Securities registered pursuant to section 12(b) of the Act:

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

| Title of each class | Name of each exchange on which registered |
|---|---|
| Common Units representing limited partner interests | New York Stock Exchange |
| Securities registered pursuant to section 12(g) of the Act: | |
| None | |

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes o No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes o No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files. Yes No o

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.:

Large accelerated filer o Accelerated filer Non-accelerated filer o Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes o No

The aggregate market value of common units held by non-affiliates of the registrant (treating directors and executive officers of the registrant's general partner and holders of 10% or more of the common units outstanding, for this purpose, as if they were affiliates of the registrant) as of June 30, 2011 was approximately \$320,138,537 based on a price per common unit of \$25.44, the price at which the common units were last sold as reported on the New York Stock Exchange on such date.

As of March 5, 2012, 27,430,563 common units were outstanding.

Forward-Looking Statements

Some of the information contained in this Annual Report on Form 10-K may contain forward-looking statements. Forward-looking statements include, without limitation, any statement that may project, indicate or imply future results, events, performance or achievements, and may contain the words "may," "believe," "should," "could," "expect," "anticipate," "plan," "intend," "estimate," "continue," "will likely result," or other similar expressions. In addition, any statement made by our management concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects, and possible actions by us are also forward-looking statements. Although we believe these forward-looking statements are reasonable as and when made, there may be events in the future that we are not able to predict accurately or control, and there can be no assurance that future developments affecting our business will be those that we anticipate. Additionally, all statements concerning our expectations regarding future operating results are based on current forecasts for our existing operations and do not include the potential impact of any future acquisitions. The factors listed under "Risk Factors," as well as any cautionary language in this report, describe the known material risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. Additional factors or events that may emerge from time to time, or those that we currently deem to be immaterial, could cause our actual results to differ, and it is not possible for us to predict all of them. You are cautioned not to place undue reliance on the forward-looking statements contained herein. The following factors are among those that may cause actual results to differ materially and adversely from our forward-looking statements:

We may not have sufficient cash from operations to enable us to pay the minimum quarterly distribution or maintain distributions at current levels following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.

A significant decrease in demand for the products we sell in the areas served by our storage facilities and/or our retail gasoline business could reduce our ability to make distributions to our unitholders.

Our sales of home heating oil and residual oil could be significantly reduced by conversions to natural gas.

Erosion of the value of the Mobil brand could adversely affect our gasoline sales and customer traffic.

Our gas station and convenience store business could expose us to an increase in consumer litigation and result in an unfavorable outcome or settlement of one or more lawsuits where insurance proceeds are insufficient or otherwise unavailable.

Our gasoline sales could be significantly reduced by a reduction in demand due to higher prices and to new technologies and alternative fuel sources, such as electric, hybrid or battery powered motor vehicles.

Changes to government usage mandates could adversely affect the availability and pricing of ethanol, which could negatively impact our sales.

Warmer weather conditions could adversely affect us.

Our risk management policies cannot eliminate all commodity risk. In addition, noncompliance with our risk management policies could result in significant financial losses.

Our results of operations are affected by the overall forward market for the products we sell.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Our business could be affected by a range of issues, such as energy conservation, competition, the global economic climate, movement of products between Europe and the U.S., weekly and monthly refinery output levels, changes in local, domestic and worldwide inventory levels, seasonality and supply disruptions.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

Increases and/or decreases in the prices of the products we sell adversely impact the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates.

We are exposed to trade credit risk in the ordinary course of our business.

We are exposed to risk associated with our trade credit support in the ordinary course of our business.

The condition of credit markets may adversely affect us.

Our bank credit agreement contains operating and financial covenants as well as borrowing base requirements. A failure to comply with the operating and financial covenants in our credit agreement and any future financing agreements could impact our access to bank loans and restrict our ability to finance future operations or capital needs or to engage, expand or pursue our business activities.

Adverse developments in the areas where we conduct our business could reduce our ability to make distributions to our unitholders.

A serious disruption to our information technology systems could significantly limit our ability to manage and operate our business efficiently.

We are exposed to performance risk in our supply chain.

Our retail gasoline business and terminal operations are subject to both federal and state environmental and non-environmental regulations which could have a material adverse effect on such businesses.

Our general partner and its affiliates have conflicts of interest and limited fiduciary duties, which may permit them to favor their own interests to the detriment of unitholders.

Unitholders have limited voting rights and are not entitled to elect our general partner or its directors or to remove our general partner without the consent of the holders of at least 66²/₃% of the outstanding units (including units held by our general partner and its affiliates), which could lower the trading price of our common units.

Our tax treatment depends on our status as a partnership for federal income tax purposes.

Unitholders may be required to pay taxes on their share of our income even if they do not receive any cash distributions from us.

Additional information about risks and uncertainties that could cause actual results to differ materially from forward-looking statements is contained in Item 1A, "Risk Factors" in this Annual Report on Form 10-K.

We expressly disclaim any obligation or undertaking to update these statements to reflect any change in our expectations or beliefs or any change in events, conditions or circumstances on which any forward-looking statement is based. All forward-looking statements included in this Annual Report on Form 10-K and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

Available Information

We make available free of charge through our website, www.globalp.com, our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practicable after we electronically file or furnish such material with the Securities and Exchange Commission ("SEC"). These documents are also available at the SEC's website at www.sec.gov. Our website also includes our Code of Business Conduct and Ethics, our Governance Guidelines and the charters of our Audit Committee and Compensation Committee.

A copy of any of these documents will be provided without charge upon written request to the General Counsel, Global Partners LP, P.O. Box 9161, 800 South Street, Suite 200, Waltham, MA 02454; fax (781) 398-4165.

Table of Contents

PART I

References in this Annual Report on Form 10-K to "Global Partners LP," "Partnership," "we," "our," "us" or like terms refer to Global Partners LP and its subsidiaries. References to "our general partner" refer to Global GP LLC.

Items 1. and 2. Business and Properties.

Overview

We are a publicly traded Delaware limited partnership formed in March 2005. As of December 31, 2011, we had five operating subsidiaries: Global Companies LLC, its subsidiary, Glen Hes Corp., Global Montello Group Corp. ("GMG"), Chelsea Sandwich LLC and Global Energy Marketing LLC ("Global Energy") (the five operating subsidiaries, collectively, the "Companies"). The Companies (other than Glen Hes Corp.) are wholly owned by Global Operating LLC, our wholly owned subsidiary. GMG conducts our end user business, including certain aspects of our retail gasoline business. Global Energy conducts portions of our natural gas operations. In addition, GLP Finance Corp. ("GLP Finance") is our wholly owned subsidiary. GLP Finance has no material assets or liabilities. Its activities will be limited to co-issuing debt securities and engaging in other activities incidental thereto. In January 2012, Alliance Retail LLC, a wholly owned subsidiary of GMG, was formed to hold certain property, plant and equipment to be acquired from Alliance Energy LLC (please read "Recent Development Acquisition of Alliance Energy LLC"). Our general partner manages our operations and activities and employs our officers and substantially all of our personnel.

We own, control or have access to one of the largest terminal networks of refined petroleum products and renewable fuels in Massachusetts, Maine, Connecticut, Vermont, New Hampshire, Rhode Island, New York, New Jersey and Pennsylvania (collectively, the "Northeast"). We are one of the largest wholesale distributors of gasoline (including blendstocks such as ethanol and naphtha), distillates (such as home heating oil, diesel and kerosene), residual oil and renewable fuels to wholesalers, retailers and commercial customers in the New England states and New York. We own and supply fuel to Mobil-branded retail gas stations in the New England states (except Connecticut) and also supply Mobil-branded fuel in those same states to independently-owned stations and to other Mobil distributors. On March 1, 2012, we acquired Alliance Energy LLC ("Alliance"), a gasoline distributor and operator of gasoline stations and convenience stores. Alliance's portfolio includes approximately 540 gasoline stations in New England, New York, New Jersey and Pennsylvania. Alliance owns or has long-term leases on approximately 253 sites and has supply contracts for the remaining stations. With the completion of the acquisition, we now have a portfolio of approximately 800 owned, leased or supplied gas stations, expanding our geographic footprint for such stations to include Connecticut, Maine, New Jersey, New York and Pennsylvania. In addition, while our existing stations are flying the Mobil flag, Alliance is a top-tier distributor of multiple brands, including Exxon, Mobil, Shell, Sunoco, CITGO and Gulf. Please read "Recent Development Acquisition of Alliance Energy LLC") for additional information.

We sold approximately \$14.8 billion of refined petroleum products, renewable fuels and small amounts of natural gas and crude oil for the year ended December 31, 2011. In addition, we had other revenues of approximately \$58.8 million, primarily from convenience store sales at our directly operated stores and gas station rental income. As of December 31, 2011, we owned, leased or maintained dedicated storage facilities at 23 refined petroleum product bulk terminals, each with the capacity of more than 50,000 barrels, including 22 located throughout the Northeast, that are supplied primarily by marine transport, pipeline, rail and/or truck and that collectively have approximately 10.2 million barrels of storage capacity. Additionally, we have storage capacity at our Albany, New York terminal to store crude oil and at select locations to store renewable fuels. We also have throughput and exchange agreements at numerous bulk terminals and inland storage facilities. In addition, we have storage

Table of Contents

agreements at several of our terminals granting storage rights to third parties for which we receive a fee.

We purchase our refined petroleum products, renewable fuels and crude oil primarily from domestic and foreign refiners and ethanol producers, major and independent oil companies and trading companies and sell these products in two reporting segments, Wholesale and Commercial. In 2011, our Wholesale sales accounted for approximately 92% of our total sales and our Commercial sales accounted for approximately 8%.

As demand for some of our refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally greater during the winter months, sales are generally higher during the first and fourth quarters of the calendar year which may result in significant fluctuations in our quarterly operating results. The increase in the non-weather sensitive components of our business helps to partially offset the economic impact that warmer weather conditions may have on our home heating oil and residual oil sales. Portions of our heating oil and residual oil are sold on a forward fixed price basis. In 2011, our volume in transportation fuels, which continues to represent a growing portion of our sales, exceeded our heating oil volumes. In the fourth quarter of 2011, we began buying mid-continental crude oil and transporting it by rail to our Albany, New York terminal for storage and subsequent sale in barge load quantities.

Recent Development Acquisition of Alliance Energy LLC

On March 1, 2012, we acquired from AE Holdings Corp. ("AE Holdings") 100% of the outstanding membership interests in Alliance, a gasoline distributor and operator of gasoline stations and convenience stores. In consideration, we issued to AE Holdings 5,850,000 common units representing limited partner interest in us and assumed long-term debt of Alliance, subject to post-closing adjustments, of approximately \$180.0 million.

In connection with the acquisition of Alliance, we incurred acquisition costs of \$1.1 million for the year ended December 31, 2011 and expect to incur additional acquisition costs of approximately \$5.0 million in 2012, for total estimated acquisition costs of approximately \$6.1 million.

Business Strategies

Our primary business objective is to increase distributable cash flow per unit by continuing to execute the following business strategies:

Expand Assets and Marketing Businesses Within and Beyond Our Northeast Market. We pursue strategic and accretive acquisitions of terminal and other storage assets (accessible by water, pipeline, rail, truck or any combination of the foregoing) and marketing businesses of refined petroleum products including, without limitation, gasoline, other transportation fuels and heating oil, as well as renewable fuels, natural gas and crude oil, within our existing area of operations and in new geographic areas. We pursue strategic and accretive acquisitions of upstream or downstream assets and businesses and transportation assets and businesses related thereto, including, but not limited to, assets or businesses with (1) terminals, (2) retail gasoline assets and/or (3) marketing, transportation or other logistics assets. We assign value to the marketing opportunities associated with these assets and businesses. Because of our interest in purchasing marketing businesses as well as physical assets, we believe we have a competitive advantage over bidders interested in purchasing only physical assets. In addition, we seek strategic relationships with companies that are looking to outsource their wholesale marketing business, as these opportunities allow us to leverage our strengths in marketing infrastructure and credit fundamentals. We currently have marketing arrangements with one major supplier of unbranded gasoline as well as two distillate suppliers in several northeastern states.

Table of Contents

Pursue Organic Expansions and Improvements. We focus on improved returns through terminal expansions, product expansions, such as renewable fuels, natural gas and crude oil, and operating efficiencies.

Serve as a Preferred Supplier to Our Customers. We believe that our customers value dependability and quality of supply. We strive to maintain a level of inventory to ensure that the supply needs of our customers are always satisfied. During periods of product shortages, we have historically succeeded in sustaining a supply of product sufficient to meet the needs of our customers. We own, control or have access to bulk terminals and inland storage facilities that are strategically located for ease of access by our customers. Additionally, we satisfy specific customer needs by customizing our products, such as diesel and home heating oil, by blending and injecting additives.

Focus on Credit Fundamentals of Our Customers. We manage our trade credit exposure through conservative management practices, such as:

pre-approving customers up to certain credit limits;

seeking secondary sources of repayment for trade credit, such as letters of credit or guarantees; and

not offering to extend credit as a marketing tool to attract customers.

As a result of these practices, in each of the past five years, the amount of account receivables that we wrote off was insignificant as a percentage of sales.

Minimize Our Exposure to Commodity Price Volatility. We actively manage our business to minimize commodity price exposure by using hedging techniques. We seek to maintain a position that is substantially hedged with respect to our inventories and our forward sales commitments.

Product and All Other Sales

General

We sell our refined petroleum products, renewable fuels and crude oil in two reporting segments, Wholesale and Commercial. The majority of the refined petroleum products we sell can be grouped into three categories: gasoline (including blendstocks such as ethanol and naphtha), distillates, and residual oil and crude oil. In 2011, gasoline, distillates, and residual oil and crude oil accounted for approximately 68%, 27% and 5%, respectively, of our total volume sold.

Gasoline. We sell grades of branded and unbranded gasoline, both on a wholesale and commercial basis, that comply with seasonal and geographical requirements in the areas in which we market. Gasoline blendstocks, such as ethanol, are also included in this product category. Gasoline sales accounted for approximately 68%, 60% and 51% of total sales for the years ended December 31, 2011, 2010 and 2009, respectively.

Distillates. Distillates are divided into home heating oil, diesel and kerosene. In 2011, sales of home heating oil, diesel and kerosene accounted for approximately 61%, 37% and 2%, respectively, of our total volume of distillates sold. Distillate sales accounted for approximately 28%, 35% and 44% of total sales for the years ended December 31, 2011, 2010 and 2009, respectively.

We sell generic home heating oil and Heating Oil Plus, our proprietary premium branded heating oil. Heating Oil Plus is electronically blended at the delivery facility. In 2011, approximately 12% of the volume of home heating oil we sold to wholesale resellers was Heating Oil Plus. In addition, we sell the additive used to create Heating Oil Plus to some wholesale resellers, make injection systems available to them and provide technical support to assist them with blending. We also

Table of Contents

educate the sales force of our customers to better prepare them for marketing our products to their customers.

We sell generic diesel and Diesel One®, our proprietary premium diesel fuel product. We offer marketing and technical support for those customers who purchase Diesel One®. In 2011, approximately 35% of the volume of diesel we sold to wholesale resellers was Diesel One®.

Residual Oil and Crude Oil. We are one of three primary residual oil marketers in the Northeast. We specially blend residual oil for users in accordance with their individual power plant specifications. Residual oil sales accounted for approximately 4%, 5% and 5% of total sales for the years ended December 31, 2011, 2010 and 2009, respectively. In the fourth quarter of 2011, we expanded our product offerings and began buying and selling mid-continental crude oil of which a de minimis amount of sales was included in this product category.

We had one customer, ExxonMobil, who accounted for approximately 19%, 19% and 22% of our total sales for the years ended December 31, 2011, 2010 and 2009, respectively.

Wholesale

In the Wholesale segment, we sell gasoline (including blendstocks such as ethanol and naphtha) and diesel to branded and unbranded retail gasoline stations and other resellers of transportation fuels and home heating oil, diesel, kerosene and residual oil to home heating oil retailers and wholesale distributors. We also sell crude oil to refiners. In 2011, a de minimis amount of crude oil sales was included in this segment. In 2011, this segment accounted for approximately 92% of our total volume sold. Generally, customers use their own vehicles or contract carriers to take delivery of the product at bulk terminals and inland storage facilities that we own or control or with which we have throughput or exchange agreements. Please read " Storage."

In 2011, we sold unbranded and Mobil-branded gasoline and diesel, including Diesel One®, to approximately 1,110 wholesalers and retail gasoline station operators.

We have marketing arrangements with one major supplier of unbranded gasoline as well as two distillate suppliers in several northeastern states.

In 2011, we sold home heating oil, including Heating Oil Plus , to more than 1,015 wholesale distributors and retailers. We have a fixed price sales program that we market primarily to wholesale distributors and retailers which uses the New York Mercantile Exchange ("NYMEX") heating oil contract as the pricing benchmark and as the vehicle to manage the commodity risk. Please read " Commodity Risk Management." In 2011, approximately 30% of our home heating oil volume was sold using forward fixed price contracts. A forward fixed price contract requires our customer to purchase a specific volume at a specific price during a specific period. The remaining home heating oil was sold on either a posted price or a price based on various indices which, in both instances, reflect current market conditions.

In 2011, we sold residual oil to 17 wholesale distributors. Our Wholesale residual oil sales were accomplished through forward fixed price contracts or by using market-related prices, either posted prices or indexed prices, to reflect current market conditions.

Financial information with respect to the Wholesale segment, including information concerning revenues, gross profit, net product margin and total assets may be found under Item 7, "Management's Discussion and Analysis and Results of Operations" and in Note 17 of Notes to Consolidated Financial Statements included elsewhere in this Annual Report on Form 10-K.

Table of Contents

Commercial

Our Commercial segment includes sales and deliveries to end user customers in the public sector and to large commercial and industrial end users of unbranded gasoline, home heating oil, diesel, kerosene, residual oil, renewable fuels and a small amount of natural gas. In the case of commercial and industrial end user customers, we sell products primarily either through a competitive bidding process or through contracts of various terms. Our Commercial segment also includes sales of Mobil-branded gasoline to end users at our directly operated gas stations. This segment also includes sales of custom blended distillates and residual oil delivered by barges or from a terminal dock through bunkering activity. In 2011, this segment accounted for approximately 8% of our total volume sold.

Our commercial end user customers include Mobil-branded gasoline customers at our directly operated gasoline stations, federal and state agencies, municipalities, large industrial companies, many autonomous authorities such as transportation authorities and water resource authorities, colleges and universities and a group of small utilities. Unlike our Wholesale segment, in our Commercial segment, we generally arrange the delivery of the product to the customer's designated location. We typically hire third-party common carriers to deliver the product. Please read " Storage."

In this segment, we respond to publicly-issued requests for product proposals and quotes. As of December 31, 2011, we had contracts as a result of this public bidding process with the U.S. government and the states of Massachusetts, New Hampshire, New York and Rhode Island. We also had contracts with municipalities, autonomous authorities and institutional customers in the Northeast to meet their various fuel requirements.

A majority of the contracts in our bid business are for a term of one to three years. We offer both fixed and indexed price and volume contracts to customers. The majority of bid activity is priced using an indexed price with the index typically chosen by the issuing authority in its solicitation for the bid proposal. The indexed prices are usually referenced to one of five industry publications and/or the utilization of regulated exchanges.

Our commercial customers also include cruise ships, dry and wet bulk carriers, fishing fleets and other marine vessels. We blend distillates and residual oil to the customers' specifications at the terminal facility or on the barge and then deliver the resulting bunker fuel directly to the ship or barge.

Financial information with respect to the Commercial segment, including information concerning revenues, gross profit, net product margin and total assets may be found under Item 7, "Management's Discussion and Analysis and Results of Operations" and in Note 17 of Notes to Consolidated Financial Statements included elsewhere in this Annual Report on Form 10-K.

All Other

Our non-petroleum product sales primarily include convenience store, car wash and other ancillary sales at our directly operated stores and rental income from our dealer leased retail gas stations.

Supply

Our products come from some of the major energy companies in the world. Products can be sourced from the United States, Canada, South America, Europe, Russia and occasionally from Asia. Most of our products are delivered by water, pipeline, rail or truck. During 2011, we purchased an average of approximately 340,000 barrels per day of refined petroleum products and renewable fuels from approximately 150 suppliers. In 2011, our top ten suppliers accounted for approximately 66% of our product purchases. We enter into supply agreements with these suppliers on a term basis or a spot basis. With respect to trade terms, our supply purchases vary depending on the particular contract from prompt payment (usually three days) to net 30 days. Please read " Commodity Risk Management." We obtain our convenience store inventory from traditional suppliers.

Table of Contents

Commodity Risk Management

Since we take title to the refined petroleum products, renewable fuels and crude oil that we sell, we are exposed to commodity risk. Commodity risk is the risk of unfavorable market fluctuations in the price of commodities such as refined petroleum products, renewable fuels and crude oil. We endeavor to minimize commodity risk in connection with our daily operations. Generally, as we purchase and/or store these products, we reduce commodity risk through hedging by selling futures contracts on regulated exchanges or using other derivatives, and then lift hedges as we sell the product for physical delivery to third parties. Products are generally purchased and sold at spot prices, fixed prices or indexed prices. While we use these transactions to seek to maintain a position that is substantially balanced within our product purchase activities, we may experience net unbalanced positions for short periods of time as a result of variances in daily sales and transportation and delivery schedules as well as logistical issues, for example, associated with inclement weather conditions. In connection with managing these positions and maintaining a constant presence in the marketplace, both necessary for our business, we engage in a controlled trading program for up to an aggregate of 250,000 barrels of these products at any point in time. Our policy is generally to purchase only products for which we have a market and to structure our sales contracts so that price fluctuations do not materially affect our profit. While our policies are designed to minimize market risk, as well as inherent basis risk, exposure to fluctuations in market conditions remains.

Operating results are sensitive to a number of factors. Such factors include commodity location, grades of product, individual customer demand for grades or location of product, localized market price structures, availability of transportation facilities, daily delivery volumes that vary from expected quantities and timing and costs to deliver the commodity to the customer. The term "basis risk" is used to describe the inherent market price risk created when a commodity of certain grade or location is purchased, sold or exchanged as compared to a purchase, sale or exchange of commodity at a different time or place, including, without limitation, transportation costs and timing differentials. We attempt to reduce our exposure to basis risk by grouping our purchase and sale activities by geographical region and commodity quality in order to stay balanced within such designated region. However, basis risk cannot be entirely eliminated, and basis exposure, particularly in backward markets (when prices for future deliveries are lower than current prices) or other adverse market conditions, can adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

With respect to the pricing of commodities, we utilize futures contracts and other derivative instruments to minimize or hedge the impact of commodity price changes on our inventories and forward fixed price commitments. Any hedge ineffectiveness is reflected in our results of operations. We generally utilize regulated exchanges, including the NYMEX, the Chicago Mercantile Exchange ("CME") and the IntercontinentalExchange ("ICE"), which are regulated exchanges for the commodities that each trades, thereby reducing potential delivery and supply risks. Generally, our practice is to close all exchange positions rather than make or receive physical deliveries. We may also enter into derivative agreements which may not have a correlated exchange contract with counterparties that we believe have a strong credit profile in order to hedge market fluctuations and/or lock-in margins relative to our commitments.

We monitor processes and procedures to prevent unauthorized trading by our personnel and to maintain substantial balance between purchases and sales or future delivery obligations. We can provide no assurance, however, that these steps will detect and prevent all violations of such trading processes and procedures, particularly if deception or other intentional misconduct is involved.

Storage

Bulk terminals and inland storage facilities play a key role in the distribution of product to our customers. As of December 31, 2011, we owned, leased or maintained dedicated storage facilities at 23

Table of Contents

refined petroleum product bulk terminals, each with the capacity of more than 50,000 barrels, including 22 located throughout the Northeast that collectively have approximately 10.2 million barrels of storage capacity. We also have throughput and exchange agreements at numerous bulk terminals and inland storage facilities. In addition, we have storage agreements at several of our terminals granting storage rights to third parties for which we receive a fee.

The bulk terminals and inland storage facilities from which we distribute product are supplied by ship, barge, truck, pipeline and/or rail. The inland storage facilities, which we use exclusively to store distillates, are supplied with product delivered by truck from bulk terminals. Our customers receive product from our network of bulk terminals and inland storage facilities via truck, barge, rail and/or pipeline.

Many of our bulk terminals operate 24 hours a day and consist of multiple storage tanks and automated truck loading equipment. These automated systems monitor terminal access, volumetric allocations, credit control and carrier certification through the remote identification of customers. In addition, some of the bulk terminals at which we market are equipped with truck loading racks capable of providing automated blending and additive packages which meet our customers' specific requirements.

Throughput arrangements allow storage of product at terminals owned by others. Our customers can load product at these terminals, and we pay the owners of these terminals fees for services rendered in connection with the receipt, storage and handling of such product. Compensation to the terminal owners may be fixed or based upon the volume of our product that is delivered and sold at the terminal.

Exchange agreements allow our customers to take delivery of product at a terminal or facility that is not owned or leased by us. An exchange is a contractual agreement where the parties exchange product at their respective terminals or facilities. For example, we (or our customers) receive product that is owned by our exchange partner from such party's facility or terminal, and we deliver the same volume of our product to such party (or to such party's customers) out of one of the terminals in our terminal network. Generally, both sides of an exchange transaction pay a handling fee (similar to a throughput fee), and often one party also pays a location differential that covers any excess transportation costs incurred by the other party in supplying product to the location at which the first party receives product. Other differentials that may occur in exchanges (and result in additional payments) include product value differentials and timing differentials.

Competition

We encounter varying degrees of competition based on product and geographic locations. Our competitors include terminal companies, major integrated oil companies and their marketing affiliates, wholesalers and independent marketers of varying sizes, financial resources and experience. In our Northeast market, we compete in various product lines and for all customers. In the residual oil markets, however, where product is heated when stored and cannot be delivered long distances, we face less competition because of the strategic locations of our residual oil storage facilities. We are one of three primary residual oil marketers in the Northeast. We also compete with natural gas suppliers and marketers in our home heating oil and residual oil product lines. Bunkering requires facilities at ports to service vessels. In various other geographic markets, particularly the unbranded gasoline and distillates markets, we compete with integrated refiners, merchant refiners and regional marketing companies. Our Mobil-branded retail gas stations compete with unbranded and branded retail gas stations as well as supermarket and warehouse stores that sell gasoline.

Table of Contents

Environmental

General

Our business of supplying refined petroleum products, renewable fuels and crude oil involves a number of activities that are subject to extensive and stringent environmental laws. As part of our business, we own and operate various petroleum storage and distribution facilities and gas stations and must comply with environmental laws at the federal, state and local levels, which increases the cost of operating terminals and gas stations and our business generally.

Our operations also utilize a number of petroleum storage facilities and distribution facilities and gas stations that we do not own or operate, but at which refined petroleum products, renewable fuels and crude oil are stored. We utilize these facilities through several different contractual arrangements, including leases and throughput and terminalling services agreements. If facilities with which we contract that are owned and operated by third parties fail to comply with environmental laws, they could be shut down, requiring us to incur costs to use alternative facilities.

Environmental laws and regulations can restrict or impact our business activities in many ways, such as:

requiring remedial action to mitigate releases of hydrocarbons, hazardous substances or wastes caused by our operations or attributable to former operators;

requiring capital expenditures to comply with environmental control requirements; and

enjoining the operations of facilities deemed in noncompliance with environmental laws and regulations.

Failure to comply with environmental laws and regulations may trigger a variety of administrative, civil and criminal enforcement measures, including the assessment of monetary penalties, the imposition of remedial requirements and the issuance of orders enjoining future operations. Certain environmental statutes impose strict, joint and several liability for costs required to clean up and restore sites where hydrocarbons, hazardous substances or wastes have been released or disposed of. Moreover, neighboring landowners and other third parties may file claims for personal injury and property damage allegedly caused by the release of hydrocarbons, hazardous substances or other wastes into the environment.

The trend in environmental regulation is to place more restrictions and limitations on activities that may affect the environment. As a result, there can be no assurance as to the amount or timing of future expenditures for environmental compliance or remediation, and actual future expenditures may be different from the amounts we currently anticipate. We try to anticipate future regulatory requirements that might be imposed and plan accordingly to remain in compliance with changing environmental laws and regulations and minimize the costs of such compliance.

We do not believe that compliance with federal, state or local environmental laws and regulations will have a material adverse effect on our financial position, results of operations or cash available for distribution to our unitholders. We can provide no assurance, however, that future events, such as changes in existing laws (including changes in the interpretation of existing laws), the promulgation of new laws, or the development or discovery of new facts or conditions will not cause us to incur significant costs.

Table of Contents

Hazardous Materials and Waste Handling

In most instances, the environmental laws and regulations affecting our business relate to the release of hazardous substances into the water or soils and include measures to control pollution of the environment. For instance, the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, also known as CERCLA or the Superfund law, and comparable state laws impose liability, without regard to fault or the legality of the original conduct, on certain classes of persons who are considered to be responsible for the release of hazardous substances into the environment. These persons include the owner or operator of the site where the release occurred and companies that disposed or arranged for the disposal of the hazardous substances. Under the Superfund law, these persons may be subject to joint and several liability for the costs of cleaning up hazardous substances that have been released into the environment, for damages to natural resources and for the costs of certain health studies. The Superfund law also authorizes the U.S. Environmental Protection Agency ("EPA"), and in some instances third parties, to act in response to threats to the public health or the environment and seek to recover from the responsible persons the costs they incur. It is possible for neighboring landowners and other third parties to file claims for personal injury and property damage allegedly caused by hazardous substances or other pollutants released into the environment. In the course of our ordinary operations, we may generate, store or otherwise handle materials and wastes that fall within the Superfund law's definition of a hazardous substance and, as a result, we may be jointly and severally liable under the Superfund law for all or part of the costs required to clean up sites at which those hazardous substances have been released into the environment.

We currently own, lease or utilize storage or distribution facilities and gas stations where hydrocarbons are being or have been handled for many years. Although we have utilized operating and disposal practices that were standard in the industry at the time, hydrocarbons or other wastes may have been disposed of or released on, under or from the properties owned or leased by us or on or under other locations where we have contractual arrangements or where these wastes have been taken for disposal. In addition, many of these properties have been operated by third parties whose treatment and disposal or release of hydrocarbons or other wastes was not under our control. These properties and wastes disposed thereon may be subject to the Superfund law or other federal and state laws. Under these laws, we could be required to remove or remediate previously disposed wastes, including wastes disposed of or released by prior owners or operators, clean up contaminated property, including groundwater contaminated by prior owners or operators or make capital improvements to prevent future contamination.

Our operations generate a variety of wastes, including some hazardous wastes that are subject to the federal Resource Conservation and Recovery Act, as amended ("RCRA") and comparable state laws. By way of summary, these regulations impose detailed requirements for the handling, storage, treatment and disposal of hazardous waste. Our operations also generate solid wastes which are regulated under state law or the less stringent solid waste requirements of the federal Solid Waste Disposal Act. We believe that we are in substantial compliance with the existing requirements of RCRA, the Solid Waste Disposal Act, and similar state and local laws, and the cost involved in complying with these requirements is not material.

We incur ongoing costs for monitoring groundwater and/or remediation of contamination at several facilities that we operate. Assuming that we will be able to continue to use common remedial and monitoring methods or associated engineering or institutional controls to demonstrate compliance with applicable regulatory requirements, as we have in the past and regulations currently allow, we believe that these costs will not have a material impact on our financial condition, results of operations or cash available for distribution to our unitholders.

Table of Contents

Above Ground Storage Tanks

Above ground tanks that contain petroleum and other hazardous substances are subject to comprehensive regulation under environmental laws. Generally, these laws impose liability for releases and require secondary containment systems for tanks or that the operators take alternative precautions to ensure that no contamination results from tank leaks or spills. We believe we are in substantial compliance with environmental laws and regulations applicable to above ground storage tanks.

The Oil Pollution Act of 1990 ("OPA") addresses three principal areas of oil pollution prevention, containment and cleanup. In order to handle, store or transport oil at our terminals, we are required to file oil spill response plans with either the United States Coast Guard (for marine facilities) or the EPA. States in which we operate have enacted laws similar to OPA. Under OPA and comparable state laws, responsible parties for a regulated facility from which oil is discharged may be subject to strict, joint and several liability for removal costs and certain other consequences of an oil spill such as natural resource damages, where the spill is into navigable waters or along shorelines. We believe we are in substantial compliance with regulations pursuant to OPA and similar state laws.

Under the authority of the federal Clean Water Act, the EPA imposes specific requirements for Spill Prevention, Control and Countermeasure plans that are designed to prevent, and minimize the impacts of, releases of oil and oil products from above ground storage tanks. We believe we are in substantial compliance with these requirements.

Underground Storage Tanks

We are required to make financial expenditures to comply with regulations governing underground storage tanks which store gasoline or other regulated substances adopted by federal, state and local regulatory agencies. Pursuant to RCRA, the EPA has established a comprehensive regulatory program for the detection, prevention, investigation and cleanup of leaking underground storage tanks. State or local agencies are often delegated the responsibility for implementing the federal program or developing and implementing equivalent or stricter state or local regulations. We have a comprehensive program in place for performing routine tank testing and other compliance activities which are intended to promptly detect and investigate any potential releases. In addition, the federal Clean Air Act and similar state laws impose requirements on emissions to the air from motor fueling activities in certain areas of the country, including those that do not meet state or national ambient air quality standards. These laws may require the installation of vapor recovery systems to control emissions of volatile organic compounds to the air during the motor fueling process. We believe we are in substantial compliance with applicable environmental requirements, including those applicable to our underground storage tanks. Compliance with existing and future environmental laws regulating underground storage tank systems of the kind we use may require significant capital expenditures in the future. These expenditures may include upgrades, modifications, and the replacement of underground storage tanks and related piping to comply with current and future regulatory requirements designed to ensure the detection, prevention, investigation and remediation of leaks and spills.

Water Discharges

The federal Clean Water Act imposes restrictions regarding the discharge of pollutants, including oil and refined petroleum products, renewable fuels and crude oil, into navigable waters. This law and comparable state laws require permits for discharging pollutants into state and federal waters and impose substantial liabilities and remedial obligations for noncompliance. EPA regulations also require us to obtain permits to discharge certain storm water runoff. Storm water discharge permits also may be required by certain states in which we operate. We believe that we hold the required permits and operate in material compliance with those permits. While we have experienced permit discharge exceedences at some of our terminals, we do not expect any noncompliance with existing permits and

Table of Contents

foreseeable new permit requirements to have a material adverse effect on our financial position, results of operations or cash available for distribution to our unitholders.

Air Emissions

Under the federal Clean Air Act and comparable state and local laws, permits are typically required to emit regulated air pollutants into the atmosphere. We believe that we currently hold or have applied for all necessary air permits and that we are in substantial compliance with applicable air laws and regulations. Although we can give no assurances, we are aware of no changes to air quality regulations that will have a material adverse effect on our financial condition, results of operations or cash available for distribution to our unitholders.

Various federal, state and local agencies have the authority to prescribe product quality specifications for the refined petroleum products, renewable fuels and crude oil that we sell, largely in an effort to reduce air pollution. Failure to comply with these regulations can result in substantial penalties. Although we can give no assurances, we believe we are currently in substantial compliance with these regulations.

Changes in product quality specifications could require us to incur additional handling costs or reduce our throughput volume. For instance, different product specifications for different markets could require the construction of additional storage. Also, states in which we operate have considered limiting the sulfur content of home heating oil. If such regulations are enacted, this could restrict the supply of available heating oil, which could increase our costs to purchase such oil or limit our ability to sell heating oil.

Efforts at the federal and state level are currently underway to reduce the levels of greenhouse gas ("GHG") emissions from various sources in the United States. Congress may enact legislation to reduce GHG emissions in the United States, but no such legislation has been passed. Such or similar federal legislation may impose a carbon emissions tax or establish a cap-and-trade program or regulation by the EPA. Even in the absence of new federal legislation, GHG emissions have begun to be regulated by the EPA pursuant to the Clean Air Act. In December of 2009, the EPA issued a final rule declaring that six GHGs, including carbon dioxide and methane, "endanger both the public health and the public welfare of current and future generations." The issuance of this "endangerment finding" allowed the EPA to begin regulating GHG emissions under existing provisions of the federal Clean Air Act. In May 2010, the EPA issued a final "tailoring rule" that would regulate GHG emissions from large stationary sources such as power plants or industrial facilities. In addition, in April 2010, the EPA set a new emissions standard for motor vehicles to reduce GHG emissions. In December 2010, the EPA issued its plan to update pollution standards for fossil fuel power plants and petroleum refineries. Under that agreement, the EPA intended to propose standards for refineries in December 2011. However, on November 21, 2011, the EPA announced that it will not meet a December 15, 2011 deadline to issue new regulations under the Clean Air Act limiting GHG emissions from oil refineries. The EPA says it needs more time to prepare new source performance standards and is in negotiations to set a new deadline.

Numerous states, including many where we have operations, have already taken legal measures to reduce emissions of GHGs, primarily through the planned development of GHG emission inventories and/or regional GHG cap and trade programs. A regional cap and trade program, referred to as the Regional Greenhouse Gas Initiative, began January 1, 2009, and is designed to stabilize and reduce GHG emissions from fossil fuel-fired power plants in many northeastern and mid-atlantic states. New federal or state restrictions on emissions of GHGs that may be imposed in areas of the United States in which we conduct business and that apply to our operations could adversely affect the demand for our products.

Table of Contents

Under Subpart MM of the Mandatory Greenhouse Gas Reporting Rule ("MRR"), importers of petroleum products, including distillates, must report the GHG emissions that would result from the complete combustion of all imported products if such combustion would result in the emission of at least 25,000 metric tons of carbon dioxide per year. At this time, we believe that we are subject to Subpart MM because of the volume of petroleum products we typically import. We do not believe that compliance with the MRR will substantially impact our operations. However, any change in regulations based on GHG emissions reported in compliance with MRR may limit our ability to import petroleum products or increase our costs to import such products.

Convenience Store Regulations

Our convenience store operations are subject to extensive governmental laws and regulations that include, but are not limited to, legal restrictions on the sale of alcohol, tobacco and lottery products, food safety and health requirements and public accessibility, as well as sanitation, safety and fire standards. State and local regulatory agencies have the authority to approve, revoke, suspend or deny applications for, and renewals of, permits and licenses. Our operations are also subject to federal and state laws governing matters such as wage rates, overtime, working conditions and citizenship requirements. At the federal level, there are proposals under consideration from time to time to increase minimum wage rates and to introduce a system of mandated health insurance, each of which could adversely affect our results of operations. In June 2009, Congress gave the Food and Drug Administration ("FDA") broad authority to regulate tobacco products through passage of the Family Smoking Prevention and Tobacco Control Act ("FSPTCA"). Under the FSPTCA, the FDA has passed regulations that, among other things, prohibit the sale of cigarettes or smokeless tobacco to anyone under the age of 18 years (state laws are permitted to set a higher minimum age); prohibit the sale of single cigarettes or packs with less than 20 cigarettes; and prohibit the sale or distribution of non-tobacco items such as hats and t-shirts with tobacco brands, names or logos. Governmental actions and regulations, such as these, could materially impact our retail price of cigarettes, cigarette unit volume and revenues, merchandise gross profit and overall customer traffic, which could in turn have a material adverse effect on our results of operations.

Ethanol Market

The market for ethanol is dependent on several economic incentives to use ethanol, including federal tax incentives, ethanol use mandates and oxygenate blending requirements. For instance, the Renewable Fuels Standard ("RFS") requires that a certain amount of renewable fuels be utilized in the United States each year. Additionally, the EPA imposes oxygenate blending requirements for reformulated gasoline. The market for ethanol also has been affected by the Volumetric Ethanol Excise Tax Credit ("blender's credit"), which provided a volumetric tax credit of 4.5 cents per gallon of gasoline that contains at least 10% ethanol. The blender's credit expired on December 31, 2011. It is not possible at this time to predict whether or to what extent Congress will reinstate the blender's credit. A reduction or waiver of the RFS mandate or the oxygenate blending requirements could adversely affect the availability and pricing of ethanol, which could result in reduced discretionary blending of ethanol. Discretionary blending is when gasoline blenders use ethanol to reduce the cost of blended gasoline.

Recently, the EPA allowed the use of E15, gasoline which is blended at a rate of 15% ethanol and 85% gasoline, in vehicles manufactured in the model year 2007 and later as well as for cars and light duty trucks manufactured in the model years between 2001 and 2006. According to EPA estimates, flex-fuel vehicles make up only a small percentage of vehicles on the nation's roads and there are only about 2,000 E85 pumps in the U.S. The USDA is providing financial assistance to help implement more "blender pumps" in the U.S. in order to increase demand for ethanol and to help offset the cost of introducing mid-level ethanol blends into the U.S. retail gasoline market. However, blender pumps

Table of Contents

cost approximately \$20,000 each, so it may take time before they become widely available in the retail gasoline market.

Environmental Insurance

We maintain insurance which may cover, in whole or in part, certain costs relating to the clean up of releases of refined petroleum products, renewable fuels, blendstocks and crude oil. We maintain insurance policies with insurers in amounts and with coverage and deductibles as our general partner believes are reasonable and prudent. These policies may not cover all environmental risks and costs and may not provide sufficient coverage in the event an environmental claim is made against us.

Security Regulation

Since the September 11, 2001 terrorist attacks on the United States, the U.S. government has issued warnings that energy infrastructure assets may be future targets of terrorist organizations. These developments have subjected our operations to increased risks. Increased security measures taken by us as a precaution against possible terrorist attacks have resulted in increased costs to our business. Where required by federal or local laws, we have prepared security plans for the storage and distribution facilities we operate. Terrorist attacks aimed at our facilities and any global and domestic economic repercussions from terrorist activities could adversely affect our financial condition, results of operations and cash available for distribution to our unitholders. For instance, terrorist activity could lead to increased volatility in prices for home heating oil, gasoline and other products we sell.

Insurance carriers are currently required to offer coverage for terrorist activities as a result of the federal Terrorism Risk Insurance Act of 2002 ("TRIA"). We purchased this coverage with respect to our property and casualty insurance programs, which resulted in additional insurance premiums. Pursuant to the Terrorism Risk Insurance Program Reauthorization Act of 2007, TRIA has been extended through December 31, 2014. Although we cannot determine the future availability and cost of insurance coverage for terrorist acts, we do not expect the availability and cost of such insurance to have a material adverse effect on our financial condition, results of operations or cash available for distribution to our unitholders.

Employee Safety

We are subject to the requirements of the Occupational Safety and Health Act ("OSHA") and comparable state statutes that regulate the protection of the health and safety of workers. In addition, OSHA's hazard communication standards require that information be maintained about hazardous materials used or produced in operations and that this information be provided to employees, state and local government authorities and citizens. We believe that we are in substantial compliance with the applicable OSHA requirements.

We operate a limited number of trucks for the transportation of refined petroleum products, as most of the trucks that distribute products we sell are owned and operated by third parties. We are subject to regulations promulgated under the Federal Motor Carrier Safety Act for those trucks that we do operate. These regulations cover the transportation of hazardous materials and are administered by the U.S. Department of Transportation. We conduct ongoing training programs to help ensure that our operations are in compliance with applicable regulations.

Title to Properties, Permits and Licenses

We believe we have all of the assets needed, including leases, permits and licenses, to operate our business in all material respects. With respect to any consents, permits or authorizations that have not been obtained, we believe that the failure to obtain these consents, permits or authorizations will have

Table of Contents

no material adverse effect on our financial position, results of operations or cash available for distribution to our unitholders.

We believe we have satisfactory title to all of our assets. Title to property may be subject to encumbrances. We believe that none of these encumbrances will materially detract from the value of our properties or from our interest in these properties, nor will they materially interfere with the use of these properties in the operation of our business.

The name GLOBAL, our logos and the name Global Petroleum Corp. are trademarks of Global Companies LLC. In addition, we have trademarks for our premium fuels and additives, Diesel One®, Heating Oil Plus and SubZero®.

Facilities

We lease office space for our principal executive office in Waltham, Massachusetts. The lease expires on December 31, 2015.

Employees

To carry out our operations, our general partner and certain of our operating subsidiaries employed 264 full-time employees as of December 31, 2011. We believe we have good relations with our employees.

Certain of the employees assigned to our terminal in Chelsea, Massachusetts are employed under collective bargaining agreements that expire in 2014. Certain of Global Petroleum Corp.'s employees at the Revere, Massachusetts facility are also employed under a collective bargaining agreement that expires in 2014. Certain of the employees assigned to our terminals in Albany, Newburgh, Glenwood Landing and Inwood, New York are employed under collective bargaining agreements that expire in 2013 (with respect to Albany and Newburgh) and 2014 (with respect to Glenwood Landing and Inwood). Certain of the employees assigned to our terminal in Oyster Bay (Commander), New York are employed under a collective bargaining agreement that expires in 2014. In May 2011, certain of the employees assigned to our terminal in Chelsea, Massachusetts elected to join the incumbent union representing other employees at this terminal. We are negotiating a collective bargaining agreement with respect to these employees. We do not believe the result of these negotiations will have a material adverse effect on our operations. In December, 2011, certain of the employees assigned to certain of our terminals in Newburgh, New York elected to join the incumbent union representing certain employees at our Glenwood Landing, Inwood and Oyster Bay, New York terminals. We are negotiating a collective bargaining agreement with respect to these employees. We do not believe the result of these negotiations will have a material adverse effect on our operations.

We have two shared services agreements, one with Global Petroleum Corp. and another with Alliance Energy LLC. The services provided among these entities by any employees shared pursuant to these agreements does not limit the ability of such employees to provide all services necessary to properly run our business. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Shared Services Agreements."

Table of Contents

Item 1A. Risk Factors.

Risks Related to Our Business

We may not have sufficient cash from operations to enable us to pay the minimum quarterly distribution or maintain distributions at current levels following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.

We may not have sufficient available cash each quarter to pay the minimum quarterly distribution or maintain distributions at current levels. The amount of cash we can distribute on our units principally depends upon the amount of cash we generate from our operations, which will fluctuate from quarter to quarter based on, among other things:

competition from other companies that sell refined petroleum products, renewable fuels, natural gas and crude oil;

demand for refined petroleum products, renewable fuels, natural gas and crude oil in the markets we serve;

absolute price levels, as well as the volatility of prices, of refined petroleum products, renewable fuels, natural gas and crude oil in both the spot and futures markets;

seasonal variation in temperatures, which affects demand for home heating oil and residual oil to the extent that it is used for space heating;

the level of our operating costs, including payments to our general partner; and

prevailing economic conditions.

In addition, the actual amount of cash we have available for distribution will depend on other factors such as:

the level of capital expenditures we make;

the restrictions contained in our credit agreement, including financial covenants, borrowing base limitations and advance rates;

our debt service requirements;

the cost of acquisitions;

fluctuations in our working capital needs;

our ability to borrow under our credit agreement to make distributions to our unitholders; and

the amount of cash reserves established by our general partner.

The amount of cash we have available for distribution to unitholders depends primarily on our cash flow and not solely on profitability.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

The amount of cash we have available for distribution depends primarily on our cash flow, including working capital borrowings, and not solely on profitability, which will be affected by non-cash items. As a result, we may make cash distributions during periods when we record losses and may not make cash distributions during periods when we record net income.

Table of Contents

We may not be able to fully implement or capitalize upon planned growth projects.

We have a number of organic growth projects that require the expenditure of significant amounts of capital. Many of these projects involve numerous regulatory, environmental, commercial and legal uncertainties that will be beyond our control. As these projects are undertaken, required approvals may not be obtained, may be delayed or may be obtained with conditions that materially alter the expected return associated with the underlying projects. Moreover, revenues associated with these organic growth projects will not increase immediately upon the expenditures of funds with respect to a particular project and these projects may be completed behind schedule or in excess of budgeted cost. We may pursue projects in anticipation of market demand that dissipates or market growth that never materializes. As a result of these uncertainties, the anticipated benefits associated with our capital projects may not be achieved.

A principal focus of our business strategy is to grow and expand our business through acquisitions. If we do not make acquisitions on economically acceptable terms, our future growth may be limited.

A principal focus of our business strategy is to grow and expand our business through acquisitions. Our ability to grow depends, in part, on our ability to make acquisitions that result in an increase in the cash generated per unit from operations. If we are unable to make these accretive acquisitions, either because we are (1) unable to identify attractive acquisition candidates or negotiate acceptable purchase contracts with them, (2) unable to obtain financing for these acquisitions on economically acceptable terms or (3) outbid by competitors, then our future growth and ability to increase distributions will be limited. Furthermore, even if we do make acquisitions that we believe will be accretive, these acquisitions may nevertheless result in a decrease in the cash generated from operations per unit.

Any acquisition involves potential risks, including, among other things:

mistaken assumptions about volumes, revenues and costs, including synergies;

an inability to integrate successfully the businesses we acquire;

an inability to hire, train or retain qualified personnel to manage and operate our business and newly acquired assets;

the assumption of unknown liabilities;

limitations on rights to indemnity from the seller;

mistaken assumptions about the overall costs of equity or debt;

the diversion of management's and employees' attention from other business concerns;

unforeseen difficulties operating in new product areas or new geographic areas; and

customer or key employee losses at the acquired businesses.

Our acquisition strategy involves risks that could reduce our ability to make distributions to our unitholders.

Even if we consummate acquisitions that we believe will be accretive, they may in fact result in no increase or even a decrease in cash available for distribution to our unitholders. Any acquisition involves potential risks, including:

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

performance from the acquired assets and businesses that is below the forecasts we used in evaluating the acquisition;

a significant increase in our indebtedness and working capital requirements;

Table of Contents

the inability to timely and effectively integrate the operations of recently acquired businesses or assets, particularly those in new geographic areas or in new lines of business;

the incurrence of substantial unforeseen environmental and other liabilities arising out of the acquired businesses or assets, including liabilities arising from the operation of the acquired businesses or assets prior to our acquisition, for which we are not indemnified or for which the indemnity is inadequate;

customer or key employee loss from the acquired businesses; and

diversion of our management's attention from other business concerns.

If any acquisitions we ultimately consummate do not generate expected increases in cash available for distribution to our unitholders, our ability to make such distributions will be reduced.

Our financial results are seasonal and generally lower in the second and third quarters of the calendar year.

Demand for some refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally higher during November through March than during April through October. We obtain a significant portion of these sales during the winter months. Therefore, our results of operations for the first and fourth calendar quarters are generally better than for the second and third quarters. With lower cash flow during the second and third calendar quarters, we may be required to borrow money in order to maintain current levels of distributions to our unitholders.

A significant decrease in demand for refined petroleum products, renewable fuels and crude oil in the areas we serve would reduce our ability to make distributions to our unitholders.

A significant decrease in demand for refined petroleum products, renewable fuels and crude oil in the areas that we serve could significantly reduce our revenues and, therefore, reduce our ability to make or increase distributions to our unitholders. Factors that could lead to a decrease in market demand for refined petroleum products, renewable fuels and crude oil include:

lower demand for refined petroleum products, including gasoline, home heating oil and residual oil, as well as for renewable fuels and crude oil, as a result of recession or other adverse economic conditions or due to high prices caused by an increase in the market price of refined petroleum products, renewable fuels and crude oil or higher fuel taxes or other governmental or regulatory actions that increase, directly or indirectly, the cost of gasoline or other refined petroleum products, renewable fuels and crude oil;

a shift by consumers to more fuel-efficient or alternative fuel vehicles or an increase in fuel economy of vehicles, whether as a result of technological advances by manufacturers, governmental or regulatory actions or otherwise; and

conversion from consumption of home heating oil or residual oil to natural gas.

Certain of our operating costs and expenses are fixed and do not vary with the volumes we store and distribute. These costs and expenses may not decrease ratably or at all should we experience a reduction in our volumes stored, distributed and sold. As a result, we may experience declines in our margin if our volumes decrease.

Table of Contents

Our financial condition and results of operations are influenced by the overall forward market for refined petroleum products, renewable fuels and crude oil, and increases and/or decreases in the prices of these products may adversely impact our financial condition, results of operations and cash available for distribution to our unitholders and the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates as well as access to trade credit.

Results from our purchasing, storing, terminalling, transporting and selling operations are influenced by prices for refined petroleum products, renewable fuels and crude oil, pricing volatility and the market for such products. Prices in the overall forward market for these products may affect our financial condition, results of operations and cash available for distribution to our unitholders. Our margins can be significantly impacted by the forward product pricing curve, often referred to as the futures market. We typically hedge our exposure to refined petroleum product and renewable fuel price moves with futures contracts and, to a lesser extent, swaps. In markets where futures prices are higher than current prices, referred to as contango, we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In markets where futures prices are lower than current prices, referred to as backwardation, inventories can depreciate in value and hedging costs are more expensive.

When prices for the products we sell rise, some of our customers may have insufficient credit to purchase supply from us at their historical purchase volumes, and their customers, in turn, may adopt conservation measures which reduce consumption, thereby reducing demand for product. Furthermore, when prices increase rapidly and dramatically, we may be unable to promptly pass our additional costs on to our customers, resulting in lower margins for us which could adversely affect our results of operations. Lastly, higher prices for the products we sell may (1) diminish our access to trade credit support and/or cause it to become more expensive and (2) decrease the amount of borrowings available for working capital under our credit agreement as a result of total available commitments, borrowing base limitations and advance rates thereunder.

In addition, when prices for the products we sell decline, our exposure to risk of loss in the event of nonperformance by our customers of our forward contracts may be increased as they and/or their customers may breach their contracts and purchase products we sell from the customer at the then lower retail market price.

Our debt levels may limit our flexibility in obtaining additional financing and in pursuing other business opportunities.

We have a significant amount of debt. As of December 31, 2011, our total debt outstanding under our credit agreement was approximately \$793.9 million. We have the ability to incur debt, including the capacity to borrow up to \$1.4 billion under our credit facilities, subject to limitations in our credit agreement. Our level of indebtedness could have important consequences to us, including the following:

our ability to obtain additional financing, if necessary, for working capital, capital expenditures, acquisitions or other purposes may be impaired or such financing may not be available on favorable terms;

covenants contained in our existing and future credit and debt arrangements will require us to meet financial tests that may affect our flexibility in planning for and reacting to changes in our business, including possible acquisition opportunities;

we will need a substantial portion of our cash flow to make principal and interest payments on our indebtedness, reducing the funds that would otherwise be available for operations, future business opportunities and distributions to unitholders;

Table of Contents

our debt level will make us more vulnerable than our competitors with less debt to competitive pressures or a downturn in our business or the economy generally; and

our debt level may limit our flexibility in responding to changing business and economic conditions.

