Enrico Cavatorta, chief financial officer of Luxottica Group, commented: The facility is designed to meet our Group's funding needs for the medium-term, including the refinancing of existing debt as it matures. It also firmly puts in place the final piece of the financing necessary for the closing of the proposed acquisition of Cole National Corporation.

We were able to secure advantageous terms, with a spread of between 40 and 60 basis points over LIBOR, depending on the debt to EBITDA ratio. Naturally, we are also pleased to see such a strong show of confidence in our Group from this pool of leading international banks.

The Mandated Lead Arrangers and Bookrunners appointed are ABN AMRO, Banca Intesa, Bank of America, Citigroup, HSBC, Mediobanca, The Royal Bank of Scotland (Documentation Agent) and UniCredit Banca Mobiliare. UniCredito Italiano will act as Facility Agent.

Net sales up 7.9% to euro 760.4 (US\$ 950.3 million)

Operating income up 7.9% to euro 120.1 million

Net income up by 8.5% to euro 71.2 (US\$ 89.0 million)

MILAN, Italy, April 26 – Luxottica Group S.p.A. (NYSE: LUX; MTA: LUX), worldwide leader in the eyewear sector, today announced results for the three-month period ended March 31, 2004¹.

Consolidated Results

First quarter results

Consolidated net sales for the quarter improved year-over-year by 7.9 percent to euro 760.4 million.

Consolidated operating income for the quarter improved year-over-year by 7.9 percent to euro 120.1 million. Consequently, consolidated operating margin for the quarter was 15.8 percent.

Consolidated net income for the quarter improved year-over-year by 8.5 percent to euro 71.2 million. Consequently, consolidated net margin for the quarter was 9.4 percent.

Earnings per share or per American Depositary Share (ADS) (one ADS represents one ordinary share) for the quarter were euro 0.16. In U.S. Dollars, earnings per ADS (EPADS) for the quarter were US\$ 0.20.

Consolidated net outstanding debt as of March 31, 2004, was euro 1,415.6 million compared with euro 1,470.4 million as of December 31, 2003. This reflected an improvement of euro 54.8 million, due to positive cash flow generation for the quarter.

Chairman's statement:

Leonardo del Vecchio, chairman of Luxottica Group, commenting on the consolidated results for the first quarter, said: Our results for the period were particularly encouraging, especially in light of the 14 percent year-over-year devaluation of the U.S. Dollar against the Euro in the period. At the same time, based on market feedback and other indicators we believe to have further strengthened our leadership even in markets that are not growing in absolute terms, but are strategic to our Group. This demonstrates the strong balance of our brand portfolio, which in 2003 grew even stronger and, thanks to our recognized leadership in design, production quality and wholesale distribution, is making us today more competitive and more attractive as a partner for the more prestigious designer brands.

Today, our Group is benefiting from both the improvement in the macro-economic environment, particularly in the U.S., and a number of initiatives launched over the past 18 months to address developments both within and outside the Group. With respect to this, we were pleased to see how our Group was again quick in addressing developments that could have potentially affected us in the long term. Today, after turning the corner on a 2003 that was challenging for the entire sector, our Group finds itself stronger yet and better positioned than the rest of the sector to take advantage of improvements in the markets. As a result, by the end of the current quarter we could revise upwards our previously announced projections for the full year if, in addition to the factors listed above, store traffic consolidates further and the U.S. Dollar should continue in its slow-paced strengthening.

Breakdown of Manufacturing/ Wholesale and Retail Results

Manufacturing/Wholesale Division

The Group's manufacturing/wholesale sales for the first quarter improved year-over-year by 8.1 percent to euro 298.1 million.

Manufacturing/wholesale operating income for the quarter was euro 68.0 million, reflecting an operating margin of 22.8 percent.

