Forward-Looking Statements

The following discussion contains forward-looking statements regarding us, our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that may affect such forward-looking statements include, without limitation: our ability to successfully develop new products and services for new markets; the impact of competition on our revenues, changes in law or regulatory requirements that adversely affect or preclude clients from using us for certain applications; delays our introduction of new products or services; and our failure to keep pace with our competitors.

When used in this discussion, words such as "believes", "anticipates", "expects", "intends" and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the risks and factors that may affect our business.

PART I

Item 1. DESCRIPTION OF BUSINESS.

(a) RISK FACTORS

You should carefully consider the risks and uncertainties described below; and all of the other information included in this document. Any of the following risks could materially adversely affect our business, financial condition or operating results and could negatively impact the value of your investment.

WHILE WE HAVE GENERATED A MODEST PROFIT IN OUR LAST TWO FISCAL YEARS, THERE IS NO GUARANTEE THAT WE WILL CONTINUE TO BE PROFITABLE.

Our revenues for the fiscal year ended December 31, 2005 were \$7,951,962. We had net income of \$77,666 for the fiscal year ended December 31, 2005. Our revenues

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

for the fiscal year ended December 31, 2004 were \$1,787,922. We had net income of \$25,686 for the fiscal year ended December 31, 2004. Although we have had a modest profit for the past two fiscal years, we cannot say whether we will be able to achieve sustained profitability. We have only completed several transactions, so it continues to be difficult for us to accurately forecast our quarterly and annual revenue. However, we use our forecasted revenue to establish our expense budget. Most of our expenses are fixed in the short term or incurred in advance of anticipated revenue. As a result, we may not be able to decrease our expenses in a timely manner to offset any revenue shortfall. We attempt to keep revenues in line with expenses but cannot guarantee that we will be able to do so.

WE WILL NEED ADDITIONAL FINANCING IN THE FUTURE BUT CANNOT GUARANTEE THAT IT WILL BE AVAILABLE TO US.

In order to expand our business, we will continue to need additional capital. To date, we have been successful in obtaining capital, but we cannot guarantee that additional capital will be available at all or under sufficient terms and conditions for us to utilize it. Because we have an ongoing need for capital, we may experience a lack of liquidity in our future operations.

3

WE WILL NEED ADDITIONAL FINANCING IN THE FUTURE BUT CANNOT GUARANTEE THAT IT WILL BE AVAILABLE TO US.

In order to expand our business, we will continue to need additional capital. To date, we have been successful in obtaining capital, but we cannot guarantee that additional capital will be available at all or under sufficient terms and conditions for us to utilize it. Because we have an ongoing need for capital, we may experience a lack of liquidity in our future operations. We expect that we will need additional financing of some type, which we do not now possess, to fully develop our operations. We expect to rely principally upon our ability to raise additional financing, the success of which cannot be guaranteed. To the extent that we experience a substantial lack of liquidity, our development in accordance with our proposed plan may be delayed or indefinitely postponed, which would have a materially adverse impact on our operations and the investors' investment.

AS A COMPANY WITH LIMITED OPERATING HISTORY, WE ARE INHERENTLY A RISKY INVESTMENT. OUR OPERATIONS ARE SUBJECT TO OUR ABILITY TO FINANCE REAL ESTATE PROJECTS.

Because we are a company with a limited history, our operations, which consist of real estate financing of build-to-suite projects for specific national retailers, must be considered an extremely risky business, subject to numerous risks. Our operations will depend, among other things, upon our ability to finance real estate projects and for those projects to be sold. Further, there is the possibility that our proposed operations will not generate income sufficient to meet operating expenses or will generate income and capital appreciation, if any, at rates lower than those anticipated or necessary to sustain the investment. Our operations may be affected by many factors, some of which are beyond our control. Any of these problems, or a combination thereof, could have a materially adverse effect on our viability as an entity.

WE HAVE A HEAVY RELIANCE ON OUR CURRENT FUNDING COMMITMENT WITH OUR LARGEST SHAREHOLDER

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

We are currently dependant on our relationship with GDBA Investments, LLLP, ("GDBA"), our largest shareholder, through its Agreement to Fund. We would be unable to fund any projects if we lose our current funding commitment from GDBA (see Note 3 in Notes to Consolidated Financial Statements). In addition, our senior credit facility with Vectra Bank Colorado, which is renewable annually, has been guaranteed by GDBA Investments and its principals. Given the early stage of our company, it is unlikely that we could renew our senior credit facility without the continuation of these guarantees.

