

GREENE COUNTY BANCORP INC

Form 10-Q

November 14, 2008

U.S. SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OF 15(d) OF THE SECURITIES AND EXCHANGE ACT OF
1934

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OF 15(d) OF THE SECURITIES EXCHANGE ACT

GREENE COUNTY BANCORP, INC.

(Exact name of small business issuer as specified in its charter)

Commission file number 0-25165

United States
(State or other jurisdiction of incorporation or organization)

14-1809721
(I.R.S. Employer Identification Number)

302 Main Street, Catskill, New York
(Address of principal executive office)

12414
(Zip code)

Registrant's telephone number, including area code: (518) 943-2600

Check whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes: No:

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Greene County Bancorp, Inc.
Notes to Consolidated Financial Statements
As of and for the Three Months Ended September 30, 2008 and 2007

(1) Basis of Presentation

The accompanying consolidated statement of financial condition as of June 30, 2008 was derived from the audited consolidated financial statements of Greene County Bancorp, Inc. (the “Company”) and its wholly owned subsidiary, The Bank of Greene County (the “Bank”) and the Bank’s wholly owned subsidiary, Greene County Commercial Bank. The consolidated financial statements at and for the three months ended September 30, 2008 and 2007 are unaudited.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. To the extent that information and footnotes required by GAAP for complete financial statements are contained in or are consistent with the audited financial statements incorporated by reference to Greene County Bancorp, Inc.’s Annual Report on Form 10-KSB for the year ended June 30, 2008, such information and footnotes have not been duplicated herein. In the opinion of management, all adjustments (consisting of only normal recurring items) necessary for a fair presentation of the financial position and results of operations and cash flows at and for the periods presented have been included. Amounts in the prior year’s consolidated financial statements have been reclassified whenever necessary to conform to the current year’s presentation. These reclassifications had no effect on net income or retained earnings as previously reported. All material inter-company accounts and transactions have been eliminated in the consolidation. The results of operations and other data for the three months ended September 30, 2008 are not necessarily indicative of results that may be expected for the entire fiscal year ending June 30, 2009.

CRITICAL ACCOUNTING POLICIES

Greene County Bancorp, Inc.’s most critical accounting policies relates to the allowance for loan losses and potential impairment of investment securities.

It is based on management’s estimation of an amount that is intended to absorb losses in the existing portfolio. The allowance for loan losses is established through a provision for losses based on management’s evaluation of the risk inherent in the loan portfolio, the composition of the portfolio, specific impaired loans and current economic conditions. Such evaluation, which includes a review of all loans for which full collectibility may not be reasonably assured, considers among other matters, the estimated net realizable value or the fair value of the underlying collateral, economic conditions, historical loan loss experience, management’s estimate of probable credit losses and other factors that warrant recognition in providing for the allowance of loan losses. However, this evaluation involves a high degree of complexity and requires management to make subjective judgments that often require assumptions or estimates about highly uncertain matters. This critical accounting policy and its application are periodically reviewed with the Audit Committee and the Board of Directors.

Statement of Financial Accounting Standards (“SFAS”) No. 115, “Accounting for Certain Investments in Debt and Equity Securities,” and Staff Accounting Bulletin 59, “Noncurrent Marketable Equity Securities,” require companies to perform periodic reviews of individual securities in their investment portfolios to determine whether a decline in the value of a security is other than temporary. Greene County Bancorp, Inc. makes an assessment to determine whether

there have been any events or economic circumstances to indicate that a security on which there is an unrealized loss is impaired on an other-than-temporary basis. The Company considers many factors including the severity and duration of the impairment; the intent and ability of the Company to hold the security for a period of time sufficient for a recovery in value; recent events specific to the issuer or industry; and for debt securities, external credit ratings and recent downgrades. Securities on which there is an unrealized loss that is deemed to be other-than-temporary are written down to fair value with the write-down recorded as a realized loss.

(2) Nature of Operations

Greene County Bancorp, Inc.'s primary business is the ownership and operation of its subsidiaries. The Bank of Greene County has ten full-service offices and an operations center located in its market area consisting of Greene County, Columbia County and southern Albany County, New York. The Bank of Greene County is primarily engaged in the business of attracting deposits from the general public in The Bank of Greene County's market area, and investing such deposits, together with other sources of funds, in loans and investment securities. Greene County Commercial Bank's primary business is to attract deposits from and provide banking services to local municipalities.

(3) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses and the assessment of other-than-temporary security impairment.

While management uses available information to recognize losses on loans, future additions to the allowance for loan losses (the "Allowance") may be necessary based on changes in economic conditions, asset quality or other factors. In addition, various regulatory authorities, as an integral part of their examination process, periodically review our Allowance. Such authorities may require us to recognize additions to the Allowance based on their judgments of information available to them at the time of their examination.

Greene County Bancorp, Inc. makes an assessment to determine whether there have been any events or economic circumstances to indicate that a security on which there is an unrealized loss is impaired on an other-than-temporary basis. The Company considers many factors including the severity and duration of the impairment; the intent and ability of the Company to hold the security for a period of time sufficient for a recovery in value; recent events specific to the issuer or industry; and for debt securities, external credit ratings and recent downgrades. Securities on which there is an unrealized loss that is deemed to be other-than-temporary are written down to fair value with the write-down recorded as a realized loss.

(4) Fair Value Measurements and Fair Value of Financial Instruments

SFAS 157, "Fair Value Measurement", established a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).

An asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used are as follows:

		Fair Value Measurements Using		
		Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(In thousands)	September 30, 2008			
Assets:				
Securities available-for-sale	\$138,157	\$78,428	59,729	---

Certain investments that are actively traded and have quoted market prices have been classified as Level 1 valuations. Other available-for-sale investment securities have been valued by reference to prices for similar securities or through model-based techniques in which all significant inputs are observable and, therefore, such valuations have been classified as Level 2. For many other securities where there is limited trading activity or less observable valuation inputs, the Company has classified such valuations as Level 3.

In addition to disclosures of the fair value of assets on a recurring basis, SFAS 157 requires disclosures for assets and liabilities measured at fair value on a nonrecurring basis, such as impaired assets, in the period in which a re-measurement at fair value is performed. Loans are generally not recorded at fair value on a recurring basis. Periodically, the Company records nonrecurring adjustments to the carrying value of loans based on fair value measurements for partial charge-offs of the uncollectible portions of those loans. Nonrecurring adjustments also include certain impairment amounts for collateral-dependent loans calculated in accordance with SFAS No. 114, "Accounting by Creditors for Impairment of a Loan," when establishing the allowance for credit losses. Such amounts are generally based on the fair value of the underlying collateral supporting the loan and, as a result, the carrying value of the loan less the calculated valuation amount does not necessarily represent the fair value of the loan. Real estate collateral is typically valued using independent appraisals or other indications of value based on recent comparable sales of similar properties or assumptions generally observable in the marketplace and the related nonrecurring fair value measurement adjustments have generally been classified as Level 2. Estimates of fair value used for other collateral supporting commercial loans generally are based on assumptions not observable in the marketplace and therefore such valuations have been classified as Level 3. At September 30, 2008 and June 30, 2008, loans subject to nonrecurring fair value measurement had a gross carrying amount of \$334,000 and \$249,000, respectively, with an associated valuation allowance of \$144,000 and \$80,000, respectively, for a fair value of \$190,000 and \$169,000, respectively. These loans were classified as a Level 3 valuation.

(5) Earnings Per Share ("EPS")

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed in a manner similar to that of basic earnings per

share except that the weighted-average number of common shares outstanding is increased to include the number of incremental common shares that would have been outstanding under the treasury stock method if all potentially dilutive common shares (such as stock options) issued became vested during the period. The 164,500 options granted during the quarter ended September 30, 2008 (see note 9) were anti-dilutive in the current quarter. There were no anti-dilutive securities or contracts outstanding during the quarter ended September 30, 2007. Unallocated common shares held by the ESOP are not included in the weighted-average number of common shares outstanding for either the basic or diluted earnings per share calculations.

	Net Income	Weighted Average Number Of Shares Outstanding	Earnings per Share
Three months ended September 30, 2008	\$ 809,000		
Basic		4,096,149	\$ 0.20
Effect of dilutive stock options		23,164	(0.00)
Diluted		4,119,313	\$ 0.20

Three months ended September 30, 2007	\$ 569,000		
Basic		4,137,556	\$ 0.14
Effect of dilutive stock options		46,733	(0.00)
Diluted		4,184,289	\$ 0.14

(6) Dividends

On July 17, 2008, the Board of Directors declared a quarterly cash dividend of \$0.17 per share of Greene County Bancorp, Inc.'s common stock. The dividend reflects an annual cash dividend rate of \$0.68 per share, which represents a 6.3% increase from the previous quarter's annual dividend rate paid of \$0.64 in June 2008. The dividend was payable to stockholders of record as of August 15, 2008, and paid on September 1, 2008. It should be noted that Greene County Bancorp, Inc.'s mutual holding company continued to waive receipt of dividends on the 2,304,632 shares of Company common stock it owns for the current period.

(7) Impact of Inflation and Changing Prices

The consolidated financial statements of Greene County Bancorp, Inc. and notes thereto, presented elsewhere herein, have been prepared in accordance with generally accepted accounting principles in the United States of America, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time and due to inflation. The impact of inflation is reflected in the increased cost of Greene County Bancorp, Inc.'s operations. Unlike most industrial companies, nearly all the assets and liabilities of Greene County Bancorp, Inc. are monetary. As a result, interest rates have a greater impact on Greene County Bancorp, Inc.'s performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the price of goods and services.

(8) Impact of Recent Accounting Pronouncements

In February 2008, the FASB issued FASB Staff Position (FSP) 157-2, "Effective Date of FASB Statement No. 157," that permits a one-year deferral in applying the measurement provisions of Statement No. 157 to non-financial assets and non-financial liabilities (non-financial items) that are not recognized or disclosed at fair value in an entity's financial statements on a recurring basis (at least annually). Therefore, if the change in fair value of a non-financial item is not required to be recognized or disclosed in the financial statements on an annual basis or more frequently, the effective date of application of Statement 157 to that item is deferred until fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. The Company is currently evaluating the impact, if any, that the adoption of FSP 157-2 will have on the Company's consolidated financial statements.

In December 2007, the FASB issued statement No. 141 (R) "Business Combinations". This Statement establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The Statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance will become effective as of the beginning of a company's fiscal year beginning after December 15, 2008. The new guidance will impact the Company's accounting for business combinations completed beginning July 1, 2009.

In December 2007, the FASB issued statement No. 160 "Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51". This Statement establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective as of the beginning of a company's fiscal year beginning after December 15, 2008. The Company believes that this new pronouncement will not have a material impact on the Company's consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." This Statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. This Statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." The Company believes that this new pronouncement will not have a material impact on the Company's consolidated financial statements.

