CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS1. BASIS OF PRESENTATION

The accompanying consolidated balance sheets as of June 30, 2006 and the related statements of consolidated income and cash flows for the six months ended June 30, 2005 and 2006 and the statement of consolidated shareholders' equity for the six months ended June 30, 2006 of Luxottica Group S.p.A. and its subsidiaries (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information. The consolidated balance sheet as of June 30, 2006, the statements of consolidated income and cash flows for the six months ended June 30, 2005 and 2006 and the statement of consolidated shareholders' equity for the six months ended June 30, 2006 are derived from unaudited financial statements. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to fairly present the financial position, results of operations and cash flows as of June 30, 2005 and 2006 and for the six months ended June 30, 2005 and 2006 have been made.

The interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements as of and for the year ended December 31, 2005. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. The accounting policies have been consistently applied by the Company and are consistent with those applied in the Company's annual report on Form 20-F for its fiscal year ended December 31, 2005. The results of operations for the six months ended June 30, 2006 are not necessarily indicative of the operating results for the full year.

The December 31, 2005 balance sheet was derived from audited financial statements but does not include all disclosures required by U.S. GAAP. However, the Company believes that the disclosures are adequate to make the information presented not misleading.

2. INVENTORIES

Inventories consisted of the following (in thousands of Euro):

	<b>December 31, 2005</b>	<b>June 30, 2006</b>
Raw materials	43,191	74,867
Work in process	26,932	39,348
Finished goods	334,208	283,612
Total	404,331	397,827

3. EARNINGS PER SHARE

Earnings per share are computed by dividing net income by the number of weighted average shares outstanding during the period. Basic earnings per share are based on the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share are based on the weighted average number of ordinary shares and ordinary share equivalents (options) outstanding during the period.

4. STOCK OPTION AND PERFORMANCE PLANS

Options to purchase an aggregate of 11,263,310 ordinary shares of the Company were outstanding at June 30, 2006. Outstanding options granted under the Company's Stock Option Plans (10,263,310 ordinary shares) become exercisable in either three equal annual installments or two equal installments in the second year and in the third year of the three-year vesting period and expire on or before January 31, 2014. During the first six months of 2006, 1,455,400 options were exercised.

Options granted in 2004 under a Company Performance Plan (1,000,000 ordinary shares) vest and become exercisable from January 31, 2007 only if certain financial performance measures are met over the period ending December 2006.

On September 14, 2004, the Company announced that its majority shareholder, Mr. Leonardo Del Vecchio, had allocated shares held through La Leonardo Finanziaria S.r.l., a holding company of the Del Vecchio family, representing 2.11 percent (or 9.6 million shares) of the Company's currently authorized and issued share capital, to a stock option plan for top management of the Company. The stock options to be issued under the stock option plan vest upon meeting certain economic objectives. As of June 30, 2006, the objectives of this shareholder plan were met and the holders of these options may exercise such options beginning on that date until their termination in 2014.

In December 2004, the FASB issued SFAS No. 123-R (revised 2004), Share-Based Payment ( SFAS 123-R ), which replaces the existing SFAS 123 and supersedes Accounting Principles Board Opinion ( APB ) No. 25, Accounting for Stock Issued to Employees. SFAS 123-R requires companies to measure and record compensation expense for stock options and other share-based payment methods based on the instruments' fair value. SFAS 123-R is effective for the Company on January 1, 2006.

5. ADOPTION OF STATEMENT OF FINANCIAL ACCOUNTING STANDARD NO. 123(R)  
SHARE-BASED PAYMENT

As of January 1, 2006, the Company has adopted SFAS-123R in accordance with the transitional guidance as prescribed in the statement. As such, the

previous unearned compensation as of December 31, 2005 of Euro 48.6 million has been charged against the appropriate equity accounts. Approximately Euro 3.0 million of additional compensation costs expense relating to the annual stock option was included in general and administrative expense for the first six months of 2006. Approximately Euro 0.6 million and Euro 18.2 million of compensation costs associated with the Company's October 2004 Performance Plan grants and a September 2004 shareholder grant, respectively, were included in general and administrative expense for the first six months of 2006.

