PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

To Be Held on Wednesday, May 16, 2018

This Proxy Statement and the accompanying form of proxy are being furnished in connection with the solicitation of proxies by the Board of Directors of Plug Power Inc. ("we," "us," "our," "Plug Power" or the "Company") for use at the 2018 Annual Meeting of Stockholders of the Company to be held on Wednesday, May 16, 2018, at 10:00 a.m. Eastern Time, at the offices of Goodwin Procter LLP, 620 Eighth Avenue, New York, NY 10018, and any adjournments or postponements thereof (the "Annual Meeting"). This Proxy Statement and the accompanying form of proxy are first being sent or given to our stockholders on or about March 30, 2018.

ABOUT THE ANNUAL MEETING

What is a proxy?

A proxy is another person that you legally designate to vote your shares. If you designate someone as your proxy in a written document, that document is also called a "proxy" or a "proxy card." If you are a street name holder, you must obtain a proxy from your broker or nominee in order to vote your shares in person at the Annual Meeting.

What is a proxy statement?

A proxy statement is a document that regulations of the U.S. Securities and Exchange Commission ("SEC") require that we give to you when we ask you to sign a proxy card to vote your shares at the Annual Meeting.

What is in this proxy statement?

This proxy statement describes the proposals on which we would like you, as a stockholder, to vote at the Annual Meeting. It gives you information on the proposals, as well as other information about us, so that you can make an informed decision whether or how to vote your shares.

What is the purpose of the Annual Meeting?

The purpose of the Annual Meeting is for our stockholders to consider and vote upon the following matters:

1. The election of three Class I Directors each to hold office until the Company's 2021 Annual Meeting of Stockholders and until such director's successor is duly elected and qualified or until such director's earlier resignation or removal;
2. The approval of the issuance by the Company of shares of common stock representing 20% or more of our issued and outstanding common stock upon the exercise of a warrant issued by the Company to Walmart, Inc. as described in this proxy statement;
3. The approval of the advisory resolution regarding the compensation of our named executive officers as described in this proxy statement;

4. The ratification of KPMG LLP as our independent auditors for 2018; and
5. Such other business as may properly come before the Annual Meeting and any adjournments or postponements thereof.

What is "householding" and how does it affect me?

With respect to eligible stockholders who share a single address, we may send only one notice or proxy statement to that address unless we receive instructions to the contrary from any stockholder at that address. This practice, known as "householding", is designed to reduce our printing and postage costs. However, if a stockholder of record residing at such address wishes to receive a separate notice or proxy statement in the future, he or she may contact Plug Power Inc., 968 Albany Shaker Road, Latham, New York 12110, Attn: Investor Relations or call the Company at (518) 782-7700 and ask for Investor Relations. Eligible stockholders of record receiving multiple copies of our notice or proxy statement can request householding by contacting us in the same manner. Stockholders who own shares through a bank, broker or other nominee can request householding by contacting the nominee.

We hereby undertake to deliver promptly, upon written or oral request, a copy of the notice or proxy statement to a stockholder at a shared address to which a single copy of the document was delivered. Requests should be directed to Investor Relations at the address or phone number set forth above.

What should I do if I receive more than one set of voting materials?

You may receive more than one set of voting materials, including multiple copies of the notice for the Annual Meeting or this proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you will receive a separate voting instruction card for each brokerage account in which you hold shares. Similarly, if you are a stockholder of record and hold shares in a brokerage account, you will receive a notice of the Annual Meeting for shares held in your name and a notice or voting instruction card for shares held in street name. Please follow the directions provided in the notice for the Annual Meeting and each additional notice or voting instruction card you receive to ensure that all your shares are voted.

What is the record date and what does it mean?

The record date to determine the stockholders entitled to notice of, and to vote at, the Annual Meeting is the close of business on March 26, 2018 (the "Record Date"). The Record Date was established by the Board of Directors as required by Delaware law. On the Record Date, 228,605,480 shares of the Company's common stock, par value \$0.01 per share (the "Common Stock"), and 2,620 shares of the Company's Series C Redeemable Convertible Preferred Stock, par value \$0.01 per share (the "Series C Preferred Stock") were issued and outstanding and entitled to vote at the Annual Meeting. As of the Record Date, the Series C Preferred Stock was convertible into 2,782,075 shares of Common Stock. As of the record date, there were approximately 1,825 holders of record of the Common Stock and two holders of record of the Series C Redeemable Convertible Preferred Stock. However, management believes that a significant number of shares of Common Stock are held by brokers under a "nominee name" and that the number of beneficial stockholders of the Common Stock exceeds 119,000.

Who is entitled to vote at the Annual Meeting?

Only holders of record of the Common Stock and the Series C Preferred Stock at the close of business on the Record Date may vote at the Annual Meeting or any adjournment or postponement thereof.

How many votes do I have?

Each share of Common Stock outstanding on the Record Date is entitled to one vote on each matter to be voted upon. Each share of Series C Preferred Stock outstanding on the Record Date is entitled to a number of votes equal to the number of whole shares of Common Stock into which such share of Series C Preferred Stock is convertible (calculated by aggregating all shares of Series C Preferred Stock held by each record holder and rounding the number of shares of Common Stock issuable upon their conversion down to the nearest whole share) as of the Record Date on each matter to be voted upon. As of the Record Date, each share of Series C Preferred Stock was convertible into 1,061.861 shares of Common Stock.

What is the required quorum for the Annual Meeting?

The presence, in person or by proxy, of the holders of a majority in voting power of the outstanding shares of Common Stock and Series C Preferred Stock, taken together as a single class, entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business at the Annual Meeting. If you are a stockholder of record, your shares will be counted towards the quorum only if you appear in person at the Annual Meeting or submit a valid proxy to ensure your shares are represented at the Annual Meeting. If you are a beneficial owner of shares held in "street name", your shares will be counted towards the quorum if your broker or nominee submits a proxy for your shares at the Annual Meeting. Abstentions and broker non-votes, if any, will be counted towards the quorum requirement. If a quorum is not present or represented at the Annual Meeting, the chairman of the meeting or the holders of a majority of the shares represented, and who would be entitled to vote at the Annual Meeting if a quorum were present, may adjourn the Annual Meeting from time to time without notice or other announcement until a quorum is present or represented.

What is the difference between a stockholder of record and a "street name" holder?

If your shares are registered directly in your name with Broadridge Corporate Issuer Solutions, Inc., our stock transfer agent for our Common Stock, you are considered the stockholder of record with respect to those shares. The notice of the Annual Meeting has been sent directly to you by us.

If your shares are held in a stock brokerage account or by a bank or other nominee, the nominee is considered the record holder of those shares. You are considered the beneficial owner of these shares, and your shares are held in "street name". A notice of the Annual Meeting or this proxy statement and voting instruction card have been forwarded to you by your nominee. As the beneficial owner, you have the right to direct your nominee concerning how to vote your shares by using the voting instructions they included in the mailing or by following their instructions for voting by telephone or the Internet.

What is a broker non-vote?

Broker non-votes occur when shares are held indirectly through a broker, bank or other intermediary on behalf of a beneficial owner (referred to as held in "street name") and the broker submits a proxy for such shares but does not vote for a matter because the broker has not received voting instructions from the beneficial owner and (i) the broker does not have discretionary voting authority on the matter or (ii) the broker chooses not to vote on a matter for which it has discretionary voting authority. Under the rules of the New York Stock Exchange (the "NYSE"), brokers are permitted to exercise discretionary voting authority only on "'routine"' matters when voting instructions have not been timely received from a beneficial owner.

If I am a beneficial owner of shares, can my brokerage firm vote my shares?

If you are a beneficial owner and do not vote via the Internet or telephone or by returning a signed voting instruction card to your broker, your shares may be voted only with respect to so-called "routine" matters where your broker has discretionary voting authority over your shares. Under the rules of the NYSE, the ratification of KPMG LLP as our independent auditors (Proposal 4) is a "routine" matter. Accordingly, brokers will have such discretionary authority to vote on Proposal 4 and may, in their discretion, vote "FOR" or "AGAINST", or "ABSTAIN" from voting on such Proposal.

We encourage you to provide instructions to your brokerage firm via the Internet or telephone or by returning your signed voting instruction card. This ensures that your shares will be voted in accordance with your instructions at the Annual Meeting with respect to all of the proposals described in this proxy statement.

How will my shares be voted if I am a stockholder of record?

Your proxy will be voted according to your instructions. If you are a stockholder of record and do not vote via the Internet or telephone or by returning a signed proxy card, your shares will not be voted unless you attend the Annual Meeting and vote your shares. If you vote via the Internet or telephone and do not specify contrary voting instructions, your shares will be voted in accordance with the recommendations of our Board of Directors. Similarly, if you sign and submit your proxy card with no instructions, your shares will be voted in accordance with the recommendations of our Board of Directors.

How can I attend the Annual Meeting?

You may attend the Annual Meeting if you are listed as a stockholder as of the Record Date and bring proof of your identity. If you hold your shares in "street name" through a broker or other nominee, you will need to provide proof of your identity and proof that you are the beneficial owner of the shares by bringing either a copy of a brokerage statement showing your share ownership as of the Record Date or, if you wish to vote your shares in person at the Annual Meeting, a nominee issued proxy.

How do I vote my shares?

Your vote is very important to us. Whether or not you plan to attend the Annual Meeting, please vote by proxy in accordance with the instructions on your proxy card or voting instruction card (from your broker or other intermediary). There are three convenient ways of submitting your vote:

By Telephone or Internet All record holders can vote by touchtone telephone from the United States using the toll free telephone number on the proxy card, or over the Internet, using the procedures and instructions described on the proxy card. "Street name" holders may vote by telephone or Internet if their bank, broker or other nominee makes those methods available, in which case the bank, broker or other nominee will enclose the instructions with the proxy materials they send you. The telephone and Internet voting procedures are designed to authenticate stockholders' identities, to allow stockholders to vote their shares, and to confirm that their instructions have been recorded properly.

