Notes to Consolidated Financial Statements

Note 1 - Interim Financial Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments consisting primarily of recurring accruals considered necessary for a fair presentation have been included. Operating results for such interim periods are not necessarily indicative of the results, which may be expected for a full fiscal year. For further information, refer to the consolidated financial statements and footnotes included in Precision Auto Care Inc. s (the Company) annual report on Form 10-KSB for the year ended June 30, 2004.

Unless the context requires otherwise, all references to the Company herein mean Precision Auto Care, Inc. and those entities owned or controlled by Precision Auto Care, Inc. Significant intercompany accounts and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 Accounting Policy

Goodwill and Intangible Assets

Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Intangible Assets* , requires that goodwill no longer be amortized, but instead be tested for impairment at least annually. Historically, management has performed its impairment analysis in the first quarter of each fiscal year. The Company obtained a current business enterprise valuation for purposes of supporting its impairment analysis for fiscal year 2005. Based upon this analysis, management determined that goodwill of approximately \$8.7 million was not impaired.

Stock Options

The Company generally applies Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* , and related interpretations in accounting for stock options and presents pro forma net income and earnings per share data as if the accounting prescribed by Statement of Financial Accounting Standards No. 123, *Accounting for Stock Based Compensation* had been applied. The Company also applies the provisions of FIN 44, *Accounting for Certain Transactions Involving Stock Compensation* , as required when modifications and other provisions cause the application of variable accounting which calls for the periodic measurement of compensation expense based on the

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

difference in the exercise price and the underlying value of the related stock.

During fiscal year 2005, the Company issued 375,000 options to purchase shares of the Company's common stock to certain employees. The options were granted with an exercise price of \$0.62, which was equal to the market price on that date. As such, no compensation expense was required to be recorded. During fiscal year 2004, the Company issued 65,000 options to purchase shares of the Company's common stock which had an exercise price below the market value of the underlying common stock on the date of grant. As a result, approximately \$15,000 of compensation expense is being recognized over the vesting period of these options. The Company also repurchased certain options from employees and issued new options exercisable at a price of \$0.44 in fiscal year 2003, resulting in the newly issued options being treated as a repricing under FIN 44 which triggered variable accounting. As such, the Company recorded compensation expense of approximately \$102,000 and \$50,000 associated with these options during the six months ended December 31, 2004 and 2003, respectively.

Had compensation cost for all options been determined based on the fair value at the grant dates during the six months ending December 31, 2004 and 2003 consistent with the method of SFAS No. 123, the pro forma net income and income per share would have been as follows:

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

* *All awards* refers to awards granted, modified, or settled in fiscal periods beginning after December 15, 1994 awards for which the fair value was required to be measured under Statement 123.

Reclassifications

Certain amounts on the prior period financial statements have been reclassified to be in conformity with the current period financial statements.

Note 3 - Master License Agreement

In August 2004, the Company signed a master franchise agreement with Hung Yue Holdings (Hong Kong) Co., Ltd. giving that firm's affiliate, Precision Tune Auto Care (China) Company Limited, a license to open and operate at least 330 Precision Tune Auto Care (PTAC) car care centers in China over the next seven years. The revenue recognized from this agreement will be accounted for using the installment method due to the extended payment terms. For the six months ended December 31, 2004, the Company recognized revenue of \$130,000. The Company will recognize approximately \$2.0 million through 2011 based on the terms of the agreement once collection is reasonably assured. Under the terms of the agreement, Precision Tune Auto Care (China) Company Limited may open up to 330 centers. The Company will earn \$5,000 per center upon opening and a 1.5% royalty fee based on the total gross center sales. No centers were opened as of December 31, 2004.

Note 4 - New Accounting Pronouncements

The Financial Accounting Standards Board has recently issued several new accounting pronouncements:

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

In December 2004, the FASB issued SFAS 153 Exchanges of Non-monetary Assets - an amendment of APB Opinion No. 29 . This Statement amended APB Opinion 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The adoption of this Standard is not expected to have any material impact on the Company's financial position, results of operations or cash flows since the Company generally does not engage in non-monetary transactions.

In December 2004, the FASB issued SFAS 123 (revised 2004) Share-Based Payment . This Statement requires that the cost resulting from all share-based transactions be recorded in the financial statements. The Statement establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all entities to apply a fair-value-based measurement in accounting for share-based payment transactions with employees. The Statement also establishes fair value as the measurement objective for transactions in which an entity acquires goods or services from non-employees in share-based payment transactions. The Statement replaces SFAS 123 Accounting for Stock-Based Compensation and supersedes APB Opinion No. 25 Accounting for Stock Issued to Employees. The provisions of this Statement will be effective for the Company beginning with its fiscal year ending 2006. The Company is currently evaluating the impact this revised Standard will have on its operations.