Our ability to service our indebtedness depends upon, among other things, our financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond our control. If our operating results are not sufficient to service our current or future indebtedness, we will be forced to take actions, such as reducing distributions, reducing or delaying our business activities, acquisitions, investments and/or capital expenditures, selling assets, restructuring or refinancing our indebtedness, or seeking additional equity capital or bankruptcy protection. We may not be able to effect any of these remedies on satisfactory terms, or at all.

We may not be able to obtain funding on acceptable terms or obtain additional requested funding in excess of total commitments under our credit agreement, which could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

In the recent past, global financial markets and economic conditions were disrupted and volatile. The debt and equity capital markets were exceedingly distressed. These issues, along with significant write-offs in the financial services sector, the re-pricing of credit risk and the economic conditions, had made and, along with any other potential future economic or market uncertainties, could make it difficult to obtain funding.

As a result, the cost of raising money in the debt and equity capital markets could increase while the availability of funds from those markets could diminish. The cost of obtaining money from the credit markets could increase as many lenders and institutional investors increase interest rates, enact tighter lending standards and reduce and, in some cases, cease to provide funding to borrowers.

In addition, we may be unable to obtain adequate funding under our credit agreement because (i) one or more of our lenders may be unable to meet its funding obligations or (ii) our borrowing base under our credit agreement, as redetermined from time to time, may decrease as a result of price fluctuations, counterparty risk, advance rates and borrowing base limitations and customer nonpayment or nonperformance.

Due to these factors, we cannot be certain that funding will be available if needed and to the extent required or requested on acceptable terms. If funding is not available when needed, or is available only on unfavorable terms, we may be unable to maintain our business as currently conducted, enhance our existing business, complete acquisitions or otherwise take advantage of business opportunities or respond to competitive pressures, any of which could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Our credit agreement contains operating and financial covenants that may restrict our business and financing activities.

The operating and financial restrictions and covenants in our credit agreement and any future financing agreements could restrict our ability to finance future operations or capital needs or to engage, expand or pursue our business activities. For example, our credit agreement restricts our ability to:

grant liens;

make certain loans or investments;

incur additional indebtedness or guarantee other indebtedness;

Table of Contents

make any material change to the nature of our business or undergo a fundamental change;

make any material dispositions;

acquire another company;

enter into a merger, consolidation, sale leaseback transaction or purchase of assets;

make distributions if any potential default or event of default occurs;

modify borrowing base components and advance rates; or

make capital expenditures in excess of specified levels.

Our ability to comply with the covenants and restrictions contained in our credit agreement may be affected by events beyond our control, including prevailing economic, financial and industry conditions. If market or other economic conditions deteriorate, our ability to comply with these covenants may be impaired. If we violate any of the restrictions, covenants, ratios or tests in our credit agreement, a significant portion of our indebtedness may become immediately due and payable, and our lenders' commitment to make further loans to us may terminate. We might not have, or be able to obtain, sufficient funds to make these accelerated payments. In addition, our obligations under our credit agreement are secured by substantially all of our assets, and if we are unable to repay our indebtedness under our credit agreement, the lenders could seek to foreclose on such assets.

Restrictions in our credit agreement limit our ability to pay distributions upon the occurrence of certain events.

Our credit agreement limits our ability to pay distributions upon the occurrence of the following events, among others:

failure to pay any principal when due or any interest, fees or other amounts when due;

failure of any representation or warranty to be true and correct in any material respect;

failure to perform or otherwise comply with the covenants in the credit agreement or in other loan documents to which we are a borrower;

any default in the performance of any obligation or condition beyond the applicable grace period relating to any other indebtedness of more than \$2.0 million if the effect of the default is to permit or cause the acceleration of the indebtedness;

a judgment default for monetary judgments exceeding \$2.0 million or a default under any non-monetary judgment if such default could have a material adverse effect on us;

a change in management or ownership control; and

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

a violation of the Employee Retirement Income Security Act, or ERISA, or a bankruptcy or insolvency event involving us, our general partner or any of our subsidiaries.

Any subsequent refinancing of our current debt or any new debt could have similar restrictions. For more information regarding our credit agreement, please read Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources - Credit Agreement" and Note 8 of Notes to Consolidated Financial Statements.

We can borrow money under our credit agreement to pay distributions, which would reduce the amount of credit available to operate our business.

Our partnership agreement allows us to borrow under our credit agreement to pay distributions. Accordingly, we can make distributions on all our units even though cash generated by our operations

Table of Contents

may not be sufficient to pay such distributions. For more information, please read Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Credit Agreement" and Note 8 of Notes to Consolidated Financial Statements.

Warmer weather conditions could adversely affect our results of operations and financial condition.

Weather conditions generally have an impact on the demand for both home heating oil and residual oil. Because we supply distributors whose customers depend on home heating oil and residual oil for space heating purposes during the winter, warmer-than-normal temperatures during the first and fourth calendar quarters in the Northeast can decrease the total volume we sell and the gross profit realized on those sales.

The adoption of derivatives legislation by the United States Congress could have an adverse effect on our ability to use derivative instruments to reduce the effect of commodity prices, interest rate and other risks associated with our business.

The United States Congress recently adopted comprehensive financial reform legislation that establishes federal oversight and regulation of the over-the-counter derivatives market and entities, such as us, that participate in that market. The legislation, known as the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") was signed into law by the President on July 21, 2010 and requires the Commodities Futures Trading Commission (the "CFTC"), the SEC and other regulators to promulgate rules and regulations implementing the legislation. In December 2011, the CFTC extended temporary exemptive relief from certain swap regulation provisions of the legislation until July 16, 2012. In its rulemaking under the Dodd-Frank Act, the CFTC has issued final regulations to set position limits for certain futures and option contracts in the major energy markets and for swaps that are their economic equivalents. Certain bona fide hedging transactions or derivative instruments would be exempt from these position limits. It is not possible at this time to predict when the CFTC will make these regulations effective. The financial reform legislation may also require us to comply with margin requirements and with certain clearing and trade-execution requirements in connection with certain derivative activities, although the application of those provisions is uncertain at this time. The financial reform legislation may also require the counterparties to our derivative instruments to spin off some of their derivatives activities to a separate entity, which may not be as creditworthy as the current counterparty.

The legislation and any new regulations could significantly increase the cost of some derivative contracts (including through requirements to post collateral which could adversely affect our available liquidity), materially alter the terms of some derivative contracts, reduce the availability of some derivatives to protect against risks we encounter, reduce our ability to monetize or restructure our existing derivative contracts, and potentially increase our exposure to less creditworthy counterparties. If we reduce our use of derivatives as a result of the legislation and regulations, our results of operations may become more volatile and our cash flows may be less predictable, which could adversely affect our ability to plan for and fund capital expenditures. Finally, the legislation was intended, in part, to reduce the volatility of oil and natural gas prices, which some legislators attributed to speculative trading in derivatives and commodity instruments related to oil and natural gas. Our revenues could therefore be adversely affected if a consequence of the legislation and regulations is to lower commodity prices. Any of these consequences could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Table of Contents

Our risk management policies cannot eliminate all commodity risk, basis risk, or the impact of adverse market conditions which can adversely affect our financial condition, results of operations and cash available for distribution to our unitholders. In addition, any noncompliance with our risk management policies could result in significant financial losses.

While our hedging policies are designed to minimize commodity risk, some degree of exposure to unforeseen fluctuations in market conditions remains. For example, we change our hedged position daily in response to movements in our inventory. If we overestimate or underestimate our sales from inventory, we may be unhedged for the amount of the overestimate or underestimate. Also, significant increases in the costs of the products we sell can materially increase our costs to carry inventory. We use our credit facility as our primary source of financing to carry inventory and may be limited on the amounts we can borrow to carry inventory.

Basis risk describes the inherent market price risk created when a commodity of certain grade or location is purchased, sold or exchanged as compared to a purchase, sale or exchange of a like commodity at a different time or place. Transportation costs and timing differentials are components of basis risk. For example, we use the NYMEX to hedge our commodity risk with respect to pricing of energy products traded on the NYMEX. Physical deliveries under NYMEX contracts are made in New York Harbor. To the extent we take deliveries in other ports, such as Boston Harbor, we may have basis risk. In a backward market (when prices for future deliveries are lower than current prices), basis risk is created with respect to timing. In these instances, physical inventory generally loses value as basis declines over time. Basis risk cannot be entirely eliminated, and basis exposure, particularly in backward or other adverse market conditions, can adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

We monitor processes and procedures to prevent unauthorized trading and to maintain substantial balance between purchases and sales or future delivery obligations. We can provide no assurance, however, that these steps will detect and/or prevent all violations of such risk management policies and procedures, particularly if deception or other intentional misconduct is involved.

We are exposed to trade credit risk and risk associated with our trade credit support in the ordinary course of our business activities.

We are exposed to risks of loss in the event of nonperformance by our customers and by counterparties of our forward and futures contracts, options and swap agreements and by our suppliers. Some of our customers, counterparties and suppliers may be highly leveraged and subject to their own operating and regulatory risks. The tightening of credit in the financial markets may make it more difficult for customers and counterparties to obtain financing and, depending on the degree to which it occurs, there may be a material increase in the nonpayment and nonperformance of our customers and counterparties. Even if our credit review and analysis mechanisms work properly, we may experience financial losses in our dealings with other parties. Any increase in the nonpayment or nonperformance by our customers and/or counterparties and the nonperformance by our suppliers could reduce our ability to make distributions to our unitholders.

Additionally, our access to trade credit support could diminish and/or become more expensive. Our ability to continue to receive sufficient trade credit on commercially acceptable terms could be adversely affected by fluctuations in refined petroleum product and renewable fuel prices or disruptions in the credit markets or for any other reason.

Table of Contents

We are exposed to performance risk in our supply chain.

We rely upon our suppliers to timely produce the volumes and types of refined petroleum products, renewable fuels and crude oil for which they contract with us. In the event one or more of our suppliers does not perform in accordance with its contractual obligations, we may be required to purchase product on the open market to satisfy forward contracts we have entered into with our customers in reliance upon such supply arrangements. We may purchase refined petroleum products, renewable fuels and crude oil from a variety of suppliers under term contracts and on the spot market. In times of extreme market demand, we may be unable to satisfy our supply requirements. Furthermore, a portion of our supply comes from other countries, which could be disrupted by political events. In the event such supply becomes scarce, whether as a result of political events, natural disaster, logistical issues associated with delivery schedules or otherwise, we may not be able to satisfy our supply requirements. If any of these events were to occur, we may be required to pay more for product that we purchase on the open market, which could result in financial losses and adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

New technologies and alternative fuel sources as well as higher prices could reduce demand for our gasoline products.

Technological advances and alternative fuel sources, such as electric, hybrid or battery powered motor vehicles, may adversely affect the demand for gasoline. We could face additional competition from alternative energy sources as a result of future government-mandated controls or regulations which promote the use of alternative fuel sources. A reduction in demand for our gasoline products could have an adverse effect on our financial condition, results of operations and cash available for distributions to our unitholders. In addition, higher prices could reduce the demand for gasoline and adversely impact our gasoline sales. A reduction in gasoline sales could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Energy efficiency, new technology and alternative fuels could reduce demand for our products and adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

Increased conservation and technological advances, including installation of improved insulation and the development of more efficient furnaces and other heating devices, have adversely affected the demand for home heating oil and residual oil. Future conservation measures and technological advances in heating, conservation, energy generation or other devices might reduce demand and adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

Some of our residual oil volumes and heating oil volumes are subject to customers switching or converting to natural gas which could result in loss of customers and less demand for our products, which in turn could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Our residual oil and heating oil businesses compete for customers with suppliers of natural gas. End users who are dual-fuel users have the ability to switch between residual oil and natural gas. Other end users may elect to convert to natural gas. During a period of increasing residual oil prices relative to the prices of natural gas, dual-fuel customers may switch and other end users may convert to natural gas. Residual users of home heating oil may also convert to natural gas. Such switching or conversions could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. We could face additional competition from alternative energy sources, such as natural gas, as a result of government-mandated controls or regulation promoting the use of cleaner fuels. Residual oil consumption has steadily declined over the last three decades.

Table of Contents

Erosion of the Mobil brand could have an adverse impact on our sales of Mobil-branded gasoline.

We believe that the success of our acquisition of retail gas stations and supply rights from ExxonMobil in 2010 may be dependent, in part, upon the continuing favorable reputation of the Mobil brand. Erosion of the value of the Mobil brand could have a negative impact on our gasoline sales, which in turn may cause our acquisition to be less profitable.

Changes in government usage mandates and tax credits could adversely affect the availability and pricing of ethanol, which could negatively impact our gasoline sales.

Future demand for ethanol will be largely dependent upon the economic incentives to blend based upon the relative value of gasoline and ethanol, taking into consideration the EPA's regulations on the RFS program and oxygenate blending requirements. A reduction or waiver of the RFS mandate or oxygenate blending requirements could adversely affect the availability and pricing of ethanol, which in turn could adversely affect our future gasoline and ethanol sales.

We may not be able to obtain state fund or insurance reimbursement of our environmental remediation costs.

Where releases of refined petroleum products, renewable fuels and crude oil have occurred, federal and state laws and regulations require that contamination caused by such releases be assessed and remediated to meet applicable standards. Our obligation to remediate this type of contamination varies, depending upon applicable laws and regulations and the extent of, and the facts relating to, the release. A portion of the remediation costs may be recoverable from the reimbursement fund of the applicable state (with respect to gas stations) and/or from third party insurance after any deductible has been met, but there are no assurances that such reimbursement funds or insurance proceeds will be available to us.

Future consumer or other litigation could adversely affect our financial condition and results of operations.

Our retail gasoline and convenience store operations are characterized by a high volume of customer traffic and by transactions involving an array of products. These operations carry a higher exposure to consumer litigation risk when compared to the operations of companies operating in many other industries. Consequently, we may become a party to individual personal injury or products liability and other legal actions in the ordinary course of our retail gasoline and convenience store business. Any such action could adversely affect our financial condition and results of operations. Additionally, we are occasionally exposed to industry-wide or class action claims arising from the products we carry or industry-specific business practices. Our defense costs and any resulting damage awards or settlement amounts may not be fully covered by our insurance policies. An unfavorable outcome or settlement of one or more of these lawsuits could have a material adverse effect on our financial condition, results of operations and cash available for distributions.

We depend upon a small number of suppliers for a substantial portion of our convenience store merchandise inventory. A disruption in supply or an unexpected change in our relationships with our principal merchandise suppliers could have an adverse effect on our convenience store results of operations.

We purchase convenience store merchandise inventory from a small number of suppliers for our directly operated convenience stores. A change of merchandise suppliers, a disruption in supply or a significant change in our relationships with our principal merchandise suppliers could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Table of Contents

We face intense competition in our purchasing, terminalling, transporting and storage activities. Competition from other providers of refined petroleum products, renewable fuels, crude oil and natural gas that are able to supply our customers with those products and services at a lower price and have capital resources many times greater than ours could reduce our ability to make distributions to our unitholders.

We are subject to competition from other refined petroleum product distributors and suppliers of renewable fuels, crude oil and natural gas that may be able to supply our customers with the same or comparable products and terminalling, transporting and storage services on a more competitive basis. We compete with terminal companies, major integrated oil companies and their marketing affiliates and independent marketers of varying sizes, financial resources and experience. Some of these competitors are substantially larger than us, have greater financial resources and control greater supplies of refined petroleum products, renewable fuels, natural gas and crude oil than we do. If we are unable to compete effectively, we may lose existing customers or fail to acquire new customers, which could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. For example, if a competitor attempts to increase market share by reducing prices, our operating results and cash available for distribution to our unitholders could be adversely affected. We may not be able to compete successfully with these companies, and our ability to compete could be harmed by factors including, but not limited to, price competition and the availability of alternative and less expensive fuels.

We may not be able to renew our leases or our agreements for dedicated storage when they expire.

The bulk terminals we own or lease or at which we maintain dedicated storage facilities play a key role in moving product to our customers. We lease the entirety of two bulk terminals that we operate exclusively for our business and maintain dedicated storage facilities at another seven bulk terminals. The agreements governing these arrangements are subject to expiration at various dates through 2019. These arrangements may not be renewed when they expire or, if renewed, may not be renewed at rates and on terms at least as favorable. If these agreements are not renewed or we are unable to renew these agreements at rates and on terms at least as favorable, it could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

A material amount of our terminalling capacity is controlled by one of our affiliates. Loss of that capacity could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

We currently have an exclusive throughput arrangement for a terminal located in Revere, Massachusetts with one of our affiliates, Global Petroleum Corp. (which entity is owned by Alfred A. Slifka and Richard Slifka). As of December 31, 2011, this facility accounted for approximately 21% of our storage capacity. We store distillates and gasoline at this facility. The throughput agreement for this facility expires in 2014. After expiration of the agreement, we can provide no assurance that Global Petroleum Corp. will continue to grant us exclusive use of the terminal or that the terms of a renegotiated agreement will be as favorable to us as the agreement it replaces. If we are unable to renew the agreement or unable to renew on terms at least as favorable, it could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Some of our sales are generated under contracts that must be renegotiated or replaced periodically. If we are unable to successfully renegotiate or replace these contracts, our financial condition, results of operations and cash available for distribution to our unitholders could be adversely affected.

Most of our arrangements with our customers are for a single season or on a spot basis. As these contracts expire, they must be renegotiated or replaced. We may be unable to renegotiate or replace these contracts when they expire, and the terms of any renegotiated contracts may not be as favorable as the contracts they replace. Whether these contracts are successfully renegotiated or replaced is often

Table of Contents

subject to factors beyond our control. Such factors include fluctuations in refined petroleum product, renewable fuel and natural gas prices, counterparty ability to pay for or accept the contracted volumes and a competitive marketplace for the services offered by us. If we cannot successfully renegotiate or replace our contracts or renegotiate or replace them on less favorable terms, sales from these arrangements could decline, and our financial condition, results of operations and cash available for distribution to our unitholders could be adversely affected.

Due to our lack of asset and geographic diversification, adverse developments in the terminals we use or in our operating areas would reduce our ability to make distributions to our unitholders.

We rely primarily on sales generated from products distributed from the terminals we own or control or to which we have access. Furthermore, the majority of our assets and operations are located in the Northeast. Due to our lack of diversification in asset type and location, an adverse development in these businesses or areas, including adverse developments due to catastrophic events or weather and decreases in demand for refined petroleum products, renewable fuels and crude oil, could have a significantly greater impact on our results of operations and cash available for distribution to our unitholders than if we maintained more diverse assets and locations.

Our operations are subject to operational hazards and unforeseen interruptions for which we may not be adequately insured.

We are not fully insured against all risks incident to our business. Our operations are subject to operational hazards and unforeseen interruptions such as natural disasters, adverse weather, accidents, fires, explosions, hazardous materials releases, mechanical failures, disruptions in supply infrastructure or logistics and other events beyond our control. If any of these events were to occur, we could incur substantial losses because of personal injury or loss of life, severe damage to and destruction of property and equipment, and pollution or other environmental damage resulting in curtailment or suspension of our related operations.

Furthermore, we may be unable to maintain or obtain insurance of the type and amount we desire at reasonable rates. As a result of market conditions, premiums and deductibles for certain of our insurance policies have increased and could escalate further. In some instances, certain insurance could become unavailable or available only for reduced amounts of coverage. If we were to incur a significant liability for which we are not fully insured, it could have a material adverse effect on our financial condition, results of operations and cash available for distribution to unitholders.

New, stricter environmental laws and regulations could significantly increase our costs, which could adversely affect our results of operations and financial condition.

Our operations are subject to federal, state and local laws and regulations regulating product quality specifications and other environmental matters. The trend in environmental regulation is towards more restrictions and limitations on activities that may affect the environment. Our business may be adversely affected by increased costs and liabilities resulting from such stricter laws and regulations. We try to anticipate future regulatory requirements that might be imposed and plan accordingly to remain in compliance with changing environmental laws and regulations and to minimize the costs of such compliance. However, there can be no assurances as to the timing and type of such changes in existing laws or the promulgation of new laws or the amount of any required expenditures associated therewith.

Our terminalling operations are subject to federal, state and local laws and regulations relating to environmental protection and operational safety that could require us to incur substantial costs.

The risk of substantial environmental costs and liabilities is inherent in terminal operations, and we may incur substantial environmental costs and liabilities. Our terminalling operations involving the

Table of Contents

receipt, storage and redelivery of refined petroleum products, renewable fuels and crude oil are subject to stringent federal, state and local laws and regulations governing the discharge of materials into the environment, or otherwise relating to the protection of the environment, operational safety and related matters. Compliance with these laws and regulations increases our overall cost of business, including our capital costs to maintain and upgrade equipment and facilities. We utilize a number of terminals that are owned and operated by third parties who are also subject to these stringent federal, state and local environmental laws in their operations. Their compliance with these requirements could increase the cost of doing business with these facilities.

In addition, our operations could be adversely affected if shippers of refined petroleum products, renewable fuels and crude oil incur additional costs or liabilities associated with environmental regulations. These shippers could increase their charges to us or discontinue service altogether.

Various governmental authorities, including the EPA, have the power to enforce compliance with these regulations and the permits issued under them, and violators are subject to administrative, civil and criminal penalties, including fines, injunctions or both. Joint and several liability may be incurred, without regard to fault or the legality of the original conduct, under federal and state environmental laws for the remediation of contaminated areas at our facilities and those where we do business. Private parties, including the owners of properties located near our terminal facilities and those with whom we do business, also may have the right to pursue legal actions against us to enforce compliance with environmental laws, as well as seek damages for personal injury or property damage. We may also be held liable for damages to natural resources.

The possibility exists that new, stricter laws, regulations or enforcement policies could significantly increase our compliance costs and the cost of any remediation that may become necessary, some of which may be material. Our insurance may not cover all environmental risks and costs or may not provide sufficient coverage in the event an environmental claim is made against us. We may incur increased costs because of stricter pollution control requirements or liabilities resulting from noncompliance with required operating or other regulatory permits. New environmental regulations, such as those related to the emissions of greenhouse gases, might adversely affect our products and activities, including the storage of refined petroleum products, renewable fuels and crude oil, as well as waste management and our control of air emissions. Enactment of laws and passage of regulations regarding GHG emissions, or other actions to limit carbon dioxide emissions may reduce demand for fossil fuels and impact our business. Federal and state agencies also could impose additional safety regulations to which we would be subject. Because the laws and regulations applicable to our operations are subject to change, we cannot provide any assurance that compliance with future laws and regulations will not have a material effect on our results of operations.

Increased regulation of greenhouse gas emissions could result in increased operating costs and reduced demand for refined petroleum products as a fuel source, which could reduce demand for our products, decrease our revenues and reduce our profitability.

Combustion of fossil fuels, such as the refined petroleum products we sell, results in the emission of carbon dioxide into the atmosphere. On December 15, 2009, the EPA published its findings that emissions of carbon dioxide and other greenhouse gases present an endangerment to public health and the environment because emissions of such gases are, according to the EPA, contributing to warming of the earth's atmosphere and other climatic changes, and the EPA has begun to regulate GHG emissions pursuant to the Clean Air Act. In addition, it is possible federal legislation could be adopted in the future to restrict GHG, as President Obama has expressed support for a mandatory cap and trade program to restrict or regulate emissions of greenhouse gases, and Congress considered various proposals to reduce GHG emissions. Many states and regions have adopted GHG initiatives. Please read "Item 1. Business Environmental Air Emissions."

Table of Contents

There are many regulatory approaches currently in effect or being considered to address greenhouse gases, including possible future U.S. treaty commitments, new federal or state legislation that may impose a carbon emissions tax or establish a cap-and-trade program and regulation by the EPA. Future international, federal and state initiatives to control carbon dioxide emissions could result in increased costs associated with refined petroleum products consumption, such as costs to install additional controls to reduce carbon dioxide emissions or costs to purchase emissions reduction credits to comply with future emissions trading programs. Such increased costs could result in reduced demand for refined petroleum products and some customers switching to alternative sources of fuel which could have a material adverse effect on our financial condition, results of operations and cash available for distributions to our unitholders.

We are subject to federal, state and local laws and regulations that govern the product quality specifications of the refined petroleum products renewable fuels we purchase, store, transport and sell.

Various federal, state and local government agencies have the authority to prescribe specific product quality specifications to the sale of commodities. Our business includes such commodities. Changes in product quality specifications, such as reduced sulfur content in refined petroleum products, or other more stringent requirements for fuels, could reduce our ability to procure product and our sales volume, require us to incur additional handling costs and/or require the expenditure of capital. For instance, different product specifications for different markets could require additional storage. If we are unable to procure product or recover these costs through increased sales, we may not be able to meet our financial obligations. Failure to comply with these regulations could result in substantial penalties.

We are subject to federal and state environmental regulations which could have a material adverse effect on our retail operations business.

Our retail operations are subject to extensive federal, state and local laws and regulations, including those relating to the protection of the environment, waste management, discharge of hazardous materials, pollution prevention, as well as laws and regulations relating to public safety and health. Certain of these laws and regulations may require assessment or remediation efforts. Retail operations with underground storage tanks ("USTs") are subject to federal and state regulations and legislation. Compliance with existing and future environmental laws regulating underground storage tanks may require significant capital expenditures and increased operating and maintenance costs. The operation of USTs also poses certain other risks, including damages associated with soil and groundwater contamination. Leaks from USTs which may occur at one or more of our gas stations may impact soil or groundwater and could result in fines or civil liability for us. We may be required to make material expenditures to modify operations, perform site cleanups or curtail operations.

We are subject to federal and state non-environmental regulations which could have an adverse effect on our convenience store business and results of operations.

Our convenience store business is subject to extensive governmental laws and regulations that include, but are not limited to, legal restrictions on the sale of alcohol, tobacco and lottery products, food safety and health requirements and public accessibility. Furthermore, state and local regulatory agencies have the power to approve, revoke, suspend, or deny applications for and renewals of permits and licenses relating to the sale of alcohol, tobacco and lottery products or to seek other remedies. A violation of or change in such laws and/or regulations could have an adverse effect on our convenience store business and results of operations.

Table of Contents

Any terrorist attacks aimed at our facilities and any global and domestic economic repercussions from terrorist activities and the government's response could adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.

Since the September 11, 2001 terrorist attacks on the United States, the U.S. government has issued warnings that energy assets may be future targets of terrorist organizations. These developments have subjected our operations to increased risks. We incurred costs for providing facility security and may incur additional costs in the future with respect to the receipt, storage and distribution of our products. Additional security measures could also restrict our ability to distribute refined petroleum products, renewable fuels and crude oil. Any future terrorist attack on our facilities, or those of our customers, could have a material adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Terrorist activity could lead to increased volatility in prices for home heating oil, gasoline and other products we sell, which could decrease our customers' demand for these products. Insurance carriers are required to offer coverage for terrorist activities as a result of federal legislation. We purchased this coverage with respect to our property and casualty insurance programs. This additional coverage resulted in additional insurance premiums which could increase further in the future.

We depend on key personnel for the success of our business.

We depend on the services of our senior management team and other key personnel. The loss of the services of any member of senior management or key employee could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. We may not be able to locate or employ on acceptable terms qualified replacements for senior management or other key employees if their services were no longer available.

Certain executive officers of our general partner perform services for certain of our affiliates pursuant to shared services agreements. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Relationship of Management with Global Petroleum Corp. and Alliance Energy LLC."

We depend on unionized labor for the operation of certain of our terminals and at the facility in Revere, Massachusetts which is controlled and operated by one of our affiliates. Any work stoppages or labor disturbances at these facilities could disrupt our business.

Any work stoppages or labor disturbances by our unionized labor force at our facilities could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. In addition, employees who are not currently represented by labor unions may seek representation in the future, and any renegotiation of collective bargaining agreements may result in terms that are less favorable to us.

We rely on our information technology systems to manage numerous aspects of our business, and a disruption of these systems could adversely affect our business.

We depend on our information technology ("IT") systems to manage numerous aspects of our business and to provide analytical information to management. Our IT systems are an essential component of our business and growth strategies, and a serious disruption to our IT systems could significantly limit our ability to manage and operate our business efficiently. These systems are vulnerable to, among other things, damage and interruption from power loss or natural disasters, computer system and network failures, loss of telecommunication services, physical and electronic loss of data, security breaches and computer viruses. We have a disaster recovery plan in place, but this plan may not entirely prevent delays or other complications that could arise from an IT systems failure. Any failure or interruption in our IT systems could have a negative impact on our operating results, cause our business and competitive position to suffer and damage our reputation.

Table of Contents

If we fail to maintain an effective system of internal controls, then we may not be able to accurately report our financial results or prevent fraud. As a result, current and potential unitholders could lose confidence in our financial reporting, which would harm our business and the trading price of our common units.

Effective internal controls are necessary for us to provide reliable financial reports, prevent fraud and operate successfully as a public company. If our efforts to maintain internal controls are not successful or if we are unable to maintain adequate controls over our financial processes and reporting in the future or if we are unable to comply with our obligations under Section 404 of the Sarbanes-Oxley Act of 2002, our operating results could be harmed or we may fail to meet our reporting obligations. Ineffective internal controls also could cause investors to lose confidence in our reported financial information, which would likely have a negative effect on the trading price of our common units.

Risks Related to our Structure

Our general partner and its affiliates have conflicts of interest and limited fiduciary duties, which may permit them to favor their own interests to the detriment of our unitholders.

As of March 5, 2012, affiliates of our general partner, including directors and executive officers of our general partner, owned 41.5% of our common units and our 0.83% general partner interest. Although our general partner has a fiduciary duty to manage us in a manner beneficial to us and our unitholders, the directors and officers of our general partner have a fiduciary duty to manage our general partner in a manner beneficial to its owners. Furthermore, certain directors and officers of our general partner are directors or officers of affiliates of our general partner. Conflicts of interest may arise between our general partner and its affiliates, on the one hand, and us and our unitholders, on the other hand. As a result of these conflicts, our general partner may favor its own interests and the interests of its affiliates over the interests of our unitholders. Please read " Our partnership agreement limits our general partner's fiduciary duties to unitholders and restricts the remedies available to unitholders for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty." These conflicts include, among others, the following situations:

Our general partner is allowed to take into account the interests of parties other than us, such as affiliates of its members, in resolving conflicts of interest, which has the effect of limiting its fiduciary duty to our unitholders.

Affiliates of our general partner may engage in competition with us under certain circumstances. See " Certain members of the Slifka family and their affiliates may engage in activities that compete directly with us."

Neither our partnership agreement nor any other agreement requires owners of our general partner to pursue a business strategy that favors us. Directors and officers of our general partner's owners have a fiduciary duty to make these decisions in the best interest of such owners which may be contrary to our interests.

Some officers of our general partner who provide services to us devote time to affiliates of our general partner.

Our general partner has limited its liability and reduced its fiduciary duties under the partnership agreement, while also restricting the remedies available to our unitholders for actions that, without these limitations, might constitute breaches of fiduciary duty. As a result of purchasing common units, unitholders consent to some actions and conflicts of interest that might otherwise constitute a breach of fiduciary or other duties under applicable state law.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

Our general partner determines the amount and timing of asset purchases and sales, borrowings, issuances of additional partnership securities and reserves, each of which can affect the amount of cash available for distribution to our unitholders.

Our general partner determines the amount and timing of any capital expenditures and whether a capital expenditure is a maintenance capital expenditure, which reduces distributable cash flow, or a capital expenditure for acquisitions or capital improvements, which does not, and determination can affect the amount of cash distributed to our unitholders.

In some instances, our general partner may cause us to borrow funds in order to permit the payment of cash distributions, even if the purpose or effect of the borrowing is to make incentive distributions.

Our general partner determines which costs incurred by it and its affiliates are reimbursable by us.

Our partnership agreement does not restrict our general partner from causing us to pay it or its affiliates for any services rendered on terms that are fair and reasonable to us or entering into additional contractual arrangements with any of these entities on our behalf.

Our general partner intends to limit its liability regarding our contractual and other obligations.

Our general partner may exercise its limited right to call and purchase common units if it and its affiliates own more than 80% of the common units.

Our general partner controls the enforcement of obligations owed to us by it and its affiliates.

Our general partner decides whether to retain separate counsel, accountants or others to perform services for us.

Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Omnibus Agreement."

Our partnership agreement limits our general partner's fiduciary duties to unitholders and restricts the remedies available to unitholders for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty.

Our partnership agreement contains provisions that reduce the standards to which our general partner would otherwise be held by state fiduciary duty law. For example, our partnership agreement:

permits our general partner to make a number of decisions in its individual capacity, as opposed to in its capacity as our general partner. This entitles our general partner to consider only the interests and factors that it desires, and it has no duty or obligation to give any consideration to any interest of, or factors affecting, us, our affiliates or any limited partner. Examples include the exercise of its limited call right, its voting rights with respect to the units it owns, its registration rights and its determination whether or not to consent to any merger or consolidation of us;

provides that our general partner shall not have any liability to us or our unitholders for decisions made in its capacity as general partner so long as it acted in good faith, meaning it believed that the decision was in our best interests;

generally provides that affiliated transactions and resolutions of conflicts of interest not approved by the conflicts committee of the board of directors of our general partner and not involving a vote of unitholders must be on terms no less favorable to us than those generally being provided to or available from unrelated third parties or be "fair and reasonable" to us and that,

in determining whether a transaction or resolution is "fair and reasonable," our general

Table of Contents

partner may consider the totality of the relationships between the parties involved, including other transactions that may be particularly advantageous or beneficial to us; and

provides that our general partner and its officers and directors will not be liable for monetary damages to us, our limited partners or assignees for any acts or omissions unless there has been a final and non-appealable judgment entered by a court of competent jurisdiction determining that the general partner or those other persons acted in bad faith or engaged in fraud or willful misconduct.

By purchasing a common unit, a common unitholder will become bound by the provisions of the partnership agreement, including the provisions described above.

Unitholders have limited voting rights and are not entitled to elect our general partner or its directors or remove our general partner without its consent, which could lower the trading price of our common units.

Unlike the holders of common stock in a corporation, unitholders have only limited voting rights on matters affecting our business and, therefore, limited ability to influence management's decisions regarding our business. Unitholders have no right to elect our general partner or its board of directors on an annual or other continuing basis. The board of directors of our general partner is chosen entirely by its members and not by the unitholders. Furthermore, if the unitholders are dissatisfied with the performance of our general partner, they have limited ability to remove our general partner. As a result of these limitations, the price at which the common units trade could diminish because of the absence or reduction of a takeover premium in the trading price.

The unitholders are currently unable to remove our general partner without its consent because affiliates of our general partner own sufficient units to be able to prevent removal of our general partner. The vote of the holders of at least 66²/₃% of all outstanding common units voting is required to remove our general partner. As of March 5, 2012, affiliates of our general partner, including directors and executive officers of our general partner, own 41.5% of our common units.

We may issue additional units without unitholder approval, which would dilute unitholders' ownership interests.

At any time, we may issue an unlimited number of limited partner interests of any type without the approval of our unitholders. The issuance by us of additional common units or other equity securities of equal or senior rank will have the following effects:

our unitholders' proportionate ownership interest in us will decrease;

the amount of cash available for distribution on each unit may decrease;

the relative voting strength of each previously outstanding unit may be diminished; and

the market price of the common units may decline.

The market price of our common units could be adversely affected by sales of substantial amounts of our common units, including sales by our existing unitholders.

As of March 5, 2012, we had 27,430,563 common units outstanding. A substantial number of our securities may be sold in the future either pursuant to Rule 144 under the Securities Act of 1933 (the "Securities Act") or pursuant to a registration statement filed with the SEC. Rule 144 under the Securities Act provides that after a holding period of six months, non-affiliates may resell restricted securities of reporting companies, provided that current public information for the reporting company is available. After a holding period of one year, non-affiliates may resell without restriction, and affiliates may resell in compliance with the volume, current public information and manner of sale requirements of Rule 144. Pursuant to our partnership agreement, members of the Slifka family have

Table of Contents

registration rights with respect to the common units owned by them. Pursuant to the Registration Rights Agreement, AE Holdings has registration rights with respect to units issued in connection with the Alliance acquisition.

Sales by any of our existing unitholders of a substantial number of our common units, or the perception that such sales might occur, could have a material adverse effect on the price of our common units or could impair our ability to obtain capital through an offering of equity securities.

In recent years, the securities market has experienced extreme price and volume fluctuations. This volatility has had a significant effect on the market price of securities issued by many companies for reasons unrelated to the operating performance of these companies. Future market fluctuations may result in a lower price of our common units.

An increase in interest rates may cause the market price of our common units to decline.

Like all equity investments, an investment in our common units is subject to certain risks. In exchange for accepting these risks, investors may expect to receive a higher rate of return than would otherwise be obtainable from lower-risk investments. Accordingly, as interest rates rise, the ability of investors to obtain higher risk-adjusted rates of return by purchasing government-backed debt securities may cause a corresponding decline in demand for riskier investments generally, including yield-based equity investments such as publicly-traded limited partnership interests. Reduced demand for our common units resulting from investors seeking other more favorable investment opportunities may cause the trading price of our common units to decline.

Our general partner has a limited call right that may require unitholders to sell their common units at an undesirable time or price.

If at any time our general partner and its affiliates own more than 80% of the common units, our general partner will have the right, but not the obligation, which it may assign to any of its affiliates or to us, to acquire all, but not less than all, of the common units held by unaffiliated persons at a price not less than their then-current market price. As a result, unitholders may be required to sell their common units at an undesirable time or price and may not receive any return on their investment. Unitholders may also incur a tax liability upon a sale of their units. Our general partner is not obligated to obtain a fairness opinion regarding the value of the common units to be repurchased by it upon exercise of the limited call right. There is no restriction in our partnership agreement that prevents our general partner from issuing additional common units and exercising its call right. If our general partner exercises its limited call right, the effect would be to take us private and, if the units were subsequently deregistered, we would no longer be subject to the reporting requirements of the Securities Exchange Act of 1934.

Our partnership agreement restricts the voting rights of unitholders owning 20% or more of our common units.

Our partnership agreement restricts unitholders' voting rights by providing that any units held by a person that owns 20% or more of any class of units then outstanding, other than our general partner, its affiliates, their transferees and persons who acquired such units with the prior approval of the board of directors of our general partner, cannot vote on any matter. Our partnership agreement also contains provisions limiting the ability of unitholders to call meetings or acquire information about our operations, as well as other provisions limiting the unitholders' ability to influence the manner or direction of management.

Table of Contents

Cost reimbursements due to our general partner and its affiliates will reduce cash available for distribution to our unitholders.

Prior to making any distribution on the common units, we reimburse our general partner and its affiliates for all expenses they incur on our behalf, which is determined by our general partner in its sole discretion. These expenses include all costs incurred by the general partner and its affiliates in managing and operating us, including costs for rendering corporate staff and support services to us. We are managed and operated by directors and executive officers of our general partner. In addition, the majority of our operating personnel are employees of our general partner. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence." The reimbursement of expenses and payment of fees, if any, to our general partner and its affiliates could adversely affect our ability to pay cash distributions to our unitholders.

Unitholders may not have limited liability if a court finds that unitholder action constitutes control of our business.

A general partner of a partnership generally has unlimited liability for the obligations of the partnership, except for those contractual obligations of the partnership that are expressly made without recourse to the general partner. Our partnership is organized under Delaware law, and we conduct business in a number of other states. The limitations on the liability of holders of limited partner interests for the obligations of a limited partnership have not been clearly established in some of the other states in which we do business. A unitholder could be liable for our obligations as if he were a general partner if:

a court or government agency determined that we were conducting business in a state but had not complied with that particular state's partnership statute; or

a unitholder's right to act with other unitholders to remove or replace the general partner, approve some amendments to our partnership agreement or take other actions under our partnership agreement constitute "control" of our business.

Unitholders may have liability to repay distributions.

Under certain circumstances, unitholders may have to repay amounts wrongfully returned or distributed to them. Under Delaware law, we may not make a distribution to unitholders if the distribution would cause our liabilities to exceed the fair value of our assets. Delaware law provides that for a period of three years from the date of the impermissible distribution, limited partners who received the distribution and who knew at the time of the distribution that it violated Delaware law will be liable to the limited partnership for the distribution amount. Purchasers of units who become limited partners are liable for the obligations of the transferring limited partner to make contributions to us that are known to the purchaser of units at the time it became a limited partner and for unknown obligations if the liabilities could be determined from the partnership agreement. Liabilities to partners on account of their partnership interests and liabilities that are non-recourse to us are not counted for purposes of determining whether a distribution is permitted.

The control of our general partner may be transferred to a third party without unitholder consent.

Our general partner may transfer its general partner interest to a third party in a merger or in a sale of all or substantially all of its assets without the consent of the unitholders. Furthermore, there is no restriction in the partnership agreement on the ability of the members of our general partner from transferring their respective membership interests in our general partner to a third party. The new members of our general partner would then be in a position to replace the board of directors and officers of our general partner with their own choices and control the decisions taken by the board of directors and officers of our general partner.

Table of Contents

Certain members of the Slifka family and their affiliates may engage in activities that compete directly with us.

Mr. Alfred A. Slifka, Mr. Richard Slifka and their affiliates (other than us) are subject to noncompetition provisions in the omnibus agreement and business opportunity agreement. In addition Mr. Eric Slifka's employment contains noncompetition provisions. These agreements do not prohibit Messrs. Alfred A. Slifka, Richard Slifka, Eric Slifka and certain affiliates of our general partner from owning certain assets or engaging in certain businesses that compete directly or indirectly with us. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Omnibus Agreement and Business Opportunity Agreement."

Tax Risks

Our tax treatment depends on our status as a partnership for federal income tax purposes. If the Internal Revenue Service, or IRS, were to treat us as a corporation for federal income tax purposes, our cash available for distribution to unitholders would be substantially reduced.

The anticipated after-tax economic benefit of an investment in the common units depends largely on our being treated as a partnership for federal income tax purposes. We have not requested, and do not plan to request, a ruling from the IRS on this or any other tax matter affecting us.

Despite the fact that we are a limited partnership under Delaware law, it is possible in certain circumstances for a partnership such as us to be treated as a corporation for federal income tax purposes. Although we do not believe based upon our current operations that we are so treated, a change in our business (or a change in current law) could cause us to be treated as a corporation for federal income tax purposes or otherwise subject us to taxation as an entity.

If we were treated as a corporation for federal income tax purposes, we would pay federal income tax on our taxable income at the corporate tax rate, which is currently a maximum of 35%, and would likely pay state tax at varying rates. Distributions to unitholders would generally be taxed again as corporate distributions, and no income, gains, losses, deductions or credits would flow through to unitholders. Because a tax would be imposed upon us as a corporation, our cash available for distribution to unitholders would be substantially reduced. Thus, treatment of us as a corporation would result in a material reduction in the anticipated cash flow and after-tax return to unitholders, likely causing a substantial reduction in the value of the common units.

If we were subjected to a material amount of additional entity-level taxation by individual states, it would reduce our cash available for distribution to our unitholders.

Changes in current state law may subject us to additional entity-level taxation by individual states. Because of widespread state budget deficits and other reasons, several states are evaluating ways to subject partnerships to entity-level taxation through the imposition of state income, franchise or other forms of taxation. If any state were to impose a tax upon us as an entity, the cash available for distribution to unitholders would be reduced and, therefore, adversely affect the value of an investment in our units.

Our partnership agreement provides that if a law is enacted or existing law is modified or interpreted in a manner that subjects us to additional amounts of entity-level taxation for state or local income tax purposes, the minimum quarterly distribution amount and the target distribution amounts will be adjusted to reflect the impact of that law on us.

Table of Contents

The tax treatment of publicly traded partnerships or an investment in our common units could be subject to potential legislative, judicial or administrative changes and differing interpretations, possibly on a retroactive basis.

The present federal income tax treatment of publicly traded partnerships, including us, or an investment in our common units may be modified by administrative, legislative or judicial interpretation at any time. For example, members of Congress have recently considered substantive changes to the existing federal income tax laws that would affect certain publicly traded partnerships. Any modification to the federal income tax laws and interpretations thereof may or may not be applied retroactively and could make it more difficult or impossible to meet the "qualifying income" exception for us to be treated as a partnership for U.S. federal income tax purposes, affect or cause us to change our business activities, affect the tax considerations of an investment in us, change the character or treatment of portions of our income and adversely affect an investment in our common units. Although the legislation considered would not appear to affect our tax treatment as a partnership, we are unable to predict whether similar changes, or other proposals, will ultimately be enacted. Any such changes could negatively impact the value of an investment in our common units.

Our partnership agreement provides that if a law is enacted or existing law is modified or interpreted in a manner that subjects us to taxation as a corporation or otherwise subjects us to entity-level taxation for federal income tax purposes, the minimum quarterly distribution and the target distribution amounts may be adjusted to reflect the impact of that law on us.

We have a subsidiary that is treated as a corporation for federal income tax purposes and subject to corporate-level income taxes.

We conduct all or a portion of our operations of our end-user business through a subsidiary that is organized as a corporation. In addition, prior to the acquisition of Alliance, the corporation, acting through Alliance as its management agent, engaged in the retail sale of gasoline and operated convenience stores with respect to certain of the stations we acquired from ExxonMobil and collected rents on personal property leased to dealers at other stations we acquired from ExxonMobil. Upon the completion of the Alliance acquisition, the corporation engages in the retail sale of gasoline and/or operates convenience stores with respect to certain of the stations we acquired from ExxonMobil and Alliance and collects rents on personal property leased to dealers and commissioned agents at other stations we acquired from ExxonMobil and Alliance. We may elect to conduct additional operations through this corporate subsidiary in the future. This corporate subsidiary is subject to corporate-level tax, which reduces the cash available for distribution to us and, in turn, to unitholders. If the IRS were to successfully assert that this corporation has more tax liability than we anticipate or legislation were enacted that increased the corporate tax rate, our cash available for distribution to unitholders would be further reduced.

If the IRS contests the federal income tax positions we take, the market for our common units may be adversely impacted, and the costs of any IRS contest will reduce our cash available for distribution to unitholders.

We have not requested a ruling from the IRS with respect to our treatment as a partnership for federal income tax purposes. The IRS may adopt positions that differ from the tax positions we take. It may be necessary to resort to administrative or court proceedings to sustain some or all of the positions we take. A court may not agree with the positions we take. Any contest with the IRS may materially and adversely impact the market for our common units and the price at which they trade. In addition, because the costs will be borne indirectly by our unitholders and our general partner, the costs of any contest with the IRS will result in a reduction in cash available for distribution.

Table of Contents

Unitholders may be required to pay taxes on their share of our income even if they do not receive any cash distributions from us.

Because unitholders are treated as partners to whom we allocate taxable income, which could be different in amount than the cash we distribute, unitholders may be required to pay any federal income taxes and, in some cases, state and local income taxes on their share of our taxable income even if they do not receive any cash distributions from us.

Tax gain or loss on the disposition of our common units could be more or less than expected.

If a unitholder sells his common units, he will recognize a gain or loss equal to the difference between the amount realized and his tax basis in those common units. Because distributions to a unitholder in excess of the unitholder's allocable share of our net taxable income decreases the unitholder's tax basis in his common units, the amount, if any, of such prior excess distributions with respect to the units sold will, in effect, become taxable income to him if the common units are sold at a price greater than his tax basis in the common units, even if the price he receives is less than his original cost. Furthermore, a substantial portion of the amount realized, whether or not representing gain, may be taxed as ordinary income to the unitholder due to potential recapture items, including depreciation recapture. In addition, because the amount realized includes a unitholder's share of our non-recourse liabilities, if a unitholder sells his units, he may incur a tax liability in excess of the amount of cash he receives from the sale.

Tax-exempt entities and non-U.S. persons face unique tax issues from owning our common units that may result in adverse tax consequences to them.

Investment in common units by tax-exempt entities, such as employee benefit plans, individual retirement accounts (known as IRAs), and non-U.S. persons raises issues unique to them. For example, virtually all of our income allocated to organizations exempt from federal income tax, including IRAs and other retirement plans, will be unrelated business taxable income and will be taxable to them. Distributions to non-U.S. persons will be reduced by withholding taxes imposed at the highest applicable tax rate, and non-U.S. persons will be required to file U.S. federal tax returns and pay tax on their shares of our taxable income. If you are a tax exempt entity or a non-U.S. person, you should consult your tax advisor before investing in our common units.

We treat each purchaser of our common units as having the same tax benefits without regard to the actual common units purchased. The IRS may challenge this treatment, which could adversely affect the value of the common units.

To maintain the uniformity of the economic and tax characteristics of our common units, we have adopted certain depreciation and amortization positions that may not conform to all aspects of existing Treasury Regulations. A successful IRS challenge to those positions could adversely affect the amount of taxable income or loss allocated to our unitholders. It also could affect the gain from a unitholder's sale of common units or result in audit adjustments to our unitholders' tax returns without the benefit of additional deductions. Consequently, a successful IRS challenge could have a negative impact on the value of our common units.

We prorate our items of income, gain, loss and deduction between transferors and transferees of our units each month based upon the ownership of our units on the first day of each month, instead of on the basis of the date a particular unit is transferred. The IRS may challenge this treatment, which could change the allocation of items of income, gain, loss and deduction among our unitholders.

We prorate our items of income, gain, loss and deduction between transferors and transferees of our units based upon the ownership of our units on the first day of each month, instead of on the basis

Table of Contents

of the date a particular unit is transferred. The use of this proration method may not be permitted under existing Treasury Regulations, and although the U.S. Treasury Department issued proposed Treasury Regulations allowing a similar monthly simplifying convention, such regulations are not final and do not specifically authorize the use of the proration method we have adopted. Accordingly, our counsel is unable to opine as to the validity of this method. If the IRS were to challenge our proration method or new Treasury Regulations were issued, we may be required to change the allocation of items of income, gain, loss and deduction among our unitholders.

A unitholder whose units are loaned to a "short seller" to cover a short sale of units may be considered as having disposed of those units. If so, the unitholder would no longer be treated for tax purposes as a partner with respect to those units during the period of the loan and may recognize gain or loss from the disposition.

Because a unitholder whose units are loaned to a "short seller" to cover a short sale of units may be considered as having disposed of the loaned units, he may no longer be treated for tax purposes as a partner with respect to those units during the period of the loan to the short seller and the unitholder may recognize gain or loss from such disposition. Moreover, during the period of the loan to the short seller, any of our income, gain, loss or deduction with respect to those units may not be reportable by the unitholder and any cash distributions received by the unitholder as to those units could be fully taxable as ordinary income. Unitholders desiring to assure their status as partners and avoid the risk of gain recognition from a loan to a short seller are urged to modify any applicable brokerage account agreements to prohibit their brokers from borrowing their units.

We have adopted certain valuation methodologies for U.S. federal income tax purposes that may result in a shift of income, gain, loss and deduction between our general partner and the unitholders. The IRS may challenge this treatment, which could adversely affect the value of the common units.

When we issue additional units or engage in certain other transactions, we determine the fair market value of our assets and allocate any unrealized gain or loss attributable to our assets to the capital accounts of our unitholders and our general partner. Although we may from time to time consult with professional appraisers regarding valuation matters, including the valuation of our assets, we make many of the fair market value estimates of our assets ourselves using a methodology based on the market value of our common units as a means to measure the fair market value of our assets. Our methodology may be viewed as understating the value of our assets. In that case, there may be a shift of income, gain, loss and deduction between certain unitholders and our general partner, which may be unfavorable to such unitholders. Moreover, under our current valuation methods, subsequent purchasers of common units may have a greater portion of their Internal Revenue Code Section 743(b) adjustment allocated to our tangible assets and a lesser portion allocated to our intangible assets. The IRS may challenge our valuation methods, or our allocation of the Section 743(b) adjustment attributable to our tangible and intangible assets, and allocations of income, gain, loss and deduction between our general partner and certain of our unitholders.

A successful IRS challenge to these methods or allocations could adversely affect the amount of taxable income or loss being allocated to our unitholders. It also could affect the amount of taxable gain from our unitholders' sale of common units and could have a negative impact on the value of the common units or result in audit adjustments to our unitholders' tax returns without the benefit of additional deductions.

The sale or exchange of 50% or more of our capital and profits interests during any twelve-month period will result in the termination of our partnership for federal income tax purposes.

We will be considered to have terminated as a partnership for federal income tax purposes if there is a sale or exchange of 50% or more of the total interests in our capital and profits within a twelve-month period. For purposes of determining whether the 50% threshold has been met, multiple sales of

Table of Contents

the same interest will be counted only once. Our termination would, among other things, result in the closing of our taxable year for all unitholders, which could result in us filing two tax returns for one calendar year. However, pursuant to an IRS relief procedure, the IRS may allow, among other things, a constructively terminated partnership to provide a single Schedule K-1 for the calendar year in which a termination occurs. Our termination could also result in a significant deferral of depreciation deductions allowable in computing our taxable income. In the case of a unitholder reporting on a taxable year other than a calendar year, the closing of our taxable year may also result in more than twelve months of our taxable income or loss being includable in his taxable income for the year of termination. Our termination would not affect our classification as a partnership for federal income tax purposes but instead, we would be treated as a new partnership for federal income tax purposes. If we were treated as a new partnership, we would be required to make new tax elections and could be subject to penalties if we were unable to determine that a termination occurred.

Unitholders may be subject to state and local taxes and return filing requirements in jurisdictions where they do not live as a result of investing in our common units.

In addition to federal income taxes, unitholders will likely be subject to other taxes, including state, local and non-U.S. taxes, unincorporated business taxes and estate, inheritance or intangible taxes that are imposed by the various jurisdictions in which we conduct business or own property now or in the future, even if they do not live in any of those jurisdictions. Unitholders will likely be required to file state and local income tax returns and pay state and local income taxes in some or all of these various jurisdictions. Further, unitholders may be subject to penalties for failure to comply with those requirements. As of December 31, 2011, we conducted business in 27 states, some of which impose a personal income tax as well as an income tax on corporations and other entities. We may own property or conduct business in other states or non-U.S. countries in the future. It is the unitholder's responsibility to file all U.S. federal, state, local and non-U.S. tax returns.