In Person All record holders may vote in person at the Annual Meeting. "Street name" holders may vote in person at the Annual Meeting if their bank, broker or other nominee has furnished a legal proxy. If you are a "street name" holder and would like to vote your shares by proxy, you will need to ask your bank, broker or other nominee to furnish you with a nominee issued proxy. You will need to bring the nominee issued proxy with you to the Annual Meeting and hand it in with a signed ballot that will be provided to you at the Annual Meeting. You will not be able to

Edgar Filing: PLUG POWER INC - Form DEF 14A

vote your shares without a nominee issued proxy. Note that a broker letter that identifies you as a stockholder is not the same as a nominee issued proxy.

By Written Proxy All record holders can vote by written proxy card. If you are a "street name" holder, you will receive a written proxy card and a voting instruction card from your bank, broker or other nominee.

The Board of Directors has appointed Andrew Marsh, President and Chief Executive Officer, and Gerard L. Conway, Jr., General Counsel, Corporate Secretary and Senior Vice President, to serve as the proxies for the Annual Meeting.

If you complete all of the proxy card except one or more of the voting instructions, then the designated proxies will vote your shares as to which you provide no voting instructions in the manner described under "What if I do not specify how I want my shares voted?" below. We do not anticipate that any other matters will come before the Annual Meeting, but if any other matters properly come before the Annual Meeting, then the designated proxies will vote your shares in accordance with applicable law and their judgment.

If you hold your shares in "street name," and complete the voting instruction card provided by your broker or other intermediary except with respect to one or more of the voting instructions, then your broker may be able to vote your shares with respect to the proposal as to which you provide no voting instructions. See "If I am a beneficial owner of shares, can my brokerage firm vote my shares?" above.

Even if you currently plan to attend the Annual Meeting, we recommend that you vote by telephone or Internet or return your proxy card or voting instructions as described above so that your votes will be counted if you later decide not to attend the Annual Meeting or are unable to attend. Attendance at the Annual Meeting will not cause your previously granted proxy to be revoked unless you change your proxy instructions as described under "Can I change my vote or revoke my proxy?" below.

What are my choices when voting?

With respect to the election of a director (Proposal 1), votes may be cast in favor of or withheld from the nominee. With respect to each of Proposals 2, 3, and 4, stockholders may vote for the proposal, against the proposal, or abstain from voting on the proposal.

What are the Board of Directors' recommendations on how I should vote my shares?

The Board of Directors recommends that you vote your shares as follows:

Proposal 1 **FOR** the election of each of the three nominees of the Board of Directors as a Class I Director of the Company;

Proposal 2 **FOR** the approval of the issuance of 20% or more of the Company's Common Stock upon the exercise of a warrant issued by the Company to Walmart, Inc.;

Proposal 3 **FOR** the approval of the advisory resolution regarding the compensation of the Company's named executive officers; and

Proposal 4 **FOR** the ratification of KPMG LLP as the Company's independent auditors for 2018.

What if I do not specify how I want my shares voted?

If you are a record holder who returns a completed proxy card that does not specify how you want to vote your shares on one or more proposals, the designated proxies will vote your shares for each proposal as to which you provide no voting instructions, in the following manner:

Proposal 1 **FOR** the election of each of the three nominees of the Board of Directors as a Class I Director of the Company;

Proposal 2 **FOR** the approval of the issuance of 20% or more of the Company's Common Stock upon the exercise of a warrant issued by the Company to Walmart, Inc.;

Proposal 3 **FOR** the approval of the advisory resolution regarding the compensation of the Company's named executive officers; and

Proposal 4 **FOR** the ratification of KPMG LLP as the Company's independent auditors for 2018.

If you are a street name holder and do not provide voting instructions on one or more proposals, your bank, broker or other nominee may be able to vote those shares. See "If I am a beneficial owner of shares, can my brokerage firm vote my shares" above.

Can I change my vote or revoke my proxy?

Yes. If you are a record holder, you may revoke your proxy at any time before it is voted on any matter (without, however, affecting any vote taken prior to such revocation) by any of the following means:

Attending the Annual Meeting and voting in person. Your attendance at the Annual Meeting will not by itself revoke a proxy. You must vote your shares by ballot at the Annual Meeting to revoke your proxy;

Voting again by telephone or over the Internet (only your latest telephone or Internet vote submitted prior to the Annual Meeting will be counted);

If you complete and submit a new valid proxy bearing a later date; and

Giving written notice of revocation to the Company addressed to the Corporate Secretary, at the Company's address above, which notice must be received before noon, Eastern Time, on May 15, 2018.

If you are a street name holder, your bank, broker or other nominee should provide instructions explaining how you may change or revoke your voting instructions. Please contact your broker or other nominee and follow its directions to change your vote.

What vote is required to approve each proposal?

With respect to the election of directors (Proposal 1), the affirmative vote of a plurality of the votes cast is necessary to elect a nominee as a director of the Company. Approval of each of Proposals 2, 3 and 4 requires the affirmative vote of a majority in voting power of the shares of Common Stock and Series C Preferred Stock, voting together as a single class, present in person or represented by proxy at the Annual Meeting and entitled to vote on such Proposal.

How are abstentions and broker non-votes treated?

Abstentions are included in the determination of the number of shares present at the Annual Meeting for determining a quorum at the meeting. Abstentions will have no effect in determining the outcome of the election of directors (Proposal 1). For each of Proposals 2, 3 and 4, abstentions will be

treated as votes cast against such proposal as the shares will be present in person or by proxy at the meeting and entitled to vote on such proposal.

Broker non-votes, if any, are included in the determination of the number of shares present at the Annual Meeting for determining a quorum at the meeting. Broker non-votes, if any, will have no effect on the vote for Proposals 1, 2 and 3. As described above, under the rules of the NYSE, the ratification of KPMG LLP as the Company's independent auditors for 2018 (Proposal 4) is considered to be a "routine" matter. Accordingly, brokers will have discretionary authority to vote on Proposal 4 and may, in their discretion, vote "FOR" or "AGAINST", or "ABSTAIN" from voting on such Proposal. See "If I am a beneficial owner of shares, can my brokerage firm vote my shares?" above.

What are the solicitation expenses and who pays the cost of this proxy solicitation?

Our Board of Directors is asking for your proxy and we will pay all of the costs of asking for stockholder proxies. We will reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding solicitation material to the beneficial owners of Common Stock and collecting voting instructions. We may use our officers and employees to ask for proxies, as described below. In addition, we have retained MacKenzie Partners, Inc. to assist in the solicitation of proxies for a fee of \$12,500 plus reimbursement of expenses.

Is this proxy statement the only way that proxies are being solicited?

No. In addition to the solicitation of proxies by use of the mail, our officers and employees, as well as MacKenzie Partners, Inc., may solicit the return of proxies, either by mail, telephone, fax, e-mail or through personal contact. These officers and employees will not receive additional compensation for their efforts but will be reimbursed for out-of-pocket expenses. The fees of MacKenzie Partners, Inc. as well as the reimbursement of expenses of MacKenzie Partners, Inc. will be borne by us. Brokerage houses and other custodians, nominees and fiduciaries, in connection with shares of the Common Stock registered in their names, will be requested to forward solicitation material to the beneficial owners of shares of Common Stock.

Where can I find voting results?

The Company expects to publish the voting results in a Current Report on Form 8-K, which it expects to file with the SEC within four business days following the Annual Meeting.

Who can help answer my questions?

PROPOSAL 1: ELECTION OF DIRECTORS

Introduction

At the Annual Meeting, three Class I Directors will be elected, each to serve until the Annual Meeting of Stockholders in 2021 and until such director's successor is duly elected and qualified or until such director's earlier resignation or removal. The Board of Directors has nominated Andrew Marsh, Gary K. Willis, and Maureen O. Helmer for re-election as Class I Directors. Shares represented by each properly executed proxy will be voted for the re-election of Andrew Marsh, Gary K. Willis, and Maureen O. Helmer as directors, unless contrary instructions are set forth on such proxy. Each nominee has agreed to stand for re-election and to serve, if elected, as a director. However, if any nominee fails to stand for re-election or is unable to accept election, the proxies will be voted for the election of such other person as the Board of Directors may recommend.

Vote Required

A quorum being present, the affirmative vote of a plurality of the votes cast is necessary to elect a nominee as a director of the Company. You may vote "FOR" all nominees, "WITHHOLD" for all nominees, or "WITHHOLD" for any nominee(s) by specifying the name of the nominee(s) on your proxy card. Votes that are withheld will be excluded entirely from the vote and will have no effect on the vote. Broker non-votes will also have no effect on the outcome of the election of directors.

The Board has established three standing committees, an Audit Committee (the "Audit Committee"), a Compensation Committee (the "Compensation Committee"), and a Corporate Governance and Nominating Committee (the "Governance Committee"). During Fiscal 2017, except for Doug Hickey, each director attended at least 75% of the aggregate of (1) the total number of meetings of the Board (held during the period for which he or she has been a director) and (2) the total number of meetings of all committees of the Board on which the director served (during the periods that he or she served).

Discussed below in greater detail, the Board administers its risk oversight function directly and through its Audit Committee, Corporate Governance and Nominating Committee, and Compensation Committee see risk discussion in "Compensation Discussion and Analysis". The Board and each of these Committees regularly discuss with management our major risk exposures, their potential financial impact on Plug Power and the steps we take to manage them. The Audit Committee is responsible for oversight of Company risks relating to accounting matters, financial reporting and legal and regulatory compliance, while the Corporate Governance and Nominating Committee is responsible for oversight of risks relating to management and Board succession planning. The Compensation Committee is responsible for the oversight of risks related to compensation matters.

The Chief Financial Officer and the General Counsel report to the Board regarding ongoing risk management activities at the regularly scheduled, quarterly Board meetings and may report on risk management activities more frequently, as appropriate. Additionally, risk management is a standing agenda item for the regularly scheduled, quarterly Audit Committee meetings.