WE DO NOT HAVE A LONG HISTORY OF BEING ABLE TO SELL PROPERTIES AT A PROFIT

We have only been in business since 2003. We do not have a significant track record and may be unable to sell properties upon completion. We may be forced to sell properties at a loss. Furthermore, in order to sell properties for a profit, we may be forced to hold properties for longer periods that we plan, which may require the need for additional financing sources. Any of these conditions would likely result in reduced operating profits and could likely strain current funding agreements.

THE MANNER IN WHICH WE FINANCE OUR PROJECTS CREATES THE POSSIBILITY OF A CONFLICT OF INTEREST.

We fund our projects with construction financing obtained through the efforts of our management and largest shareholder, GDBA. This arrangement could create a conflict of interest with respect to such financings. However, there may be an inherent conflict of interest in the arrangement until such time as we might seek such financings on a competitive basis.

INTENSE COMPETITION IN OUR MARKET COULD PREVENT US FROM DEVELOPING REVENUE AND PREVENT US FROM ACHIEVING ANNUAL PROFITABILITY.

We provide a defined service to finance real estate projects. The barriers to entry are not significant. Our service could be rendered noncompetitive or obsolete. Competition from larger and more established companies is a significant threat and expected to increase. Most of the companies with which we compete and expect to compete have far greater capital resources, and many of them have substantially greater experience in real estate development. Our ability to compete effectively may be adversely affected by the ability of these competitors to devote greater resources than we can.

OUR SUCCESS WILL BE DEPENDENT UPON OUR MANAGEMENT'S EFFORTS.

Our success will be dependent upon the decision making of our directors and executive officers. These individuals intend to commit as much time as necessary to our business, but this commitment is no assurance of success. The loss of any or all of these individuals, particularly Mr. Alexander V. Lagerborg, our President, could have a material, adverse impact on our operations. We have no written employment agreements with any officers and directors, including Mr. Lagerborg. We have not obtained key man life insurance on the lives of any of these individuals.

OUR STOCK PRICE MAY BE VOLATILE, AND YOU MAY NOT BE ABLE TO RESELL YOUR SHARES AT OR ABOVE THE PUBLIC SALE PRICE.

There has been, and continues to be, a limited public market for our common stock. Our common stock trades on the NASD Bulletin Board. However, an active

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

trading market for our shares has not, and may never develop or be sustained. If you purchase shares of common stock, you may not be able to resell those shares at or above the initial price you paid. The market price of our common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, including the following:

4

- * actual or anticipated fluctuations in our operating results;
- * changes in financial estimates by securities analysts or our failure to perform in line with such estimates;
- * changes in market valuations of other real estate oriented companies, particularly those that market services such as ours;
- * announcements by us or our competitors of significant innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- * introduction of technologies or product enhancements that reduce the need for our services;
- * the loss of one or more key customers; and
- * departures of key personnel.

Further, we cannot assure that an investor will be able to liquidate his investment without considerable delay, if at all. The factors which we have discussed in this document may have a significant impact on the market price of our common stock. It is also possible that the relatively low price of our common stock may keep many brokerage firms from engaging in transactions in our common stock.

As restrictions on resale end, the market price of our stock could drop significantly if the holders of restricted shares sell them or are perceived by the market as intending to sell them.

BUYING A LOW-PRICED PENNY STOCK SUCH AS OURS IS RISKY AND SPECULATIVE.

Our shares are defined as a penny stock under the Securities and Exchange Act of 1934, and rules of the Commission. The Exchange Act and such penny stock rules generally impose additional sales practice and disclosure requirements on broker-dealers who sell our securities to persons other than certain accredited investors who are, generally, institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 jointly with spouse, or in transactions not recommended by the broker-dealer. For transactions covered by the penny stock rules, a broker-dealer must make a suitability determination for each purchaser and receive the purchaser's written agreement prior to the sale. In addition, the broker-dealer must make certain mandated disclosures in penny stock transactions, including the actual sale or purchase price and actual bid and offer quotations, the compensation to be received by the broker-dealer and certain associated persons, and deliver certain disclosures required by the SEC. Consequently, the penny stock rules may affect the ability of broker-dealers to make a market in or trade our common stock and may also affect your ability to sell any of our shares you may own in the public markets.

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

WE DO NOT EXPECT TO PAY DIVIDENDS ON COMMON STOCK

We have not paid any cash dividends with respect to our common stock, and it is unlikely that we will pay any dividends on our common stock in the foreseeable future. Earnings, if any, that we may realize will be retained in the business for further development and expansion.

5

(b) NARRATIVE DESCRIPTION OF THE BUSINESS

General

We have ongoing revenue-producing operations and were currently profitable as of our two most recent fiscal year ends. We act as a co-developer, principally as a financier, for built-to-suit real estate development projects for retailers who sign long-term leases for use of the property. We plan to create each project such that it will generate income from the placement of the construction loan, current income during the period in which the property is held, and the capital appreciation of the facility upon sale. Affiliates and management of ours will develop the construction and permanent financing for our benefit.

