Investment Objective and Policy

Babson Capital Participation Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol section of most newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maximize total holdings as of each quarter-end is available upon request return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, Proxy Voting Policies & Procedures; Proxy Voting below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. At least half of these investments normally include equity features such as common stock, warrants, conversion rights, or other equity features that provide the Trust with the opportunity to realize capital gains. The Trust will also invest in publicly traded debt securities (including high yield securities), again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal. In addition, the Trust may temporarily invest in high quality, readily marketable securities.

To Our Shareholders

October 31, 2012

We are pleased to present the September 30, 2012 Quarterly Report of Babson Capital Participation Investors (the "Trust").

The Board of Trustees declared a quarterly dividend of 27 cents per share, payable on November 9, 2012 to shareholders of record on October 29, 2012. The Trust paid a 27 cent per share dividend for the preceding quarter. The Trust earned 25 cents per share of net investment income for the third quarter of 2012, compared to 25 cents per share in the previous quarter.

During the third quarter, the net assets of the Trust increased to \$127,920,093 or \$12.58 per share compared to \$124,331,897 or \$12.25 per share on June 30, 2012. This translates into a 5.0% total return for the quarter, based on the change in the Trust's net assets assuming the reinvestment of all dividends. Longer term, the Trust returned 11.3%, 13.8%, 8.3%, and 113.9% for the 1-, 3-, 5-, and 10-year time periods, respectively, based on the change in the Trust's net assets assuming the reinvestment of all dividends.

The Trust's share price increased 8.3% during the quarter, from \$14.40 per share as of June 30, 2012 to \$15.59 per share as of September 30, 2012. The Trust's market price of \$15.59 per share equates to a 23.9% premium over the September 30, 2012 net asset value per share of \$12.58. The Trust's average quarter-end premium for the 3, 5 and 10-year periods was 17.5%, 9.3% and 10.5%, respectively. U.S. equity markets, as approximated by the Russell 2000 Index, increased 5.3% for the quarter. U.S. fixed income markets, as approximated by the Barclays Capital U.S. Corporate High Yield Index, increased 4.5% for the quarter.

The Trust closed two new private placement investments and four "follow-on" investments in existing portfolio companies during the third quarter. The two new investments were in ABC Industries, Inc. and HVAC Holdings, Inc., while the four follow-on investments were in CHG Alternative Education Holding Company, DPC Holdings LLC, LPC Holding Company and Merex Holding Corporation. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$2,768,000.

U.S. middle market buyout activity picked up nicely in the third quarter of 2012, and has remained strong so far in the fourth quarter. Despite the increase in deal activity, the continued abundance of capital, including senior debt, mezzanine debt and equity capital, has caused purchase price multiples and leverage levels for middle market transactions to remain high. In the face of these aggressive market conditions, we were pleased to be able to close six new investments in the third quarter. We expect our fourth quarter investment activity to be even stronger. In fact, in the first month of the fourth quarter, we have already closed five new investments and we have several more in process. Though we are actively closing new deals, we are doing so cautiously and with discipline, consistent with our longstanding investment philosophy of taking prudent levels of risk and getting paid appropriately for the risks taken. This approach has served us well for many years and through all kinds of market cycles.

We continue to be pleased with the performance of our portfolio companies, as most reported improved operating results in the third quarter of 2012. Several more of our companies were also able to resume paying cash interest on their debt obligations due to their improved financial results and liquidity positions. Realization activity for the Trust in the third quarter was strong once again, with four companies, Aero Holdings, Inc., Nyloncraft, Inc., Power Services Holding Company, and Stanton Carpet Holding Company, sold for nice gains. The Nyloncraft realization is particularly noteworthy. In January 2002, we made our original investment in the company, which is a supplier of

plastic components to the U.S. automotive industry. Nyloncraft's performance was negatively impacted by the severe downturn in the auto industry in 2008-2009. Thanks to the efforts of the transaction sponsor, Hammond,

(Continued)

Kennedy, Whitney & Company, and the company's management team, the company survived the downturn and actually gained market share as the industry rebounded in 2010. Our patience with the company ultimately paid off as the company was sold in September 2012 and we realized nearly two and one-half times our original investment. Since the end of the third quarter, we have had another three companies sold, bringing the year-to-date total to 14 realizations for the portfolio. We have a few more companies that we expect to be sold by year-end. Overall, 2012 will be a very strong year for portfolio company sales. In addition to this realization activity, refinancing activity, in which the Trust's subordinated note holdings are fully or partially prepaid, continues at a high level, as companies seek to take advantage of improved operating performance, low interest rates and credit availability. We have had 14 full or partial prepayments so far this year. As mentioned in prior reports, strong realization and refinancing activity is a double-edged sword, as the resulting loss of income-producing investments could adversely impact the Trust's ability to sustain its dividend level. We have been fortunate that our new investment activity in recent periods has been strong and has enabled us to maintain the income-generating capacity of the portfolio.

Thank you for your continued interest in and support of Babson Capital Participation Investors.

Sincerely,

Michael L. Klofas President

(a) Calculated using average shares.

(b) Rounds to less than \$0.01 per share.

(c) Net asset value return represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions which differs from the total investment return based on the Trust's market value due to the difference between the Trust's net asset value and the market value of its shares outstanding; past performance is no guarantee of future results.

(d) As additional information, this ratio is included to reflect the taxes paid on retained long-term gains. These taxes paid are netted against realized capital gains in the Statement of Operations. The taxes paid are treated as deemed distributions and a credit for the taxes paid is passed on to shareholders.