Audit Committee

The Audit Committee consists of Messrs. Graves (Chair), Willis, Roth, Kenausis, and Ms. Helmer. The Audit Committee held eight meetings during Fiscal 2017 and each member attended at least 75% of the meetings during the period in which such person served on the committee.

Audit Committee Report

The Audit Committee of the Board is currently composed of five directors, each of whom is an independent director as defined in the NASDAQ Rules and the applicable rules of the Securities and Exchange Commission ("SEC"). In addition, the Board has made a determination that Mr. Graves qualifies as an "audit committee financial expert" as defined in the applicable rules of the SEC. Mr. Graves' designation by the Board as an "audit committee financial expert" is not intended to be a representation that he is an expert for any purpose as a result of such designation, nor is it intended to impose on him any duties, obligations, or liability greater than the duties, obligations or liability imposed on him as a member of the Audit Committee and the Board in the absence of such designation.

The Audit Committee's primary responsibility is for oversight of the Company's accounting and financial reporting processes, audits of the Company's financial statements, and internal control over financial reporting. A more complete description of the Audit Committee's functions is set forth in the Audit Committee's charter which is published on the "Investors" section of the Company's website at www.plugpower.com.

In accordance with the Audit Committee's charter, management has the primary responsibility for the financial statements and the financial reporting process, including maintaining an adequate system of internal controls over financial reporting. The Company's independent auditors, KPMG LLP ("KPMG"), report directly to the Audit Committee and are responsible for performing an independent

audit of the Company's consolidated financial statements and internal control over financial reporting, in accordance with the standards of the Public Company Accounting Oversight Board (United States). The Audit Committee, among other matters, is responsible for (i) appointing the Company's independent auditors, (ii) evaluating such independent auditors' qualifications, independence and performance, (iii) determining the compensation for such independent registered public accounting firm, and (iv) approving all audit and non-audit services. Additionally, the Audit Committee is responsible for oversight of the Company's accounting and financial reporting processes and audits of the Company's financial statements and internal control over financial reporting, including the work of the independent auditors. The Audit Committee reports to the Board with regard to:

the scope of the annual audits;

fees to be paid to the independent auditors;

the performance of the Company's independent auditors;

compliance with accounting and financial policies; and

the Company's procedures and policies relative to the adequacy of internal accounting controls.

The Audit Committee reviewed and discussed with management of the Company and KPMG, the Company's 2017 quarterly unaudited interim consolidated financial statements and 2017 annual consolidated financial statements, including management's assessment of the effectiveness of the Company's internal controls over financial reporting as of December 31, 2017. Management has represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles, and that the internal control over financial reporting was effective as of December 31, 2017.

Additionally, the Audit Committee has discussed with KPMG any matters required to be discussed under professional standards which include, among other items, matters related to the conduct of the audits of the Company's annual consolidated financial statements and internal control over financial reporting. The Audit Committee has also discussed related party transactions, the critical accounting policies used in the preparation of the Company's annual consolidated financial statements, alternative treatments of financial information within generally accepted accounting principles that KPMG discussed with management, if any, and the ramifications of using such alternative treatments and other written communications between KPMG and management.

KPMG has provided to the Audit Committee the written disclosures and the letter required by the applicable Public Company Accounting Oversight Board requirements for independent auditors' communications with audit committees concerning auditor independence, and the Audit Committee discussed with KPMG that firm's independence. The Audit Committee has also concluded that KPMG's performance of services is compatible with KPMG's independence.

The Audit Committee also discussed with KPMG their overall scope and plans for their audits of the consolidated financial statements and internal control over financial reporting, and met with KPMG, with and without management present, to discuss the results of their audits and the overall quality of the Company's financial reporting. The Audit Committee also discussed with KPMG whether there were any audit problems or difficulties, and management's response.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, the inclusion of audited consolidated financial

The Compensation Committee held seven meetings during Fiscal 2017. Governance Committee's responsibilities include (i) establishing criteria for Board and committee membership, (ii) considering director nominations consistent with the requirement that a majority of the Board be comprised of independent directors as defined in the NASDAQ Rules, (iii) identifying individuals qualified to become board members, and (iv) selecting the director nominees for election at each Annual Meeting of Stockholders. The Governance Committee is also responsible for developing and recommending to the Board a set of corporate governance guidelines applicable to the Company and periodically reviewing such guidelines and recommending any changes thereto. A more complete description of the Governance Committee's functions is set forth in the Governance Committee's charter which is published on the "Investors" section of the Company's website at www.plugpower.com.

Director Compensation

The Compensation Committee periodically reviews the Company's Non-Employee Director Compensation Plan (the "Plan") to ensure that the compensation aligns the directors' interests with the long-term interests of the stockholders and that the structure of the compensation is simple, transparent and easy for stockholders to understand. The Compensation Committee also considers whether the Plan fairly compensates the Company's directors when considering the work required in a company of the size and scope of the Company. Employee directors do not receive additional compensation for their services as directors.

During 2017, the Compensation Committee engaged Radford, an Aon Hewitt Company, as an independent compensation consultant to aid the Compensation Committee in its oversight of executive compensation and non-employee director compensation. See "Independent Compensation Consultant" under "Executive Compensation" for further discussion.

Pursuant to the Plan, upon initial election or appointment to the Board, non-employee directors receive non-qualified stock options equivalent to \$150,000 in value, with an exercise price equal to fair market value on the grant date, and that become fully vested and exercisable on the first anniversary of the grant date. Each year of a non-employee director's tenure, the director receives an equity grant equivalent to \$125,000 in value that is paid 50% in non-qualified stock options and 50% in restricted Common Stock. The stock option portion of the grant has an exercise price equal to fair market value on the grant date and becomes fully vested and exercisable on the first anniversary of the grant date. The restricted Common Stock grant becomes fully vested on the first anniversary of the grant date.

Under the Plan, each non-employee director is paid an annual retainer of \$40,000 (\$85,000 for any non-employee Chairman) for his or her services. Committee members receive additional annual retainers in accordance with the following table:

| Committee | Chairman | Member |
|---|-----------------|---------------|
| Audit Committee | \$ 20,000 | \$ 15,000 |
| Compensation Committee | 15,000 | 5,000 |
| Corporate Governance and Nominating Committee | 10,000 | 5,000 |

These additional payments for service on a committee are due to the workload and broad-based responsibilities of the committees. The total amount of the annual retainer is paid in a combination of 50% cash and 50% Common Stock, provided that the director may elect to receive a greater portion (up to 100%) of the total retainer in Common Stock. All Common Stock issued for the annual retainers is fully vested at the time of issuance and is valued at its fair market value on the date of issuance. Non-employee directors are also reimbursed for their direct expenses associated with their attendance at board meetings.

Edgar Filing: PLUG POWER INC - Form DEF 14A

In addition to the minimum qualifications for each nominee set forth above, the Governance Committee will recommend that the Board select persons for nomination to help ensure that:

the Board will be comprised of a majority of "independent directors" in accordance with NASDAQ rules;

each of the Audit, Compensation and Governance Committees shall be comprised entirely of independent directors;

each member of the Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement; and

at least one member of the Audit Committee has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

Finally, in addition to any other standards the Governance Committee may deem appropriate from time to time for the overall structure and composition of the Board, the Governance Committee, when recommending that the Board select persons for nomination, may consider whether the nominee has direct experience in the industry or in the markets in which the Company operates.

The Governance Committee will recommend to the Board the nomination of the director candidates who it believes will, together with the existing members of the Board and other nominees, best serve the interests of the Company and its stockholders.

Identifying and Evaluating Nominees

In considering whether to recommend any candidate for inclusion in the Board's slate of recommended director nominees, including candidates recommended by shareholders, the Company's Corporate Governance and Nominating Committee will apply the criteria set forth in our Corporate Governance Guidelines. These criteria include the candidate's integrity, business acumen, age, experience, commitment, diligence, conflicts of interest and the ability to act in the interests of all shareholders. Our Corporate Governance Guidelines specify that the value of diversity on the Board should be considered by the Corporate Governance and Nominating Committee in the director identification and nomination process. The Committee seeks nominees with a broad diversity of experience, professions, skills, geographic representation and backgrounds. The Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. The Company believes that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation package to our executive management team through a combination of base salary, annual incentive bonuses, long-term equity incentive compensation, and broad-based benefits programs. We place emphasis on pay-for-performance based incentive compensation, which is designed to reward our executives based on the achievement of predetermined performance goals. This Compensation Discussion and Analysis explains our compensation objectives, policies and practices with respect to each individual serving as our Chief Executive Officer or Chief Financial Officer during 2017 and the three most highly-compensated executive officers other than our Chief Executive Officer and Chief Financial Officer, who are collectively referred to as the "named executive officers."

In accordance with Section 14A of the Exchange Act, we are providing the Company's stockholders the opportunity to vote on a non-binding, advisory resolution to approve the compensation of our named executive officers at the 2018 Annual Meeting (See Proposal 3). The Company's stockholders were also provided this opportunity at the 2017 Annual Meeting and voted in favor of that non-binding, advisory resolution. The Compensation Committee evaluated the results of the 2017 advisory vote approving the compensation of our named executive officers as well as discussions we have had in recent years with our stockholders and the other factors discussed in this Compensation Discussion and Analysis when evaluating our executive compensation and compensation policies and practices. While each of these factors informed the Compensation Committee's decisions regarding our executive compensation program, the Compensation Committee did not implement changes to our executive compensation program as a result of the stockholder advisory vote.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

Attract and retain talented and experienced executives;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Provide a competitive compensation package which is weighted towards pay-for-performance and in which total compensation is primarily determined by Company and individual results and the creation of shareholder value;

Ensure fairness among the executive management team by recognizing the contributions each executive makes to our success; and

Motivate our executives to manage our business to meet our short- and long-term objectives and reward them for meeting these objectives.