All of our operations are located in the United States. We plan to use our status as a public company to expand our operations. However, there can be no assurance that this objective will be achieved.

foreseeable future and believe that our fund raising will be enhanced by having a record of regular disclosure under the 1934 Act. We have no plans in the foreseeable future, under any circumstances, to terminate our registration under the 1934 Act.

(c) OPERATIONS

We act as a co-developer, including as a financier, to develop built-to-suit real estate projects for specific retailers and other tenants who sign long-term leases for use of the property. Our primary source of revenue is from profits we receive upon the sale of our projects upon completion; however we also receive revenue from preferred dividends on our invested capital in projects, management fees we charge to our projects and rental income from our completed projects before their disposition. In addition we may share in certain revenues directly related to our projects with our development partners such as development fees and leasing and sales commissions.

Our activities include raw land acquisition and facility construction. In such a situation, we provide construction and property management expertise in exchange for an equity interest in the property. We also develop projects with construction and permanent financing to be obtained through the efforts of our management and affiliates. To date, we have hired third party contractors to work on our projects but plan eventually to use our own staff as well.

In 2005 we expanded our activity to ten states throughout the United States. We intend to continue our efforts to expand our presence throughout the United States through our focus of build-to-suit construction projects for national and regional retailers.

6

FUNDING:

On November 26, 2004 we entered into a three-year "Agreement to Fund" our real estate projects with GDBA Investments, LLLP ("GDBA"), our largest shareholder. Under the agreement, we may borrow up to \$7,000,000 for our real estate projects. On June 2, 2005, the parties amended the agreement to permit us to borrow up to \$10,000,000. Each loan is secured only by the properties against which the loans are made and by AARD with a corporate guarantee to the lender. The adjustable interest rate resets quarterly at a rate equal to the 10 year Treasury note plus 6.50%. We repay principal and interest when each project is completed and sold.

On April 25, 2005, we received a \$10,000,000 financing commitment under a Credit Agreement from Vectra Bank of Colorado ("Vectra Bank"). This commitment permits us to fund construction notes for build-to-suit real estate projects for national and regional chain retailers. The financing is facilitated through a series of promissory notes. Each note is issued for individual projects under the facility and must be underwritten and approved by Vectra Bank and has a term of 12 months with one (1) allowable extension not to exceed 6 months subject to approval. Interest is funded from an interest reserve established with each construction loan. Each note under the facility is for an amount, as determined by Vectra Bank, not to exceed the lesser of 75% of the appraised value of the real property under the approved appraisal for the project or 75% of the project costs. Principal on each note is due at maturity, with no prepayment penalty. Vectra Bank retains a First Deed of Trust on each property financed and the facility has the personal guarantees of GDBA and its owners.

In all of our transactions with affiliates, we examine current market conditions and attempt to develop terms and conditions no less favorable than could be negotiated in an arms-length transaction.

We continue to assess the capital markets so that we can attempt to achieve the most efficient and effective capital structure available to us. This may include efforts to increase our senior and subordinated debt lines in addition to efforts to raise additional capital through a number of sources, including, but not limited to, equity or debt offerings, borrowings, or joint ventures. At the present time, other than looking for additional financing for construction and permanent financing, we have no plans to raise any additional funds within the next twelve months. Any working capital will be expected to be generated from internal operations. However, we reserve the right to examine possible additional sources of funds, including, but not limited to, equity or debt offerings, borrowings, or joint ventures.

On December 21, 2005 we announced that we have entered into letters of intent with two entities to provide financing for our continuing operations. One of the entities is GDBA, who would convert approximately \$3,000,000 of current debt into Convertible Preferred Stock. As a result, under each letter of intent, each entity would hold a total investment of \$10,000,000 in two instruments, consisting of Senior Subordinated Notes, for a total of \$7,000,000, and Convertible Preferred Stock, for a total of \$3,000,000. The entity, which is not GDBA, or its designees, would also be allowed to purchase an additional amount of Convertible Preferred Stock up to an additional \$300,000. The letters of intent are not binding upon the parties and remain subject to the execution of mutually acceptable contracts. As of March 23, 2006, no such contracts have been executed on either instrument and each remain outstanding only as letters of

intent.

In addition we may expand through acquisition. We may not only look at our present industry but we will reserve the right to investigate and, if warranted, could merge with or acquire the assets or common stock of an entity actively engaged in business which generates revenues. We will seek opportunities for long-term growth potential as opposed to short-term earnings. As of the date hereof, we have no business opportunities under investigation. None of our officers, directors, promoters or affiliates have engaged in any preliminary contact or discussions with any representative of any other company regarding the possibility of an acquisition or merger between us and such other company.