Item 1B. Unresolved Staff Comments.

None.

Item 3. Legal Proceedings.

General

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we do not believe that we are a party to any litigation that will have a material adverse impact on our financial condition, results of operations or cash available for distribution to our unitholders. Except as described below, we are not aware of any significant legal or governmental proceedings against us, or contemplated to be brought against us. We maintain insurance policies with insurers in amounts and with coverage and deductibles as our general partner believes are reasonable and prudent. However, we can provide no assurance that this insurance will be adequate to protect us from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

Environmental

In connection with the September 2010 acquisition of the retail gas stations from ExxonMobil, we assumed certain environmental liabilities, including ongoing environmental remediation at approximately 70 of the acquired sites and future remediation activities required by applicable federal, state or local law or regulation. Remedial action plans are in place with the applicable state regulatory agencies for the majority of these locations, including plans for soil and groundwater treatment systems at eight sites. Based on consultations with environmental engineers, our estimated cost of the

Table of Contents

remediation is expected to be approximately \$30.0 million to be expended over an extended period of time. As a result, we recorded, on an undiscounted basis, total environmental liabilities of approximately \$30.0 million. At December 31, 2011, this liability had a remaining balance of approximately \$28.2 million.

In connection with the June 2010 acquisition of three refined petroleum products terminals in Newburgh, New York from Warex Terminals Corporation, we assumed certain environmental liabilities, including certain ongoing remediation efforts. As a result, we recorded, on an undiscounted basis, a total environmental liability of approximately \$1.5 million, which was recorded as a long-term liability at December 31, 2011.

In connection with the November 2007 acquisition of ExxonMobil's Glenwood Landing and Inwood, New York terminals, we assumed certain environmental liabilities, including the remediation obligations under remedial action plans submitted by ExxonMobil to and approved by the New York Department of Environmental Conservation ("NYDEC") with respect to both terminals. As a result, we recorded, on an undiscounted basis, total environmental liabilities of approximately \$1.2 million. At December 31, 2011, this liability had a remaining balance of approximately \$404,000.

In connection with the May 2007 acquisition of ExxonMobil's Albany and Newburgh, New York and Burlington, Vermont terminals, we assumed certain environmental liabilities, including the remediation obligations under a proposed remedial action plan submitted by ExxonMobil to NYDEC with respect to the Albany, New York terminal. As a result, we recorded, on an undiscounted basis, total environmental liabilities of approximately \$8.0 million. In June 2008, we submitted a remedial action work plan to NYDEC, implementing NYDEC's conditional approval of the remedial action plan submitted by ExxonMobil. We responded to NYDEC's requests for additional information and conducted pilot tests for the remediation outlined in the work plan. Based on the results of such pilot tests, we changed our estimate and reduced the environmental liability by \$2.8 million during the fourth quarter ended December 31, 2008. In July 2009, NYDEC approved the remedial action work plan, and we signed a Stipulation Agreement with NYDEC to govern implementation of the approved plan. The remedial action work has been implemented pursuant to the approved work plan, and the post-remediation stage of operation, monitoring and maintenance has commenced and is ongoing. As a result, we changed our estimate and reduced the environmental liability by \$1.7 million during the second quarter ended June 30, 2011. At December 31, 2011, this liability had a remaining balance of approximately \$172,000.

For additional information regarding our environmental liabilities, see Note 9 of Notes to Consolidated Financial Statements included elsewhere in this report.

Other

In December 2011, certain of the employees assigned to certain of our terminals in Newburgh, New York elected to join the incumbent union representing certain employees at our Glenwood Landing, Inwood and Oyster Bay, New York terminals. We are negotiating a collective bargaining agreement with respect to these employees and do not believe the result of these negotiations will have a material adverse effect on our operations.

We received from the EPA, by letter dated November 2, 2011, a reporting requirement and testing order (the "Request for Information") for information under the Clean Air Act. The Request for Information is part of an EPA investigation to determine whether we have violated sections of the Clean Air Act at certain of our terminal locations in New England with respect to residual oil and asphalt. We are complying with the Request for Information. We do not believe that a violation has occurred nor do we believe any adverse determination in connection with such investigation would have a material impact on our operations.

Table of Contents

On June 3, 2011, a complaint was filed against Alliance in Hartford, Connecticut Superior Court under the title Syed Sons, Inc., et al. v. Alliance Energy LLC, et al., Hartford Superior Court, Docket No.: HHD-X04-CV-11-6022516 S. The complaint was filed by six dealers operating, in the aggregate, 24 properties in connection with Alliance's purchase of gas stations from ExxonMobil in February 2011 (the "Initial Connecticut Litigation"). Also named in the suit were Exxon Mobil Corporation, Citizens Bank, N.A., the Gasoline and Automotive and Service Dealers of America ("GASDA") and Michael J. Fox, the Executive Director of GASDA. The complaint alleges, among other things, failure to comply with the Connecticut franchise statute and violations of the Connecticut unfair trade practices statute. The litigation is in its early stages, and we believe it has meritorious defenses. On March 7, 2012, a complaint was filed against Alliance in Hartford, Connecticut Superior Court under the title Syed Sons, Inc., et al. v. Alliance Energy LLC. The complaint was filed by five of the six dealers as in the Initial Connecticut Litigation and was filed in connection with Alliance's acquisition by the Partnership. The complaint alleges failure to comply with the Connecticut franchise statute and violations of the Connecticut unfair trade practices statute. Alliance believes that it has meritorious defenses to the second complaint and intends to vigorously defend both lawsuits.

In May 2011, certain of the employees assigned to our terminal in Chelsea, Massachusetts elected to join the incumbent union representing other employees at this terminal. We are negotiating a collective bargaining agreement with respect to these employees and do not believe the result of these negotiations will have a material adverse effect on our operations.

In January 2011, the trustee administering the post-bankruptcy litigation trust of Lyondell Chemical Company ("Lyondell") and certain of its affiliates brought an action against us to recover payments totaling approximately \$6.0 million made to us by an affiliate of Lyondell that the trustee claims were paid shortly before the Lyondell bankruptcy and at a time when the affiliate was insolvent, allegedly permitting the avoidance or recovery of those payments pursuant to bankruptcy law. The lawsuit was vigorously defended on the grounds that payments were made by the bankruptcy debtor in the ordinary course of both its and our business and/or as contemporaneous payment for its receipt of a volume of product of a value equivalent to the payments. While we believe that we would have prevailed in this lawsuit, the lawsuit was settled in January 2012 by us making a payment to the litigation trust of \$135,000.

On February 24, 2010, the Office of the Attorney General for the State of Maine (the "Maine Attorney General") issued a subpoena to Alliance in connection with an investigation of retail motor fuel pricing. The subpoena requests a variety of information regarding Alliance's gasoline purchases and sales within the State of Maine between January 2008 and March 2010. In August 2010, Alliance provided responsive materials to the Maine Attorney General. While we cannot predict the outcome of the investigation, we do not expect that the outcome will have a material adverse effect on our operations.

Item 4. Mine Safety Disclosures

Not applicable.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Our common units trade on the New York Stock Exchange under the symbol "GLP." The closing sale price per common unit on March 5, 2012 was \$22.45. At the close of business on March 5, 2012, based upon information received from our transfer agent and brokers and nominees, we had 10,189 common unitholders, including beneficial owners of common units held in street name. The following table sets forth the range of the daily high and low sales prices per common unit as quoted on the New York Stock Exchange and the cash distributions per common unit for the periods indicated.

| | Price Range | | Cash Distribution Per Common Unit(a) |
|----------------|-------------|----------|---|
| | High | Low | |
| 2011 | | | |
| Fourth Quarter | \$ 22.71 | \$ 14.73 | \$ 0.5000(b) |
| Third Quarter | 27.20 | 16.76 | 0.5000 |
| Second Quarter | 28.08 | 21.90 | 0.5000 |
| First Quarter | 29.98 | 24.19 | 0.5000 |
| 2010 | | | |
| Fourth Quarter | \$ 27.79 | \$ 24.81 | \$ 0.5000 |
| Third Quarter | 25.42 | 21.27 | 0.4950 |
| Second Quarter | 23.10 | 18.00 | 0.4875 |
| First Quarter | 26.60 | 21.10 | 0.4875 |

(a) Represents cash distributions attributable to the quarter. Cash distributions declared in respect of a calendar quarter are paid in the following calendar quarter.

(b) The cash distribution for this quarter was paid on February 14, 2012 to unitholders of record on February 3, 2012.

We intend to make cash distributions to unitholders on a quarterly basis, although there is no assurance as to the future cash distributions since they are dependent upon future earnings, capital requirements, financial condition and other factors. Our credit agreement prohibits us from making cash distributions if any potential default or event of default, as defined in the credit agreement, occurs or would result from the cash distribution.

Within 45 days after the end of each quarter, we will distribute all of our available cash (as defined in our partnership agreement) to unitholders of record on the applicable record date. The amount of available cash is all cash on hand on the date of determination of available cash for the quarter;

less the amount of cash reserves established by our general partner to:

provide for the proper conduct of our business;

comply with applicable law, any of our debt instruments or other agreements; or

provide funds for distributions to unitholders and to our general partner for any one or more of the next four quarters.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

We will make distributions of available cash from distributable cash flow for any quarter in the following manner: 99.17% to the common unitholders, pro rata, and 0.83% to the general partner, until we distribute for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter; and thereafter, cash in excess of the minimum quarterly distribution is distributed to the unitholders and the general partner based on the percentages as provided below.

As holder of the incentive distribution rights, the general partner is entitled to incentive distributions if the amount we distribute with respect to any quarter exceeds specified target levels shown below:

| | Total Quarterly Distribution Target Amount | Marginal Percentage Interest in Distributions | |
|--------------------------------|---|--|-----------------|
| | | Unitholders | General Partner |
| Minimum Quarterly Distribution | \$0.4625 | 99.17% | 0.83% |
| First Target Distribution | \$0.4625 | 99.17% | 0.83% |
| Second Target Distribution | above \$0.4625 up to \$0.5375 | 86.17% | 13.83% |
| Third Target Distribution | above \$0.5375 up to \$0.6625 | 76.17% | 23.83% |
| Thereafter | above \$0.6625 | 51.17% | 48.83% |

The equity compensation plan information required by Item 201(d) of Regulation S-K in response to this item is incorporated by reference from Item 12, "Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters Equity Compensation Plan Table."

Recent Sales of Unregistered Securities

On February 16, 2011, based upon satisfying certain distribution and performance tests provided in our partnership agreement, all 5,642,424 subordinated units converted to common units.

Issuer Purchases of Equity Securities

We did not repurchase any of our common units during the quarter ended December 31, 2011.

Item 6. Selected Financial Data.

The following table presents selected historical financial and operating data of Global Partners LP for the years and as of the dates indicated. The selected historical financial data is derived from the historical consolidated financial statements of Global Partners LP.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

This table should be read in conjunction with Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the historical consolidated financial statements of Global Partners LP and the notes thereto included elsewhere in this report. In addition, this table presents non-GAAP financial measures which we use in our business. These measures are not calculated or presented in accordance with generally accepted accounting principles in the United States ("GAAP"). We explain these measures and present reconciliations to their most directly comparable financial measures calculated in accordance with GAAP in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Operations Key Performance Indicators."

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of financial condition and results of operations of Global Partners LP should be read in conjunction with the historical consolidated financial statements of Global Partners LP and the notes thereto included elsewhere in this report.

Overview

General

We own, control or have access to one of the largest terminal networks of refined petroleum products and renewable fuels in the Northeast. We are one of the largest wholesale distributors of gasoline (including blendstocks such as ethanol and naphtha), distillates (such as home heating oil, diesel and kerosene), residual oil and renewable fuels to wholesalers, retailers and commercial customers in the New England states and New York. We own and supply fuel to Mobil-branded retail gas stations in the New England states (except Connecticut) and also supply Mobil-branded fuel in those same states to independently-owned stations and to other Mobil distributors. On March 1, 2012, we acquired Alliance, a gasoline distributor and operator of gasoline stations and convenience stores. Alliance's portfolio includes approximately 540 gasoline stations in New England, New York, New Jersey and Pennsylvania. Alliance owns or has long-term leases on approximately 253 sites and has supply contracts for the remaining stations. With the completion of the acquisition, we now have a portfolio of approximately 800 owned, leased or supplied gas stations, expanding our geographic footprint for such stations to include Connecticut, Maine, New Jersey, New York and Pennsylvania. In addition, while our existing stations are flying the Mobil flag, Alliance is a top-tier distributor of multiple brands, including Exxon, Mobil, Shell, Sunoco, CITGO and Gulf. Please read Part I, Item 1. "Business Recent Development Acquisition of Alliance Energy LLC, for additional information.

We sold approximately \$14.8 billion of refined petroleum products, renewable fuels and small amounts of natural gas and crude oil for the year ended December 31, 2011. In addition, we had other revenues of approximately \$58.8 million, primarily from convenience store sales at our directly operated stores and gas station rental income. As of December 31, 2011, we owned, leased or maintained dedicated storage facilities at 23 refined petroleum product bulk terminals, each with the capacity of more than 50,000 barrels, including 22 located throughout the Northeast, that are supplied primarily by marine transport, pipeline, rail and/or truck and that collectively have approximately 10.2 million barrels of storage capacity. Additionally, we have storage capacity at our Albany, New York terminal to store crude oil and at select locations to store renewable fuels. We also have throughput and exchange agreements at numerous bulk terminals and inland storage facilities. In addition, we have storage agreements at several of our terminals granting storage rights to third parties for which we receive a fee.

We purchase our refined petroleum products, renewable fuels and crude oil primarily from domestic and foreign refiners and ethanol producers, major and independent oil companies and trading companies and sell these products in two reporting segments, Wholesale and Commercial. Like most independent marketers, we base our pricing on spot prices, fixed prices or indexed prices and routinely use the NYMEX, CME, ICE or other counterparties to hedge our commodity risk inherent in buying and selling commodities. Through the use of regulated exchanges or derivatives, we seek to maintain a position that is substantially balanced between purchased volumes and sales volumes or future delivery obligations. We earn a margin by selling the product for physical delivery to third parties.

Products and Operational Structure

Our products primarily include gasoline, distillates, residual oil, renewable fuels, natural gas and crude oil. We sell gasoline to branded and unbranded retail gasoline stations and other resellers of transportation fuels. The distillates we sell are used primarily for fuel for trucks and off-road

Table of Contents

construction equipment and for space heating of residential and commercial buildings. We sell residual oil to major housing units, such as public housing authorities, colleges and hospitals and large industrial facilities that use processed steam in their manufacturing processes. In addition, we sell bunker fuel, which we can custom blend, to cruise ships, bulk carriers and fishing fleets. We sell our natural gas to end users and crude oil to refiners. We have increased our sales in the non-weather sensitive components of our business, such as transportation fuels; however, we are still subject to the impact that warmer weather conditions may have on our home heating oil and residual oil sales.

Our business is divided into the following segments:

Wholesale. This reportable segment includes sales of gasoline (including blendstocks such as ethanol and naphtha) and diesel to unbranded and Mobil-branded retail gasoline stations and other resellers of transportation fuels and home heating oil, diesel, kerosene and residual oil to home heating oil retailers and wholesale distributors. We also sell crude oil to refiners. In 2011, a de minimis amount of crude oil sales was included in this segment.

Commercial. This reportable segment includes sales and deliveries to end user customers in the public sector and to large commercial and industrial end users of unbranded gasoline, home heating oil, diesel, kerosene, residual oil, renewable fuels and a small amount of natural gas. In the case of commercial and industrial end user customers, we sell our products primarily either through a competitive bidding process or through contracts of various terms. Our commercial segment also includes sales of Mobil-branded gasoline to end users at our directly operated gas stations. This segment also includes sales of custom blended distillates and residual oil delivered by barges or from a terminal dock through bunkering activity.

All Other. All other includes convenience store, car wash and other ancillary sales at our directly operated stores and rental income from our dealer leased retail gas stations. Our convenience store and rental income sales individually and in the aggregate are not material to our consolidated results and, therefore, are aggregated into an "All Other" segment for disclosure purposes.

Our business is substantially comprised of purchasing, storing, terminalling, transporting and selling refined petroleum products, renewable fuels and crude oil. In a contango market (when product prices for future deliveries are higher than for current deliveries), we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In a backward market (when product prices for future deliveries are lower than current deliveries), inventories can depreciate in value and hedging costs are more expensive. For this reason, we attempt to reduce our inventories in order to minimize these effects. See Part I, Item 1A, "Risk Factors Risks Related to Our Business," for additional information related to commodity risk.

Outlook

This section identifies certain risks and certain economic or industry-wide factors that may affect our financial performance and results of operations in the future, both in the short term and in the long term. Our results of operations and financial condition depend, in part, upon the following:

Our financial condition and results of operations are influenced by the overall forward market for refined petroleum products, renewable fuels and crude oil, and increases and/or decreases in the prices of these products may adversely impact our financial condition, results of operations and cash available for distribution to our unitholders and the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates as well as access to trade credit. Results from our purchasing, storing, terminalling, transporting and selling operations are influenced by prices for these products, pricing volatility

Table of Contents

and the market for such products. Prices in the overall forward market for these products may affect our financial condition, results of operations and cash available for distribution to our unitholders. Our margins can be significantly impacted by the forward product pricing curve, often referred to as the futures market. We typically hedge our exposure to refined petroleum product and renewable fuel price moves with futures contracts and, to a lesser extent, swaps. In markets where futures prices are higher than current prices, referred to as contango, we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In markets where futures prices are lower than current prices, referred to as backwardation, inventories can depreciate in value and hedging costs are more expensive. For this reason, we attempt to reduce our inventories in order to minimize these effects. When prices the products we sell rise, some of our customers may have insufficient credit to purchase supply from us at their historical purchase volumes, and their customers, in turn, may adopt conservation measures which reduce consumption, thereby reducing demand for product. Furthermore, when prices increase rapidly and dramatically, we may be unable to promptly pass our additional costs on to our customers, resulting in lower margins for us which could adversely affect our results of operations. Lastly, higher prices for , the products we sell may (1) diminish our access to trade credit support and/or cause it to become more expensive and (2) decrease the amount of borrowings available for working capital under our credit agreement as a result of total available commitments, borrowing base limitations and advance rates thereunder. In addition, when prices for the products we sell decline, our exposure to risk of loss in the event of nonperformance by our customers of our forward contracts may be increased as they and/or their customers may breach their contracts and purchase the products we sell at the then lower retail market price.

We commit substantial resources to pursuing acquisitions, although there is no certainty that we will successfully complete any acquisitions or receive the economic results we anticipate from completed acquisitions. Consistent with our business strategy, we are continuously engaged in discussions with potential sellers of terminalling, storage and/or marketing assets and related businesses. Our growth largely depends on our ability to make accretive acquisitions. We may be unable to make such accretive acquisitions for a number of reasons, including, but not limited to, the following: (1) we are unable to identify attractive acquisition candidates or negotiate acceptable purchase contracts; (2) we are unable to raise financing for such acquisitions on economically acceptable terms; or (3) we are outbid by competitors. In addition, we may consummate acquisitions that at the time of consummation we believe will be accretive but that ultimately may not be accretive. If any of these events were to occur, our future growth would be limited. We can give no assurance that our acquisition efforts will be successful or that any such acquisition will be completed on terms that are favorable to us.

The condition of credit markets may adversely affect our liquidity. In the recent past, world financial markets experienced a severe reduction in the availability of credit. Possible negative impacts in the future could include a decrease in the availability of borrowings under our credit agreement, increased counterparty credit risk on our derivatives contracts and our contractual counterparties requiring us to provide collateral. In addition, we could experience a tightening of trade credit from our suppliers.

Our financial results are seasonal and generally lower in the second and third quarters of the calendar year. Demand for some refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally higher during November through March than during April through October. We obtain a significant portion of these sales during the winter months. Therefore, our results of operations for the first and fourth calendar quarters are generally better than for the second and third quarters. With lower cash flow during the second

Table of Contents

and third calendar quarters, we may be required to borrow money in order to maintain current levels of distributions to our unitholders.

Warmer weather conditions could adversely affect our results of operations and financial condition. Weather conditions generally have an impact on the demand for both home heating oil and residual oil. Because we supply distributors whose customers depend on home heating oil and residual oil for space heating purposes during the winter, warmer-than-normal temperatures during the first and fourth calendar quarters in the Northeast can decrease the total volume we sell and the gross profit realized on those sales.

Energy efficiency, higher prices, new technology and alternative fuels could reduce demand for our products. Increased conservation and technological advances have adversely affected the demand for home heating oil and residual oil. Consumption of residual oil has steadily declined over the last three decades. We could face additional competition from alternative energy sources as a result of future government-mandated controls or regulation further promoting the use of cleaner fuels. End users who are dual-fuel users have the ability to switch between residual oil and natural gas. Other end users may elect to convert to natural gas. During a period of increasing residual oil prices relative to the prices of natural gas, dual-fuel customers may switch and other end users may convert to natural gas. Residential users of home heating oil may also convert to natural gas. Such switching or conversion could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. In addition, higher prices and new technologies and alternative fuel sources, such as electric, hybrid or battery powered motor vehicles, could reduce the demand for gasoline and adversely impact our gasoline sales. A reduction in gasoline sales could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Changes in government usage mandates and tax credits could adversely affect the availability and pricing of ethanol, which could negatively impact our gasoline sales. Future demand for ethanol will be largely dependent upon the economic incentives to blend based upon the relative value of gasoline and ethanol, taking into consideration the EPA's regulations on the RFS program and oxygenate blending requirements. A reduction or waiver of the RFS mandate or oxygenate blending requirements could adversely affect the availability and pricing of ethanol, which in turn could adversely affect our future gasoline and ethanol sales.

New, stricter environmental laws and regulations could significantly increase our costs, which could adversely affect our results of operations and financial condition. Our operations are subject to federal, state and local laws and regulations regulating product quality specifications and other environmental matters. The trend in environmental regulation is towards more restrictions and limitations on activities that may affect the environment. Our business may be adversely affected by increased costs and liabilities resulting from such stricter laws and regulations. We try to anticipate future regulatory requirements that might be imposed and plan accordingly to remain in compliance with changing environmental laws and regulations and to minimize the costs of such compliance. However, there can be no assurances as to the timing and type of such changes in existing laws or the promulgation of new laws or the amount of any required expenditures associated therewith.

ExxonMobil Acquisition

On September 30, 2010, we completed our acquisition of retail gas stations and supply rights from ExxonMobil for cash consideration of approximately \$202.3 million, plus the assumption of certain environmental liabilities (the "Acquisition"). The Acquisition was completed in multiple phases from September 8 through September 30, 2010.

Table of Contents

The following is a summary of the Acquisition and certain matters relating to our operation of the acquired assets and rights as of the effective date of the Acquisition. Information regarding results and operations of the Sites (as defined below) prior to the Acquisition, including rents, real estate taxes, sales and salaries and benefits, is based on available information, including certain information provided by the seller.

Assets Acquired and Liabilities Assumed The Acquisition included the purchase of the following assets from ExxonMobil:

148 stations leased to and operated by dealers (the "Dealer Leased Sites"). 130 of the Dealer Leased Sites were located in Massachusetts, 9 were located in Rhode Island and 9 were located in New Hampshire. 124 of the Dealer Leased Sites were owned by us. 24 of the Dealer Leased Sites were leased by us pursuant to existing lease agreements with third-party landlords assigned to and assumed by us and subleased by dealers.

Assuming we exercise available renewal terms, the leases with third-party landlords for the 24 Dealer Leased Sites leased by us expire between 2012 and 2033, with an average remaining lease term of approximately 12 years. The rent paid in 2009 for the 24 leased Dealer Leased Sites was approximately \$1.6 million and approximately \$360,000 was paid for real estate taxes. The real estate taxes paid in 2009 for the 124 owned Dealer Leased Sites was approximately \$2.0 million. Subject to applicable rent increases under the terms of the leases for the 24 leased Dealer Leased Sites, and any real estate tax increases imposed by applicable taxing authority, we expect to incur comparable rent and real estate tax expenses in connection with the future operation of the Dealer Leased Sites.

Each of the Dealer Leased Sites were leased or subleased, as applicable, to and operated by dealers pursuant to existing franchise agreements assigned to and assumed by us. The franchise agreements for the Dealer Leased Sites are generally for three-year terms with varying expiration dates and contain renewal terms pursuant to and governed by applicable federal laws. In 2009, the rents paid by dealers for the 148 Dealer Leased Sites were approximately \$16.8 million. Subject to rent increases under the terms of the franchise agreements for the 148 Dealer Leased Sites, and any changes in rent contained in any renewal franchise agreements executed for the 148 Dealer Leased Sites, we expect to receive similar rents in connection with the future operation of the Dealer Leased Sites.

From the Dealer Leased Sites, we receive revenues pursuant to the terms of the franchise agreements from (a) rent paid by the dealers, and (b) the wholesale supply of Mobil-branded gasoline and diesel fuel to the Dealer Leased Sites. All revenues at the Dealer Leased Sites relating to (a) the sale of Mobil-branded gasoline and diesel fuels to retail end-users, and (b) convenience store, car wash and other ancillary sales are for the account of the dealer who leases and operates the location. All station-level employees of each Dealer Leased Site are employees of the dealer who leases and operates the location.

42 stations directly operated by Alliance as discussed below (the "Company Operated Sites" and, together with the Dealer Leased Sites, the "Acquired Sites"). Simultaneously with the Acquisition, the Company Operated Sites were transferred by us to GMG, our wholly owned subsidiary. 27 of the Company Operated Sites were located in Massachusetts, 6 were located in Rhode Island and 9 were located in New Hampshire. 28 of the Company Operated Sites were owned by GMG. 14 of the Company Operated Sites were leased by GMG pursuant to existing lease agreements with third-party landlords assigned to and assumed by GMG.

Assuming exercise by GMG of available renewal terms, the leases with third-party landlords for the 14 Company Operated Sites leased by us expire between 2013 and 2038, with an average remaining lease term of approximately 12 years. The rent paid in 2009 for the 14 leased

Table of Contents

Company Operated Sites was approximately \$1.5 million and approximately \$330,000 was paid for real estate taxes. The real estate taxes paid in 2009 for the 28 owned Company Operated sites was approximately \$728,000. Subject to applicable rent increases under the terms of the leases for the 14 leased Company Operated Sites, and any real estate tax increases imposed by applicable taxing authority, we expect to incur comparable rent and real estate tax expenses in connection with the future operation of the Company Operated Sites.

All of the Company Operated Sites have convenience stores ranging in size from 900 to 3,900 square feet, 38 of which were operated under the *On the Run* flag (see " Management Agreements"). 36 of the Company Operated Sites were open 24 hours per day. All of the Company Operated Sites were licensed lottery agents in their respective states. The 9 Company Operated Sites in New Hampshire were licensed to sell beer and wine. 20 of the Company Operated Sites have car washes on site. The Company Operated Sites averaged convenience store sales in 2009 of approximately \$1.0 million per site.

From the Company Operated Sites, we receive revenues from (a) the wholesale supply of Mobil-branded gasoline and diesel fuel to the Company Operated Sites, (b) the sale of Mobil-branded gasoline and diesel fuel to retail end-users, and (c) convenience store, car wash and other ancillary sales. All station-level employees of a Company Operated Sites are employees of GMG's management agent, as discussed below.

The right to supply Mobil-branded fuel to an additional 31 stations that were owned and operated by independent dealers (the "Dealer Owned Sites" and, together with the Acquired Sites, the "Sites"). Each of the Dealer Owned Sites was supplied fuel pursuant to an existing supply agreement assigned to and assumed by us. 22 of the Dealer Owned Sites were located in Massachusetts, 7 were located in Rhode Island and 2 were located in New Hampshire. The supply agreements for the Dealer Owned Sites expire between 2011 and 2015, and we intend to pursue renewals of these agreements as they mature.

From the Dealer Owned Sites, we receive revenues from the wholesale supply of Mobil-branded gasoline and diesel fuel to the Dealer Owned Sites. All revenues at the Dealer Owned Sites relating to (a) the sale of Mobil-branded gasoline and diesel fuels to retail end-users, and (b) convenience store, car wash and other ancillary sales are for the benefit of the dealer who owns and operates the location. All station-level employees of each Dealer Operated Site are employees of the independent dealer who owns the location.

In 2009, the Dealer Owned Sites, together with the Dealer Leased Sites, sold approximately 275 million gallons of gasoline and diesel fuel. Also in 2009, the Company Operated Sites sold approximately 95 million gallons of gasoline and diesel fuel.

We believe the Acquired Sites are premier locations and have been well maintained. All underground storage tank systems and related dispensing equipment were inspected by us and environmental engineers as part of due diligence activities prior to consummation of the Acquisition and are believed to be in compliance in all material respects with all applicable federal, state and local underground storage tank laws and regulations. Our policy will be to replace underground motor fuel storage tanks at approximately 30 years of age. The average tank age of the underground storage tanks at the Acquired Sites is approximately 19.5 years. We do not own the underground storage tanks or other dispensing equipment at the Dealer Owned Sites. Based on a 30-year average life replacement cycle, we expect to replace approximately 18% of the tanks in the next 5 years. All of the motor fuel storage tanks at the Acquired Sites are constructed of fiberglass reinforced plastic, with approximately $\frac{2}{3}$ of the tanks double walled. All tanks at the Acquired Sites are equipped with automatic tank gauges which are remotely monitored for leak detection purposes.

Table of Contents

Pursuant to the BFA (as defined below), we must maintain all buildings at each of the Acquired Sites, and must ensure that the operators maintain all buildings at each of the Dealer Owned Sites, in compliance with all applicable fire, building and zoning codes and ordinances, in a clean condition free of debris, trash and fire hazards, and in accordance with detailed and rigorous ExxonMobil brand imaging requirements. We believe that each of the Sites is in compliance in all material respects with each of these requirements.

In addition to the contractual obligations assumed by us as described above, we assumed certain environmental liabilities with respect to the Acquired Sites. The assumed environmental liabilities include on-going environmental remediation at approximately 70 of the Acquired Sites and future remediation activities required by applicable federal, state or local law or regulation. Based on consultations with environmental engineers, our estimated cost of the remediation is expected to be approximately \$30.0 million to be expended over an extended period of time.

We contemplate potential sales of Acquired Sites to franchise dealers and other third parties, and the possible lease of Acquired Sites to commissioned agents. A "commissioned agent" is a person who leases and operates the convenience store as an independent operator, with all convenience store revenues for the agent's account. In addition, the agent receives a commission on a per gallon basis for the sale of fuel products owned, priced and sold by us.

Brand Fee Agreement In connection with the Acquisition, we and ExxonMobil entered into a 15-year Brand Fee Agreement (the "BFA"), which entitles us to (a) operate each of the Company Operated Sites under the Mobil-branded trade name and related trade logos (the "Mobil Flag"), (b) allow the Dealer Leased Sites and the Dealer Owned Sites to be operated under the Mobil Flag, (c) subject to ExxonMobil's approval, brand additional service stations (whether company operated, dealer leased or dealer owned) in Massachusetts, Rhode Island, New Hampshire, Maine and Vermont (collectively, the "BFA States") under the Mobil Flag, and (d) supply Mobil-branded motor fuel to the Sites and other Mobil-branded stations in the BFA States. We are responsible for complying and ensuring compliance by all third parties purchasing Mobil-branded motor fuel from us within the BFA States, with all of ExxonMobil's branded facility requirements, brand image specifications and restrictions and minimum service standards with respect to the use of the Mobil Flag and the sale of Mobil-branded motor fuel. In addition, we have similar rights and responsibilities with respect to the Exxon branded trade name and related trade logos (the "Exxon Flag") in the BFA States.

We are responsible for securing our own wholesale fuel supply, including sourcing and delivery of motor fuel and ExxonMobil proprietary additives, arranging for storage and distribution at and from bulk storage facilities and installing any necessary additive injection systems, and providing dispatch and distribution systems for delivery of fuel to the Sites and any other Mobil-branded station supplied by us in the BFA States during the term of the BFA. We are also responsible for ensuring that any Mobil-branded motor fuel distributed by us within the BFA States meets ExxonMobil's specifications and quality assurance requirements for Mobil-branded motor fuel, as such specifications and requirements may be changed by ExxonMobil from time to time, as well as all applicable federal, state and local laws and regulations. Except for a brief transition period, ExxonMobil will not supply motor fuels to us within the BFA States. The Acquisition did not include any of ExxonMobil's existing supply arrangements, terminal assets, rolling stock or other storage and distribution system components.

Table of Contents

Securing wholesale fuel supply is part of our core business. Our products come from some of the major energy companies in the world. Cargos are sourced from the United States, Canada, South America, Europe, Russia and occasionally from Asia. During 2010, we purchased an average of approximately 238,000 barrels per day of refined petroleum products from approximately 115 suppliers. In 2010, our top ten suppliers accounted for approximately 60% of product purchases. We enter into supply agreements with these suppliers on a term basis or a spot basis.

We utilize our terminal network to supply the Sites. This terminal network includes bulk terminals owned by us or at which we maintain dedicated storage as well as throughput or exchange agreements at other bulk terminals. Throughput arrangements allow storage of product at terminals owned by others. We can load product at these terminals, and pay the owners of these terminals fees for services rendered in connection with the receipt, storage and handling of such product. Exchange agreements also allow us to take delivery of product at a terminal or facility that is not owned or leased. An exchange is a contractual agreement where the parties exchange product at their respective terminals or facilities. For example, we receive product that is owned by the exchange partner from such party's facility or terminal, and we deliver the same volume of product to such party out of one of the terminals in our terminal network. Initially, we intend to supply the Sites pursuant to throughput agreements at two bulk terminals and an exchange agreement at one bulk terminal, each of which currently have the necessary Mobil proprietary additive available. We can supply the Sites using additional bulk terminals in our terminal network, subject to potential modifications to accommodate the storage and injection of Mobil proprietary additive as required by the BFA. Consistent with our other operations, the bulk supply required for the Sites and other locations supplied pursuant to the BFA are substantially hedged through futures contracts and swap agreements.

Pursuant to the BFA, we have the right (but not the obligation) to continue operating the Sites under the Mobil Flag. In addition, we have similar rights with respect to the Exxon Flag. We pay an annual fee of approximately \$9.0 million to ExxonMobil for this right, plus an additional amount in the event additional sites are branded Mobil or Exxon or supplied Mobil or Exxon branded fuel by us pursuant to the BFA. We intend to continue operating the Sites under the Mobil brand, although we have the right to rebrand the Sites to another major gasoline brand or to operate the Sites as unbranded stations. In the event we rebrand any of the Sites to another major gasoline brand or to an unbranded station, the BFA fee will not decrease.

ExxonMobil has agreed to provide credit card processing services for the Sites and any other stations Mobil-branded or supplied by us in the BFA States pursuant to the BFA. We are responsible for providing our own marketing and promotion efforts in support of the Mobil and Exxon brands within the BFA States. We expect to benefit from national promotions of the Mobil and Exxon brands by ExxonMobil. We are responsible for providing our own customer service operations to respond to consumer complaints or concerns regarding the operation of the Sites and other stations Mobil-branded or supplied by us under the BFA. In addition, ExxonMobil operates and offers a variety of incentive and rebate programs for franchise dealers and other wholesale distributors which, prior to the Acquisition, were available to the Sites. Under the BFA, these programs are not available to us, and we will be responsible for developing, offering and administering any such program we wish to offer to any of the Sites.

Pursuant to the BFA, we also have the ability to provide Mobil-branded fuel to other authorized Mobil distributors in the BFA States ("Sub-jobbers"). As of March 1, 2011, we began supplying several such distributors, including Alliance. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence."

Management Agreements In connection with the Acquisition, Global Companies LLC and GMG entered into Facilities Management Agreements (each, a "Management Agreement") with Alliance with respect to all of the Sites. In connection with the acquisition of Alliance, the Management

Table of Contents

Agreements were terminated. Alliance was approximately 95% owned by members of the Slifka family, who also own our general partner. Each Management Agreement was for an initial term continuing through September 30, 2013. Either party to each Management Agreement had the right to extend the term for consecutive additional one-year terms by giving written notice of its election to extend the term not less than 24 months prior to the expiration of the then current term, subject to the parties' mutual agreement on the management fee for such extension.

Pursuant to the Management Agreements, Alliance supervised and directed the day-to-day management and operations of the Sites for an aggregate annual management fee of \$2.6 million, commencing October 1, 2010. Alliance managed the operations of the Sites in accordance with annual budgets to be approved by Global Companies LLC and GMG, respectively. In addition to the annual management fee, Global Companies LLC and GMG were responsible for reimbursing Alliance for certain direct overhead expenses related to the operations of the Sites, including costs relating to the employees directly employed to manage and operate the Sites and a portion of the costs relating to certain administrative personnel of Alliance as may have been approved by Global Companies LLC and/or GMG, in accordance with the Management Agreements and the approved annual budgets. In the event that the number or type of Mobil or Exxon branded stations in the BFA States changes, the annual management fee and reimbursed direct overhead expenses could have been adjusted as the parties mutually agree.

In connection with the Acquisition, all of ExxonMobil's station-level employees at the Company Operated Sites and ExxonMobil's 13 field supervisory and support employees responsible for the Sites were hired by Alliance. The aggregate cost of salary and benefits in 2009 for station-level employees at the Company Operated Sites was approximately \$9.5 million, exclusive of field supervisory and support employees. As we may operate the Company Operated Sites in a manner different than ExxonMobil, the aggregate cost of salary and benefits for station-level employees at the Company Operated Sites may be greater or less than the amounts incurred by ExxonMobil. Prior to our acquisition of Alliance, all matters pertaining to the employment, supervision, compensation, promotion, and discharge of such employees were the responsibility of Alliance. Pursuant to the Management Agreements prior to the termination of such agreements in connection with the Alliance acquisition, Alliance was required to indemnify Global Companies LLC and GMG from and against any and all claims and damages of any nature whatsoever arising out of or incidental to Alliance's performance of its responsibilities under the Management Agreements caused by or due to fraud, gross negligence, willful misconduct or a material breach by Alliance of any provision of the Management Agreements. Alliance's aggregate liability was capped at \$5.0 million, over and above the utilization of any and all insurance proceeds.

In addition, pursuant to the Management Agreements, Alliance was providing certain accounting, tax, information technology, legal, maintenance, environmental and regulatory, dispatch, credit, human resource, construction and other services not acquired as part of the Acquisition pursuant to a shared services agreement which was terminated in connection with our acquisition of Alliance. Additional accounting, tax, information technology, legal, environmental and regulatory, credit and other services not acquired as part of the Acquisition and not otherwise provided by Alliance pursuant to the Management Agreements were provided by us. In addition, we are solely responsible for providing all necessary employees and services relating to any wholesale fuel supply, including sourcing and delivery of physical product and ExxonMobil proprietary additives, and arranging for storage at and distribution from bulk storage facilities and installing any necessary additive injection systems, as these services were not acquired as part of the Acquisition. The ExxonMobil employees who previously provided the services being provided by us with respect to these activities were not available for hire as part of the Acquisition.

Alliance, as management agent for GMG, obtained the right to continue operating 38 of the Company Operated Sites under the current *On the Run* convenience store brand, as the Acquisition did not include ExxonMobil's rights to use this brand name. We have the right to rebrand the convenience

Table of Contents

stores at the Company Operated Sites to another brand in the future. In addition, we did not acquire any of ExxonMobil's existing supply contracts with convenience store vendors, and we have entered into new arrangements with suppliers to stock the convenience stores at the Company Operated Sites. Subject to approval under the BFA, dealers at Dealer Leased Sites and at Dealer Owned Sites are responsible for obtaining any necessary rights to any convenience store brand name for these sites as well as entering into any desired supply contracts with convenience store vendors directly.

Other ExxonMobil Relationships ExxonMobil has long-term throughput contracts with us for the use of five refined petroleum products terminals acquired from ExxonMobil in 2007. We supply refined petroleum products to ExxonMobil at four of these terminals. ExxonMobil is also a supplier of refined petroleum products to us at other locations. ExxonMobil accounted for approximately 19%, 22% and 20% of our consolidated sales for the years ended December 31, 2010, 2009 and 2008, respectively.

Results of Operations

Evaluating Our Results of Operations

Our management uses a variety of financial and operational measurements to analyze our performance. These measurements include: (1) net product margin, (2) gross profit, (3) EBITDA, (4) distributable cash flow, (4) selling, general and administrative expenses ("SG&A"), (5) operating expenses, (6) net income per diluted limited partner unit and (7) degree days.

Net Product Margin

We view net product margin as an important performance measure of the core profitability of our operations. We review net product margin monthly for consistency and trend analysis. We define net product margin as our sales minus product costs. Sales primarily include sales of unbranded and Mobil-branded gasoline, distillates, residual oil, renewable fuels, crude oil and a small amount of natural gas and convenience store sales and gas station rental income. Product costs include the cost of acquiring the refined petroleum products, renewable fuels, crude oil and natural gas and all associated costs including shipping and handling costs to bring such products to the point of sale. We also look at net product margin on a per unit basis (net product margin divided by volume). Net product margin is a non-GAAP financial measure used by management and external users of our consolidated financial statements to assess our business. Net product margin should not be considered an alternative to net income, operating income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, our net product margin may not be comparable to net product margin or a similarly titled measure of other companies.

Gross Profit

We define gross profit as our sales minus product costs and terminal and gas station related depreciation expense allocated to cost of sales. Sales primarily include sales of unbranded and Mobil-branded gasoline, distillates, residual oil, renewable fuels and small amounts of natural gas and crude oil. Product costs include the cost of acquiring the refined petroleum products, renewable fuels, natural gas and crude oil and all associated costs to bring such products to the point of sale.

EBITDA

EBITDA is a non-GAAP financial measure used as a supplemental financial measure by management and external users of our consolidated financial statements, such as investors, commercial banks and research analysts, to assess:

our compliance with certain financial covenants included in our debt agreements;

Table of Contents

our financial performance without regard to financing methods, capital structure, income taxes or historical cost basis;

our ability to generate cash sufficient to pay interest on our indebtedness and to make distributions to our partners;

our operating performance and return on invested capital as compared to those of other companies in the wholesale, marketing, storing and distribution of refined petroleum products, renewable fuels and crude oil, without regard to financing methods and capital structure; and

the viability of acquisitions and capital expenditure projects and the overall rates of return of alternative investment opportunities.

EBITDA should not be considered as an alternative to net income, operating income, cash flow from operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA excludes some, but not all, items that affect net income, and this measure may vary among other companies. Therefore, EBITDA may not be comparable to similarly titled measures of other companies.

Distributable Cash Flow

Distributable cash flow is an important non-GAAP financial measure for our limited partners since it serves as an indicator of our success in providing a cash return on their investment. Distributable cash flow means our net income plus depreciation and amortization minus maintenance capital expenditures, as well as adjustments to eliminate items approved by the audit committee of the board of directors of our general partner that are extraordinary or non-recurring in nature and that would otherwise increase distributable cash flow. Specifically, this financial measure indicates to investors whether or not we have generated sufficient earnings on a current or historic level that can sustain or support an increase in our quarterly cash distribution. Distributable cash flow is a quantitative standard used by the investment community with respect to publicly traded partnerships. Distributable cash flow should not be considered an alternative to net income, operating income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, our distributable cash flow may not be comparable to distributable cash flow or similarly titled measures of other companies.

Selling, General and Administrative Expenses

Our SG&A expenses include, among other things, marketing costs, corporate overhead, employee salaries and benefits, pension and 401(k) plan expenses, discretionary bonuses, non-interest financing costs, professional fees and information technology expenses. Employee-related expenses including employee salaries, discretionary bonuses and related payroll taxes, benefits, and pension and 401(k) plan expenses are paid by our general partner which, in turn, is reimbursed for these expenses by us.

Operating Expenses

Operating expenses are costs associated with the operation of the terminals and gasoline stations used in our business. Lease payments and storage expenses, maintenance and repair, utilities, taxes, labor and labor-related expenses comprise the most significant portion of our operating expenses. These expenses remain relatively stable independent of the volumes through our system but fluctuate slightly depending on the activities performed during a specific period.

Net Income Per Diluted Limited Partner Unit

We use net income per diluted limited partner unit to measure our financial performance on a per-unit basis. Net income per diluted limited partner unit is defined as net income, divided by the

Table of Contents

weighted average number of outstanding diluted common units, or limited partner units, during the period.

Degree Day

A "degree day" is an industry measurement of temperature designed to evaluate energy demand and consumption. Degree days are based on how far the average temperature departs from a human comfort level of 65°F. Each degree of temperature above 65°F is counted as one cooling degree day, and each degree of temperature below 65°F is counted as one heating degree day. Degree days are accumulated each day over the course of a year and can be compared to a monthly or a long-term (multi-year) average, or normal, to see if a month or a year was warmer or cooler than usual. Degree days are officially observed by the National Weather Service and officially archived by the National Climatic Data Center. For purposes of evaluating our results of operations, we use the normal heating degree day amount as reported by the National Weather Service at its Logan International Airport station in Boston, Massachusetts.

Years Ended December 31, 2011, 2010 and 2009

In 2011, we continued initiating organic expansion projects. For example, in part, we (i) converted 230,000 barrels of storage capacity at our Albany, New York terminal that will be utilized for either distillates or gasoline; (ii) brought into service an additional 200,000 barrels of distillates and crude oil storage capacity at this facility and (iii) converted two tanks to handle bio-fuel at our Providence, Rhode Island terminal.

In March 2011, we began supplying Mobil-branded fuel to Mobil Sub-jobbers, including Alliance, in Massachusetts, New Hampshire, Rhode Island and Maine pursuant to our BFA.

In November 2011, we initiated an expansion project at our Albany, New York terminal to increase our rail car receipt and offloading capacity of ethanol and crude oil.

In the fourth quarter of 2011, we began buying mid-continental crude oil and transporting it by rail to our Albany, New York terminal for storage and subsequent sale in barge load quantities. We also initiated a project to store product in North Dakota.

During 2011, we experienced the following events:

Refined petroleum product and renewable fuel prices were higher during 2011 compared to 2010.

Our aggregate volume of product sold increased by approximately 43% for 2011 compared to 2010, due to an increase in bulk supply and exchange activity, strong demand for blendstocks, primarily ethanol, and the growth in our gasoline business as a result of a full year of ownership of our 2010 acquisitions and the commencement of gasoline sales to Mobil Sub-jobbers under our BFA.

Temperatures for 2011 were 9% warmer than normal.

We increased our reserve for bad debts by approximately \$1.9 million for 2011, substantially due to specific risks related to one customer.

We reduced our workforce by approximately 10% which resulted in restructuring charges of approximately \$2.0 million for 2011.

Our interest expense increased by 40% for 2011, primarily due to additional borrowings as a result of our 2010 acquisitions and to higher refined petroleum product and renewable fuel prices which increased our working capital requirements.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

We believe heating oil conservation and conversions to natural gas continued during 2011.

Our operating expenses increased by \$25.7 million for 2011 compared to 2010, primarily due to a full year of operations of the gas stations we acquired from ExxonMobil in September 2010.

We continued to experience a decline in our residual oil sales and volumes.

We believe our margins for 2011 were negatively impacted by less favorable market conditions and fewer advantageous purchasing opportunities in our distillates business and by a backward forward product pricing curve in our wholesale gasoline business.

We believe our margins for 2011 were also affected by a variety of other factors, such as movement of products between Europe and the United States, weekly and monthly refinery output levels, changes in local, domestic and worldwide inventory levels, seasonality and supply dislocations.

In June 2010, we acquired three refined petroleum products terminals located in Newburgh, New York. We believe the acquisition strengthened our presence along the Hudson River in southeastern New York and enhanced terminal operating efficiencies with our adjacent facility.

In September 2010, we acquired Mobil-branded retail gas stations located in Massachusetts, New Hampshire and Rhode Island and the right to supply Mobil-branded gasoline and diesel fuel to such stations and to Mobil-branded stations that are owned and operated by independent dealers. The acquisition expanded our wholesale supply business and added vertical integration to our transportation fuel business. See "Overview ExxonMobil Acquisition."

In October 2010, we completed an ethanol and rail expansion project that added 180,000 barrels of ethanol storage at our Albany, New York terminal. The project included modifications that enabled the terminal to schedule the delivery of 80-car trains of ethanol and allows ethanol to be shipped directly on a single rail line from the Midwest. Beyond supplying our own business, we further invested in our Albany terminal by installing a marine vapor recovery system for barge/vessel-loading of ethanol and gasoline at the dock, and expanding the rack to allow for additional ethanol and gasoline sales. We believe the supply efficiencies gained through this project position us to be a premier cost effective supplier of gasoline and ethanol to the Northeast. In a separate and complementary project, we converted two distillate storage tanks to gasoline storage at the Albany facility. These initiatives, combined with the return to service of three previously out-of-service tanks, increased the total storage capacity of our Albany terminal to approximately 1.2 million barrels, up from 737,000 barrels when we acquired the terminal in May 2007.

During the year ended December 31, 2010:

Refined petroleum product prices increased during 2010 compared to 2009.

Our aggregate volume of product sold increased by approximately 7% for 2010 compared to 2009 primarily due to our gasoline business.

We increased our reserve for bad debts by approximately \$1.1 million for 2010, substantially due to specific risks related to one customer.

Temperatures for 2010 were 10% warmer than normal and 11% warmer than 2009.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

We believe heating oil conservation and consumption continued during 2010.

We believe our results for the fourth quarter 2010 were negatively impacted due, in part, to adverse market conditions and fewer advantageous purchasing opportunities primarily in our distillates business. We believe that these market conditions and fewer purchasing opportunities did not adversely impact the performance of our gasoline business including the acquisition of retail gas stations and supply rights from ExxonMobil.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

During 2009, we optimized our terminal network by initiating organic expansion and other projects, primarily in Albany, New York, Oyster Bay, New York and Linden, New Jersey. These projects added approximately 1.3 million barrels of storage capacity, broadening the depth and breadth of our strategic asset base.

The following table provides the percentage increases (decreases) in refined petroleum product and natural gas prices at the end of each quarter in 2011 as compared to each comparable quarter in 2010 and at the end of each quarter in 2010 as compared to each comparable quarter in 2009:

| Period: | Heating Oil \$ per gallon(1) | Gasoline \$ per gallon(1) | Residual Oil \$ per gallon(2) | Natural Gas \$ per gallon equivalent(3) |
|------------------------------|---------------------------------------|---------------------------------|--|--|
| 2011 compared to 2010 | | | | |
| At March 31, 2010 | \$ 2.16 | \$ 2.31 | \$ 1.76 | \$ 0.63 |
| At March 31, 2011 | \$ 3.09 | \$ 3.11 | \$ 2.45 | \$ 0.73 |
| Change | 43% | 35% | 39% | 16% |
| At June 30, 2010 | \$ 1.98 | \$ 2.06 | \$ 1.61 | \$ 0.75 |
| At June 30, 2011 | \$ 2.93 | \$ 3.03 | \$ 2.51 | \$ 0.73 |
| Change | 48% | 47% | 56% | (3%) |
| At September 30, 2010 | \$ 2.24 | \$ 2.04 | \$ 1.74 | \$ 0.62 |
| At September 30, 2011 | \$ 2.79 | \$ 2.63 | \$ 2.29 | \$ 0.62 |
| Change | 25% | 29% | 32% | |
| At December 31, 2010 | \$ 2.54 | \$ 2.45 | \$ 1.86 | \$ 0.76 |
| At December 31, 2011 | \$ 2.93 | \$ 2.67 | \$ 2.36 | \$ 0.61 |
| Change | 15% | 9% | 27% | (19%) |
| 2010 compared to 2009 | | | | |
| At March 31, 2009 | \$ 1.34 | \$ 1.40 | \$ 0.95 | \$ 0.62 |
| At March 31, 2010 | \$ 2.16 | \$ 2.31 | \$ 1.76 | \$ 0.63 |
| Change | 61% | 65% | 85% | 2% |
| At June 30, 2009 | \$ 1.72 | \$ 1.90 | \$ 1.49 | \$ 0.62 |
| At June 30, 2010 | \$ 1.98 | \$ 2.06 | \$ 1.61 | \$ 0.75 |
| Change | 15% | 8% | 8% | 21% |
| At September 30, 2009 | \$ 1.80 | \$ 1.73 | \$ 1.50 | \$ 0.54 |
| At September 30, 2010 | \$ 2.24 | \$ 2.04 | \$ 1.74 | \$ 0.62 |

Table of Contents

Key Performance Indicators

The following table provides a summary of some of the key performance indicators that may be used to assess our results of operations. These comparisons are not necessarily indicative of future results (in thousands, except per unit data):

| | Year Ended December 31, | | |
|---|-------------------------|---------------------|---------------------|
| | 2011 | 2010 | 2009 |
| Net income | \$ 19,352 | \$ 27,038 | \$ 34,134 |
| Net income per diluted limited partner unit (1) | \$ 0.87 | \$ 1.59 | \$ 2.51 |
| EBITDA (2) | \$ 85,711 | \$ 72,437 | \$ 66,660 |
| Distributable cash flow (3) | \$ 46,741 | \$ 46,035 | \$ 45,433 |
| Wholesale: | | | |
| Volume (gallons) | 4,794,813 | 3,377,351 | 3,177,574 |
| Sales | | | |
| Gasoline (4) | \$ 9,757,838 | \$ 4,554,046 | \$ 2,954,461 |
| Distillates | 3,866,316 | 2,680,729 | 2,467,883 |
| Residual oil and crude oil | 70,189 | 39,353 | 32,803 |
| Total | \$ 13,694,343 | \$ 7,274,128 | \$ 5,455,147 |
| Net product margin (5) | | | |
| Gasoline | \$ 96,273 | \$ 64,677 | \$ 40,706 |
| Distillates | 50,383 | 80,948 | 95,098 |
| Residual oil and crude oil | 17,226 | 9,398 | 9,430 |
| Total | \$ 163,882 | \$ 155,023 | \$ 145,234 |
| Commercial: | | | |
| Volume (gallons) | 422,393 | 273,090 | 226,193 |
| Sales (4) | \$ 1,082,600 | \$ 511,326 | \$ 363,264 |
| Net product margin (5) | \$ 38,616 | \$ 18,438 | \$ 15,410 |
| All Other: | | | |
| Sales (4)(6) | \$ 58,786 | \$ 16,105 | \$ |
| Net product margin (5) | \$ 31,491 | \$ 8,885 | \$ |
| Combined sales and net product margin: | | | |
| Sales | \$ 14,835,729 | \$ 7,801,559 | \$ 5,818,411 |
| Net product margin (5) | \$ 233,989 | \$ 182,346 | \$ 160,644 |
| Depreciation allocated to cost of sales | 24,391 | 15,628 | 10,816 |
| Combined gross profit | \$ 209,598 | \$ 166,718 | \$ 149,828 |
| Weather conditions: | | | |
| Normal heating degree days | 5,630 | 5,630 | 5,630 |
| Actual heating degree days | 5,137 | 5,049 | 5,656 |
| Variance from normal heating degree days | (9%) | (10%) | 1% |
| Variance from prior period actual heating degree days | 2% | (11%) | 4% |

(1) See Note 2 of Notes to Consolidated Financial Statements for net income per diluted limited partner unit calculation.