Independent Compensation Consultant

During 2017, the Compensation Committee retained Radford, an Aon Hewitt Company, as an independent compensation consultant to provide advisory services to aid the Compensation Committee in its oversight of executive compensation. Radford did not perform any other services for the Company in 2017. The Compensation Committee provided Radford with background regarding the goals of our compensation program and the parameters of the competitive review of executive compensation packages to be conducted by Radford. Radford was instructed to benchmark all components of compensation for all executive officer positions, including base salary, bonus and equity compensation. The Compensation Committee also instructed Radford to review the public disclosure by our peer companies concerning their executive compensation models and guidelines and compare them to our actual compensation practices.

Our peer companies included the following: AeroVironment, Allied Motion Technologies, Ambarella, Ballard Power Systems, CalAmp, Clean Energy Fuels, EMCORE, FormFactor, FuelCell Energy, Inphi, InvenSense, iRobot, Maxwell Technologies, Mercury Systems, MTS Systems Corporation, Rambus, Silver Spring Networks, and Stoneridge.

Our Executive Compensation Programs

Our executive compensation primarily consists of base salary, annual incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. Consistent with the emphasis we place on pay-for-performance based incentive compensation, long-term equity incentive compensation in the form of stock options and restricted stock constitute a significant portion of our total executive compensation.

Within the context of the overall objectives of our compensation programs, our Compensation Committee determined the specific amounts of compensation to be paid to each of our executives in 2017 based on a number of factors, including:

Its review of the report provided by Radford in 2017 showing the amount of compensation paid by our peer companies to their executives with similar roles and responsibilities;

Our executives' performance during 2017 in general and as measured against predetermined performance goals;

The nature, scope and level of our executives' responsibilities;

Edgar Filing: PLUG POWER INC - Form DEF 14A

Our executives' effectiveness in leading the Company's initiatives to increase customer value, productivity and revenue growth;

The individual experience and skills of, and expected contributions from, our executives;

The executive's contribution to the Company's commitment to corporate responsibility, including the executive's success in creating a culture of unyielding integrity and compliance with applicable law and the Company's ethics policies;

The amounts of compensation being paid to our other executives;

The executive's contribution to our financial results;

Our executives' historical compensation at our Company; and

Any contractual commitments we have made to our executives regarding compensation.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation. Compensation paid to our named executive officers in 2017 is discussed under each element. In the descriptions below, we have identified particular compensation objectives which we have designed our executive compensation programs to serve; however, we have designed our compensation programs to complement each other and to collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation, each element to a greater or lesser extent serves each of our objectives.

Base Salary

We pay our executives a base salary which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Base salaries are, in part, established based on the individual experience, skills, expected contributions of our executives, and our executives' performance during the prior year.

After a review of 2016 base salaries, and in consideration of the recommendations made by Radford, we did not implement increases to the base salary of any of our named executive officers for 2017. The annual base salaries of our named executive officers for 2017 and 2016 were as follows: Mr. Marsh \$600,000; Mr. Middleton \$375,000; Mr. Schmid \$391,000; Mr. Conway \$280,000, and Mr. Crespo \$220,000. Our executives' base salaries reflect the initial base salaries that we negotiated with each of our executives at the time of his or her initial employment or promotion and our subsequent adjustments to these amounts to reflect market increases, the growth and stage of development of our Company, our executives' performance and increased experience, any changes in our executives' roles and responsibilities, and other factors. The initial base salaries that we negotiated with our executives were based on our understanding of the market at the time, the individual experience and skills of, and expected contribution from, each executive, the roles and responsibilities of the executive, the base salaries of our existing executives, and other factors.

Annual Incentive Bonuses

Our named executive officers are eligible to receive annual incentive bonuses based on our pay-for-performance incentive compensation program. They are eligible to receive annual incentive bonuses primarily based upon their performance as measured against predetermined individual performance goals, including financial measures, achievement of strategic objectives, and other factors. The primary objective of this program is to motivate and reward our named executive officers for meeting individual performance goals. We do not believe that every important aspect of executive

performance is capable of being specifically quantified in a predetermined performance goal. For example, events outside of our control may occur after we have established the named executive officers' individual performance goals for the year that require our named executive officers to focus their attention on different or other strategic initiatives; thus, the individual performance goals may be modified during the fiscal year by the President and Chief Executive Officer, or the Board in the case of the President and Chief Executive Officer himself, to account for such events.

Within our pay-for-performance incentive compensation program, specific performance attainment levels are indicated for each performance goal. These performance attainment levels correlate to potential bonus award amounts that are calculated as a percentage of each executive's base salary.

We established target and threshold attainment levels for each of our named executive officers based on a percentage of his or her base salary. For Mr. Marsh, the target and threshold levels were both set at 100% of his base salary. For Mr. Middleton and Mr. Schmid, the target and threshold levels were set at 100% and 65%, respectively, of their base salary. For Mr. Crespo, the target and threshold levels were set at 200% and 100%, respectively, of his base salary. For Mr. Conway, the target and threshold levels were set at 75% and 30%, respectively, of his base salary. Because the annual incentive bonuses are payable based on the achievement of each of several different performance goals, the executive officer may earn a bonus in an amount equal to between 0% and 100% (or 0% and 200% in the case of Mr. Crespo, and 0% and 75% in the case of Mr. Conway) of his base salary given his actual performance. If a performance goal is not met, then the executive does not earn the portion of the bonus award attributable to that objective. The threshold level for each performance goal is considered challenging for the executive to attain, and the executive would meet expectations if he achieved this level. The target attainment level is considered the maximum, or target, level for each performance goal because it is most challenging for the executive to attain, and the executive would need to exceed expectations to achieve this level. The threshold and target performance attainment levels are intended to provide for correspondingly greater or lesser incentives in the event that performance is within an appropriate range above or below the target performance attainment level.

In order to link each executive's performance to corporate-wide strategy, the executives' individual performance goals directly correlate to our corporate milestones, which are recommended by management and adopted or modified by the Board after appropriate consideration and review. The executives' individual performance goals are determined in the same way as the corporate milestones such that management reviews how each executive may contribute to the corporate milestones and recommends individual performance goals to the Board. The Board, after appropriate consideration and review, approves or modifies the individual performance goals. For 2017, the individual performance goals, as well as the corporate milestones, included (i) annual product order targets, (ii) revenue, (iii) gross margins and (iv) operating cash flows. Each performance goal is given a relative weighting for each executive such that the achievement of (or failure to achieve) certain objectives has a greater impact on the potential bonus award. For 2017, the goals were weighted as follows for Messrs. Marsh, Middleton, Schmid, and Conway: order targets 25%, revenue 25%, gross margins 25% and operating cash flows 25%. For Mr. Crespo, the goals were weighted 50% towards order targets and 50% toward revenue. Because disclosure of the specific individual performance goals would give competitors information that could be leveraged for competitive advantage, we do not disclose these specific individual performance goals or our executives' actual performance against such goals.

After completion of the fiscal year, initially the Chief Executive Officer and other members of management, as appropriate, make a recommendation to the Compensation Committee of the Board for each executive's potential bonus amount based on his level of attainment of each of his individual performance goals (with the exception of the Chief Executive Officer himself whose level of attainment is evaluated by the Compensation Committee directly). The Board, after review and discussion and

recommendation from the Compensation Committee, determines the final level of attainment for each executive's individual performance goals.

In 2017, Mr. Marsh earned a bonus of \$150,000, or 25% of his annual base salary. Mr. Middleton earned a bonus of \$93,750, or 25% of his annual base salary. Mr. Schmid earned a bonus of \$97,750, or 25% of his annual base salary. Mr. Crespo earned a bonus of \$220,000, or 100% of his annual base salary. Mr. Conway earned a bonus of \$52,500, or 18.75% of his annual base salary. Annual bonus awards made to the named executive officers in 2018 for performance in 2017 are reflected in the Non-Equity Incentive Plan Compensation column of the "Summary Compensation Table".

Long-Term Equity Incentive Compensation

We grant long-term equity incentive awards in the form of stock options and restricted stock to executives as part of our total compensation package. Consistent with our emphasis on pay-for-performance based incentive compensation, these awards represent a significant portion of total executive compensation. Based on the stage of our Company's development and the incentives we aim to provide to our executives, we have chosen to use either stock options or a combination of stock options and restricted stock as our long-term equity incentive awards. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or promotion by our Company.

Additionally, the Board adopted stock ownership guidelines for executives, including the named executive officers, and these guidelines are also considered when granting long-term equity incentive awards to executives. The ownership guidelines provide a target level of Company equity holdings with which named executive officers are expected to comply within five (5) years or the date the individual is first appointed as an executive. The target stock holdings are determined as a multiple of the named executive officer's base salary (5x for the Chief Executive Officer and 3x for the other named executive officers) and then converted to a fixed number of shares using a 200-day average stock price. The following shares count in determining compliance with the stock ownership guidelines: (i) shares owned outright by the executive or his or her immediate family members residing in the same household; (ii) shares held in the Plug Power Inc. Savings and Retirement Plan; (iii) restricted stock issued as part of an executive's annual or other bonus whether or not vested; (iv) shares acquired upon the exercise of employee stock options; (v) shares underlying unexercised employee stock options times a factor of thirty-three percent; and (vi) shares held in trust. The named executive officers who are required to be in compliance with the stock ownership guidelines are in compliance.

Stock option awards provide our executive officers with the right to purchase shares of Common Stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our Company. Stock options are earned on the basis of continued service and generally vest over three years, beginning with one-third vesting on the first anniversary of the grant date, one-third vesting on the second anniversary of the grant date and the final one-third vesting on the third anniversary of the grant date, subject to acceleration in certain circumstances. Stock option awards are made pursuant to our Second Amended and Restated 2011 Stock Option and Incentive Plan. Except as may otherwise be provided in the applicable stock option award agreement, stock option awards become fully exercisable upon a change of control. The exercise price of each stock option is the closing price of Common Stock on the NASDAQ Capital Market as of the option grant date.

