THE BLACKHAWK FUND
NOTES TO FINANCIAL STATEMENTS
(unaudited)

NOTE 1 - BASIS OF PRESENTATION

Edgar Filing: Blackhawk Fund - Form 10QSB

The accompanying unaudited interim financial statements of The Blackhawk Fund ("Blackhawk" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in Blackhawk's Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for 2005 as reported in the 10-KSB have been omitted.

NOTE 2 - STOCK BASED COMPENSATION

Prior to January 1, 2006 we accounted for stock based compensation under Statement of Financial Accounting Standards No. 123 Accounting for Stock-Based Compensation (FAS 123). As permitted under this standard, compensation cost was recognized using the intrinsic value method described in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). Effective January 1, 2006, the Company has adopted Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment (FAS 123R) and applied the provisions of the Securities and Exchange Commission Staff Accounting Bulletin No. 107 using the modified-prospective transition method. Prior periods were not restated to reflect the impact of adopting the new standard. As a result of the adoption of FAS 123R, stock-based compensation expense recognized during the quarter ended March 31, 2006 includes compensation expense for all share-based payments granted on or prior to, but not yet vested as of December 31, 2005, based on the grant date fair value estimated in accordance with the original provisions of FAS 123, and compensation cost for all share-based payments granted on or subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of FAS 123R.

Beginning on January 1, 2006, any future excess tax benefits derived from the exercise of stock options will be recorded prospectively and reported as cash flows from financing activities in accordance with FAS 123R.

During the quarter ended March 31, 2006, the Company did not make any stock option grants and therefore did not recognize any stock-based compensation expense. During the quarter ended March 31, 2005, the Company granted 470,000,014 options to purchase common stock to employees. All options vested immediately, had an exercise price of 85 percent of market on the date of grant and expiry 10 years from the date of grant. The Company recorded stock based compensation expense of \$393,262, as determined under the intrinsic value method, during the quarter ended March 31, 2005.

NOTE 3 - PROPERTY - HELD FOR SALE

In late March 2006, the Company purchased a condominium located in Carlsbad, California for \$625,083. The Company intends to renovate and sell the condo. Since the Company intends to sell the condominium upon completion of the planned renovations, it has been designated as "held-for-sale." Therefore it will be carried at the lower cost or fair value (net of expected sales costs) during the renovation period and will not be depreciated.

NOTE 4 - COMMON STOCK

During the quarter ended March 31, 2006, the company issued 9 million shares of common stock at par value pursuant to a stock subscription agreement. As of March 31, 2006, the Company had not received the \$9,000 due under the stock subscription agreement and has therefore reflected it as stock subscription receivable (a contra equity account).

On November 7, 2005, The company's Board of Directors declared an 800 to 1 reverse stock split for shareholders of record as of November 17, 2005. All share and per share information has been retroactively restated in the financial statements to reflect the reverse split.

NOTE 5 - NOTES PAYABLE

In conjunction with the purchase of the condominium described in Note 3 above, the Company executed a 30-year adjustable rate promissory note for \$496,000. The initial interest rate on the note is 7.875% and may change on April 1, 2008 and on that date every sixth month thereafter. Pursuant to the terms of the note, the Company is required to make interest only payments for the first 10 years (first 120 payments). The initial monthly payments will be \$3,225 and may change beginning on April 1, 2008. The note payable is personally guaranteed by the Company's president.

(unaudited)

During the quarter ended March 31, 2006, the Company received advances from Palomar Enterprises, Inc. ("Palomar") totalling approximately \$158,000. Palomar is controlled by the Company's CEO and CFO. Of the \$158,000, \$23,000 was used to repay advances previously made by the CEO and CFO, \$129,000 was used to fund the cash payment made in connection with the acquisition of the condominium (discussed in Note 3 above) with the remainder being retained for general corporate purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS.

FORWARD-LOOKING INFORMATION

Much of the discussion in this Item is "forward looking" as that term is used in Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934. Actual operations and results may materially differ from present plans and projections due to changes in economic conditions, new business opportunities, changed business conditions, and other developments. Other factors that could cause results to differ materially are described in our filings with the Securities and Exchange Commission.

There are several factors that could cause actual results or events to differ materially from those anticipated, and include, but are not limited to general economic, financial and business conditions, changes in and compliance with governmental laws and regulations, including various state and federal environmental regulations, our ability to obtain additional financing from outside investors and/or bank and mezzanine lenders and our ability to generate sufficient revenues to cover operating losses and position us to achieve positive cash flow.

Readers are cautioned not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof. We believe the information contained in this Form 10-QSB to be accurate as of the date hereof. Changes may occur after that date. We will not update that information except as required by law in the normal course of our public disclosure practices.

Additionally, the following discussion regarding our financial condition and results of operations should be read in conjunction with the financial statements and related notes contained in Item 1 of Part I of this Form 10-QSB, as well as the financial statements in Item 7 of Part II of our Form 10-KSB for the fiscal year ended December 31, 2005.

MANAGEMENT'S PLAN OF OPERATIONS.

CURRENT BUSINESS PLAN

The Blackhawk Fund operates with a focus on developing and/or acquiring cash flow positive businesses, acquiring the real property and assets that are material to those businesses and offering various types of financial instruments; including but not limited to, notes, deeds of trust and other types of corporate financing structures.

The real properties acquired may be improved and re-sold at higher prices or held for income and appreciation, depending on the market conditions. Properties purchased will generally need minor improvements prior to re-sale, this work will be contracted out to independent contractors. The properties being held for income and appreciation will generate sufficient rental income to be cash-flow positive and located in markets with a high probability of appreciation.