Note 5 Net Income Per Share

The Company reports earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share which specifies the methods of computation, presentation, and disclosure. SFAS No. 128 requires the

presentation of basic EPS and diluted EPS. Basic EPS is calculated by dividing net income available to common shareholders by the weighted average number of shares outstanding during the period. Diluted EPS is calculated by dividing net income available to common shareholders by the weighted average number of shares outstanding during the period plus the dilutive effect of common stock equivalents. The number of shares outstanding related to stock options and warrants at December 31, 2004 and 2003 was 7,145,302 and 13,776,266, respectively. Only stock options and warrants with exercise prices lower than the average market price of the common shares were included in the diluted EPS calculation. For the six months ended December 31, 2004 and 2003, respectively, 182,950 shares attributable to outstanding stock options were not included in the computation of diluted income per share as they were anti-dilutive.

The following table sets forth the computation of basic and diluted net income per share.

Note 6 - Debt

Debt Restructuring

In October 1998, a subordinated debenture in the amount of \$2.0 million was executed with an LLC composed of certain members of the Company's board of directors (Board LLC). On July 17, 2003, the Company reached an agreement to restructure the Board LLC subordinated debt. The terms of the agreement called for the following:

Payment of \$200,000 within 3 days of receipt of approval by the Company's Board of Directors.

Issuance of a non-interest bearing note payable in the amount of \$50,000, which was subsequently paid in full in May 2004.

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

Issuance of warrants to purchase 400,000 shares of the Company's common stock with an exercise price of \$0.44 per share having a fair value of approximately \$222,000.

The Company recognized a gain of approximately \$160,000 from this debt restructuring in the first quarter of fiscal year 2004.

In December 2003, the Company paid approximately \$169,000 in full satisfaction of the \$201,000 of debt owed to Radiant Systems, Inc. The Company recognized a gain of approximately \$32,000 from this transaction in the second quarter of fiscal year 2004.

Note 7 Contingencies

The Company is subject to litigation that could have a material adverse impact on its liquidity as follows:

Luminivision, S.A. de C.V. v. Praxis Afinaciones, S.A. de C.V., Third Civil Court, First Judicial District, Monterrey, Nuevo Laredo, Mexico.

Luminivision filed suit against Praxis Afinaciones, an indirect wholly owned subsidiary of PACI, seeking payment of 766,000 Mexican Pesos, plus interest at the rate of 5% per month, for services under a contract. Praxis Afinaciones denies the allegations and is defending the allegations in the lawsuit.

United Bank, NA v. C. Eugene Deal, Miracle Partners, Inc., Star Auto Center, Inc., Common Pleas Court of Cuyahoga County, Ohio, Case No. 01-CV0019, Filed January 11, 2001

Miracle Partners, Inc., a wholly-owned subsidiary of the Company, was party to a confessed judgment of approximately \$1.3 million. The subsidiary is currently inactive and has no assets. As such, management believes this judgment will have no material impact on the Company's consolidated results of operations. Furthermore, the Company believes that it has a meritorious claim against Mr. Deal for misrepresentations made in connection with PACI's acquisition of Miracle Partners, Inc. in 1997 for all amounts covered by the judgment.

Threatened Litigation:

Puyallup Auto Stop Associates, Inc. v. PTW, Inc.: By letter dated July 1, 2003, a landlord has asserted a claim against PTW, Inc. for reimbursement of the costs of remediating environmental contamination to the leased premises during the term of the lease, which costs are alleged to exceed \$250,000. Investigation into the Company's liability is ongoing. No determination of a possible outcome can be made at this time.

The Company and its subsidiaries are subject to other litigation in the ordinary course of business, including contract, franchisee and employment-related litigation. In the course of enforcing its rights under existing and former franchisee agreements, the Company is subject to complaints and letters threatening litigation concerning the interpretation and applicability of these agreements, particularly in cases involving defaults and terminations of franchises.

The Company does not believe that any of the above proceedings will result in material judgments against the Company. There can be no assurance, however, that these suits will ultimately be decided in its favor. Any one of these suits may result in a material judgment against the Company, which could cause material adverse consequences to its operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Introduction

The following discussion and analysis or plan of operation of Precision Auto Care, Inc. (the Company) should be read in conjunction with the unaudited interim consolidated financial statements and notes thereto included in Item 1. - Financial Statements of this quarterly report and the audited consolidated financial statements and notes thereto and the section titled Item 6. - Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-KSB for the fiscal year ended June 30, 2004 filed with the Securities and Exchange Commission on September 28, 2004. Historical results and percentage relationships set forth herein are not necessarily indicative of future operations.

