## Tenaris Announces 2011 First Quarter Results

The financial and operational information contained in this press release is based on audited consolidated financial statements presented in U.S. dollars and prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standard Board and adopted by the European Union, or IFRS.

Luxembourg, May 5, 2011. - Tenaris S.A. (NYSE, Buenos Aires and Mexico: TS and MTA Italy: TEN) (“Tenaris”) today announced its results for the quarter ended March 31, 2011 with comparison to its results for the quarter ended March 31, 2010.

### Summary of 2011 First Quarter Results

(Comparison with fourth and first quarters of 2010)

	Q1 2011	Q4 2010		Q1 2010

EBITDA* (US\$ million)	570.8	515.5	11%	435.4	31%
EBITDA margin (% of net sales)	25%	25%		27%	

\*EBITDA is defined as operating income plus depreciation, amortization and impairment charges/(reversals)

Our first quarter results reflect improving levels of demand for our products and services in all of our operating segments. Net sales in our Tubes operating segment and shipments of seamless pipe products each rose 12% sequentially. Operating income was 43% higher year on year but declined 3% sequentially, as operating income in the fourth quarter of 2010 included a gain from impairment reversal of \$67.3 million at our Canadian welded operations.

At the end of the quarter, our net cash position (cash and other current investments less total financial debt) amounted to US\$230.5 million, following an increase in working capital of US\$392.9 million, which reflects a higher level of sales during the quarter and a higher cost of inventories. Capital expenditures amounted to US\$210.6 million.

### Market Background and Outlook

Oil prices have risen and shown increased volatility since political unrest in North Africa cut off Libyan oil exports and a tragic earthquake and tsunami which damaged nuclear energy facilities in Japan. Global drilling activity continues to rise in almost every region and we expect that drilling activity will continue to rise, excluding the effect

of seasonal variations, through the year. Activity in the Middle East is expected to receive an additional boost from Saudi Arabia's response to the current market conditions.

We expect that sales in our Tubes operating segment will continue to grow throughout 2011. Sales in our Projects and Others operating segments are also expected to show sustained growth compared to 2010. Average selling prices are expected to benefit from improving prices and a good product mix, though these increases are likely to be partially offset by increases in raw material and other costs. Accordingly, our sales and operating income should continue to increase throughout 2011.

Operating income (% of sales)	19%	23%		20%	

\*Operating income in Q4 2010 includes a gain of US\$67.3 million for impairment reversals

Net sales of tubular products and services increased 12% sequentially and 39% year on year, mainly driven by an increase in shipments volumes. In North America, sales rose sequentially as a strong increase in shipments in Canada and a steady growth in the United States offset a decline in Mexico's shipments. In South America, sales rose sequentially due to an increase in OCTG shipments in the region. In Europe, sales increased sequentially due primarily to higher demand for mechanical pipe. In the Middle East & Africa, higher sales of line pipe products due to the realization of the previous quarter delayed shipments were offset by lower OCTG shipments.

Projects	Q1 2011	Q4 2010		Q1 2010	
Net sales (\$ million)	175.0	146.2	20%	93.2	88%
Cost of sales (% of sales)	69%	69%		68%	
Operating income (\$ million)	31.8	23.6	35%	8.5	274%
Operating income (% of sales)	18%	16%		9%	

Projects net sales amounted to US\$175.0 million, an increase of 20% sequentially and 88% relative to the first quarter of 2010. Sequentially, revenues and operating income increased mainly due to higher shipments to gas pipeline projects in Argentina.

Others	Q1 2011	Q4 2010		Q1 2010	
Net sales (\$ million)	181.7	158.6	15%	135.1	35%
Cost of sales (% of sales)	68%	72%		73%	
Operating income (\$ million)	37.5	29.3	28%	21.7	73%
Operating income (% of sales)	21%	18%		16%	

Net sales of other products and services amounted to US\$181.7 million in the first quarter of 2011, 15% higher sequentially and 35% higher relative to the first quarter of 2010. The sequential increase in sales and operating income was due to higher sales of pipes for electric conduits in the United States, industrial equipment in Brazil and sucker rods.

Selling, general and administrative expenses, or SG&A, amounted to 19.4% of net sales in the first quarter of 2011, compared to 19.7% in the previous quarter and 21.2% in the first quarter of 2010. During the first quarter of 2011, SG&A was negatively affected by provisions for receivables and contingencies in Libya of US\$15.1 million and for a new tax in Colombia on net equity of US\$9.3 million.

Net interest expenses amounted to US\$5.4 million in the first quarter of 2011, compared to US\$4.8 million in the previous quarter and US\$12.9 million in the first quarter of 2010. Interest expenses in the first quarter of 2010 were negatively affected by higher interest rates, which were partially offset by foreign exchange gains recorded under other financial results.

Other financial results generated a gain of US\$1.1 million during the first quarter of 2011, compared to a loss of US\$5.4 million in the previous quarter and a gain of US\$7.7 million during the first quarter of 2010. These results largely reflect gains and losses on net foreign exchange transactions and the fair value of derivative instruments and are partially offset by changes to our net equity position. These gains and losses are mainly attributable to variations in the exchange rates between our subsidiaries' functional currencies (other than the US dollar) and the US dollar in accordance with IFRS.

Equity in earnings of associated companies generated a gain of US\$24.3 million in the first quarter of 2011, compared to a gain of US\$11.7 million in the previous quarter and a gain of US\$23.5 million in the first quarter of 2010. These results were derived mainly from our equity investment in Ternium (NYSE:TX).

Income tax charges totaled US\$137.2 million in the first quarter of 2011, equivalent to 31% of income before equity in earnings of associated companies and income tax, compared to 30% in the previous quarter and 35% in the first quarter of 2010.

Income attributable to non-controlling interests amounted to US\$4.8 million in the first quarter of 2011, compared to US\$0.3 million in the previous quarter and US\$2.7 million in the first quarter of 2010.

## Cash Flow and Liquidity

Net cash provided by operations during the first quarter of 2011 was US\$165.7 million, compared to US\$253.8 million in the previous quarter and US\$436.3 million in the first quarter of 2010. Working capital increased by US\$392.9 million during the first quarter of 2011 (mainly due to an increase in trade receivables and in inventories), compared to an increase of US\$152.7 million in the previous quarter and a decrease of US\$124.2 million in the first quarter of 2010.

Capital expenditures amounted to US\$210.6 million for the first quarter of 2011, compared to US\$286.1 million in the previous quarter and US\$158.0 million in the first quarter of 2010.

At the end of the quarter, our net cash position (cash and other current investments less total financial debt) amounted to US\$230.5 million.