9

(d) MARKETS

We are currently focused on the development of build-to-suit single pad, small box retail projects for national and regional retailers throughout the United States. We operate primarily in the sale-leaseback market whereby the retailer sign long term leases prior to development and our majority-owned subsidiary constructs the project with the intent of selling the property to third party investors upon project completion. During 2005 we had activities, ranging from the preliminary stage of the development process to completed projects in Arizona, California, Colorado, Florida, Georgia, Kansas, Mississippi, South Carolina, Tennessee and Utah. To date our projects have included Advanced Auto Parts, IHOP Restaurant, Lone Star Steakhouse & Saloon, Grease Monkey, Family Dollar Stores and Checker Auto Parts. We have generally acquired our projects through the relationships of our development partners. During 2005 our strategy on increasing our project pipeline centered on increasing the number of our development partners in addition to increasing the number of projects annually with our existing development partners.

(e) RAW MATERIALS

The use of raw materials is not a material factor in our operations at the present time. We do not expect raw materials to be a material factor in the future.

(f) CUSTOMERS AND COMPETITION

Our operational activities are in the business of financing build-to-suit real estate projects for specific retailers who sign long-term leases for use of the property. We believe that this is a potentially large market with no single company or groups of companies holding a dominant share. However, project development is related to being able to convince retailers and developers to use our services, as opposed to the services of others. We believe that there could potentially be a number of established competitors, many of whom could be larger and better capitalized than we are who have greater numbers of personnel, more resources and more extensive technical expertise. There can be no guarantee that we will be able to compete successfully in the future.

(g) BACKLOG

At December 31, 2005, we had no backlogs.

(h) EMPLOYEES

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

(i) PROPRIETARY INFORMATION

We own no proprietary information.

(j) GOVERNMENT REGULATION

Since we are in the real estate industry, all of our projects have and will require local governmental approval with respect to zoning and construction code compliance. We will only require government approval on a project-by-project basis and only when we have projects pending. The extent of the approval varies with the project and the jurisdiction and cannot be quantified except as it

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

relates to specific projects.

We believe the effect of complying with existing or probable governmental regulations is a managed cost of our business operations but could be significant. Each real estate project requires prior government approval. However, the cost cannot be quantified except as it relates to specific projects.

We believe that the cost of compliance with federal, state and local environmental laws will not be significant because we do not plan to choose projects which are subject to significant environmental costs or regulations. In any case, we plan to choose our projects to minimize the effects of governmental regulations. At the present time, we have no current projects and are not awaiting any governmental approvals.

(k) RESEARCH AND DEVELOPMENT

We have never spent any amount in research and development activities.

(l) ENVIRONMENTAL COMPLIANCE

We are not subject to any material costs for compliance with any environmental laws.

(m) SUBSEQUENT EVENTS

Effective March 2, 2006, Mr. Charles J. Berling resigned from our Board of Directors. He remains our Executive Vice President and Managing Director of Operations. As a result of Mr. Berling's resignation, we have appointed Mr. G. Brent Backman to our Board of Directors. Mr. Backman is a principal of GDBA.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

We held no shareholders meeting in the fourth quarter of our fiscal year.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

(a) PRINCIPAL MARKET OR MARKETS

On June 29, 2005 our securities became listed and began trading on the NASD Bulletin Board under the symbol AARD.OB. Because we trade in the NASD Bulletin Board, a shareholder may find it difficult to dispose of or obtain accurate quotations as to price of our securities. In addition, The Securities Enforcement and Penny Stock Reform Act of 1990 requires additional disclosure related to the market for penny stock and for trades in any stock defined as a penny stock.

The following table sets forth the high and low closing bid prices of our common stock on for the periods indicated in 2005 and 2004.

2005	Closing Bid Price	
	High	Low
First Quarter	\$2.95	\$1.30
Second Quarter	\$2.95	\$1.50
Third Quarter	\$3.00	\$2.00
Fourth Quarter	\$2.50	\$1.50

2004	Closing Bid Price	
	High	Low
First Quarter	\$0.50	\$0.20
Second Quarter	\$0.55	\$0.40
Third Quarter	\$2.53	\$0.55
Fourth Quarter	\$3.00	\$1.25

12

On March 23, 2006, the closing bid price of our common stock in the OTC Bulletin Board was \$2.00 per share and our volume was 0 shares.

(b) APPROXIMATE NUMBER OF HOLDERS OF COMMON STOCK

As of the date hereof, a total of 16,036,625 of shares of our Common Stock were outstanding and the number of holders of record of our common stock at that date

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

was ninety three.