6. U.S. DOLLAR CONVENIENCE TRANSLATION

The consolidated financial statements presented in Euro as of and for the six months ended June 30, 2006 are also translated into U.S. dollars, solely for the convenience of the readers of these financial statements, at the noon buying rate of Euro 1.00 = U.S. \$1.2779 as certified for customs purposes by the Federal Reserve Bank of New York (the Noon Buying Rate) at June 30, 2006. Such translations should not be construed as representations that Euro amounts could be converted into U.S. dollars at that or any other rate.

7. INCOME TAXES

The Company's 2006 effective tax rate is expected to be similar to the statutory tax rate.

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48). This interpretation clarifies recognition requirements, measurement and disclosures for the accounting for uncertain income tax positions which may have been taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting for interim periods and transition methods. The interpretation is effective for fiscal years beginning after December 31, 2005. The Company is currently evaluating the impact of the adoption of FIN 48.

8. SEGMENTS AND RELATED INFORMATION

The Company operates in two industry segments: (1) manufacturing and wholesale distribution and (2) retail distribution.

The following tables summarize the segmental information deemed essential by the Company's management for the purpose of evaluating the Company's performance and for making decisions about future allocations of resources.

The Inter-segment transactions and corporate adjustments column includes the elimination of inter-segment activities and corporate-related expenses not allocated to reportable segments. This has the effect of increasing reportable

operating profit for the manufacturing and wholesale and retail segments. Identifiable assets are those tangible and intangible assets used in operations in each segment. Corporate identifiable assets are principally cash, goodwill and trade names.

Identifiable assets	1,670,142	1,263,055	2,055,057	4,988,253

9. COMMITMENTS AND CONTINGENCIES

The Company and its subsidiaries become involved in legal and regulatory proceedings from time to time, some of which are significant. The timing and outcome of these proceedings are inherently uncertain and the outcomes of certain cases, as disclosed in the Company's 2005 consolidated financial statements, could have a material adverse effect on the Company's business, financial position or future operating results. It is the opinion of management of the Company that it has meritorious defenses against such claims, which the Company will vigorously pursue.

10. SUBSEQUENT EVENT SALE OF THINGS REMEMBERED

On September 29, 2006, the Company sold its Things Remembered, Inc. ( TR ) specialty gifts retail business to a private equity consortium. The TR business is operated solely in the United States and is included in the retail segment of the Company's operations as of June 30, 2006. The consideration received from the sale was approximately U.S. \$200.0 million, which included a note receivable with a nominal value of U.S. \$26.1 million. Because the TR business is not strategically compatible with the Company's core eyewear business, the Company believes the sale and the cash proceeds received therefrom will better enable it to strengthen its core business through the repayment of outstanding debt and expansion of its optical retail operations in other parts of the world.

Listed below are the major classes of assets and liabilities as of June 30, 2006 that are to be included as part of the disposal group: (amounts in thousands of Euro)

The final carrying value of the assets and liabilities noted above will be determined upon the closing date and, as such, can change significantly from the amounts disclosed above.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2005 AND 2006

The following discussion should be read in conjunction with the disclosure contained in the Company's Annual Report on Form 20-F for the year ended December 31, 2005, which contains, among other things, a discussion of the Company's significant accounting policies and risks and uncertainties that could affect the Company's future operating results or financial condition.