(2) EBITDA is a non-GAAP financial measure which is discussed above under "Evaluating Our Results of Operations." The table below presents reconciliations of EBITDA to the most directly comparable GAAP financial measures.

(3)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Distributable cash flow is a non-GAAP financial measure which is discussed above under "Evaluating Our Results of Operations." The table below presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures.

- (4) On September 30, 2010, we completed our acquisition of retail gas stations and supply rights from ExxonMobil (see Note 5 of Notes to Consolidated Financial Statements). As these assets were not in place for a substantial portion of the year ended December 31, 2010 or for any portion of the year ended December 31, 2009, the above results are not directly comparable for periods prior to September 2010.
- (5) Net product margin is a non-GAAP financial measure which is discussed above under "Evaluating Our Results of Operations." The table above reconciles net product margin on a combined basis to gross profit, a directly comparable GAAP financial measure.
- (6) Sales in the "All Other" category consist of convenience store revenues and rental income.

Table of Contents

The following table presents reconciliations of EBITDA to the most directly comparable GAAP financial measures on a historical basis (in thousands):

| | Year Ended December 31, | | |
|--|-------------------------|------------------|------------------|
| | 2011 | 2010 | 2009 |
| Reconciliation of net income to EBITDA: | | | |
| Net income | \$ 19,352 | \$ 27,038 | \$ 34,134 |
| Depreciation and amortization and amortization of deferred financing fees | 35,082 | 23,089 | 15,909 |
| Interest expense | 31,209 | 22,310 | 15,188 |
| Income tax expense | 68 | | 1,429 |
| EBITDA | \$ 85,711 | \$ 72,437 | \$ 66,660 |
| Reconciliation of net cash used in operating activities to EBITDA: | | | |
| Net cash used in operating activities | \$ (17,357) | \$ (87,194) | \$ (61,129) |
| Net changes in operating assets and liabilities and certain non-cash items | 71,791 | 137,321 | 111,172 |
| Interest expense | 31,209 | 22,310 | 15,188 |
| Income tax expense | 68 | | 1,429 |
| EBITDA | \$ 85,711 | \$ 72,437 | \$ 66,660 |

The following table presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures on a historical basis (in thousands):

| | Year Ended December 31, | | |
|--|-------------------------|------------------|------------------|
| | 2011 | 2010 | 2009 |
| Reconciliation of net income to distributable cash flow: | | | |
| Net income | \$ 19,352 | \$ 27,038 | \$ 34,134 |
| Depreciation and amortization and amortization of deferred financing fees | 35,082 | 23,089 | 15,909 |
| Amortization of routine bank refinancings (1) | (3,467) | | |
| Maintenance capital expenditures | (4,226) | (4,092) | (4,610) |
| Distributable cash flow | \$ 46,741 | \$ 46,035 | \$ 45,433 |
| Reconciliation of net cash used in operating activities to distributable cash flow: | | | |
| Net cash used in operating activities | \$ (17,357) | \$ (87,194) | \$ (61,129) |
| Net changes in operating assets and liabilities and certain non-cash items | 71,791 | 137,321 | 111,172 |
| Amortization of routine bank refinancings (1) | (3,467) | | |
| Maintenance capital expenditures | (4,226) | (4,092) | (4,610) |
| Distributable cash flow | \$ 46,741 | \$ 46,035 | \$ 45,433 |

- (1) Commencing with the quarter ended March 31, 2011, our calculation of distributable cash flow excludes non-cash amortization of deferred financing fees related to routine bank refinancings. Amortization of deferred financing fees in connection with our expansion-related activities will continue to be included. We believe that this provides a more conservative methodology to this non-GAAP financial measure. Had this methodology been used previously, it would not have affected distribution decisions or the outcome of the conversion of subordinated units to common units. Had this methodology been used for the years ended December 31, 2010 and 2009, distributable cash flow would have been lower by approximately \$2.5 million and \$1.2 million, respectively.

Table of Contents

Consolidated Sales

Our total sales for 2011 increased by \$7.0 billion, or 90%, to \$14.8 billion compared to \$7.8 billion for 2010. The increase was primarily due to higher refined petroleum product prices for 2011 compared to 2010 and to an increase in volume sold. Our aggregate volume of product sold increased by approximately 1.6 billion gallons, or 43%, to 5.2 billion gallons compared to 3.7 billion gallons for 2010. The increase in volume sold primarily included increases of approximately 1.4 billion gallons in gasoline due primarily to our 2010 acquisitions (in June of three refined petroleum products terminals located in Newburgh, New York and in September of retail gas stations and supply rights from ExxonMobil, collectively our "2010 Acquisitions") and to a strong demand for blendstocks, primarily ethanol. The increase in volume sold also included increases of 135 million gallons in distillates, due primarily to an increase in non-weather related distillates and to slightly colder temperatures during 2011 compared to 2010, and 30 million gallons in residual oil and crude oil. The number of actual heating degree days increased 2% to 5,137 for 2011 compared to 5,049 for 2010. Our gross profit for 2011 was \$209.6 million, an increase of \$42.9 million, or 26%, compared to \$166.7 million for 2010, due primarily to our 2010 Acquisitions.

Our total sales for 2010 increased by \$2.0 billion, or 34%, to \$7.8 billion compared to \$5.8 billion for 2009. The increase was driven primarily by higher refined petroleum product and natural gas prices for 2010 compared to 2009. Our aggregate volume of product sold increased by approximately 0.2 billion gallons, or 7%, to 3.7 billion gallons compared to 3.4 billion gallons for 2009. The increase in volume primarily included an increase of approximately 424 million gallons in gasoline due, in part, to our 2010 Acquisitions, offset by a decrease of 195 million gallons in distillates attributable to warmer temperatures during 2010 compared to 2009, increased competition in the marketplace, continued conservation, economic conditions and fewer advantageous purchasing opportunities. The number of actual heating degree days decreased 11% to 5,049 for 2010 compared to 5,656 for 2009. Our gross profit for 2010 was \$166.7 million, an increase of \$16.9 million, or 11%, compared to \$149.8 million for 2009, due primarily to strong unit margins for gasoline offset by lower unit margins in distillate products.

Wholesale

Gasoline. Wholesale gasoline sales for 2011 were \$9.8 billion compared to \$4.6 billion for 2010. The increase of \$5.2 billion, or 113%, was due primarily to higher gasoline prices and an increase in volume sold due to our 2010 acquisitions of the ExxonMobil assets and the Newburgh, New York terminals, as well as additional of sales of Mobil-branded fuel to Sub-jobbers pursuant to our BFA (see "Overview ExxonMobil Acquisition"). The increase in volume sold was also attributable to an increase in bulk supply and exchange activity and a strong demand for blendstocks, primarily ethanol. For these same reasons, our net product margin from gasoline sales increased by \$31.6 million to \$96.3 million for 2011 compared to \$64.7 million for 2010. Despite the increase, our net product margin for gasoline was adversely impacted due to less favorable market conditions, primarily a backward forward product pricing curve.

Wholesale gasoline sales for 2010 were \$4.6 billion compared to \$3.0 billion for 2009. The increase of \$1.6 billion, or 54%, was due primarily to higher gasoline prices and an increase in gasoline volume sold compared to 2009. The increase in gasoline volume was primarily due to our 2010 Acquisitions. Our net product margin from gasoline sales increased by \$24.0 million to \$64.7 million for 2010 compared to \$40.7 million for 2009. This increase was primarily attributable to improved unit margins and the increase in gasoline volume sold for 2010 compared to 2009.

Distillates. Wholesale distillate sales for 2011 were \$3.9 billion compared to \$2.7 billion for 2010. The increase of \$1.2 billion, or 45%, was due to increases in refined petroleum product prices and in volume sold. Despite the increase in volume sold in 2011 compared to 2010 due to an increase in

Table of Contents

non-weather related distillates and to slightly colder temperatures, our net product margin from distillate sales decreased by \$30.5 million, or 38%, to \$50.4 million for 2011 compared to \$80.9 million for 2010. The decrease was primarily due to less favorable market conditions, a less favorable forward product pricing curve, and fewer advantageous purchasing opportunities.

Wholesale distillate sales for 2010 were \$2.7 billion compared to \$2.5 billion for 2009. The increase of \$0.2 billion, or 9%, was primarily due to increased refined petroleum product prices. We experienced a 14% decrease in volume sold for 2010 compared to 2009 due to warmer temperatures, increased competition in the marketplace, continued conservation and economic conditions. Primarily for the same reasons, as well as to fewer advantageous purchasing opportunities, our net product margin from distillate sales decreased by 15% to \$80.9 million for 2010 compared to \$95.1 million for 2009.

Residual Oil and Crude Oil. Wholesale residual oil and crude oil sales for 2011 were \$70.2 million compared to \$39.4 million for 2010. The increase of \$30.8 million, or 78%, was due to the addition of crude oil in the fourth quarter of 2011, offset by a decrease in residual oil sales as a result of continued conservation, economic conditions and fuel switching related to lower prices for natural gas relative to residual oil prices. Our net product margin contribution from residual oil and crude oil sales increased by \$7.8 million to \$17.2 million for 2011 compared to \$9.4 million for 2010. Crude oil activity accounted for the year-over-year increase in the net product margin due to favorable market conditions and, to a lesser extent, the physical product margin.

Wholesale residual oil sales for 2010 were \$39.4 million compared to \$32.8 million for 2009. The increase of \$6.6 million, or 20%, was primarily due to the increase in refined petroleum product prices compared to 2009. We experienced a 15% decrease year over year in residual oil volume sold, primarily due to warmer temperatures, continued conservation, challenging economic conditions, system conversions and fuel switching due to the comparative price advantage of natural gas over residual oil. Our net product margin contributions from residual oil sales was flat at \$9.4 million for 2010 and 2009.

Commercial

Our total commercial sales increased by approximately \$0.6 billion, or 112%, to \$1.1 billion for 2011 compared to \$0.5 billion for 2010. Commercial gasoline sales increased by approximately 277% for 2011 compared to 2010, primarily due to the addition of our directly operated gas stations acquired from ExxonMobil in September 2010. Commercial residual oil sales increased by approximately 55% for 2011 compared to 2010, due to increases in refined petroleum product prices and in volume sold.

Our total commercial sales increased by approximately \$148.0 million, or 41%, to \$511.3 million for 2010 compared to \$363.3 million for 2009. Commercial gasoline sales increased by approximately 416% for 2010 compared to 2009, primarily due to the addition of our directly operated gas stations acquired from ExxonMobil in September 2010. Commercial residual oil sales increased by approximately 22%, due to increased refined petroleum product prices for 2010 compared to 2009.

Our total commercial volume increased by approximately 149 million gallons, or 55%, for 2011 compared to 2010 and by 47 million gallons, or 21%, for 2010 compared to 2009. These increases were primarily due to the addition of our directly-operated gas stations in acquired in September 2010.

Gasoline accounted for approximately 23%, 12% and 4% of total commercial volume sold for 2011, 2010 and 2009, respectively. Commercial residual oil accounted for approximately 38%, 51% and 61% of total commercial volume sold for 2011, 2010 and 2009, respectively. Distillates and natural gas accounted for the remainder of the total commercial volume sold.

Our net product margin contribution from our commercial segment increased by approximately \$20.2 million, or 109%, to \$38.6 million for 2011 compared to \$18.4 million for 2010, primarily due to a full-year of gasoline sales at our directly operated gas stations and, to a lesser extent, improvements in our distillates, residual oil and natural gas net product margins.

Table of Contents

All Other

Our all other segment consists primarily of convenience stores sales at our directly operated stores and gas station rental income which generated approximately \$58.8 million and \$16.1 million of our total sales and \$31.5 million and \$8.9 million of our total net product margin for the years ended December 31, 2011 and 2010, respectively. The increases in sales and net product margin year-over-year reflect a full year of operations of our 2010 acquisition of the ExxonMobil assets.

Selling, General and Administrative Expenses

SG&A expenses increased by \$12.5 million, or 19%, to \$78.6 million for 2011 compared to \$66.1 million for 2010. The increase was primarily due to increases of \$5.7 million in management costs and other expenses related to a full year of operations of the retail gas stations and supply rights acquired from ExxonMobil, \$4.2 million in incentive compensation, \$4.2 million in bank fees and amortization of deferred financing fees, \$1.1 million in overhead (including information technology, natural gas personnel and project management), \$1.1 million of one-time acquisition costs associated with the proposed acquisition of Alliance and \$0.8 million in bad debt expense. The overall increase was offset by a decrease of approximately \$3.2 million in professional and consulting fees and \$1.4 million in various other SG&A expenses. The \$4.2 million increase in bank fees and amortization of deferred financing fees was largely due to increased letter of credit fees related to the growth in our gasoline business and higher refined petroleum product prices, and to the expansion of our credit facilities.

SG&A expenses increased by \$5.1 million, or 8%, to \$66.1 million for 2010 compared to \$61.0 million for 2009. The increase was primarily due to increases of \$5.0 million in overhead (including information technology, natural gas personnel and project management), \$3.0 million in bank fees and amortization of deferred financing fees largely related to the expansions of our bank facilities, \$0.8 million in management fees to Alliance, \$0.6 million in costs associated with the expansion of our natural gas operations and \$0.3 million in various other SG&A expenses. The increase in SG&A expenses also included one-time increases of \$1.4 million in legal, consulting and other expenses related to the FTC's regulatory review of our acquisition of three refined petroleum products terminals located in Newburgh, New York and \$0.8 million of one-time acquisition costs associated with the September 2010 acquisition of retail gas stations and supply rights from ExxonMobil. The increase in SG&A expenses was offset by decreases of \$5.8 million in incentive compensation and \$1.1 million in bad debt accruals.

Operating Expenses

Operating expenses increased by \$25.7 million, or 54%, to \$73.5 million for 2011 compared to \$47.8 million for 2010. The increase was primarily due to \$25.1 million in increased costs related to a full year of operations of the retail gas stations acquired from ExxonMobil, \$1.1 million in costs related to our Revere, Massachusetts terminal, \$0.9 million in costs related to the Albany, New York terminal and \$0.3 million in various other operating expenses. For 2011, the increase in operating expenses was partially offset by a decrease of approximately \$1.7 million related to a change in estimate of our remediation obligations with respect to the Albany, New York terminal (see Note 9 of Notes to Consolidated Financial Statements). The \$25.1 million in increased costs related to the retail gas stations primarily included increases of \$6.5 million in staff costs reimbursed to our management company, Alliance, \$4.9 million in service station direct expenses, \$4.3 million in credit card fees, \$4.4 million in various maintenance expenses, \$2.6 million in property taxes and \$2.4 million in gas station rent expense.

Operating expenses increased by \$12.8 million, or 36%, to \$47.8 million for 2010 compared to \$35.0 million for 2009. The increase was primarily due to \$8.3 million in expenses related to the retail

Table of Contents

gas stations acquired from ExxonMobil, \$2.4 million in expenses related to the three refined petroleum products terminals acquired in June 2010 and \$2.0 million in various other operating expenses.

Amortization Expense

Amortization expense related to our intangible assets was \$4.8 million, \$3.5 million and \$3.0 million for 2011, 2010 and 2009, respectively. The increases of \$1.8 million and \$0.5 million in 2011 and 2010, respectively, compared to 2009 were primarily the result of a full year of amortization related to intangible assets recognized as part of our 2010 Acquisitions.

Restructuring Charges

During the third quarter of 2011, we reduced our workforce by approximately 10% which resulted in restructuring charges of approximately \$2.0 million for 2011. These restructuring charges consist principally of severance and outplacement costs for terminated employees. A total of \$0.8 million was paid through December 31, 2011. See Note 19 of Notes to Consolidated Financial Statements for additional information.

Interest Expense

Interest expense for 2011 increased by \$8.9 million, or 40%, to \$31.2 million compared to \$22.3 million for 2010 and by \$7.1 million, or 47%, for 2010 compared to \$15.2 million for 2009. We attribute these increases primarily to additional borrowings as a result of our 2010 Acquisitions and to higher average balances on our working capital revolving credit facility from carrying higher average dollar values of inventories and accounts receivable reflecting increased refined petroleum product prices. In addition, the costs of borrowings under the credit agreement were increased in connection with the May and August 2010 amendments to the credit agreement.

Liquidity and Capital Resources

Liquidity

Our primary liquidity needs are to fund our working capital requirements, capital expenditures and distributions. Cash generated from operations and our working capital revolving credit facility provide our primary sources of liquidity. Working capital increased by \$195.9 million to \$641.8 million at December 31, 2011 compared to \$445.9 million at December 31, 2010.

On February 8, 2011, we completed a public offering of 2,645,000 common units at a price of \$27.60 per common unit. Net proceeds were approximately \$69.6 million, after deducting underwriting fees and offering expenses. We used the net proceeds to reduce indebtedness outstanding under our credit agreement.

On February 14, 2011, we paid a cash distribution to our common and subordinated unitholders and our general partner of approximately \$9.7 million for the fourth quarter of 2010. On February 16, 2011, based upon satisfying certain distribution and performance tests provided in our partnership agreement, all 5,642,424 subordinated units converted to common units. On May 13, 2011, we paid a cash distribution to our common unitholders and our general partner of approximately \$11.0 million for the first quarter of 2011. On August 12, 2011, we paid a cash distribution to our common unitholders and our general partner of approximately \$11.0 million for the second quarter of 2011. On November 14, 2011, we paid a cash distribution to our common unitholders and our general partner of approximately \$11.0 million for the third quarter of 2011. On February 14, 2012, we paid a cash distribution to our common unitholders and our general partner of approximately \$11.0 million for the fourth quarter of 2011.

Table of Contents**Contractual Obligations**

We have contractual obligations that are required to be settled in cash. The amounts of our contractual obligations at December 31, 2011 were as follows (in thousands):

| | Total | Payments due by period | | | More than 5 years |
|---------------------------------|---------------------|------------------------|-------------------|------------------|----------------------|
| | | Less than 1 year | 1-3 years | 4-5 years | |
| Revolver loan obligations (1) | \$ 838,171 | \$ 65,408 | \$ 772,763 | \$ | \$ |
| Operating lease obligations (2) | 76,869 | 25,751 | 26,633 | 10,985 | 13,500 |
| Capital lease obligations | 513 | 66 | 132 | 132 | 183 |
| Other long-term liabilities (3) | 267,973 | 32,999 | 66,295 | 66,601 | 102,078 |
| Total | \$ 1,183,526 | \$ 124,224 | \$ 865,823 | \$ 77,718 | \$ 115,761 |

- (1) Includes principal and interest on our working capital revolving credit facility at December 31, 2011 and assumes a ratable payment through the expiration date. The credit agreement has a contractual maturity of May 14, 2014 and no principal payments are required prior to that date. However, we repay amounts outstanding and reborrow funds based on our working capital requirements. Therefore, the current portion of the working capital revolving credit facility included in the accompanying balance sheets is the amount we expect to pay down during the course of the year, and the long-term portion of the working capital revolving credit facility is the amount we expect to be outstanding during the entire year.
- (2) Includes operating lease obligations with related parties and gas station leases.
- (3) Includes amounts related to our 15-year BFA with ExxonMobil and minimum freight requirements on the transportation of ethanol to our Albany, New York terminal.

In addition to the obligations described in the above table, we have minimum volume purchase requirements at December 31, 2011. Pricing is based on spot prices at the time of purchase. Please read Note 13 of Notes to Consolidated Financial Statements with respect to purchase commitments and sublease information related to certain lease agreements.

Capital Expenditures

Our operations require investments to expand, upgrade and enhance existing operations and to meet environmental and operations regulations. We categorize our capital requirements as either maintenance capital expenditures or expansion capital expenditures. Maintenance capital expenditures represent capital expenditures to repair or replace partially or fully depreciated assets to maintain the operating capacity of, or revenues generated by, existing assets and extend their useful lives. Maintenance capital expenditures include expenditures required to maintain equipment reliability, tankage and pipeline integrity and safety and to address certain environmental regulations. We anticipate that maintenance capital expenditures will be funded with cash generated by operations. We had approximately \$4.2 million, \$4.1 million and \$4.6 million in maintenance capital expenditures for the years ended December 31, 2011, 2010 and 2009, respectively, which are included in capital expenditures in the accompanying consolidated statements of cash flows. Repair and maintenance expenses associated with existing assets that are minor in nature and do not extend the useful life of existing assets are charged to operating expenses as incurred.

Expansion capital expenditures include expenditures to acquire assets to grow our business or expand our existing facilities, such as projects that increase our operating capacity or revenues by increasing tankage, diversifying product availability at various terminals and adding terminals. We have the ability to fund our expansion capital expenditures through cash from operations or our credit agreement or by issuing additional equity. We had approximately \$11.7 million, \$258.9 million and \$4.5 million in expansion capital expenditures for the years ended December 31, 2011, 2010 and 2009, respectively, which are included in capital expenditures in the accompanying consolidated statements of cash flows.

Table of Contents

Specifically, for 2011, expansion capital expenditures included \$2.7 million in costs related to our Albany, New York terminal including \$1.8 million in costs associated with converting certain storage tanks for the handling of crude oil, \$2.0 million in costs related to tank construction in North Dakota for the handling of crude oil, \$1.8 million in costs related to propane tanks for future installation, \$1.6 million in costs related to information technology, including increases in storage and computing capacity and hardware and software related to our branded gasoline business, \$1.2 million in gas station equipment, \$1.1 million in costs related to our three refined petroleum products terminals in Newburgh, New York, \$0.6 million in bio-fuel conversion costs at our Providence, Rhode Island terminal, \$0.6 million in costs at our Revere, Massachusetts terminal and \$0.1 million in other expansion capital expenditures.

In 2010, expansion capital expenditures included approximately \$248.3 million in acquisition costs including \$202.3 million for the purchase of retail gas stations and supply rights from ExxonMobil and \$46.0 million in terminal acquisition costs related to the acquisition of three refined petroleum products terminals in Newburgh, New York. In addition, we had \$10.6 million in expansion capital expenditures which consisted of \$7.7 million in expenditures related to our Albany, New York terminal and ethanol expansion project, \$1.8 million in terminal and computer equipment at our three refined petroleum products terminals in Newburgh, New York, \$0.5 million in bio-fuel conversion costs at our Chelsea, Massachusetts terminal and \$0.6 million in other expansion capital expenditures. The \$7.7 million in expenditures related to our Albany terminal include costs related to our program to bring previously out-of-permit tanks back online, the installation of a marine vapor recovery system to allow for barge/vessel loading of gasoline and ethanol and the effort to convert two distillate storage tanks to gasoline.

In 2009, expansion capital expenditures included approximately \$3.2 million at the Albany, New York terminal in costs related to our program to bring previously out-of-permit tanks back online and to dock expansion, \$0.9 million in additional terminal equipment at the Providence, Rhode Island terminal, \$0.2 million in automation costs at our leased storage facility in Long Island, New York and \$0.2 million in other expansion capital expenditures.

We believe that we will have sufficient cash flow from operations, borrowing capacity under our credit agreement and the ability to issue additional common units and/or debt securities to meet our financial commitments, debt service obligations, contingencies and anticipated capital expenditures. However, we are subject to business and operational risks that could adversely affect our cash flow. A material decrease in our cash flows would likely produce an adverse effect on our borrowing capacity as well as our ability to issue additional common units and/or debt securities.

Cash Flow (in thousands)

| | Year Ended December 31, | | |
|---|--------------------------------|--------------|-------------|
| | 2011 | 2010 | 2009 |
| Net cash used in operating activities | \$ (17,357) | \$ (87,194) | \$ (61,129) |
| Net cash used in investing activities | \$ (13,369) | \$ (262,997) | \$ (9,062) |
| Net cash provided by financing activities | \$ 32,693 | \$ 351,890 | \$ 69,908 |

Cash flow from operating activities generally reflects our net income, as well as balance sheet changes arising from inventory purchasing patterns, the timing of collections on our accounts receivable, the seasonality of our business, fluctuations in refined petroleum product prices, our working capital requirements and general market conditions.

Net cash used in operating activities was \$17.4 million for 2011 compared to \$87.2 million for 2010, for a year-over-year decrease in cash used in operating activities of \$69.8 million.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

During 2011, we experienced increases in refined petroleum product and renewable fuel prices compared to 2010 and, as a result, we funded additional working capital requirements. Primarily due to the rise in prices, we had increases in the carrying values in inventories of \$77.3 million, accounts receivable of \$68.6 million and accounts payable of \$132.3 million. Net cash used in operating activities was offset by \$18.7 million in net income for 2011.

Comparatively, during 2010, we experienced increases in refined petroleum products prices compared to 2009, and we funded additional working capital requirements due to our 2010 Acquisitions. For 2010 compared to 2009, we had increases of \$217.1 million in accounts receivable, \$120.9 million in inventories and \$200.0 million in accounts payable. In addition, in 2010, the contracts supporting our forward fixed price hedge program required margin payments of \$10.8 million to the NYMEX due to market direction, while similar hedging activity in 2009 provided funds from the NYMEX of \$171.9 million. Net cash used in operating activities was offset by net income of \$27.0 million and \$34.1 million for 2010 and 2009, respectively.

In addition, through the use of regulated exchanges or derivatives, we seek to maintain a position that is substantially hedged with respect to our inventories. Specifically, for 2011, the contracts supporting our forward fixed price hedge program required margin payments of \$10.9 million to the NYMEX due to market direction, compared to \$10.8 million for 2010.

Net cash used in investing activities was \$13.4 million for 2011 and included \$4.2 million in maintenance capital expenditures and \$11.7 million in expansion capital expenditures, offset by approximately \$2.5 million in proceeds from the sale of property and equipment.

Net cash used in investing activities was \$263.0 million for 2010 and included \$4.1 million in maintenance capital expenditures and \$258.9 million in expansion capital expenditures.

Net cash used in investing activities was \$9.1 million for 2009 and included \$4.6 million in maintenance capital expenditures and \$4.5 million in expansion capital expenditures. See " Capital Expenditures" for a discussion of our expansion capital expenditures for the years ended December 31, 2011, 2010 and 2009.

Net cash provided by financing activities was \$32.7 million for 2011 and primarily included \$69.6 million in net proceeds from our February 2011 public offering of common units and \$7.2 million net borrowings on our credit facilities, offset by \$42.8 million in cash distributions to our common and subordinated unitholders and our general partner, \$0.7 million in repurchased units held for tax obligations related to units distributed under the LTIP, and \$0.6 million in the repurchase of common units pursuant to our repurchase program for future satisfaction of our general partner's obligations. Our general partner's obligations include anticipated obligations to deliver common units under the LTIP and meeting the general partner's obligations under existing employment agreements and other employment related obligations of the general partner.

Net cash provided by financing activities was \$351.9 million for 2010 and included net borrowings on our credit facilities of \$252.9 million and \$132.2 million in net proceeds from our public offerings of common units, offset by \$31.9 million in cash distributions to our common and subordinated unitholders and our general partner, \$0.9 million in the repurchases of common units pursuant to our repurchase program for future satisfaction of our general partner's obligations and \$0.4 million in repurchased units held for tax obligations related to units distributed under the LTIP.

Net cash provided by financing activities was \$69.9 million for 2009 and primarily included \$100.3 million in net proceeds from our credit facilities, offset by \$26.1 million in cash distributions to our common and subordinated unitholders and our general partner, \$4.0 million in the repurchases of common units pursuant to our repurchase program for future satisfaction of our general partner's obligations and \$0.3 million in repurchased units held for tax obligations related to units distributed under the LTIP.

Table of Contents

Credit Agreement

On January 26, 2011, we requested an increase in the working capital revolving credit facility in an amount equal to \$100.0 million, and on February 11, 2011, certain lenders under the credit agreement committed to the \$100.0 million increase which increased the total available commitments under the credit agreement to \$1.25 billion. We repay amounts outstanding and reborrow funds based on our working capital requirements and, therefore, classify as a current liability the portion of the working capital revolving credit facility we expect to pay down during the course of the year. The long-term portion of the working capital revolving credit facility is the amount we expect to be outstanding during the entire year. The credit agreement will mature on May 14, 2014.

There are two facilities under our credit agreement:

a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of our borrowing base and \$900.0 million; and

a \$350.0 million revolving credit facility to be used for acquisitions and general corporate purposes.

In addition, the credit agreement has an accordion feature whereby we may request on the same terms and conditions of our then existing credit agreement, provided no Event of Default (as defined in the credit agreement) then exists, an increase to the revolving credit facility, the working capital revolving credit facility, or both, by up to another \$100.0 million, for a total credit facility of up to \$1.35 billion. Any such request for an increase by us must be in a minimum amount of \$5.0 million, and the revolving credit facility may not be increased by more than \$50.0 million. We cannot provide assurance, however, that our lending group will agree to fund any request by us for additional amounts in excess of the total available commitments of \$1.25 billion.

Availability under our working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time and based on specific advance rates on eligible current assets. Under the credit agreement, our borrowings under the working capital revolving credit facility cannot exceed the then current borrowing base. Availability under our borrowing base may be affected by events beyond our control, such as changes in refined petroleum product prices, collection cycles, counterparty performance, advance rates and limits and general economic conditions. These and other events could require us to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. We can provide no assurance that such waivers, amendments or alternative financing could be obtained, or, if obtained, would be on terms acceptable to us.

During the period from January 1, 2009 through May 13, 2010, borrowings under the working capital revolving credit facility bore interest at (1) the Eurodollar rate plus 1.75% to 2.25%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the previous credit agreement, which in turn depended upon the Combined Interest Coverage Ratio (as defined in the previous credit agreement). Borrowings under the revolving credit facility bore interest at (1) the Eurodollar rate plus 2.25% to 2.75%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the previous credit agreement, which in turn depended upon the Combined Interest Coverage Ratio under the previous credit agreement.

Commencing May 14, 2010, borrowings under the working capital revolving credit facility bear interest at (1) the Eurodollar rate plus 2.50% to 3.00%, (2) the cost of funds rate plus 2.50% to 3.00%, or (3) the base rate plus 1.50% to 2.00%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Utilization Amount (as defined in the credit agreement).

During the period from May 14, 2010 through September 7, 2010, borrowings under the revolving credit facility bore interest at (1) the Eurodollar rate plus 3.00% to 3.25%, (2) the cost of funds rate plus 3.00% to 3.25%, or (3) the base rate plus 2.00% to 2.25%, each depending on the pricing level

Table of Contents

provided in the credit agreement, which in turn depended upon the Combined Senior Secured Leverage Ratio (as defined in the credit agreement).

Commencing September 8, 2010, borrowings under the revolving credit facility bear interest at (1) the Eurodollar rate plus 3.00% to 3.875%, (2) the cost of funds rate plus 3.00% to 3.875%, or (3) the base rate plus 2.00% to 2.875%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Combined Total Leverage Ratio (as defined in the credit agreement).

The average interest rates for the credit agreement were 4.1%, 3.7% and 3.6% for the years ended December 31, 2011, 2010 and 2009, respectively.

We incur a letter of credit fee of 2.50% - 3.00% per annum for each letter of credit issued. In addition, we incur a commitment fee on the unused portion of each facility under the credit agreement equal to 0.50% per annum.

As of December 31, 2011, we had total borrowings outstanding under the credit agreement of \$793.9 million, including \$205.0 million outstanding on our revolving credit facility. In addition, we had outstanding letters of credit of \$240.2 million. Subject to borrowing base limitations, the total remaining availability for borrowings and letters of credit was \$215.9 million and \$252.6 million at December 31, 2011 and 2010, respectively.

The credit agreement imposes financial covenants that require us to maintain certain minimum working capital amounts, capital expenditure limits, a minimum EBITDA, a minimum combined interest coverage ratio, a maximum senior secured leverage ratio and a maximum total leverage ratio. On July 19, 2011, we entered into a second amendment to the credit agreement which amended the credit agreement and modified certain financial covenants. We were in compliance with the foregoing covenants at December 31, 2011. The credit agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the credit agreement). In addition, the credit agreement limits distributions by us to our unitholders to the amount of our Available Cash (as defined in the partnership agreement).

Our obligations under the credit agreement are secured by substantially all of our assets and the assets of our operating company and operating subsidiaries.

On January 13, 2012, we entered into a third amendment to the credit agreement pursuant to which, in addition to borrowings that are permitted under our \$350.0 million revolving credit facility for general corporate purposes, we may borrow additional proceeds in an amount of not more than \$75.0 million to be used to finance general corporate purposes, including working capital needs, so long as the proceeds are less than or equal to the amount by which availability under the then existing borrowing base exceeds \$900.0 million. The third amendment is effective during the period from January 13, 2012 through the earlier of (a) the consummation date of our proposed acquisition of 100% of the equity interests of Alliance from AE Holdings Corp. and (b) March 13, 2012. On March 1, 2012, we completed the acquisition of Alliance.

On January 31, 2012 and in connection with the acquisition of Alliance, we entered into a fourth amendment to the credit agreement (the "Fourth Amendment") which amended the credit agreement. The Fourth Amendment became effective on March 1, 2012 upon the consummation of the acquisition of Alliance (the "Fourth Amendment Effective Date") and modified the following provisions:

Exercise of Existing Accordion and Increase to Revolving Credit Facility In connection with the acquisition of Alliance, we increased in an amount equal to \$150.0 million the revolving credit facility for a total credit facility of up to \$1.4 billion. Certain lenders under the credit agreement, as well as six new lenders, agreed to fund said \$150.0 million increase. The \$150.0 million increase was accomplished

Table of Contents

by two parts: (i) the exercise of the existing accordion provisions of the credit agreement in an amount equal to \$100.0 million; and (ii) an additional \$50.0 million increase to the revolving credit facility.

Request for Increase (New Accordion) Provided there exists no Default (as defined in the credit agreement), we may request an additional increase to the working capital revolving credit facility by up to an additional \$100.0 million, for a total credit facility of up to \$1.5 billion. Any such request for an increase must be in a minimum amount of \$5.0 million.

Swing Line Loans A swing line has been added to the credit facility pursuant to which Bank of America, N.A., as the swing line lender, may make swing line loans in an aggregate amount equal to the lesser of (a) \$35.0 million and (b) the Aggregate WC Commitments (as such term is defined in the credit agreement). Swing line loans will bear interest on the Base Rate (as such term is defined in the credit agreement).

Financial Covenants

- (i) Minimum Combined EBITDA (as defined in the Fourth Amendment) as at the end of each fiscal quarter from and after March 31, 2012 increased from not less than \$75.0 million to not less than \$110.0 million. The calculation of the minimum Combined EBITDA covenant includes the pro forma effect of a Permitted Acquisition (as defined in the credit agreement) as if such acquisition occurred on the first date of the test period.
- (ii) Prior to the Fourth Amendment Effective Date, the Combined Senior Secured Leverage Ratio (as defined in the credit agreement) as at the end of the fiscal quarter ending March 31, 2012 shall not be greater than 2.75:1.00. From and after the Fourth Amendment Effective Date but prior to the occurrence of the Covenant Reduction Date (as defined below), the Combined Senior Secured Leverage Ratio shall not be greater than (a) 3.50:1.00 as at the end of each of the fiscal quarters ending March 31, 2012 and June 30, 2012, (b) 3.25:1.00 as at the end of the fiscal quarter ending September 30, 2012, (c) 3.00:1.00 as at the end of the fiscal quarter ending December 31, 2012 and (d) 2.75:1.00 as at the end of the fiscal quarter ending March 31, 2013 and for each fiscal quarter ending thereafter. From and after the occurrence of the Covenant Reduction Date, the Combined Senior Secured Leverage Ratio shall not be greater than 2.75:1.00 as at the end of each fiscal quarter. The "Covenant Reduction Date" means the last day of the fiscal quarter which occurs immediately after the fiscal quarter in which we receive proceeds of not less than \$150.0 million from any Equity Issuance or the issuance of Senior Unsecured Notes or unsecured Subordinated Debt (as such terms are defined in the credit agreement).

Capital Expenditures The ceiling for aggregate Capital Expenditures (as defined in the credit agreement) for the fiscal year ending December 31, 2012 and thereafter increased from \$30.0 million for any fiscal year to \$40.0 million.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Impact of Inflation

Inflation in the United States has been relatively low in recent years and did not have a material impact on our results of operations for the years ended December 31, 2011, 2010 and 2009.

Environmental Matters

Our business of supplying refined petroleum products, renewable fuels and crude oil involves a number of activities that are subject to extensive and stringent environmental laws. For a complete

Table of Contents

discussion of the environmental laws and regulations affecting our business, please read Items 1 and 2, "Business and Properties Environmental." For additional information regarding our environmental liabilities, see Note 9 of Notes to Consolidated Financial Statements included elsewhere in this report.

Critical Accounting Policies and Estimates

A summary of the significant accounting policies that we have adopted and followed in the preparation of our consolidated financial statements is detailed in Note 2 of Notes to Consolidated Financial Statements. Certain of these accounting policies require the use of estimates. These estimates are based on our knowledge and understanding of current conditions and actions that we may take in the future. Changes in these estimates will occur as a result of the passage of time and the occurrence of future events. Subsequent changes in these estimates may have a significant impact on our financial condition and results of operations and are recorded in the period in which they become known. We have identified the following estimates that, in our opinion, are subjective in nature, require the exercise of judgment and involve complex analysis:

Inventory

Except for our convenience store inventory, we hedge substantially all of our inventory through futures contracts and swap agreements. Hedges are executed when inventory is purchased and are identified with that specific inventory. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales. All hedged inventory is valued using the lower of cost, as determined by specific identification, or market. Prior to sale, hedges are removed from specific barrels of inventory, and the then unhedged inventory is sold and accounted for on a first-in, first-out basis. In addition to our own inventory, we have exchange agreements with unrelated third party suppliers, whereby we may draw inventory from these other suppliers and suppliers may draw inventory from us. Positive exchange balances are accounted for as accounts receivable. Negative exchange balances are accounted for as accounts payable. Exchange transactions are valued using current quoted market prices. In addition, we have convenience store inventory which is carried at the lower of historical cost or market.

Leases

We have a throughput agreement with Global Petroleum Corp., one of our affiliates, with respect to its terminal in Revere, Massachusetts. This agreement is accounted for as an operating lease. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Throughput Agreement with Global Petroleum Corp." We also have entered into terminal and throughput lease arrangements with various unrelated oil terminals, certain of which arrangements have minimum usage requirements. Please read Items 1 and 2, "Business and Properties Storage." In addition, we lease certain gas stations from third parties under long-term arrangements with various expiration dates.

We have future commitments, principally for office space and computer equipment, under the terms of operating lease arrangements. We have rental income from gas stations leased to independent dealers and lease income from space leased to several unrelated third parties at several of our terminals. Additionally, we have capital leases for other computer equipment and leasehold improvements. Accounting and reporting guidance for leases requires that leases be evaluated and classified as operating or capital leases for financial reporting purposes. The lease term used for lease evaluation includes option periods only in instances in which the exercise of the option period can be reasonably assured and failure to exercise such options would result in an economic penalty.

Table of Contents

Revenue Recognition

Sales relate primarily to the sale of refined petroleum products, renewable fuels, natural gas and crude oil and are recognized along with the related receivable upon delivery, net of applicable provisions for discounts and allowances. Allowances for cash discounts are recorded as a reduction of sales at the time of sale based on the estimated future outcome. We may also provide for shipping costs at the time of sale, which are included in cost of sales. The amounts recorded for bad debts are generally based upon historically derived percentages while also factoring in any new business conditions that might impact the historical analysis, such as market conditions and bankruptcies of particular customers. Bad debt provisions are included in selling, general and administrative expenses. Convenience store products are recognized net of applicable provisions for discounts and allowances upon delivery, generally, at the point of sale. Rental income is recognized on a straight-line basis over the term of the lease.

Revenue is not recognized on exchange agreements, which are entered into primarily to acquire various refined petroleum products, renewable fuels and crude oil of a desired quality or to reduce transportation costs by taking delivery of products closer to our end markets. Any net differential for exchange agreements is recorded as a nonmonetary adjustment of inventory costs in the purchases component of cost of sales in the statements of income.

Derivative Financial Instruments

Accounting and reporting guidance for derivative instruments and hedging activities requires that an entity recognize derivatives as either assets or liabilities on the balance sheet and measure the instruments at fair value. Changes in the fair value of the derivative are to be recognized currently in earnings, unless specific hedge accounting criteria are met.

Fair Value Hedges The fair value of our derivatives is determined through the use of independent markets and is based upon the prevailing market prices of such instruments at the date of valuation. We utilize futures contracts and other derivative instruments to minimize or hedge the impact of commodity price changes on our inventories and forward fixed price commitments and for the receipt or delivery of refined petroleum products, renewable fuels and crude oil in future periods. The contracts are entered into in the normal course of business to reduce risk of loss of inventory on hand, which could result through fluctuations in market prices. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales.

We also use futures contracts and swap agreements to hedge exposure under forward fixed price purchase and sale commitments. These agreements are intended to hedge the cost component of virtually all of our forward fixed price purchase and sale commitments. Changes in the fair value of these contracts and agreements, as well as offsetting gains or losses on the forward fixed price purchase and sale commitments, are recognized in earnings as an increase or decrease in cost of sales. Gains and losses on net product margin from forward fixed price purchase and sale commitments are reflected in earnings as an increase or decrease in cost of sales as these contracts mature.

We also market and sell natural gas. We generally conduct business by entering into forward purchase commitments for natural gas only when we simultaneously enter into arrangements for the forward sale of product for physical delivery to third-party users. Through these transactions, which establish an immediate margin, we seek to maintain a position that is substantially balanced between firm forward purchase and sales commitments. Natural gas is generally purchased and sold at fixed prices and quantities. Current price quotes from actively traded markets are used in all cases to determine the contracts' fair value. Changes in the fair value of these contracts are recognized in earnings as an increase or decrease in cost of sales.

Table of Contents

Cash Flow Hedges We link all hedges that are designated as cash flow hedges to forecasted transactions. To the extent such hedges are effective, the changes in the fair value of the derivative instrument are reported as a component of other comprehensive income and reclassified into interest expense or interest income in the same period during which the hedged transaction affects earnings.

We executed two zero premium interest rate collars with major financial institutions. Each collar is designated and accounted for as a cash flow hedge. The first collar, which expired on May 14, 2011, was used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings. The second collar, which expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on our \$100.0 million one-month LIBOR-based borrowings on the working capital revolving credit facility (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate. Under the second collar, we capped our exposure at a maximum one-month LIBOR rate of 5.50% and established a minimum floor rate of 2.70%. Hedge effectiveness was assessed at inception is assessed quarterly, prospectively and retrospectively, using regression analysis. The changes in the fair value of the second collar are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR rate above and below the collar's strike rates. Changes in the fair values of the collars were recorded as either an asset or a liability with a corresponding amount recorded in accumulated other comprehensive income in the accompanying consolidated balance sheets.

In October 2009, we executed a forward starting interest rate swap with a major financial institution. The swap, which expires on May 16, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the revolving credit facility at a fixed rate of 3.93%. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, using regression analysis. The changes in the fair value of the swap are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR swap curve.

In April 2011, we executed an interest rate cap with a major financial institution. The rate cap, which expires on April 13, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the working capital revolving credit facility. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, by (i) comparing the critical terms of the rate cap and the hedged forecasted transactions, (ii) evaluating the counterparty's ability to honor its obligations under the rate cap agreement; and (iii) ensuring the interest payment cash flows remain probable of occurring. The changes in the fair value of the rate cap are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR rate above the rate cap's strike rate.

Valuation of Intangibles and Other Long-Lived Assets

We assess the carrying value of our long-lived assets, including intangible assets, whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important include, but are not limited to, significant underperformance relative to historical or projected future results, significant negative industry factors and significant changes in strategy or operations that negatively affect the utilization of our long-lived assets. If an impairment review is triggered, we evaluate the carrying value of intangible assets based on the projected cash flows of the particular asset. The amount of impairment, if any, is measured based on fair value, which is determined using projected discounted future operating cash flows. The cash flows that are used contain our best estimates, using appropriate and customary assumptions and projections at the time. If

Table of Contents

the cash flow estimates or the significant operating assumptions upon which they are based change in the future, we may be required to record additional impairment charges.

Environmental and Other Liabilities

We record accrued liabilities for all direct costs associated with the estimated resolution of contingencies at the earliest date at which it is deemed probable that a liability has been incurred and the amount of such liability can be reasonably estimated. Costs accrued are estimated based upon an analysis of potential results, assuming a combination of litigation and settlement strategies and outcomes.

Estimated losses from environmental remediation obligations generally are recognized no later than completion of the remedial feasibility study. Loss accruals are adjusted as further information becomes available or circumstances change. Costs of future expenditures for environmental remediation obligations are not discounted to their present value. Recoveries of environmental remediation costs from other parties are recognized as assets when their receipt is deemed probable.

We are subject to other contingencies, including legal proceedings and claims arising out of our businesses that cover a wide range of matters, including, among others, environmental matters and contract and employment claims. Environmental and other legal proceedings may also include matters with respect to businesses we previously owned. Further, due to the lack of adequate information and the potential impact of present regulations and any future regulations, there are certain circumstances in which no range of potential exposure may be reasonably estimated. Please read Item 3, "Legal Proceedings."

Related Party Transactions

A discussion of related party transactions is included in Note 16 of Notes to Consolidated Financial Statements included elsewhere in this report.

Recent Accounting Pronouncements

A description and related impact expected from the adoption of certain new accounting pronouncements is provided in Note 2 of Notes to Consolidated Financial Statements included elsewhere in this report.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

Market risk is the risk of loss arising from adverse changes in market rates and prices. The principal market risks to which we are exposed are interest rate risk and commodity risk. We utilize an interest rate collar, an interest rate swap and an interest rate cap to manage exposure to interest rate risk and various derivative instruments to manage exposure to commodity risk.

Interest Rate Risk

We utilize variable rate debt and are exposed to market risk due to the floating interest rates on our credit agreement. Therefore, from time to time, we utilize interest rate collars and swaps to hedge interest obligations on specific and anticipated debt issuances.

On February 11, 2011, the total available commitments under our credit agreement were increased to \$1.25 billion. Please read Item 7, "Management's Discussion and Analysis Liquidity and Capital Resources Credit Agreement" for information on interest rates related to our borrowings.

As of December 31, 2011, we had total borrowings outstanding under the credit agreement of \$793.9 million. The impact of a 1% increase in the interest rate on this amount of debt would have

Table of Contents

resulted in an increase in interest expense, and a corresponding decrease in our results of operations, of approximately \$7.9 million annually, assuming, however, that our indebtedness remained constant throughout the year.

On September 29, 2008, we executed a zero premium interest rate collar with a major financial institution. The collar, which became effective on October 2, 2008 and expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on our \$100.0 million one-month LIBOR-based borrowings on the working capital revolving credit facility (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate. Under the collar, we capped our exposure at a maximum one-month LIBOR rate of 5.50% and established a minimum floor rate of 2.70%. Whenever the one-month LIBOR rate is greater than the cap, we receive from the financial institution the difference between the cap and the current one-month LIBOR rate on \$100.0 million of one-month LIBOR-based borrowings. Conversely, whenever the one-month LIBOR rate is lower than the floor, we remit to the financial institution the difference between the floor and the current one-month LIBOR rate on the \$100.0 million of one-month LIBOR-based borrowings. As of December 31, 2011, the one-month LIBOR rate of 0.27% was lower than the floor rate. As a result, in January 2012, we remitted to the financial institution the difference between the floor rate and the current rate which amounted to approximately \$202,400.

In October 2009, we executed an interest rate swap with a major financial institution. The swap, which became effective on May 16, 2011 and expires on May 16, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the revolving credit facility at a fixed rate of 3.93%.

In addition, on April 8, 2011, we executed an interest rate cap with a major financial institution. The rate cap, which became effective on April 13, 2011 and expires on April 13, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the working capital revolving credit facility.

See Notes 2 and 3 of Notes to Consolidated Financial Statements for additional information on our derivative instruments.

Commodity Risk

We hedge our exposure to price fluctuations with respect to refined petroleum products, renewable fuels, crude oil and blendstocks in storage and expected purchases and sales of these commodities. The derivative instruments utilized consist primarily of futures contracts traded on the NYMEX, CME and ICE and over-the-counter transactions, including swap agreements entered into with established financial institutions and other credit-approved energy companies. Our policy is generally to purchase only products for which we have a market and to structure our sales contracts so that price fluctuations do not materially affect our profit. While our policies are designed to minimize market risk, as well as inherent basis risk, exposure to fluctuations in market conditions remains. Except for the controlled trading program discussed below, we do not acquire and hold futures contracts or other derivative products for the purpose of speculating on price changes that might expose us to indeterminable losses.

While we seek to maintain a position that is substantially balanced within our product purchase activities, we may experience net unbalanced positions for short periods of time as a result of variances in daily sales and transportation and delivery schedules as well as logistical issues associated with inclement weather conditions. In connection with managing these positions and maintaining a constant presence in the marketplace, both necessary for our business, we engage in a controlled trading program for up to an aggregate of 250,000 barrels of products at any one point in time.

Table of Contents

We utilize futures contracts and other derivative instruments to minimize or hedge the impact of commodity price changes on our inventories and forward fixed price commitments. Any hedge ineffectiveness is reflected in our results of operations. We utilize regulated exchanges, including the NYMEX, CME and ICE, which are regulated exchanges for the commodities that each trades, thereby reducing potential delivery and supply risks. Generally, our practice is to close all exchange positions rather than to make or receive physical deliveries. With respect to other energy products such as ethanol, which may not have a correlated exchange contract, we enter into derivative agreements with counterparties that we believe have a strong credit profile, in order to hedge market fluctuations and/or lock-in margins relative to our commitments.

At December 31, 2011, the fair value of all of our commodity risk derivative instruments and the change in fair value that would be expected from a 10% price increase or decrease are shown in the table below (in thousands):

| | Fair Value at December 31, 2011 | Gain (Loss) | |
|-------------------------------|---------------------------------------|---------------------------------|---------------------------------|
| | | Effect of 10% Price Increase | Effect of 10% Price Decrease |
| Futures contracts | \$ 2,983 | \$ (62,542) | \$ 62,542 |
| Swaps, options and other, net | 116 | (1,064) | 1,214 |
| | \$ 3,099 | \$ (63,606) | \$ 63,756 |

The fair values of the futures contracts are based on quoted market prices obtained from the NYMEX and the CME. The fair value of the swaps and option contracts are estimated based on quoted prices from various sources such as independent reporting services, industry publications and brokers. These quotes are compared to the contract price of the swap, which approximates the gain or loss that would have been realized if the contracts had been closed out at December 31, 2011. For positions where independent quotations are not available, an estimate is provided, or the prevailing market price at which the positions could be liquidated is used. All hedge positions offset physical exposures to the physical market; none of these offsetting physical exposures are included in the above table. Price-risk sensitivities were calculated by assuming an across-the-board 10% increase or decrease in price regardless of term or historical relationships between the contractual price of the instruments and the underlying commodity price. In the event of an actual 10% change in prompt month prices, the fair value of our derivative portfolio would typically change less than that shown in the table due to lower volatility in out-month prices. We have a daily margin requirement to maintain a cash deposit with our brokers based on the prior day's market results on open futures contracts. The balance of this deposit will fluctuate based on our open market positions and the commodity exchange's requirements. The brokerage margin balance was \$43.9 million at December 31, 2011.

We are exposed to credit loss in the event of nonperformance by counterparties of futures contracts, forward contracts and swap agreements. We anticipate some nonperformance by some of these counterparties which, in the aggregate, we do not believe at this time will have a material adverse effect on our financial condition, results of operations or cash available for distribution to our unitholders. Futures contracts, the primary derivative instrument utilized, are traded on regulated exchanges, greatly reducing potential credit risks. Exposure on swap and certain option agreements is limited to the amount of the recorded fair value as of the balance sheet dates. We utilize primarily two clearing brokers, both major financial institutions, for all NYMEX derivative transactions and the right of offset exists. Accordingly, the fair value of all derivative instruments is displayed on a net basis.

Item 8. Financial Statements and Supplementary Data.

The information required here is included in the report as set forth in the "Index to Financial Statements" on page F-1.

Table of Contents

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Under the supervision and with the participation of our principal executive officer and principal financial officer, management evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act). Based on that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of December 31, 2011.

Internal Control Over Financial Reporting

Management's Annual Report

We are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act). Internal control over financial reporting is the process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. There are inherent limitations in the effectiveness of internal control over financial reporting, including the possibility that misstatements may not be prevented or detected. Accordingly, even effective internal controls over financial reporting can provide only reasonable assurance with respect to financial statement preparation.

Under the supervision and with the participation of our principal executive officer and principal financial officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, management believes that our internal control over financial reporting was effective as of December 31, 2011.

Ernst & Young LLP, our independent registered public accounting firm, has issued an attestation report on management's assessment of the effectiveness of our internal control over financial reporting, as stated in their report which is included herein.