In June 2008, the FASB issued FASB Staff Position (FSP) EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities." This FSP clarifies that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. This FSP is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

In October 2008, the FASB issued FSP SFAS No. 157-3, “Determining the Fair Value of a Financial Asset When The Market for That Asset Is Not Active” (FSP 157-3), to clarify the application of the provisions of SFAS 157 in an inactive market and how an entity would determine fair value in an inactive market. FSP 157-3 is effective immediately and applies to our September 30, 2008 financial statements. The application of the provisions of FSP 157-3 did not have an impact on our results of operations or financial condition as of and for the periods ended September 30, 2008.

(9) Stock-Based Compensation

At September 30, 2008, Greene County Bancorp, Inc. had three stock-based compensation plans, two of which are described more fully in Note 9 of the consolidated financial statements and notes thereto for the year ended June 30, 2008. A new stock-based compensation plan (the “Option Plan”) was approved by shareholders on July 29, 2008 which allows the Company to issue up to 180,000 options and stock appreciation rights. On August 19, 2008, the Board of Directors granted 164,500 options and stock appreciation rights (in tandem) to buy stock under the Option Plan at an exercise price of \$12.50, the fair value of the stock on that date. These options have a 10-year term and vest over a minimum of a three year period which is contingent upon meeting specific earnings performance goals. The fair value of each share option grant under the Option Plan was estimated on the date of grant to be \$4.06 using the Black-Scholes option pricing model and assumes that performance goals will be achieved. If such goals are not met, no compensation cost will be recognized and any recognized compensation cost will be reversed. The assumptions used in the Black-Scholes option pricing model as of the grant date were as follows:

Weighted average risk-free interest rate	3.23%
Weighted average expected term	6.5 years
Weighted average expected volatility	59.57%
Weighted average expected dividend	6.72%

The Company recognized \$37,000 in compensation costs and related income tax benefit of \$4,000 related to the Option Plan for the quarter ended September 30, 2008. There was no stock-based compensation expense recorded during the quarter ended September 30, 2007. At September 30, 2008, there was \$631,400 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted. That cost is expected to be recognized over a weighted-average period of 2.75 years.

A summary of the Company’s stock option activity and related information for its option plans for the three months ended September 30, 2008 and 2007 is as follows:

	2008		2007	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding at beginning of year	41,944	\$ 5.00	72,664	\$ 4.55
Options granted	164,500	\$ 12.50	---	---
Exercised	(5,400)	\$ 3.94	(500)	\$ 3.94
Forfeited	---	---	---	---
Outstanding at period end	201,044	\$ 11.17	72,164	\$ 4.56
Exercisable at period end	36,544	\$ 5.16	72,164	\$ 4.56

The following table presents stock options outstanding and exercisable at September 30, 2008:

Options Outstanding and Exercisable			
Range of Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price
\$ 3.94	28,044	1.50	\$ 3.94
\$ 9.20	8,500	3.40	\$ 9.20
\$ 3.94-\$9.20	36,544	1.94	\$ 5.16

The total intrinsic value of the options exercised during the three months ended September 30, 2008 and 2007, was approximately \$52,000 and \$4,000, respectively. There were no stock options granted during the three months ended September 30, 2007. The Company had 164,500 non-vested options outstanding at September 30, 2008 and no non-vested options outstanding at or during the quarter ended September 30, 2007.

(10) Stock Repurchase Program

On August 22, 2007, the Board of Directors authorized a stock repurchase program pursuant to which the Company intends to repurchase up to 5% of its outstanding shares (excluding shares held by Greene County Bancorp, MHC, the Company's mutual holding company), or up to 92,346 shares. As of September 30, 2008, the Company had repurchased 62,478 shares at an average cost of \$12.79 per share.

(11) Subsequent events

On October 22, 2008, the Board of Directors declared a quarterly dividend of \$0.17 per share on Greene County Bancorp, Inc.'s common stock. The dividend reflects an annual cash dividend rate of \$0.68 per share, which was the same as the dividend declared during the previous quarter. The dividend will be payable to stockholders of record as of November 15, 2008, and will be paid on December 1, 2008. It should be noted that Greene County Bancorp, Inc.'s mutual holding company continues to waive receipt of dividends on the shares it owns.

The Company intends to apply to participate in the U.S. Treasury's Capital Purchase Program (CPP), a part of the Emergency Economic Stabilization Act of 2008. That application is due to the Office of Thrift Supervision by November 14, 2008. The Company would be eligible to receive investment funds ranging between approximately \$2.3 million and \$6.7 million from the U.S. Treasury. While the Company and the Bank are both well-capitalized, participation in the program might enhance the Company's flexibility in meeting future capital needs that may arise. The Company has not made a final determination as to participation in the program.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Overview of the Company's Activities and Risks

Greene County Bancorp, Inc.'s results of operations depend primarily on its net interest income, which is the difference between the income earned on Greene County Bancorp, Inc.'s loan and securities portfolios and its cost of funds, consisting of the interest paid on deposits and borrowings. Results of operations are also affected by Greene County Bancorp, Inc.'s provision for loan losses, gains and losses from sales of securities, noninterest income and noninterest expense. Noninterest income consists primarily of fees and service charges. Greene County Bancorp,

Inc.'s noninterest expense consists principally of compensation and employee benefits, occupancy, equipment and data processing, and other operating expenses. Results of operations are also significantly affected by general economic and competitive conditions, changes in interest rates, as well as government policies and actions of regulatory authorities. Additionally, future changes in applicable law, regulations or government policies may materially affect Greene County Bancorp, Inc.