Mr. Del Vecchio, commenting on the results of the manufacturing/wholesale division, continued: The results posted for the quarter by our new designer brands Versace and Prada continue to confirm our original expectations both in terms of sales and profitability. At the same time, results from the expansion of the product offering of our collections, as we did with Ray-Ban Ophthalmic, are ahead even of our own expectations, showing that house brands continue to play a fundamental role in our portfolio strategy.

Retail Division

Retail sales improved year-over-year by 7.7 percent to euro 505.3 million. Same store sales for the quarter improved year-over-year by 4.4 percent².

Retail operating income for the first quarter rose by 17.9 percent to euro 64.0 million, resulting in an operating margin of 12.7 percent, compared with operating margin of 11.6 percent for the comparable quarter last year.

Mr. Del Vecchio concluded: We are pleased with the performance of our retail division for the first quarter. Same store sales for the period were up for both LensCrafters and Sunglass Hut International, with Sunglass Hut's figures being slightly higher. This was mainly attributable to two factors: the recovery in the macro-economic environment, especially in the U.S., and improved marketing efforts.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Sales and productivity improvements were the main drivers of the rise in operating profitability at our retail operations, reflecting ongoing efforts to streamline in-store service processes, especially at LensCrafters, as well as overall solid cost control, which is and will continue to be our main focus Group-wide.

(1) Unless otherwise noted, all comparisons made in this announcement are between the three-month period ended March 31, 2004, and the equivalent three-month period ended March 31, 2003. The Company's results are discussed in this announcement in accordance with U.S. GAAP and are broken out for additional perspective into consolidated, manufacturing/wholesale, including Ray-Ban and retail components, which include Sunglass Hut International, LensCrafters and OPSM Group. As there are intercompany items, it is important to note the full reconciliation detailed in the Segmental Information Table provided with this announcement. Additionally, Luxottica Group considers the financial results denominated in Euro (euro), the Group's reporting currency, to be a more accurate gauge of its operating performance. The results denominated in U.S. Dollars were converted at the average exchange rate for the three-month period ended March 31, 2004, of euro 1.00 = US\$ 1.2497, compared with euro 1.00 = US\$ 1.0730 for the first quarter of 2003. Results of the OPSM Group operations were consolidated into the Group's results as of August 1, 2003.

(2) Same store sales are intended as sales that, for comparison purposes, are normalized by using in the calculation only stores open during the comparable period the previous year, the same exchange rates and the same consolidation area. In this case, for the purposes of rendering a picture of the Group's retail results as complete as possible, results of OPSM Group were included in the comparison as if the operations had been consolidated as of January 1, 2003. As a reminder, OPSM Group was formally consolidated into Luxottica Group's as of August 1, 2003.

Notes:

(1) Luxottica Group uses certain measures of financial performance that exclude the impact of fluctuations in currency exchange rates in the translation of operating results into Euro. The Company believes that these adjusted financial measures provide useful information to both management and investors by allowing a comparison of operating performance on a consistent basis. In addition, since the Luxottica Group has historically reported such adjusted financial measures to the investment community, the Company believes that their inclusion provides consistency in its financial reporting. Further, these adjusted financial measures are one of the primary indicators management uses for planning and forecasting in future periods. Operating measures that assume constant exchange rates between the first quarter of 2004 and the first quarter of 2003 are calculated using for each currency the average exchange rate for the three-month period ended March 31, 2003. Operating measures that exclude the impact of fluctuations in

currency exchange rates are not measures of performance under accounting principles generally accepted in the United States (U.S. GAAP). These non-GAAP measures are not meant to be considered in isolation or as a substitute for results prepared in accordance with U.S. GAAP. In addition, Luxottica Group's method of calculating operating performance excluding the impact of changes in exchange rates may differ from methods used by other companies. See Table below for a reconciliation of the operating measures excluding the impact of fluctuations in currency exchange rates to their most directly comparable U.S. GAAP financial measures. The adjusted financial measures should be used as a supplement to U.S. GAAP results to assist the reader in better understanding the operational performance of the Company.