Changes in Internal Control

There has not been any change in our internal control over financial reporting that occurred during the quarter ended December 31, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors of Global GP LLC
and Unitholders of Global Partners LP

We have audited Global Partners LP's internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Global Partners LP's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Global Partners LP maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Global Partners LP, as of December 31, 2011 and 2010, and the related consolidated statements of income, partners' equity and cash flows for each of the three years in the period ended December 31, 2011, and our report dated March 12, 2012 expressed an unqualified opinion thereon.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Global GP LLC, our general partner, manages our operations and activities on our behalf. Our general partner is not elected by our unitholders and is not subject to re-election in the future. Affiliates of the Slifka family own 100% of the ownership interests in our general partner. Our general partner is controlled by Alfred A. Slifka and Richard Slifka directly and through their beneficial ownership of entities that own ownership interests in our general partner. Eric Slifka beneficially owns an interest in our general partner. Unitholders are not entitled to elect the directors of our general partner or directly or indirectly participate in our management or operation. Our general partner is liable, as general partner, for all of our debts (to the extent not paid from our assets), except for indebtedness or other obligations that are made specifically nonrecourse to it. Whenever possible, our general partner intends to incur indebtedness or other obligations that are nonrecourse.

Three members of the board of directors of our general partner serve on a conflicts committee to review specific matters that the board believes may involve conflicts of interest. The conflicts committee determines if the resolution of the conflict of interest is fair and reasonable to us. Members of the conflicts committee may not be officers or employees of our general partner or directors, officers or employees of its affiliates and must meet the independence and experience standards established by the New York Stock Exchange ("NYSE") and the Securities Exchange Act of 1934. Any matters approved by the conflicts committee will be conclusively deemed to be fair and reasonable to us, approved by all of our partners and not a breach by our general partner of any duties it may owe us or our unitholders. In addition, we have a separately-designated standing audit committee established in accordance with the Securities Exchange Act of 1934 and a compensation committee. The three independent members of the board of directors of our general partner, Messrs. McKown, McCool and Watchmaker, serve as the sole members of the conflicts, audit and compensation committees.

Even though most companies listed on the NYSE are required to have a majority of independent directors serving on the board of directors of the listed company and establish and maintain an audit committee, a compensation committee and a nominating/corporate governance committee, each consisting solely of independent directors, the NYSE does not require a listed limited partnership like us to have a majority of independent directors on the board of directors of our general partner or establish a compensation committee or a nominating/corporate governance committee.

No member of the audit committee is an officer or employee of our general partner or director, officer or employee of any affiliate of our general partner. Furthermore, each member of the audit committee is independent as defined in the listing standards of the NYSE. The board of directors of our general partner has determined that a member of the audit committee, namely Kenneth Watchmaker, is an "audit committee financial expert" as defined by the SEC.

Among other things, the audit committee is responsible for reviewing our external financial reporting, including reports filed with the SEC, engaging and reviewing our independent auditors and reviewing procedures for internal auditing and the adequacy of our internal accounting controls.

We are managed and operated by the directors and executive officers of our general partner. Our operating personnel are employees of our general partner or certain of our operating subsidiaries.

All of our executive officers devote substantially all of their time to managing our business and affairs, but from time to time perform services for certain of our affiliates. Please read Item 13, "Certain Relationships and Related Transactions, and Director Independence Relationship of Management with Global Petroleum Corp., AE Holdings Corp. and Alliance Energy LLC." Our non-management directors devote as much time as is necessary to prepare for and attend board of directors and committee meetings.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

The following table shows information for the directors and executive officers of our general partner.

| Name | Age | Position with Global GP LLC |
|-----------------------|-----|---|
| Alfred A. Slifka | 79 | Chairman |
| Richard Slifka | 71 | Vice Chairman |
| Eric Slifka | 46 | President, Chief Executive Officer and Director |
| Andrew Slifka | 43 | Executive Vice President |
| Thomas J. Hollister | 57 | Chief Operating Officer, Chief Financial Officer and Director |
| Edward J. Faneuil | 59 | Executive Vice President, General Counsel and Secretary |
| Charles A. Rudinsky | 64 | Executive Vice President and Chief Accounting Officer |
| David K. McKown | 74 | Director |
| Robert J. McCool | 73 | Director |
| Kenneth I. Watchmaker | 69 | Director |

Alfred A. Slifka was elected Chairman of the Board of our general partner in March 2005. He had been employed with Global Companies LLC or its predecessors for over fifty years. Mr. Slifka served as Chairman of the board of directors of Global Companies LLC since its formation in December 1998. Currently Mr. Slifka serves as Chairman of the board of directors of AE Holdings Corp., a privately held affiliated company. Mr. Slifka also is a shareholder, a director and the President of Global Petroleum Corp., a privately held affiliated company that owns, operates and leases to us our petroleum products storage terminal located in Revere, Massachusetts. Mr. Slifka currently serves on the boards of the New England Fuel Institute, Morse Life, Hebrew Senior Life, and Children's Hospital. He is a past member of the boards of directors of numerous other civic and charitable organizations. Mr. Slifka's extensive knowledge of the oil industry in general and of our history, customers and suppliers make him uniquely qualified to serve as our Chairman of the Board.

Richard Slifka was elected Vice Chairman of the Board of our general partner in March 2005. He had been employed with Global Companies LLC or its predecessors since 1963. Mr. Slifka served as Treasurer and a director of Global Companies LLC since its formation in December 1998. Currently Mr. Slifka serves as Vice Chairman of the board of directors of AE Holdings Corp., a privately held affiliated company. Mr. Slifka also is a shareholder, a director and the Treasurer of Global Petroleum Corp., a privately held affiliated company that owns, operates and leases to us our petroleum products storage terminal located in Revere, Massachusetts. Mr. Slifka currently serves on the boards of directors of New England Fuel Institute and Independent Fuel Terminal Operators Association (where he also serves as president). He also currently serves on the board of directors of St. Francis House and the board of trustees of Boston Medical Center. He has been a director of the National Multiple Sclerosis Society since 1988. Mr. Slifka's extensive knowledge of the oil industry in general and of our history, customers and suppliers make him uniquely qualified to serve as our Vice Chairman of the Board. Alfred A. Slifka and Richard Slifka are brothers.

Eric Slifka was elected President, Chief Executive Officer and a director of our general partner in March 2005. He has been employed with Global Companies LLC or its predecessors since 1987. Mr. Slifka served as President and Chief Executive Officer and a director of Global Companies LLC since July 2004 and as Chief Operating Officer and a director of Global Companies LLC from its formation in December 1998 to July 2004. Prior to 1998, Mr. Slifka held various senior positions in the accounting, supply, distribution and marketing departments of the predecessors to Global Companies LLC. Mr. Slifka is a member of the board of directors and an owner of AE Holdings Corp., a privately held affiliated company. He currently serves as a member of the board of directors of the New York Oil Heat Association, the National Oilheat Research Alliance, New England Fuel Institute and the Energy Policy Research Foundation. He also is a member of the boards of directors of Massachusetts General Hospital Presidents Council, Massachusetts Youth Committed to Winning and Buckingham, Browne & Nichols. Mr. Slifka's extensive experience in all aspects of our business

Table of Contents

and his position as President and Chief Executive Officer of our general partner make him uniquely qualified to serve as a director of our general partner. Mr. Slifka is the son of Alfred A. Slifka and the nephew of Richard Slifka.

Andrew Slifka was elected to serve as an Executive Vice President of our general partner and as President of our Alliance Gasoline Division effective March 1, 2012. Prior to our acquisition of Alliance Energy LLC, he had been employed with Alliance Energy LLC or its predecessor, Alliance Energy Corp., in the following capacities: as President from November 2007 to March 2012, as Executive Vice President from 2003 to 2007, and as Vice President and General Manager for the Northeast Region from 1999 to 2003. Prior to 1999, Mr. Slifka held various positions in the supply, distribution and marketing departments of the predecessors to Global Companies LLC. He currently serves on the board of directors of Independent Oil Marketers Association and is a senior-level participant in various regional major branded petroleum programs, including serving as a representative to the Shell Regional Council. Mr. Slifka is the son of Richard Slifka and the nephew of Alfred A. Slifka.

Thomas J. Hollister was elected to serve as a director of our general partner in August 2009. He has served as Chief Operating Officer and Chief Financial Officer of our general partner since January 2007 and Chief Financial Officer of our general partner since July 2006, when he was first employed with our general partner. From 2005 to March 2006, Mr. Hollister served as Vice Chairman of Citizens Financial Group and as Chairman, President and Chief Executive Officer of Citizens Capital, Inc., Citizens Financial Group's private equity and venture capital business. From 2004 to 2005, he served as President and Chief Executive Officer of Charter One Bank. From 1998 to 2004 he served as President and Chief Executive Officer of Citizens Bank of Massachusetts. He is chair of the board of Tufts Medical Center and chair of the board of Wheaton College. Mr. Hollister currently serves on the board of directors of Brookline Bancorp, where he serves as audit chair. He is the former board chair of the Greater Boston Chamber of Commerce, the Initiative for a New Economy and the Massachusetts Community & Banking Council. He previously served on the boards of directors of the Massachusetts Bankers Association, Macomber Construction Company, the Massachusetts Housing Investment Corporation, and Savings Bank Life Insurance of Massachusetts. His extensive financial and executive experience, as well as his broad community ties, are assets for our board of directors.

Edward J. Faneuil was elected Executive Vice President, General Counsel and Secretary of our general partner in March 2005. He has been employed with Global Companies LLC or its predecessors since 1991. Mr. Faneuil served as General Counsel and Secretary of Global Companies LLC since its formation in December 1998. He currently serves on the board of directors of New England Fuel Institute and Independent Oil Marketers Association.

Charles A. Rudinsky was elected Senior Vice President and Chief Accounting Officer of our general partner in March 2005 and was named Executive Vice President and Treasurer in February 2007. Mr. Rudinsky continues to serve as Chief Accounting Officer and Co-Director of Mergers & Acquisitions. He has been employed with Global Companies LLC or its predecessors since 1988. Mr. Rudinsky served as Assistant Controller from 1988 to 1997 and as the Senior Controller and Chief Accounting Officer of Global Companies LLC since its formation in December 1998.

David K. McKown was elected to serve as a director of our general partner and as a member of the conflicts committee, the compensation committee and the audit committee of the board of directors of our general partner in October 2005. He has been a Senior Advisor to the Bank Loan Fund of Eaton Vance Management, whose principal business is creating, marketing and managing investment funds and providing investment management services to institutions and individuals, since 2000. In this capacity, he serves as a credit analyst and a research source for many of the changes in the accounting area, such as marked to market valuations, changes in bank lending rules and understanding of new financial products and derivatives. Mr. McKown retired in March 2000 having served as a Group Executive with BankBoston since 1993. Mr. McKown has been in the banking industry for over

Table of Contents

40 years, where he acquired extensive accounting, financial structuring and negotiation skills, having worked at BankBoston for over 33 years as a Senior Credit Officer, the head of a workout unit, the head of BankBoston's energy lending group and the head of BankBoston's real estate and corporate finance departments. He also was a managing director of BankBoston's private equity unit. Mr. McKown has served on the boards of four public companies and four private companies in a variety of industries. He currently serves as a director of Safety Insurance Group, Newcastle Investment Co. and several private companies. Mr. McKown previously served as a member of the board of directors of Equity Office Properties. Mr. McKown's extensive financial expertise and longstanding work in BankBoston's energy practice make him well qualified to serve as a director of our general partner.

Robert J. McCool was elected to serve as a director of our general partner, the chair of the conflicts committee of the board of directors of our general partner, and a member of the compensation and audit committees of the board of directors of our general partner in October 2005. He has been an Advisor to Tetco Inc., a privately held company in the energy industry, since 1967. Mr. McCool has been in the refined petroleum industry for over 40 years. He worked for Mobil Oil for 33 years in various positions including manager, planning and financial analysis, controller, manager U.S. lubricants operations and manager, budget and controls for U.S. acquisitions. Mr. McCool retired in 1998 having served as Executive Vice President responsible for Mobil Oil's North and South America marketing and refining business. Mr. McCool's extensive experience with the financial, accounting and managerial aspects of the refined petroleum products industry make him well qualified to serve as a director of our general partner.

Kenneth I. Watchmaker was elected to serve as a director of our general partner, a member of the conflicts and compensation committees of the board of directors of our general partner, and chair of the audit committee of the board of directors of our general partner in October 2005. He subsequently became chair of our general partner's compensation committee as well. He served as Executive Vice President and Chief Financial Officer of Reebok International Ltd. from 1995 until March 2006. Mr. Watchmaker joined Reebok International Ltd. in July 1992 as Executive Vice President, Operations and Finance, of the Reebok Brand. Prior to joining Reebok International Ltd., he was an audit partner at Ernst & Young LLP., where he had various responsibilities including partner in charge of merger and acquisition services, regional partner in charge of bankruptcy and insolvency services and regional partner in charge of retail industry services. Mr. Watchmaker also serves as a director and the chair of the audit committee of American Biltrite Inc. Mr. Watchmaker's broad audit and accounting experience, as well as his significant corporate and financial experience as a senior executive with public companies, make him a valuable member of our board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires directors and executive officers of our general partner and persons who beneficially own more than 10% of a class of our equity securities registered pursuant to Section 12 of the Securities Exchange Act of 1934 to file certain reports with the SEC and the NYSE concerning their beneficial ownership of such securities. Based solely upon a review of the copies of reports on Forms 3, 4 and 5 and amendments thereto furnished to us, or written representations that no reports on Form 5 were required, we believe that during the year ended December 31, 2011, the officers and directors of our general partner and beneficial owners of more than 10% of our equity securities registered pursuant to Section 12 were in compliance with the applicable requirements of Section 16(a), except for the following reports, all of which were filed late: (a) the Form 4 filed on behalf of Robert J. McCool on January 6, 2011, (b) the Form 4 filed on behalf of Kenneth I. Watchmaker on January 6, 2011, (c) the Form 4 filed on behalf of David K. McKown on January 6, 2011, (d) the Form 4 filed on behalf of Alfred A. Slifka on March 10, 2011, (e) the two (2) Form 4s filed on behalf of Richard Slifka on March 10, 2011; (f) the Form 4 filed on behalf of Eric Slifka on March 15, 2011; and (g) the Form 4 filed on behalf of Montello Oil Corp. on March 10, 2011.

Table of Contents

Four of the eight aforementioned reports were filed in connection with the conversion of subordinated units into our common units. Although the conversion was effective as of February 16, 2011, satisfaction of the determination test in connection therewith could not be concluded until March 2011 and, as a result, such reports were filed late.

Executive Sessions

The board of directors of our general partner holds executive sessions for the non-management directors on a regular basis without management present. Since the non-management directors include directors who are not independent directors, the independent directors also meet in separate executive sessions without the other directors or management at least once each year to discuss such matters as the independent directors consider appropriate. In addition, any director may call for an executive session of non-management or independent directors at any board meeting. A majority of the independent directors selects a presiding director for any such executive session.

Communications with Unitholders, Employees and Others

Unitholders, employees and other interested persons who wish to communicate with the board of directors of our general partner, non-management or independent directors as a group, a committee of the board or a specific director may do so by transmitting correspondence addressed to the Board of Directors, Name of Director, Group or Committee, c/o Corporate Secretary, Global Partners LP, P.O. Box 9161, 800 South Street, Suite 200, Waltham, MA 02454-9161, Fax: 781-398-4165.

Letters addressed to the board of directors of our general partner in general will be reviewed by the corporate secretary and relayed to the chairman of the board or the chair of the appropriate committee. Letters addressed to the non-management or independent directors in general will be relayed unopened to the chair of the audit committee. Letters addressed to a committee of the board of directors or a specific director will be relayed unopened to the chair of the committee or the specific director to whom they are addressed. All letters regarding accounting, accounting policies, internal accounting controls and procedures, auditing matters, financial reporting processes or disclosure controls and procedures are to be forwarded by the recipient director to the chair of the audit committee.

Code of Ethics

Our general partner has adopted a code of business conduct and ethics that applies to all officers, directors and employees of our general partner, including the principal executive officer, principal financial officer and principal accounting officer, and to our subsidiaries and their officers, directors and employees.

A copy of the code of business conduct and ethics is available on our website at www.globalp.com or may be obtained without charge upon written request to the General Counsel at: Global Partners LP, P.O. Box 9161, 800 South Street, Suite 200, Waltham, MA 02454-9161.

Corporate Governance Matters

The NYSE requires the Chief Executive Officer of each listed company to certify annually that he is not aware of any violation by the company of the NYSE corporate governance listing standards as of the date of the certification, qualifying the certification to the extent necessary. The Chief Executive Officer of our general partner provided such certification to the NYSE in 2011.

The certifications of our general partner's Chief Executive Officer and Chief Financial Officer required by the Securities Exchange Act of 1934 are included as exhibits to this Annual Report on Form 10-K.

Table of Contents

Item 11. Executive Compensation.

All of our executive officers and substantially all of our employees are employed by our general partner. Our general partner does not receive any management fee or other compensation for its management of Global Partners LP. Our general partner and its affiliates are reimbursed for expenses incurred on our behalf. These expenses include the costs of employee, executive officer and director compensation and benefits properly allocable to Global Partners LP, and all other expenses necessary or appropriate to the conduct of the business of, and allocable to, Global Partners LP. Our partnership agreement provides that our general partner will determine the expenses that are allocable to Global Partners LP.

Compensation Discussion and Analysis

We are managed and operated by the directors and executive officers of our general partner. Executive officers of our general partner receive compensation in the form of salaries and short-term incentive awards (contractual and/or discretionary) and long-term incentive awards, and they are eligible to participate in employee benefit plans and arrangements sponsored by our general partner or its affiliates, including plans that may be established by our general partner or its affiliates in the future. Our named executive officers (defined below) serve as executive officers of our general partner and each of our subsidiaries, and the compensation described herein reflects their total compensation for services to us, our general partner and our subsidiaries.

Our "named executive officers" include Mr. Eric Slifka, our Chief Executive Officer ("CEO"), Mr. Thomas J. Hollister, our Chief Financial Officer ("CFO") and Chief Operating Officer ("COO"), and the two other most highly compensated executive officers during 2011, who are Mr. Charles A. Rudinsky, our Executive Vice President and Chief Accounting Officer, and Mr. Edward J. Faneuil, our Executive Vice President and General Counsel. Messrs. Slifka, Hollister and Faneuil are parties to employment agreements with our general partner. Mr. Rudinsky is an employee at will with no employment agreement. Mr. Andrew Slifka became an executive officer on March 1, 2012 in connection with our acquisition of Alliance Energy LLC, and was not a named executive officer in 2011.

The compensation committee of the board of directors of our general partner (the "Compensation Committee") has direct responsibility for the compensation of our CEO based upon (i) contractual obligations pursuant to the employment agreement between our CEO and our general partner, and (ii) compensation parameters established by the Compensation Committee with respect to salary adjustments, incentive plans and discretionary bonuses, if any. The Compensation Committee also has oversight and approval authority for the compensation of our named executive officers other than our CEO based upon our CEO's recommendations, including awards under any incentive plans in which the named executive officers participate, and our general partner's contractual obligations pursuant to employment agreements with two of our named executive officers.

Compensation Objectives

The objectives of our compensation program with respect to our executive officers are to attract, engage and retain individuals with the requisite knowledge, experience and skill sets required for our future success. Our compensation program is intended to motivate and inspire employee behavior that fosters high performance, and to support our overall business objectives. To achieve these objectives, we aim to provide each executive officer with a competitive total compensation program. We currently utilize the following compensation components:

Salaries and benefits designed to attract and retain high caliber employees;

Short-term, performance-based incentives and discretionary bonus awards designed to focus employees on key business objectives for a particular year; and

Table of Contents

Long-term, equity-based and/or performance-based cash incentive awards designed to support the achievement of our long-term business objectives and the retention of key personnel.

Compensation Methodology

Our general partner uses third-party consultants to study and supply market comparable compensation data and to assist our management and the Compensation Committee in formulating competitive compensation plans. In 2008, our general partner engaged W.F. Conover III, Ltd. as an independent compensation consultant to provide advice and assistance to the Compensation Committee on matters related to named executive officer compensation as well as our general compensation programs (i.e., short-term and long-term incentive programs). In 2009, Michael Conover, the principal at W.F. Conover III, Ltd. who provided consulting services to our general partner, moved to BDO USA, LLP. References to "Conover" hereinafter mean our compensation consultant, whether the consulting services were provided through W.F. Conover III, Ltd. or BDO USA, LLP.

In 2009 and 2010, Conover worked with our management and the Compensation Committee to assess the competitiveness of our executive compensation program using a comprehensive, broad-based analysis of market information, including: (i) data from the Watson Wyatt Worldwide Executive Compensation Survey; (ii) data with respect to a group of more than 220 companies with market capitalizations of \$200 million to \$600 million, a range which was comparable to our market capitalization at the time of the study; and (iii) data with respect to a multi-factor based group of 17 energy and non-energy companies which had market capitalizations of \$200 million to \$600 million and between 100 to 600 employees. Conover also examined the responsibilities assigned to each of our named executive officer positions in relation to the external positions to which they were compared, exercised judgment in terms of the relevance of each of the market data sources, and made adjustments to arrive at a competitive market benchmark for each executive position.

Conover worked with our management and the Compensation Committee in 2011 to update our short-term incentive plan for our named executive officers, analyze the number of units available for issuance under our long-term equity incentive plan, and advise and provide assistance related to the terms of a new employment agreement for Eric Slifka, our Chief Executive Officer, as follows:

The performance levels and award opportunities associated with our 2011 short-term incentive plan for our named executive officers were changed. The threshold minimum level of performance required to qualify for any award was increased. Likewise, the target "par" and maximum performance levels used for determination of the performance-based portion of the award also were increased. In addition, the award amounts associated with performance levels used for the performance-based portion of our short-term incentive plan were changed. Award amounts at or just above the threshold minimum performance level were lowered, and award levels closer to the target "par" were increased to provide a greater incentive to reach target "par" performance. Similarly, awards just above the target "par" range were lowered and award levels closer to the maximum performance level significantly increased to provide greater incentive for results that significantly exceed target "par" performance.

An analysis of the portion of our partnership's common units reserved for issuance under our long-term equity incentive plan versus competitive practices was conducted and a preliminary overview prepared of a new long-term equity incentive plan that may be considered for use in the future.

A new long-term performance-based cash incentive plan was developed for inclusion in Mr. Slifka's 2012-2014 employment agreement. The new plan replaces a 3-year grant of units to Mr. Slifka in the 2009-2011 agreement that vested in equal installments every 6 months. The new plan is based solely on performance as defined by specified levels of increase in distribution growth to our unitholders over the 2012-2014 period and, with the exception of limited circumstances pursuant to which payment of the award may be accelerated, is payable in cash following the end of Mr. Slifka's 3-year employment term.

Table of Contents

Conover continued to work with our Compensation Committee in 2012 to update our 2012 short-term incentive plan for our named executive officers. The plan has been modified to ensure that it continues to be aligned with and supportive of our efforts to achieve critical objectives in a most complex and changing commodity-based business. A complete description of changes made to the short-term incentive plan is included in the next section, *Elements of Compensation*.

Elements of Compensation

Our executive compensation structure utilizes complementary components to align our compensation with the needs of our business and to provide for desired levels of pay that competitively compensate our executive management personnel. We administer the program on the basis of total compensation. When our performance goals are met, we expect the total compensation levels (i.e., salary plus short and long-term incentives) for our named executive officers to fall between the median (50th percentile) and 75th percentile compensation levels in our competitive marketplace, as determined by our compensation consultant's 2009 and 2010 benchmarking results. When we perform above or below our performance goals, we expect that will be reflected in our compensation levels.

The elements of the 2011 executive officer compensation of our general partner are base salary, discretionary bonuses, short-term incentive awards, retirement and health benefits, and perquisites consistent with those provided to executive officers generally and as may be approved by the Compensation Committee from time to time.

A description of the components of the compensation program and principles used to guide their administration appears below:

Salaries

Under our executive compensation structure, our goal is for our named executive officer salaries to fall between the median (50th percentile) and 75th percentile of competitive salary levels, as determined by our compensation consultant's 2009 and 2010 benchmarking results, following any adjustments made to marketplace pay levels in order to account for significant responsibilities that are assigned to our named executive officers and that exceed the scope of responsibilities generally associated with the external benchmark positions to which they are compared, specifically:

Our Chief Financial Officer also serves as our Chief Operating Officer and, as such, has responsibilities for many operational areas that are not commonly assigned to Chief Financial Officer positions.

Our Executive Vice President and General Counsel is responsible for all our environmental compliance functions, many of our human resources matters, and many of our business transactions that he manages in an executive as well as legal capacity.

Our Executive Vice President and Chief Accounting Officer, who also serves as co-director of our mergers and acquisitions activities, is responsible for our financial analyses for our acquisition due diligence.

Base salaries for three of our four named executive officers are set by the terms of their respective employment agreements. Salaries for our named executive officers were not increased in 2011.

Short-Term Incentive Awards Contractual

Thomas Hollister, our COO and CFO, is entitled to annual contractual bonuses under his employment agreement with our general partner based upon our achievement of specific targets established by the Compensation Committee. Mr. Hollister was not entitled to a contractual bonus in 2008 because the distributable cash flow target established by the Compensation Committee for 2008

Table of Contents

was not achieved. In 2009, the Compensation Committee implemented our general partner's Short-Term Incentive Plan (see *Short-Term Incentive Plan*). Prior to the Compensation Committee's determination of Mr. Hollister's awards for each of 2009, 2010 and 2011 under our general partner's Short-Term Incentive Plan, Mr. Hollister waived his annual contractual bonuses for those years. For each of 2009, 2010 and 2011, Mr. Hollister was paid a bonus under our general partner's Short-Term Incentive Plan in an amount in excess of what he would have received as a contractual bonus under his employment agreement with our general partner.

Annual Bonuses Discretionary

Our compensation program for named executive officers contains a provision for the Compensation Committee to award a discretionary bonus to recognize significant contributions made by an executive in the course of the year. Typically, these are one-time awards and not associated with any of our incentive plans. The Compensation Committee may make discretionary bonus awards to our CEO. Our CEO may also recommend discretionary bonus awards for all other named executive officers for consideration and approval by the Compensation Committee for similar purposes.

The Compensation Committee made a determination that discretionary bonus payments would be paid to the named executive officers for 2011. The decision was based on the Compensation Committee's careful consideration of several significant initiatives undertaken by the leadership team to offset unforeseeable business conditions as well as to enter new business ventures that will better position the company for the future. Unfavorable commodity market conditions and protracted warmer than normal weather for the Northeast severely impacted the Partnership. In response, the leadership team undertook actions to: (i) reduce expenses through a reduction in force and restructuring; (ii) negotiate and prepare for the acquisition of one hundred percent of the membership interests of Alliance, which transaction was consummated on March 1, 2012 and which we expect will further enhance our wholesale and retail gasoline sales; (iii) prepare for and commence rail delivery and sale of crude oil; and (iv) begin work on several additional projects. The immediate effects of these actions were to offset a significant portion of the negative impact of commodity market conditions and the unseasonably warm weather. We expect that these changes will have long-term positive impacts on us and for our unitholders in future years. For these reasons, the Compensation Committee believed it was important to recognize and reward the named executive officers for their successful initiatives with special discretionary bonuses in the amounts of \$270,000, \$25,500, \$97,500 and \$32,500, respectively, for Messrs. Eric Slifka, Hollister, Faneuil and Rudinsky.

The Compensation Committee elected to not award any discretionary bonus payments in respect of 2010. For 2009, the Compensation Committee awarded discretionary bonuses of \$115,000 and \$50,000, respectively, to Messrs. Hollister and Faneuil.

Short-Term Incentive Plan

Our general partner established a cash bonus pool for 2011 to fund short-term incentive awards for each of our named executive officers. Target awards under our general partner's short-term incentive plan for 2011 (the "STIP") included a performance-based component, for which 60% of the cash bonus pool was available (the "STIP Performance Component"), and a discretionary component, for which 40% of the cash bonus pool was available (the "STIP Discretionary Component"). Incentive awards earned under the STIP were based on the Partnership's actual performance in relation to a specified objective for distributable cash flow established by our Compensation Committee in March 2011 (the "DCF objective"), as adjusted by the Compensation Committee to reflect several factors that affected the Partnership's performance in 2011. Under our general partner's Short-Term Incentive Plan, for purposes of determining whether a specified target was achieved, "distributable cash flow" (a non-GAAP financial measure used by management) means our net income plus depreciation and amortization, less our maintenance capital expenditures ("DCF"). DCF is discussed under "Results of

Table of Contents

Operations Evaluating Our Results of Operations" and reconciled to its most directly comparable GAAP financial measures under "Results of Operations Key Performance Indicators" in Item 7, "Management's Discussion and Analysis of Financial Conditions and Results of Operations."

Under the STIP, each of our named executive officers was assigned an incentive target value expressed as a percentage of his base salary. The 2011 incentive target values were: 100% (or \$800,000) for Mr. Slifka; 58% (or \$337,500) for Mr. Hollister; 37% (or \$137,500) for Mr. Faneuil; and 41% (or \$112,500) for Mr. Rudinsky. 60% of the target value for each named executive officer was allocated to his STIP Performance Component (the "60% Performance-Based Payout Target"), and 40% was allocated to his STIP Discretionary Component (the "40% Discretionary Payout Target").

STIP Performance Component (60% of the incentive target value): Under the terms of the STIP, 100% of the STIP Performance Component is earned when the DCF objective is achieved. However, the STIP also provides for an increased payout under the STIP Performance Component when the DCF objective is exceeded, a reduced payout under the STIP Performance Component when the DCF objective is not achieved, and no payout if the STIP Performance Component minimum threshold is not achieved. Such increases and reductions in payouts are determined in accordance with an award payout grid adopted by the Compensation Committee at the time that the STIP was established. The Partnership did not achieve the DCF objective for 2011 of \$53.1 million (which DCF objective was established in March 2011), and therefore the full 60% Performance Component was not earned. The Partnership earned \$46.7 million of DCF in 2011, which was adjusted upwards to \$49.9 million by the Compensation Committee to reflect an additional approximately \$3.2 million of one-time charges that occurred during the third and fourth quarters of 2011 related to the Partnership's restructuring and its acquisition of Alliance. After such adjustments and in accordance with the payout grid established by the Compensation Committee at the time that the STIP was established, the STIP Performance Component of the named executive officers' 2011 awards was adjusted downward to one-third of each named executive officer's 60% Performance-Based Payout Target.

STIP Discretionary Component (40% of the incentive target value): The STIP Discretionary Component is intended to be used as a discretionary award, allowing the Compensation Committee to supplement the performance metric by analyzing other factors that it may elect to use for determining the STIP Performance Component. Such factors include, without limitation, market factors and significant acquisitions, developments and ventures accomplished by the Partnership. The Compensation Committee awarded 100% of the STIP Discretionary Component for 2011 in recognition of each named executive officer's successful efforts in 2011 which included, among other things, expense reduction and restructuring; negotiation, execution and preparations for consummation of the Alliance acquisition; and preparations for and rail delivery and sale of crude oil.

Each of our named executive officers earned a short-term incentive award for 2011. A summary of these awards appears in the table below:

Table of Contents

| Name | | Target Value as a % of Salary | Target Value (\$) | 2011 Award Value as a % of Target Value | 2011 Award Payouts (\$) |
|---------------------|---------------|-------------------------------------|-------------------------|--|----------------------------------|
| Eric Slifka | Total Award | 100% | 800,000 | 60% | 480,000 |
| | Performance | 60% | 480,000 | 20% | 160,000 |
| | Discretionary | 40% | 320,000 | 40% | 320,000 |
| Thomas J. Hollister | Total Award | 58% | 337,500 | 60% | 202,500 |
| | Performance | 35% | 202,500 | 20% | 67,500 |
| | Discretionary | 23% | 135,000 | 40% | 135,000 |
| Edward J. Faneuil | Total Award | 37% | 137,500 | 60% | 82,500 |
| | Performance | 22% | 82,500 | 20% | 27,500 |
| | Discretionary | 15% | 55,000 | 40% | 55,000 |
| Charles A. Rudinsky | Total Award | 41% | 112,500 | 60% | 67,500 |
| | Performance | 25% | 67,500 | 20% | 22,500 |
| | Discretionary | 16% | 45,000 | 40% | 45,000 |

2012 Short-Term Incentive Plan. In 2012 the Compensation Committee, with the advice of its compensation consultant, designed our 2012 Short-Term Incentive Plan using features that are intended to (i) provide the Compensation Committee with greater flexibility in making awards under the plan, and (ii) foster the direct link between award opportunities for plan participants and the value created for our unitholders by basing awards on the achievement of growth in our DCF. Recognizing that our financial results may not adequately reflect our executive officers' performance due to market conditions, sustained warmer (or colder) than normal weather conditions, the dynamics of a commodity-based business including, among other things, the shapes of forward pricing curves for the products that we purchase and sell, and other factors that are beyond our executive officers' control, the Compensation Committee revised the DCF performance levels and incentive award opportunities associated with them from the performance levels and award opportunities previously established for the 2011 STIP. The 2012 STIP is based upon a target incentive percentage for each participant ranging from 35% to 100% of his base salary. Awards under the 2012 STIP may range from 0% to 200% of each participant's target incentive percentage. The weightings of the 2012 STIP's Performance Component and Discretionary Component were changed from 60% and 40%, respectively, in the 2011 plan to 50% and 50%, respectively in the 2012 plan.

The 2012 Performance Component (50% of the incentive target value) The Compensation Committee increased the DCF objective for 2012, subject to adjustment by the Compensation Committee for certain acquisitions and events during 2012 that the Compensation Committee in its sole discretion determines to have caused unusual, one-time increases or decreases in DCF. Awards granted by the Compensation Committee may range from 0% to 200% of a plan participant's 2012 Performance Component. A minimum of 80% of the 2012 DCF objective must be achieved before plan participants would earn any portion of the 2012 Performance Component, and a minimum of 107% of the 2012 DCF objective must be achieved before plan participants would earn in excess of 100% of the 2012 Performance Component. Under the 2012 STIP, a plan participant's incentive opportunity increases to a maximum of 200% of the Performance Component at 161% of the 2012 DCF objective, and is determined on a quantitative basis solely based on our actual DCF for 2012.

The Discretionary Component (50% of the incentive target value) The Compensation Committee has discretion in determining the 2012 Discretionary Component for any plan participant under the 2012 STIP, within a range of 0% to 200% of the 2012 Discretionary Component, and based upon (i) the Compensation Committee's consideration of management's performance over the

Table of Contents

course of the 2012 plan year; (ii) the CEO's assessment of other members of our management; (iii) our overall financial results for the year in relation to our business plan; and (iv) any significant mitigating factor(s) that may have influenced a plan participant's performance, positively or negatively. The objective of considering these factors is to arrive at a decision that best reflects the Compensation Committee's overall assessment of management's performance. The Compensation Committee believes that when combined with the Performance Component, the results will more accurately reflect a plan participant's performance in light of the relevant factors.

Long-Term Incentive Plans

2011 CEO Performance-Based Cash Incentive Plan. On December 31, 2011, pursuant to a contractual commitment in Eric Slifka's 2012-2014 employment agreement with our general partner, the Compensation Committee included provisions for a new long-term performance-based cash incentive plan. The new plan replaces a 3-year LTIP grant of units to Mr. Slifka pursuant to his 2009-2011 employment agreement with our general partner, which LTIP grant vested in six approximately equal installments each June 30 and December 31 during the term of Mr. Slifka's 2009-2011 employment agreement. The new long-term performance-based cash incentive plan is based solely on the achievement of distribution growth to our unitholders over the term of Mr. Slifka's employment agreement, using the 3-year period from January 1, 2012 through December 31, 2014 and an annualized \$2.00 per unit distribution to unitholders (subject to adjustment by the Compensation Committee as set forth in Mr. Slifka's employment agreement) as the baseline against which Mr. Slifka's performance will be measured over the 2012-2014 period, and is payable in cash.

2008 CEO Award. On December 31, 2008, pursuant to a contractual commitment in Eric Slifka's employment agreement with our general partner, the Compensation Committee granted to Mr. Slifka 99,700 phantom units together with a contingent right to receive an amount in cash equal to the number of then outstanding phantom units granted to Mr. Slifka multiplied by the cash distributions per common unit made by the Partnership from time to time during the period the phantom units are outstanding. The phantom units vested in six approximately equal installments on June 30 and December 31 of 2009, 2010 and 2011. In accordance with Mr. Slifka's employment agreement, all of the 99,700 phantom units fully vested and have been paid to Mr. Slifka. The general partner delivered to Mr. Slifka common units that it purchased in the open market and cash (to the extent not used by Mr. Slifka to satisfy his tax obligations in respect of the award) in payment for the vested phantom units.

2009 Awards. On February 5, 2009, the Compensation Committee granted 88,183, 61,728, 48,501 and 17,637 phantom units (without Distribution Equivalent Rights ("DERs")) under the LTIP, respectively, to Messrs. Eric Slifka, Hollister, Faneuil and Rudinsky. Grant levels were established by the Compensation Committee to achieve the overall objectives of the compensation program.

The phantom units granted in 2009 will vest and become payable on a one-for-one basis in common units (and/or cash in lieu thereof) on December 31, 2013 (or potentially sooner as described below). All or a portion of the phantom units granted to our named executive officers may vest earlier than December 31, 2013 if the Average Unit Price (as defined below) equals or exceeds specified target prices during specified periods. Specifically, if the Average Unit Price equals or exceeds: (i) \$21.00 at any time prior to December 31, 2013, then 25% of the phantom units will automatically vest; (ii) \$27.00 at any time during the period from February 5, 2011 through December 31, 2013, then an additional 25% of the phantom units will automatically vest; and (iii) \$34.00 at any time during the period from June 5, 2012 through December 31, 2013, then all of the remaining phantom units will automatically vest. "Average Unit Price" means the closing market price per common unit for any 10-consecutive trading day period.

Table of Contents

The phantom units granted to Mr. Slifka on February 5, 2009 that do not otherwise vest early as described above will be subject to a performance goal. Specifically, any unvested phantom units held by Mr. Slifka on December 31, 2013 will vest only if the Partnership makes cumulative distributions on all units of the Partnership outstanding during the 20 consecutive quarters ending December 31, 2013 in an amount equal to or exceeding the minimum quarterly distribution (as defined in the Partnership's Agreement of Limited Partnership) on all such units.

Any phantom units granted on February 5, 2009 that have not vested as of the end of the five year cliff vesting period will be forfeited. Additionally, upon a change of control event (as defined in the grant, as amended), all outstanding phantom units that were granted on February 5, 2009 to Messrs. Slifka, Hollister and Faneuil only and that have not otherwise vested automatically will become fully vested (in the case of the phantom units awarded to Mr. Slifka, without regard to the achievement of the performance goal.)

A portion (25%) of the February 5, 2009 phantom units vested on August 21, 2009 when the Compensation Committee determined that the first Average Unit Price condition (\$21.00 for 10 consecutive trading days) was satisfied. The general partner delivered common units that it purchased in the open market to the named executive officers in payment for these vested phantom units.

A second portion (25%) of the February 5, 2009 phantom units vested on February 18, 2011 when the Compensation Committee determined that the second Average Unit Price condition (\$27.00 for 10 consecutive trading days) was satisfied. The general partner delivered common units that it had purchased in the open market to the named executive officers in payment for these vested phantom units.

Further vesting opportunities for 2009 awards will become available after June 5, 2012 based upon the unit price performance criteria associated with the award.

Retirement and Health Benefits; Perquisites

Each of our named executive officers is eligible to participate in our general partner's health insurance plans, pension plans, 401(k) savings and profit sharing plan and other employee benefit plans in accordance with our general partner's policies and on the same general basis as other employees of our general partner. Under the general partner's pension plan, an employee becomes fully vested in his or her pension benefits after completing five years of service or upon termination due to death, disability or retirement. See "Other Benefits *Pension Benefits*" for information with respect to eligibility standards and calculations of estimated annual pension benefits payable upon retirement under the pension plan. Our general partner's pension plan was frozen on December 31, 2009. Our general partner's 401(k) savings and profit sharing plan provides for discretionary matching contributions by our general partner equal to 50% of each employee's contribution, up to a maximum contribution of 4% of the employee's pre-tax annual compensation, subject to certain limitations under federal law. Certain participants who are not highly compensated employees (as such term is defined in Internal Revenue Code section 414(q)) are also eligible for non-matching employer contributions equal to 1% or 2% of compensation, based on satisfaction of a service requirement or other factors. See "Other Benefits *401(k) Savings and Profit Sharing Plan*" for additional information with respect to eligibility and permitted contributions to this plan. Additional perquisites for our named executive officers may include payment of premiums for supplemental life and/or long-term disability insurance, automobile fringe benefits, club membership dues and payment of fees for professional financial planning, tax and/or legal advice.

Table of Contents

Relationship of Compensation Elements to Compensation Objectives

We use base salaries to provide financial stability and to compensate our executive officers for fulfillment of their respective job duties.

We use a short-term incentive plan with performance-based and discretionary components to align a significant portion of our executive officers' compensation with annual business performance and success, and to provide rewards and recognition for key annual business and financial results such as achieving increased quarterly distributions, expanding our terminalling storage capacity, retail gasoline station assets and the geographic markets that we serve, and diversifying our product mix to enhance profitability and effectively managing our business. Short-term performance-based incentives also allow flexibility to reward performance and individual success consistent with such criteria as may be established from time to time by our CEO and the Compensation Committee.

Our long-term incentive plans (performance-based cash incentive plan and LTIPs) provide incentive and reward eligible participants for the achievement of long-term objectives, facilitate the retention of key employees by investing in our long-term performance, continue to make our compensation mix more competitive, and align the interests of management with those of our unitholders.

We offer a mix of traditional perquisites such as automobile fringe benefits and country/golf club memberships, and additional benefits, such as payment of professional financial planning and tax advice fees, that are tailored to address our executive officers' individual needs, to facilitate the performance of their job duties and to be competitive with the total compensation packages available to executive officers generally.

Table of Contents**Compensation of Named Executive Officers**

The following table sets forth certain information with respect to compensation of our Chief Executive Officer, our Chief Financial Officer and the two other most highly compensated executive officers during 2011, 2010 and 2009.

Summary Compensation Table

| Name and Principal Position | Year | Salary (\$) | Bonus (\$) (2) | Stock Awards (\$) (3) | Change in Pension Value and Non-Equity Nonqualified Incentive Plan Compensation | | All Other Compensation (\$)(6) | Total (\$) |
|---|------|----------------|----------------------|--------------------------------|---|--------------|--------------------------------------|---------------|
| | | | | | Deferred Earnings (\$) | Compensation | | |
| Eric Slifka President and CEO (1)(5)(7) | 2011 | 800,000 | 270,000 | | 480,000 | 0 | 95,414 | 1,645,414 |
| | 2010 | 800,000 | | | 480,000 | 13,725 | 93,798 | 1,387,523 |
| | 2009 | 800,000 | | 1,147,261 | 1,032,968 | 1,389 | 80,313 | 3,061,931 |
| Thomas J. Hollister COO and CFO (8) | 2011 | 578,000 | 25,500 | | 202,500 | 1,939 | 29,951 | 837,890 |
| | 2010 | 578,000 | | | 202,500 | 9,559 | 34,739 | 824,798 |
| | 2009 | 578,000 | 115,000 | 803,081 | 435,784 | 17,304 | 40,184 | 1,989,353 |
| Edward J. Faneuil EVP, General Counsel and Secretary (9) | 2011 | 376,000 | 97,500 | | 82,500 | 26,542 | 47,774 | 630,316 |
| | 2010 | 376,000 | | | 82,500 | 49,790 | 52,799 | 561,089 |
| | 2009 | 376,000 | 50,000 | 630,998 | 177,541 | 29,342 | 48,963 | 1,312,844 |
| Charles A. Rudinsky EVP and Chief Accounting Officer (10) | 2011 | 273,000 | 32,500 | | 67,500 | 38,553 | 35,719 | 447,272 |
| | 2010 | 273,000 | | | 67,500 | 88,074 | 34,891 | 463,465 |
| | 2009 | 273,000 | | 229,457 | 125,261 | 65,638 | 34,507 | 727,863 |

- (1) The above table reflects the base salary paid to Mr. Slifka pursuant to his employment agreement with our general partner that expired December 31, 2011. Effective January 1, 2012, Mr. Slifka entered into a new employment agreement with our general partner, pursuant to which his base salary remained \$800,000.
- (2) In 2012, Messrs. Slifka, Hollister, Faneuil and Rudinsky were paid discretionary bonuses of \$270,000, \$25,500, \$97,500 and \$32,500, respectively, for services performed during 2011, which discretionary bonuses were in addition to the payments they received in 2012 for services performed during 2011 under the 2011 Short-Term Incentive Plan. In 2010, Mr. Hollister and Mr. Faneuil were paid discretionary bonuses of \$115,000 and \$50,000, respectively, for services performed during 2009, which discretionary bonuses were in addition to the payments they received for services performed during 2009 under the 2009 Short-Term Incentive Plan. No discretionary bonuses were paid for services performed during 2010.
- (3) In accordance with accounting guidance related to stock-based compensation, the dollar values shown in the "Stock Awards" column represent the grant date fair value of awards as described below:
- LTIP 2009 Awards.* On February 5, 2009, the Compensation Committee granted awards of 88,183, 61,728, 48,501 and 17,637 phantom units, respectively, to Messrs. Slifka, Hollister, Faneuil and Rudinsky. Twenty-five percent of these phantom units (22,046, 15,432, 12,125 and 4,409, respectively) vested on August 21, 2009 and were paid on a one-for-one basis in our common units. Another twenty-five percent of these phantom units (22,046, 15,432, 12,125 and 4,409, respectively) vested on February 18, 2011 and were paid on a one-for-one basis in our common units. See "*Elements of Compensation Long-Term Incentive Plan*" for the terms of the 2009 Awards.
- (4) The bonuses paid to each of the named executive officers for services performed during 2009, 2010 and 2011 were determined in accordance with our general partner's Short-Term Incentive Plan described above under *Elements of Compensation Short-Term Incentive Plan*.

(5)

Mr. Slifka's pension decreased in value by \$11,068 in 2011 and therefore is shown as a \$0 positive change in actuarial value under the column labeled "Change in Pension Value and Nonqualified Deferred Compensation Earnings".

Table of Contents

- (6) All of our named executive officers are eligible to participate in our general partner's health insurance, pension, 401(k) and other employee benefit plans in accordance with our general partner's policies and on the same general basis as other employees of our general partner. See "Other Benefits Pension Benefits" for information with respect to eligibility standards and calculations of estimated annual pension benefits payable upon retirement. Our general partner's 401(k) Savings and Profit Sharing Plan provides for discretionary matching and nonmatching contributions to the plan by our general partner. See "Other Benefits 401(k) Savings and Profit Sharing Plan" for additional information with respect to eligibility and permitted contributions to this plan.
- (7) With respect to Mr. Slifka, "All Other Compensation" for the years ended December 31, 2011, 2010 and 2009 includes the following perquisites in connection with his employment by our general partner: employer contributions paid by us under the 401(k) plan; the estimated personal value of an automobile provided by us for Mr. Slifka's use; medical and dental premiums paid by us; life insurance and long-term disability insurance premiums paid by us; club membership dues; legal fees; and professional financial planning and tax advice fees in the aggregate amounts of \$26,450 and \$34,750, respectively, for 2011 and 2010, and at a level below \$25,000 for 2009, paid by us.
- (8) With respect to Mr. Hollister, "All Other Compensation" for the years ended December 31, 2011, 2010 and 2009 includes the following perquisites in connection with his employment by our general partner: employer contributions paid by us under the 401(k) plan; medical and dental premiums paid by us; and long-term disability insurance premiums paid by us.
- (9) With respect to Mr. Faneuil, "All Other Compensation" for the years ended December 31, 2011, 2010 and 2009 includes the following perquisites in connection with his employment by our general partner: employer contributions paid by us under the 401(k) plan; the estimated personal value of an automobile provided by us for Mr. Faneuil's use; medical and dental premiums paid by us; long-term disability insurance premiums paid by us; and club membership dues paid by us.
- (10) With respect to Mr. Rudinsky, "All Other Compensation" for the years ended December 31, 2011, 2010 and 2009 includes the following perquisites in connection with his employment by our general partner: employer contributions paid by us under the 401(k) plan; the estimated personal value of an automobile provided by us for Mr. Rudinsky's use; medical and dental premiums paid by us; and life insurance and long-term disability insurance premiums paid by us.

Grants of Plan-Based Awards

On March 6, 2012, the Compensation Committee awarded cash awards under our general partner's 2011 Short-Term Incentive Plan to our named executive officers in consideration of their respective services during the year ended December 31, 2011 in the following amounts: \$480,000 for Mr. Slifka, \$202,500 for Mr. Hollister, \$82,500 for Mr. Faneuil and \$67,500 for Mr. Rudinsky. These awards were payable promptly without restrictions. See "*Elements of Compensation Short-Term Incentive Plan*" for a discussion of the parameters on which the 2011 awards were determined.

The table below presents the minimum threshold, target and maximum payout amounts that would have been available to each of our named executive officers under our general partner's 2011 Short-Term Incentive Plan, depending upon our financial performance in 2011:

| Name | Estimated Possible Payout Under Non-Equity Incentive Plan Awards (1) | | |
|---------------------|---|-------------|--------------|
| | Minimum Threshold (\$) | Target (\$) | Maximum (\$) |
| Eric Slifka | 40,000 | 800,000 | 1,600,000 |
| Thomas J. Hollister | 16,875 | 337,500 | 675,000 |
| Edward J. Faneuil | 6,875 | 137,500 | 275,000 |
| Charles A. Rudinsky | 5,625 | 112,500 | 225,000 |

- (1) No equity-based awards were granted during 2011.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

Outstanding Equity Awards at Fiscal Year End

The following table presents equity awards in the form of the unvested portion of phantom units granted under the LTIP to the named executive officers on February 5, 2009. The awards shown on the table below are all of the equity awards held by the named executive officers at the end of the last fiscal year:

| | Equity Incentive Plan Awards | |
|---------------------|--|--|
| | Number of Unearned Shares, Units or Other Rights That Have Not Vested (#) | Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested (\$)(1) |
| Eric Slifka | 44,091 | 964,270 |
| Thomas J. Hollister | 30,864 | 674,996 |
| Edward J. Faneuil | 24,251 | 530,369 |
| Charles A. Rudinsky | 8,819 | 192,872 |

- (1) These units will vest should the average closing price per unit for any 10-consecutive trading day period (the "Unit Price") during the period from June 5, 2012 through December 31, 2013 reach \$34.00. These units also would vest on December 31, 2013 if the Unit Price does not reach \$34.00 but the recipient remains employed by our general partner.
- (2) The market values of the equity awards shown in the table above were calculated based on the closing price of \$21.87 per common unit on December 31, 2011.

See "*Elements of Compensation Long-Term Incentive Plan*" for a discussion of the plan.

Units Vested in the 2011 Fiscal Year

No restricted unit awards to named executive officers vested during the year ended December 31, 2011 and there were no options outstanding to named executive officers during 2011.

| Name | Units Awards | |
|-------------------------|--|---|
| | Number of Units Acquired on Vesting (#) | Value Realized on Vesting (\$) (3) |
| Eric Slifka (1) | 55,278 | 1,398,320 |
| Thomas J. Hollister (2) | 15,432 | 428,547 |
| Edward J. Faneuil (2) | 12,125 | 336,711 |
| Charles A. Rudinsky (2) | 4,409 | 122,438 |

- (1) Reflects the vesting of 22,046 phantom units on February 18, 2011 and the vesting of 16,616 phantom units on each of June 30, 2011 and December 31, 2011.
- (2) Reflects the portion of phantom units granted under the LTIP to the named executive officers on February 5, 2009 that vested on February 18, 2011.
- (3) The value realized on vesting of the equity awards shown in the table above were calculated based on the closing price of per common unit on the date the awards vested (\$27.77 for awards that vested on February 18, 2011, \$25.44 for awards that vested on June 30, 2011 and \$21.87 for awards that vested on December 31, 2011.)

Employment and Related Agreements

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Eric Slifka is employed as President and Chief Executive Officer pursuant to an employment agreement with our general partner. The term of his initial employment agreement commenced on October 4, 2005 and continued through December 31, 2008. Effective December 31, 2008, Mr. Slifka entered into a subsequent employment agreement with our general partner which commenced

Table of Contents

January 1, 2009 and continued through December 31, 2011 (the "2008 Agreement"). Effective January 1, 2012, Mr. Slifka entered into a new employment agreement with our general partner which supersedes each of his prior two agreements (the "2012 Agreement").

Like the 2008 Agreement, the 2012 Agreement provides for a base salary of \$800,000 per year, subject to increase as of each January 1 during the term, as may be determined by the Compensation Committee. In addition, both agreements provide that Mr. Slifka: is (a) eligible to receive a cash bonus, from time to time, in an amount to be determined at the discretion of the Compensation Committee and (b) entitled to participate in our general partner's short-term incentive compensation plan, pursuant to which he shall be entitled to receive cash incentive amounts to be determined based upon the achievement of financial metrics to be established by the Compensation Committee in the first quarter of each fiscal year during the term of the agreement, with the annual "award target" amount being 100% of his base salary and the annual maximum cash incentive amount being 200% of his base salary; any such awards to be paid within two and one-half months after the applicable fiscal year end. Similarly, both agreements provide that Mr. Slifka also may be eligible to participate in any other incentive plans in which management employees may participate, as determined by the Compensation Committee. He is entitled to participate in such other benefit plans and programs as the general partner may provide for its executives in general.

Mr. Slifka was entitled under the 2008 Agreement to participate in our general partner's LTIP, including without limitation (i) the December 31, 2008 grant to Mr. Slifka of 99,700 phantom units (with a contingent right to receive cash in amounts equal to the number of awarded phantom units outstanding multiplied by the cash distributions per common unit made by the Partnership from time to time), which became fully vested as of December 31, 2011, and (ii) the February 5, 2009 grant to Mr. Slifka of 88,183 performance-restricted phantom units under the LTIP. See "Elements of Compensation *Long-Term Incentive Plan*." Under the 2012 Agreement, Mr. Slifka is entitled to receive awards under our general partner's Long-Term Performance-Based Cash Incentive Plan, which is determined based upon the achievement of distribution growth to the Partnership's unitholders over the term of his employment agreement, using the 3-year period from January 1, 2012 through December 31, 2014 and an annualized \$2.00 per unit distribution to unitholders as the baseline against which Mr. Slifka's performance will be measured. Mr. Slifka also participates in our general partner's LTIP, in such forms and amounts as may be determined by the Compensation Committee, including, without limitation, the aforementioned February 5, 2009 grant to Mr. Slifka.