(c) DIVIDENDS

Holders of common stock are entitled to receive such dividends as may be declared by our Board of Directors. No dividends on the common stock were paid by us during the periods reported herein nor do we anticipate paying dividends in the foreseeable future.

(d) THE SECURITIES ENFORCEMENT AND PENNY STOCK REFORM ACT OF 1990

The Securities Enforcement and Penny Stock Reform Act of 1990 requires additional disclosure and documentation related to the market for penny stock and for trades in any stock defined as a penny stock. Unless we can acquire substantial assets and trade at over \$5.00 per share on the bid, it is more likely than not that our securities, for some period of time, would be defined under that Act as a "penny stock." As a result, those who trade in our securities may be required to provide additional information related to their fitness to trade our shares. These requirements present a substantial burden on any person or brokerage firm who plans to trade our securities and would thereby make it unlikely that any liquid trading market would ever result in our securities while the provisions of this Act might be applicable to those securities.

Any broker-dealer engaged by the purchaser for the purpose of selling his or her shares in us will be subject to Rules 15g-1 through 15g-10 of the Securities and Exchange Act. Rather than creating a need to comply with those rules, some broker-dealers will refuse to attempt to sell penny stock.

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the Commission, which:

- contains a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation to such duties or other requirements of the Securities Act of 1934, as amended;
- contains a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the bid and ask price;
- contains a toll-free telephone number for inquiries on disciplinary actions;
- defines significant terms in the disclosure document or in the conduct of trading penny stocks; and
- contains such other information and is in such form (including language, type, size and format) as the Securities and Exchange Commission shall require by rule or regulation;

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, to the customer:

- the bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling their securities.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion contains forward-looking statements regarding us, our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that may affect such forward-looking statements include, without limitation: our ability to successfully develop new products and services for new markets; the impact of competition on our revenues, changes in law or regulatory requirements that adversely affect or preclude clients from using us for certain applications; delays our introduction of new products or services; and our failure to keep pace with our competitors.

When used in this discussion, words such as "believes", "anticipates", "expects", "intends" and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the risks and factors that may affect our business.

General

Our results of operations will probably be subject to variations. The results for a particular period may vary as a result of a number of factors. These include:

- * the overall state of the real estate segment of the economy,

- * the development status of and demand for our services and products,
- * economic conditions in our markets,
- * the timing of expenditures in anticipation of future revenues,

14

- * the mix of services and products sold by us,
- * the introduction of new services and products,
- * product enhancements by us or our competitors, and
- * pricing and other competitive conditions.

Overview and Recent Developments

We act as a co-developer, principally as a financier, for built-to-suit real estate development projects for retailers who sign long-term leases for use of the property.

We were incorporated under the laws of the State of Colorado on April 22, 2003. We have operations and are currently profitable.

In 2003, we completed a registered offering of our common shares under the provisions of the Colorado securities laws and under an exemption from the federal securities laws. We raised a total of \$34,325 in this offering.

Throughout the fiscal year ended December 31, 2005, we sold three projects. In the same period, we were involved in a total of sixteen project sites that were in various stages of the development process, ranging from purchased land to completed projects. As of March 23, 2006, we own twelve sites that are currently being developed or are preparing to be developed. We have three projects that are completed and are either for sale or under contract to sell. We currently have fourteen property sites under contract to purchase for future development. We continue to focus on the development of build-to-suit single pad, small box retail projects for national and regional retailers throughout the United States, and we continue our efforts to expand our footprint further throughout the country, in addition to increasing our exposure to retail developers and national retailers.

We intend to continue expanding our project pipeline by increasing the number of our development partners as well as adding the number of projects annually with our existing development partners. In 2006 we plan to also implement an expansion program to grow our presence across the United States with regional sales offices in strategic locations throughout the country. We believe that by adding additional sales people in various regions that we can further extend our reach to regional developers and national retailers. In 2006 we also intend to increase our marketing efforts directly to national retailers. We believe that we can add financial efficiencies to the development of small-box built-to-suit retail projects that could ultimately lower the cost of growth for retailers. We believe that these increased marketing efforts could result in increased revenue growth for 2006, as well as longer term.

Results of Operations

The following discussion involves our results of operations for the fiscal years ending December 31, 2005 and December 31, 2004. Our revenues for the twelve months ended December 31, 2005 were \$7,951,962 compared to revenues of \$1,787,922 for the twelve months ended December 31, 2004, which represents a year over year increase of approximately 345%.

While we sold three projects in 2005 compared to two projects in 2004, much of the increase in revenues was attributable to an increase in the size of the projects that were sold. We continue to focus on projects that will yield revenues in a range of \$1,000,000 to \$4,000,000. We would expect this will be the range we continue to focus on going forward.