To operate successfully, the Company must manage various types of risk, including but not limited to, market or interest rate risk, credit risk, transaction risk, liquidity risk, security risk, strategic risk, reputation risk and compliance risk. While all of these risks are important, the risks of greatest significance to the Company relate to market or interest rate risk and credit risk.

Market risk is the risk of loss from adverse changes in market prices and/or interest rates. Since net interest income (the difference between interest earned on loans and investments and interest paid on deposits and borrowings) is the Company's primary source of revenue, interest rate risk is the most significant non-credit related market risk to which the Company is exposed. Net interest income is affected by changes in interest rates as well as fluctuations in the level and duration of the Company's assets and liabilities.

Interest rate risk is the exposure of the Company's net interest income to adverse movements in interest rates. In addition to directly impacting net interest income, changes in interest rates can also affect the amount of new loan originations, the ability of borrowers and debt issuers to repay loans and debt securities, the volume of loan repayments and refinancings, and the flow and mix of deposits.

Credit risk is the risk to the Company's earnings and shareholders' equity that results from customers, to whom loans have been made and to the issuers of debt securities in which the Company has invested, failing to repay their obligations. The magnitude of risk depends on the capacity and willingness of borrowers and debt issuers to repay and the sufficiency of the value of collateral obtained to secure the loans made or investments purchased.

Special Note Regarding Forward Looking Statements

This quarterly report contains forward-looking statements. Greene County Bancorp, Inc. desires to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protections of the safe harbor with respect to all such forward-looking statements. These forward-looking statements, which are included in this Management's Discussion and Analysis and elsewhere in this quarterly report, describe future plans or strategies and include Greene County Bancorp, Inc.'s expectations of future financial results. The words "believe," "expect," "anticipate," "project," and similar expressions identify forward-looking statements. Greene County Bancorp, Inc.'s ability to predict results or the effect of future plans or strategies or qualitative or quantitative changes based on market risk exposure is inherently uncertain. Factors that could affect actual results include but are not limited to:

- (a) changes in general market interest rates,
- (b) general economic conditions, including unemployment rates and real estate values,
- (c) legislative and regulatory changes,
- (d) monetary and fiscal policies of the U.S. Treasury and the Federal Reserve,
- (e) changes in the quality or composition of The Bank of Greene County's loan portfolio or the consolidated investment portfolios of The Bank of Greene County and Greene County Bancorp, Inc.,
- (f) deposit flows,
- (g) competition, and
- (h) demand for financial services in Greene County Bancorp, Inc.'s market area.

These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements, since results in future periods may differ materially from those currently expected because of various risks and uncertainties.

Comparison of Financial Condition as of September 30, 2008 and June 30, 2008

ASSETS

Total assets of the Company were \$438.6 million at September 30, 2008 as compared to \$379.6 million at June 30, 2008, an increase of \$59.0 million, or 15.5%. Securities available for sale amounted to \$138.2 million, or 31.5% of assets, at September 30, 2008 as compared to \$96.7 million, or 25.5% of assets, at June 30, 2008, an increase of \$41.5 million or 42.9%. Securities purchases, including both available-for-sale and held-to-maturity issues, totaled \$47.1 million between June 30, 2008 and September 30, 2008. These activities were partially offset by principal pay-downs and maturities of \$5.2 million over the same time frame. Loans grew by \$14.4 million or 6.0% to \$254.6 million at September 30, 2008 as compared to \$240.1 million at June 30, 2008.

CASH AND CASH EQUIVALENTS

Total cash and cash equivalents increased to \$10.7 million at September 30, 2008 as compared to \$8.7 million at June 30, 2008, an increase of \$2.0 million or 23.0%. The level of cash and cash equivalents is a function of the daily account clearing needs and deposit levels as well as activities associated with securities transactions and loan funding. All of these items can cause cash levels to fluctuate significantly on a daily basis.

SECURITIES

Securities, including both available-for-sale and held-to-maturity issues, increased \$41.5 million or 37.0% to \$153.6 million at September 30, 2008 as compared to \$112.1 million at June 30, 2008. Securities purchases totaled \$47.1 million during the quarter ended September 30, 2008. Purchases consisted of \$15.6 million of U.S. government agency bonds, \$30.4 million of mortgage-backed securities, and \$1.1 million of state and political subdivision securities. These purchases were funded through deposit growth, primarily from local municipalities. The deposits with municipalities require the Company to pledge securities as collateral for any uninsured balances. This increase was partially offset by principal pay-downs and maturities that amounted to \$5.2 million, of which \$2.3 million were mortgage-backed securities, \$900,000 were state and political subdivision securities and \$2.0 million were U.S. government agency securities. Additionally, during the quarter ended September 30, 2008, unrealized net losses on available for sale securities increased \$247,000. Greene County Bancorp, Inc. holds 17.2% of the securities portfolio at September 30, 2008 in state and political subdivision securities to take advantage of tax savings and to promote Greene County Bancorp, Inc.'s participation in the communities in which it operates. Mortgage-backed securities and asset-backed securities held within the portfolio do not contain sub-prime loans and are not exposed to the credit risk associated with such lending.

