Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the Hamilton Sundstrand de Puerto Rico Savings Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Hamilton Sundstrand de Puerto Rico Savings Plan (the "Plan") at December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

HAMILTON SUNDSTRAND de PUERTO RICO SAVINGS PLAN

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF THE PLAN

General. The Hamilton Sundstrand de Puerto Rico Savings Plan, formerly known as the Sundstrand de Puerto Rico Employee Savings Plan (the "Plan"), is a defined contribution plan, which is subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), covering all employees of Hamilton Sundstrand de Puerto Rico, Inc., an indirect subsidiary of United Technologies Corporation ("UTC" or "Employer"). The following is a brief description of the Plan. A complete description of the provisions of the Plan can be obtained by referring to the prospectus and summary plan description as well as the Plan document, which are available from UTC.

Trustee and Recordkeeper. Banco Popular de Puerto Rico is the Plan's Trustee and Administrative Recordkeeper and holds all of the Plan's assets and performs participant account recordkeeping services.

Contributions and Vesting. Participants may elect to contribute up to \$15,000 of pre-tax eligible compensation, as defined, and may make additional after-tax contributions through payroll deductions subject to statutory limits. Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2013, the Plan offered seven investment options to participants: three growth funds, one income fund, two money market funds and UTC Common Stock.

The company matching contribution is equal to 100 percent of the participant's eligible contributions from the first 2 percent of base pay, as defined. Employer and participant contributions are deposited into the investment funds in accordance with the participants' elections.

Participant contributions, plus actual earnings thereon, are fully vested at all times under the Plan. Employer contributions, plus actual earnings thereon, become fully vested after three years of eligible service.

Participant Accounts. Based on the participant's account balance, the Plan allocates interest, dividends, and realized and unrealized gains and losses on investments of the funds directly to each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures are used to reduce the Employer contribution to the Plan. For the year ended December 31, 2013, approximately \$8,000 of forfeitures was used to fund UTC's contributions.

Voting Rights. UTC Common Stock is voted by the Trustee at shareowner meetings of UTC in accordance with the confidential instructions of the participants whose accounts are invested in the stock. All shares of Employer stock for which the Trustee receives voting instructions from participants to whose accounts the shares are allocated are voted in accordance with those instructions. All UTC Common Stock for which the Trustee does not receive timely voting instructions are voted by the Trustee in accordance with the timely instructions it receives with respect to a plurality of the shares.

Notes Receivable from Participants. Participants may elect to borrow from their account balances a minimum of \$500 up to a maximum of \$50,000 or 50 percent of their account balances, whichever is less, with terms ranging from 1 to 10 years. The interest rate on participant loans was 9 percent during 2013 and 2012.

Payment of Benefits. Generally, on termination of service due to death, disability, or retirement, benefits are paid in a lump sum to a terminating participant. Participants are also eligible for hardship withdrawals in accordance with the Plan document.

NOTE 2 - SUMMARY OF ACCOUNTING PRINCIPLES

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value as determined by the Plan Trustee, typically by reference to published market data. See Note 3 for further discussion of how the fair values of the Plan's investments were determined.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Dividend income is recorded on the ex-dividend date.

Net appreciation (depreciation) in the fair value of investments includes realized and unrealized gains and losses.

Notes Receivable from Participants. Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the

Plan.

6

Plan Expenses. Administrative expenses, such as trustee, custodial, legal, audit and recordkeeping fees, were paid directly by the Employer in 2013.

Payments of Benefits. Benefit payments to participants or beneficiaries are recorded when paid.

Use of Estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the dates of the financial statements, and changes therein during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the dates of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties. The Plan provides for various investment options in any combination of stocks, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. These risks can be adversely impacted by shifts in the market's perception of the issuers, changes in interest rates, and global economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events. In preparing the accompanying financial statements, the Plan evaluated events occurring December 31, 2013 through the date the financial statements were issued.

NOTE 3 - FAIR VALUE OF INVESTMENTS

The Fair Value Measurements and Disclosure Topic of the FASB ASC establishes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 – quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly;

Level 3 – unobservable inputs based on our own assumptions used to measure assets and liabilities at fair value.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value, including the general classification of those investments:

Cash and cash equivalents – Money market accounts are valued at the net asset values per share as quoted by such companies or funds as of the valuation date. The money market accounts that are invested in by the Plan are institutional accounts and are commingled. Although not traded on an active market the net asset value per share is observable. Cash is valued at the amounts deposited in the account, plus accrued interest. The money market fund is traded daily without restriction.

Mutual Funds – Shares held in mutual funds are valued at the prices as of the last business day of each period presented.

UTC Common Stock – UTC Common Stock is stated at fair value determined using the closing sales price as of the valuation date.

There have been no transfers in or out of Level 1 and Level 2 fair value measurements during the year ended December 31, 2013.

The following table provides the investments carried at fair value measured on a recurring basis as of December 31, 2013 and 2012:

	December 31, 2013			Total
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$ 15,360	\$—	\$—	\$ 15,360
