Financial Review

On November 6, 2002, the Company increased the maximum amount available under its Term Loan Facility with Fleet National Bank by \$30 million to \$155 million and extended the maturity date until December 31, 2003.

Activity Review

On December 12, 2002, the Company acquired a portfolio of 57 community and neighborhood shopping centers from Equity Investment Group, a private retail focused REIT. The acquisition of one additional shopping center from Equity Investment Group was completed in January 2003. The aggregate purchase price for the acquisition was approximately \$437 million, consisting of the assumption of approximately \$149 million of outstanding indebtedness, the issuance of approximately \$25 million of units in a partnership controlled by New Plan and approximately \$263 million of cash. The cash component of the acquisition was financed through borrowings under the Company s existing credit facility (a portion of which was subsequently paid down with proceeds generated from the sale of four of the Company s factory outlet centers).

Also during the fourth quarter, the Company acquired Midway Market Square, a 234,670 square foot shopping center located in Elyria, Ohio, for approximately \$24 million, including \$18 million of assumed mortgage indebtedness. In total, 27 properties, including ten shopping centers, five factory outlet centers, nine single tenant properties, one miscellaneous property, one outparcel and one land parcel, were sold during 2002 for an aggregate of approximately \$250 million.

Also on October 11, 2002, the joint venture closed an approximately \$36 million construction loan with Wells Fargo. New Plan received approximately \$28 million from the land sales and loan transaction.

The financial information included in this Supplemental Disclosure is only a summary of more detailed financial information included in the Company's Quarterly Reports on Form 10-Q and Annual Report on Form 10-K, which documents are filed with the Securities and Exchange Commission. For a more complete presentation and analysis of the Company's financial information, please read these reports. These reports are available on the SEC's Internet site at www.sec.gov. In addition, these reports are available on the Company's website at www.newplan.com, under Investor Information; Financial Reports.

Funds from Operations (FFO) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance to net income calculated in accordance with generally accepted accounting principles (GAAP). The Company calculates FFO in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (the White Paper). The White Paper defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of property, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. Given the nature of the Company s business as a real estate owner and operator, the Company believes that FFO is helpful to investors as a measure of its operational performance because it excludes various items included in net income that do not relate to or are not indicative of its operating performance such as various non-recurring items, gains and losses on sales

of real estate and real estate related depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult to compare. FFO should not, however, be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company s financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company s liquidity, and is not indicative of funds available to fund the Company s cash needs, including its ability to make distributions. The Company s computation of FFO may differ from the methodology utilized by other equity REITs to calculate FFO and, therefore, may not be comparable to such other REITs.

⁽¹⁾ For the three and twelve months ended December 31, 2002, balances include approximately \$17.0 million of previously deferred gain incurred in connection with the Company s sale of its garden apartment portfolio in 2001, as well as approximately \$1.8 million resulting from the sale of individual land parcels at Clearwater Mall in 4Q 2002. The sale of the land parcels occurred prior to the Company s contribution of the remaining mall property to the joint venture currently redeveloping the property, resulting in the entire gain being recorded by the Company.

On July 1, 2001, the Company acquired the 5 percent economic interest in ERT Development Corporation (ERT) not previously owned by the Company. As a result, activities of ERT and the Company have been consolidated for GAAP purposes.

The above does not purport to disclose all items required under GAAP.

^{(2) 4}Q 2002 write-off of mortgage premium / discount resulting from the prepayment of the San Dimas and Roanoke Landing mortgages.

⁽³⁾ Excludes extraordinary item.
