Investment Objective and Policy

Babson Capital Corporate Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol "MCI". The Trust's share price can be found in the financial section of most newspapers under either the New York Stock

Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maintain a portfolio of securities providing a current yield and at the same time offering an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, warrants, conversion rights, or other equity features and, occasionally, preferred stocks. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically mezzanine debt instruments with accompanying private equity securities made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable investment grade debt securities, other marketable debt securities (including high yield securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal.

Babson Capital Management LLC ("Babson Capital") manages the Trust on a total return basis. The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders in January, May, August, and November. The Trust pays dividends to its shareholders in cash, unless the shareholder elects to participate in the Dividend Reinvestment and Share Purchase Plan.

#### Form N-Q

The Trust files its complete schedule of portfolio holdings with the U.S. Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. #### Legal Matters

The Trust has entered into contractual arrangements with an investment adviser, transfer agent and custodian (collectively "service providers") who each provide services to the Trust. Shareholders are not parties to, or intended beneficiaries of, these contractual arrangements, and these contractual arrangements are not intended to create any shareholder right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

Under the Trust's Bylaws, any claims asserted against or on behalf of the Trust, including claims against Trustees and officers must be brought in courts located within the Commonwealth of Massachusetts.

The Trust's registration statement and this shareholder report are not contracts between the Trust and its shareholders and do not give rise to any contractual rights or obligations or any shareholder rights other than any rights conferred explicitly by federal or state securities laws that may not be waived.

Babson Capital Corporate Investors

TO OUR SHAREHOLDERS

April 30, 2016

We are pleased to present the March 31, 2016 Quarterly Report of Babson Capital Corporate Investors (the "Trust").

The Board of Trustees declared a quarterly dividend of \$0.30 per share, payable on May 13, 2016 to shareholders of record on May 2, 2016. The Trust paid a \$0.30 per share dividend for the preceding quarter. The Trust earned \$0.24 per share of net investment income, including \$0.03 per share of non-recurring charges, for the first quarter of 2016, compared to \$0.28 per share, including \$0.01 per share of non-recurring income, in the previous quarter.

During the first quarter, the net assets of the Trust increased to \$282,588,113 or \$14.35 per share compared to \$275,915,289 or \$14.03 per share on December 31, 2015. This translates into a 2.3% total return for the quarter, based on the change in the Trust's net assets assuming the reinvestment of all dividends. Longer term, the Trust returned 3.9%, 10.2%, 12.0%, 10.4%, and 13.7% for the 1-, 3-, 5-, 10-, and 25-year periods ended March 31, 2016, respectively, based on the change in the Trust's net asset value (net of all fees and expenses) assuming the reinvestment of all dividends and distributions.

The Trust's share price decreased 1.4% during the quarter, from \$17.25 per share as of December 31, 2015 to \$17.01 per share as of March 31, 2016. The Trust's market price of \$17.01 per share equates to an 18.5% premium over the March 31, 2016 net asset value per share of \$14.35. The Trust's average quarter-end premium for the 3-, 5- and 10-year periods was 10.5%, 16.0% and 13.0%, respectively. U.S. equity markets, as approximated by the Russell 2000 Index, decreased 1.5% for the quarter. U.S. fixed income markets, as approximated by the Barclays Capital U.S. Corporate High Yield Index, increased 3.4% for the quarter.

The Trust closed four new private placement investments, as well as one add-on investment in an existing portfolio company, during the first quarter. The four new investments were in Glynlyon Holding Companies, Inc., PANOS Brands LLC, Veritext Corporation and Wolf-Gordon, Inc., while the add-on investment was in PPC Event Services. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$14,086,000.

