members of the Company's CEO. A onetime charge to the statement of operations at December 31, 2001 in the amount of \$3,659,141 represents the original cost of Biorelease's investment in the subsidiary. The remaining basis of the 800,000 shares of common stock of the subsidiary, Biorelease Technology, Inc., is computed utilizing the equity method.

In November 2001, BRL Holdings, Inc. ("the Company" or "BRL") acquired 100% of the stock of AssureTec Systems, Inc. ("AssureTec") in a stock for stock transaction ("the Acquisition"). The transaction was computed using the purchase method of accounting by issuing 3,177,000 shares of common stock of BRL at a discounted value of \$490,000. The purchases price consisted of \$60,000 of software, \$7,500 of patent costs, \$370,000 of non-compete assets and \$92,500 of purchased research and development costs net of \$40,000 of liabilities assumed.