Mr. Slifka's current employment agreement includes a confidentiality provision which, subject to typical exceptions for requirements of law and public knowledge (other than as a result of unauthorized disclosure by Mr. Slifka), will continue for two years following Mr. Slifka's termination of employment. The agreement also includes nonsolicitation and non-competition provisions which will continue for one year following Mr. Slifka's termination of employment. See "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Slifka's employment agreement, as amended, relating to termination, change in control and related payment obligations.

Thomas J. Hollister is employed as Chief Operating Officer and Chief Financial Officer of our general partner. Mr. Hollister's employment commenced effective July 1, 2006 and is on an "at will" basis, meaning that Mr. Hollister's employment has no specific duration and that, subject to the provisions of his employment agreement, either Mr. Hollister or our general partner may terminate his employment at any time for any reason. The agreement provides for a base salary of \$550,000 for the initial 12-month period commencing July 1, 2006, and subsequent review by the Compensation Committee no less frequently than annually, at which time Mr. Hollister's base salary may be increased at the discretion of the Compensation Committee. In 2011, Mr. Hollister's base salary was \$578,000. Mr. Hollister also is eligible to receive an annual cash bonus amount of \$130,000 for each 12-month period that he is employed by our general partner, provided that we achieve a distributable cash flow target set by the Compensation Committee. No such bonus was earned in respect of calendar year

Table of Contents

2008. Prior to the Compensation Committee's determination of Mr. Hollister's awards for each of 2009, 2010 and 2011 under our general partner's Short-Term Incentive Plan, Mr. Hollister waived his annual contractual bonuses for those years. Under our general partner's short-term incentive plan, Mr. Hollister's 2009, 2010 and 2011 target awards were set at amounts that exceed his contractual bonus amount. The employment agreement provides that Mr. Hollister also is entitled to participate in the LTIP and in such other benefit plans and programs as our general partner may provide for its employees in general. The agreement includes a confidentiality provision which, subject to typical exceptions for requirement of law and public knowledge (other than as a result of unauthorized disclosure by Mr. Hollister), will continue for two years following Mr. Hollister's termination of employment. The agreement also includes non-competition provisions which continue during the term of the agreement and for a period of two years thereafter. Also see "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Hollister's employment agreement, as amended, relating to termination, change of control and related payment obligations.

Edward J. Faneuil is employed as Executive Vice President, General Counsel and Secretary pursuant to an employment agreement with our general partner. Mr. Faneuil's employment agreement became effective as of July 1, 2006 and pursuant to an amendment dated December 31, 2011, has been extended through December 31, 2014. In 2011, Mr. Faneuil's base salary was \$376,000. Pursuant to the terms of his agreement, Mr. Faneuil's base salary is reviewed by the Compensation Committee at least annually. Mr. Faneuil also is entitled to receive bonuses in accordance with the then applicable short-term incentive plan as authorized by the Compensation Committee to be paid no later than March 15 of the calendar year immediately following the calendar year in which such bonuses are earned. Mr. Faneuil is eligible to participate in our general partner's health insurance, pension, 401(k) and other employee benefit plans and will also receive additional fringe benefits consistent with benefits previously provided to him under prior arrangements. Mr. Faneuil is eligible to participate in the LTIP on the same general basis as the other executive officers of our general partner. The agreement includes a confidentiality provision which, subject to typical exceptions for requirement of law and public knowledge (other than as a result of unauthorized disclosure by Mr. Faneuil), will continue for two years following Mr. Faneuil's termination of employment. The agreement also includes non-competition and non-solicitation provisions which continue during the term of the agreement and for a period of two years thereafter. Mr. Faneuil also has entered into deferred compensation agreements with each of our general partner and Alliance. See "Deferred Compensation Agreements" below for a description of these non-qualified deferred compensation plans. Mr. Faneuil also has entered into a supplemental executive retirement plan ("SERP") agreement with our general partner to provide him with supplemental retirement benefits in consideration of past and future services provided by him and in recognition of his ineligibility to participate in our increased benefits program in connection with the freezing of benefits under the pension plan. See "Supplemental Executive Retirement Plan Agreements" for a discussion of the provisions in Mr. Faneuil's SERP agreement. See "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Faneuil's employment agreement, as amended, and in his amended and restated deferred compensation agreements relating to termination, change of control and related payment obligations.

Charles A. Rudinsky, Executive Vice President and Chief Accounting Officer, is an at will employee and does not have an employment agreement with our general partner. In 2011, Mr. Rudinsky's base salary was \$273,000. Mr. Rudinsky also has entered into a SERP agreement with our general partner to provide him with supplemental retirement benefits in consideration of past and future services provided by him and in recognition of his ineligibility to participate in our increased benefits program in connection with the freezing of benefits under the pension plan. See "Supplemental Executive Retirement Plan Agreements" for a discussion of the provisions in Mr. Rudinsky's SERP agreement.

Table of Contents

Deferred Compensation Agreements

On December 31, 2008, our general partner and Edward J. Faneuil entered into a deferred compensation agreement pursuant to which Mr. Faneuil will be subject to terms and conditions relating to confidential information, non-solicitation and non-competition, as provided therein (the "Global Deferred Compensation Agreement"). See "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Faneuil's deferred compensation agreement relating to termination, change of control and related payment obligations.

On September 23, 2009, Alliance and Mr. Faneuil entered into a deferred compensation agreement pursuant to which Mr. Faneuil will be subject to terms and conditions relating to confidential information, non-solicitation and non-competition, as provided therein (the "Alliance Deferred Compensation Agreement"). See "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Faneuil's deferred compensation agreement relating to termination, change of control and related payment obligations.

Supplemental Executive Retirement Agreements

On December 31, 2009, our general partner entered into SERP agreements with each of Edward J. Faneuil and Charles A. Rudinsky. The value of the SERP benefits to be provided under the agreements, expressed as single lump sum payments, will be \$159,355 for Mr. Faneuil and \$277,318 for Mr. Rudinsky. Each of Messrs. Faneuil and Rudinsky will acquire a fully vested and nonforfeitable interest in his respective SERP benefit only to the extent he is continuously employed with our general partner from December 31, 2009 through the vesting dates set forth in his agreement, or if he dies or becomes Disabled (as such term is defined in the agreements) or if there is a Change in Control (as such term is defined in the agreements). See "Potential Payments Upon Termination or Change of Control" for a discussion of the provisions in Mr. Faneuil's and Mr. Rudinsky's SERP agreements relating to termination, change of control and related payment obligations.

Supplemental Payments in lieu of Discretionary Non-Matching Contributions under the Partnership's 401(k) and Profit Sharing Plan

As a result of the Partnership's acquisition of the membership interests in Alliance (the "Alliance Acquisition"), effective as of March 1, 2012, our general partner determined that it was unable to continue making certain non-matching contributions to the Partnership's 401(k) and Profit Sharing Plan on behalf of highly compensated employees (as such term is defined in Internal Revenue Code section 414(q)), including each of the named executive officers of our general partner. In connection with the termination of these non-matching payments, the Partnership intends to make one-time payments in the amounts of \$15,000, \$7,500, \$15,000 and \$15,000, respectively, to each of Messrs. Slifka, Hollister, Faneuil and Rudinsky.

Table of Contents**Potential Payments upon a Change of Control or Termination**

The following table shows potential payments to our named executive officers under existing contracts, agreements, plans or arrangements, whether written or unwritten, for various scenarios involving a change of control or termination of employment of each such named executive officer assuming a December 31, 2011 termination date. Because Eric Slifka's employment agreement with our general partner terminated on December 31, 2011 and he entered into a new employment agreement with our general partner effective January 1, 2012, we have used Mr. Slifka's current employment agreement. Amounts reflected in the table below with respect to LTIP awards were calculated based on the closing price of our common units of \$21.87 per unit on December 31, 2011.

| Name | Change in Control (\$) | Death (\$) | Disability (\$) | Termination by general partner without Cause / Constructive Termination / Breach by general partner | | Nonrenewal (\$) |
|------------------------------------|---------------------------|---------------|--------------------|---|-------------------------------------|--------------------|
| | | | | No Change in Control (\$) | With a Change In Control (\$) | |

(1)

Eric Slifka

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Effective January 1, 2012, Mr. Slifka entered into a new employment agreement with our general partner for an initial term commencing January 1, 2012 and continuing through December 31, 2014. If such employment agreement had been in effect on December 31, 2011, under such employment agreement and assuming Mr. Slifka's employment was terminated on December 31, 2011 for any

Table of Contents

reason, he would have been entitled to receive (i) all amounts of his base salary due and owing up through the date of termination, (ii) any earned but unpaid bonus, (iii) all reimbursements of expenses appropriately and timely submitted, and (iv) any and all other amounts that may be due to him as of the date of termination (the "Accrued Obligations").

If Mr. Slifka's employment had been terminated by death or "Disability" (defined below) on December 31, 2011, within 10 days following such termination he (or his estate) would have been entitled to receive in addition to any Accrued Obligations:

- (i) a lump sum payment of \$1,600,000 (equal to his then base salary multiplied by 200%); plus
- (ii) a lump sum payment of \$1,600,000 (equal to his target incentive amount under the short-term incentive plan multiplied by 200%); plus
- (iii) his interests in our general partner's long-term incentive plans, as described below.

Additionally, our general partner would have continued the monthly payment of all group health and similar insurance premiums on behalf of his spouse and dependents for 24 months following the date of termination. For purposes of Mr. Slifka's employment agreement, "Disability" is defined as a physical or mental condition which (a) renders Mr. Slifka, with or without reasonable accommodation, unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than 12 months, or (b) by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than 12 months, results in Mr. Slifka receiving income replacement benefits for a period of not less than 3 months under an accident and health plan covering employees of our general partner.

Assuming Mr. Slifka's employment had been terminated by our general partner without cause or by Mr. Slifka for reasons constituting "Constructive Termination" (defined below) on December 31, 2011, within 10 days following such termination he would have been entitled to receive in addition to any Accrued Obligations:

- (i) a lump sum payment of \$1,600,000 (an amount equal to his then base salary multiplied by 200%); provided, however, that the lump sum payment would be increased to \$2,400,000 (an amount equal to his then base salary multiplied by 300%) if such termination were for reasons constituting Constructive Termination *and* such termination occurred within 12 months following a "Change in Control" (defined below); plus
- (ii) a lump sum payment of \$1,600,000 (an amount equal to his target incentive amount under the then applicable Short-Term Incentive Plan multiplied by 200%); provided, however, that the lump sum payment would be increased to \$2,400,000 (an amount equal to his target incentive amount under the then applicable Short-Term Incentive Plan multiplied by 300%) if such termination were for reasons constituting Constructive Termination *and* such termination occurred within 12 months following a "Change in Control" (defined below); plus
- (iii) his interests in our general partner's long-term incentive plans, as described below.

Also, our general partner would have continued the monthly payment of all group health and similar insurance premiums on behalf of Mr. Slifka's spouse and dependents for 24 months following the date of termination. For purposes of Mr. Slifka's employment agreement, "Constructive Termination" means termination of employment as a result of (a) any substantial diminution, without Mr. Slifka's written consent, in his working conditions consisting of (i) a material reduction in his duties and responsibilities, (ii) any change in the reporting structure so that he no longer reports solely to our Board of Directors, or (iii) a relocation of his place of work further than forty (40) miles from Waltham, Massachusetts, or (b) an uncured breach by the general partner of a material provision of the employment agreement, as amended. Pursuant to Mr. Slifka's employment agreement, a "Change in

Table of Contents

Control" would be deemed to have occurred upon (1) the date that any one person, entity or group (other than Alfred Slifka, Richard Slifka or Eric Slifka, or their respective family members or entities they control, individually or in the aggregate, directly or indirectly) acquires ownership of the membership interests of our general partner that, together with the membership interests of our general partner already held by such person, entity or group, constitutes more than 50% of the total fair market value or total voting power of the membership interests of our general partner; provided, however, if any one person, entity or group is considered to own more than 50% of the total fair market value or total voting power of the membership interests of our general partner, the acquisition of additional membership interests by the same person, entity or group shall not be deemed to be a Change in Control; (2) a consolidation or merger (in one transaction or a series of related transactions) of our general partner pursuant to which the holders of our general partner's equity securities immediately prior to such transaction or series of related transactions would not be the holders immediately after such transaction or series of related transactions of at least 50% of the voting power of the entity surviving such transaction or series of related transactions; or (3) the sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all or substantially all of our business and/or assets to a person other than Alfred Slifka, Richard Slifka or Eric Slifka, or their respective family members or entities they control, individually or in the aggregate, directly or indirectly.

With respect to Mr. Slifka's interests in our general partner's long-term incentive plans:

- (i) Assuming, at December 31, 2011, that Mr. Slifka's employment had been terminated for death or Disability, or by our general partner without Cause or by Mr. Slifka for Constructive Termination, in either case within twelve months following a Change in Control, then all outstanding and unvested phantom units that were granted to Mr. Slifka under our LTIP on February 5, 2009 automatically would become fully vested without regard to the achievement of the performance goal provided in the grant. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of these phantom units would have been \$964,270. There were no DERs associated with the February 5, 2009 grant.
- (ii) Assuming, at December 31, 2011, that Mr. Slifka's employment had been terminated by our general partner without Cause or by Mr. Slifka for Constructive Termination, but such termination did not occur within twelve months following a Change in Control, then because Mr. Slifka was employed by our general partner for three years of the five year vesting period for his February 5, 2009 LTIP award, he would become fully vested in $\frac{3}{5}$ of the then outstanding and unvested phantom units granted to him, or 26,455 phantom units, automatically without regard to the achievement of the performance goal provided in the grant. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of these phantom units would have been \$578,571. There were no DERs associated with the February 5, 2009 grant.

In the event of termination for "Cause" (defined below), assuming a termination date of December 31, 2011 Mr. Slifka would have been entitled to receive the Accrued Obligations only. For purposes of Mr. Slifka's employment agreement, "Cause" is defined as (a) engaging in gross negligence or willful misconduct in the performance of duties, (b) committing an act of fraud, embezzlement or willful breach of a fiduciary duty to us including our general partner and any of our subsidiaries (including the unauthorized disclosure of any of our material secret, confidential and/or proprietary information, knowledge or data), (c) being convicted of a crime involving fraud, dishonesty or moral turpitude or any felony, or (d) breaching any material provision of the employment agreement.

If Mr. Slifka's employment agreement had not been renewed by our general partner effective January 1, 2012 and he did not continue to serve as our general partner's President and Chief Executive Officer following the expiration of the then current term of his employment agreement, he

Table of Contents

would have been entitled to be paid a lump sum payment equal to 100% of his then base salary plus a proportionate amount of the then outstanding and unvested phantom units awarded to him under our LTIP on February 5, 2009 plus any Accrued Obligations. For purposes of the above table we have assumed that Mr. Slifka's employment agreement was due to be renewed as of December 31, 2011 and we used Mr. Slifka's current base salary.

(2)

Thomas J. Hollister

The employment agreement between our general partner and Mr. Hollister provides, upon termination of his employment for any reason, that Mr. Hollister will receive payment through the date of termination of his employment of (i) any earned, but unpaid, base salary as then in effect, (ii) all earned, but unpaid, bonuses, and (iii) all accrued vacation, expense reimbursements and other benefits (other than severance benefits, except as provided below) due Mr. Hollister in accordance with the established plans and policies of our general partner or applicable law (the "Accrued Obligations").

In the event of a change in control (defined below), Mr. Hollister's employment agreement provides for accelerated vesting on any and all outstanding Partnership options, restricted units, phantom units, unit appreciation rights and other similar rights (under the LTIP or otherwise) held by him as in effect on the date of termination. The Compensation Committee granted to Mr. Hollister 61,728 phantom units (without DERs) on February 5, 2009, 15,432 of which vested and were paid to Mr. Hollister in August 2009 and another 15,432 of which vested and were paid to Mr. Hollister in February 2011. No other such options, restricted units, phantom units, unit appreciation rights and other similar rights had been granted to Mr. Hollister as of December 31, 2011. Assuming a change of control event (as defined in the grant) had occurred on December 31, 2011, all outstanding and unvested phantom units that were granted to Mr. Hollister on February 5, 2009 automatically would become fully vested. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of the February 5, 2009 awarded phantom units would have been \$674,996. Pursuant to Mr. Hollister's employment agreement, a "change in control" is deemed to occur on the date that any one person, entity or group (other than Alfred Slifka, Richard Slifka or Eric Slifka, or their respective family members or entities they control, individually or in the aggregate, directly or indirectly) acquires ownership of the membership interests of our general partner that, together with the membership interests of our general partner already held by such person, entity or group, constitutes more than 50% of the total voting power of the membership interests of our general partner.

Assuming Mr. Hollister's employment had been terminated on December 31, 2011 by our general partner for "Cause" (defined below) or by Mr. Hollister voluntarily (for reasons other than Constructive Termination), then following such termination Mr. Hollister (or his estate, if applicable) would have been entitled to the Accrued Obligations. For purposes of Mr. Hollister's employment agreement, "Cause" is defined as (1) engaging in gross negligence or willful misconduct in the performance of duties, (2) committing an act of fraud, embezzlement or willful breach of a fiduciary duty to us including our general partner and any of our subsidiaries (including the unauthorized disclosure of any material secret, confidential and/or proprietary information, knowledge or data of the Company or any of its subsidiaries), (3) being convicted of (or pleading no contest to) a crime involving fraud, dishonesty or moral turpitude or any felony, or (4) an uncured breach of any material provision of the agreement.

Assuming Mr. Hollister's employment had been terminated on December 31, 2011 by reason of Mr. Hollister's death or "Disability" (defined below), then following such termination Mr. Hollister (or his estate, if applicable) would have been entitled to the Accrued Obligations plus accelerated vesting of all outstanding and unvested phantom units that were granted to Mr. Hollister on February 5, 2009. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of the February 5, 2009 awarded phantom units would have been \$674,996. Pursuant to Mr. Hollister's employment agreement, "Disability" means a physical or mental disability or impairment which renders

Table of Contents

Mr. Hollister unable, with or without reasonable accommodation, to perform the essential functions of his duties for a period of at least 90 consecutive days and, following the expiration of the initial 90-day period, a medical doctor or other appropriate health care provider, in either case selected solely by our general partner, has delivered an opinion to our general partner that such physical or mental disability or impairment is expected to continue for at least an additional 90 consecutive days.

Assuming Mr. Hollister's employment had been terminated on December 31, 2011 by our general partner without Cause, or by Mr. Hollister for reasons constituting "Constructive Termination" (defined below), Mr. Hollister would have been entitled to receive a severance payment in an amount equal to the sum of (i) twice his then base salary (\$1,156,000), plus (ii) if such termination had occurred within 12 months following a Change in Control, an additional amount equal to twice his target incentive amount under the applicable short-term incentive for the fiscal year 2011 (\$675,000), for a total severance amount of \$1,831,000. Such severance payment would be payable monthly in 24 equal installments. During such severance payment payout period, Mr. Hollister would remain eligible to participate in our general partner's health insurance, pension, 401(k) and other employee benefit plans in accordance with our general partner's policies and on the same general basis as other employees. Additionally, in the absence of any Change in Control, all of the outstanding and unvested phantom units that were granted to Mr. Hollister on February 5, 2009 would automatically vest. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of the February 5, 2009 awarded phantom units would have been \$674,996. Mr. Hollister's employment agreement defines "Constructive Termination" as the termination of employment by Mr. Hollister as a result of (i) an uncured breach by the general partner of a material provision of the employment agreement, as amended, (ii) the failure of any successor (whether direct or indirect, by purchase, merger or otherwise) to all or substantially all of our business and/or assets to expressly assume and agree to perform the employment agreement, as amended or (iii) any material diminution, without Mr. Hollister's written consent, in his working conditions consisting of (a) a material reduction in his duties and responsibilities as the Chief Operating Officer or Chief Financial Officer, (b) any change in the reporting structure so that he no longer reports to the President or Chief Executive Officer of our general partner, or (c) a relocation of his place of work further than 40 miles from Waltham, Massachusetts. Assuming a December 31, 2011 termination date, in the event Mr. Hollister elected to terminate his employment for constructive termination at any time within three months before a change in control and 12 months after a change in control, then in addition to the foregoing severance and benefits Mr. Hollister also would have been entitled to the accelerated vesting provisions described above.

Our general partner is obligated to reimburse Mr. Hollister for any and all federal excise taxes and penalties (other than penalties imposed as a result of Mr. Hollister's actions), and any taxes imposed upon such reimbursement amounts, including, but not limited to, any federal, state and local income taxes, employment taxes, and other taxes, if any, which may become due pursuant to the application of Sections 4999 and/or 409A of the Internal Revenue Code of 1986 (the "Internal Revenue Code") on any payments to Mr. Hollister in connection with the employment agreement, as amended.

(3)

Edward J. Faneuil

The employment agreement between our general partner and Mr. Faneuil, as amended, provides that, upon termination of his employment for any reason, Mr. Faneuil will receive payment through the date of termination of his employment of (i) any earned, but unpaid, base salary as then in effect, (ii) all earned, but unpaid, bonuses, and (iii) all accrued vacation, expense reimbursements and other benefits (other than severance benefits, except as provided below) due Mr. Faneuil in accordance with the established plans and policies of our general partner or applicable law (the "Accrued Obligations").

In the event of a change in control (defined below), Mr. Faneuil's employment agreement provides for accelerated vesting on any and all outstanding Partnership options, restricted units, phantom units,

Table of Contents

unit appreciation rights and other similar rights (under the LTIP or otherwise) held by him as in effect on the date of termination. The Compensation Committee granted to Mr. Faneuil 48,501 phantom units (without DERs) on February 5, 2009, 12,125 of which vested and were paid to Mr. Faneuil in August 2009 and another 12,125 of which vested and were paid to Mr. Faneuil in February 2011. No other such options, restricted units, phantom units, unit appreciation rights and other similar rights had been granted to Mr. Faneuil as of December 31, 2011. Assuming a change of control event (as defined in the grant) had occurred on December 31, 2011, all outstanding and unvested phantom units and associated DERs that were granted to Mr. Faneuil on February 5, 2009 automatically would become fully vested. Using the closing market price of \$21.87 per unit at December 31, 2011, the fair value of the February 5, 2009 awarded phantom units would have been \$530,369. Pursuant to Mr. Faneuil's employment agreement, a "change in control" is deemed to occur on the date that any one person, entity or group (other than Alfred Slifka, Richard Slifka or Eric Slifka, or their respective family members or entities they control, individually or in the aggregate, directly or indirectly) acquires ownership of the membership interests of our general partner that, together with the membership interests of our general partner already held by such person, entity or group, constitutes more than 50% of the total voting power of the membership interests of our general partner.

Assuming Mr. Faneuil's employment had been terminated on December 31, 2011 (i) by our general partner for "Cause" (defined below), (ii) by Mr. Faneuil voluntarily (for reasons other than Constructive Termination), or (iii) by reason of Mr. Faneuil's death, then following such termination Mr. Faneuil (or his estate, if applicable) would have been entitled to the Accrued Obligations. For purposes of Mr. Faneuil's employment agreement, "Cause" is defined as (1) engaging in gross negligence or willful misconduct in the performance of duties, (2) committing an act of fraud, embezzlement or willful breach of a fiduciary duty to us including our general partner and any of our subsidiaries (including the unauthorized disclosure of any material secret, confidential and/or proprietary information, knowledge or data of the Company or any of its subsidiaries), (3) being convicted of (or pleading no contest to) a crime involving fraud, dishonesty or moral turpitude or any felony, or (4) an uncured breach of any material provision of the agreement.

Assuming Mr. Faneuil's employment had been terminated on December 31, 2011 by our general partner without Cause, or by Mr. Faneuil for reasons constituting "Constructive Termination" (defined below), Mr. Faneuil would have been entitled to receive a severance payment in an amount equal to the sum of (i) twice his then base salary (\$752,000), plus (ii) if such termination had occurred within 12 months following a Change in Control, an additional amount equal to twice his target incentive amount under the then applicable short-term incentive for the fiscal year (\$275,000), for a total severance amount of \$1,027,000. Such severance payment would be payable monthly in 24 equal installments. In addition, the general partner would provide health care continuation coverage benefits to Mr. Faneuil pursuant to the Consolidated Omnibus Budget Reconciliation Act of 1985 ("COBRA") and would continue to pay the applicable percentage of the medical insurance premium that it pays for active employees during the applicable COBRA coverage period. Mr. Faneuil's employment agreement defines "Constructive Termination" as the termination of employment by Mr. Faneuil as a result of (i) an uncured breach by the general partner of a material provision of the employment agreement, as amended, (ii) the failure of any successor (whether direct or indirect, by purchase, merger or otherwise) to all or substantially all of our business and/or assets to expressly assume and agree to perform the employment agreement, as amended or (iii) any material diminution, without Mr. Faneuil's written consent, in his working conditions consisting of (a) a material reduction in his duties and responsibilities as the Executive Vice-President and General Counsel, (b) any change in the reporting structure so that he no longer reports to the President or Chief Executive Officer of our general partner, or (c) a relocation of his place of work further than 40 miles from Waltham, Massachusetts. For purposes of Mr. Faneuil's employment agreement, however, Constructive Termination does not include a change in reporting structure as a result of our general partner becoming a subsidiary of an unrelated entity, including, without limitation, a change whereby Mr. Faneuil is not the chief legal

Table of Contents

officer or general counsel of the acquiring or parent entity or must report to the chief legal officer or general counsel of a currently unaffiliated parent corporation or entity. Assuming a December 31, 2011 termination date, in the event Mr. Faneuil elected to terminate his employment for constructive termination at any time within three months before a change in control and 12 months after a change in control, then in addition to the foregoing severance Mr. Faneuil also would have been entitled to the accelerated vesting provisions described above.

Our general partner and Mr. Faneuil also entered into the Global Deferred Compensation Plan, pursuant to which Mr. Faneuil will be paid the sum of \$70,000 per year (the "Global Deferred Compensation") in equal monthly installments of \$5,833.33 on the first business day of each month for 15 years (180 months) commencing on the earlier of: (i) August 1, 2014, and (ii) the first business day of the month following Mr. Faneuil's 'separation from service' (as defined in the Code) with our general partner for reasons other than 'Cause' (as defined in the deferred compensation agreement), subject to earlier termination as provided in the agreement. In the event of an unforeseeable emergency as referenced in the deferred compensation agreement, our general partner will pay Mr. Faneuil within 15 days of the occurrence of the unforeseeable emergency the maximum amount allowable in a lump sum promptly following the occurrence of such unforeseeable emergency. The Global Deferred Compensation will be forfeited in its entirety in the event that our general partner terminates Mr. Faneuil's employment prior to August 1, 2014 for Cause or Mr. Faneuil terminates his employment for any reason other than death, disability or a Change in Control (as defined below). On and after the date on which Global Deferred Compensation payments commence, our general partner may terminate its obligations under the deferred compensation agreement for Cause or if our general partner subsequently determines within 18 months of Mr. Faneuil's termination that circumstances which would give rise to a for Cause termination of Mr. Faneuil otherwise existed at the time of his earlier termination. In the event of Mr. Faneuil's death prior to his receiving any or all of the aggregate amount of the Global Deferred Compensation (including the event of Mr. Faneuil's death before August 1, 2014), our general partner will pay Mr. Faneuil's beneficiary within 60 days of the date of his death a single lump sum payment in an amount equal to the present value of the remaining payments that would have been paid to Mr. Faneuil. If there is a Change in Control or Mr. Faneuil is determined to have become disabled prior to his receiving any or all of the aggregate amount of the Global Deferred Compensation (including if the Change of Control occurred or the determination that Mr. Faneuil became disabled were made before August 1, 2014), our general partner will pay to Mr. Faneuil within 60 days of the effective date of the Change in Control or the determination that Mr. Faneuil became disabled a single lump sum payment in an amount equal to the present value of the remaining payments that would have been paid to him had the Change in Control not occurred or had Mr. Faneuil not become disabled. For purposes of the Global Deferred Compensation Agreement, "Cause", as defined in the deferred compensation agreement, means (a) any uncured material breach by Mr. Faneuil of his obligations under the Global Deferred Compensation Agreement, (b) any breach by Mr. Faneuil of his confidentiality, non-competition and non-solicitation obligations set forth on Exhibit "A" to the Global Deferred Compensation Agreement or included in his employment agreement with our general partner, (c) engagement in gross negligence or willful misconduct in the performance of his duties, (d) a conviction or plea of no contest to a crime involving fraud, dishonesty or moral turpitude or any felony, or (e) the commission of an act of embezzlement or willful breach of a fiduciary duty to our general partner, the Partnership or any of its Affiliates.

Alliance and Mr. Faneuil also entered into the Alliance Deferred Compensation Agreement, the terms of which, including, without limitation, the payment terms thereunder, are on the same terms as those of the Global Deferred Compensation Agreement. Accordingly, the various scenarios involving a change of control or termination of employment under the Alliance Deferred Compensation Agreement are identical to those described above with respect to the Global Deferred Compensation Agreement.

Table of Contents

Mr. Faneuil entered into a SERP agreement with our general partner on December 31, 2009. The value of the benefit to be provided under the SERP agreement, expressed as a single lump sum payment, is \$159,355. Mr. Faneuil will acquire a fully vested and nonforfeitable interest in his SERP benefit only to the extent he is continuously employed with our general partner from December 31, 2009 through the vesting dates set forth in his SERP agreement, or if he dies or becomes Disabled (as such term is defined in the SERP agreement) after December 31, 2009 while employed with our general partner or if there is a Change in Control (as such term is defined in the SERP agreement).

Our general partner is obligated to reimburse Mr. Faneuil for any and all federal excise taxes and penalties (other than penalties imposed as a result of Mr. Faneuil's actions), and any taxes imposed upon such reimbursement amounts, including, but not limited to, any federal, state and local income taxes, employment taxes, and other taxes, if any, which may become due pursuant to the application of Sections 4999 and/or 409A of the Code on any payments to Mr. Faneuil in connection with the employment agreement, as amended. Mr. Faneuil and our general partner have agreed to reform any provision of the deferred compensation agreement, as amended, between them in a manner mutually agreeable to avoid imposition of any additional tax under the provisions of Section 409A of the Internal Revenue Code and related regulations and Treasury pronouncements.

(4)

Charles A. Rudinsky

Mr. Rudinsky entered into a SERP agreement with our general partner on December 31, 2009. The value of the benefit to be provided under this SERP agreement, expressed as a single lump sum payment, is \$277,318. Mr. Rudinsky will acquire a fully vested and nonforfeitable interest in his SERP benefit only to the extent he is continuously employed with our general partner from December 31, 2009 through the vesting dates set forth in his SERP agreement, or if he dies or becomes Disabled (as such term is defined in the SERP agreement) after December 31, 2009 while employed with our general partner or if there is a Change in Control (as such term is defined in the SERP agreement).

(5)

LTIP Awards

On February 5, 2009, the Compensation Committee made grants of 88,183, 61,728, 48,501 and 17,637 phantom units under the LTIP, respectively, to Messrs. Eric Slifka, Hollister, Faneuil and Rudinsky. Upon a change of control event (as defined in the grant, as amended), all outstanding phantom units that were granted on February 5, 2009 to Messrs. Slifka, Hollister and Faneuil only and that have not otherwise vested automatically will become fully vested (in the case of the phantom units awarded to Mr. Slifka, without regard to the achievement of the performance goal.). See "Elements of Compensation *Long-Term Incentive Plan*" for information regarding performance restrictions and additional vesting terms.

Table of Contents**Other Benefits*****Pension Benefits***

The table below sets forth information regarding the present value as of December 31, 2011 of the accumulated benefits of our named executive officers under the Global Partners LP Pension Plan, Supplemental Executive Retirement Agreements and, with respect to Mr. Faneuil, the Global and Alliance Deferred Compensation Agreements. Amounts with respect to the Global and Alliance Deferred Compensation Plans are reflected in the table below because they represent a fixed entitlement.

Pension Benefits at December 31, 2011

| Name | Plan Name | Number of Years Credited Service (#) | Present Value of Accumulated Benefit (\$) | Payments During Last Fiscal Year (\$) |
|-------------------------|-----------|--|---|---|
| Eric Slifka | (1) | 23 | 232,934 | |
| Thomas J. Hollister | (1) | 4 | 87,255 | |
| Edward J. Faneuil | (1) | 19 | 479,628 | |

| Charles A. Rudinsky | (2) | n/a | 277,041 | |

(1) Global Partners LP Pension Plan

(2) Supplemental Executive Retirement Agreement

(3) Global Deferred Compensation Agreement

(4) Alliance Deferred Compensation Agreement

(5) From 1984 through 1988, Mr. Rudinsky was employed by National Petroleum Corporation, Inc. In 1988, a predecessor of the Partnership acquired all of the outstanding capital stock of National Petroleum Corporation, Inc. and Mr. Rudinsky became an employee of said predecessor of the Partnership. In connection with this acquisition, and for purposes of the Global Partners LP Pension Plan, Mr. Rudinsky was credited with four additional years of service for the period from 1984 through 1988.

Global Partners LP Pension Plan

All employees who (1) are 21 years of age or older, (2) are not covered by a collective bargaining agreement providing for union pension benefits, (3) have been employed by our predecessor, our general partner or one of our operating subsidiaries for one year prior to enrollment in the Pension Plan and (4) have worked for our predecessor, our general partner or one of our operating subsidiaries at least 1,000 hours during the applicable plan year are eligible to participate in the Global Partners LP Pension Plan (the "Pension Plan"). An employee is fully vested in benefits under the Pension Plan after completing five years of service or upon termination due to death, disability or retirement. When an employee retires at age 65, the employee can elect to receive either a lump sum distribution or monthly benefit payments under the Pension Plan equal to (1) 23% of the employee's average monthly compensation for the five consecutive calendar years during which the employee received the highest amount of pay ("Average Compensation") plus (2) 19.5% of the employee's Average Compensation in excess of his monthly "covered compensation" for Social Security purposes, as provided in the Pension Plan. However, if an employee completes less than 30 years of service on his termination at or after reaching age 65, the monthly benefit will be reduced by 1/30th for each year less than 30 years completed by the employee. If an employee is terminated before age 65, his benefit beginning at age 65

Table of Contents

would be based on his Average Compensation multiplied by a fraction, the numerator of which is a number of years of service at termination (not to exceed 30) and the denominator of which is the number of years such employee would have served (not to exceed 30) had he stayed until age 65. An employee who is terminated after completing at least five years of service will be eligible for an early retirement benefit determined as described in the preceding sentence at any time after attaining age 60. Effective December 31, 2009, the Pension Plan was amended to freeze participation in and benefit accruals under the Pension Plan.

The following table sets forth the estimated annual pension benefits payable upon retirement under the Global Partners LP Pension Plan formula to persons in the specified compensation and years of service classifications:

| Highest Consecutive 5-Year Average Compensation \$ | Estimated Annual Pension for Representative Years of Credited Service | | | | | |
|---|--|----------|----------|----------|----------|--------------------|
| | 5 Years | 10 Years | 15 Years | 20 Years | 25 Years | 30 Years & Over |
| | \$ | \$ | \$ | \$ | \$ | \$ |
| 125,000 | 6,924 | 13,849 | 20,773 | 27,697 | 34,621 | 41,546 |
| 150,000 | 8,695 | 17,390 | 26,085 | 34,780 | 43,475 | 52,171 |
| 175,000 | 10,466 | 20,932 | 31,398 | 41,864 | 52,330 | 62,796 |
| 200,000 | 12,237 | 24,474 | 36,710 | 48,947 | 61,184 | 73,421 |
| 225,000 | 14,008 | 28,015 | 42,023 | 56,030 | 70,038 | 84,046 |
| 245,000 and above | 15,424 | 39,849 | 46,273 | 61,697 | 77,121 | 92,546 |

Benefits under the formula are based upon the employee's highest consecutive five-year average compensation and are not subject to offset for social security benefits. Compensation for such purposes means compensation including overtime, but excluding bonuses, commissions, any program of deferred compensation, employee benefits, moving expense, transportation allowances, salary continuation, and additional forms of remuneration.

Supplemental Executive Retirement Agreements

For a description of the benefits provided to Messrs. Faneuil and Rudinsky pursuant to their Supplemental Executive Retirement Plans, please see "Employment and Related Agreements *Supplemental Executive Retirement Agreements*."

Global and Alliance Deferred Compensation Agreements

For a description of the deferred compensation arrangements provided to Mr. Faneuil pursuant to the Global Deferred Compensation Plan and the Alliance Deferred Compensation Plan, please see "Employment and Related Agreements *Deferred Compensation Agreements*."

401(k) Savings and Profit Sharing

The 401(k) Savings and Profit Sharing Plan permits all eligible employees to make voluntary pre-tax contributions to the plan, subject to applicable tax limitations. Effective January 1, 2010, our general partner may make a discretionary matching contribution to the plan for each eligible employee equal to 50% of each employee's contribution, up to a maximum contribution of 4% of the employee's pre-tax annual compensation, subject to certain limitations under federal law. Certain participants who are not highly compensated employees (as such term is defined in Internal Revenue Code section 414(q)) are also eligible for non-matching employer contributions equal to 1% or 2% of compensation, based on satisfaction of a service requirement or other factors. Eligible employees may elect to contribute up to 60% of their compensation to the plan for each plan year. Employee contributions are subject to annual dollar limitations, which are periodically adjusted by the cost of

Table of Contents

living index. Participants in the plan are always fully vested in any matching contributions under the plan; however, additional discretionary contributions are subject to a vesting schedule ranging from two to six years. The plan is intended to be tax-qualified under Section 401(a) of the Internal Revenue Code so that contributions to the plan, and income earned on plan contributions, are not taxable to employees until withdrawn from the plan, and so that contributions, if any, will be deductible when made.

Compensation of Directors

The following table sets forth (i) certain information concerning the compensation earned by our directors in 2011, and (ii) the aggregate amounts of stock awards and option awards, if any, held by each director at the end of the last fiscal year:

| Name | Fees | Stock | Total |
|-------------------------|-----------------------------------|----------------|--------|
| | Earned or Paid in Cash (\$) | Awards (\$) | |
| Alfred Slifka | 62,000 | | 62,000 |
| Richard Slifka | 61,000 | | 61,000 |
| Eric Slifka (1) | | | |
| Thomas J. Hollister (1) | | | |
| Robert J. McCool | 90,000 | | 90,000 |
| David McKown | 90,000 | | 90,000 |
| Kenneth I. Watchmaker | 97,500 | | 97,500 |

- (1) Mr. Eric Slifka and Mr. Hollister, as executive officers of our general partner, are otherwise compensated for their services and therefore receive no separate compensation for their service as directors.

Employees of our general partner who also serve as directors do not receive additional compensation. In 2011, directors who are not employees of our general partner (1) received: (a) \$50,000 annual cash retainer; (b) \$1,000 for each meeting of the board of directors attended; (c) \$2,000 for each audit committee meeting attended (limited to payment for one committee meeting per day); and (d) \$1,000 for each committee meeting other than the audit committee meeting attended (limited to payment for one committee meeting per day), and (2) are eligible to participate in the LTIP. In 2011, the chair of the audit committee received an additional \$7,500.

Each director also is reimbursed for out-of-pocket expenses in connection with attending meetings of the board of directors or committees. Each director will be fully indemnified by us for actions associated with being a director to the extent permitted under Delaware law.

Compensation Committee Interlocks and Insider Participation

Since the formation of Global GP LLC and throughout the fiscal year ended December 31, 2011, the Compensation Committee of Global GP LLC's board of directors has comprised of Robert J. McCool, David McKown and Kenneth I. Watchmaker, none of whom are officers or employees of our general partner or any of its affiliates. Mr. Alfred Slifka serves as the Chairman of the board of directors and, until March 1, 2012, was an employee of Alliance Energy LLC, which is a related party to (and customer of) the Partnership. Mr. Richard Slifka serves as Vice Chairman of our general partner's board of directors and, until March 1, 2012, was the Treasurer and an employee of Alliance Energy LLC. Effective March 1, 2012, Messrs. Alfred and Richard Slifka became employees of Global Petroleum Corp., which is a related party to the Partnership. Prior to the Alliance Acquisition, Mr. Eric Slifka served as a director of Alliance Energy LLC.

Compensation Committee Report

The Compensation Committee of Global GP LLC held four meetings during fiscal year 2011. The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based upon such review, the related discussions and such other matters deemed relevant and appropriate by the Compensation Committee, the Compensation Committee has recommended to the board of directors that the Compensation Discussion and Analysis be included in this Form 10-K.

Kenneth I. Watchmaker (Chairman)
Robert J. McCool
David McKown

Table of Contents**Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

The following table sets forth as of March 5, 2012 the beneficial ownership of units of Global Partners LP held by certain beneficial owners of more than 5% of the units, by each director and named executive officer of our general partner and by all directors and executive officers of our general partner as a group:

| Name of Beneficial Owner (1) | Common Units Beneficially Owned | Percentage of Common Units Beneficially Owned |
|--|--|---|
| AE Holdings Corp. (2) | 5,850,000 | 21.3% |
| Kayne Anderson Capital Advisors L.P. (3) | 3,817,411 | 13.9% |
| Richard A. Kayne (3) | 3,817,411 | 13.9% |

| All directors and executive officers as a group (10 persons) | 11,387,521 | 41.5% |

*

Less than 1%

- (1) The address for each person or entity listed other than (i) Kayne Anderson Capital Advisors, L.P., (ii) Richard A. Kayne, (iii) SteelPath Fund Advisors, LLC, (iv) Gabriel Hammond, and (v) Stuart Cartner, is P.O. Box 9161, 800 South Street, Suite 200, Waltham, Massachusetts 02454-9161.
- (2) AE Holdings Corp. owns 5,850,000, or 21.3%, of the common units of Global Partners LP. Alfred A. Slifka and Richard Slifka share voting and investment power with respect to and, therefore, may be deemed to beneficially own the units owned by AE Holdings Corp.
- (3) According to a Schedule 13G/A filed on January 24, 2012, Kayne Anderson Capital Advisors, L.P. and Richard A. Kayne beneficially owned 3,817,411 common units, representing 17.69% of the common units then outstanding. Upon the closing of the Partnership's acquisition of Alliance Energy LLC on March 1, 2012, an additional 5,850,000 common units were issued, thereby reducing the percentage ownership of Kayne Anderson Capital Advisors, L.P. and Richard A. Kayne to 13.9% of the common units outstanding. The address for Kayne Anderson Capital Advisors, L.P. and Richard A. Kayne is 1800 Avenue of the Stars, Second Floor, Los Angeles, California 90067.
- (4) Alfred A. Slifka and Richard Slifka share voting and investment power with respect to and, therefore, may be deemed to beneficially own, the units owned by Montello Oil Corporation.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

Table of Contents

- (5) Alfred A. Slifka and Richard Slifka share voting and investment power with respect to, and therefore may be deemed to beneficially own, the units owned by Global Petroleum Corp.
- (6) According to a Schedule 13G filed on February 14, 2012, SteelPath Fund Advisors, LLC, Gabriel Hammond and Stuart Cartner beneficially owned 1,451,425 common units, representing 6.7% of the common units then outstanding. Upon the closing of the Partnership's acquisition of Alliance Energy LLC on March 1, 2012, an additional 5,850,000 common units were issued, thereby reducing the percentage ownership of SteelPath Fund Advisors, LLC, Gabriel Hammond and Stuart Cartner to 5.3% of the common units outstanding. The address for SteelPath Fund Advisors, LLC, Gabriel Hammond and Stuart Cartner is 2100 McKinney Ave, Suite 1401, Dallas, TX 75201.
- (7) Eric Slifka has sole voting and investment power with respect to units owned by Larea Holdings LLC. Eric Slifka may, therefore, be deemed to beneficially own the units held by Larea Holdings LLC. Eric Slifka is the son of Alfred A. Slifka.
- (8) Richard Slifka is the trustee of a voting trust with sole voting and investment power with respect to units owned by Larea Holdings II LLC. Richard Slifka may, therefore, be deemed to beneficially own the units held by Larea Holdings II LLC.
- (9) Alfred A. Slifka and Richard Slifka share voting and investment power with respect to and, therefore, may be deemed to beneficially own, the units owned by Chelsea Terminal Limited Partnership.
- (10) Purchased by our general partner for the purpose of assisting us in meeting our anticipated obligations to deliver common units under our Long-Term Incentive Plan to officers, directors and employees, and meeting obligations under existing employment agreements with the officers of our general partner. Alfred A. Slifka and Richard Slifka control Global GP LLC, and thus may be deemed to beneficially own, the units owned by Global GP LLC.
- (11) Alfred A. Slifka and Richard Slifka are equal owners of Sandwich Terminal, L.L.C. and share voting and investment power with respect to and, therefore, may be deemed to beneficially own, the units owned by Sandwich Terminal, L.L.C.
- (12) Beneficially owned unit amounts for each of Alfred A. Slifka and Richard Slifka include the units owned by AE Holdings Corp., Montello Oil Corporation, Global Petroleum Corp., Chelsea Terminal Limited Partnership, Global GP LLC and Sandwich Terminal, L.L.C. Beneficially owned unit amounts for Richard Slifka also include the units owned by Larea Holdings II LLC. Alfred A. Slifka and Richard Slifka are brothers.
- (13) Beneficially owned unit amounts for Eric Slifka include the units owned by Larea Holdings LLC.

Equity Compensation Plan Table

The following table summarizes information about our equity compensation plans as of December 31, 2011:

| Plan Category | Number of Securities to be issued upon exercise of outstanding options, warrants and right (a) | Weighted average exercise price of outstanding options, warrants and rights (b) | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c) |
|--|--|---|---|
| Equity compensation plans approved by security holders | | | |
| Equity compensation plans not approved by security holders | | | 564,242 |
| Total | | | 564,242 |

Table of Contents

Item 13. Certain Relationships and Related Transactions, and Director Independence.

As of March 5, 2012, affiliates of our general partner, including directors and executive officers of our general partner, owned 11,387,521 common units representing 41.51% of the limited partnership interests in us. In addition, our general partner owns a 0.83% general partner interest in us.

Distributions and Payments to Our General Partner and Its Affiliates

The following table summarizes the distributions and payments to be made by us to our general partner and its affiliates in connection with the ongoing operation and liquidation of Global Partners LP pursuant to our partnership agreement. These distributions and payments were determined by and among affiliated entities and, consequently, are not the result of arm's-length negotiations.

Operational Stage

| | |
|---|--|
| Distributions of available cash to our general partner and its affiliates | We will generally make cash distributions of 99.17% to the unitholders, including affiliates of our general partner (including directors and executive officers of our general partner), as the holders of an aggregate of 11,387,521 common units and 0.83% to our general partner. In addition, if distributions exceed the minimum quarterly distribution and other higher target levels, our general partner will be entitled to increasing percentages of the distributions, up to 48.83% of the distributions above the highest target level. Assuming we have sufficient available cash to pay the full minimum quarterly distribution on all of our outstanding units for four quarters, our general partner and its affiliates, including directors and executive officers of our general partner, would receive an annual distribution of approximately \$0.4 million on the 0.83% general partner interest and \$21.1 million on their common units. |
| Payments to our general partner and its affiliates | Our general partner does not receive a management fee or other compensation for its management of Global Partners LP. Our general partner and its affiliates are reimbursed for expenses incurred on our behalf. Our partnership agreement provides that our general partner determines the amount of these expenses. |
| Withdrawal or removal of our general partner | If our general partner withdraws or is removed, its general partner interest and its incentive distribution rights will either be sold to the new general partner for cash or converted into common units, in each case for an amount equal to the fair market value of those interests. |

Liquidation Stage

| | |
|-------------|--|
| Liquidation | Upon our liquidation, the partners, including our general partner, will be entitled to receive liquidating distributions according to their particular capital account balances. |
|-------------|--|

Table of Contents

Omnibus Agreement

We are a party to an omnibus agreement with certain members of the Slifka family and our general partner that addresses the agreement of certain members of the Slifka family not to compete with us and to cause their affiliates not to compete with us under certain circumstances. The omnibus agreement also addressed certain environmental indemnity obligations of Global Petroleum Corp. and certain of its affiliates, which indemnity obligations have expired. In connection with our acquisition of Alliance Energy LLC, each of Alfred A. Slifka, Chairman of our general partner, and Richard Slifka, Vice Chairman of our general partner, entered into a business opportunity agreement with our general partner containing noncompetition provisions which are broader than those contained in the omnibus agreement in order to encompass our expanded lines of business since 2005.

Noncompetition

Pursuant to the omnibus agreement and the business opportunity agreement each of Alfred A. Slifka, and Richard Slifka agreed, and pursuant to his employment agreement with our general partner Eric Slifka agreed, for themselves and their respective affiliates, not to engage in, acquire or invest in any of the following businesses: (1) the wholesale and/or retail marketing, sale, distribution and transportation (other than transportation by truck) of refined petroleum products, crude oil, natural gas, ethanol, propane and/or biofuels; (2) the storage of refined petroleum products, crude oil, natural gas, ethanol, propane, biofuels and/or asphalt or asphalt products in connection with any of the activities described in (1); and (3) such other businesses in which we are engaged or, to their individual knowledge, we have commenced efforts to become engaged. Pursuant to the omnibus agreement, each of Alfred A. Slifka's and Richard Slifka's noncompetition obligations survive for so long as Alfred A. Slifka, Richard Slifka, Eric Slifka and/or any of their respective affiliates, individually or as part of a group, control our general partner. Pursuant to Eric Slifka's employment agreement with our general partner, his noncompetition obligations survive for one year following the termination of his employment.

In addition, Eric Slifka's employment agreement includes, and Eric Slifka agreed to, a confidentiality provision and a nonsolicitation provision, which generally will continue for two years and for one year, respectively, following Eric Slifka's termination of employment.

Shared Services Agreements

We are party to a shared services agreement with Global Petroleum Corp. and, until March 2011 we were party to a shared services agreement with Alliance Energy LLC. We believe the terms of these agreements are at least as favorable as could have been obtained from unaffiliated third parties. Under these agreements, we provide Global Petroleum Corp. and we provided Alliance Energy LLC with certain accounting, treasury, legal, information technology, human resources and financial operations support for which Global Petroleum Corp. and Alliance Energy LLC, as applicable, pay or paid us an amount based upon the cost associated with provision of such services. In addition, Global Petroleum Corp. provides us with certain terminal, environmental and operational support services, for which we pay a fee based on an agreed assessment of the cost associated with provision of such services. Through March 1, 2012, when we acquired all of the membership interests in Alliance Energy LLC, Alliance Energy LLC also provided us with certain support services for which we paid a fee based on an agreed assessment of the cost associated with provision of such services. We paid to Global Petroleum Corp. a net total of \$96,000, \$87,000 and \$73,000 and received from Alliance Energy LLC a total of \$187,000, \$196,000 and \$382,000 for the years ended December 31, 2011, 2010 and 2009, respectively. The decrease in amounts received from Alliance Energy LLC in 2011 and 2010 compared to 2009 is because the nature, scope and extent of services previously provided by us were diminished. The agreement with Global Petroleum Corp. is for an indefinite term, and either party may terminate its

Table of Contents

receipt of some or all of the services thereunder upon 180 days' notice at any time after January 1, 2009. As of December 31, 2011, no such notice of termination was given by either party.

In March 2012, following the closing of our acquisition of all of the membership interests in Alliance Energy LLC, (a) our shared services agreement with Alliance Energy LLC was terminated, (b) our shared services agreement with Global Petroleum Corp. was amended to include the services provided by Global Petroleum Corp. to Alliance Energy LLC, and (c) we entered into a shared services agreement with AE Holdings Corp. pursuant to which we provide AE Holdings Corp. with certain tax, accounting, treasury and legal support services for which AE Holdings Corp. will pay us \$15,000 per year. We believe the terms of the AE Holdings Corp. agreement is at least as favorable as could have been obtained from unaffiliated third parties. The agreement with AE Holdings Corp. is for an indefinite term and AE Holdings Corp. may terminate its receipt of some or all of the services upon 180 days' notice.

Management Agreements

In connection with the acquisition of retail gas stations and supply rights (collectively, the "Facilities") from ExxonMobil, Global Companies LLC and Global Montello Group Corp. were parties to facilities management agreements with Alliance Energy LLC. We believe the terms of these agreements were at least as favorable as could have been obtained from unaffiliated third parties. Each management agreement was for an initial term continuing through September 30, 2013. Either party to each management agreement could have extended the term for consecutive additional one-year terms by giving written notice of its election to extend the term not less than twenty-four months prior to the expiration of the then current term, subject to the parties' mutual agreement on the management fee for such extension.

Pursuant to the management agreements, Alliance Energy LLC supervised and directed the day-to-day management and operations of the Facilities for an aggregate annual management fee of \$2.6 million, commencing October 1, 2010. Global Companies LLC and Global Montello Group Corp. shared in paying the annual management fees consistent with their ownership of the assets acquired pursuant to the purchase agreement. Alliance Energy LLC managed the operations of the Facilities in accordance with annual budgets approved by Global Companies LLC and Global Montello Group Corp., respectively. Global Companies LLC and Global Montello Group Corp. were responsible for the salaries of the employees directly employed to manage and operate the Facilities and for a portion of the salaries of certain administrative personnel of Alliance Energy LLC as approved by Global Companies LLC and/or Global Montello Group Corp. in accordance with the management agreements and the approved annual budgets. All matters pertaining to the employment, supervision, compensation, promotion, and discharge of such employees were the responsibility of Alliance Energy LLC. Pursuant to the management agreements, Alliance Energy LLC was required to indemnify Global Companies LLC and Global Montello Group Corp. from and against any and all claims and damages of any nature whatsoever arising out of or incidental to Alliance Energy LLC's performance of its responsibilities under the management agreements caused by or due to fraud, gross negligence, willful misconduct or a material breach by Alliance Energy LLC of any provision of the management agreements. Alliance Energy LLC's aggregate liability was capped at \$5.0 million, over and above the utilization of any and all insurance proceeds. Collectively, Global Companies LLC and Global Montello Group Corp. paid to Alliance Energy LLC a total management fee and overhead reimbursement of \$4.2 million and \$1.64 million, respectively, for the years ended December 31, 2011 and 2010, respectively.