Grants to new hires and grants relating to an existing executive officer's promotion may be made on a periodic basis. All grants to executive officers are approved by the Compensation Committee. We

consider a number of factors in determining the number of stock options, if any, to grant to our executives, including:

the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our named executive officers;

the vesting schedule of the unvested stock options held by our named executive officers; and

the amount and percentage of our total equity on a diluted basis held by our named executive officers.

Restricted stock awards provide our executive officers with a long-term incentive alternative to the stock option awards. Restricted stock awards vest subject to both continued employment of the executive by the Company and either time-based vesting or vesting based on satisfaction of specified performance objectives.

Broad-Based Benefits

All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental, and vision care coverage, disability insurance and life insurance, and our 401(k) plan.

Relationship of Executive Compensation to Risk

The Compensation Committee considers whether the design of the Company's executive compensation program encourages senior executives to engage in excessive risk-taking. The Compensation Committee reviews the overall program design, as well as the balance between short-term and long-term compensation, the metrics used to measure performance and the award opportunity under the Company's incentive compensation program, and the implementation of other administrative features designed to mitigate risk such as vesting requirements and stock ownership guidelines as described above. Based on its review, the Compensation Committee believes that the Company's executive compensation program is aligned to the interests of stockholders, appropriately rewards pay for performance, and does not promote unnecessary and excessive risk.

Our Executive Compensation Process

The Compensation Committee of our Board is responsible for determining the compensation for our named executive officers. The Compensation Committee is composed entirely of non-employee directors who are "independent" as that term is defined in the applicable NASDAQ rules. In determining executive compensation, our Compensation Committee annually reviews the performance of our executives with our Chief Executive Officer, and our Chief Executive Officer makes recommendations to our Compensation Committee with respect to the appropriate base salary, annual incentive bonuses and performance measures, and grants of long-term equity incentive awards for each of our executives. The Chairman of the Compensation Committee makes recommendations to the Compensation Committee with regards to the Chief Executive Officer's compensation. The Compensation Committee makes its determination regarding executive compensation and then recommends such determination to the Board. The Board ultimately approves executive compensation.

As a result, the total amount of compensation that we paid to our executives, the types of executive compensation programs we maintained, and the amount of compensation paid to our executives under each program has been determined by our Compensation Committee and Board based on their understanding of the market, experience in making these types of decisions, and judgment regarding the appropriate amounts and types of executive compensation to provide.

Compensation Committee Report

The following Report of the Compensation Committee of the Board of Directors on Executive Compensation will not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any of the Company's filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and will not otherwise be deemed filed under such Acts.

The Compensation Committee reviews and evaluates individual executive officers and determines the compensation for each executive officer (See "*Executive Compensation*"). The Compensation Committee also oversees management's decisions concerning the performance and compensation of other Company officers, administers the Company's incentive compensation and other stock-based plans, evaluates the effectiveness of its overall compensation programs, including oversight of the Company's benefit, perquisite and employee equity programs, and reviews the Company's management succession plans. A more complete description of the Compensation Committee's functions is set forth in the Compensation Committee's charter which is published on the "Investors" section of the Company's website at www.plugpower.com. Each member of the Compensation Committee is an independent director as defined in the NASDAQ Rules.

In general, the Compensation Committee designs compensation to attract, retain and motivate a superior executive team, reward individual performance, relate compensation to Company goals and objectives and align the interests of the executive officers with those of the Company's stockholders. We rely upon our judgment about each individual and not on rigid guidelines or formulas, or short-term changes in business performance in determining the amount and mix of compensation elements for each senior executive officer. Key factors affecting our judgments include: the executive's performance compared to the goals and objectives established for the executive at the beginning of the year; the nature, scope and level of the executive's responsibilities; the executive's contribution to the Company's financial results; the executive's effectiveness in leading the Company's initiatives to increase customer value, productivity and revenue growth; and the executive's contribution to the Company's commitment to corporate responsibility, including the executive's success in creating a culture of unyielding integrity and compliance with applicable law and the Company's ethics policies.

The Compensation Committee has reviewed the Compensation Discussion and Analysis and discussed that analysis with Management. Based on its review and discussions with Management, the Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 and the Company's proxy statement relating to the Company's 2018 annual meeting of stockholders. This report on executive compensation for is provided by the undersigned members of the Compensation Committee of the Board of Directors.

Pay Ratio Disclosure Rule. Pursuant to a mandate of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), the SEC adopted a rule requiring annual disclosure of the ratio of the median employee's annual total compensation to the total annual compensation of the principal executive officer ("PEO"). The PEO of our Company is Mr. Marsh.

We believe that our compensation philosophy must be consistent and internally equitable to motivate our employees to create shareholder value. The purpose of the new required disclosure is to provide a measure of the equitability of pay within the organization. We are committed to internal pay equity, and our Compensation Committee monitors the relationship between the pay our PEO receives and the pay our non-executive employees receive.

For 2017, the annual total compensation of Mr. Marsh, our PEO, of \$3,130,100 as shown in the Summary Compensation Table above, was approximately 56 times the annual total compensation of \$56,282 of a median employee calculated in the same manner. We identified the median employee using the amount reported as compensation on the employee's Form W-2 for the year ended December 31, 2017 for all individuals who were employed by us on December 31, 2017, the last day of our payroll year (whether employed on a full-time, part-time, or seasonal basis).

Employment Agreements

The Company and Mr. Marsh are parties to an employment agreement which renews automatically for successive one-year terms unless Mr. Marsh or the Company gives notice to the contrary. Mr. Marsh receives an annual base salary of \$600,000 and is eligible to: (i) receive an annual incentive bonus of up to an amount equal to one hundred percent (100%) of his annual base salary; (ii) participate in all savings and retirement plans; and (iii) participate in all benefit and executive perquisites. Mr. Marsh's employment may be terminated by the Company with or without "Cause," as defined in the agreement, or by Mr. Marsh for "Good Reason," as defined in the agreement and includes a material negative change in his compensation or responsibilities or a material change to his current geographic work location, or without "Good Reason" upon written notice of termination to the Company. If Mr. Marsh's employment is terminated by the Company for any reason other than Cause, death or disability, or in the event that Mr. Marsh terminates his employment with the Company and is able to establish "Good Reason," the Company is obligated to pay Mr. Marsh the sum of the following amounts:

- (a) one (1) times annual base salary and
- (b) one (1) times the annual incentive bonus for the immediately preceding fiscal year.

In addition, as of the date of termination, any restricted stock, stock options and other stock awards held by Mr. Marsh will accelerate vesting as if he had remained an employee for an additional twelve (12) months following the date of termination. Further, the Company is required to continue paying for health insurance and other benefits for Mr. Marsh and his eligible family members for twelve (12) months following his termination. The agreement also provides, among other things, that if, within twelve (12) months after a "Change of Control," as defined in the agreement, the Company terminates Mr. Marsh's employment without Cause, then he is be entitled to:

- (i) receive a lump sum payment equal to three (3) times the sum of (1) his current annual base salary plus (2) his average annual incentive bonus over the three (3) fiscal years prior to the Change of Control (or his annual incentive bonus for the fiscal year immediately preceding to the Change of Control, if higher),
- (ii) accelerated vesting of his stock options and other stock-based awards that would have vested had he remained an active employee for twelve (12) months following his termination, and

Edgar Filing: PLUG POWER INC - Form DEF 14A

(iii) receive benefits, including health and life insurance for twelve (12) months following the Change of Control.

The Company and Messrs. Middleton, Schmid, Conway, and Crespo are parties to Executive Employment Agreements pursuant to which if any of their employment is terminated by the Company for any reason other than "Cause," as defined in the agreement, death or disability, or in the event that any terminates his employment with the Company and is able to establish "Good Reason," as defined in the agreement and includes a material negative change in his compensation or responsibilities or a material change to his current geographic work location, the Company is obligated to pay each an amount equal to his annual base salary. In addition, as of the date of termination, any restricted stock, stock options and other stock awards held by each will accelerate vesting as if he had remained an employee for an additional twelve (12) months following the date of termination. Further, the Company is required to continue paying for a portion of health insurance for each and his eligible family members for twelve (12) months following his termination.

In addition, Messrs. Middleton, Schmid, Conway and Crespo are entitled to exercise any vested stock options for twelve (12) months following the date of termination and the Company is required to continue paying health insurance and other benefits to each and his eligible family members for twelve (12) months following his termination. The Executive Employment Agreements also provide, among other things, that if, within twelve (12) months after a "Change of Control," as defined in the agreement, the Company terminates such executive's employment without Cause, then such executive shall be entitled to:

- (i) receive a lump sum payment equal to the sum of (1) his average annual base salary over the three (3) fiscal years immediately prior to the Change of Control (or the executive's annual base salary in effect immediately prior to the Change of Control, if higher) and (2) his average annual bonus over the three (3) fiscal years prior to the Change of Control (or the executive's annual bonus in effect immediately prior to the Change of Control, if higher),
- (ii) accelerated vesting of his stock options and other stock-based awards that would have vested had he remained an active employee for twelve (12) months following his termination, and
- (iii) receive benefits, including health and life insurance for twelve (12) months following the Change of Control.

The Company and Messrs. Marsh, Middleton, Schmid, Conway and Crespo are parties to employment agreements, respectively, that provide for a potential payment upon termination of employment other than for "Cause" as discussed above in *Employment Agreements*.

Such payments by the Company to any of the executives are subject to the executive signing a general release of claims in a form and manner satisfactory to the Company. An executive is not entitled to receive any such payment in the event he breaches the Employee Patent, Confidential Information and Non-Compete Agreement referenced in the executive's respective agreement or any non-compete, non-solicit or non-disclosure covenants in any agreement between the Company and such executive. We agreed to provide severance payments to such executives in these circumstances based on our negotiations with each of our executives at the time they joined our Company, or as negotiated subsequent to hiring, and in order to provide a total compensation package that we believed to be competitive. Additionally, we believe that providing severance upon a termination without cause can help to encourage our executives to take the risks that we believe are necessary for our Company to succeed and also recognizes the longer hiring process typically involved in hiring a senior executive.