Edgar Filing: PRECISION AUTO CARE INC - Form 10QSB

The Company is a franchisor of automotive service centers located in the United States and in certain foreign countries. Through its franchised centers, services are provided to automobile owners and focus on those high-frequency items required on a periodic basis to maintain the vehicle properly.

Critical Accounting Estimates

The following is a summary of the Company's critical accounting policies. These critical accounting policies require estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the consolidated financial statements. Due to their nature, estimates involve judgments based on available information. Actual results or amounts could differ from estimates and the difference could have a material impact on the consolidated financial statements. Therefore, understanding these policies is important in understanding the reported results of operations and the financial position of the Company.

Revenue Recognition

The Company's royalty revenue is recognized as earned in accordance with the specific terms of each agreement and to the extent no known issues involving collection exist. In the event receivables are not likely to be collected, the Company will record a provision for bad debts. This estimate is based upon our experience working with individual franchises, taking into consideration past payment history, operating performance of the franchisee or other factors that bear on the ultimate collection of such receivables.

Revenue from the sale of a franchise is recognized when all significant obligations have satisfied, which is generally upon the opening of the franchised center.

The Company enters into domestic Area Development agreements and international Master License agreements (Agreements) which grant the area developer and master licensor, respectively, the right to sell, on the Company's behalf, Precision Tune Auto Care franchises within a specific geographic region. Revenue from the sale of Area Development agreements is recognized as all material

services or conditions related to the sale are satisfied. Revenue from the sale of international master licenses is recognized upon signing the Agreement since the Company is not required to support the international franchises as there is no contractual agreement between the Company and the international franchisees.

Goodwill and Intangible Assets

Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Intangible Assets, requires that goodwill no longer be amortized, but instead be tested for impairment at least annually. Historically, management has performed its impairment analysis in the first quarter of each fiscal year. The Company obtained a current business enterprise valuation for purposes of supporting its impairment analysis for fiscal year 2005. As a result of this analysis, management determined that goodwill of approximately \$8.7 million was not impaired.

Deferred Tax Valuation Allowance

The Company recognizes deferred income tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Deferred tax assets and liabilities reflect the effects of tax losses and the future income tax effects of temporary differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates that apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company recognizes deferred tax assets if it is more likely than not that the asset will be realized in future years.

The Company regularly reviews the recoverability of its deferred tax assets and adjusts the valuation allowance as deemed appropriate. As of December 31, 2004, the Company had a valuation allowance of \$5.9 million against deferred tax assets. The Company has demonstrated an ability to utilize net operating losses given recent operating profits, as such management concluded that it was appropriate to release \$537,000 of the valuation allowance during the six months ended December 31, 2004.

This increase was primarily the result of an increase in franchise development revenues of \$28,000 and royalty revenues in the amount of \$38,000. This increase was offset by a decrease in printing revenue in the amount of \$54,000.

Other revenue for the three months ended December 31, 2004 was \$139,000, a decrease of approximately \$21,000, or 13%, compared to \$160,000 for the three months ended December 31, 2003.

General and Administrative Expense. General and administrative expense was \$925,000 for the three months ended December 31, 2004, an increase of \$202,000 or 28%, compared with \$723,000 for the three months ended December 31, 2003. December 31, 2003. This increase was primarily due to an increase in franchise development revenues of \$525,000. Franchise development revenues increased due to the Company signing an area development agreement with North Pacific Precision, Inc. for the area rights for the Seattle market. Under the agreement, North Pacific Precision, Inc. paid \$500,000 for the area developer rights for the Seattle market. Such fees were recognized upon execution of the agreement since all significant obligations under the agreement were satisfied at that time. The Company will also receive fifty percent of the income from the sale of franchises and from royalties from franchisees in the area.

Additionally, this decrease was primarily the result of management's on-going cost reduction initiatives in general and administrative costs. Specifically, legal costs were reduced.

Operating Income. The Company recorded operating income for the six months ended December 31, 2004 of approximately \$1.1 million compared with operating income of \$363,000 for the six months ended December 31, 2003. This decrease was primarily attributed to the Company's gain from debt restructurings totaling approximately \$193,000 recorded in the six months ended December 31, 2003 (see Item 1- Note 6).

Income Taxes. The Company has demonstrated an ability to utilize net operating losses given recent operating profits, as such management concluded that it was appropriate to release \$537,000 of the valuation allowance during the six months ended December 31, 2004.

