#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Administrative Committee of	
The 401(k) Plan and the Employee Stock Ownership	

Plan of CVS Corporation and Affiliated Companies:

We have audited the accompanying statements of net assets available for plan benefits of The 401(k) Plan and the Employee Stock Ownership Plan of CVS Corporation and Affiliated Companies (the Plan) as of December 31, 2003 and 2002, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2003 and 2002, and the changes in net assets available for plan benefits for the years then ended in conformity with the standards of the Public Company Accounting Oversight Board (United States).

As discussed in note 1 to the financial statements, effective April 9, 2002 the 401(k) Profit Sharing Plan of CVS Corporation was merged into the CVS Corporation and Subsidiaries Employee Stock Ownership Plan, and the name of the CVS Corporation and Subsidiaries Employee Stock Ownership Plan was changed to The 401(k) Plan and the Employee Stock Ownership Plan of CVS Corporation and Affiliated Companies.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### (c) Leveraged ESOP Transaction

On June 23, 1989, the ESOP borrowed \$357,500,000 from qualified lenders at an interest rate of 8.60% for a 20-year term. The loan to the ESOP is guaranteed by CVS. The ESOP used the proceeds of the loan to purchase 6,688,494 shares of CVS Corporation Series One ESOP Convertible Preference Stock ( ESOP Preference Stock ). Each share of ESOP Preference Stock is convertible into shares of CVS Common Stock at the election of the Plan s Trustee. The conversion rate is 2.314 shares of CVS Common Stock for each share of ESOP Preference Stock. Shares of ESOP Preference Stock converted into common stock and retired amounted to 84,899 and 144,785 shares in 2003 and 2002, respectively. The annual dividend on the ESOP Preference Stock is \$3.90 per share.

In accordance with the terms of the loan agreement, the interest rate on the loan was adjusted as of January 1, 1995 in connection with the increase in the Federal income tax rate to 35%. The adjusted interest rate is 8.52%.

As of December 31, 2003, annual maturities of notes payable are as follows:

	Amount
Year ending December 31:	
2004	\$ 22,300,000
2005	26,900,000
2006	31,900,000
2007	37,600,000
2008	44,500,000
	\$ 163,200,000

As the Plan makes principal payments, a specified percentage of ESOP Preference Stock is allocated to participants—accounts. The borrowing is collateralized by the unallocated shares of ESOP Preference Stock. The lenders have no rights against the shares once they are allocated to participants—accounts.

#### (d) Contributions

If the amount of a scheduled debt payment due by the Plan on its notes payable outstanding is in excess of the cash available to the Plan from dividends, CVS contributes to the Plan the amount of the difference. Prior to April 9, 2002, no participant was required, or permitted, to make any contributions under the Plan.

Effective April 9, 2002 (upon merger with the 401(k) Plan), participants may elect to have CVS contribute to their accounts from 1% to 15% of the compensation that would otherwise be due them, in multiples of 1%, pursuant to a salary reduction agreement. Each participant s total elective deferrals for any calendar year may not exceed 15% of annual compensation or the maximum allowed by the Internal Revenue Code (the Code ), whichever is less, as specified in the Plan document. The maximum elective deferrals allowed by the Code were \$12,000 for 2003 and \$11,000 for 2002.

CVS matches 100% up to 5% of pre-tax compensation contributed, 50% to the employees 401(k) Plan account monthly and 50% to the employees ESOP account at year-end if the employee is actively employed at that time. The ESOP portion of the match may be diversified into other 401(k) investment elections any time after it has been made. Upon the merger of the two plans, this matching contribution agreement was not changed.

#### (e) Participant s Account

Each participant s account is credited with an allocable share of the Plan s investments, ESOP Preference Stock, and any unrealized appreciation or depreciation of those investments. The total amount of new shares to be allocated each year is calculated by multiplying the ratio of each year s debt service payments to total current and future debt service payments by the total number of unallocated shares of ESOP Preference Stock in the Plan. Allocations to individual participant s accounts are based on the number of shares due to each participant as described in 1(d) above.

Cash dividend payments on ESOP Preference Stock are used to make debt service payments and are not allocated to participant s accounts. Shares of ESOP Preference Stock are allocated to a participant based upon the cash dividend amount for shares allocated to the participant s account, divided by the greater of \$53.45 (the cash liquidation value as specified in the Plan document) or the market price of CVS Common Stock at the time of allocation. Shortfalls in the number of shares allocated to participants and new shares to be allocated based on debt retirements are alleviated by the use of forfeited shares as described in (i) below. The benefit to which a participant is entitled is the benefit that can be provided from the participant s account (see (g) below).

#### (f) Vesting

Participants become fully vested in Company contributions made to their accounts prior to January 1, 2002, upon the completion of five years of credited service. For Company contributions made after January 1, 2002, participants will vest after three years.

Participants whose account balances have been transferred into the Plan from other defined contribution plans maintain at least the degree of vesting in the account they had at the time of the transfer. Notwithstanding the foregoing, participants are fully vested in, and have a nonforfeitable right to (1) their accounts upon death or disability, and (2) any elective deferrals described in note 1(d).

#### (g) Payment of Benefits

Upon termination of service by the participant, the Administrator will direct the Trustee to pay to the participant their benefit under one or more options, such as a single lump-sum, or in equal annual installments over a period not exceeding fifteen years, with interest payable at a reasonable rate as determined by the Plan Committee. The beneficiary may elect to receive their ESOP payment in shares of CVS Common Stock or in cash at \$53.45 per ESOP Preference Stock or the fair market value of a share of CVS Common Stock at the time of the distribution times a factor of 2.314, whichever is greater.

#### (h) Administrative Expenses

Administrative expenses specifically attributable to the Plan and not covered by forfeitures, were funded by the Plan for 2003 and 2002. Trustees fees were paid by the Plan for 2003 and 2002.