(Dollars in thousands)	Carrying Value at

LOANS

Net loans receivable increased to \$252.8 million at September 30, 2008 from \$238.4 million at June 30, 2008, an increase of \$14.4 million, or 6.0%. The loan growth experienced during the quarter primarily consisted of \$6.2 million in residential mortgages, \$5.1 million in commercial real estate loans, \$1.6 million in construction and land loans, and \$1.1 million in home equity loans. The continued low interest rate environment and strong customer satisfaction from personal service continued to enhance loan growth. If long term rates begin to rise, the Company anticipates some slow down in new loan demand as well as refinancing activities. It appears consumers continue to use the equity in their homes to fund financing needs for some activities, where in the past an installment loan may have been the choice. The Bank of Greene County continues to use a conservative underwriting policy in regard to all loan originations, and does not engage in sub-prime lending. It should be noted however that the Company is subject to the effects of any downturn, and especially, a significant decline in home values in the Company's markets could have a negative effect on the results of operations. A significant decline in home values would likely lead to a decrease in residential real estate loans and new home equity loan originations and increased delinquencies and defaults in both the consumer home equity loan and the residential real estate loan portfolios and result in increased losses in these portfolios. As of September 30, 2008, declines in home values have been modest in the Company's market area.

(Dollars in thousands)

Net loans receivable	\$ 252,841		\$ 238,440	

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses is established through a provision for loan losses based on management's evaluation of the risk inherent in the loan portfolio, the composition of the loan portfolio, specific impaired loans and current economic conditions. Such evaluation, which includes a review of all loans on which full collectibility may not be reasonably assured, considers among other matters, the estimated net realizable value or the fair value of the underlying collateral, economic conditions, historical loan loss experience and other factors that warrant recognition in providing for an allowance for loan losses. In addition, various regulatory agencies, as an integral part of their examination process, periodically review The Bank of Greene County's allowance for loan losses. Such agencies may require The Bank of Greene County to recognize additions to the allowance based on their judgment about information available to them at the time of their examination. The allowance for loan losses is increased by a provision for loan losses (which results in a charge to expense) and recoveries of loans previously charged off and is reduced by charge-offs. The level of the provision for the three months ended September 30, 2008, was driven by the continued growth of the loan portfolio and recent increases in loan delinquencies. Any future increase in the allowance for loan losses or loan charge-offs could have a material adverse effect on Greene County Bancorp, Inc.'s results of operations and financial condition.

Ratio of annualized net charge-offs to nonperforming assets	20.08%	15.80%
Allowance for loan losses to nonperforming loans	100.61%	197.16%
Allowance for loan losses to total loans receivable	0.78%	0.73%

Nonaccrual Loans and Nonperforming Assets

Loans are reviewed on a regular basis. Management determines that a loan is impaired or nonperforming when it is probable at least a portion of the loan will not be collected in accordance with its contractual terms due to an irreversible deterioration in the financial condition of the borrower or the value of the underlying collateral. When a loan is determined to be impaired, the measurement of the loan impairment is based on the present value of estimated future cash flows, except that all collateral-dependent loans are measured for impairment based on the fair value of the collateral. Management places loans on nonaccrual status once the loans have become 90 days or more delinquent. Nonaccrual is defined as a loan in which collectibility is questionable and therefore interest on the loan will no longer be recognized on an accrual basis. A loan does not have to be 90 days delinquent in order to be classified as nonperforming. Foreclosed real estate is considered nonperforming. The Bank of Greene County had no accruing loans delinquent more than 90 days at September 30, 2008 or June 30, 2008.

Analysis of Nonaccrual Loans and Nonperforming Assets

(Dollars in thousands)	At September 30, 2008	At June 30, 2008
Nonaccruing loans:		
Real estate mortgage loans		
Residential mortgages loans (one- to four-family)	\$ 1,391	\$ 1,123
Construction and land	---	38
Commercial mortgage loans	90	91
Multifamily	26	26
Home equity	331	493
Commercial loans	96	142
Installment loans to individuals	38	26
Total nonaccruing loans	1,972	1,939
Foreclosed real estate	---	---
Total nonperforming assets	\$ 1,972	\$ 1,939
Total nonperforming assets as a percentage of total assets	0.45%	0.51%
Total nonperforming loans to net total loans	0.78%	0.81%

The Company identifies impaired loans and measures the impairment in accordance with Statement of Financial Accounting Standards No. 114, "Accounting by Creditors for Impairment of a Loan" (Statement 114), as amended. A loan is considered impaired when it is probable that the borrower will be unable to repay the loan according to the original contractual terms of the loan agreement or the loan is restructured in a troubled debt restructuring. There was \$313,000 in impaired loans as of September 30, 2008 of which \$122,000 were nonaccrual. The Company has allocated approximately \$144,000 of the allowance for loan losses for these loans as of September 30, 2008. Interest income of \$16,000 and \$8,000 was recorded on nonaccrual loans based on cash payments received during the quarters ended September 30, 2008 and 2007, respectively.

