**Item 2.02. Results of Operations and Financial Condition**

OGE Energy Corp. (the Company) is the parent company of Oklahoma Gas and Electric Company (OG&E), a regulated electric utility with approximately 762,000 customers in Oklahoma and western Arkansas, and Enogex Inc. and its subsidiaries (Enogex), a natural gas pipeline business with principal operations in Oklahoma.

On February 28, 2008, the Company issued a press release describing the Company's consolidated financial results for the quarter and year ended December 31, 2007, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$2.64 per diluted share for the year ended December 31, 2007, compared with \$2.84 per diluted share for the year ended December 31, 2006. Earnings were lower due to discontinued operations of approximately \$0.39 per diluted share in 2006 at Enogex that were partially offset by increased gross margins on revenues in all of Enogex's business segments in 2007 as well as improved financial performance at OG&E primarily the result of higher electric rates and customer growth. As described in the press release, the Company reported earnings of \$0.40 per diluted share for the quarter ended December 31, 2007, compared with \$0.24 per diluted share for the quarter ended December 31, 2006. Higher earnings in the fourth quarter of 2007 were primarily due to a 2006 year-end adjustment at OG&E for fuel-related costs during 2006 and 2007 rate increases partially offset by a decrease due to sales and customer mix during 2007. Also, the Company issued its 2008 earnings guidance of between \$2.40 to \$2.60 per diluted share. For further information, see the press release attached as Exhibit 99.01.

OG&E posted earnings of \$1.75 per diluted share for the year ended December 31, 2007, compared with earnings of \$1.62 per diluted share for the year ended December 31, 2006. Enogex posted earnings of \$0.93 per diluted share for the year ended December 31, 2007, compared with earnings of \$1.23 per diluted share for the year ended December 31, 2006. The holding company posted a loss of \$0.04 per diluted share for the year ended December 31, 2007, compared with a loss of \$0.01 per diluted share for the year ended December 31, 2006.

OG&E posted earnings of \$0.17 per diluted share in the fourth quarter of 2007, compared to a loss of \$0.01 per diluted share in the fourth quarter of 2006. Enogex posted earnings of \$0.24 per diluted share in the fourth quarter of 2007, compared with earnings of \$0.25 per diluted share in the fourth quarter of 2006. The holding company posted a loss of \$0.01 per diluted share in the fourth quarter of 2007, compared to break-even results in the fourth quarter of 2006.

Exhibit 99.01

## OGE Energy Corp. announces 2007 results, 2008 guidance

OKLAHOMA CITY OGE Energy Corp. (NYSE: OGE), the parent company of Oklahoma Gas and Electric Company (OG&E) and Enogex Inc., reported income from continuing operations of \$2.64 per diluted share in 2007, compared with \$2.45 per diluted share in 2006.

Net income for 2007 also was \$2.64 per diluted share, while net income for 2006, including discontinued operations, was \$2.84 per diluted share.

In 2007, OG&E reported net income of \$162 million and contributed \$1.75 per diluted share, compared with \$149 million, or \$1.62 per diluted share in 2006. Enogex reported income from continuing operations of \$86 million, or \$0.93 per diluted share in 2007, compared with \$78 million, or \$0.84 per diluted share for 2006.

We are pleased to again report solid earnings, said Pete Delaney, OGE Energy chairman, president and CEO. We continue to increase our level of investment in both businesses as we meet the energy infrastructure needs of Oklahoma, positioning OGE Energy for higher growth. At the same time, we remain focused on our operations to deliver returns to our shareholders and excellent service to our customers.

For the three months ended Dec. 31, 2007, OGE Energy reported earnings of \$0.40 per diluted share, compared with \$0.24 per diluted share in the fourth quarter of 2006. Expenses associated with the December 2007 ice storm in the OG&E service area are not included in fourth-quarter results, having been deferred pending future regulatory recovery.

### Discussion of 2007 results

**OGE Energy** reported consolidated operating revenues of \$3.8 billion in 2007, compared with \$4.0 billion in 2006. Gross margin on revenues was \$1.2 billion in 2007, compared with \$1.1 billion in 2006. Operating income was \$455 million in 2007, compared with \$433 million in 2006. Net income was \$244 million in 2007, compared with \$262 million in 2006.