We also generate revenues from rental income of properties that are completed and have not yet been sold, in addition to management fees we charge to the project at the time of the land acquisition. We increased both of these areas substantially in 2005 compared to 2004 simply because of our increased activity, and we expect this trend to continue. However, the revenues derived from rental income and management fees are not a material part of our overall revenues.

Gross margins on our projects sold decreased in 2005 to 10% compared to 18.1% in 2004. This decrease was largely due to our early sale of our Belle Creek project at our cost as well as higher than expected costs on our L-S Corona project, some of which was caused by weather delays in California in early 2005. While we acknowledge these risks exist in our business model, we expect this trend to reverse itself in the upcoming year. We continue to target gross margins similar to those that we achieved in 2004.

Selling, general and administrative costs during 2005 increased approximately 281% compared to 2004. This increase was attributable to the substantial increase in staff over the past year in addition to increased sales and marketing activity to generate additional projects. We anticipate these costs will continue to increase as we continue to grow our business activities going forward.

We had net income of \$77,666 for the twelve months ended December 31, 2005 compared to net income of \$25,686 for the twelve months ended December 31, 2004, which represents a year over year increase of approximately 202%. This increase was despite substantial increases in our interest expense and provision for income tax. Our net income for 2005 also included an executive variable compensation expense of \$19,035, which we did not pay in 2004.

Our balance sheet on December 31, 2005 compared to December 31, 2004 reflects the increase in project activity year over year. Both assets and liabilities increased substantially and proportionally with our additional investments in projects and our required borrowing activity to finance them. Our shareholders' equity increased from \$181,613 for December 31, 2004 to \$254,776 for December 31, 2005, most of which was realized from our net income for the year credited to retained earnings.

Liquidity and Capital Resources

Our cash balance on December 31, 2005 was \$439,314, which included \$180,496 in operating capital and \$258,818 of restricted capital that was designated for specific projects and could not be used for our operations. We generate operating cash from our profits on the sale of properties. We continue to be

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

dependant on our ability to sell our projects on a timely basis in order to generate capital for our operations.

We currently have an agreement with GDBA to allow us to use up to \$200,000 of our existing agreement to fund as an operating line of credit. On December 31, 2005, our balance on this line was zero, leaving the full \$200,000 available to us.

Net cash used in operating activities and in investing activities and net cash provided by financing activities each grew proportionally for the year ended December 31, 2005 due to our increased project activities. We anticipate this trend to continue as we increase our projects going forward.

Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued FASB Statement No. 123R, Share Based Payment, which requires all companies to treat the fair value of stock options granted to employees as an expense. As a result of this standard, effective for periods beginning after January 1, 2006, we and other companies are required to record a compensation expense equal to the fair value of each stock option granted. We are currently assessing our valuation options allowed in this standard. This change in accounting standards reduces the attractiveness of granting stock options because of the additional expense associated with these grants, which would negatively impact our results of operations. And while we do not currently have an employee stock option plan, stock options are an important employee recruitment and retention tool, and we may not be able to attract and retain key personnel without such a program. Accordingly, even though we have not quantified the dollar amount of this standard at this time, the result would have a negative impact on our earnings starting with the accounting period beginning January 1, 2006 should we pursue any form of stock option plan. We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our net results of operations, financial position, or cash flows.

Seasonality

Our revenues are not impacted by seasonal demands for our products or services.

Critical Accounting Policies

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

We believe that the estimates and assumptions that are most important to the portrayal of our financial condition and results of operations, in that they

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

require subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to us. These relate to bad debts, impairment of intangible assets and long lived assets, contractual adjustments to revenue, and contingencies and litigation. We believe estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events or occurrences result in unanticipated consequences, there could be a material impact on our future financial conditions or results of operations.

Notes to Consolidated Financial Statements

(1) Nature of Organization and Summary of Significant Accounting Policies

Organization and Basis of Presentation

Across America Real Estate Corp. ("AARD" or the "Company") was incorporated under the laws of Colorado on April 22, 2003. The Company is a co-developer, principally as a financier, for built-to-suit real estate development projects for retailers who sign long-term leases for use of the property. Land acquisition and project construction operations are conducted through the Company's subsidiaries. The Company creates each project such that it will generate income from the placement of the construction loan, rental income during the period in which the property is held, and the capital appreciation of the facility upon sale. Affiliates, subsidiaries and management of the Company will develop the construction and permanent financing for the benefit of the Company..

All significant intercompany accounts and transactions have been eliminated in consolidation.