DEPOSITS

Total deposits increased to \$373.6 million at September 30, 2008 from \$321.4 million at June 30, 2008, an increase of \$52.2 million, or 16.2%. The Company has recently attracted new local municipalities including school districts to use the services of Greene County Commercial Bank, which is a limited purpose entity for such activities. Greene County Commercial Bank has sought core deposits from such entities rather than more expensive time accounts. The level of deposits held by such public entities can be cyclical and fluctuate significantly from quarter to quarter and are significantly dependent and affected by tax collection periods or special projects such as new buildings or renovations. These types of local municipal entities are also required to have certain forms of collateral pledged for amounts deposited over the FDIC insurance limits. Deposits at Greene County Commercial Bank increased \$52.9 million to \$99.7 million at September 30, 2008 compared to \$46.8 million at June 30, 2008. This increase was primarily in NOW deposits. Interest bearing checking accounts (NOW accounts) increased \$51.6 million or 64.9% to \$131.1 million at September 30, 2008 as compared to \$79.5 million at June 30, 2008. Savings deposits decreased \$5.3 million or 7.3% to \$67.4 million at September 30, 2008 as compared to \$72.7 million at June 30, 2008. Money market deposits increased \$6.3 million to \$44.3 million at September 30, 2008. Certificates of deposit balances increased \$1.8 million between June 30, 2008 and September 30, 2008. Noninterest bearing deposits decreased \$2.3 million to \$39.5 million at September 30, 2008.

(Dollars in thousands)

	At Sept. 30, 2008	Percentage Of portfolio	At June 30, 2008	Percentage Of portfolio
Noninterest bearing deposits	\$ 39,501	10.6%	\$ 41,798	13.0%

Money market deposits	44,284	11.9	37,970	11.8
NOW deposits	131,053	35.1	79,487	24.7
Total deposits	\$ 373,557	100.0%	\$ 321,431	100.0%

BORROWINGS

At September 30, 2008, The Bank of Greene County had available an Overnight Line of Credit and a One-Month Overnight Repricing Line of Credit, each in the amount of \$31.8 million with the Federal Home Loan Bank. At September 30, 2008, there was a balance of \$7.5 million outstanding under the Overnight Line of Credit. Interest rates on these lines is determined at the time of borrowing.

At September 30, 2008, The Bank of Greene County had term borrowings totaling \$19.0 million from the FHLB, of which \$14.0 million consisted of several fixed rate, fixed term advances with a weighted average rate of 3.34% and a weighted average maturity of 31 months. The remaining \$5.0 million borrowing, which carried a 3.64% interest rate at September 30, 2008, is unilaterally convertible by the FHLB under certain market interest rate scenarios, including three-month LIBOR at or above 7.50%, into replacement advances for the same or lesser principal amount based on the then current market rates. If the Bank chooses not to accept the replacement funding, the Bank must repay this convertible advance, including any accrued interest, on the interest payment date.

Scheduled maturities of borrowings at September 30, 2008 were as follows:

(In thousands)

Fiscal year end	
2010	\$ 4,000
2011	5,000

2012	3,000
2013	1,000
2014	6,000
	\$ 19,000

EQUITY

Shareholders' equity increased to \$36.7 million at September 30, 2008 from \$36.3 million at June 30, 2008, as net income of \$809,000 was partially offset by dividends declared and paid of \$305,000. Additionally, shareholders' equity decreased \$151,000 as a result of unrealized losses, net of tax in the available-for-sale investment portfolio. Other changes in equity, totaling an \$86,000 increase, were the result of activities associated with the various stock-based compensation plans of the Company including the 2000 and 2008 Stock Option Plans and ESOP Plan.

Comparison of Operating Results for the Three Months Ended September 30, 2008 and 2007

Average Balance Sheet

The following table sets forth certain information relating to Greene County Bancorp, Inc. for the quarters ended September 30, 2008 and 2007. For the periods indicated, the total dollar amount of interest income from average interest earning assets and the resultant yields, as well as the interest expense on average interest bearing liabilities, are expressed both in dollars and rates. No tax equivalent adjustments were made. Average balances were based on daily averages. Average loan balances include non-performing loans. The loan yields include net amortization of certain deferred fees and costs that are considered adjustments to yields.

Rate / Volume Analysis

The following table presents the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities have affected Greene County Bancorp, Inc.'s interest income and interest expense during the periods indicated. Information is provided in each category with respect to:

- (i) Change attributable to changes in volume (changes in volume multiplied by prior rate);
- (ii) Change attributable to changes in rate (changes in rate multiplied by prior volume); and
- (iii) The net change.

The changes attributable to the combined impact of volume and rate have been allocated proportionately to the changes due to volume and the changes due to rate.

2 Includes tax-free securities, mortgage-backed securities, asset-backed securities and long term certificates of deposit.

GENERAL

Return on average assets and return on average equity are common methods of measuring operating results. Annualized return on average assets increased to 0.82% for the quarter ended September 30, 2008 as compared to 0.69% for the quarter ended September 30, 2007. Annualized return on average equity increased to 8.87% for the quarter ended September 30, 2008 as compared to 6.40% for the quarter ended September 30, 2007. The increase in return on average assets and return on average equity was primarily the result of noninterest income, and higher net interest income, partially offset by higher noninterest expense. Net income amounted to \$809,000 for the quarter ended September 30, 2008 as compared to \$569,000 for the prior year period, an increase of \$240,000 or 42.2%. Average assets increased \$63.6 million, or 19.2% to \$395.5 million for the quarter ended September 30, 2008 as compared to \$331.9 million for the quarter ended September 30, 2007. Average equity

increased \$910,000, or 2.6%, to \$36.5 million for the quarter ended September 30, 2008 as compared to \$35.6 million for the quarter ended September 30, 2007.