## OVERVIEW

The Company operates in two industry segments: (1) manufacturing and wholesale distribution and (2) retail distribution. Through its manufacturing and wholesale distribution operations, the Company is engaged in the design, manufacture, wholesale distribution and marketing of house brand and designer lines of mid- to premium-priced prescription frames and sunglasses. The Company operates in the retail segment through its retail division, consisting of LensCrafters, Inc. and other affiliated companies ( LensCrafters ), Sunglass Hut International, Inc. and its subsidiaries and affiliates ( Sunglass Hut ), OPSM Group Ltd. and subsidiaries and affiliates and, since October 2004, Cole National Corporation ( Cole ) and its subsidiaries which includes the Things Remembered personalized gift locations. As of June 30, 2006, the Company's retail division consisted of 5,770 owned or leased department retail locations and 463 franchised locations as follows:

	North America	Europe	Asia- Pacific(1)	Total
LensCrafters	890			890
Sunglass Hut	1,502	107	210	1,819
Retail Asia Pacific excluding Sunglass Hut			627	627
Cole National Group Optical	1,708			1,708
Things Remembered	652			652
Newly acquired retail locations	74			74
Franchised locations	437		26	463
	5,263	107	863	6,233

(1) Asia-Pacific in our Retail Division consists of Australia, New Zealand, Singapore and China.

Our net sales consist of, among other items, direct sales of finished products that we manufacture to opticians and other independent retailers through our wholesale distribution channel and sales directly to consumers through our retail division. Our average retail unit selling price is significantly higher than our average wholesale unit selling price, as our retail sales typically include lenses as well as frames.

Demand for our products, particularly our higher-end designer lines, is largely dependent on the discretionary spending power of the consumers in the markets in which we operate. We have historically experienced sales volume fluctuations by quarter due to seasonality associated with the sale of sunglasses. As a result, net sales are typically higher in the second quarter and lower in the first quarter.

The Company's results of operations, which are reported in Euro, are susceptible to currency fluctuations between the Euro and the U.S. Dollar due to its significant U.S. retail business. The U.S. Dollar/Euro exchange rate has fluctuated from an average exchange rate in the first six months of 2005 of Euro 1.00 = U.S. \$1.2847 to Euro 1.00 = U.S. \$1.2292 in the first six months of 2006. Additionally, with the acquisition of OPSM, the Company's results of operations have also been rendered susceptible to currency rate fluctuation between the Euro and the Australian Dollar ( AUD ). The Australian Dollar/Euro exchange rate has fluctuated from an average exchange rate in the first six months of 2005 of Euro 1.00 = AUD 1.6628 to Euro 1.00 = AUD 1.6544 in the first six months of 2006. Although the Company engages in certain foreign currency hedging activities to mitigate the impact of these fluctuations, currency fluctuations have impacted the Company's reported revenues and net income during the periods discussed herein. Fluctuations in currency exchange rates could significantly impact the Company's reported financial results in the future.

On October 4, 2004, the Company acquired all of the issued and outstanding shares of Cole National Corporation through a merger. The Company has substantially completed the Cole integration process and expects that its North American retail operating margin levels will return to 2004 pre-acquisition operating margin levels by the end of 2006.

## RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2005 AND 2006

The following table sets forth for the periods indicated the amount and percentage of net sales represented by certain items included in the Company's statements of consolidated income (in thousands of Euro).

**Net Sales.** Net sales increased 17.1 percent to Euro 2,556.8 million during the first six months of 2006 as compared to Euro 2,182.6 million for the same period of 2005. A portion of the increase in net sales was attributable to currency fluctuations between the Euro, which is the Company's reporting currency, and other currencies in which the Company conducts its business, including the U.S. Dollar and the Australian Dollar. Currency fluctuations accounted for Euro 78.7 million (equivalent to 3.6 percent) of the increase in net sales for the first six months of 2006.