If Mr. Marsh had been terminated without cause on December 31, 2017, the approximate value of the severance package, including, as mentioned above in *Employment Agreements*, salary, benefits and equity awards, under his employment agreement would have been \$1,245,915. If Mr. Middleton, Mr. Schmid, Mr. Conway, or Mr. Crespo had been terminated without cause on December 31, 2017,

the approximate value of the severance packages, including, as mentioned above in *Employment Agreements*, salary, benefits and equity awards, under the employment agreement for such named executive would have been: Mr. Middleton \$700,846, Mr. Schmid \$722,436, Mr. Conway \$469,365, and Mr. Crespo \$744,436.

The Company and Messrs. Marsh, Middleton, Schmid, Conway, and Crespo are parties to employment agreements, respectively, that provide for a potential payment upon a "Change of Control," as discussed above in *Employment Agreements*. Such payments by the Company to any of the executives are subject to the executive signing a general release of claims in a form and manner satisfactory to the Company. An executive is not entitled to receive any such payment in the event he breaches the Employee Patent, Confidential Information and Non-Compete Agreement referenced in the executive's respective agreement or any non-compete, non-solicit or non-disclosure covenants in any agreement between the Company and such executive.

We agreed to provide payments to these executives in these circumstances in order to provide a total compensation package that we believed to be competitive. Additionally, the primary purpose of our equity-based incentive awards is to align the interests of our executives and our stockholders and provide our executives with strong incentives to increase stockholder value over time. As change of control transactions typically represent events where our stockholders are realizing the value of their equity interests in our Company, we believe it is appropriate for our executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change of control transaction. We believe that this will also help to better align the interests of our executives with our stockholders in pursuing and engaging in these transactions.

If a change of control had occurred on December 31, 2017 and on that date Mr. Marsh, Mr. Middleton, Mr. Schmid, Mr. Conway, or Mr. Crespo had been terminated without Cause, experienced a material negative change in his compensation or responsibilities or experienced a material change to his current geographic work location, the value of the change of control payments and benefits under the employment agreements for each such named executive would have been as follows: Mr. Marsh \$3,011,300, Mr. Middleton \$679,211, Mr. Schmid \$699,878, Mr. Conway \$453,211 and Mr. Crespo \$731,347. The employment agreements provide for a modified cutback of the payments in the event that the total value of all change of control benefits exceed the maximum benefit that allows for a tax deduction for the Company under Section 280G of the Internal Revenue Code of 1986, as amended. The foregoing numbers do not reflect any cutback.

PROPOSAL 2: APPROVAL OF THE RESTRICTED STOCK ISSUANCE

Background Information

On July 20, 2017, the Company and Walmart, Inc. ("Walmart") entered into a Transaction Agreement (the "Transaction Agreement"), pursuant to which the Company agreed to issue to Walmart a warrant (the "Warrant") to acquire up to 55,286,696 shares (the "Warrant Shares") of Common Stock, subject to certain vesting events described below and adjustment in certain cases. The Company and Walmart entered into the Transaction Agreement in connection with existing commercial agreements, and certain amendments thereto for the benefit of the Company, between the Company and Walmart with respect to the deployment of the Company's GenKey fuel cell technology at Walmart distribution centers. The existing commercial agreements contemplate future purchase orders for the Company's fuel cell technology. The vesting of the Warrant, described below, is linked to payments made by Walmart or its affiliates (directly or indirectly through third parties) pursuant to the existing commercial agreements. The Board believes that the transactions contemplated by the Warrant and the Transaction Agreement (together, the "Walmart Investment Documents") help to align the Company's and Walmart's interests in the context of the parties' commercial relationship and will result in significant benefits to the Company and its stockholders over the long-term. Walmart has historically been one of the Company's largest customers.

The Warrant Shares will vest based on Walmart's payment of up to \$600 million to the Company in connection with existing commercial agreements or other qualified Walmart purchases of hardware, services and fuel from the Company. The first tranche of 5,819,652 Warrant Shares vested upon the execution of the Warrant and other transaction documents. The second tranche of 29,098,260 Warrant Shares will vest in four installments of 7,274,565 Warrant Shares each time Walmart or its affiliates, directly or indirectly through third parties, make aggregate payments of \$50 million to the Company, up to a total of \$200 million in payments. The exercise price for the first and second tranches of Warrant Shares is \$2.1231 per share. After Walmart has made payments to the Company totaling \$200 million, the third tranche of 20,368,784 Warrant Shares will vest in eight installments of 2,546,098 Warrant Shares each time Walmart or its affiliates, directly or indirectly through third parties, make aggregate payments of \$50 million to the Company, up to a total of \$400 million in payments. The exercise price per share of the third tranche of Warrant Shares will be an amount equal to ninety percent (90%) of the 30-day volume weighted average share price of the Common Stock (the "30-Day VWAP") as of the final vesting date of the second tranche of Warrant Shares; provided that, with limited exceptions, the exercise price for the third tranche will be no less than \$1.1893. The Warrant is exercisable through July 20, 2027. The exercise price and the Warrant Shares issuable upon exercise of the Warrant are subject to customary anti-dilution adjustments.

A more detailed discussion of the Walmart Investment Documents is provided below under the heading "The Walmart Investment Documents." The Transaction Agreement and the Warrant are attached as exhibits to the Company's current report on Form 8-K filed with the SEC on July 21, 2017.

The Warrant may be exercisable for up to 55,286,696 shares of the Common Stock, representing approximately 24.6% of the 224,750,472 shares of the Common Stock issued and outstanding on July 20, 2017. As a result, the issuance of the Warrant and the exercise thereof may result in Walmart owning more than 20% of the Common Stock or voting power outstanding immediately prior to the Company entering into the Walmart Investment Documents (the "NASDAQ Share Limitation"). Further, the exercise price of \$2.1231 per share for the first and second tranches of Warrant Shares is less than the \$2.13 closing bid price per share of the Common Stock on July 19, 2017, the trading day preceding the execution of the Walmart Investment Documents. To the extent any exercise of the Warrant would result in the issuance of shares of Common Stock equal to or in excess of the NASDAQ Share Limitation for less than the greater of the book value of the Common Stock and the market

Edgar Filing: PLUG POWER INC - Form DEF 14A

value of the Common Stock, such issuance is subject to the prior approval of our stockholders as required under the listing rules of the NASDAQ Capital Market (the "Restricted Stock Issuance").

Pursuant to the Transaction Agreement, the Company is required to seek stockholders approval of the Restricted Stock Issuance at the Annual Meeting, and in the event such approval is not obtained at the Annual Meeting, the Company is required to seek such approval at a meeting of the stockholders at least once each calendar year and within thirteen months of the previous meeting of the stockholders at which such approval was sought until approval is obtained or the Warrant is no longer outstanding.

The Walmart Investment Documents

The following is a summary of the key terms of the Walmart Investment Documents:

Transaction Agreement

The Transaction Agreement sets forth certain governance arrangements and provisions relating to Walmart's equity interest in the Company.

The Transaction Agreement includes customary representations and warranties of the Company, including representations and warranties relating to the following:

the organization and authority of the Company and its subsidiaries;

the Company's capital structure;

due authorization and enforceability of the Warrant, the Transaction Agreement and the other agreements with Walmart;

the absence of conflicts with, or violations of, organizational documents, other contracts and applicable laws;

required regulatory filings and approvals of governmental entities;

documents filed with the SEC and financial statements;

internal controls and disclosure controls and procedures;

the absence of a material adverse effect;

the absence of certain litigation and liabilities;

the inapplicability of anti-takeover statutes or provisions in the Company's organizational documents;

the disclosure of related party transactions; and

broker's fees payable in connection with the transactions.

The Transaction Agreement includes customary representations and warranties of Walmart, including those relating to the organization and authority of Walmart, the due authorization and enforceability of the agreements with the Company, the absence of conflicts with, or violations

Edgar Filing: PLUG POWER INC - Form DEF 14A

of, organizational documents, other contracts and applicable laws, required regulatory filings and approvals of governmental entities, Walmart's lack of ownership of our Common Stock or securities representing rights to acquire our Common Stock and broker's fees payable in connection with the transactions.

Edgar Filing: PLUG POWER INC - Form DEF 14A

The Transaction Agreement includes customary covenants and agreements between the Company and Walmart, including, but not limited to, covenants relating to:

the Company not taking any action that would cause the transactions to be subject to anti-takeover provisions or any shareholder rights plan;

the efforts required by the parties to obtain any required regulatory approvals;

cooperation between the Company and Walmart in connection with public announcements;

unless otherwise provided, the responsibility of each party to bear and pay costs and expenses incurred by it in connection with the transactions; and

compliance with applicable securities laws.

The Transaction Agreement requires that the Company seek stockholder approval of the Restricted Stock Issuance at the Annual Meeting. The Company has agreed to use reasonable best efforts to obtain stockholder approval of the Restricted Stock Issuance at the Annual Meeting.

The Transaction Agreement contains certain restrictions on Walmart's ability to transfer the Warrant and the Warrant Shares. Other than Permitted Transfers (as defined below), Walmart may not transfer (i) the Warrant, (ii) any Warrant Shares to a person that owns more than 10% of the outstanding Common Stock (other than transfers of Warrant Shares in an open market sale of Common Stock or pursuant to an underwritten offering), or (iii) Warrant Shares that represent greater than 10% of the outstanding Common Stock in a single transaction (other than transfers of Warrant Shares in an open market sale of Common Stock or pursuant to an underwritten offering). For purposes of the Transaction Agreement, the term "Permitted Transfer" means transfers (1) to a wholly owned subsidiary that executes a joinder to the Transaction Agreement, (2) in connection with certain acquisition transactions approved by the Board, (3) required by, or reasonably necessary, in order for Walmart to obtain governmental approval for an acquisition, (4) in connection with certain acquisitions of persons that already hold equity securities of the Company or (5) required under applicable law.