INTEREST INCOME

Interest income amounted to \$5.3 million for the quarter ended September 30, 2008 as compared to \$4.6 million for the quarter ended September 30, 2007, an increase of \$727,000 or 15.8%. The increase in securities and loan volumes had the greatest impact on interest income when comparing the quarters ended September 30, 2008 and 2007. Average loan balances increased \$33.3 million while the yield on loans decreased 32 basis points when comparing the quarters ended September 30, 2008 and 2007. Average securities increased \$32.7 million when comparing the quarters ended September 30, 2008 and 2007. The yield on such securities increased 41 basis points during this same period. The average balances of federal funds sold decreased \$3.7 million, and the yield decreased 313 basis points when comparing the quarters ended September 30, 2008 and 2007, resulting in a decrease in interest income. The decrease in yield was due to the recent reduction in short-term rates implemented by the Federal Open Market Committee during the quarter ended September 30, 2008. The decrease in income on interest bearing bank balances was primarily due to a 256 basis point decrease in yield and a \$1.6 million decrease in average balance when comparing the quarters ended September 30, 2008 and 2007.

INTEREST EXPENSE

Interest expense amounted to \$1.6 million for the quarter ended September 30, 2008 as compared to \$1.8 million for the quarter ended September 30, 2007, a decrease of \$231,000 or 12.5%. Decreases in rates on interest-bearing liabilities contributed to the decrease in overall interest expense. Interest expense was reduced \$655,000 due to an 86 basis point decrease in the average rate on interest-bearing liabilities, which was partially offset by an increase in interest expense of \$424,000 due to a \$60.9 million increase in the average balance of interest-bearing liabilities. The average rate paid on NOW deposits decreased 72 basis points when comparing the quarters ended September 30, 2008 and 2007, and the average balance of such accounts grew by \$30.3 million. The average balance of certificates of deposit grew by \$12.2 million, and the average rate paid decreased by 145 basis points when comparing the quarters ended September 30, 2008 and 2007. The average balance of savings and money market deposits increased by \$3.2 million and the rate paid decreased by 74 basis points when comparing the quarters ended September 30, 2008 and 2007. The average balance on borrowings increased \$15.3 million and the rate decreased 33 basis points when comparing the quarters ended September 30, 2008 and 2007.

NET INTEREST INCOME

Net interest income increased \$958,000 to \$3.7 million for the quarter ended September 30, 2008 as compared to \$2.8 million for the quarter ended September 30, 2007. Net interest spread increased 66 basis points to 3.66% as compared to 3.00% when comparing the quarters ended September 30, 2008 and 2007. Net interest margin increased 44 basis points to 3.98% for the quarter ended September 30, 2008 as compared to 3.54% for the quarter ended September 30, 2007. The increase in average balances, along with the widening of the net interest spread and margin led to an increase in net interest income when comparing the quarters ended September 30, 2008 and 2007.

Due to the large portion of fixed rate residential mortgages in the Company's asset portfolio, interest rate risk is a concern and the Company will continue to monitor the situation and attempt to adjust the asset and liability mix as much as possible to take advantage of the benefits and reduce the risks or potential negative effects of a rising rate environment. Management attempts to mitigate the interest rate risk through balance sheet composition. Several strategies are used to help manage interest rate risk such as maintaining a high level of liquid assets such as short-term federal funds sold and various investment securities and maintaining a high concentration of less interest-rate sensitive and lower-costing core deposits.

PROVISION FOR LOAN LOSSES

The provision for loan losses amounted to \$195,000 for the quarter ended September 30, 2008 and \$143,000 for the quarter ended September 30, 2007. The increase in the level of provision was partially a result of growth in the loan portfolio, the recent increases in the level of loan delinquencies, and an increase in the amount of loan charge-offs. At September 30, 2008, nonperforming assets were 0.45% of total assets and nonperforming loans were 0.78% of total loans. The Company has not been an originator of “no documentation” mortgage loans and the loan portfolio does not include any mortgage loans that the Company classifies as sub-prime.

NONINTEREST INCOME

Noninterest income amounted to \$1.0 million for the quarter ended September 30, 2008 as compared to \$1.1 million for the quarter ended September 30, 2007, a decrease of \$50,000 or 4.6%. One factor that affected noninterest income was the other-than-temporary impairment associated with the bankruptcy filing of Lehman Brothers Holdings, Inc. (“Lehman”). The Company recorded an other-than-temporary impairment of \$221,000 (\$135,000 net of tax) on a Lehman debt security held by the Company. The majority of the \$171,000 increase in the other elements of noninterest income was from services fees on various accounts, including debit card fees.

NONINTEREST EXPENSE

Noninterest expense amounted to \$3.4 million for the quarter ended September 30, 2008 as compared to \$2.9 million for the quarter ended September 30, 2007, an increase of \$455,000 or 15.7%. Salaries and employee benefits increased \$484,000 when comparing quarters ended September 30, 2008 and 2007. The Company accrued \$351,000 toward the expected future termination of its currently frozen defined benefit plan during the quarter ended September 30, 2008. Additional expenses such as compensation and depreciation due to the new Chatham branch which opened in January 2008 also contributed to the higher noninterest expense.

INCOME TAXES

The provision for income taxes directly reflects the expected tax associated with the pre-tax income generated for the given year and certain regulatory requirements. The effective tax rate was 33.1% for the quarter ended September 30, 2008, compared to 29.7% for the quarter ended September 30, 2007. The increased effective tax rate was due to a lesser portion of pre-tax income from tax-exempt income.