Net sales in the retail segment increased by 12.4 percent to Euro 1,798.0 million for the first six months of 2006 from Euro 1,599.6 million for the same period of 2005. Euro 188.9 million of this increase was due to the positive performance of the North American retail operation attributable to a higher number of stores and higher sales per store. The acquisition of approximately 70 new Canadian retail outlets was finalized in late June 2006 and thus had virtually no impact on net sales for the first six months of 2006. We expect these stores to contribute additional net sales in the final six months of fiscal 2006 of approximately Euro 23.4 million. An additional Euro 8.7 million of the increase was attributable to an increase in net sales in the Asia-Pacific retail division, due to increased net sales of the newly acquired stores in

mainland China of Euro 8.7 million. A portion of the increase in retail net sales was attributable to currency fluctuations between the Euro and other currencies in which the Company conducts its business, which accounted for Euro 69.1 million (equivalent to 4.3 percent) of the increase for the first six months of 2006.

Net sales to third parties in the manufacturing and wholesale segment increased by 29.6 percent to Euro 758.8 million for the first six months of 2006 as compared to Euro 585.3 million in the same period of 2005. This increase was mainly attributable to increased sales of our Ray-Ban brand as well as sales of branded products of our designer lines, Prada, Bulgari and Dolce & Gabbana (which we began distributing in October 2005). These increases occurred primarily in the European and North American markets, which represent approximately 80 percent of our wholesale net sales to third parties. A portion of the increase in manufacturing and wholesale net sales was attributable to currency fluctuations between the Euro and other currencies in which the Company conducts its business, which accounted for Euro 9.6 million (equivalent to 1.6 percent) of the increase for the first six months of 2006.

On a geographic basis, combined retail and manufacturing and wholesale operations in the United States and Canada resulted in net sales of Euro 1,705.6 million during the first six months of 2006, comprising 66.7 percent of total net sales, an increase of Euro 223.5 million from the same period of 2005. Net sales for operations in Asia-Pacific were Euro 242.8 million during the first six months of 2006 compared to Euro 227.5 million in the same period of 2005. Net sales for the rest of the world accounted for the remaining Euro 608.4 million of net sales during the first six months of 2006, which represented a 28.6 percent increase in net sales as compared to the same period of 2005. The increase in the rest of the world was attributable to strong performance in almost all major European markets.

During the first six months of 2006, net sales in the retail segment accounted for approximately 70.3 percent of total net sales, as compared to approximately 73.2 percent of net sales in the same period of 2005. This decrease in retail net sales as a percentage of total net sales is due to a significant increase in net sales of our manufacturing and wholesale business, which for the first six months of 2006 grew over twice as quickly as a percentage of its net sales as our retail division. We expect this trend to continue at a more moderate pace in the last six months of 2006 as the newly acquired retail outlets in Canada and mainland China continue to contribute additional retail net sales to the Group.

*Cost of Sales.* Cost of sales increased by 13.0 percent to Euro 789.0 million in the first six months of 2006, from Euro 698.5 million in the same period of 2005, and decreased as a percentage of net sales to 30.9 percent from 32.0 percent. The decrease in cost of sales as a percentage of net sales is mainly attributable to a change in sales mix due to increased sales of our Ray-Ban brand and sales of branded products of our designer lines, Prada, Bulgari and Dolce & Gabbana, increased efficiency in our manufacturing facilities and increased production at our Tristar plant, which has a lower cost per unit than our Italian factories. For the first six months of 2006, the average number of frames produced daily in Luxottica's facilities was approximately 145,000 as compared to 111,000 for the same period of 2005, due to increased

production in the Tristar facility, as well as improved productivity in our Italian factories.

**Gross Profit.** For the reasons described above, gross profit increased by 19.1 percent to Euro 1,767.8 million in the first six months of 2006 from Euro 1,484.1 million in the same period of 2005. As a percentage of net sales, gross profit increased to 69.1 percent in the first six months of 2006 from 68.0 percent in the same period of 2005. We believe that, excluding the impact of future foreign exchange fluctuations, our gross profit margins will not fluctuate significantly in future periods.