It was an active first quarter for the Trust in terms of new investments. Middle market merger and acquisition activity, a key driver of deal flow for the Trust, was steady during the quarter. We expect deal flow to remain steady for the rest of the year, assuming no significant external shocks to the market, so we are optimistic about the level of new investment activity for the Trust in 2016. The dark cloud on the horizon though, continues to be the high purchase prices and leverage levels that have been common in buyout transactions for the last couple of years. Average purchase price multiples for small companies continue to be at their highest levels in the past 15 years. Leverage multiples have also been worrisomely high for several years and are near their highs of the past 15 years as well. Though we are actively making new investments on behalf of the Trust in this market, we do so cautiously and with discipline, consistent with our longstanding investment philosophy of seeking to take prudent levels of risk and getting paid appropriately for the risk taken. We are not willing to provide financial leverage at levels that we believe are imprudent. This approach has served us well over the long term and through all kinds of market cycles.

The condition of the Trust's existing portfolio remained solid through the first quarter. The number of companies on our watch list and in default continues to be at or near the lowest level we have seen over the last five years. We successfully exited one investment during the quarter. We have a solid backlog of portfolio companies that are in the process of being sold, with three companies already having been sold so far in the second quarter. We had no companies pay their debt instruments held by the Trust during the quarter.

While the Trust was able to maintain its \$0.30 per share quarterly dividend for the first quarter, we must make note again, as we have for over two years now, that this dividend level may not be sustainable through 2016. The Trust's net investment income per share from recurring sources of \$0.27 for the first quarter was once again below the dividend rate. Net investment income per share from recurring sources has been below the dividend rate for every quarter since the third quarter of 2013. As we have discussed in prior reports, net investment income is down due principally to the considerable reduction in the number of private debt securities in the portfolio resulting from the high level of exit and prepayment activity that occurred in 2013 and 2014. With several strong recent quarters of new investment activity, we have made some progress in rebuilding the private portfolio, but it is still well below its former size. We have been able to maintain the \$0.30 per share quarterly dividend with current income, non-recurring income and earnings carried forward from prior quarters. Over time, however, the Trust's dividend-paying ability tends to be correlated with its recurring earnings capacity. This quarter, the Trust utilized \$0.06 per share of earnings carry-forwards to maintain the \$0.30 per share quarterly dividend. The Trust continues to have earnings carry-forwards which should be available to supplement recurring income for the next few quarters. But unless market conditions change dramatically, it is still

unlikely that we will be able to completely rebuild the portfolio back to its former size in the near term and grow net investment income. As a result, it is likely that in 2016 we will have to reduce the dividend from the current \$0.30 per share quarterly rate. As we move through 2016, we and the Board of Trustees will continue to evaluate the current and future earnings capacity of the Trust and formulate a dividend strategy that is consistent with that earnings level.

On behalf of the Trust's shareholders, the members of the Board of Trustees and the officers of the Trust, I would like to thank William J. Barrett for his many years of dedicated service to the Trust as a Trustee. Bill retired from the Board of Trustees effective as of the Trust's Annual Meeting of Shareholders which occurred on April 22, 2016. Bill had been a Trustee since 2006, and has provided the Trust with invaluable insight and guidance and has served our shareholders extremely well during his long tenure as a Trustee.

Lastly, as I announced at the Annual Meeting of Shareholders, I will be retiring from Babson Capital and as President of the Trust, effective June 1, 2016. At their April 22, 2016 meeting, the Board of Trustees elected Robert M. Shettle to succeed me as President of the Trust. Bob joined Babson Capital in 1998 and is currently a Vice President of the Trust and also head of Babson Capital's Mezzanine and Private Equity Group, where he oversees a team of investment professionals who originate, analyze, structure and document mezzanine and private equity investments.

Thank you for your continued interest in and support of Babson Capital Corporate Investors.

Sincerely,

Michael L. Klofas

President

(a) Calculated using average shares.

Net asset value return represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions which differs from the total investment return based on the Trust's market value due to the difference between the Trust's net asset value and the market value of its shares outstanding; past performance is no guarantee of future results.

As additional information, this ratio is included to reflect the taxes paid on retained long-term gains. These taxes (c) paid are netted against realized capital gains in the Statement of Operations. The taxes paid are treated as deemed distributions and a credit for the taxes paid is passed on to the shareholders.