The Transaction Agreement contains certain customary standstill restrictions that remain in effect during the period from the execution of the Transaction Agreement until such time as Walmart and its affiliates beneficially own less than ten percent (10%) of the outstanding shares of Common Stock (the "Standstill Period"). Among other things, the standstill restrictions prohibit Walmart, during the Standstill Period, from:

acquiring equity securities, derivative instruments, or debt securities of the Company other than (i) pursuant to the Warrant Shares acquired in accordance with the Transaction Agreement, (ii) as a result of a stock split, stock dividend or distribution, other subdivision, reorganization, reclassification or similar capital transaction involving equity securities of the Company or (iii) by a transfer of the Warrant to Wal-Mart or a wholly owned subsidiary of Wal-Mart;

engaging in a proxy solicitation with respect to the Company;

calling or seeking to call a meeting of Company stockholders or initiating any stockholder proposal;

nominating or seeking to nominate any person to the Board;

depositing voting securities of the Company into a voting trust or entering into a voting agreement or granting a proxy to any other person;

announcing, entering into, or proposing a merger, business combination, recapitalization, restructuring, change in control transaction or other similar extraordinary transaction involving the Company or any of its subsidiaries other than as set forth

in the Transaction Agreement;

Edgar Filing: PLUG POWER INC - Form DEF 14A

either alone or in concert with others, seeking to control or influence the management or the policies of the Company (other than through the appointment of a Walmart designee);

taking actions that would reasonably be expected to require the Company to make public disclosure of any of the events listed above;

advising or knowingly assisting or encouraging or entering into any discussions, negotiations or arrangements with any other persons in connection with the foregoing;

forming, joining or in any way participating in a group (other than a group consisting solely of Walmart and/or any of its affiliates) with respect to any voting securities of the Company; or

publicly disclosing any intention, plan or proposal with respect to any of the foregoing.

Notwithstanding the standstill restrictions, Walmart is not prohibited from making one or more confidential proposals to the Company or the Board regarding an acquisition of the Company. In addition, the standstill restrictions terminate upon the public announcement by the Company that it has entered into a definitive agreement regarding an acquisition of the Company or upon the commencement of certain tender or exchange offers.

During the Standstill Period, Walmart and its affiliates may vote their shares of Common Stock for which they are entitled to vote, up to 14.9% of the outstanding shares of Common Stock, in their sole and absolute discretion, provided that Walmart and its affiliates are required to vote all of their shares of Common Stock for which they are entitled to vote in excess of 14.9% of the outstanding shares of Common Stock in accordance with the recommendation of the Board. Walmart has granted the Company, including our Chief Executive Officer and Chairman of the Board, a proxy to vote its shares of the Common Stock in the manner described above. The proxy is irrevocable during the term of the Transaction Agreement.

The Transaction Agreement obligates both the Company and Walmart, as promptly as reasonably practicable after written notice from Walmart, to file the appropriate notices and take such action as may be required to comply with the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the "HSR Act").

The Transaction Agreement also contains certain registration right provisions. Under the Transaction Agreement, Walmart has up to three (3) demand registration rights, shelf registration rights and piggyback registration rights.

The Transaction Agreement may be terminated with the consent of both the Company and Walmart, or by Walmart unilaterally in the event that (1) clearance under the HSR Act (if required) is not obtained within six months of filing or (2) stockholder approval of the Restricted Stock Issuance is not obtained at the Annual Meeting. If Walmart elects to terminate the Transaction Agreement as a result of the failure of the stockholders to approve the Restricted Stock Issuance at the Annual Meeting, Walmart must give prior written notice of such termination not later than the 90th day after the date of the Annual Meeting (or the date to which such meeting is postponed or adjourned). In the event of the termination of the Transaction Agreement, Walmart would retain the Warrant, which would be exercisable with respect to all Warrant Shares vested as of such time, and no further Warrant Shares would vest. Any purchases made by Walmart under the existing commercial agreements or otherwise after the termination of the Transaction Agreement would not result in the vesting of additional Warrant Shares. Walmart and its affiliates have no obligation to make purchases under the existing commercial agreements and may terminate the existing commercial agreements at any time to the extent permitted by and in accordance with their terms.

Warrant

Pursuant to the Transaction Agreement, on July 20, 2017 the Company issued the Warrant to Walmart. If fully vested, the Warrant is exercisable for up to 55,286,696 shares of the Common Stock, subject to adjustment in certain cases. The Warrant Shares will vest based on Walmart's payment of up to \$600 million to the Company in connection with existing commercial agreements or other qualified Walmart purchases of hardware, services and fuel from the Company. The first tranche of 5,819,652 Warrant Shares vested upon the execution of the Warrant and the other transaction documents. The second tranche of 29,098,260 Warrant Shares will vest in four installments of 7,274,565 Warrant Shares each time Walmart or its affiliates, directly or indirectly through third parties, make aggregate payments of \$50 million to the Company, up to a total of \$200 million in payments. The exercise price for the first and second tranches of Warrant Shares is \$2.1231 per share. After Walmart has made payments to the Company totaling \$200 million, the third tranche of 20,368,784 Warrant Shares will vest in eight installments of 2,546,098 Warrant Shares each time Walmart or its affiliates, directly or indirectly through third parties, make aggregate payments of \$50 million to the Company, up to a total of \$400 million in payments. The exercise price per share of the third tranche of Warrant Shares will be an amount equal to ninety percent (90%) of the 30-Day VWAP as of the final vesting date of the second tranche of Warrant Shares; provided that, with limited exceptions, the exercise price for the third tranche will be no less than \$1.1893. The Warrant is exercisable through July 20, 2027.

The Warrant may be exercised by payment of the exercise price in cash or, without payment of cash, by reducing the number of Warrant Shares obtainable upon the exercise of the Warrant so as to yield a number of Warrant Shares obtainable upon such exercise (rounded to the nearest whole Warrant Share) equal to the product of (x) the number of Warrant Shares otherwise issuable upon such exercise (either in full or in part) and (y) a fraction, the numerator of which is the excess of (1) the 30-Day VWAP immediately preceding the exercise date over (2) the exercise price, and the denominator of which is the 30-Day VWAP immediately preceding such exercise date.

The Warrant may be transferred only to an affiliate of Walmart. Subject to certain exceptions, the exercise price and the number of Warrant Shares issuable upon exercise of the Warrant are subject to adjustment as a result of stock splits, reclassifications or combinations involving Common Stock or the issuance of shares of Common Stock or other securities or rights exercisable or convertible into or exchangeable for shares of Common Stock, without consideration or at a consideration per share (or having a conversion price per share) that is less than 100% of the market price of Common Stock immediately prior to the date of the agreement of pricing of such shares (or of such convertible securities). Subject to certain exceptions, the exercise price and the number of Warrant Shares issuable upon exercise of the Warrant are also subject to adjustment in connection with dividends or other distributions by the Company on shares of Common Stock and repurchases by the Company of outstanding Common Stock. A Permitted Repurchase (as defined below) does not result in such an adjustment. A "Permitted Repurchase" is defined as (a) a repurchase of shares in one or more "Dutch Auction" tender offers at a price no greater than 5% above the fair market value of the shares; (b) a purchase of equity interests of the Company pursuant to and in compliance with Rule 10b-18 under the Exchange Act (provided that, all equity interests repurchased under clauses (a) and (b) shall not exceed, in the aggregate and on an as-converted basis with respect to convertible securities, 5,736,311 shares of Common Stock, subject to adjustment for stock splits and reverse stock splits); (c) one or more purchases of shares of Series C Preferred Stock, pursuant to and in the amounts and at the price specified in the Certificate of Designations of the Series C Preferred Stock; and (d) one or more purchases of Common Stock in connection with the net exercise of options, or the payments of tax withholding with respect to the Company's equity awards, issued under the Company's equity incentive plans.

Upon the consummation of a Change of Control Transaction (as defined below) prior to the vesting of at least 60% of the aggregate Warrant Shares, the Warrant will automatically vest and

become exercisable with respect to an additional number of Warrant Shares such that 60% of the aggregate Warrant Shares shall have vested; provided that either (i) such Change of Control Transaction occurs after July 20, 2019 and Walmart has installed the Company's fuel cell technology at no fewer than fifteen (15) Walmart sites prior to such date, or (ii) such Change of Control Transaction occurs prior to July 20, 2019. If a Change of Control Transaction is consummated after the vesting of at least 60% of the aggregate Warrant Shares, then no acceleration of vesting will occur with respect to any of the unvested Warrant Shares as a result of the transaction. A "Change of Control Transaction" is defined generally as (a) a transaction in which a person or group becomes the beneficial owner, directly or indirectly, of 50% or more of the outstanding equity interests of the Company; (b) with certain exceptions, a transaction in which the stockholders immediately prior to such transaction cease to beneficially own, directly or indirectly, at least 50% of the outstanding equity of the Company; (c) a Business Combination (as defined below) as a result of which at least 50% ownership of the Company is transferred to another person or group; (d) individuals who constitute the Continuing Directors (as defined below) of the Company, taken together, ceasing for any reason to constitute at least a majority of the Board; or (e) any sale, lease, exchange, license, transfer or disposition of 50% or more of the consolidated assets, business, revenues, net income, or deposits of the Company. A "Business Combination" is defined as a merger, consolidation, statutory share exchange, reorganization, recapitalization or similar extraordinary transaction involving the Company. "Continuing Directors" are defined as the directors of the Company as of July 20, 2017 and each other director, if, in each case, such other director's nomination for election to the Board is recommended by more than 50% of the Continuing Directors or more than 50% of the members of the Nominating and Governance Committee of the Board who are Continuing Directors.

Walmart is prohibited from exercising any portion of the Warrant to the extent that, as a result of any such exercise, the warrant holder would beneficially own more than 4.999% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock upon exercise of such portion of the Warrant. The terms of the Warrant provide that this 4.999% beneficial ownership limitation may be increased by the holder thereof upon written notice to the Company, which notice will not be effective until the 61st day after such notice is given.