**Operating Expenses.** Total operating expenses increased by 15.0 percent to Euro 1,358.9 million in the first six months of 2006 from Euro 1,181.9 million in the same period of 2005. As a percentage of net sales, operating expenses decreased to 53.1 percent in the first six months of 2006 from 54.2 percent in the same period of 2005 primarily due to decreases in selling expenses partially offset by higher advertising and royalty expenses.

Selling and advertising expenses (including royalty expenses) increased by 14.4 percent to Euro 1,087.5 million during the first six months of 2006, from Euro 950.4 million in the same period of 2005. As a percentage of net sales, selling and advertising expenses decreased to 42.5 percent in the first six months of 2006 from 43.5 percent in the same period of 2005, primarily due to a reduction of commissions as a percentage of sales, to the sales force in the wholesale division, and to lower store costs in the North American retail division, as well as increased net sales in the North American retail division due to the fixed cost store structure.

General and administrative expenses, including intangible asset amortization, increased by 17.3 percent to Euro 271.5 million in the first six months of 2006 from Euro 231.5 million in the same period of 2005. This includes approximately Euro 21 million of expense relating to stock options expensed in accordance with SFAS 123-R, which was adopted by the Company on January 1, 2006. As a percentage of net sales, general and administrative expenses were flat at 10.6 percent in the first six months of 2006 and 2005, primarily due to an increase in net sales and a reduction of fixed costs in our Retail Asia-Pacific division subsequent to the full integration of the OPSM business, and offset by the increased compensation expense recorded for stock options.

**Income from Operations.** For the reasons described above, income from operations for the first six months of 2006 increased by 35.3 percent to Euro 408.9 million, from Euro 302.2 million in the same period of 2005. As a percentage of net sales, income from operations increased to 16.0 percent in the first six months of 2006 from 13.8 percent in the same period of 2005.

Operating margin, which is income from operations divided by net sales, in the manufacturing and wholesale distribution segment increased to 26.9 percent in the first six months of 2006 from 24.2 percent in the same period of 2005. This increase in operating margin is attributable to lower sales commissions as a percentage of sales and higher gross profit due to a more favorable brand mix, partially offset by higher advertising expenses (including royalty expenses).

Operating margin in the retail segment increased to 13.3 percent in the first six months of 2006 from 11.1 percent in the same period of 2005. Management expects that the North American retail operating margin levels will return to 2004 pre-acquisition operating margin levels by the end of 2006.

**Other Income (Expense) - Net.** Other income (expense) - net was Euro (43.7) million in the first six months of 2006 as compared to Euro (21.0) million in the same period of 2005. This increase in other income (expense) - net is mainly attributable to net realized and unrealized foreign exchange transaction gains and remeasurement losses, in the first six months of 2006, as compared to gains on similar items in the same period of 2005.

**Net Income.** Income before taxes increased by 29.9 percent to Euro 365.2 million in the first six months of 2006 from Euro 281.2 million in the same period of 2005. As a percentage of net sales, income before taxes increased to 14.3 percent in the first six months of 2006, from 12.9 percent in the same period of 2005. Minority interest decreased to Euro (5.6) million in the first six months of 2006 from Euro (6.9) million in the same period of 2005. The Company's effective tax rate was 37.0 percent in the first six months of 2006, while it was 38.0 percent in the same period of 2005. Net income increased by 34.1 percent to Euro 224.5 million in the first six months of 2006 from Euro 167.4 million in the same period of 2005. Net income as a percentage of net sales increased to 8.8 percent in the first six months of 2006 from 7.7 percent in the same period of 2005.

Basic earnings per share for the first six months of 2006 were Euro 0.50 as compared to Euro 0.37 for the same period of 2005. Diluted earnings per share for the first six months of 2006 were Euro 0.49 as compared to Euro 0.37 for the same period of 2005.