Management changed the manner in which it presents the Company's operating results and cash flows during the year ended December 31, 2004. Management no longer considers the Company in the development stage as defined by the FASB Statement of Standards No. 7, "Accounting and Reporting by Development Stage Enterprises." As a result, cumulative operating results and cash flow information are no longer presented in the accompanying financial statements. This change does not affect our operating results or financial position. Accordingly, no pro forma financial information is necessary.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F-7

ACROSS AMERICA REAL ESTATE CORP. Notes to Consolidated Financial Statements

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less when acquired, to be cash equivalents. The Company had no cash equivalents at December 31, 2005. Cash that has been borrowed specifically for use in future projects is restricted. Restricted cash will be used for projects within the next 12 months.

Accounts Receivable

Accounts receivable consists of amounts due from the sale of real estate projects. The Company considers accounts more than 30 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance. As of December 31, 2005, management believes all receivables are collectible and no allowance for uncollectible accounts is necessary.

Property, Equipment and Depreciation

Property and equipment are stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets, ranging from five to seven years. Expenditures for repairs and maintenance are charged to expense when incurred. Expenditures for major renewals and betterments, which extend the useful lives of existing property and equipment, are capitalized and depreciated. Upon retirement or disposition of property and equipment, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in the statements of operations.

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

Construction in Progress and Land Held for Development

Land acquisition costs are capitalized as "Land Held for Development". Project costs that are associated with the development and construction of a real estate project are capitalized as a cost of that project and are included in the accompanying consolidated financial statements as "Construction in progress". Costs are allocated to individual projects by the specific identification method. Interest costs are capitalized while development is in progress. Once a project is sold, the capitalized costs are reclassified as "Cost of sales" to offset real estate sales in the Statement of Operations.

Impairment and Disposal of Long-Lived Assets

The Company evaluates the carrying value of its long-lived assets under the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". Statement No. 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted future cash flows estimated to be generated by those assets are less than the assets' carrying amount. If such assets are impaired, the impairment to be recognized is measured at the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying value or fair value, less costs to sell.

Income Taxes

The Company accounts for income taxes under the provisions of SFAS No. 109, Accounting for Income Taxes (SFAS 109). SFAS 109 requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

F-8

ACROSS AMERICA REAL ESTATE CORP. Notes to Consolidated Financial Statements

Revenue Recognition

The Company recognizes revenue from real estate sales under the full accrual method. Under the full accrual method, profit may be realized in full when real estate is sold, provided (1) the profit is determinable and (2) the earnings process is virtually complete (the Company is not obligated to perform significant activities after the sale to earn the profit). The Company recognizes revenue from its real estate sales transactions on the closing date.

The Company also generates minimal rental income and management fee income between the periods when a real estate project is occupied through the closing date on which the project is sold. Rental income and management fee income is recognized in the month earned.

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

Earnings per Common Share

Basic earnings per share is computed by dividing income available to common shareholders (the numerator) by the weighted-average number of common shares (the denominator) for the period. The computation of diluted earnings per share is similar to basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if potentially dilutive common shares had been issued.

At December 31, 2005, there was no variance between basic and diluted earnings per share as there were no potentially dilutive common shares outstanding.

Financial Instruments

At December 31, 2005, the fair value of the Company's financial instruments approximate fair value due to the short-term maturity of the instruments.

Year-end

The Company has selected December 31 as its year-end.

Recent Accounting Standards

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29." This Statement eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This Statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect application of SFAS No. 153 to have a material affect on its consolidated financial statements.

In December 2004, the FASB issued a revision to SFAS No. 123, "Share-Based Payment." This Statement supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees" and its related implementation guidance. It establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This Statement does not change the accounting guidance for share-based payment transactions with parties other than employees provided in Statement No. 123 as originally issued and EITF Issue No. 96-18. This Statement is effective for public entities that file as small business issuers as of the beginning of the first fiscal period that begins after December 15, 2005. The application of SFAS No. 123 (revised) would not currently have a material impact on the Company's consolidated financial statements.

The Company exercised an option to extend the lease through December 31, 2004 on the same terms. Payments required under the operating lease are \$250 per month. Future minimum rental payments required under the lease total \$4,750. As of December 31, 2005, the Company owed the shareholder \$4,750 for unpaid lease payments. F-11

ACROSS AMERICA REAL ESTATE CORP. Notes to Consolidated Financial Statements

Agreement to Fund

On November 26, 2004 we entered into a three-year "Agreement to Fund" our real estate projects with GDBA Investments, LLLP ("GDBA"), our largest shareholder. We are currently dependant on this relationship and would be unable to fund any projects if we lose our current funding commitment from GDBA. In addition, our senior credit facility with Vectra Bank Colorado, which is renewable annually, has been guaranteed by GDBA Investments and its principals. Given the early stage of our company, it is unlikely that we could renew our senior credit facility without the continuation of these guarantees.