In March 2012, following the closing of our acquisition of Alliance Energy LLC, the management agreements were terminated.

Table of Contents

Sub-Jobber Agreements

We are parties to an Amended and Restated Distributor PMPA Franchise Agreement (the "Franchise Agreement") with Alliance Energy LLC. Pursuant to the Franchise Agreement, Alliance Energy LLC purchases all of its Mobil-branded fuel in Massachusetts, New Hampshire, Rhode Island and Maine from Global Companies LLC for a term of seven years. The price for fuel purchased under the Franchise Agreement is Global Companies LLC's distributor rack price for Mobil-branded fuels as is in effect at the time of purchase. Pursuant to the Franchise Agreement, Alliance Energy LLC is granted the right to continue using the Mobil and Exxon names and trade dress (collectively, the "Mobil Flag") at its Mobil-branded and Exxon-branded stations in Massachusetts, New Hampshire, Rhode Island and Maine.

We are party to a Volume Incentive Program Agreement with Alliance Energy LLC pursuant to which Alliance Energy LLC receives a per gallon rebate on all Mobil-branded and Exxon-branded fuel purchased from Global Companies LLC.

We believe the terms of the Franchise Agreement and the Volume Incentive Program Agreement are at least as favorable as could have been obtained from unaffiliated third parties.

Throughput Agreement with Global Petroleum Corp.

We have an exclusive throughput agreement with Global Petroleum Corp., one of our affiliates, with respect to the Revere terminal in Revere, Massachusetts. We believe the terms of this agreement are at least as favorable as could have been obtained from unaffiliated third parties. We retain the title to all our products stored at this terminal. The term of this agreement ends July 31, 2014. The agreement automatically renews annually unless it is terminated by either party by giving 90 days' notice. We pay a monthly fee to Global Petroleum Corp., which is adjusted according to the Consumer Price Index for the Northeast region and for certain contractual costs. Including increases in certain contractual costs but excluding amortization of deferred rent, we paid to Global Petroleum Corp. a total of \$8.7 million, \$8.6 million and \$8.4 million for the years ended December 31, 2011, 2010 and 2009, respectively. Throughout the term of the throughput agreement with Global Petroleum Corp., we will have a right of first refusal through September 30, 2014 to purchase or lease the Revere terminal if Global Petroleum Corp. desires to sell or lease the Revere terminal to a third party.

Relationship of Management with Global Petroleum Corp., AE Holdings Corp. and Alliance Energy LLC

Some members of our management team are also officers and/or directors of our affiliate, Global Petroleum Corp. Global Petroleum Corp. is wholly owned by ASRS Global General Partnership, an entity that is owned equally by Alfred A. and Richard Slifka. Messrs. Faneuil and Rudinsky spend a portion of their time providing services to Global Petroleum Corp. under a shared services agreement. Please read " Shared Services Agreements."

Prior to the closing of our acquisition of Alliance Energy LLC, Alliance Energy LLC was wholly owned by AE Holdings Corp., which is approximately 95% owned by members of the Slifka family. Under a shared services agreement, Messrs. Eric Slifka, Hollister, Faneuil and Rudinsky also spent a portion of their time providing services to Alliance Energy LLC. Under a new shared services agreement, Messrs. Eric Slifka, Faneuil and Rudinsky will spend a portion of their time providing services to AE Holdings Corp. Alfred A. Slifka and Richard Slifka share voting and investment power with respect to AE Holdings Corp. and therefore may be deemed to beneficially own the units owned by AE Holdings Corp. Please read " Shared Services Agreements."

We sell refined petroleum products and renewable fuels to Alliance Energy LLC at prevailing market prices at the time of delivery. Sales to Alliance Energy LLC were approximately \$187.1 million,

Table of Contents

\$20.1 million and \$19.8 million for the years ended December 31, 2011, 2010 and 2009, respectively. Sales for the year ended December 31, 2011 include sales of Mobil-branded fuel to Alliance Energy LLC pursuant to the Franchise Agreement with Alliance Energy LLC, net of rebates under the Volume Incentive Program Agreement. Please read " Sub-Jobber Agreements."

Policies Relating to Conflicts of Interest

Conflicts of interest exist and may arise in the future as a result of the relationships between our general partner and its affiliates, on the one hand, and us and our unaffiliated limited partners, on the other hand. The directors and officers of our general partner have fiduciary duties to manage our general partner in a manner beneficial to its owners. At the same time, our general partner has a fiduciary duty to manage us in a manner beneficial to our unitholders and us. Our partnership agreement modifies and limits our general partner's fiduciary duties to unitholders. Our partnership agreement also restricts the remedies available to unitholders for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty under applicable Delaware law. The Delaware Revised Uniform Limited Partnership Act provides that Delaware limited partnerships may, in their partnership agreements, expand, restrict or eliminate the fiduciary duties otherwise owed by a general partner to limited partners and the partnership.

Under our partnership agreement, whenever a conflict arises between our general partner or its affiliates, on the one hand, and us or any other partner, on the other, our general partner will resolve that conflict. Our general partner will not be in breach of its obligations under our partnership agreement or its duties to us or our unitholders if the resolution of the conflict is:

approved by the conflicts committee of our general partner, although our general partner is not obligated to see(k) such approval;

approved by the vote of a majority of the outstanding common units, excluding any common units owned by our general partner or any of its affiliates;

on terms no less favorable to us than those generally being provided to or available from unaffiliated third parties; or

fair and reasonable to us, taking into account the totality of the relationships between the parties involved, including other transactions that may be particularly favorable or advantageous to us.

Our general partner may, but is not required to, seek the approval of such resolution from the conflicts committee of the board of directors our general partner. If our general partner does not seek approval from the conflicts committee and its board of directors determines that the resolution or course of action taken with respect to the conflict of interest satisfies either of the standards set forth in the third and fourth bullet points above, then it will be presumed that, in making its decision, the board acted in good faith, and in any proceeding brought by or on behalf of us or any of any limited partner, the person bringing or prosecuting such proceeding will have the burden of overcoming such presumption. Unless the resolution of a conflict is specifically provided for in our partnership agreement, our general partner or the conflicts committee may consider any factors it determines in good faith to consider when resolving a conflict. When our partnership agreement requires someone to act in good faith, it requires that person to reasonably believe that he is acting in the best interests of the partnership, unless the context otherwise requires.

Director Independence

Please see Item 10, "Directors, Executive Officers and Corporate Governance" for information regarding director independence.

Table of Contents**Item 14. Principal Accounting Fees and Services.**

The audit committee of the board of directors of Global GP LLC selected Ernst & Young LLP, Independent Registered Public Accounting Firm, to audit the books, records and accounts of Global Partners LP for the 2011 and 2010 calendar years. The audit committee's charter, which is available on our website at www.globalp.com, requires the audit committee to approve in advance all audit and non-audit services to be provided by our independent registered public accounting firm. All services reported in the audit, audit-related, tax and all other fees categories below were approved by the audit committee.

Fees paid to Ernst & Young LLP were as follows (in thousands):

| | 2011 | 2010 |
|--------------------|-----------------|-----------------|
| Audit Fees (1) | \$ 1,590 | \$ 2,145 |
| Audit-Related Fees | 32 | 63 |
| Tax Fees (2) | 1,132 | 666 |
| Total | \$ 2,754 | \$ 2,874 |

-
- (1) Represents fees for professional services provided primarily in connection with the audits of our annual financial statements and reviews of our quarterly financial statements. Audit fees also included Ernst & Young's audits of the effectiveness of our internal control over financial reporting at December 31, 2011 and 2010, and fees for 2011 and 2010 included audits performed as part of the filing of Form S-3 and related amendment and prospectus supplement filings.
- (2) Tax fees included tax planning and tax return preparation.

Report of Independent Registered Public Accounting Firm

The Board of Directors of Global GP LLC
and Unitholders of Global Partners LP

We have audited the accompanying consolidated balance sheets of Global Partners LP ("the Partnership") as of December 31, 2011 and 2010, and the related consolidated statements of income, partners' equity and cash flows for each of the three years in the period ended December 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Global Partners LP at December 31, 2011 and 2010, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Global Partners LP's internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 12, 2012 expressed an unqualified opinion thereon.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Organization and Nature of Business

Global Partners LP (the "Partnership") is a publicly traded master limited partnership that engages in the wholesale and commercial distribution of refined petroleum products, renewable fuels and small amounts of natural gas and crude oil and also provides ancillary services to companies. The Partnership also receives revenue from retail sales of gasoline, convenience store sales and gas station rental income.

As of December 31, 2011, the Partnership had five operating subsidiaries: Global Companies LLC, its subsidiary, Glen Hes Corp., Global Montello Group Corp. ("GMG"), Chelsea Sandwich LLC and Global Energy Marketing LLC ("Global Energy") (the five operating subsidiaries, collectively, the "Companies"). The Companies (other than Glen Hes Corp.) are wholly owned by Global Operating LLC, a wholly owned subsidiary of the Partnership. GMG conducts the Partnership's end user business, including certain aspects of its retail gasoline business. Global Energy conducts portions of the Partnership's natural gas operations. In addition, GLP Finance Corp. ("GLP Finance") is a wholly owned subsidiary of the Partnership. GLP Finance has no material assets or liabilities. Its activities will be limited to co-issuing debt securities and engaging in other activities incidental thereto. In January 2012, Alliance Retail LLC, a wholly owned subsidiary of GMG, was formed to hold certain property, plant and equipment acquired from Alliance Energy LLC (see "Recent Development Acquisition of Alliance Energy LLC").

The Partnership's 0.83% general partner interest is held by Global GP LLC, the Partnership's general partner (the "General Partner"). The General Partner, which is owned by affiliates of the Slifka family, manages the Partnership's operations and activities and employs its officers and substantially all of its personnel. Affiliates of the General Partner, including its directors and executive officers, own 11,387,521 common units, representing a 41.5% limited partner interest.

Recent Development Acquisition of Alliance Energy LLC

On March 1, 2012, the Partnership acquired from AE Holdings Corp. ("AE Holdings") 100% of the outstanding membership interests in Alliance Energy LLC ("Alliance"), a gasoline distributor and operator of gasoline stations and convenience stores. In consideration, the Partnership issued to AE Holdings 5,850,000 common units representing limited partner interest in the Partnership and assumed long-term debt of Alliance, subject to post-closing adjustments, of approximately \$180.0 million.

Alliance's portfolio includes approximately 540 gasoline stations in New England, New York, New Jersey and Pennsylvania. Alliance owns or has long-term leases on approximately 253 sites and has supply contracts for the remaining stations. With the completion of the Alliance acquisition, the Partnership now has a total portfolio of approximately 800 owned, leased or supplied gas stations, expanding its geographic footprint for such stations to include Connecticut, Maine, New Jersey, New York and Pennsylvania. In addition, while the Partnership's existing stations are flying the Mobil flag, Alliance is a top-tier distributor of multiple brands, including Exxon, Mobil, Shell, Sunoco, CITGO and Gulf.

In connection with the acquisition of Alliance, the Partnership incurred acquisition costs of \$1.1 million for the year ended December 31, 2011, which are included in selling, general and administrative expenses in the accompanying consolidated statement of income, and expects to incur additional acquisition costs of approximately \$5.0 million in 2012, for total estimated acquisition costs of approximately \$6.1 million.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies

Basis of Consolidation and Presentation

The accompanying consolidated financial statements as of December 31, 2011 and 2010 and for the years ended December 31, 2011, 2010 and 2009 reflect the accounts of the Partnership. All intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates under different assumptions or conditions.

Cash and Cash Equivalents

The Partnership considers highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. The carrying value of cash and cash equivalents approximates fair value.

Accounts Receivable

The Partnership's accounts receivable result from sales of refined petroleum products, renewable fuels and natural gas to its customers. The majority of the Partnership's accounts receivable relates to its petroleum marketing activities that can generally be described as high volume and low margin activities. The Partnership makes a determination of the amount, if any, of a line of credit it may extend to a customer based on the form and amount of financial performance assurances the Partnership requires. Such financial assurances are commonly provided to the Partnership in the form of standby letters of credit, personal guarantees or corporate guarantees.

The Partnership reviews all accounts receivable balances on a monthly basis and records a reserve for estimated amounts it expects will not be fully recovered. At December 31, 2011 and 2010, substantially all of the Partnership's accounts receivable classified as current assets were within payment terms.

Inventories

Except for its convenience store inventory, the Partnership hedges substantially all of its inventory through futures contracts and swap agreements. Hedges are executed when inventory is purchased and are identified with that specific inventory. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales. All hedged inventory is valued using the lower of cost, as determined by specific identification, or market. Prior to sale, hedges are removed from specific barrels of inventory, and the then unhedged inventory is sold and accounted for on a first-in, first-out basis. In addition, the Partnership has convenience store inventory which is carried at the lower of historical cost or market.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)

Inventories consisted of the following at December 31 (in thousands):

| | 2011 | 2010 |
|--|-------------------|-------------------|
| Distillates: home heating oil, diesel and kerosene | \$ 393,137 | \$ 377,123 |
| Gasoline | 154,303 | 115,542 |
| Residual oil and crude oil | 56,121 | 35,749 |
| Blendstocks | 57,970 | 55,919 |
| Total | 661,531 | 584,333 |
| Convenience store inventory | 2,613 | 2,498 |
| Total | \$ 664,144 | \$ 586,831 |

In addition to its own inventory, the Partnership has exchange agreements with unrelated third-party suppliers, whereby it may draw inventory from these other suppliers (see *Revenue Recognition*) and suppliers may draw inventory from the Partnership. Positive exchange balances are accounted for as accounts receivable and amounted to \$65.3 million and \$126.8 million at December 31, 2011 and 2010, respectively. Negative exchange balances are accounted for as accounts payable and amounted to \$58.2 million and \$115.2 million at December 31, 2011 and 2010, respectively. Exchange transactions are valued using current quoted market prices.

Property and Equipment

Property and equipment are stated at cost. Expenditures for routine maintenance, repairs and renewals are charged to expense as incurred, and major improvements are capitalized. Depreciation is charged to cost of sales and selling, general and administrative expenses over the estimated useful lives of the applicable assets, using straight-line methods. When applicable, the Partnership capitalizes interest on qualified long-term projects and depreciates it over the life of the related asset. The estimated useful lives are as follows:

| | |
|--|-------------|
| Buildings, docks, terminal facilities and improvements | 15-25 years |
| Gasoline stations | 25 years |
| Gasoline station equipment | 7 years |
| Fixtures, equipment and automobiles | 3-7 years |

Intangibles and Other Long-Lived Assets

Intangibles are carried at cost less accumulated amortization. For assets with determinable useful lives, amortization is computed using the straight line method over the estimated economic useful lives of the respective intangible assets, ranging from 2 to 20 years. Accounting and reporting guidance for long-lived assets, including intangibles, requires that a long-lived asset (group) be reviewed for impairment only when events or changes in circumstances indicate that the carrying amount of the long-lived asset (group) might not be recoverable. Accordingly, the Partnership evaluates for impairment whenever indicators of impairment are identified. The impairment evaluation is based on the projected cash flows of the particular asset. There were no indicators of impairment in 2011, 2010 and 2009, and thus, no evaluation was required as of the balance sheet dates ended December 31, 2011, 2010 and 2009. Accordingly, there were no impairments recorded in fiscal years 2011, 2010 and 2009.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)

Environmental and Other Liabilities

The Partnership accrues for all direct costs associated with the estimated resolution of contingencies at the earliest date at which it is deemed probable that a liability has been incurred and the amount of such liability can be reasonably estimated. Costs accrued are estimated based upon an analysis of potential results, assuming a combination of litigation and settlement strategies and outcomes.

Estimated losses from environmental remediation obligations generally are recognized no later than completion of the remedial feasibility study. Loss accruals are adjusted as further information becomes available or circumstances change. Costs of future expenditures for environmental remediation obligations are not discounted to their present value.

Recoveries of environmental remediation costs from other parties are recognized as assets when their receipt is deemed probable.

The Partnership is subject to other contingencies, including legal proceedings and claims arising out of its businesses that cover a wide range of matters, including, among others, environmental matters and contract and employment claims. Environmental and other legal proceedings may also include matters with respect to businesses previously owned. Further, due to the lack of adequate information and the potential impact of present regulations and any future regulations, there are certain circumstances in which no range of potential exposure may be reasonably estimated. See Notes 9 and 20.

Leases

The Partnership leases office space and computer equipment and also has entered into terminal and throughput lease arrangements with various unrelated oil terminals. In addition, the Partnership leases certain gas stations from third parties under long-term arrangements with various expiration dates. Accounting and reporting guidance for leases requires that leases be evaluated and classified as operating or capital leases for financial reporting purposes. The lease term used for lease evaluation includes option periods only in instances in which the exercise of the option period can be reasonably assured and failure to exercise such options would result in an economic penalty.

Revenue Recognition

Sales relate primarily to the sale of refined petroleum products, renewable fuels, natural gas and crude oil and are recognized along with the related receivable upon delivery, net of applicable provisions for discounts and allowances. Allowances for cash discounts are recorded as a reduction of sales at the time of sale based on the estimated future outcome. The Partnership may also provide for shipping costs at the time of sale, which are included in cost of sales. The amounts recorded for bad debts are generally based upon a specific analysis of aged accounts while also factoring in any new business conditions that might impact the historical analysis, such as market conditions and bankruptcies of particular customers. Bad debt provisions are included in selling, general and administrative expenses. Convenience store products are recognized net of applicable provisions for discounts and allowances upon delivery, generally at the point of sale. Rental income is recognized on a straight-line basis over the term of the lease.

Revenue is not recognized on exchange agreements, which are entered into primarily to acquire various refined petroleum products of a desired quality or to reduce transportation costs by taking delivery of products closer to the Partnership's end markets. Any net differential for exchange agreements is to be recorded as a nonmonetary adjustment of inventory costs.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)

The Partnership collects trustee taxes, which consist of various pass through taxes collected from customers on behalf of taxing authorities, and remits such taxes directly to those taxing authorities. As such, it is the Partnership's policy to exclude trustee taxes from revenues and cost of sales and account for them as liabilities.

Income Taxes

Section 7704 of the Internal Revenue Code provides that publicly-traded partnerships are, as a general rule, taxed as corporations. However, an exception, referred to as the "Qualifying Income Exception," exists under Section 7704(c) with respect to publicly-traded partnerships of which 90% or more of the gross income for every taxable year consists of "qualifying income." Qualifying income includes income and gains derived from the transportation, storage and marketing of crude oil, natural gas and products thereof. Other types of qualifying income include interest (other than from a financial business), dividends, gains from the sale of real property and gains from the sale or other disposition of capital assets held for the production of income that otherwise constitutes qualifying income.

Substantially all of the Partnership's income is "qualifying income" for federal and state income tax purposes and, therefore, is not subject to federal and state income taxes at the partnership level. Accordingly, no provision has been made for income taxes on the qualifying income in the Partnership's financial statements. Net income for financial statement purposes may differ significantly from taxable income reportable to unitholders as a result of differences between the tax bases and financial reporting bases of assets and liabilities and the taxable income allocation requirements under the Partnership's agreement of limited partnership. Individual unitholders have different investment bases depending upon the timing and price at which they acquired their Partnership units. Further, each unitholder's tax accounting, which is partially dependent upon the unitholder's tax position, differs from the accounting followed in the Partnership's consolidated financial statements. Accordingly, the aggregate difference in the basis of the Partnership's net assets for financial and tax reporting purposes cannot be readily determined because information regarding each unitholder's tax attributes in the Partnership is not available to the Partnership.

One of the Partnership's wholly owned subsidiaries, GMG, is a taxable entity for federal and state income tax purposes. Current and deferred income taxes are recognized on the separate earnings of GMG for the years ended December 31, 2011, 2010 and 2009. The after-tax earnings of GMG are included in the earnings of the Partnership. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes for GMG. See Note 4.

GMG files income tax returns in the United States and various state jurisdictions. The Partnership is subject to income tax examinations by tax authorities for all years dated back to 2008.

The Partnership performed an evaluation of all material tax positions for the tax years that remain subject to examination by major tax jurisdictions as of December 31, 2011 (tax years ended December 31, 2011, 2010 and 2009). Tax positions that do not meet the more-likely-than-not recognition threshold at the financial statement date may not be recognized or continue to be recognized under the accounting guidance for income taxes. Based on such evaluation, the Partnership concluded that there were no significant uncertain tax positions requiring adjustment regarding recognition in its financial statements as of December 31, 2011. Where required, the Partnership recognizes interest and penalties for uncertain tax positions in selling, general and administrative expenses.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)***Concentration of Risk***

Financial instruments that potentially subject the Partnership to concentration of credit risk consist primarily of cash, cash equivalents, accounts receivable, firm commitments and, under certain circumstances, futures contracts, forward fixed price contracts, options and swap agreements. The Partnership invests excess cash primarily in investment-grade securities and, by policy, limits the amount of credit exposure to any one financial institution. The Partnership provides credit, in the normal course of its business and generally does not require collateral. The Partnership performs ongoing credit evaluations of its customers and provides for credit losses based on specific information and historical trends. Credit risk on trade receivables is minimized as a result of the Partnership's large customer base. Losses have historically been within management's expectations. See Note 3 for a discussion regarding risk of credit loss related to futures contracts, forward fixed price contracts, options and swap agreements.

The Partnership's wholesale and commercial customers of refined petroleum products are located in the Northeast. The Partnership's retail gas stations are located in Massachusetts, New Hampshire and Rhode Island.

As demand for some of the Partnership's refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally greater during the winter months, sales are generally higher during the first and fourth quarters of the calendar year which may result in significant fluctuations in the Partnership's quarterly operating results.

The following table presents the Partnership's products as a percentage of total sales for the years ended December 31:

| | 2011 | 2010 | 2009 |
|--|------|------|------|
| Gasoline sales: gasoline and blendstocks such as ethanol and naphtha | 68% | 60% | 51% |
| Distillate sales: home heating oil, diesel and kerosene | 28% | 35% | 44% |
| Residual oil and crude oil sales | 4% | 5% | 5% |
| Total | 100% | 100% | 100% |

The Partnership had one customer, ExxonMobil Oil Corporation ("ExxonMobil") who accounted for approximately 19%, 19% and 22% of sales for the years ended December 31, 2011, 2010 and 2009, respectively.

Note 2. Summary of Significant Accounting Policies (continued)

Derivative Financial Instruments

Accounting and reporting guidance for derivative instruments and hedging activities requires that an entity recognize derivatives as either assets or liabilities on the balance sheet and measure the instruments at fair value. Changes in the fair value of the derivative are to be recognized currently in earnings, unless specific hedge accounting criteria are met.

Fair Value Hedges

The fair value of the Partnership's derivatives is determined through the use of independent markets and is based upon the prevailing market prices of such instruments at the date of valuation. The Partnership enters into futures contracts for the receipt or delivery of refined petroleum products, renewable fuels and crude oil in future periods. The contracts are entered into in the normal course of business to reduce risk of loss of inventory on hand, which could result through fluctuations in market prices. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales. Ineffectiveness related to these hedging activities was immaterial for the years ended December 31, 2011, 2010 and 2009.

The Partnership also uses futures contracts and swap agreements to hedge exposure under forward fixed price purchase and sale commitments. These agreements are intended to hedge the impact of commodity price changes on our inventories and forward fixed price commitments as well as to hedge the cost component of virtually all of the Partnership's forward fixed price purchase and sale commitments. Changes in the fair value of these contracts and agreements, as well as offsetting gains or losses on the forward fixed price purchase and sale commitments, are recognized in earnings as an increase or decrease in cost of sales. Gains and losses on net product margin from forward fixed price purchase and sale commitments are reflected in earnings as an increase or decrease in cost of sales as these contracts mature. Ineffectiveness related to these hedging activities was immaterial for the years ended December 31, 2011, 2010 and 2009.

The Partnership also markets and sells natural gas. The Partnership generally conducts business by entering into forward purchase commitments for natural gas only when it simultaneously enters into arrangements for the forward sale of product for physical delivery to third-party users. Through these transactions, which establish an immediate margin, the Partnership seeks to maintain a position that is substantially balanced between firm forward purchase and sales commitments. Natural gas is generally purchased and sold at fixed prices and quantities. Current price quotes from actively traded markets are used in all cases to determine the contracts' fair value. Changes in the fair value of these contracts are recognized in earnings as an increase or decrease in cost of sales. See Note 3 for additional information on fair value hedges.

Cash Flow Hedges

The Partnership links all hedges that are designated as cash flow hedges to forecasted transactions. To the extent such hedges are effective, the changes in the fair value of the derivative instrument are reported as a component of other comprehensive income and reclassified into interest expense or interest income in the same period during which the hedged transaction affects earnings.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)

The Partnership executed two zero premium interest rate collars with major financial institutions. Each collar is designated and accounted for as a cash flow hedge. The first collar, which became effective on May 14, 2007 and expired on May 14, 2011, was used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings on the revolving credit facility. The second collar, which became effective on October 2, 2008 and expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on the Partnership's \$100.0 million one-month LIBOR-based borrowings on the working capital revolving credit facility (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate.

In October 2009, the Partnership executed a forward starting interest rate swap with a major financial institution. The swap, which became effective on May 16, 2011 and expires on May 16, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the revolving credit facility at a fixed rate of 3.93%.

In addition, in April 2011, the Partnership executed an interest rate cap with a major financial institution. The rate cap, which became effective on April 13, 2011 and expires on April 13, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the working capital revolving credit facility.

See Note 3 for additional information on the Partnership's cash flow hedges.

Net Income Per Limited Partner Unit

Under the Partnership's partnership agreement, for any quarterly period, the incentive distribution rights ("IDRs") participate in net income only to the extent of the amount of cash distributions actually declared, thereby excluding the IDRs from participating in the Partnership's undistributed net income or losses. Accordingly, the Partnership's undistributed net income is assumed to be allocated to the common and subordinated unitholders, or limited partners' interest, and to the General Partner's general partner interest. On February 16, 2011, all subordinated units converted to common units.

On April 20, 2011, the board of directors of the General Partner declared a quarterly cash distribution of \$0.50 per unit for the period from January 1, 2011 through March 31, 2011. On July 21, 2011, the board of directors of the General Partner declared a quarterly cash distribution of \$0.50 per unit for the period from April 1, 2011 through June 30, 2011. On October 19, 2011, the board of directors of the General Partner declared a quarterly cash distribution of \$0.50 per unit for the period from July 1, 2011 through September 30, 2011. On January 18, 2012, the board of directors of the General Partner declared a quarterly cash distribution of \$0.50 per unit for the period from October 1, 2011 through December 31, 2011. These declared cash distributions resulted in incentive distributions to the General Partner, as the holder of the IDRs, and enabled the Partnership to exceed its first target level distribution with respect to such IDRs. See Note 14, "Partners' Equity, Allocations and Cash Distributions" for further information.

Note 2. Summary of Significant Accounting Policies (continued)

The following table provides a reconciliation of net income and the assumed allocation of net income to the limited partners' interest for purposes of computing net income per limited partner unit (in thousands, except per unit data):

| | Year Ended December 31, 2011 | | | |
|--|------------------------------|--------------------------|--------------------------|--------|
| | Total | Limited Partner Interest | General Partner Interest | IDRs |
| Numerator: | | | | |
| Net income (1) | \$ 19,352 | \$ 18,668 | \$ 684 | \$ |
| Declared distribution | \$ 44,112 | \$ 43,160 | \$ 464 | \$ 488 |
| Assumed allocation of undistributed net income | (24,760) | (24,492) | (268) | |
| Assumed allocation of net income | \$ 19,352 | \$ 18,668 | \$ 196 | \$ 488 |
| Denominator: | | | | |
| Basic weighted average limited partner units outstanding | | 21,280 | | |
| Dilutive effect of phantom units (Note 12) | | 194 | | |
| Diluted weighted average limited partner units outstanding | | 21,474 | | |
| Basic net income per limited partner unit | | \$ 0.88 | | |
| Diluted net income per limited partner unit | | \$ 0.87 | | |

| | Year Ended December 31, 2010 | | | |
|--|------------------------------|--------------------------|--------------------------|--------|
| | Total | Limited Partner Interest | General Partner Interest | IDRs |
| Numerator: | | | | |
| Net income (2) | \$ 27,038 | \$ 26,361 | \$ 677 | \$ |
| Declared distribution | \$ 35,204 | \$ 34,429 | \$ 453 | \$ 322 |
| Assumed allocation of undistributed net income | (8,166) | (8,068) | (98) | |
| Assumed allocation of net income | \$ 27,038 | \$ 26,361 | \$ 355 | \$ 322 |
| Denominator: | | | | |
| Basic weighted average limited partner units outstanding | | 16,346 | | |
| Dilutive effect of phantom units (Note 12) | | 251 | | |
| Diluted weighted average limited partner units outstanding | | 16,597 | | |
| Basic net income per limited partner unit | | \$ 1.61 | | |
| Diluted net income per limited partner unit | | \$ 1.59 | | |

(1) Calculation includes the effect of the public offerings in November 2010 and February 2011 (see Note 15) and, as a result, the general partner interest was, based on a weighted average, 1.09% for the year ended December 31, 2011.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-K

(2)

Calculation includes the effect of the public offerings in March 2010 and November 2010 (see Note 15) and, as a result, the general partner interest was, based on a weighted average, 1.53% for the year ended December 31, 2010.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)

| Numerator: | Year Ended December 31, 2009 | | | |
|--|------------------------------|--------------------------|--------------------------|--------|
| | Total | Limited Partner Interest | General Partner Interest | IDRs |
| Net income (1) | \$ 34,134 | \$ 33,343 | \$ 791 | \$ |
| Declared distribution | \$ 26,262 | \$ 25,614 | \$ 448 | \$ 200 |
| Assumed allocation of undistributed net income | 7,872 | 7,729 | 143 | |
| Assumed allocation of net income | \$ 34,134 | \$ 33,343 | \$ 591 | \$ 200 |
| Denominator: | | | | |
| Basic weighted average limited partner units outstanding | | 13,017 | | |
| Dilutive effect of phantom units (Note 12) | | 262 | | |
| Diluted weighted average limited partner units outstanding | | 13,279 | | |
| Basic net income per limited partner unit | | \$ 2.56 | | |
| Diluted net income per limited partner unit | | \$ 2.51 | | |

(1) For the year ended December 31, 2009, the general partner interest was 1.73%.

Limited partner units outstanding exclude common units held by the General Partner on behalf of the Partnership pursuant to its Repurchase Program and for future satisfaction of the General Partner's Obligations (as defined in Note 12). These units are not deemed outstanding for purposes of calculating net income per limited partner unit (basic and diluted).

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss consisted of the following:

| | Pension Plan | Derivatives | Total |
|--|--------------|-------------|-------------|
| Balance at December 31, 2009 | \$ | \$ (6,967) | \$ (6,967) |
| Change in fair value of cash flow hedges | | (6,371) | (6,371) |
| Change in pension liability | (424) | | (424) |
| Balance at December 31, 2010 | (424) | (13,338) | \$ (13,762) |

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies (continued)*New Accounting Standards*

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." This update clarifies the application of certain existing fair value measurement guidance and expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. This update is effective on a prospective basis for the Partnership's annual and interim reporting periods beginning on January 1, 2012. The Partnership does not expect that adoption of this standard will have a material impact on its consolidated financial statements.

In December 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05". In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income". Both ASU's are effective for annual reporting periods beginning after December 15, 2011. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in equity. In addition, items of other comprehensive income that are reclassified to profit or loss are required to be presented separately on the face of the financial statements. This guidance is intended to increase the prominence of other comprehensive income in financial statements by requiring that such amounts be presented either in a single continuous statement of income and comprehensive income or separately in consecutive statements of income and comprehensive income. ASU 2011-12 defers the changes in ASU 2011-05 that pertain to how, when and where reclassification adjustments are presented. The Partnership's adoption of these standards is not expected to have a material impact on its consolidated financial statements.

Note 3. Derivative Financial Instruments

The following table presents the volume of activity related to the Partnership's derivative financial instruments at December 31, 2011:

| | Units ⁽¹⁾ | Unit of Measure |
|------------------------------|----------------------|-------------------------|
| Product Contracts | | |
| Long | 16,528 | Thousands of barrels |
| Short | (22,085) | Thousands of barrels |
| Natural Gas Contracts | | |
| Long | 17,517 | Thousands of decatherms |
| Short | (17,517) | Thousands of decatherms |
| Interest Rate Collar | \$ 100 | Millions of dollars |
| Interest Rate Swap | \$ 100 | Millions of dollars |
| Interest Rate Cap | \$ 100 | Millions of dollars |

(1)

Number of open positions and gross notional amounts do not quantify risk or represent assets or liabilities of the Partnership, but are used in the calculation of cash settlements under the contracts.

| | F-18 | | | | | | |

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Derivative Financial Instruments (continued)

The Partnership's derivative financial instruments do not contain credit risk related to other contingent features that could cause accelerated payments when these financial instruments are in net liability positions.

The table below presents the composition and fair value of forward fixed price purchase and sale contracts on the Partnership's consolidated balance sheets being hedged by the following derivative instruments at December 31 (in thousands):

| | 2011 | 2010 |
|----------------------|-----------------|-------------------|
| Futures contracts | \$ 3,607 | \$ (6,480) |
| Swaps and other, net | 136 | (735) |
| Total | \$ 3,743 | \$ (7,215) |

The total balances of \$3.7 million and (\$7.2) million reflect the fair value of the forward fixed price contract asset/(liability) net of the corresponding asset/(liability) in the accompanying consolidated balance sheets at December 31, 2011 and 2010, respectively.

The Partnership formally documents all relationships between hedging instruments and hedged items after its risk management objectives and strategy for undertaking the hedge are determined. The Partnership calculates hedge effectiveness on a quarterly basis. This process includes specific identification of the hedging instrument and the hedged transaction, the nature of the risk being hedged and how the hedging instrument's effectiveness will be assessed. Both at the inception of the hedge and on an ongoing basis, the Partnership assesses whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair value of hedged items. The derivative instruments that qualify for hedge accounting are fair value hedges.

The Partnership has a daily margin requirement with its brokers based on the prior day's market results on open futures contracts. The brokerage margin balance was \$43.9 million and \$15.5 million at December 31, 2011 and 2010, respectively.

The Partnership is exposed to credit loss in the event of nonperformance by counterparties of forward purchase and sale commitments, futures contracts, options and swap agreements, but the Partnership has no current reason to expect any material nonperformance by any of these counterparties. Futures contracts, the primary derivative instrument utilized by the Partnership, are traded on regulated exchanges, greatly reducing potential credit risks. The Partnership utilizes primarily two clearing brokers, both major financial institutions, for all New York Mercantile Exchange ("NYMEX") and Chicago Mercantile Exchange ("CME") derivative transactions and the right of offset exists. Accordingly, the fair value of derivative instruments is presented on a net basis in the consolidated balance sheets. Exposure on forward purchase and sale commitments and swap and certain option agreements is limited to the amount of the recorded fair value as of the balance sheet dates. See Note 2 for additional information on fair value hedges.

The Partnership generally enters into master netting arrangements to mitigate counterparty credit risk with respect to its derivatives. Master netting arrangements are standardized contracts that govern all specified transactions with the same counterparty and allow the Partnership to terminate all contracts upon occurrence of certain events, such as a counterparty's default or bankruptcy. Because these arrangements provide the right of offset, and the Partnership's intent and practice is to offset amounts in the case of contract terminations, the Partnership records fair value of derivative positions on a net basis.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Derivative Financial Instruments (continued)*Cash Flow Hedges*

The Partnership executed two zero premium interest rate collars with major financial institutions. Each collar is designated and accounted for as a cash flow hedge. The first collar, which became effective on May 14, 2007 and expired on May 14, 2011, was used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings on the revolving credit facility. The fair value of the first collar was a liability of approximately \$1.2 million as of December 31, 2010 and was recorded in both other long-term liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

On September 29, 2008, the Partnership executed its second zero premium interest rate collar. The second collar, which became effective on October 2, 2008 and expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on the Partnership's \$100.0 million one-month LIBOR-based borrowings on the working capital revolving credit facility (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate. Under the second collar, the Partnership capped its exposure at a maximum one-month LIBOR rate of 5.50% and established a minimum floor rate of 2.70%. As of December 31, 2011, the one-month LIBOR rate of 0.27% was lower than the floor rate. As a result, in January 2012, the Partnership remitted to the respective financial institution the difference between the floor rate and the current rate which amounted to approximately \$202,400 and, at December 31, 2011, such amount was recorded in accrued expenses and other current liabilities in the accompanying consolidated balance sheet. The fair values of the second collar, excluding accrued interest, were liabilities of approximately \$3.8 million and \$4.8 million as of December 31, 2011 and 2010, respectively, and were recorded in both other long-term liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheets. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, using regression analysis. The changes in the fair value of the second collar are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR rate above and below the collar's strike rates.

In October 2009, the Partnership executed a forward starting interest rate swap with a major financial institution. The swap, which became effective on May 16, 2011 and expires on May 16, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the revolving credit facility at a fixed rate of 3.93%. The fair values of the swap were liabilities of approximately \$12.4 million and \$7.3 million as of December 31, 2011 and 2010, respectively, and were recorded in other long-term liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheets. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, using regression analysis. The changes in the fair value of the swap are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR swap curve.

On April 8, 2011, the Partnership executed an interest rate cap with a major financial institution. The rate cap, which became effective on April 13, 2011 and expires on April 13, 2016, is used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the working capital revolving credit facility. The fair value of the rate cap was an asset of approximately \$306,000 as of December 31, 2011 and was recorded in both other assets and accumulated other comprehensive income in the

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Derivative Financial Instruments (continued)

accompanying balance sheet. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, by (i) comparing the critical terms of the rate cap and the hedged forecasted transactions, (ii) evaluating the counterparty's ability to honor its obligations under the rate cap agreement; and (iii) ensuring the interest payment cash flows remain probable of occurring. The changes in the fair value of the rate cap are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR rate above the rate cap's strike rate.

The following table presents the fair value of the Partnership's derivative instruments involved in cash flow hedging relationships and their location in the Partnership's consolidated balance sheets at December 31 (in thousands):

| Derivatives Designated as Hedging Instruments | Balance Sheet Location | 2011 Fair Value | 2010 Fair Value |
|---|-----------------------------|-----------------|-----------------|
| <i>Asset derivatives</i> | | | |
| Interest rate cap | Other assets | \$ 306 | \$ |
| <i>Liability derivatives</i> | | | |
| Interest rate collars | Other long-term liabilities | \$ 3,817 | \$ 6,042 |
| Interest rate swap | Other long-term liabilities | 12,446 | 7,296 |
| Total liability derivatives | | \$ 16,263 | \$ 13,338 |

The following table presents the amount of gains and losses from derivatives involved in cash flow hedging relationships recognized in the Partnership's consolidated statements of income and partners' equity for the years ended December 31 (in thousands):

| Derivatives in Cash Flow Hedging Relationship | Amount of Gain (Loss) Recognized in Other Comprehensive Income on Derivatives | | | Recognized in Income on Derivatives (Ineffectiveness Portion and Amount Excluded from Effectiveness Testing) | | |
|---|---|------------|----------|--|------|------|
| | 2011 | 2010 | 2009 | 2011 | 2010 | 2009 |
| Interest rate collars | \$ 2,225 | \$ 1,005 | \$ 3,799 | \$ | \$ | \$ |
| Interest rate swap | (5,151) | (7,376) | 80 | | | |
| Interest rate cap | (1,113) | | | | | |
| Total | \$ (4,039) | \$ (6,371) | \$ 3,879 | \$ | \$ | \$ |

Ineffectiveness related to the interest rate collar and the interest rate swap is recognized as interest expense and was immaterial for the years ended December 31, 2011, 2010 and 2009. The effective portion related to the interest rate collars that was originally reported in other comprehensive income and reclassified to earnings was \$3.8 million, \$5.9 million and \$5.2 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Derivatives Not Involved in a Hedging Relationship

While the Partnership seeks to maintain a position that is substantially balanced within its product purchase activities, it may experience net unbalanced positions for short periods of time as a result of variances in daily sales and transportation and delivery schedules as well as logistical issues inherent in the business, such as weather conditions. In connection with managing these positions and maintaining a constant presence in the marketplace, both necessary for its business, the Partnership engages in a controlled trading program for up to an aggregate of 250,000 barrels of products at any one point in time.

Note 4. Income Taxes (continued)

Significant components of current and long-term deferred taxes were as follows at December 31 (in thousands):

| | 2011 | | 2010 | |
|--|---------|------------|---------|------------|
| | Current | Long-Term | Current | Long-Term |
| Deferred Income Tax Assets | | | | |
| Accounts receivable allowances | \$ 97 | \$ | \$ 86 | \$ |
| Environmental liability | | 2,342 | | |
| Intangible assets | | 168 | 149 | |
| Other | 8 | | | |
| Federal net operating loss carryforwards | | 5,686 | | 981 |
| State net operating loss carryforwards | | 1,234 | | 375 |
| Federal tax credit carryforward | | 103 | | 107 |
| Deferred tax asset, gross | 105 | 9,533 | 235 | 1,463 |
| Valuation allowance | | | | |
| Total deferred tax assets, net | \$ 105 | \$ 9,533 | \$ 235 | \$ 1,463 |
| Deferred Income Tax Liabilities | | | | |
| Property and equipment | \$ | \$ (5,815) | \$ | \$ (3,293) |
| Land | | (3,823) | | |
| Accounts receivable allowances | | | | (15) |
| Total deferred tax liabilities | \$ | \$ (9,638) | \$ | \$ (3,308) |
| Net deferred tax assets (liabilities) | \$ 105 | \$ (105) | \$ 235 | \$ (1,845) |

At December 31, 2011, the Partnership had \$3.8 million of deferred tax assets relating to net operating loss carryforwards, tax credit carryforwards and other temporary differences, which are available to reduce income taxes in future years. A valuation allowance must be established when it is "more likely than not" that all or a portion of deferred tax assets will not be realized. A review of all available positive and negative evidence needs to be considered, including a company's performance, the market environment in which the company operates length of carryback and carryforward periods and projections of future operating results. The Partnership concluded, based on an evaluation of future operating results, that these assets are expected to be realized in a future period and, accordingly, no valuation allowance was required.

At December 31, 2011, the Partnership also had a \$3.8 million deferred tax liability relating to land. Land is an asset with an indefinite useful life and would not ordinarily serve as a source of income for the realization of deferred tax assets. This deferred tax liability will not reverse until some indefinite future period when the asset is either sold or written down due to impairment. Such taxable temporary differences generally cannot be used as a source of taxable income to support the realization of deferred tax assets relating to reversing deductible temporary differences, including loss carryforwards with expiration periods.

At December 31, 2011, the Partnership had federal and state net operating loss carryforwards of approximately \$16.7 million and \$17.8 million, respectively, that will begin to expire in 2030 and 2015, respectively. Utilization of the net operating loss carryforwards may be subject to annual limitations due to the ownership percentage change limitations provided by the Internal Revenue Code Section 382 and similar state provisions. In the event of a deemed change in control under Internal Revenue Code Section 382, an annual limitation imposed on the utilization of net operating losses may result in the expiration of all or a portion of the net operating loss carryforwards.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 4. Income Taxes (continued)

At December 31, 2011 and 2010, the Partnership had no unrecognized tax benefits recorded in the financial statements. The Partnership does not expect any significant changes in unrecognized tax benefits in 2012.

The following presents a reconciliation of the differences between income before income tax expense and income subject to income tax expense for the years ended December 31 (in thousands):

| | 2011 | 2010 | 2009 |
|--------------------------------------|-----------|-----------|-----------|
| Income before income tax expense | \$ 19,420 | \$ 27,038 | \$ 35,563 |
| Non-taxable income | (18,817) | (27,076) | (32,580) |
| Income subject to income tax expense | \$ 603 | \$ (38) | \$ 2,983 |

The Partnership made approximately \$6,000, \$1.7 million and \$1.6 million in income tax payments during 2011, 2010 and 2009, respectively.

Note 5. Acquisitions

Retail Gas Stations/Fuel Supply Acquisition On September 30, 2010, the Partnership completed its acquisition of retail gas stations and supply rights from ExxonMobil for cash consideration of approximately \$202.3 million, plus the assumption of certain environmental liabilities (see Note 9). In addition, the Partnership purchased approximately \$4.2 million of convenience store inventory and gasoline and diesel inventory in the ordinary course of business that was stored at the acquired sites. Additionally, the Partnership acquired the right to supply Mobil-branded fuel to such stations and to Mobil-branded stations that are owned and operated by independent dealers. The Partnership outsources the day-to-day management and operations of these locations to Alliance.

The Partnership incurred acquisition expenses of approximately \$0.8 million for the year ended December 31, 2010 which are included in selling, general and administrative expenses in the accompanying statement of income. The Partnership financed the acquisition through borrowings under its Credit Agreement. This acquisition was accounted for as a business combination.

The following table presents the allocation of the cash consideration to the estimated fair value of the assets acquired and environmental liabilities assumed at the date of acquisition (in thousands):

| | |
|--|------------|
| Assets purchased: | |
| Buildings and improvements | \$ 59,271 |
| Land | 118,634 |
| Fixtures and equipment | 47,008 |
| Intangibles | 7,400 |
| Total assets purchased | 232,313 |
| Less environmental liabilities assumed | (30,000) |
| Total cash consideration | \$ 202,313 |

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 5. Acquisitions (continued)

Newburgh Terminals On June 2, 2010, the Partnership completed its acquisition of three refined petroleum products terminals located in Newburgh, New York from Warex Terminals Corporation (the "NewburghTerminals") for cash consideration of \$46.0 million plus the assumption of certain environmental liabilities (see Note 9). In addition, the Partnership purchased approximately \$9.5 million of inventory in the normal course of business that was stored in the acquired terminals. The Partnership incurred acquisition expenses of approximately \$1.4 million for the year ended December 31, 2010 which are included in selling, general and administrative expenses in the accompanying statement of income. The Partnership financed the acquisition through its revolving credit facility. This acquisition was accounted for as a business combination.

The following table presents the allocation of the cash consideration to the estimated fair value of the assets acquired and environmental liabilities assumed at the date of acquisition (in thousands):

| | |
|--|-----------|
| Assets purchased: | |
| Buildings, docks, terminal facilities and improvements | \$ 34,887 |
| Land | 4,500 |
| Fixtures, equipment and automobiles | 525 |
| Intangibles | 7,634 |
| | |
| Total assets purchased | 47,546 |
| Less environmental liabilities assumed | (1,500) |
| | |
| Total cash consideration | \$ 46,046 |

Valuation of Assets The purchase price for each of the above acquisitions was allocated to assets acquired and liabilities assumed based on their estimated fair values. The Partnership then allocated the purchase price in excess of net tangible assets acquired to identifiable intangible assets, based upon a detailed valuation that used information and assumptions provided by management.

As part of the purchase price allocations, the identifiable intangible assets acquired by and that are now the property of the Partnership include supply contracts and, in the case of the Newburgh Terminals, customer relationships. The Partnership used the income approach to value the intangibles. This approach calculates fair value by estimating future cash flows attributable to each intangible asset and discounting them to present value at a risk-adjusted discount rate.

The Partnership utilized accounting guidance related to intangible assets which lists the pertinent factors to be considered when estimating the useful life of an intangible asset. These factors include, in part, a review of the expected use by the Partnership of the assets acquired, the expected useful life of another asset (or group of assets) related to the acquired assets and legal, regulatory or other contractual provisions that may limit the useful life of an acquired asset. The Partnership amortizes these intangible assets on a straight-line basis over their estimated useful lives which is consistent with the estimated future cash flows of these assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 6. Property and Equipment

Property and equipment consisted of the following at December 31 (in thousands):

| | 2011 | 2010 |
|--|-------------------|-------------------|
| Buildings, docks, terminal facilities and improvements | \$ 313,108 | \$ 307,616 |
| Land | 145,935 | 149,244 |
| Fixtures, equipment and automobiles | 12,685 | 11,056 |
| Construction in process | 13,696 | 5,894 |
| Total property and equipment | 485,424 | 473,810 |
| Less accumulated depreciation | (76,574) | (51,126) |
| Total | \$ 408,850 | \$ 422,684 |

Included in construction in process were approximately \$4.6 million and \$3.9 million of capitalized computer software development costs as of December 31, 2011 and 2010, respectively.

Depreciation

Depreciation expense allocated to cost of sales was approximately \$24.4 million, \$15.6 million and \$10.8 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Depreciation expense allocated to selling, general and administrative expenses was approximately \$1.2 million, \$0.9 million and \$1.0 million for the years ended December 31, 2011, 2010 and 2009, respectively.

There were no fully depreciated assets written off for the years ended December 31, 2011 and 2010.

Note 7. Intangible Assets

Intangible assets consisted of the following (in thousands):

| | Gross Carrying Amount | Accumulated Amortization | Net Intangible Assets | Amortization Period |
|--|-----------------------------|-----------------------------|-----------------------------|------------------------|
| At December 31, 2011 | | | | |
| Intangible assets subject to amortization: | | | | |
| Terminalling services | \$ 26,365 | \$ (6,015) | \$ 20,350 | 20 years |
| Customer relationships | 17,986 | (9,932) | 8,054 | 8-15 years |
| Supply contracts | 8,510 | (2,090) | 6,420 | 5-15 years |
| Workforce | 347 | (75) | 272 | 20 years |
| Brand incentive program | 1,445 | (165) | 1,280 | 5 years |
| Software | 1,139 | (1,139) | | 5 years |
| Covenants not to compete | 942 | (877) | 65 | 3-5 years |
| Customer contracts | 307 | (307) | | 2 years |
| Total | 57,041 | (20,600) | 36,441 | |
| Brand names, not subject to amortization | 269 | | 269 | Indefinite |
| Total intangible assets | \$ 57,310 | \$ (20,600) | \$ 36,710 | |

At December 31, 2010

| | | | | |
|--|------------------|--------------------|------------------|------------|
| Intangible assets subject to amortization: | | | | |
| Terminalling services | \$ 26,365 | \$ (4,696) | \$ 21,669 | 20 years |
| Customer relationships | 17,986 | (8,293) | 9,693 | 8-15 years |
| Supply contracts | 8,510 | (536) | 7,974 | 5-15 years |
| Workforce | 347 | (59) | 288 | 20 years |
| Software | 1,139 | (1,139) | | 5 years |
| Covenants not to compete | 942 | (770) | 172 | 3-5 years |
| Customer contracts | 307 | (307) | | 2 years |
| Total | 55,596 | (15,800) | 39,796 | |
| Brand names, not subject to amortization | 269 | | 269 | Indefinite |
| Total intangible assets | \$ 55,865 | \$ (15,800) | \$ 40,065 | |

The aggregate amortization expense was approximately \$4.8 million, \$3.5 million and \$3.0 million for the years ended December 31, 2011, 2010 and 2009, respectively.

The estimated annual intangible asset amortization expense for future years ending December 31 is as follows (in thousands):

| | |
|--|---------------|
| 2012 | \$ 4,404 |
| 2013 | 3,992 |
| 2014 | 3,961 |
| 2015 | 3,462 |
| 2016 | 2,302 |
| Thereafter | 18,320 |
| Total intangible assets subject to amortization | 36,441 |
| Brand names, not subject to amortization | 269 |

| | |

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8. Debt

Credit Agreement

On January 26, 2011, the Partnership requested an increase in the working capital revolving credit facility in an amount equal to \$100.0 million, and on February 11, 2011, certain lenders under the Partnership's Amended and Restated Credit Agreement dated May 14, 2010, as amended (the "Credit Agreement") committed to the \$100.0 million increase which increased the total available commitments under the Credit Agreement to \$1.25 billion. The Credit Agreement will mature on May 14, 2014.

There are two facilities under the Credit Agreement:

a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of the Partnership's borrowing base and \$900.0 million; and

a \$350.0 million revolving credit facility to be used for acquisitions and general corporate purposes.

In addition, the Credit Agreement has an accordion feature whereby the Partnership may request on the same terms and conditions of its then existing Credit Agreement, provided no Event of Default (as defined in the Credit Agreement) then exists, an increase to the revolving credit facility, the working capital revolving credit facility, or both, by up to another \$100.0 million, for a total credit facility of up to \$1.35 billion. Any such request for an increase by the Partnership must be in a minimum amount of \$5.0 million, and the revolving credit facility may not be increased by more than \$50.0 million. The Partnership cannot provide assurance, however, that its lending group will agree to fund any request by the Partnership for additional amounts in excess of the total available commitments of \$1.25 billion.

Availability under the Partnership's working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time and based on specific advance rates on eligible current assets. Under the Credit Agreement, the Partnership's borrowings under the working capital revolving credit facility cannot exceed the then current borrowing base. Availability under the Partnership's borrowing base may be affected by events beyond the Partnership's control, such as changes in refined petroleum product prices, collection cycles, counterparty performance, advance rates and limits, and general economic conditions. These and other events could require the Partnership to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. The Partnership can provide no assurance that such waivers, amendments or alternative financing could be obtained or, if obtained, would be on terms acceptable to the Partnership.

During the period from January 1, 2009 through May 13, 2010, borrowings under the working capital revolving credit facility bore interest at (1) the Eurodollar rate plus 1.75% to 2.25%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the previous credit agreement, which in turn depended upon the Combined Interest Coverage Ratio (as defined in the previous credit agreement). Borrowings under the revolving credit facility bore interest at (1) the Eurodollar rate plus 2.25% to 2.75%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the previous credit agreement, which in turn depended upon the Combined Interest Coverage Ratio under the previous credit agreement.

Commencing May 14, 2010, borrowings under the working capital revolving credit facility bear interest at (1) the Eurodollar rate plus 2.50% to 3.00%, (2) the cost of funds rate plus 2.50% to 3.00%, or (3) the base rate plus 1.50% to 2.00%, each depending on the pricing level provided in the Credit Agreement, which in turn depends upon the Utilization Amount (as defined in the Credit Agreement).

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8. Debt (continued)

The Partnership currently has a zero premium interest rate collar, an interest rate swap and an interest rate cap, all of which are used to hedge the variability in interest payments under the Credit Agreement due to changes in LIBOR rates. See Note 3 for additional information on these cash flow hedges.