*Net Sales.* Net sales increased 13.0 percent to Euro 1,294.8 million during the second quarter of 2006 as compared to Euro 1,145.6 million for the same period of 2005. A portion of the increase in net sales was attributable to currency fluctuations between the Euro, which is the Company's reporting currency, and other currencies in which the Company conducts its business, including the U.S. Dollar and the Australian Dollar. Currency fluctuations accounted for Euro 1.1 million (equivalent to 0.1 percent) of the increase in net sales for the second quarter of 2006.

Net sales in the retail segment increased by 7.6 percent to Euro 907.1 million for the second quarter of 2006 from Euro 842.9 million for the same period of 2005. This increase was primarily due to the positive performance of the North American retail division.

Net sales to third parties in the manufacturing and wholesale segment increased by 27.1 percent to Euro 387.7 million for the second quarter of 2006 as compared to Euro 305.0 million in the same period of 2005. This increase was mainly attributable to increased sales of our Ray-Ban brand as well as sales of Prada, Bulgari and Dolce & Gabbana (which we began distributing in October 2005) branded products, primarily in the European and North American markets.

On a geographic basis, combined retail and manufacturing and wholesale operations in the United States and Canada resulted in net sales of Euro 864.5 million during the second quarter of 2006, comprising 66.8 percent of total net sales, an increase of Euro 80.0 million from the same period of 2005. Net sales for operations in Asia-Pacific were Euro 117.3 million during the second quarter of 2006, comprising 9.1 percent of total net sales, compared to Euro 115.6 million in the same period of 2005. Net sales for the rest of the world accounted for the remaining Euro 313.0 million of net sales during the second quarter of 2006, which represented a 27.5 percent increase as compared to the same period of 2005. The increase in the rest of the world was attributable to strong performance in almost all major European markets.

During the second quarter of 2006, net sales in the retail segment accounted for approximately 70.1 percent of total net sales, as compared to approximately 73.4 percent of net sales in the same period of 2005. This decrease in retail net sales as a percentage of total net sales is due to a significant increase in net sales of our manufacturing and wholesale business, which for the first six months of 2006 grew over twice as quickly as a percentage of its net sales as our retail division. We expect this trend to continue at a more moderate pace in the last six months of 2006 as the newly acquired retail outlets in Canada and mainland China continue to contribute additional retail net sales to the Group.

**Cost of Sales.** Cost of sales increased by 7.6 percent to Euro 392.2 million in the second quarter of 2006, from Euro 364.4 million in the same period of 2005, and decreased as a percentage of net sales to 30.3 percent from 31.8 percent. For the second quarter of 2006, the average number of frames produced daily in Luxottica's facilities was approximately 154,000 as compared to 114,000 for the same period of 2005, due to increased production capacity in the Tristar facility, as well as improved productivity in our Italian factories.

**Gross Profit.** For the reasons described above, gross profit increased by 15.6 percent to Euro 902.6 million in the second quarter of 2006 from Euro 781.1 million in the same period of 2005. As a percentage of net sales, gross profit increased to 69.7 percent in the second quarter of 2006 from 68.2 percent in the same period of 2005. We believe that, excluding the impact of future foreign exchange fluctuations, our gross profit margins will not fluctuate significantly in future periods.

**Operating Expenses.** Total operating expenses increased by 11.3 percent to Euro 685.2 million in the second quarter of 2006 from Euro 615.4 million in the same period of 2005. As a percentage of net sales, operating expenses decreased to 52.9 percent in the second quarter of 2006 from 53.7 percent in the same period of 2005, primarily due to decreases in selling expenses partially offset by higher advertising and royalty expenses.

Selling and advertising expenses (including royalty expenses) increased by 9.9 percent to Euro 543.7 million during the second quarter of 2006, from Euro 494.7 million in the same period of 2005. As a percentage of net sales, selling and advertising expenses decreased to 42.0 percent in the second quarter of 2006 from 43.2 percent in the same period of 2005, primarily due to a reduction of commissions as a percentage of sales, to the sales force in the wholesale division, and to lower store costs in the

North American retail division, as well as increased net sales in the North American retail division due to the fixed cost store structure.