We utilized capital from GDBA to fund our project growth through 2005. The amount we borrowed throughout the year fluctuated as we borrowed to fund new

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

projects and repaid principal and interest on properties we sold. As of December 31, 2005 we owed GDBA \$7,842,315 in principal and accrued interest of \$573,166.

In 2005, we received \$8,506,471 in loans for our construction projects under our loan agreement with GDBA. We repaid a total of \$3,947,934 during this period to this shareholder. In 2004, we received \$4,628,600 in loans for our construction projects under our loan agreement with GDBA. We repaid a total of \$1,370,127 during this period to this shareholder.

Notes Receivable and Development Deposits

During the course of acquiring properties for development, Across America, on behalf of its subsidiaries and development partners, typically is required to provide capital for earnest money deposits that may or may not be refundable in addition to investing in entitlements for properties before the actual land purchase. Because these activities represent a risk of our capital in the event the land purchase is not completed, it is our policy to require our development partners to personally sign promissory notes to Across America Real Estate Corp. for all proceeds expended before land is purchased. Once the land has been purchased and can collateralize the capital invested by us, the promissory note is cancelled. AARD had \$490,160 in earnest money deposits outstanding at December 31, 2005. These deposits were held by affiliates and all were collateralized by promissory notes from our development partners.

(10) Senior Credit Facility

On April 25, 2005, we received a \$10,000,000 financing commitment under a Credit Agreement from Vectra Bank of Colorado ("Vectra Bank"). This commitment permits us to fund construction notes for build-to-suit real estate projects for national and regional chain retailers. The financing is facilitated through a series of promissory notes. Each note is issued for individual projects under the facility and must be underwritten and approved by Vectra Bank and has a term of 12 months with one (1) allowable extension not to exceed 6 months subject to approval. Interest is funded from an interest reserve established with each construction loan. Each note under the facility is for an amount, as determined by Vectra Bank, not to exceed the lesser of 75% of the appraised value of the

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

real property under the approved appraisal for the project or 75% of the project costs. Principal on each note is due at maturity, with no prepayment penalty. Vectra Bank retains a First Deed of Trust on each property financed and the facility has the personal guarantees of GDBA and its owners.

As of December 31, 2005, we had two outstanding notes under this facility; one for our Stonegate project with a maximum principal amount of \$1,820,000 and a maturity date of March 6, 2007, and one for our Firestone project with a maximum principal amount of \$1,010,000 and a maturity date of September 19, 2006. 2007.....	2,720,457

	3,151,599

(11) Variable Compensation Plan

The variable compensation plan is designed to reward the senior management of AARD based upon the growth and profitability of the Company. The variable compensation pool is calculated by taking income after all expenses but before taxes. The income before taxes is then differentiated into two components; a base component and a growth component.

The base component is an amount equal to the income before taxes and variable compensation for the prior year. The growth component is calculated by subtracting the base component from the current year's income before taxes and variable compensation. The variable compensation pool is calculated by multiplying the base component by 8% and the growth component by 15% and adding the two figures together.

(12) Capitalized Interest and Interest Expense

For the year ended December 31, 2005 the Company has recognized \$130,250 interest expense that is not related to capitalized projects and \$815,975 capitalized interest expense that is included in either Construction in Progress or Property Held for Sale on the balance sheet December 31, 2005, with the exception of projects that were sold during the year, which would have included the capitalized interest amount in our Cost of Sales.

Edgar Filing: ACROSS AMERICA REAL ESTATE CORP - Form 10KSB

(14) Letters of Intent

On December 21, 2005 we announced that we have entered into letters of intent with two entities to provide financing for our continuing operations. One of the entities is GDBA, who would convert approximately \$3,000,000 of current debt into Convertible Preferred Stock. As a result, under each letter of intent, each entity would hold a total investment of \$10,000,000 in two instruments, consisting of Senior Subordinated Notes, for a total of \$7,000,000, and Convertible Preferred Stock, for a total of \$3,000,000. The entity which is not GDBA, or its designees, would also be allowed to purchase an additional amount of Convertible Preferred Stock up to an additional \$300,000. The letters of intent are not binding upon the parties and remain subject to the execution of mutually acceptable contracts. As of March 23, 2006, no such contracts have been executed on either instrument and each remain outstanding only as letters of intent.

Under the agreement, we may borrow up to \$7,000,000 for our real estate projects. On June 2, 2005, the parties amended the agreement to permit us to borrow up to \$10,000,000. Each loan is secured only by the properties against which the loans are made and by us with a corporate guarantee to the lender.