The Partnership incurs a letter of credit fee of 2.50% - 3.00% per annum for each letter of credit issued. In addition, the Partnership incurs a commitment fee on the unused portion of each facility under the Credit Agreement equal to 0.50% per annum.

The Partnership classifies a portion of its working capital revolving credit facility as a long-term liability because the Partnership has a multi-year, long-term commitment from its bank group. The long-term portion of the working capital revolving credit facility was \$526.1 million and \$293.5 million at December 31, 2011 and 2010, respectively, representing the amounts expected to be outstanding during the year. In addition, the Partnership classifies a portion of its working capital revolving credit facility as a current liability because it repays amounts outstanding and reborrows funds based on its working capital requirements. The current portion of the working capital revolving credit facility was approximately \$62.8 million and \$193.2 million at December 31, 2011 and 2010, respectively, representing the amounts the Partnership expects to pay down during the course of the year.

As of December 31, 2011, the Partnership had total borrowings outstanding under the Credit Agreement of \$793.9 million, including \$205.0 million outstanding on the revolving credit facility. In addition, the Partnership had outstanding letters of credit of \$240.2 million. Subject to borrowing base limitations, the total remaining availability for borrowings and letters of credit was \$215.9 million and \$252.6 million at December 31, 2011 and 2010, respectively.

The Credit Agreement is secured by substantially all of the assets of the Partnership and each of the Companies and is guaranteed by the General Partner. The Credit Agreement imposes certain requirements including, for example, a prohibition against distributions if any potential default or Event of Default (as defined in the Credit Agreement) would occur as a result thereof, and limitations on the Partnership's ability to grant liens, make certain loans or investments, incur additional indebtedness or guarantee other indebtedness, make any material change to the nature of the Partnership's business or undergo a fundamental change, make any material dispositions, acquire another company, enter into a merger, consolidation, sale leaseback transaction or purchase of assets, or make capital expenditures in excess of specified levels.

The Credit Agreement imposes financial covenants that require the Partnership to maintain certain minimum working capital amounts, capital expenditure limits, a minimum EBITDA, a minimum combined interest coverage ratio, a maximum senior secured leverage ratio and a maximum total leverage ratio. On July 19, 2011, the Partnership entered into a Second Amendment to the Credit Agreement which amended the Credit Agreement and modified certain financial covenants. The Partnership was in compliance with the foregoing covenants at December 31, 2011. The Credit Agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the Credit Agreement).

In addition, the Credit Agreement limits distributions by the Partnership to its unitholders to the amount of the Partnership's Available Cash (as defined in its partnership agreement).

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8. Debt (continued)

On January 13, 2012, the Partnership entered into a Third Amendment to Amended and Restated Credit Agreement (the "Third Amendment"), which amended the Credit Agreement. Pursuant to the Third Amendment, in addition to borrowings that are permitted under the Partnership's \$350.0 million revolving credit facility for general corporate purposes, the Partnership may borrow additional proceeds in an amount of not more than \$75.0 million to be used to finance general corporate purposes, including working capital needs, so long as the proceeds are less than or equal to the amount by which availability under the then existing borrowing base exceeds \$900.0 million. The Third Amendment is effective during the period from January 13, 2012 through the earlier of (a) the consummation date of the Partnership's acquisition of 100% of the equity interests of Alliance from AE Holdings and (b) March 13, 2012. On March 1, 2012, the Partnership completed the acquisition of Alliance (see Note 1).

On January 31, 2012, and in connection with the acquisition of Alliance, the Partnership entered into a Fourth Amendment to the Credit Agreement (the "Fourth Amendment") which amended the Credit Agreement. The Fourth Amendment became effective on March 1, 2012 upon the consummation of the acquisition of Alliance (the "Fourth Amendment Effective Date") and modified the following provisions:

Exercise of Existing Accordion and Increase to Revolving Credit Facility In connection with the acquisition of Alliance, the Partnership increased in an amount equal to \$150.0 million the revolving credit facility for a total credit facility of up to \$1.4 billion. Certain lenders under the Credit Agreement, as well as six new lenders, agreed to fund said \$150.0 million increase. The \$150.0 million increase was accomplished by two parts: (i) the exercise of the existing accordion provisions of the Credit Agreement in an amount equal to \$100.0 million; and (ii) an additional \$50.0 million increase to the revolving credit facility.

Request for Increase (New Accordion) Provided there exists no Default (as defined in the Credit Agreement), the Partnership may request an additional increase to the working capital revolving credit facility by up to an additional \$100.0 million, for a total credit facility of up to \$1.5 billion. Any such request for an increase must be in a minimum amount of \$5.0 million.

Swing Line Loans A swing line has been added to the credit facility pursuant to which Bank of America, N.A., as the swing line lender, may make swing line loans in an aggregate amount equal to the lesser of (a) \$35.0 million and (b) the Aggregate WC Commitments (as such term is defined in the Credit Agreement). Swing line loans will bear interest on the Base Rate (as such term is defined in the Credit Agreement).

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8. Debt (continued)

Financial Covenants

- (i) Minimum Combined EBITDA (as defined in the Fourth Amendment) as at the end of each fiscal quarter from and after March 31, 2012 increased from not less than \$75.0 million to not less than \$110.0 million. The calculation of the minimum Combined EBITDA covenant includes the pro forma effect of a Permitted Acquisition (as defined in the Credit Agreement) as if such acquisition occurred on the first date of the test period.

- (ii) Prior to the Fourth Amendment Effective Date, the Combined Senior Secured Leverage Ratio (as defined in the Credit Agreement) as at the end of the fiscal quarter ending March 31, 2012 shall not be greater than 2.75:1.00. From and after the Fourth Amendment Effective Date but prior to the occurrence of the Covenant Reduction Date (as defined below), the Combined Senior Secured Leverage Ratio shall not be greater than (a) 3.50:1.00 as at the end of each of the fiscal quarters ending March 31, 2012 and June 30, 2012, (b) 3.25:1.00 as at the end of the fiscal quarter ending September 30, 2012, (c) 3.00:1.00 as at the end of the fiscal quarter ending December 31, 2012 and (d) 2.75:1.00 as at the end of the fiscal quarter ending March 31, 2013 and for each fiscal quarter ending thereafter. From and after the occurrence of the Covenant Reduction Date, the Combined Senior Secured Leverage Ratio shall not be greater than 2.75:1.00 as at the end of each fiscal quarter. The "Covenant Reduction Date" means the last day of the fiscal quarter which occurs immediately after the fiscal quarter in which the Partnership receives proceeds of not less than \$150.0 million from any Equity Issuance or the issuance of Senior Unsecured Notes or unsecured Subordinated Debt (as such terms are defined in the Credit Agreement).

Capital Expenditures The ceiling for aggregate Capital Expenditures (as defined in the Credit Agreement) for the fiscal year ending December 31, 2012 and thereafter increased from \$30.0 million for any fiscal year to \$40.0 million.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9. Environmental Liabilities

The Partnership currently owns or leases properties where refined petroleum products, renewable fuels and crude oil are being or have been handled. These properties and the refined petroleum products, renewable fuels and crude oil handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, the Partnership could be required to remove or remediate containerized hazardous liquids or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to clean up contaminated property arising from the release of liquids or wastes into the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination.

The Partnership maintains insurance of various types with varying levels of coverage that it considers adequate under the circumstances to cover its operations and properties. The insurance policies are subject to deductibles that the Partnership considers reasonable and not excessive. In addition, the Partnership has entered into indemnification agreements with various sellers in conjunction with several of its acquisitions. Allocation of environmental liability is an issue negotiated in connection with each of the Partnership's acquisition transactions. In each case, the Partnership makes an assessment of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, the Partnership determines whether to, and the extent to which it will, assume liability for existing environmental conditions.

In connection with the September 2010 acquisition of the retail gas stations from ExxonMobil (see Note 5), the Partnership assumed certain environmental liabilities, including ongoing environmental remediation at approximately 70 of the acquired sites and future remediation activities required by applicable federal, state or local law or regulation. Remedial action plans are in place with the applicable state regulatory agencies for the majority of these locations, including plans for soil and groundwater treatment systems at eight sites. Based on consultations with environmental engineers, the Partnership's estimated cost of the remediation is expected to be approximately \$30.0 million to be expended over an extended period of time. As a result, the Partnership recorded, on an undiscounted basis, total environmental liabilities of approximately \$30.0 million.

In connection with the June 2010 acquisition of three refined petroleum products terminals in Newburgh, New York from Warex Terminals Corporation (see Note 5), the Partnership assumed certain environmental liabilities, including certain ongoing remediation efforts. As a result, the Partnership recorded, on an undiscounted basis, a total environmental liability of approximately \$1.5 million.

In connection with the November 2007 acquisition of ExxonMobil's Glenwood Landing and Inwood, New York terminals, the Partnership assumed certain environmental liabilities, including the remediation obligations under remedial action plans submitted by ExxonMobil to and approved by the New York Department of Environmental Conservation ("NYDEC") with respect to both terminals. As a result, the Partnership recorded, on an undiscounted basis, total environmental liabilities of approximately \$1.2 million.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9. Environmental Liabilities (continued)

In connection with the May 2007 acquisition of ExxonMobil's Albany and Newburgh, New York and Burlington, Vermont terminals, the Partnership assumed certain environmental liabilities, including the remediation obligations under a proposed remedial action plan submitted by ExxonMobil to NYDEC with respect to the Albany, New York terminal. As a result, the Partnership recorded, on an undiscounted basis, total environmental liabilities of approximately \$8.0 million. In June 2008, the Partnership submitted a remedial action work plan to NYDEC, implementing NYDEC's conditional approval of the remedial action plan submitted by ExxonMobil. The Partnership responded to NYDEC's requests for additional information and conducted pilot tests for the remediation outlined in the work plan. Based on the results of such pilot tests, the Partnership changed its estimate and reduced the environmental liability by \$2.8 million during the fourth quarter ended December 31, 2008. In July 2009, NYDEC approved the remedial action work plan, and the Partnership signed a Stipulation Agreement with NYDEC to govern implementation of the approved plan. The remedial action work has been implemented pursuant to the approved work plan, and the post-remediation stage of operation, monitoring and maintenance has commenced and is ongoing. As a result, the Partnership changed its estimate and reduced the environmental liability by \$1.7 million during the second quarter ended June 30, 2011. The change in estimate, which is reflected in operating expenses in the accompanying statement of income, increased net income for the year ended December 31, 2011 by approximately \$1.7 million, or \$0.08 per limited partner unit, basic and diluted.

The following table presents a summary roll forward of the Partnership's environmental liabilities at December 31, 2011 (in thousands):

| Environmental Liability Related to: | Balance at December 31, 2010 | Change in Estimate 2011 | Payments in 2011 | Balance at December 31, 2011 |
|--|---|--|-----------------------------|---|
| Retail Gas Stations | \$ 29,766 | \$ | \$ (1,603) | \$ 28,163 |
| Newburgh (Warex) | 1,500 | | | 1,500 |
| Glenwood Landing and Inwood | 468 | | (64) | 404 |
| Albany | 2,771 | (1,697) | (902) | 172 |
| Total environmental liabilities | \$ 34,505 | \$ (1,697) | \$ (2,569) | \$ 30,239 |
| Current portion | \$ 5,535 | | | \$ 2,936 |
| Long-term portion | 28,970 | | | 27,303 |
| Total environmental liabilities | \$ 34,505 | | | \$ 30,239 |

The Partnership's estimates used in these reserves are based on all known facts at the time and its assessment of the ultimate remedial action outcomes. Among the many uncertainties that impact the Partnership's estimates are the necessary regulatory approvals for, and potential modification of, its remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment and the possibility of existing legal claims giving rise to additional claims. Therefore, although the Partnership believes that these reserves are adequate, no assurances can be made that any costs incurred in excess of these reserves or outside of indemnifications or not otherwise covered by insurance would not have a material adverse effect on the Partnership's financial condition, results of operations or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 10. Trustee Taxes and Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following at December 31 (in thousands):

| | 2011 | 2010 |
|---|------------------|------------------|
| Barging transportation, product storage and other ancillary costs | \$ 25,302 | \$ 17,678 |
| Swaps and other derivatives | 122 | 2,602 |
| Employee compensation | 11,212 | 5,465 |
| Other | 4,671 | 4,749 |
| Total | \$ 41,307 | \$ 30,494 |

Employee compensation consisted of bonuses, vacation and other salary accruals. Ancillary costs consisted of cost accruals related to product expediting and storage.

In addition, the Partnership had trustee taxes payable of \$76.5 million at December 31, 2011, which consisted of \$57.2 million related to an ethanol credit and \$19.3 million in various pass-through taxes collected from customers on behalf of taxing authorities. Trustee taxes payable at December 31, 2010 of \$69.8 million consisted of \$40.2 million related to an ethanol credit and \$29.6 million in various pass-through taxes collected from customers on behalf of taxing authorities.

Note 11. Employee Benefit Plans with Related Party

The General Partner has a qualified 401(k) Savings and Profit Sharing Plan that covers eligible employees. Employees may elect to contribute up to 60% of their compensation to the 401(k) Savings and Profit Sharing Plan for each payroll period, subject to annual dollar limitations which are periodically adjusted by the cost of living index. The General Partner's discretionary matching contributions to the 401(k) Savings and Profit Sharing Plan are equal to 50% of each employee's contributions that do not exceed 4% of the employee's compensation. The General Partner also makes discretionary non-matching contributions for certain groups of employees in amounts up to 2% of eligible compensation. Profit-sharing contributions may also be made at the sole discretion of the General Partner's board of directors. This plan had expenses of approximately \$1.1 million, \$1.0 million and \$0.5 million for the years ended December 31, 2011, 2010 and 2009, respectively, which are included in selling, general and administrative expenses in the accompanying statements of income.

In addition, the General Partner has a qualified pension plan (the "Plan") that covers all eligible employees. Effective December 31, 2009, the Plan was amended to freeze participation in and benefit accruals under the Plan. In order to reduce the adverse effects of the pension freeze on employees with substantial service who may not have time to replace future pension accruals with retirement savings before reaching the normal retirement age of 65, employees meeting certain age and service requirements received increased benefits under the Plan, effective December 31, 2009. As a result of the freeze, the Partnership recognized a curtailment gain of approximately \$1.5 million which was recorded as an offset to selling, general and administrative expenses in the accompanying consolidated statement of income for the year ended December 31, 2009. The curtailment gain consisted of approximately \$5.1 million in a change in benefit obligation and approximately \$3.6 million in an unrecognized net actuarial loss. As of December 31, 2011, the Partnership had a net unfunded pension liability of approximately \$3.2 million, representing the fair value of plan assets of \$12.5 million and a projected benefit obligation of \$15.7 million.

As of December 31, 2010, the Plan had a projected benefit obligation of \$12.9 million and plan assets of \$10.7 million. The change in the pension liability in 2011 of \$2.7 million has been recorded in other comprehensive income. Actual return on plan assets was \$0.3 million and \$1.1 million in 2011 and 2010, respectively. Net periodic pension costs related to these pension plans were \$0.1 million, \$0.2 million and \$1.8 million in 2011, 2010 and 2009, respectively.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 11. Employee Benefit Plans with Related Party (continued)

The discount rate is determined by examining the current yields observed on the measurement date of fixed-interest, high quality investments expected to be available during the period to maturity of the related benefits on a plan by plan basis. The discount rate for the Plan was 4.5% in 2011 and 5.5% in 2010. The expected long-term rate of return on plan assets is determined by using the Plan's target allocation and historical returns for each asset class. The expected long-term rate of return for the Plan was 8.0% in 2011, 2010 and 2009.

The fundamental investment objective of the Plan is to provide a rate of return sufficient to fund the retirement benefits under the Plan at a reasonable cost to the General Partner, which is the Plan sponsor. At a minimum, the rate of return should equal or exceed the discount rate assumed by the Plan's actuaries in projecting the funding cost of the Plan under the applicable Employee Retirement Income Security Act, or ERISA, standards. To do so, the General Partner's Pension Committee (the "Committee") may appoint one or more investment managers to invest all or portions of the assets of the Plan in accordance with specific investment guidelines, objectives, standards and benchmarks.

The Plan is not significant to the Partnership. Total contributions made by the Partnership to the Plan were \$1.7 million, \$1.1 million and \$2.0 million in 2011, 2010 and 2009, respectively.

Note 12. Long-Term Incentive Plan

The General Partner has a Long-Term Incentive Plan ("LTIP") whereby 564,242 common units were initially authorized for issuance. Any units delivered pursuant to an award under the LTIP may be acquired in the open market or from any affiliate, be newly issued units or any combination of the foregoing. The LTIP provides for awards to employees, consultants and directors of the General Partner and employees and consultants of affiliates of the Partnership who perform services for the Partnership. The LTIP allows for the award of unit options, unit appreciation rights, restricted units, phantom units and distribution equivalent rights.

The Partnership granted phantom unit awards in 2009 and 2008 for which it recorded compensation expenses of approximately \$0.4 million, \$0.5 million and \$2.0 million for the years ended December 31, 2011, 2010 and 2009, respectively, which are included in selling, general and administrative expenses in the accompanying consolidated statements of income. The total compensation cost related to the non-vested awards not yet recognized at December 31, 2011 was approximately \$209,000.

Status of Non-Vested Units

The following table presents a summary of the status of the non-vested units:

| | Number of Non-vested Units | Weighted Average Grant Date Fair Value |
|---|----------------------------------|---|
| Outstanding non-vested units at December 31, 2010 | 241,565 | \$ 12.77 |
| Granted | | |
| Vested | (102,676) | 12.46 |
| Forfeited | | |
| Outstanding non-vested units at December 31, 2011 | 138,889 | \$ 13.01 |

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12. Long-Term Incentive Plan (continued)*Repurchase Program*

In May 2009, the board of directors of the General Partner authorized the repurchase of the Partnership's common units (the "Repurchase Program") for the purpose of meeting the General Partner's anticipated obligations to deliver common units under the LTIP and meeting the General Partner's obligations under existing employment agreements and other employment related obligations of the General Partner (collectively, the "General Partner's Obligations"). Up to 445,000 of its common units in the aggregate is authorized to be acquired, over an extended period of time, consistent with the General Partner's Obligations. Common units of the Partnership may be repurchased from time to time in open market transactions, including block purchases, or in privately negotiated transactions. Such authorized unit repurchases may be modified, suspended or terminated at any time, and are subject to price, economic and market conditions, applicable legal requirements and available liquidity. Through December 31, 2011, the General Partner repurchased 261,291 common units pursuant to the Repurchase Program for approximately \$5.5 million.

At December 31, 2011 and 2010, common units outstanding as reported in the accompanying consolidated financial statements excluded 18,632 and 60,510 common units, respectively, held on behalf of the Partnership pursuant to its Repurchase Program and for future satisfaction of the General Partner's Obligations.

Note 13. Commitments and Contingencies

The Partnership is subject to contingencies, including legal proceedings and claims arising out of the normal course of business that cover a wide range of matters, including, among others, environmental matters and contract and employment claims.

Leases of Office Space and Computer Equipment

The Partnership has future commitments, principally for office space and computer equipment, under the terms of operating lease arrangements. The following provides total future minimum payments under leases with non-cancelable terms of one year or more at December 31, 2011 (in thousands):

| | |
|--------------|------------------|
| 2012 | \$ 1,748 |
| 2013 | 1,511 |
| 2014 | 1,115 |
| 2015 | 1,119 |
| 2016 | 993 |
| Thereafter | 3,846 |
| Total | \$ 10,332 |

Total expenses under the operating lease arrangements amounted to approximately \$2.3 million, \$2.2 million and \$1.9 million for the years ended December 31, 2011, 2010 and 2009, respectively. The Partnership also receives lease income from office space leased at one of its owned terminals for \$0.2 million per year through January 2014.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 13. Commitments and Contingencies (continued)

The Partnership also leases certain equipment under capital lease agreements, for which the net book value was approximately \$0.8 million and \$1.0 million at December 31, 2011 and 2010, respectively. Depreciation expense for equipment under the capital leases was approximately \$245,000, \$188,000 and \$177,000 for the years ended December 31, 2011, 2010 and 2009, respectively. The following provides the future minimum payments for capital lease obligations at December 31, 2011 (in thousands):

| | |
|-------|--------|
| 2012 | \$ 159 |
| 2013 | 66 |
| 2014 | 66 |
| 2015 | 66 |
| 2016 | 66 |
| Total | \$ 423 |

Terminal and Throughput Leases

The Partnership entered into terminal and throughput lease arrangements with certain counterparties at various unrelated oil terminals. Certain arrangements have minimum usage requirements. The following provides future minimum lease and throughput commitments under these arrangements with non-cancelable terms of one year or more at December 31, 2011 (in thousands):

| | |
|------------|-----------|
| 2012 | \$ 13,251 |
| 2013 | 4,388 |
| 2014 | 2,056 |
| 2015 | 2,068 |
| 2016 | 1,720 |
| Thereafter | 1,607 |
| Total | \$ 25,090 |

Total expenses reflected in cost of sales related to these operating leases were approximately \$26,000, \$17,000 and \$15,000 for the years ended December 31, 2011, 2010 and 2009, respectively.

Leases of Gasoline Stations

The Partnership entered into gasoline station lease arrangements at various gasoline stations. The following provides future minimum lease commitments under these arrangements with non-cancelable terms of one year or more at December 31, 2011 (in thousands):

| | |
|------------|-----------|
| 2012 | \$ 2,967 |
| 2013 | 2,506 |
| 2014 | 2,292 |
| 2015 | 2,072 |
| 2016 | 1,487 |
| Thereafter | 3,054 |
| Total | \$ 14,378 |

Total expenses under these operating lease arrangements amounted to approximately \$3.3 million, \$0.9 million and \$0 for the years ended December 31, 2011, 2010 and 2009, respectively.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 13. Commitments and Contingencies (continued)***Purchase Commitments***

The minimum volume purchase requirements for 2012 under the Partnership's existing supply agreements are approximately 852 million gallons. The Partnership purchased approximately 1.4 billion, 481 million and 878 million gallons of product under the Partnership's existing supply agreements for \$4.0 billion, \$1.0 billion and \$1.4 billion in 2011, 2010 and 2009, respectively, which included fulfillment of the minimum purchase obligation under these commitments. The increases in the amounts of products purchased (both in gallons and dollars) in 2011 compared to 2010 and 2009 are due to increases in Mobil-branded fuel to sub-jobbers pursuant to the Partnership's brand fee agreement.

Brand Fee Agreement

The Partnership entered into a brand fee agreement with ExxonMobil which entitles the Partnership to operate its retail gas stations under the Mobil-branded trade name and related trade logos. The fees, which are based upon an estimate of the volume of gasoline and diesel to be sold at the acquired gas stations, are due on a monthly basis. The following provides total future minimum payments under the agreement with non-cancelable terms of one year or more at December 31, 2011 (in thousands):

| | | |
|--------------|-----------|----------------|
| 2012 | \$ | 9,000 |
| 2013 | | 9,000 |
| 2014 | | 9,000 |
| 2015 | | 9,000 |
| 2016 | | 9,000 |
| Thereafter | | 76,500 |
| Total | \$ | 121,500 |

Total expenses reflected in cost of sales related this agreement were approximately \$9.0 million, \$2.7 million and \$0 for the years ended December 31, 2011, 2010 and 2009, respectively.

Commercial Agreement

The Partnership entered into a series of agreements related to the transportation of ethanol to the Partnership's Albany, New York terminal. Pursuant to the agreements, the shipping requirement may be satisfied by the Partnership or by third parties shipping on the Partnership's behalf. Assuming the Partnership ships 6,000 cars, the expected shipping requirement, the following provides total future minimum payments under the agreement with non-cancellable terms of one year or more at December 31, 2011 (in thousands):

| | | |
|--------------|-----------|----------------|
| 2012 | \$ | 23,370 |
| 2013 | | 23,370 |
| 2014 | | 23,370 |
| 2015 | | 23,370 |
| 2016 | | 23,370 |
| Thereafter | | 19,475 |
| Total | \$ | 136,325 |

In the event the Partnership does not ship any cars in a given year, it is subject to a minimum fee of approximately \$5.2 million for that year. The arrangement, which began in 2010, is based on the movement of rail cars. Excess shipper utilization can be applied to the subsequent contract year. The Partnership met its commitment for each of the years ended December 31, 2011 and 2010.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 13. Commitments and Contingencies (continued)

Environmental Liabilities

Please see Note 9 for a discussion of the Partnership's environmental liabilities.

Legal Proceedings

Please see Note 20 for a discussion of the Partnership's legal proceedings.

Note 14. Partners' Equity, Allocations and Cash Distributions

Units Outstanding

Partners' equity at December 31, 2011 consisted of 21,580,563 common units outstanding (including 5,442,590 common units held by affiliates of the General Partner, including directors and executive officers), collectively representing a 98.94% effective ownership interest in the Partnership, and 230,303 general partner units representing a 1.06% general partner interest in the Partnership.

Partners' equity at December 31, 2011 and 2010 excluded common units outstanding of 18,632 and 60,510 common units, respectively, held pursuant to the Repurchase Program and for future satisfaction of the General Partner's Obligations. See Note 12, "Long-Term Incentive Plan Repurchase Program."

Common Units

The common units have limited voting rights as set forth in the Partnership's partnership agreement.

Pursuant to the Partnership's partnership agreement, if at any time the General Partner and its affiliates own more than 80% of the common units outstanding, the General Partner has the right, but not the obligation, to "call" or acquire all, but not less than all, of the common units held by unaffiliated persons at a price not less than their then-current market value. The General Partner may assign this call right to any of its affiliates or to the Partnership.

Subordinated Units

On February 16, 2011, based upon satisfying certain distribution and performance tests provided in the Partnership's partnership agreement, all 5,642,424 subordinated units have converted to common units.

General Partner Units

The Partnership's general partner interest is represented by general partner units. The General Partner is entitled to a percentage (equal to the general partner interest) of all cash distributions of available cash on all common units. The Partnership's partnership agreement sets forth the calculation to be used to determine the amount and priority of cash distributions that the common unitholders, holders of the incentive distribution rights and the General Partner will receive.

The Partnership's general partner interest has the management rights as set forth in the Partnership's partnership agreement.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Partners' Equity, Allocations and Cash Distributions (continued)*Incentive Distribution Rights*

Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from distributable cash flow after the target distribution levels have been achieved, as defined in the Partnership's partnership agreement. The General Partner currently holds all of the incentive distribution rights, but may transfer these rights separately from its general partner interest, subject to restrictions in the Partnership's partnership agreement.

Allocations of Net Income

Net income is allocated between the General Partner and the common unitholders in accordance with the provisions of the Partnership's partnership agreement. Net income is generally allocated first to the General Partner and the common unitholders in an amount equal to the net losses allocated to the General Partner and the common unitholders in the current and prior tax years under the Partnership's partnership agreement. The remaining net income is allocated to the General Partner and the common unitholders in accordance with their respective percentage interests of the general partner units and common units.

Cash Distributions

The Partnership intends to consider regular cash distributions to unitholders on a quarterly basis, although there is no assurance as to the future cash distributions since they are dependent upon future earnings, capital requirements, financial condition and other factors. The Credit Agreement prohibits the Partnership from making cash distributions if any potential default or Event of Default, as defined in the Credit Agreement, occurs or would result from the cash distribution.

Within 45 days after the end of each quarter, the Partnership will distribute all of its Available Cash (as defined in its partnership agreement) to unitholders of record on the applicable record date. The amount of Available Cash is all cash on hand on the date of determination of Available Cash for the quarter; less the amount of cash reserves established by the General Partner to provide for the proper conduct of the Partnership's business, to comply with applicable law, any of the Partnership's debt instruments, or other agreements or to provide funds for distributions to unitholders and the General Partner for any one or more of the next four quarters.

The Partnership will make distributions of Available Cash from distributable cash flow for any quarter in the following manner: 98.94% to the common unitholders, pro rata, and 1.06% to the General Partner, until the Partnership distributes for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter; and thereafter, cash in excess of the minimum quarterly distribution is distributed to the unitholders and the General Partner based on the percentages as provided below.

As holder of the IDRs, the General Partner is entitled to incentive distributions if the amount that the Partnership distributes with respect to any quarter exceeds specified target levels shown below:

| | Total Quarterly Distribution Target Amount | Marginal Percentage Interest in Distributions | |
|--------------------------------|---|--|-----------------|
| | | Unitholders | General Partner |
| Minimum Quarterly Distribution | \$0.4625 | 98.94% | 1.06% |
| First Target Distribution | \$0.4625 | 98.94% | 1.06% |
| Second Target Distribution | above \$0.4625 up to \$0.5375 | 85.94% | 14.06% |
| Third Target Distribution | above \$0.5375 up to \$0.6625 | 75.94% | 24.06% |
| Thereafter | above \$0.6625 | 50.94% | 49.06% |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Partners' Equity, Allocations and Cash Distributions (continued)

The Partnership paid the following cash distributions during 2011, 2010 and 2009 (in thousands, except per unit data):

| Cash Distribution Payment Date | Per Unit | | | | | Total Cash Distribution |
|--------------------------------|-------------------|--------------|--------------------|-----------------|------------------------|-------------------------|
| | Cash Distribution | Common Units | Subordinated Units | General Partner | Incentive Distribution | |
| 2009 | | | | | | |
| 02/13/09 (1)(2) | \$ 0.4875 | \$ 3,621 | \$ 2,751 | \$ 112 | \$ 50 | \$ 6,534 |
| 05/15/09 (1)(2) | 0.4875 | 3,621 | 2,751 | 112 | 50 | 6,534 |
| 08/14/09 (1)(2) | 0.4875 | 3,621 | 2,751 | 112 | 50 | 6,534 |
| 11/13/09 (1)(2) | 0.4875 | 3,621 | 2,751 | 112 | 50 | 6,534 |
| 2010 | | | | | | |
| 02/12/10 (1)(2) | \$ 0.4875 | \$ 3,621 | \$ 2,751 | \$ 112 | \$ 50 | \$ 6,534 |
| 05/14/10 (2)(3) | 0.4875 | 5,527 | 2,751 | 112 | 65 | 8,455 |
| 08/13/10 (2)(3) | 0.4875 | 5,527 | 2,751 | 112 | 65 | 8,455 |
| 11/12/10 (3)(4) | 0.4950 | 5,612 | 2,793 | 114 | 84 | 8,603 |
| 2011 | | | | | | |
| 02/14/11 (5)(6) | \$ 0.5000 | \$ 6,647 | \$ 2,821 | \$ 115 | \$ 108 | \$ 9,691 |
| 05/13/11 (6) | 0.5000 | 10,790 | N/A | 116 | 122 | 11,028 |
| 08/12/11 (6) | 0.5000 | 10,790 | N/A | 116 | 122 | 11,028 |
| 11/14/11 (6) | 0.5000 | 10,790 | N/A | 116 | 122 | 11,028 |

- (1) Prior to the Partnership's public offering in March 2010 (see Note 15), the limited partner interest was 98.27% and the general partner interest was 1.73%.
- (2) This distributions of \$0.4875 per unit resulted in the Partnership exceeding its first target level distribution for each of the four quarters 2009 and for the first two quarters of 2010. As a result, the General Partner, as the holder of the IDRs, received an incentive distribution.
- (3) Prior to the Partnership's public offering in November 2010 (see Note 15), the limited partner interest was 98.66% and the general partner interest was 1.34%.
- (4) This distribution of \$0.4950 per unit resulted in the Partnership exceeding its first target level distribution for the third quarter of 2010. As a result, the General Partner, as the holder of the IDRs, received an incentive distribution.
- (5) On February 16, 2011, based upon satisfying certain distribution and performance tests provided in the Partnership's partnership agreement, all 5,642,424 subordinated units converted to common units. Prior to the conversion and the February 2011 offering, the Partnership made this distribution in the following manner: firstly, 98.80% to the common unitholders, pro rata, and 1.20% to the General Partner, until the Partnership distributed for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter; secondly, 98.80% to the common unitholders, pro rata, and 1.20% to the General Partner, until the Partnership distributed for each outstanding common unit an amount equal to any arrearages in payment of the minimum quarterly distribution on the common units for any prior quarters during the subordination period; thirdly, 98.80% to the subordinated unitholders, pro rata, and 1.20% to the General Partner, until the Partnership distributed for each subordinated unit an amount equal to the minimum quarterly distribution for that quarter.
- (6) This distribution of \$0.50 per unit resulted in the Partnership exceeding its first target level distribution for the fourth quarter of 2010 and first three quarters of 2011. As a result, the General Partner, as the holder of the IDRs, received an incentive distribution.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Partners' Equity, Allocations and Cash Distributions (continued)

In addition, on January 18, 2012, the board of directors of the General Partner declared a quarterly cash distribution of \$0.50 per unit for the period from October 1, 2011 through December 31, 2011 (\$2.00 per unit on an annualized basis) to the Partnership's common unitholders of record as of the close of business February 3, 2012. On February 14, 2012, the Partnership paid the total cash distribution of approximately \$11.0 million.

Note 15. Unitholders' Equity

On March 19, 2010, the Partnership completed a public offering of 3,910,000 common units at a price of \$22.75 per common unit. Net proceeds were approximately \$84.6 million for the year ended December 31, 2011, after deducting underwriting fees and offering expenses.

On November 16, 2010, the Partnership completed a public offering of 1,955,000 common units at a price of \$25.57 per common unit. Net proceeds were approximately \$47.7 million, after deducting underwriting fees and offering expenses.

On February 8, 2011, the Partnership completed a public offering of 2,645,000 common units at a price of \$27.60 per common unit. Net proceeds were approximately \$69.6 million, after deducting underwriting fees and offering expenses.

The Partnership used the net proceeds from each of these offerings to reduce indebtedness outstanding under its Credit Agreement.

Note 16. Related-Party Transactions

The Partnership is a party to a Second Amended and Restated Terminal Storage Rental and Throughput Agreement, as amended, with Global Petroleum Corp. ("GPC"), an affiliate of the Partnership that is 100% owned by members of the Slifka family. The agreement, which extends through July 31, 2014 with annual renewal options thereafter, is accounted for as an operating lease.

The following provides future minimum payments at December 31, 2011, including the expected exercise of renewal options, which have an annual consumer price index adjustment (in thousands):

| | | |
|-------|----|--------|
| 2012 | \$ | 7,262 |
| 2013 | | 7,262 |
| 2014 | | 4,236 |
| Total | \$ | 18,760 |

The expenses under this agreement totaled \$8.8 million, \$8.7 million and \$8.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. These expenses include annual consumer price index adjustments of approximately \$1.5 million, \$1.4 million and \$1.1 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Pursuant to an Amended and Restated Services Agreement with GPC, GPC provides certain terminal operating management services to the Partnership and uses certain administrative, accounting and information processing services of the Partnership. The expenses from these services totaled approximately \$96,000, \$87,000 and \$73,000 for the years ended December 31, 2011, 2010 and 2009, respectively. These charges were recorded in selling, general and administrative expenses in the accompanying consolidated statements of income. The agreement is for an indefinite term, and either party may terminate its receipt of some or all of the services thereunder upon 180 days' notice at any time. As of December 31, 2011, no such notice of termination was given by either party.

Table of Contents**GLOBAL PARTNERS LP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 16. Related-Party Transactions (continued)**

Pursuant to the Partnership's Amended and Restated Services Agreement with Alliance, the Partnership also provides certain administrative, accounting and information processing services, and the use of certain facilities, to Alliance, an affiliate of the Partnership that is wholly owned by AE Holdings, which is approximately 95% owned by members of the Slifka family. The income from these services was approximately \$187,000, \$196,000 and \$382,000 for the years ended December 31, 2011, 2010 and 2009, respectively. The decrease in amounts received from Alliance in 2011 and 2010 compared to 2009 was because the nature, scope and extent of services previously provided by the Partnership have diminished. These fees were recorded as an offset to selling, general and administrative expenses in the accompanying consolidated statements of income. The agreement is for an indefinite term, and Alliance may terminate its receipt of some or all of the services thereunder upon 180 days' notice at any time. As of December 31, 2011, no such notice of termination was given by Alliance.

The Partnership sells refined petroleum products and renewable fuels to Alliance at prevailing market prices at the time of delivery. Sales to Alliance were approximately \$187.1 million, \$20.1 million and \$19.8 million for the years ended December 31, 2011, 2010 and 2009, respectively. Sales for the year ended December 31, 2011 include sales of Mobil-branded fuel to Alliance pursuant to the Mobil franchise agreement entered into by Global Companies LLC and Alliance, effective March 1, 2011.

In addition, Global Companies LLC and GMG entered into management agreements with Alliance in connection with the Partnership's September 2010 acquisition of retail gas stations from ExxonMobil. The management fee and overhead reimbursement were approximately \$2.6 million and \$1.6 million, respectively, for the year ended December 31, 2011 and \$0.8 million and \$0.8 million, respectively, for the year ended December 31, 2010.

The General Partner employs substantially all of the Partnership's employees. The Partnership reimburses the General Partner for expenses incurred in connection with these employees. The expenses for the years ended December 31, 2011, 2010 and 2009, including payroll, payroll taxes and bonus accruals, were \$48.9 million, \$38.6 million and \$39.0 million, respectively. The Partnership also reimburses the General Partner for its contributions under the General Partner's 401(k) Savings and Profit Sharing Plan and the General Partner's qualified and non-qualified pension plans. See Note 11, Employee Benefit Plans with Related Party.

The table below presents trade receivables with Alliance, receivables incurred in connection with the services agreements between Alliance and the Partnership and GPC and the Partnership, as the case may be, and receivables from the General Partner at December 31 (in thousands):

| | 2011 | 2010 |
|--|-----------------|-----------------|
| Receivables from Alliance (BFA) (1) | \$ 738 | \$ |
| Receivables from Alliance | 205 | 296 |
| Receivables from GPC | 302 | 224 |
| Receivables from the General Partner (2) | 531 | 710 |
| Total | \$ 1,776 | \$ 1,230 |

(1) Receivables from Alliance reflect the Partnership's billings for branded fuel to Alliance, as a sub-jobber, pursuant to the Partnership's brand fee agreement.

(2) Receivables from the General Partner reflect the Partnership's prepayment of payroll taxes and payroll accruals to the General Partner.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 17. Segment Reporting

The Partnership's operating segments are based upon the revenue sources for which discrete financial information is reviewed by the chief operating decision maker (the "CODM") and include Wholesale, Commercial, Retail Gasoline, Convenience Stores and Rental Income from gas stations. Each of these operating segments generates revenues and incurs expenses and is evaluated for operating performance on a regular basis. These operating segments are aggregated into two reportable segments as discussed below.

The Partnership primarily engages in the wholesale and commercial distribution of refined petroleum products, renewable fuels and small amounts of natural gas and crude oil. The Partnership's primary business is organized within two reporting segments, Wholesale and Commercial, based on the way the CODM manages the business and on the similarity of customers and expected long-term financial performance of each segment. The accounting policies of the segments are the same as those described in Note 2, "Summary of Significant Accounting Policies."

In the Wholesale reporting segment, which represents a standalone reporting segment, the Partnership sells gasoline (including blendstocks such as ethanol and naphtha) and diesel to unbranded and Mobil-branded retail gasoline stations and other resellers of transportation fuels and home heating oil, diesel, kerosene and residual oil to home heating oil retailers and wholesale distributors. The Partnership also sells crude oil to refiners. Generally, customers use their own vehicles or contract carriers to take delivery of the product at bulk terminals and inland storage facilities that the Partnership owns or controls or with which it has throughput or exchange arrangements.

Within the Commercial reporting segment, the Partnership aggregates the Commercial and Retail Gasoline operating segments into this reporting segment based upon similar products, classes of customer, distribution methods and economic characteristics. The Commercial segment includes (1) sales and deliveries of unbranded gasoline, home heating oil, diesel, kerosene, residual oil, renewable fuels and small amounts of natural gas to end user customers in the public sector and to large commercial and industrial end users (in the case of commercial and industrial end user customers, the Partnership sells products primarily either through a competitive bidding process or through contracts of various terms), (2) sales of custom blended distillates and residual oil delivered by barges or from a terminal dock through bunkering activity, and (3) sales of Mobil-branded gasoline to end users. Commercial segment end user customers include Mobil-branded gasoline customers at the Partnership's directly operated gas stations, federal and state agencies, municipalities, large industrial companies, many autonomous authorities such as transportation authorities and water resource authorities, colleges and universities and a group of small utilities. Unlike the Wholesale segment, in the Commercial segment, the Partnership generally arranges the delivery of the product to the customer's designated location, typically hiring third-party common carriers to deliver the product.

The Convenience Stores and Rental Income operating segments individually are not material and, therefore, do not meet the quantitative and qualitative metrics for disclosure as a reportable segment on a standalone basis. Further, these segments do not have similar characteristics with the other operating segments that would enable these segments to be aggregated together with another operating segment. As such, the Convenience Stores and Rental Income segments are not reportable segments and are, therefore, aggregated into an "all other" category for disclosure purposes.

The Partnership evaluates segment performance based on net product margins before allocations of corporate and indirect operating costs, depreciation, amortization (including non-cash charges) and interest. Based on the way the CODM manages the business, it is not reasonably possible for the Partnership to allocate the components of operating costs and expenses between the reportable segments. There were no intersegment sales for any of the years presented below.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 17. Segment Reporting (continued)

Summarized financial information for the Partnership's reportable segments for the years ended December 31 is presented in the table below (in thousands):

| | Year Ended December 31, | | |
|---|-------------------------|-------------------|-------------------|
| | 2011 | 2010 | 2009 |
| Wholesale: | | | |
| Sales | | | |
| Gasoline (1) | \$ 9,757,838 | \$ 4,554,046 | \$ 2,954,461 |
| Distillates | 3,866,316 | 2,680,729 | 2,467,883 |
| Residual oil and crude oil | 70,189 | 39,353 | 32,803 |
| Total | \$ 13,694,343 | \$ 7,274,128 | \$ 5,455,147 |
| Net product margin (2) | | | |
| Gasoline | \$ 96,273 | \$ 64,677 | \$ 40,706 |
| Distillates | 50,383 | 80,948 | 95,098 |
| Residual oil and crude oil | 17,226 | 9,398 | 9,430 |
| Total | \$ 163,882 | \$ 155,023 | \$ 145,234 |
| Commercial: | | | |
| Sales (1) | \$ 1,082,600 | \$ 511,326 | \$ 363,264 |
| Net product margin (2) | \$ 38,616 | \$ 18,438 | \$ 15,410 |
| All Other: | | | |
| Sales (1) (3) | \$ 58,786 | \$ 16,105 | \$ |
| Net product margin (2) | \$ 31,491 | \$ 8,885 | \$ |
| Combined sales and net product margin: | | | |
| Sales | \$ 14,835,729 | \$ 7,801,559 | \$ 5,818,411 |
| Net product margin (2) | \$ 233,989 | \$ 182,346 | \$ 160,644 |
| Depreciation allocated to cost of sales | 24,391 | 15,628 | 10,816 |
| Combined gross profit | \$ 209,598 | \$ 166,718 | \$ 149,828 |

(1) On September 30, 2010, the Partnership completed its acquisition of retail gas stations and supply rights from ExxonMobil (see Note 5). As these assets were not in place for a substantial portion of the year ended December 31, 2010 or for any portion of the year ended December 31, 2009, the above results are not directly comparable for periods prior to September 2010.

(2) Net product margin is a non-GAAP financial measure used by management and external users of the Partnership's consolidated financial statements to assess the Partnership's business. The table above reconciles net product margin on a combined basis to gross profit, a directly comparable GAAP measure.

(3) Sales in the "All Other" category consist of convenience store revenues and rental income.

In the Wholesale segment, the Partnership had one customer whose revenues were approximately \$2.8 billion (19%), \$1.4 billion (19%) and \$1.3 billion (22%) of the Partnership's total revenues for the years ended December 31, 2011, 2010 and 2009, respectively.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 17. Segment Reporting (continued)

A reconciliation of the totals reported for the reportable segments to the applicable line items in the consolidated financial statements for the years ended December 31 is as follows (in thousands):

| | 2011 | 2010 | 2009 |
|--|------------|------------|------------|
| Combined gross profit | \$ 209,598 | \$ 166,718 | \$ 149,828 |
| Operating costs and expenses not allocated to operating segments: | | | |
| Selling, general and administrative expenses | 78,605 | 66,063 | 61,048 |
| Operating expenses | 73,534 | 47,781 | 35,043 |
| Restructuring charges | 2,030 | | |
| Amortization expenses | 4,800 | 3,526 | 2,986 |
| Total operating costs and expenses | 158,969 | 117,370 | 99,077 |
| Operating income | 50,629 | 49,348 | 50,751 |
| Interest expense | (31,209) | (22,310) | (15,188) |
| Income tax expense | (68) | | (1,429) |
| Net income | \$ 19,352 | \$ 27,038 | \$ 34,134 |

There were no foreign sales for the years ended December 31, 2011, 2010 and 2009. The Partnership has no foreign assets.

Segment Assets

In connection with its acquisition of retail gas stations from ExxonMobil (see Note 5), the Partnership acquired assets of approximately \$232.3 million, of which approximately \$171.3 million of property and equipment has been allocated to the Wholesale segment as of the acquisition date. As of December 31, 2011, these assets had a net book value of approximately \$147.5 million. Due to the commingled nature and uses of the remainder of the Partnership's assets, it is not reasonably possible for the Partnership to allocate these assets between its reportable segments.

Note 18. Fair Value Measurements

Certain of the Partnership's assets and liabilities are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The FASB established a fair value hierarchy, which prioritizes the inputs used in measuring fair value into the following three levels:

- Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs other than the quoted prices in active markets that are observable for assets or liabilities, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets.
- Level 3 Unobservable inputs based on the entity's own assumptions.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 18. Fair Value Measurements (continued)

The following table presents those financial assets and financial liabilities measured at fair value on a recurring basis (in thousands):

| | Fair Value as of December 31, 2011 | | | | Fair Value as of December 31, 2010 | | | |
|--|------------------------------------|----------|-------------|---------|------------------------------------|----------|-------------|---------|
| | Total | Level 1 | Level 2 | Level 3 | Total | Level 1 | Level 2 | Level 3 |
| Assets: | | | | | | | | |
| Hedged inventories | \$ 609,566 | \$ | \$ 609,566 | \$ | \$ 585,323 | \$ | \$ 585,323 | \$ |
| Fair value of forward fixed price contracts | 15,450 | | 15,450 | | 1,942 | | 1,942 | |
| Swap agreements and options | 239 | 121 | 118 | | 211 | 152 | 59 | |
| Interest rate cap | 306 | | 306 | | | | | |
| Total | \$ 625,561 | \$ 121 | \$ 625,440 | \$ | \$ 587,476 | \$ 152 | \$ 587,324 | \$ |
| Liabilities: | | | | | | | | |
| Obligations on forward fixed price contracts | \$ (11,707) | \$ | \$ (11,707) | \$ | \$ (9,157) | \$ | \$ (9,157) | \$ |
| Swap agreements and option contracts | (123) | (121) | (2) | | (2,446) | (150) | (2,296) | |
| Interest rate collars and swap | (16,263) | | (16,263) | | (13,338) | | (13,338) | |
| Total liabilities | \$ (28,093) | \$ (121) | \$ (27,972) | \$ | \$ (24,941) | \$ (150) | \$ (24,791) | \$ |

The majority of the Partnership's derivatives outstanding are reported at fair value based market quotes that are deemed to be observable inputs in an active market for similar assets and liabilities and are considered Level 2 inputs for purposes of fair value disclosures. Specifically, the fair values of the Partnership's financial assets and financial liabilities provided above were derived from NYMEX and New York Harbor quotes for the Partnership's hedged inventories, forward fixed price contracts, swap agreements and option contracts and from the LIBOR rates for the Partnership's interest rate collars, swap and interest rate cap. The Partnership has not changed its valuation techniques or inputs during the years ended December 31, 2011 and 2010.

For assets and liabilities measured on a non-recurring basis during the year, accounting guidance requires quantitative disclosures about the fair value measurements separately for each major category. See Note 5 for acquired assets and liabilities measured on a non-recurring basis during the fiscal year ended December 31, 2010. There were no assets or liabilities measured at fair value on a non-recurring basis during the year ended December 31, 2011.

Financial Instruments

The fair value of the Partnership's financial instruments approximated the carrying value as of December 31, 2011 and 2010, in each case due to the short-term nature and the variable interest rate of the financial instruments.

Table of Contents**GLOBAL PARTNERS LP****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 19. Restructuring Charges**

In July 2011, the Partnership implemented a reduction in workforce as part of its cost reduction initiatives. This reduction in workforce resulted in a restructuring charge to expense of approximately \$2.0 million, principally for separation and outplacement costs, and was recorded for the year ended December 31, 2011 and included in restructuring charges in the accompanying consolidated statements of income. A total of approximately \$838,000 was paid through December 31, 2011.

The following table presents the changes in the Partnership's restructuring liability, included in amounts reported as other current liabilities (in thousands):

| | Severance |
|------------------------------|------------------|
| Balance at December 31, 2010 | \$ |
| Restructuring expense | 2,030 |
| Cash payments | (838) |
| Balance at December 31, 2011 | \$ 1,192 |

Note 20. Legal Proceedings*General*

Although the Partnership may, from time to time, be involved in litigation and claims arising out of its operations in the normal course of business, the Partnership does not believe that it is a party to any litigation that will have a material adverse impact on its financial condition or results of operations. Except as described below and in Note 9 included herein, the Partnership is not aware of any significant legal or governmental proceedings against it, or contemplated to be brought against it. The Partnership maintains insurance policies with insurers in amounts and with coverage and deductibles as its general partner believes are reasonable and prudent. However, the Partnership can provide no assurance that this insurance will be adequate to protect it from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

Other

In December 2011, certain of the employees assigned to certain of the Partnership's terminals in Newburgh, New York elected to join the incumbent union representing certain employees at the Partnership's Glenwood Landing, Inwood and Oyster Bay, New York terminals. The Partnership is negotiating a collective bargaining agreement with respect to these employees and does not believe the result of these negotiations will have a material adverse effect on its operations.

The Partnership received from the Environmental Protection Agency (the "EPA"), by letter dated November 2, 2011, a reporting requirement and testing order (the "Request for Information") for information under the Clean Air Act. The Request for Information is part of an EPA investigation to determine whether the Partnership has violated sections of the Clean Air Act at certain of its terminal locations in New England with respect to residual oil and asphalt. The Partnership is complying with the Request for Information. The Partnership does not believe that a violation has occurred nor does the Partnership believe any adverse determination in connection with such investigation would have a material impact on its operations.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 20. Legal Proceedings (continued)

On June 3, 2011, a complaint was filed against Alliance in Hartford, Connecticut Superior Court under the title Syed Sons, Inc., et al. v. Alliance Energy LLC, et al., Hartford Superior Court, Docket No.: HHD-X04-CV-11-6022516 S. The complaint was filed by six dealers operating, in the aggregate, 24 properties in connection with Alliance's purchase of gas stations from ExxonMobil in February 2011 (the "Initial Connecticut Litigation"). Also named in the suit were Exxon Mobil Corporation, Citizens Bank, N.A., the Gasoline and Automotive and Service Dealers of America ("GASDA") and Michael J. Fox, the Executive Director of GASDA. The complaint alleges, among other things, failure to comply with the Connecticut franchise statute and violations of the Connecticut unfair trade practices statute. The litigation is in its early stages, and the Partnership believes it has meritorious defenses. On March 7, 2012, a complaint was filed against Alliance in Hartford, Connecticut Superior Court under the title Syed Sons, Inc., et al. v. Alliance Energy LLC. The complaint was filed by five of the six dealers as in the Initial Connecticut Litigation and was filed in connection with Alliance's acquisition by the Partnership. The complaint alleges failure to comply with the Connecticut franchise statute and violations of the Connecticut unfair trade practices statute. Alliance believes that it has meritorious defenses to the second complaint and intends to vigorously defend both lawsuits.

In May 2011, certain of the employees assigned to the Partnership's terminal in Chelsea, Massachusetts elected to join the incumbent union representing other employees at this terminal. The Partnership is negotiating a collective bargaining agreement with respect to these employees and does not believe the result of these negotiations will have a material adverse effect on its operations.

In January 2011, the trustee administering the post-bankruptcy litigation trust of Lyondell Chemical Company ("Lyondell") and certain of its affiliates brought an action against the Partnership to recover payments totaling approximately \$6.0 million made to the Partnership by an affiliate of Lyondell that the trustee claims were paid shortly before the Lyondell bankruptcy and at a time when the affiliate was insolvent, allegedly permitting the avoidance or recovery of those payments pursuant to bankruptcy law. The lawsuit was vigorously defended on the grounds that payments were made by the bankruptcy debtor in the ordinary course of both its and the Partnership's business and/or as contemporaneous payment for its receipt of a volume of product of a value equivalent to the payments. While the Partnership believes that it would have prevailed in this lawsuit, the lawsuit was settled in January 2012 by the Partnership making a payment to the litigation trust of \$135,000.

On February 24, 2010, the Office of the Attorney General for the State of Maine (the "Maine Attorney General") issued a subpoena to Alliance in connection with an investigation of retail motor fuel pricing. The subpoena requests a variety of information regarding Alliance's gasoline purchases and sales within the State of Maine between January 2008 and March 2010. In August 2010, Alliance provided responsive materials to the Maine Attorney General. While the Partnership cannot predict the outcome of the investigation, it does not expect that the outcome will have a material adverse effect on its operations.

- (1) Includes \$1.7 million related to a change in estimate of in remediation obligations with respect to the Albany, New York terminal during the second quarter ended June 30, 2011 (see Note 9) and \$1.7 million and \$0.3 million of restructuring charges for the quarters ended September 30, 2011 and December 31, 2011, respectively (see Note 19).
- (2) See Note 2 for net income per limited partner unit calculation.
- (3) Cash distributions declared in one calendar quarter are paid in the following calendar quarter.

Note 22. Subsequent Events

On January 13, 2012, the Partnership entered into a Third Amendment to Amended and Restated Credit Agreement. See Note 8.

On January 31, 2012, the Partnership entered into a Fourth Amendment to Amended and Restated Credit Agreement. See Note 8.

On February 14, 2012, the Partnership paid a cash distribution of approximately \$11.0 million to its common unitholders of record as of the close of business on February 3, 2012.