LIQUIDITY AND CAPITAL RESOURCES

Market risk is the risk of loss in a financial instrument arising from adverse changes in market rates or prices such as interest rates, foreign currency exchange rates, commodity prices, and equity prices. Greene County Bancorp, Inc.’s most significant form of market risk is interest rate risk since the majority of Greene County Bancorp, Inc.’s assets and liabilities are sensitive to changes in interest rates. Greene County Bancorp, Inc.’s primary sources of funds are deposits and proceeds from principal and interest payments on loans, mortgage-backed securities and debt securities, with lines of credit available through the Federal Home Loan Bank as needed. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit outflows, mortgage prepayments, and lending activities are greatly influenced by general interest rates, economic conditions and competition.

Mortgage loan commitments totaled \$10.8 million at September 30, 2008. The unused portion of overdraft lines of credit and premium overdraft privilege amounted to \$9.6 million, the unused portion of home equity lines of credit amounted to \$8.8 million, and the unused portion of commercial lines of credit amounted to \$4.2 million at September 30, 2008. Greene County Bancorp, Inc. anticipates that it will have sufficient funds available to meet current loan commitments based on the level of cash and cash equivalents as well as the available for sale investment portfolio and borrowing capacity from FHLB NY.

During the current fiscal year, The Bank of Greene County expects to open a new branch location in Ravena, New York. It is expected that this branch will be open during the third quarter of fiscal 2009. It is expected that the Company will have sufficient cash or other means of liquidity to fund this project.

The Bank of Greene County and Greene County Commercial Bank met all applicable regulatory capital requirements at September 30, 2008 and June 30, 2008. Consolidated shareholders' equity represented 8.4% of total assets at September 30, 2008 and 9.6% of total assets of June 30, 2008.

On October 14, 2008, the U.S. Treasury announced that it would purchase equity stakes in a number of banks and savings and loan associations. Under the Capital Purchase Program of the Troubled Assets Relief Program ("TARP"), \$250 billion of the \$700 billion authorized by the Emergency Economic Stabilization Act of 2008 will be made available by the U.S. Treasury to a variety of U.S. financial institutions in exchange for preferred stock. In connection with its purchase of preferred stock, the U.S. Treasury will receive warrants to purchase common stock with an aggregate market price equal to 15% of the preferred investment. Financial institutions that take part in the TARP Capital Purchase Program will be required to adopt the U.S. Treasury's standards for executive compensation and corporate governance for the period during which the U.S. Treasury holds equity issued under the TARP Capital Purchase Program. The U.S. Treasury also announced that nine major financial institutions had already agreed to participate in the TARP Capital Purchase Program, and numerous other financial institutions have subsequently agreed to take part.

On October 14, 2008, the FDIC announced the establishment of the Temporary Liquidity Guarantee Program, which was designed to strengthen confidence and encourage liquidity in the banking system by guaranteeing the (1) newly issued senior unsecured debt and (2) non-interest-bearing transaction accounts of participating institutions. All eligible entities will be covered under the program unless they opt out of one or both of these components by December 5, 2008 (an extension from the original opt-out date of November 13, 2008). Following that deadline, institutions that have opted out of either or both components cannot then opt in. Similarly, institutions that have opted in by the December 5th deadline may not then opt out. The Temporary Liquidity Guarantee Program will be in effect through December 31, 2009.

The Company intends to submit an application to the U.S. Treasury to receive equity capital through the TARP Capital Purchase Program by the November 14, 2008 deadline. As of this date, we have not applied to the FDIC to opt in or out of the Temporary Liquidity Guarantee Program. However, as the details and ramifications of these and any other plans that may be introduced are clarified, we will continue to review them in order to determine whether or not we should participate in them.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable to smaller reporting companies.

Item 4T. Controls and Procedures

Under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and in timely altering them to material information relating to the Company (or its consolidated subsidiaries) required to be filed in its periodic SEC filings.

There has been no change in the Company's internal control over financial reporting in connection with the quarterly evaluation that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

Greene County Bancorp, Inc. and its subsidiaries are not engaged in any material legal proceedings at the present time.

Item 1A. Risk Factors

Not applicable to smaller reporting companies.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

a) Not applicable

b) Not applicable

c) The following table presents a summary of the Company's share repurchases during the quarter ended September 30, 2008.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program (1)	Maximum Number of Shares That May yet be Purchased Under the Program (1)
July 1 – September 30, 2008	---	---	---	29,868

(1) On August 22, 2007, the Board of Directors authorized a stock repurchase program pursuant to which the Company intends to repurchase up to 5% of its outstanding shares (excluding shares held by Greene County Bancorp, MHC, the Company's mutual holding company), or up to 92,346 shares. As of September 30, 2008, the Company had repurchased 62,478 shares in accordance with the stock repurchase program.

Item 3. Defaults Upon Senior Securities

Not applicable

Item 4. Submission of Matters to a Vote of Security Holders

On July 29, 2008, the Company held a special meeting of shareholders. At the meeting, a proposal to adopt the Greene County Bancorp, Inc. 2008 Equity Incentive Plan was approved. There were no broker non-votes. The votes cast for and against this proposal were as follows:

For	Against	Abstain	
Number of votes		3,262,537	107,463 16,189

Item 5. Other Information

Not applicable

Item 6. Exhibits

Exhibits

31.1 Certification of Chief Executive Officer, adopted pursuant to Rule 13a-14(a)/15d-14(a)

Certification of Chief Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Donald E. Gibson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Greene County Bancorp, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors:
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