**OG&E** reported operating revenues of \$1.8 billion in 2007, compared with \$1.7 billion in 2006. Gross margin on revenues at OG&E was \$810 million, compared with \$796 million in 2006. OG&E's higher earnings, \$1.75 in diluted earnings per share in 2007 compared with \$1.62 per diluted share in 2006, primarily reflects higher electric rates from the Centennial Wind Farm rider, security rider, Arkansas rate case and customer growth, partially offset by cooler summer weather in OG&E's service area. Also contributing to higher earnings for OG&E in 2007 were lower interest expenses, primarily a result of a settlement of an Internal Revenue Service audit.

**Enogex** reported operating revenues of \$2.1 billion in 2007, compared with \$2.4 billion in 2006. Gross margin on revenues at Enogex was \$353 million in 2007, compared to \$307 million in 2006. Higher income from continuing operations at Enogex, \$0.93 per diluted share in 2007 compared to \$0.84 per diluted share in 2006, were primarily due to increased gross margins in all of Enogex's business segments, which

Edgar Filing: OGE ENERGY CORP - Form 8-K

continued to benefit from higher volumes and a favorable commodity price environment, partly offset by higher operating expenses associated with system growth.

---

## Edgar Filing: OGE ENERGY CORP - Form 8-K

*The holding company* posted a loss of \$0.04 per share to OGE Energy's consolidated results in 2007, compared with a loss of \$0.01 per share in 2006. The 2006 result benefited from a tax adjustment.

### 2008 Outlook

OGE Energy's earnings guidance for 2008 is between \$223 million and \$242 million of net income or \$2.40 to \$2.60 per diluted share. The guidance assumes, among other factors, approximately 93.1 million average diluted shares outstanding, normal weather, sales growth at OG&E of approximately 2 percent, and a 7 to 10 percent increase in gross margins at Enogex, or \$23 million to \$37 million. The components of 2008 guidance include:

- o OG&E: \$1.56 - \$1.66 per diluted share on net income of \$145 - \$155 million.
- o Enogex: \$0.89 - \$0.98 per diluted share on net income of \$83 - \$91 million.
- o Holding Co.: loss of \$0.04 - \$0.05 per diluted share on a net loss of \$4 - \$5 million.

More detailed information on the Company's 2008 outlook is provided in its Annual Report on Form 10-K for the year ended December 31, 2007, which is being filed today with the Securities and Exchange Commission.

### Conference Call Webcast

OGE Energy will host a conference call for discussion of the results and the outlook for 2008 on Thursday, Feb. 28, at 8 a.m. CST. The conference, hosted by James R. Hatfield, senior vice president and CFO, will be available through [www.oge.com](http://www.oge.com).

OGE Energy is the parent company of Oklahoma Gas and Electric Company (OG&E), which serves approximately 762,000 customers in a service territory spanning 30,000 square miles in Oklahoma and western Arkansas, and of Enogex Inc., a natural gas pipeline business with principal operations in Oklahoma.

Some of the matters discussed on this news release may contain forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words anticipate, believe, estimate, expect, intend, objective, plan, possible, potential, project and similar expressions. Actual results may vary materially. Factors that could cause actual results to differ materially include, but are not limited to: general economic conditions, including the availability of credit, actions of rating agencies and their impact on capital expenditures; the Company's ability and the ability of its subsidiaries to obtain financing on favorable terms; prices of electricity, coal, natural gas and natural gas liquids, each on a stand-alone basis and in relation to each other; business conditions in the energy and natural gas midstream industries; competitive factors including the extent and timing of the entry of additional competition in the markets served by the Company; unusual weather; availability and prices of raw materials for current and future construction projects; federal or state legislation and regulatory decisions (including the approval of future regulatory filings related to the proposed acquisition of the Redbud power plant) and initiatives that affect cost and investment recovery, have an impact on rate structures or affect the speed and degree to which competition enters the Company's markets; environmental laws and regulations that may impact the Company's operations; changes in accounting standards, rules or guidelines; the discontinuance of regulated accounting principles under SFAS No. 71; creditworthiness of suppliers, customers and other contractual parties; the higher degree of risk associated with the Company's nonregulated business compared with the Company's regulated utility

## Edgar Filing: OGE ENERGY CORP - Form 8-K

business; the impact of the proposed initial public offering of limited partner interests of OGE Enogex Partners L.P.; and other risk factors listed in the reports filed by the Company with the Securities and Exchange Commission including Risk Factors and Exhibit 99.01 to the Company's Form 10-K for the year ended December 31, 2007.