General and administrative expenses, including intangible asset amortization, increased by 17.2 percent to Euro 141.5 million in the second quarter of 2006 from Euro 120.8 million in the same period of 2005. This includes the effect from the adoption of SFAS 123-R of approximately Euro 11 million. As a percentage of net sales, general and administrative expenses increased to 10.9 percent in the second quarter of 2006 from 10.5 percent in the same period of 2005, primarily due to increased consulting expenses associated with Sarbanes-Oxley compliance and increased human resources headcount and expenses.

**Income from Operations.** For the reasons described above, income from operations for the second quarter of 2006 increased by 31.2 percent to Euro 217.4 million, from Euro 165.7 million in the same period of 2005. As a percentage of net sales, income from operations increased to 16.8 percent in the second quarter of 2006 from 14.5 percent in the same period of 2005.

Operating margin in the manufacturing and wholesale distribution segment increased to 27.8 percent in the second quarter of 2006 from 24.5 percent in the same period of 2005. This increase in operating margin is attributable to lower sales commissions as a percentage of sales and higher gross profit due to a more favorable brand mix, partially offset by higher advertising expenses (including royalty expenses).

Operating margin in the retail segment increased to 13.9 percent in the second quarter of 2006 from 11.9 percent in the same period of 2005. Management expects that the North American retail operating margin levels will return to 2004 pre-acquisition operating margin levels by the end of 2006.

**Other Income (Expense) - Net.** Other income (expense) - net was Euro (22.9) million in the second quarter of 2006 as compared to Euro (13.6) million in the same period of 2005. This increase in other income (expense) - net is mainly attributable to net realized and unrealized foreign exchange transaction gains and remeasurement losses, in the second quarter of 2006, as compared to gains on similar items in the same period of 2005.

**Net Income.** Income before taxes increased by 27.8 percent to Euro 194.5 million in the second quarter of 2006 from Euro 152.1 million in the same period of 2005. As a percentage of net sales, income before taxes increased to 15.0 percent in the second quarter of 2006, from 13.3 percent in the same period of 2005. Minority interest decreased to Euro (1.3) million in the second quarter of 2006 from Euro (3.3) million in the same period of 2005. The Company's effective tax rate was 37.0 percent in the second quarter of 2006, while it was 38.0 percent in the same period of 2005. Net income increased by 33.1 percent to Euro 121.2 million in the second quarter of 2006 from Euro 91.1 million in the same period of 2005. Net income as a percentage of net sales increased to 9.4 percent in the second quarter of 2006 from 7.9 percent in the same period of 2005.

Basic and diluted earnings per share for the second quarter of 2006 were Euro 0.27 as compared to Euro 0.20 for the same period of 2005.

## BALANCE SHEET DISCUSSION

*Our Cash Flows*

*Operating Activities.* The Company's cash provided by/(used in) operating activities was Euro 184.2 million for the first six months of 2006 as compared to Euro 249.0 million for the same period of 2005. This Euro 64.8 million decrease is primarily attributable to advance payments made by the Company to certain designers for future contracted minimum royalties, an increase in accounts receivable, and tax payments to comply with an Italian tax law which was adopted in December 2005 allowing for the step-up in tax basis of certain intangible assets, which were partially offset by an increase in net income. Depreciation and amortization were Euro 104.0 million for the first six months of 2006 compared to Euro 95.1 million for the same period of 2005. Deferred taxes was a use of cash of Euro 64.0 million for the first six months of 2006 compared to a source of cash of Euro 2.2 million for the same period of 2005. This change resulted from the reversal in 2005 of certain 2004 deferred taxes related to the net operating losses carried forward of certain Italian entities. Accounts receivable was a use of cash for the first six months of 2006 of Euro 188.0 million as compared to a use of cash of Euro 129.4 million for the same period of 2005, primarily due to the increase in sales of our manufacturing and wholesale segment. Inventories were a use of cash for the first six months of 2006 of Euro 1.3 million compared to a source of cash of Euro 57.8 million for the same period of 2005, primarily due to growing inventory level of the retail division to support the business. The amount of cash provided by operating activities for accounts payable and accrued expenses increased by Euro 3.8 million and Euro 0.1 million, respectively, for the first six months of 2006 as compared to the same period of 2005. The increase in accounts payable and accrued expenses is mainly attributable to the timing of payment of certain vendors in the North American retail division. Income tax payable was a source of cash for the first six months of 2006 of Euro 33.8 million as compared to a source of cash of Euro 21.8 million for the same period of 2005 due to timing of tax payments.