Summary of the Proposal

The Board is seeking approval of the Restricted Stock Issuance in order to comply with NASDAQ Listing Rule 5635(d) and recommends that the stockholders approve the Restricted Stock Issuance.

As a company listed on the NASDAQ Market, the Company is subject to NASDAQ Listing Rule 5635(d), which requires stockholder approval prior to any issuance or sale of Common Stock, or securities convertible into or exercisable for Common Stock, in a transaction other than a public offering in an amount that equals or exceeds 20% of the Common Stock or voting power outstanding immediately prior to such issuance if such securities are issued or sold for less than the greater of their book or market value. The NASDAQ rules define "market value" as the consolidated closing bid price immediately preceding the entering into of the binding agreement to issue the securities.

As described above, the issuance of the Warrant Shares subject to the Warrant may result in Walmart owning more than 20% of outstanding shares of Common Stock immediately prior to the Company's entry into the Walmart Investment Documents. Stockholder approval is required under NASDAQ Listing Rule 5635(d) because the number of Warrant Shares subject to the Warrant exceeds 20% of the outstanding shares of Common Stock on the date the Warrant was issued and the exercise price for the first two tranches of Warrant Shares, \$2.1231 per share, was less than the closing bid price of the Common Stock on July 19, 2017, the day immediately prior to the date of the Transaction Agreement and the date the Warrant was issued. The exercise price per share of the third tranche of Warrant Shares will be an amount equal to ninety percent (90%) of the 30-Day VWAP as of the final

vesting date of the second tranche of Warrant Shares and may be less than the closing bid price of the Common Stock on July 19, 2017.

To comply with NASDAQ Listing Rule 5635(d), the Company is seeking stockholder approval for the Restricted Stock Issuance, which would result in Walmart owning more than the NASDAQ Share Limitation (i.e., more than 20% of the outstanding shares of Common Stock as of July 20, 2017, the date of execution of the Walmart Investment Documents).

Vote Required for Approval

A quorum being present, approval of the Restricted Stock Issuance requires the affirmative vote of the holders of a majority in voting power of the shares of Common Stock and Series C Preferred Stock, voting together as a single class, present in person or represented by proxy at the Annual Meeting and entitled to vote on such proposal. As of the close of business on the Record Date, our directors and executive officers and their affiliates beneficially owned 8,949,833 shares of Common Stock, or approximately 3.9% of the shares of Common Stock outstanding as of such date, of which 2,627,181 are shares of Common Stock, or approximately 1.1% of the shares of Common Stock outstanding as of such date, and the balance of which are options. We currently expect that our directors and executive officers will vote their shares that are entitled to vote in favor of the Restricted Stock Issuance.

Impact of Failure to Approve the Proposal

If the Restricted Stock Issuance is not approved by stockholders, then the Warrant will be exercisable for, and the Company will be permitted to issue, only up to 44,725,343 Warrant Shares, representing 19.9% of the outstanding shares of Common Stock as of the close of business on July 20, 2017. The Company will not have authority to issue more than 44,725,343 Warrant Shares until such time, if any, as the stockholders approve the Restricted Stock Issuance.

If the stockholders do not approve the Restricted Stock Issuance, Walmart will have the right to terminate the Transaction Agreement as described above, in which case Walmart would retain the Warrant, which would be exercisable with respect to all Warrant Shares vested as of such time, and no further Warrant Shares would vest. Any purchases made by Walmart under the existing commercial agreements or otherwise after the termination of the Transaction Agreement would not result in the vesting of additional Warrant Shares. Walmart and its affiliates have no obligation to make purchases under the existing commercial agreements and may terminate the existing commercial agreements at any time to the extent permitted by and in accordance with their terms.

If the stockholders do not approve the Restricted Stock Issuance and Walmart does not exercise its right to terminate the Transaction Agreement, payments made by Walmart and its affiliates to the Company under the existing commercial agreements may result in the vesting of all 55,286,696 Warrant Shares but the Company will be permitted to issue no more than 44,725,343 Warrant Shares until such time, if any, as the stockholders approve the Restricted Stock Issuance.

Recommendation of the Board

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL OF THE RESTRICTED STOCK ISSUANCE.

PROPOSAL 3: ADVISORY VOTE ON EXECUTIVE COMPENSATION

Overview

In accordance with Section 14A of the Exchange Act, we are providing our stockholders with the opportunity to vote on a non-binding, advisory resolution to approve the compensation of our Named Executive Officers, which is described in the section titled "Compensation Discussion and Analysis" in this Proxy Statement. Accordingly, the following resolution will be submitted for a stockholder vote at the Annual Meeting:

"RESOLVED, that the stockholders of Plug Power Inc. (the "Company") approve, on an advisory basis, the overall compensation of the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, in the Compensation Discussion and Analysis section, compensation tables and narrative discussion set forth in the Proxy Statement for this Annual Meeting."

As described in the section titled "Compensation Discussion and Analysis," our executive compensation program is designed to (1) attract and retain talented and experienced executives, (2) motivate and reward executives whose knowledge, skills and performance are critical to our success, (3) provide a competitive compensation package which is weighted towards pay-for-performance and in which total compensation is primarily determined by Company and individual results and the creation of shareholder value, (4) ensure fairness among the executive management team by recognizing the contributions each executive makes to our success, and (5) motivate our executives to manage our business to meet our short- and long-term objectives and reward them for meeting these objectives. In order to align executive compensation with the interests of our stockholders, an important portion of compensation for our Named Executive Officers is "at risk," or contingent upon the successful achievement of annual as well as long-term strategic corporate goals that we believe will drive stockholder value. Stockholders are urged to read the Compensation Discussion and Analysis section of this Proxy Statement, which more thoroughly discusses how our compensation policies and procedures implement our compensation philosophy and objectives. The Compensation Committee and the Board believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving its objectives.

This vote is only advisory and will not be binding upon the Company or the Board. However, the Board values constructive dialogue on executive compensation and other important governance topics with the Company's stockholders and encourages all stockholders to vote their shares on this matter.

Vote Required for Approval

A quorum being present, the affirmative vote of a majority in voting power of the shares of Common Stock and Series C Preferred Stock, voting together as a single class, present in person or represented by proxy at the Annual Meeting and entitled to vote on such proposal is required to approve this resolution. Even though this vote will neither be binding on the Company or the Board nor will it create or imply any change in the fiduciary duties of, or impose any additional fiduciary duty on, the Company or the Board, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation decisions.

Recommendation of the Board

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL OF THE OVERALL COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS.

UNLESS OTHERWISE INSTRUCTED, PROXIES SOLICITED BY THE BOARD WILL BE VOTED "FOR" THIS RESOLUTION.

PROPOSAL 4: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Introduction

The Audit Committee of the Board has appointed the firm of KPMG LLP, to serve as independent auditors of the Company for 2018. KPMG LLP has served as the Company's independent auditors since December 3, 2001. The Audit Committee reviewed and discussed its selection of, and the performance of, KPMG LLP for 2017. As a matter of good corporate governance, the Audit Committee has determined to submit its selection to stockholders for ratification. If the selection of the independent auditors is ratified, the Audit Committee in its discretion may select different independent auditors at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The Audit Committee has implemented procedures under the Company's Audit Committee pre-approval policy for audit and non-audit services (the "Pre-Approval Policy") to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of KPMG LLP for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by KPMG LLP. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit Committee. For additional information concerning the Audit Committee and its activities with KPMG LLP, see "Committees and Meetings of the Board of Directors" and "Audit Committee Report" above.

Representatives of KPMG LLP attended all eight meetings of the Audit Committee in-person in 2017. We expect that a representative of KPMG LLP will attend the Annual Meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.

Vote Required for Approval

A quorum being present, the affirmative vote of a majority in voting power of the shares of Common Stock and Series C Preferred Stock, voting together as a single class, present in person or represented by proxy at the Annual Meeting and entitled to vote on such proposal is required for the ratification of KPMG LLP as the Company's independent auditors for 2018.

Recommendation of the Board

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE RATIFICATION OF KPMG LLP AS PLUG POWER INC.'S INDEPENDENT AUDITORS FOR 2018.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Board has adopted a related party transaction policy that requires the Company's General Counsel, together with outside counsel as necessary, to evaluate potential transactions between the Company and any related party prior to entering into any such transaction. Certain related party transactions may require the approval of the Board and its Audit Committee. The policy defines a "related party" as: (i) the Company's directors or executive officers, (ii) the Company's director nominees, (iii) security holders known to the Company to beneficially own more than 5% of any class of the Company's voting securities, or (iv) the immediate family members of any of the persons listed in items (i) (iii). A person's "immediate family" includes such person's child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law or any other person (other than a tenant or employee) sharing the household of such person.

Other than as otherwise disclosed herein, since January 1, 2017, the Company has not entered into, and there is not currently proposed, any transactions or series of similar transactions involving an amount in excess of \$120,000 in which any related party had or will have a direct or indirect material interest.

The number of shares beneficially owned by each stockholder is determined under rules promulgated by the SEC and includes voting or investment power with respect to securities. Under Rule 13d-3 under the Exchange Act, beneficial ownership includes any shares to which the individual or entity has sole or shared voting power or investment power and includes any shares as to which the individual or entity has the right to acquire beneficial ownership within 60 days of March 26, 2018, through the exercise of any warrant, stock option or other right. The inclusion in this table of such shares, however, does not constitute an admission that the named stockholder is a direct or indirect beneficial owner of such shares. The number of shares of Common Stock outstanding used in calculating the percentage for each listed person includes the shares of Common Stock underlying options, warrants or other rights held by such person that are exercisable within 60 days of March 26, 2018 but excludes shares of Common Stock underlying options, warrants or other rights held by any other person. Percentage of beneficial ownership is based on 228,605,480 shares of Common Stock outstanding as of
