**WIMM-BILL-DANN FOODS OJSC ANNOUNCES  
INTERIM 2003 FINANCIAL RESULTS**

**Moscow, Russia September 2, 2003** Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the six months ended June 30, 2003.

During the first half of 2003, Wimm-Bill-Dann's sales rose 17.3% compared to the same period in 2002. Gross profit increased by 17.6% year-on-year, with gross margins rising to 30.3% in the first half of 2003 from 30.2% during the same period last year. Net income was down 21% compared to last year while EBITDA showed a slight increase year-on-year.

Commenting on today's announcement, Sergei Plastinin, CEO of Wimm-Bill-Dann Foods OJSC, said: "We are pleased with the pace of sales growth in the first half of the year, despite the rising commercial cost base and a challenging competitive environment. We have demonstrated our ability to continually develop and market new and innovative products, while expanding our consumer base. Going forward, we see our leading position and tight focus on controlling costs as key to improving profitability."

*Key Operating and Financial Indicators of 1H 2003*

## Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

Wimm-Bill-Dann sales reached US\$472.6 million in the first half of 2003, compared to US\$402.9 million in the first half of 2002.

Sales in the Dairy Segment increased 17.4% from US\$274.1 million in the first half of 2002 to US\$ 321.7 million in the first half of 2003, while the average selling price increased by 8.5% from US\$0.59 per 1 kg. in the first of half 2002 to US\$0.64 per 1 kg. in the first half of 2003. This increase was primarily due to the higher share of value added products in the sales mix. Gross margins in the Dairy Segment increased from 28.2% in the first half of 2002 to 28.4% in the first half of 2003. The variation is primarily due to an increase in the average price and a slight decline in raw milk prices year on year.

Sales in Wimm-Bill-Dann's Juice Segment increased 17.0% from US\$128.8 million in the first half of 2002 to US\$150.6 million in the first half of 2003. The average selling price fell slightly from US\$0.57 per liter in the first half of 2002 to US\$0.56 per liter in the first half of 2003, due primarily to a change in the product mix, favoring lower priced brands. This resulted in a slight decrease in the juice gross margins from 34.8% in the first half of 2002 to 34.6% in the first half of 2003.

Selling and distribution expenses increased in the first half of 2003 in both absolute terms (rising 36.8%) and as a percentage of sales. This was due to an expected increase in personnel, marketing and transportation costs. In addition, we recorded a US\$5 million provision for bad debt. General and administrative expenses, including personnel, legal and consulting services increased by 27.2% as a result of the company's expansion and tougher requirements imposed upon Wimm-Bill-Dann as a public company.

Net income was impacted negatively by increased costs for the first six months of 2003 and stood at US\$17.7 million. EBITDA in the first half of 2003 increased slightly year on year and amounted to US\$47.1 million. EBITDA margin was 10.0% compared to 11.6% in the first half of 2002.

### *Reconciliation of EBITDA and EBITDA margin to US GAAP Net Income and Net Income margin*

	Six Months ended June 30, 2003		Six Months ended June 30, 2002	
	US\$ mln	% of sales	US\$ mln	% of sales
Net income	17.7	3.74%	22.4	5.6%
Depreciation and amortisation	12.8	2.7%	7.7	1.9%
Interest expense	9.5	2.0%	7.6	1.9%
Income tax expense	6.0	1.3%	7.4	1.84%
Minority interest	1.1	0.2%	1.6	0.4%
<b>EBITDA</b>	<b>47.1</b>	<b>10.0%</b>	<b>46.7</b>	<b>11.6%</b>

EBITDA is a non-U.S. GAAP financial measure, which represents net income before interest expense, income taxes, depreciation and amortisation adjusted for minority interest and should not be considered in isolation as an alternative to net income, operating income or any other measure of performance under U.S. GAAP. Further, EBITDA as presented above may not be comparable to similarly titled measures reported by other companies. We believe that EBITDA, which is commonly used financial indicator of a company's operating performance and debt servicing ability, is a relevant measurement to assess performance which attempts to eliminate variances caused by the effects of differences in taxation, the amount and types of capital employed and depreciation and amortisation policies. EBITDA margin is EBITDA expressed as a percentage of sales. Reconciliation of EBITDA and EBITDA margin to net income and net income as percentage of sales, the most directly comparable U.S. GAAP financial measures, is presented in the table above.