Liquidity and Capital Resources

Sources and Uses of Cash

Cash at December 31, 2004 was \$2.5 million. This represents an increase of \$906,000 from June 30, 2004. This increase was driven by the sale of the rights to the Seattle market for \$500,000 as well as the master franchise agreement the Company signed with senior executives of Hung Yue Holdings (Hong Kong) Co., Ltd giving that firm's affiliate, Precision Tune Auto Care (China) Company Limited, a license to open and operate at least 330 Precision Tune Auto Care (PTAC) car care centers in China over the next seven years. Upon execution of the agreement, the Company received advanced payments totaling \$150,000. During the period, cash provided by operations was \$1 million. The Company generated operating profit in fiscal year 2004 and the six months ending December 31, 2004 with the expectation it will continue to do so for the remainder of fiscal year 2005.

Cash used in investing activities for the six months ended December 31, 2004 was \$35,000, resulting from the purchase of property and equipment for use in the Company's franchise operations.

Cash used in financing activities for the six months ended December 31, 2004 was \$100,000. Cash used in financing activities during the period consisted primarily of payments of dividends and other notes payable.

Management believes that the Company's current cash balance, cash generated from operations, and the available \$250,000 credit line will be sufficient to meet the Company's working capital needs, capital expenditures, and contractual obligations for fiscal year 2005. At December 31, 2004, the entire line of credit was available.

Debt Transactions

In October 1998, a subordinated debenture in the amount of \$2.0 million was executed with an LLC composed of certain members of the Company's board of directors (Board LLC). On July 17, 2003, the Company reached an agreement to restructure the Board LLC subordinated debt. The terms of the agreement called for the following:

Payment of \$200,000 within 3 days of receipt of approval by the Company's Board of Directors.

Issuance of a non-interest bearing note payable in the amount of \$50,000, which was subsequently paid in full in May 2004.

Issuance of warrants to purchase 400,000 shares of the Company's common stock with an exercise price of \$0.44 per share having a fair value of approximately \$222,000.

The Company recognized a gain of approximately \$160,000 from this debt restructuring in the first quarter of fiscal year 2004.

In December 2003, the Company paid approximately \$169,000 in full satisfaction of the \$201,000 of debt owed to Radiant Systems, Inc. The Company recognized a gain of approximately \$32,000 from this transaction in the second quarter of fiscal year 2004.

Seasonality and Quarterly Fluctuations

Seasonal changes may impact various sectors of the Company's business differently and, accordingly, the Company's operations may be affected by seasonal trends in certain periods. In particular, severe weather in winter months can adversely affect the Company because such weather makes it difficult for consumers in affected parts of the country to travel to Precision Auto Care centers.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to litigation that could have a material adverse impact on its liquidity as follows:

Lumnivision, S.A. de C.V. v. Praxis Afinaciones, S.A. de C.V., Third Civil Court, First Judicial District, Monterrey, Nuevo Laredo, Mexico.

Lumnivision filed suit against Praxis Afinaciones, an indirect wholly owned subsidiary of PACI, seeking payment of 766,000 Mexican Pesos, plus interest at the rate of 5% per month, for services under a contract. Praxis Afinaciones denies the allegations and is defending the allegations in the lawsuit.

United Bank, NA v. C. Eugene Deal, Miracle Partners, Inc., Star Auto Center, Inc., Common Pleas Court of Cuyahoga County, Ohio, Case No. 01-CV0019, Filed January 11, 2001

Miracle Partners, Inc., a wholly-owned subsidiary of the Company, was party to a confessed judgment of approximately \$1.3 million. The subsidiary is currently inactive and has no assets. As such, management believes this judgment will have no material impact on the Company's consolidated results of operations. Furthermore, the Company believes that it has a meritorious claim against Mr. Deal for misrepresentations made in connection with PACI's acquisition of Miracle Partners, Inc. in 1997 for all amounts covered by the judgment.

Threatened Litigation:

Puyallup Auto Stop Associates, Inc. v. PTW, Inc.: By letter dated July 1, 2003, a landlord has asserted a claim against PTW, Inc. for reimbursement of the costs of remediating environmental contamination to the leased premises during the term of the lease, which costs are alleged to exceed \$250,000. Investigation into the Company's liability is ongoing. No determination of a possible outcome can be made at this time.

The Company and its subsidiaries are subject to other litigation in the ordinary course of business, including contract, franchisee and employment-related litigation. In the course of enforcing its rights under existing and former franchisee agreements, the Company is subject to complaints and letters threatening litigation concerning the interpretation and applicability of these agreements, particularly in cases involving defaults and terminations of franchises.

The Company does not believe that any of the above proceedings will result in material judgments against the Company. There can be no assurance, however, that these suits will ultimately be decided in its favor. Any one of these suits may result in a material judgment against the Company, which could cause material adverse consequences to its operations.