*Investing Activities.* The Company's cash from investing activities was a use of Euro 190.0 million for the first six months of 2006 as compared to a use of Euro 33.9 million for the same period of 2005. This Euro 156.1 million decrease in cash flow from investment activities is primarily attributable to the sale of Pearle Europe for Euro 144.0 million in January 2005. Purchase of businesses, net of cash acquired, was Euro 83.7 million in the first six months of 2006 mainly due to the acquisitions of Shoppers Optical, a Canadian-based optical chain, for approximately Euro 50.2 million and of Beijing Xueliang Optical Technology Co. Ltd. for approximately Euro 17.0 million. Purchase of businesses, net of cash acquired, was Euro 73.1 million in the first six months of 2005, due to the Company's acquisition of the remaining minority stake of OPSM for Euro 62.0 million which was completed in February 2005, and two asset acquisitions by the North American retail division for an aggregate amount of Euro 11.1 million. Capital expenditures were Euro 105.2 million for the first six months of 2006 as compared to Euro 101.7 million for the same period of 2005. This increase is due to investment in the manufacturing facilities of the wholesale division and the opening, remodeling and relocation of stores in the retail division, in addition to the costs associated with the expansion of the North American

retail division's home office, which is expected to be completed in 2006, and the integration of the North American distribution centers.

*Financing Activities.* The Company's cash provided by/(used in) financing activities for the first six months of 2005 and 2006 was Euro (108.4) million and (40.5) million, respectively. Cash used by financing activities for the first six months of 2005 consisted primarily of the proceeds of Euro 208.0 million from long-term debt and Euro 113.5 million from unsecured short-term credit lines, which were used to repay long-term debt expiring during the first six months of 2005 and to pay Euro 103.5 million of dividends to the Company's shareholders. Cash used by financing activities for the first six months of 2006 consisted primarily of the proceeds of Euro 84.1 million from long-term debt and Euro 9.7 million from unsecured short-term credit lines, which were used to repay Euro 19.5 million of long-term debt and to pay Euro 131.4 million of dividends to the Company's shareholders.

The Company has relied primarily upon internally generated funds, trade credit and bank borrowings to finance its operations and expansion.

Bank overdrafts represent negative cash balances held in banks and amounts borrowed under various unsecured short-term lines of credit obtained by the Company and certain of its subsidiaries through local financial institutions. These facilities are usually short-term in nature or contain evergreen clauses with a cancellation notice period. Certain of these subsidiaries' agreements require a guarantee from Luxottica Group S.p.A. Interest rates on these lines vary based on the country of borrowing, among other factors. The Company uses these short-term lines of credit to satisfy its short-term cash needs.

On September 3, 2003, Luxottica U.S. Holdings Corp. In connection with the issuance of the Notes, U.S. Holdings entered into three interest rate swap agreements with Deutsche Bank AG (collectively, the DB Swap ). The three separate agreements' notional amounts and interest payment dates coincide with those of the Notes. The DB Swap exchanged the fixed rate of the Notes for a floating rate of the six-month LIBOR rate plus 0.66 percent for the Series A Notes and the six-
