  - o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 1.01 Entry into a Material Definitive Agreement.**

In addition to receiving base salary, Xilinx executive officers will participate in a new Executive Bonus Program, effective April 1, 2005, and approved by the Compensation Committee of the Board of Directors on August 3, 2005. Executive officers will not be participating in the Pay for Xilinx Performance incentive program while participating in this new Executive Bonus Program.

Each executive officer participating in the Executive Bonus Program has a bonus target ranging from 50% to 70% of the individual's base pay. The Executive Bonus Program has two components that are measured quarterly and weighted as follows: actual company revenue versus the revenue goal set at the beginning of the fiscal year (two-thirds) and the individual's expense performance against the individual's assigned expense budget for the quarter (one-third). Revenue and expense performance are determined after each quarter's earnings release to the public. If the quarterly goals are missed for either component, the individual will not receive a bonus attributed to the missed component. If an officer's expenses for the fiscal year come in at or under the year's expense budget, the officer will receive the unpaid balance of the target bonus for the expense performance component.

The Executive Bonus Program has a third component that is measured at the end of the fiscal year after the fiscal year's earnings have been released to the public. If the sum of the four fiscal quarters' revenue performance exceeds the annual revenue goal for the fiscal year, the eligible bonus increases by three times the amount over which the goal was exceeded. In this case, each executive officer is entitled to a year-end payment of the difference between the quarterly payments received for quarterly revenue component performance and the amount earned under the accelerator for exceeding the annual revenue goal. For instance, if it is determined after the fiscal year's earnings are announced that Xilinx achieved 120% of its annual revenue goal, the Executive Bonus payout of the revenue component increases to 160% ( $[3 \times 20\%] + 100\%$ ). If only 50% of the revenue component of the Executive Bonus had been paid prior to the end of the fiscal year, the individual would receive a subsequent payment of the remaining 110% to bring the total amount paid to 160% of target. The accelerator is only used on the revenue portion of the Executive Bonus Program.

The Chief Executive Officer's incentive compensation will be a hybrid as follows: two-thirds of his target bonus (70%) will be earned according to the metrics and weighting of the Executive Bonus Program described above and one-third will be earned by his performance against specific goals set and evaluated by the Board of Directors on an annual basis.

Amounts payable under the incentive compensation programs described herein are intended to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

XILINX, INC.