#### (i) Forfeitures

On a participant s termination date, any unvested portion of their account is forfeited. If a former participant resumes employment and eligibility in the Plan within five years of termination, any amounts previously forfeited are restored to the participant s account, but remain subject to the vesting provisions of the Plan. Forfeitures during any plan year are applied as follows: (i) to restore amounts previously forfeited by participants but required to be reinstated upon resumption of employment; (ii) to pay administrative expenses of the Plan; or (iii) to reduce future CVS contributions. If forfeitures for any plan year are insufficient to restore the required forfeitures, CVS shall contribute the balance required for that purpose.

Approximately 21,456 and 35,338 shares of ESOP Preference Stock previously allocated to participant accounts were forfeited during 2003 and 2002, respectively, and have been applied as of December 31, 2003 and 2002. Forfeitures restored to participants in ESOP Preference Stock upon resumption of employment for 2003 and 2002 were approximately 6,407 and 6,241 shares of ESOP Preference Stock, respectively.

Cash forfeitures for 2003 and 2002 were \$976,221 and \$1,019,525, respectively. Cash forfeitures restored to participants upon resumption of employment for 2003 and 2002 were approximately \$194,940 and \$107,558, respectively.

#### (j) Investment Options

Upon enrollment in the Plan or at select intervals thereafter, a participant may elect to direct contributions or investment balances within the investments listed below. The following is a brief explanation of each fund s investment objectives:

Core Equity Fund (Vanguard Index Trust 500 Portfolio Fund)

This fund s objective is to replicate the total return of the Standard and Poor s (5&P) 500 Index by investing in the stocks that make up the Index. The 5&P 500 Index consists mainly of large companies and represents about 75% of the U.S. stock market value.

8

Diversified Bond Fund (PIMCO Total Return Admin Fund)
This fund is a core bond fund that seeks to outperform the Lehman Brothers Aggregate Bond Index on a consistent basis while maintaining an overall risk similar to the Index. Investments may include government and corporate debt securities, mortgage and other asset backed securities, money market instruments and derivatives.
International Equity Fund (Templeton International Fund)
This fund s investment objective is long-term capital growth through participation in stock markets outside the U.S. The fund invests primarily in the common stock of companies based in more developed countries, but may also include investments in developing countries.
Small Cap Growth Fund (Invesco Small Company Growth Fund)
This fund seeks long-term growth of capital and dividend income through participation in the stock market. The fund invests primarily in stocks of relatively small companies.
Global Equity Fund (Janus Worldwide Fund)
This fund seeks long-term growth of capital by investing in a diversified portfolio of foreign and domestic companies. The fund tries to outperform the Morgan Stanley Capital International (MSCI) World Index, which measures the performance of U.S. and international stock markets. In 2003, all investments in this fund were transferred into the American Funds New Perspective.
Small Cap Value Fund (Galaxy Small Cap Value Fund)
This fund seeks long-term growth by investing primarily in stocks of small to medium-sized companies that are believed to either offer superior earnings growth or appear to be undervalued. This fund is benchmarked by the Russell 2000 Index. In 2003, all investments in this fund were transferred into the Columbia Small Cap Value Fund.

<u>Large Cap Blend Fund</u> (American Funds New Perspective)

This fund seeks long-term growth of capital.	The fund invests primarily in stocks of U.S.	companies, as well as developed European and Asian
companies.		

Small Cap Value Fund (Columbia Small Cap Value Fund)

This fund s investment objective is long-term capital appreciation. This fund invests primarily in the stocks of companies that have market capitalization similar in size to those companies in the Russell 2000 index.

Growth and Income Fund (J & W Seligman Large Cap Value Fund)

This fund seeks long-term capital growth and dividend income through participation in the stock market. The fund invests primarily in the common stock of U.S. based, well-established medium to large size companies.

9

Large Cap C	Growth Fund	(Columbus	Circle	Core Equ	uity Fund)
-------------	-------------	-----------	--------	----------	------------

This investment objective is long-term capital growth, through participation in the stock market. The fund invests primarily in the common stock of established large companies that are based in the U.S. and that represent industries expected to outperform the stock market as a whole.

#### Conservative Lifestyle Fund (various managers)

This fund is for people who will need access to their money in less than five years. Approximately 70% of the fund is invested in fixed-income or low-risk investments. The remaining 30% is invested in stock-oriented mutual funds or moderate-risk investments.

#### Moderate Lifestyle Fund (various managers)

This fund is for less conservative investors who can keep their money invested for at least five years. Because stocks make up approximately 60% of the fund s mix, the fund has more exposure to the fluctuations in the stock market than the Conservative Lifestyle Fund. The remaining 40% is invested in bonds.

#### Aggressive Lifestyle Fund (various managers)

This fund is for those individuals who can keep their money invested for at least ten years or those who are willing to accept a greater level of risk in return for greater possible reward. Therefore, 80% of the fund is invested in stocks and the remaining 20% is invested in fixed-income securities.

#### CVS Corporation Common Stock Fund

This fund was established as a result of the transfer of assets from the Revco D.S., Inc. 401(k) Plan during 1997. The Plan may, at the discretion of the Plan Committee, offer a company stock fund as one of the available investment funds for employee and employer contributions. The fund holds CVS Common Stock. This fund seeks long-term growth and dividend income by purchasing shares of CVS Common Stock. Because the fund invests in only one company, it is considered a high-risk investment with potential for large rewards.

Investment Contract Fund (managed by State Street Bank & Trust Co.)

This fund seeks to preserve capital, while generating a steady rate of return higher than money market funds. The fund s investments consist of highly-rated (AA or higher) insurance company and bank investment contracts.
